Rule 18. (1) No estate, in which there is intangible personal property subject to tax under this act, shall be closed without the payment of the tax levied by this act, both in respect to the liability of the estate and the decedent prior to his death. A copy of the inventory and a copy of the final account, in all estates in which there is intangible personal property subject to tax under this act, shall be filed by the fiduciary with the department of revenue, except as hereinafter provided, within 10 days of the filing of the same with the probate court. In the closing of estates the department may accept the inventory and final account in lieu of the filing of a return in cases in which no tax is due, or may require the filing of a return or such additional information as the department may deem necessary.

(2) The intangibles tax is based upon income from intangibles, or face, par or contributed values, and, therefore, appraisal values fixed by appraisers appointed by the court have no bearing upon the computation of the intangibles tax.

(3) Co-executors constitute 1 legal person under the intangibles tax act and should make 1 return and take but 1 individual deduction.

(4) A Michigan estate being administered by an ancillary administrator is subject to tax on intangibles in the estate.

History: 1944 AC, p. 1347; 1944 ACS 5, p. 30; 1954 AC, p. 944.

R 205.219 Income.

Rule 19. (1) The term "income" includes: (a) Interest received upon intangible personal property; (b) dividends and other distributions, whether in the form of cash or property, to the extent that they represent the yield of intangible personal property; and (c) all other earnings or yield of intangible personal property regardless of the name by which designated, provided that for the purpose of computing the tax imposed under this act, the gross income, including taxes, charges and other deductions which may be made therefrom, shall be the basis upon which the tax shall be measured.

(2) Withholding taxes, exchange fees and other charges which may be deducted from dividends or other income shall be disregarded and the gross amount of such income, before the deduction of such charges, shall be the amount used in computation of tax due.

(3) Discounts earned by means of deductions from the face value of notes, conditional sales contracts, chattel mortgages and similar instruments by a holder of or a dealer in such intangible personal property constitute "other earnings or yield of intangible personal property" to such holder or dealer and must be considered as income in the computation of the tax. Any other charges added to a net unpaid balance due from a purchaser, borrower, or vendee for the privilege of making deferred payments constitute other earnings or yield within the meaning of the statute and notes, conditional sales contracts, chattel mortgages or other

intangible personal property containing or including such charges shall be taxed as income producing property.

(4) A taxpayer claiming that any charges added to the original purchase price or net unpaid balance do not represent taxable income shall open and display any and all records as may be required by the department of revenue for the purpose of determining whether or not such charges constitute income within the meaning of the statute. In such cases it shall be the duty of the taxpayer to present adequate proof to the department to substantiate his claim that such charges are for other purposes than income upon the intangible personal property in question.

(5) For the purpose of computation of the tax the face or taxable values of instruments containing or including such charges may be considered to be the net unpaid balance due not including the amount of such charges as are treated as income to the holder or dealer.

(6) Interest upon intangibles either actually received or payable upon demand during the tax year is to be considered as taxable income; provided, however, that the tax shall be computed on the gross amount of such interest before any deductions referred to in the first 2 paragraphs of this rule have been made.

(7) Taxpayers who purchase or sell coupon bonds between coupon dates shall report as "interest earned" all moneys earned during the entire period the bond was held in lieu of only the amount of the coupon which matured during this period.

(8) A dividend paid in cash is income except to the extent it represents a return of capital in liquidation. A dividend paid on common stock in shares of a like kind and character and of the same corporation is not income. A dividend paid in the shares of stock of a different kind and character or of another corporation, or in notes, debentures or bonds of the same or of another corporation (except in liquidation), is income which shall be measured by the fair market value of such securities at the time of the payment of such dividend. A dividend paid in other property, e.g., sugar, oil, etc., (except in liquidation), is likewise income which shall be measured by the fair market value of such property at the time of payment of such dividend.

History: 1944 AC, p. 1347; 1944 ACS 5, p. 30; 1944 ACS 36, p. 46; 1954 AC, p. 944.

R 205.220 Income producing property.

Rule 20. Intangible personal property shall be considered as income producing if income is actually received by the taxpayer during the tax year or portion thereof that he holds the property or if income is payable on demand during that period. In the case of intangible personal property upon which interest or income is payable at stated intervals and if the taxpayer maintains an accurate accounting system on an accrual basis, income may be calculated on this basis for computation of the tax.

History: 1944 AC, p. 1348; 1944 ACS 5, p. 31; 1954 AC, p. 945.

R 205.221 Deduction of expense from income.

Rule 21. The intangibles tax statute makes no provision for the deduction of expense from income. Therefore, such deduction will not be allowed.

History: 1944 AC, p. 1348; 1944 ACS 5, p. 31; 1944 ACS 16, p. 18; 1954 AC, p. 945.

R 205.222 Variable tax values.

Rule 22. (1) Moneys on hand or in transit or on deposit in a bank or the paid-in value of shares of stock in building and loan or savings and loan associations shall be taxable as of their face value at the close of business on the retroactive date

Digitized by Google

fixed each year by the department. No other method of determining taxable values may be used for such intangibles.

(2) As to other intangible personal property the value of which may change from time to time, the taxpayer may elect to use either the retroactive date method or a true average method. Once having made such an election the taxpayer shall continue to use the same method in succeeding years unless he obtains permission from the department to change his election. No such change of election shall become effective until the next tax year succeeding the filing of the application for change with the department. No special notice of election shall be necessary in connection with the first annual return filed under this provision and the method followed by the taxpayer in computing the tax on such return shall be deemed to constitute the taxpayer's election and subsequent returns shall follow the same method, except in cases in which a change of election is approved by the department. The taxpayer shall indicate on each return the method followed in determining taxable values.

(3) If the taxpayer elects to follow the retroactive date method, the tax shall be computed as if he had been the owner of all intangible personal property on hand at the close of business on that date for the entire tax year. In the case of stocks, bonds and other items of a similar character, it shall be presumed that the taxpayer received the entire income earned by such property during the entire tax year, irrespective of any acquisitions or dispositions of such property during that period.

(4) If the taxpayer elects to follow the true average method as to property, the value of which may fluctuate during the tax year, he shall determine the true average by adding together the balances of such items at the close of each month during the tax year and dividing the total by 12. If the taxpayer regularly uses an accounting period other than the calendar month, the department may permit the similar use of balances at the end of such periods. This method shall only be used in connection with such items as accounts or notes receivable or other items of a similar character. Taxpayers using this method shall report stocks, bonds, mortgages and other investments of a similar character on the basis of the period of time actually held and gross income as defined in R 29.219 actually received or payable upon demand during the period held.

(5) Taxpayers in business who are entitled to deduct payables from receivables shall compute the amount of the payable deduction on the same basis as was used to compute the amount of receivables.

(6) Because of the distinction made in the law between income producing and non-income producing property and the application of the minimum limit of the tax in the case of income producing property, in determining such average value each class of items must be separately treated. Within each class separate treatment must also be accorded to the income producing and non-income producing intangibles.

History: 1944 AC, p. 1349; 1944 ACS 5, p. 31; 1954 AC, p. 946.

R 205.223 Statutory deductions.

Rule 23. From the total computed tax the statute permits the deduction of $20.00 on the return of each taxpayer with the provision that in the case of jointly owned property, there shall be but one such deduction from the tax on such property. Therefore, husbands and wives and others owning property jointly shall take but one deduction from the tax on property owned in this manner. The statute further provides that this deduction shall not apply to the tax on moneys on hand or in transit or on deposit in a bank or on shares of stock in building and loan

or savings and loan associations. In case the return covers a period of less than a full year the deduction shall be reduced proportionately. For the purpose of computation of the amount of the deduction on returns for a period of less than 1 year, the fractional period of the year by months shall be used and periods of less than 16 days shall be ignored and periods of 16 days or more but less than a full month shall be considered as 1 month.

History: 1944 AC, p. 1349; 1944 ACS 5, p. 32; 1954 AC, p. 946.

R 205.224 Accounts receivable.

Rule 24. (1) An account receivable is an obligation owing to a person on open account.

(2) Accounts receivable representing obligations of the United States government, state of Michigan or its political subdivisions are taxable to the person to whom the obligation is due on the same basis as any other account receivable.

(3) In the case of the maturity of an insurance policy, or the death of the insured, when the proceeds are not converted into periodic payments and taxable as an annuity under the act, but the funds are left on deposit with the company, such funds will be considered to be a taxable account receivable.

(4) Credits, due bills, deposits with credit unions or deposits with persons, firms or corporations other than banks shall be considered as accounts receivable unless they represent capital investments.

(5) Moneys on deposit in a bank in either a savings or commercial account shall not be considered as accounts receivable.

History: 1944 AC, p. 1349; 1944 ACS 5, p. 32; 1954 AC, p. 947.

R 205.225 Deduction of accounts and notes payable from receivables.

Rule 25. (1) An account payable is an obligation owing by a person on open account.

(2) The taxpayer may deduct from accounts and notes receivable, taxable under this act, accounts and notes payable by him, if such payables are incurred or given in connection with the business from which the receivables are derived, provided that accounts payable shall include only current open trade accounts for goods, material, merchandise and services for which the taxpayer has been billed. Notes payable shall not include bonds, debentures or similar items and neither shall it include any obligations of any type due more than 1 year from date of issuance. Therefore, this deduction is restricted to business returns and individual obligations not connected with business activities are not deductible. Deductible payables do not include payrolls, wage costs and related or similar items. Deductible payables do not include liabilities or obligations for the furnishing of goods, material, merchandise or services for which the taxpayer has received advance payment. Deductible payables do not include obligations for the erection or acquisition of plant or facilities for the conduct of business or the acquisition of capital assets. Deductible payables do not include dividends payable, accruals or contingent payables or other similar items. A contingent payable is an item or account which may become a definite obligation at some future date in case certain contingencies or circumstances arise. Taxes payable are not deductible unless they consist of taxes levied upon or collected from persons other than the taxpayer and received or retained by the taxpayer for remission to a governmental agency. As an example, social security taxes deducted from employees' pay checks and held in the possession of the employer would be considered a deductible payable on the return of the employer but that portion of social security taxes imposed upon the employer would not be deductible.

(3) In case a taxpayer has both income producing and non-income producing receivables the deduction of allowable payables shall first be made from the non-income producing receivables. If the allowable payables exceed such receivables then the amount of such excess may be deducted from the income producing receivables. In case income producing receivables from which payables are to be deducted earn income at variable rates, such receivables and the income therefrom shall be considered in total and the allowable payables applicable to income producing receivables as hereinbefore provided shall be deducted therefrom and the total income applicable to the taxable balance of income producing receivables shall be the same percentage of the total income as the taxable income producing receivables are of the total income producing receivables.

(4) Mortgages payable are not allowable payables except in those cases in which the taxpayer holds a land contract covering the same real estate as that involved in the mortgage and in such cases the balance due on the mortgage may be deducted from the unpaid balance due on the contract. Income for the purpose of the computation of the tax shall be deemed to be the amount of such equity times the interest rate of the contract. In case the mortgage covers property in addition to that represented by the contract, the amount deductible from the contract shall be determined by a proportionate division of the mortgage according to value of the property so covered; provided, however, upon application the department may in its discretion approve any other plan of division which it considers will result in a fair and equitable apportionment.

(5) Insurance or collection agencies may consider as accounts payable that portion of premiums or collections received that is due to the company or principal.

(6) When a resident taxpayer is conducting business within and without the state of Michigan and his deductible payables cannot be accurately divided between the business within and without the state, he shall consider that the same percentage of such deductible payables may be used as the percentage which his taxable accounts receivable is of his total accounts receivable.

History: 1944 AC, p. 1349; 1944 ACS 5, p. 32; 1944 ACS 28, p. 20; 1944 ACS 36, p. 47; 1954 AC, p. 947.

R 205.226 United States government obligations.

Rule 26. (1) All bonds of the United States government are exempt from the tax. However, postal savings deposits are not exempt. Postal savings bonds are exempt by reason of act of congress.

(2) Accounts receivable due to a taxpayer from the federal government are taxable, since such obligations are not exempt by act of congress.

History: 1944 AC, p. 1350; 1944 ACS 5, p. 33; 1954 AC, p. 948.

R 205.227 Fiscal year.

Rule 27. The taxpayer may use the fiscal year basis in making returns, computing and paying the tax, if permission is first obtained from the department of revenue. However, a taxpayer having obtained permission to use a fiscal year, may not change back to use of the calendar year without obtaining permission from the department of revenue.

History: 1944 AC, p. 1350; 1944 ACS 5, p. 33; 1954 AC, p. 948.

R 205.228 Property owned part of tax year.

Rule 28. When an item of intangible personal property is owned by a taxpayer for only part of the tax year, the tax may be reduced proportionately based upon

the length of time the item was actually owned; provided, however, this rule shall not apply in cases in which the taxpayer follows the retroactive date method in determining the taxable amounts of intangible personal property to be included on his return.

History: 1944 AC, p. 1350; 1944 ACS 5, p. 33; 1954 AC, p. 948.

R 205.229 Retroactive date.

Rule 29. On or about the close of each calendar year the department shall retroactively fix a date which shall be the last day of any month during such year. A taxpayer has the option of using this date for the determination of taxable intangible personal property subject to tax and for the determination of the face value thereof, or he may use the true average method and the period of time the property was actually owned. However, this date must be used for the determination of the taxable amount of moneys on hand or in transit or on deposit in a bank or of the paid-in value of shares of stock in building and loan or savings and loan associations. If the taxpayer uses this date he shall be deemed to have been the owner of intangible personal property on hand on that date for the entire tax year, irrespective of any acquisitions or dispositions of such property during the tax year, and to have received the income from such property, if any, for the entire year. (See R 205.222 and R 205.228.)

History: 1944 ACS 5, p. 33; 1954 AC, p. 948.

R 205.230 Trustees and beneficiaries of trusts.

Rule 30. (1) When a trustee accumulates the income from the property in the trust or is required to accumulate such income, if any, the trustee is deemed to be the owner to the extent income is accumulated and shall file any return and pay the tax required by the act. The department shall have access to the records of the trustee for the purpose of determining the tax or correctness of the tax or information returns and to verify the trustee's determination as to trusts which the trustee claims to be exempt from the tax.

(2) A beneficiary domiciled in this state who receives income from a trust shall be deemed to be the owner of the intangible personal property in the trust and taxable as such owner to the extent of his beneficial interest therein, irrespective of the state or other jurisdiction of the creation or administration of said trust.

History: 1944 ACS 5, p. 33; 1944 ACS 16, p. 18; 1954 AC, p. 948.

R 205.231 Formula of apportionment for taxpayers doing business within and without this state.

Rule 31. In applying the formula of apportionment, the following shall govern:

(a) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.

(b) Property factor:

(i) Original cost includes the original cost of additions and improvements.

(ii) If original cost is not available, as in mergers and consolidations, then the book values at which the properties were transferred.

(iii) Inventories may be valued consistent with and in the same manner as for federal income tax purposes.

(iv) Annual rental rate includes the entire amount of money or other consideration paid either directly or indirectly. If rent is paid on other than a time basis then the other basis shall be used. The term shall also include any amount paid or accrued for interest, taxes, insurance or other items of expense to the taxpayer

pursuant to the use of property of others. If the rental rate is nominal or zero the department shall apply a rate which will reasonably reflect the value of the property rented.

(c) Payroll factor: This is the same figure which will be used by the taxpayer for unemployment compensation purposes.

(d) Sales factor: This factor shall be the gross receipts or entire receipts from any activity whether in intrastate, interstate or in foreign commerce carried on for gain, benefit or advantage. Receipts mean the amount received or to be received in money, credits, property or other money's worth. The term shall not include wages, salaries or other compensation received for services rendered by an employee to his employer, proceeds of the sale of capital assets, repayments of debts, and amounts received, as agent or otherwise, solely on behalf of another, cash discounts allowed and taken on sales and the proceeds of sale of goods, wares or merchandise returned by customers when the sales price is refunded or where equivalent credit is granted.

STATE BOARD OF TAX APPEALS

PRACTICE AND PROCEDURE

(By authority of Act No. 122 of the Public Acts of 1941, being §205.1 et seq. of the Michigan Compiled Laws)

R 205.301 Business hours.

Rule 1. The offices of the board at Lansing, Michigan, will be open from 9:00 to 12:00 and 1:00 to 5:00, daily except Saturday.

History: 1944 AC, p. 1350; 1954 AC, p. 949.

R 205.302 Representation.

Rule 2. Practice before this board shall be limited to attorneys at law in good standing, provided that any individual taxpayer or member of a taxpayer partnership may appear for himself or such partnership upon adequate identification to the board. A taxpayer corporation may be represented by a bona fide officer of the corporation. The board, upon its motion, may request a taxpayer's certified public accountant to assist in presentation of facts to the board.

History: 1944 AC, p. 1350; 1954 AC, p. 949.

R 205.303 Form and style of papers.

Rule 3. (1) All papers filed with the board shall be either printed or typewritten, and if typewritten, shall be on only 1 side of plain white paper. This paper shall be no more than 8½ inches wide and 13 inches long. Copies shall be legible but may be on any weight paper. Citations shall be in italics when printed, and underscored when typewritten.

(2) The proper caption shall be placed upon all papers filed. If the petitioner is an individual, the full given name and surname shall be set forth in the caption. If the petitioner is a married woman, her given name shall be used, not the name of her husband preceded by "Mrs." If the petitioner is a fiduciary, the name of the estate, trust, or other person for whom he acts shall be given first, followed by the name of the fiduciary.

(3) Except as otherwise provided in these rules, a signed original and 3 copies of all papers shall be filed. Whenever any paper is filed in more than 1 proceeding

(as a motion to consolidate proceedings or in proceedings already consolidated), 1 additional copy shall be filed for each additional proceeding.

(4) The written signature, whether of the attorney or of the petitioner, shall be in individual and not in the firm name, except that where the petitioner is a corporation the written signature shall be by an active officer of the corporation. The name and mailing address of the petitioner or of the representative shall be typed or printed immediately following the written signature.

History: 1944 AC, p. 1350; 1954 AC, p. 949.

R 205.304 Initiation of proceeding.

Rule 4. (1) A proceeding shall be initiated by filing with the board a notice of appeal by petition as provided in R 205.303, and substantially in accordance with the form hereinafter set forth.

(2) At the time of filing said petition, the appellant shall deposit with the board as security for costs 2% of the amount of the tax in controversy, but not less than $25.00 nor more than $100.00.

(3) The petition shall be complete in itself so as to fully state the issues and shall contain the following:

STATE OF MICHIGAN
STATE BOARD OF TAX APPEALS

_____
Appellant

vs.

DEPARTMENT OF REVENUE,
Appellee

DOCKET NO.

PETITION.

TO THE STATE BOARD OF TAX APPEALS:

The above named appellant hereby petitions for a redetermination of the assessment (decision or order) set forth by the Department of Revenue in its notice of assessment (decision or order) date _____, 19____, and as a basis of his proceeding alleges as follows:

1. The appellant is (set forth whether individual, corporation, etc.) with principal office (or residence) at _____
(Street) (City) (State)

2. The taxes in controversy are (sales tax, use tax, intangible tax, etc.) for the period _____ and in the amount of _____ dollars.

3. A statement of the portion, if any, of the tax which is admitted by the appellant to be correct.

4. The determination of tax set forth in said notice is based upon the following errors: (Enumerate specifically the assignments of error in a concise manner and avoid pleading facts which properly belong in the succeeding paragraph). Copy of said notice is hereto attached and marked exhibit A.

5. The facts upon which the appellant relies as the basis of this proceeding are as follows:

(Here set forth allegations of facts relied upon, in orderly and logical sequence, with subparagraphs lettered, so as to inform the Board of the issues to be

History: 1944 AC, p. 1351; 1954 AC, p. 949.

R 205.305 Filing.

Rule 5. Any document to be filed with the board must be filed at the office of the board in Lansing, Michigan, provided that whenever hearings are held by the board outside of Lansing, Michigan, documents pertaining thereto may be filed at the hearing; provided, further, that any document to be filed with the board may be filed by mail.

History: 1944 AC, p. 1352; 1954 AC, p. 950.

R 205.306 Docket.

Rule 6. Upon receipt of the petition, the proceeding will be docketed and assigned a number, and the parties notified thereof. This number shall be placed by the parties on all papers thereafter filed in the proceeding.

History: 1944 AC, p. 1352; 1954 AC, p. 950.

R 205.307 Service of petition.

Rule 7. (1) The appellant in any case initiated before the board shall forthwith serve a copy of the petition upon the commissioner of revenue, or any agent within the department of revenue designated by the commissioner as the agent of the department upon whom service of notice of appeal may be made. The appellant shall then file proof of service with the board within 5 days after such service.

(2) Such service upon the commissioner or his designated agent may be made by the appellant or his attorney either personally or by registered mail with the return receipt demanded.

History: 1944 AC, p. 1352; 1954 AC, p. 950.

R 205.308 Answer.

Rule 8. (1) After service of a copy of the petition, the department shall have 15 days within which to file an answer to the petition. The answer shall be drawn fully and completely so as to advise the appellant and the board of the nature of the defense. It shall contain a specific admission or denial of each material allegation of fact contained in the petition, and a statement of any facts upon which the department relies for defense, and shall contain any affirmative allegations to be relied upon by the department.

(2) Each paragraph contained in the answer shall be numbered to correspond with the paragraphs of the petition. An original and 3 copies of the answer shall be filed, of which the original shall be signed by the commissioner of revenue or his counsel, and the copies conformed by him.

(3) The department shall forthwith serve a copy of the answer upon the attorney of record, or if there is no attorney of record then upon the appellant, and shall file proof of service with the board within 5 days after such service.

History: 1944 AC, p. 1352; 1954 AC, p. 951.

R 205.309 Hearings.

Rule 9. (1) Upon the filing of the answer, the board shall have jurisdiction to review such assessment, decision, or order, and both the appellant and the department shall have the right to swear witnesses and to be represented by counsel.

(2) Said hearing shall be had within 60 days after filing of the answer.

History: 1944 AC, p. 1352; 1954 AC, p. 951.

R 205.310 Notice of hearings.

Rule 10. When a proceeding has been placed upon the calendar for hearing, the clerk will notify the parties of the time and place of hearing not less than 10 days prior thereto. Parties shall arrange to have their witnesses at the time and place designated in the notice of hearing, and exhibits must be ready for presentation at such time.

History: 1944 AC, p. 1352; 1954 AC, p. 951.

R 205.311 Public hearings.

Rule 11. All hearings before this board shall be public; provided, however, that the board, upon motion of the appellant, may exclude from the hearing all persons not directly interested therein. The board may make such an order upon a proper showing by the appellant that information divulged would be detrimental to the appellant's business.

History: 1944 AC, p. 1352; 1954 AC, p. 951.

R 205.312 Failure to appear.

Rule 12. The unexcused absence of a party or his attorney at the place and hour set for hearing of any proceeding before the board will not be an occasion for delay. The hearing will proceed and the case will be regarded as submitted on the part of the absent party or parties.

History: 1944 AC, p. 1352; 1954 AC, p. 951.

R 205.313 Evidence.

Rule 13. Legal rules of evidence prevailing in the circuit courts of the state shall be enforced. The following do not constitute evidence:

(a) Statements of counsel;
(b) Unidentified and unauthorized documents and letters;
(c) Affidavits which have not been submitted to the opposing party and approved by such party to be submitted as evidence;
(d) Briefs and arguments.

History: 1944 AC, p. 1352; 1954 AC, p. 951.

R 205.314 Amendments.

Rule 14. Either party may amend his petition or answer at any time prior to the hearing before this board, by consent of the adverse party or by leave of the board. An original and 4 copies of such amendment shall be filed with the clerk, and the clerk shall serve upon the adverse party or his attorney of record a copy of such amendment. All motions to amend must be accompanied by the proposed amendments.

History: 1944 AC, p. 1352; 1954 AC, p. 951.

R 205.315 Substitution of attorney.

Rule 15. Substitution of an attorney shall be made only upon the written stipulation of the withdrawing attorney and the appearance of the substituted attorney being promptly filed with the board. The board shall not recognize such withdrawals and substitution until such stipulation is duly filed.

History: 1944 AC, p. 1353; 1954 AC, p. 952.

R 205.316 Continuance.

Rule 16. No continuance shall be granted except for good cause shown by the appellant or his attorney, and then only upon notice in writing to the board within 6 days after notification by the clerk of the board that a hearing has been set.

History: 1944 AC, p. 1353; 1954 AC, p. 952.

R 205.317 Depositions.

Rule 17. The testimony of any witness may be taken by deposition de bene esse in accordance with sections 14160 to 14167, inclusive, of the Michigan Compiled Laws. All testimony taken in a foreign language shall be taken in triplicate and shall be correctly translated into the English language at the expense of the party taking the same. One copy of the testimony together with said translation shall be filed with the board within 10 days after the return of such deposition and a copy of the testimony together with a copy of the translation served upon the opposite party at the time of filing said testimony and translation with the board. An affidavit by the translator shall be attached to such translation that the same is a correct translation of the original into the English language and of the whole thereof. Such translation shall be considered as correct unless objections are made to same by the opposite party within 10 days after the service of said testimony and translation upon him.

History: 1944 AC, p. 1353; 1954 AC, p. 952.

R 205.318 Stipulation of facts.

Rule 18. The parties, by stipulation in writing filed with the board or presented at the hearing, may agree upon any facts involved in a proceeding. Stipulations filed with the board need not be formally offered to be considered in evidence.

History: 1944 AC, p. 1353; 1954 AC, p. 952.

R 205.319 Proposed findings of fact.

Rule 19. The board may require either party to a proceeding to submit proposed findings of fact at the close of the hearing or within such time as it may direct.

History: 1944 AC, p. 1353; 1954 AC, p. 952.

R 205.320 Briefs.

Rule 20. The board, in its discretion, may require that briefs be submitted either before or after the hearing and may designate the manner of filing and serving the same and the time therefor.

History: 1944 AC, p. 1353; 1954 AC, p. 952.

R 205.321 Computation of time.

Rule 21. The day on which any rule shall be entered, or order, notice, pleading, or paper served shall be excluded in the computation of the time for complying with the exigency of such rule, order or notice, pleading or paper, and the day on which a compliance therewith is required shall be included, except where it shall fall on Sunday or a legal holiday, in which case the party shall have the next business day to comply therewith.

History: 1944 AC, p. 1353; 1954 AC, p. 952.

CIGARETTE TAX

(By authority of Act No. 265 of the Public Acts of 1947, being §205.51 et seq. of the Michigan Compiled Laws)

R 205.401 Identification of manufacturer's shipping case; seal; stamp; seizure and confiscation.

Rule 1. (1) The first purchaser of cigarettes in this state is required to identify each original manufacturer's shipping case of cigarettes so purchased with his name and address and an impression of a seal prescribed by the department of revenue. This seal has been designed by the department and it includes in it the license number assigned to said first purchaser by the department. The name and address of the original purchaser and the seal referred to in this regulation will be incorporated in a rubber stamp which must be obtained by each person licensed to make purchases of cigarettes from unlicensed sources. The stamp must be obtained from a stamp manufacturer authorized by the department of revenue to make such stamps. The said rubber stamp may be manufactured only on the written authority of the Michigan department of revenue, and each stamp so manufactured shall comply with the specifications of the department, and only such stamp manufacturers approved by the department shall be authorized to manufacture such stamps.

(2) Any manufacturer of stamps desiring to manufacture or reproduce such stamps may receive authorization to manufacture or reproduce such stamps upon written application and approval by the department of revenue. A list of authorized stamp manufacturers will be supplied to cigarette licensees by the department upon request.

(3) Each person licensed by the department to acquire cigarettes from unlicensed sources shall obtain any required stamps from an authorized manufacturer. The stamp manufacturer must obtain verification from the department that the purchaser is a properly qualified licensee. The department will advise the manufacturer of the license number to be incorporated in the seal. The name and

address of the licensee and the prescribed seal must appear on each end of the shipping case so that when a manufacturer's shipping case is split in half, the name and address and seal will appear in their entirety on either half of the case.

(4) After the effective date of this rule, cigarettes in cases not stamped as provided for in this rule shall be subject to seizure and confiscation in accordance with the provisions of Act No. 265, P.A. 1947, as amended.

History: 1944 ACS 32, p. 6; 1954 AC, p. 953.

BUSINESS ACTIVITIES TAX

(By authority of section 19 of Act No. 150 of the Public Acts of 1953, as amended, being §205.569 of the Michigan Compiled Laws)

R 205.551 Filing of returns.

Rule 1. (1) Every person in a business activity as defined in the act and subject to the tax imposed thereby, who has annual gross receipts as defined in this act of $25,000.00 or over, must file a return. No return shall be required under this act from any person who does not have gross receipts of more than $25,000.00 during his fiscal year, provided that such a person is engaged in a business activity for a full year. Therefore, the tax applies to retailers, wholesalers, manufacturers, service industries, professional men, agricultural producers and anyone else engaged in a business activity as defined in the act.

(2) The taxes levied hereunder shall be due and payable in quarterly installments except as hereinafter provided. The quarterly return shall be filed on or before the last day of the month immediately following each quarterly period of such taxpayer, provided that the tax due for the last quarter of the taxpayer's year shall be included in his annual return due 4 calendar months following the close of such tax year. Any taxpayer shall, with the approval of the department, be authorized to file annual instead of quarterly returns for any tax year if, at the time he files the annual return for the full tax year, he shall pay as an advancement against the succeeding year's tax, an additional sum equal to the amount of his total annual tax as shown by such annual return. The taxpayer shall, on or before the expiration of the time allowed for payment of the tax, make out a return on the form furnished by the department, verify the same and transmit it, together with his remittance of the amount of tax to the department of revenue.

(3) The return, which is required to be filed 4 calendar months following the close of the taxpayer's fiscal year, shall be deemed to be annual return and all other returns shall be deemed quarterly returns. The annual return shall cover the preceding fiscal year and shall state the total tax upon such fiscal year's operations, which shall be due and payable 4 calendar months after the end of such fiscal year but a credit shall be allowed against the tax due for such fiscal year equal to amounts paid during and for such period covered by the annual return. If any taxpayer shall be unable to compute his tax completely and accurately for any quarterly return, he shall compute it as accurately as possible under sound accounting principles, file his quarterly return accordingly and make any necessary adjustment in his annual report.

(4) The returns required by this section shall be filed either on a cash receipts or accrual basis according to the accounting procedure followed by the taxpayer. After once having elected to file his returns on either the cash receipts or accrual basis, the taxpayer shall not change the basis for the filing of said returns without first obtaining permission of the department.

(5) Any person engaged in the business of agricultural producing and whose sole business activity is that of commercial production for sale of crops, livestock

or poultry, may, with the approval of the department, be authorized to omit the filing of quarterly returns and file an annual return. The foregoing provision applies only to producers of crops, livestock or poultry and does not apply to those engaged in processing or marketing such products. A seasonal business, which shall mean any business which regularly earns 90% of its gross receipts within 8 consecutive months of any 12-month period and does not normally engage in a year round business, may, with the approval of the department, be authorized to omit the filing of quarterly returns and file an annual return.

(6) The department, upon application of the taxpayer and for good cause shown, may extend the time for making any return required by this act. Interest at the rate of 6% per annum shall accrue on any unpaid tax during the period of any such extension.

History: 1944 ACS 36, p. 48; 1954 AC, p. 953; 1954 ACS 1, p. 5, Eff. Mar. 18, 1955; 1954 ACS 28, p. 5, Eff. Nov. 14, 1961.

R 205.552 Tax year.

Rule 2. The taxpayer shall file his annual return covering the same fiscal period as is covered by his federal income tax return. If his fiscal year shall be different from the calendar year, he should obtain permission from the department to use his fiscal year for the filing of both annual and quarterly returns. Such permission shall be granted by the department upon request of the taxpayer or his agent.

History: 1944 ACS 36, p. 48; 1954 AC, p. 954; 1954 ACS 1, p. 5, Eff. Mar. 18, 1955.

R 205.553 Records of taxpayer.

Rule 3. The taxpayer shall maintain such books and records as may be necessary in order to determine the correct amount of tax for which such taxpayer is liable. Such books and records for each year's operations shall be kept for a period of not less than 3 years from the date set for the filing of the annual return for that year, or the date such return was actually filed, whichever is later, and they shall be open for examination by agents of the department at any time during normal business hours.

History: 1944 ACS 36, p. 48; 1954 AC, p. 954; 1954 ACS 1, p. 6, Eff. Mar. 18, 1955.

R 205.554 Casual or isolated transaction.

Rule 4. (1) The term "casual or isolated transaction" as used in the statute shall include only a transaction not made in the ordinary course of repeated and successive transactions of like character. Example: A person sells his own home.

(2) However, any person who in any manner, or at any time, advertises, solicits or offers property or services for sale for the purpose of repeated transactions is deemed to be regularly engaged in a business activity and his receipts are not considered as casual or isolated even though they may be few or infrequent.

History: 1944 ACS 36, p. 48; 1954 AC, p. 954.

R 205.555 Capital assets.

Rule 5. The term "capital assets" includes all real or tangible property which has a normal useful life which exceeds 1 year and which is not held by the taxpayer for sale to customers in the normal course of business. "Capital assets" do not include items of merchandise temporarily withdrawn from inventory and used by the taxpayer for demonstration purposes.

History: 1944 ACS 36, p. 49; 1954 AC, p. 954.

R 205.556 Agent.

Rule 6. (1) In section 1(j)(5) of the statute the word "agent" shall mean: An agent as at the common law or any of the special agents generally known as factors, brokers, attorneys and similar special and limited agents.

(2) As used in this section of this act, the term "agent" shall mean the representative of a principal under an agency, defined as that relationship which results from the manifestation of consent by one person to another, that the other shall act on his behalf and subject to his control and consent by the other so to act.

(3) A person cannot exclude from his gross receipts amounts received by him which he has authority to expend in payment for or in consideration of sales or services made or rendered, or to be made or rendered, by himself or by others acting under his direction and control.

(4) A person may exclude from his reported gross receipts amounts received in an agency or other representative capacity only when it meets all the following requirements:

(a) That the contract or agreement between such persons clearly establishes the relationship of principal and agent.

(b) That the books and records of the agent show the name of the principal on whose behalf the money or property is received.

(c) That on the sale of tangible personal property the credit risk is assumed by the principal, and on purchase of property the risk of loss or damage is assumed by the principal.

(d) That the books and records of the agent show the amount of gross receipts and the amount of commission due thereon.

Example: Real estate brokers or attorneys collecting money for and in behalf of their principal can exclude from their gross receipts the amount collected for their principal less the commission retained by the agent.

History: 1944 ACS 36, p. 49; 1954 AC, p. 954; 1954 ACS 1, p. 6, Eff. Mar. 18, 1955; 1954 ACS 5, p. 45, Eff. Feb. 15, 1956.

R 205.557 Employee.

Rule 7. Every individual is an employee if the relationship between him and the person for whom he performs services is the legal relationship of employer and employee. An individual is considered an employee of the taxpayer if such taxpayer exercises substantial control or direction over the employee's action, not only as to the result to be accomplished but also as to the details and means by which the result is accomplished. In addition to the above, the following factors and other pertinent information may also be considered:

(a) Selection and engagement of the employee.

(b) Payment of wages, salaries or other compensation.

(c) Power of dismissal.

(d) Payment of social security and unemployment compensation taxes and withholding of federal income taxes.

History: 1944 ACS 36, p. 49; 1954 AC, p. 955.

R 205.558 Wages, salaries, or other compensation.

Rule 8. The term "wages, salaries or other compensation" means all remuneration for employment. The name by which the remuneration for employment is designated is immaterial. Thus, salaries, fees, bonuses and commissions are wages within the meaning of the act if paid as compensation for employment. The basis upon which the remuneration is paid is immaterial in determining whether the remuneration constitutes wages. Thus, it may be paid on the basis of piece work,

or a percentage of profits; and it may be paid hourly, daily, weekly, monthly or annually.

History: 1944 ACS 38, p. 49; 1954 AC, p. 955.

R 205.559 Public utilities.

Rule 9. (1) The term "public utility" or "public utilities" shall include those persons as defined in the statute.

(2) A taxpayer operating a business where a portion of his business has receipts regulated by a state or federal regulatory agency or commission and the balance of his business is not controlled, shall file a return which shall show the receipts from each type of business. The statutory tax rate on the adjusted receipts of the controlled business shall apply on each dollar of such adjusted receipts, and the statutory rate applicable to all other adjusted receipts shall apply to the balance.

History: 1944 ACS 38, p. 49; 1954 AC, p. 955; 1954 ACS 1, p. 6, Eff. Mar. 18, 1955; 1954 ACS 5, p. 45, Eff. Feb. 15, 1956; 1954 ACS 48, p. 7, Eff. Nov. 14, 1966.

R 205.560 Gross receipts.

Rule 10. (1) Gross receipts shall mean the entire receipts from any activity whether in intrastate, interstate or in foreign commerce carrried on for gain, benefit or advantage not specifically exempt hereunder. Receipts mean the amount received or to be received in money, credits, property or other money's worth. The term "gross receipts" shall not include wages, salaries or any compensation received for services rendered by an employee to his employer, proceeds of the sale of capital assets, repayments of debts, and amounts received, as agent or otherwise, solely on behalf of another, cash discounts allowed and taken on sales and the proceeds of sale of goods, wares or merchandise returned by customers when the sales price is refunded or where equivalent credit is granted.

(2) The statute authorizes the taxpayer to file his report on either the cash receipts or accrual basis according to the standard accounting practice used by the taxpayer; therefore, gross receipts reported and deductions claimed therefrom shall conform to the accounting system of the taxpayer.

(3) Examples of gross receipts which must be reported:

(a) Receipts from the sales of all property or services or any combination of sales and services.

(b) Commissions earned (except as an employee).

(c) Rents and royalties received.

(d) Income from professional service.

(e) Receipts from sales of scrap and other similar miscellaneous items except receipts from sales of scrapped capital assets.

(4) Examples of receipts which may be excluded from the gross receipts of the business:

(a) Wages, salaries or other compensation received as an employee.

(b) Proceeds of sale of capital assets which have a normal useful life exceeding 1 year and which are not held for sale to customers in the ordinary course of business activity.

(c) If your accounting and reporting is on an accrual basis you do not have to report payments on accounts or notes receivable. If you are reporting on a cash basis this does not apply.

(d) Amounts received as an agent or otherwise on behalf of another. For example: A real estate agent can exclude the net amount paid to the seller, but not the earned commission.

(e) Income not including royalty income received from intangible personal property subject to tax or expressly exempt under the provisions of Act No. 301 of the Public Acts of 1939, as amended, being §§205.131 to 205.147 of the Michigan Compiled Laws or that which is not taxed thereunder solely by reason of the allocation or apportionment formula contained in that act.

(f) Cash discounts allowed and taken.

(g) Proceeds of the sale of goods, wares, or merchandise returned by customers when the sales price is refunded or equivalent credit granted.

History: 1944 ACS 36, p. 49; 1954 AC, p. 955; 1954 ACS 1, p. 6, Eff. Mar. 18, 1955; 1954 ACS 28, p. 6, Eff. Nov. 14, 1961.

R 205.561 Income or adjusted receipts.

Rule 11. (1) The term "income" or the term "adjusted receipts," used interchangeably in the act, shall be the gross receipts, less such of the following costs as may have been incurred in the conduct of the business from which the receipts were derived:

(2) Taxes:

(a) All taxes and other fees or exactions by governmental authority other than taxes on or measured by net income:

(i) This would include all local property taxes except special assessments for improvements which represent capital assets.

(ii) This would include state and federal taxes collected from the taxpayer's customers and paid directly to federal or state governments provided such taxes are included in gross receipts.

(iii) This would include license fees paid to federal, state, and local governments for business operation.

(b) This does not include federal income taxes, state taxes measured by net income, taxes withheld or collected from employees, or taxes not related to the business from which the gross receipts were derived.

(3) Business expenses:

(a) All amounts paid to any business the income from which is subject to the provisions of this act or would be so subject if it proceeded or accrued from business conducted in the state of Michigan, or to any person or government expressly exempted from the provisions hereof, for the acquisition or use of property, services, privileges or facilities for the purpose of carrying on the business, except capital assets.

(b) This would permit deduction from gross receipts of the ordinary and necessary expenses of conducting your business or profession such as:

(i) Cost of merchandise sold, not including labor or overhead costs.

(ii) Freight and postage.

(iii) Electricity and other utilities.

(iv) Advertising.

(v) Insurance.

(vi) Interest paid on loans directly connected with the business from which the gross receipts are derived.

(vii) Miscellaneous expenses and supplies.

(viii) Losses from bad debts.

(ix) Repairs (other than those which are capitalized).

(x) Rent paid.

(xi) Dues and payments to business associations and contributions to charitable organizations.

(xii) Travel expenses.

(xiii) Legal and professional services.

(xiv) Payments to a trust when such trust is exempt from federal income taxes under the provisions of the internal revenue code.

(4) Allowance for depreciation or amortization of real property:

(a) Real property subject to depreciation or amortization shall include all buildings, appurtenances, improvements and fixtures which are permanently affixed to and become a structural part of real estate (including appurtenances, improvements and fixtures affixed to real property rented or leased by the taxpayer) which normally are used in the taxpayer's business, which are carried on the taxpayer's accounting records as assets, and which are subject to an allowance for depreciation or amortization for federal income tax purposes for the same taxable period.

(b) Methods and rates of depreciation and/or amortization allowable for federal income tax purposes, generally, shall be considered reasonable under this act provided such methods and rates are not inconsistent with the provisions of this act. To illustrate a practice which would be inconsistent with the act, a taxpayer cannot be allowed a deduction for depreciation of the capitalization of payroll expenditures since payrolls are never allowable as deductions.

(c) At the time of filing each annual return under this act, it shall be assumed that the allowance for depreciation or amortization was and shall continue to be computed in accordance with and follow the rulings of the internal revenue service with respect to the federal income tax for the corresponding tax period.

(d) When the internal revenue service rulings are inconsistent with the provisions of this act, the department shall determine a different rate or method of computation of depreciation or amortization in respect to real property, provided that such rate or method of computation shall not be unreasonable in light of the normal practice in the industry of the taxpayer, particular economic conditions of the taxpayer and the overall effect upon application and administration of this act.

(e) In the event there are reasons for a variance from amounts shown on the federal income tax return, approval of the department must be obtained. A request for such approval may be made by application attached to the annual return and should contain full details of the variation requested and the reason for such request.

(f) In any event the depreciation or amortization permitted under this act shall at no time be granted if, at the same time, there is no such depreciation or amortization available to the taxpayer for his federal income tax return and on a basis consistent with the filing of his federal income tax return for prior years.

(g) In case of an examination or audit of the federal income tax return of any taxpayer which results in a disallowance for depreciation or amortization of real property which has also been claimed as a deduction from gross receipts under this act, the taxpayer shall, within 60 days of notification of such disallowance, file an amended return showing the corrected depreciation or amortization deduction. This does not permit deduction of:

(i) Wages, salaries, bonuses, commissions or other compensation paid to employees and officers other than pension trusts included in item 14 above.

(ii) Partnership distributions to partners or dividends paid on capital stock.

(iii) Depreciation, amortization and depletion other than that allowed on real property as previously set forth.

(iv) Purchase of capital assets the normal useful life of which exceeds 1 year.

History: 1944 ACS 36, p. 50; 1954 AC, p. 956; 1954 ACS 1, p. 7, Eff. Mar. 18, 1955; 1954 ACS 5, p. 46, Eff. Feb. 15, 1956.

R 205.562 Minimum deduction.

Rule 12. (1) If the total deductions taken under R 205.561 are less than 50% of the gross receipts of the business as defined in the act and in R 205.560, the

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-google

adjusted receipts of the business shall be taken to be 50% of gross receipts. In other words, the taxpayer may deduct from his gross receipts the total of the allowable deductions or 50% of his gross receipts, whichever is greater.

(2) If the payroll of a person subject to the tax exceeds 50% of the gross receipts, then an additional deduction of 10% of the gross receipts or ½ of such excess of payroll over 50%, whichever is smaller, may be taken in addition to the basic 50% deduction. The term "payroll" means the gross wages, salaries or other compensation paid directly to employees prior to any deductions. The term "payroll" as used in this provision includes only the wages or compensation paid to others, and shall not include salary or compensation paid to a proprietor or partners.

(3) For example, a contractor with gross receipts of $100,000.00, payroll of $60,000.00 and allowable deductions of $15,000.00 should take the 50% deduction in lieu of itemizing his actual business expenses. He then could take an additional deduction of ½ of the excess payroll over 50% of the gross receipts or, as in this example, a deduction of $5,000.00, making total deductions of $55,000.00. As this taxpayer used the 50% of gross receipts to arrive at allowable deductions, he cannot add the $15,000.00 actual expenses as this amount is included in the 50% deduction.

(4) A contractor with gross receipts of $100,000.00, payroll of $75,000.00 and allowable deductions of $15,000.00 should take the 50% deduction, plus 10% of $100,000.00 or $10,000.00, making a total of $60,000.00 deductions. In this example ½ of the $25,000.00 excess of the payroll over the basic 50% would be $12,500.00, however, 10% of the gross receipts ($10,000.00) is the smaller amount. As this taxpayer used the 50% of gross receipts to arrive at the allowable deductions, he cannot add the $15,000.00 actual business expenses as this amount is included in the 50%.

History: 1944 ACS 36, p. 51; 1954 AC, p. 957; 1954 ACS 5, p. 47, Eff. Feb. 15, 1956.
Editor's note: This rule was republished in 1981 AACS, p. 2163, to correct a discrepancy.

R 205.563 Statutory exemption.

Rule 13. (1) After each taxpayer has arrived at the correct amount of adjusted receipts, he is entitled to a statutory exemption. In filing his quarterly returns the taxpayer may take ¼ of such exemption each quarter. If such exemption equals or exceeds the amount of adjusted receipts, the taxpayer has no tax liability. Only 1 such exemption shall be granted to each person as defined in the act irrespective of the number of businesses conducted by such person or the number of members of the business organization.

(2) In the case of a taxpayer who engages in business in Michigan for less than a yearly period, the statutory exemptions shall be prorated for the period of his business activity.

Examples:

A taxpayer engaged in business for 1 month would be entitled to an exemption of 1/12 of the annual exemption.

A taxpayer engaged in business for 7 days would be entitled to 7/365 of the annual exemption.

History: 1944 ACS 36, p. 51; 1954 AC, p. 957; 1954 ACS 48, p. 7, Eff. Nov. 14, 1966.

R 205.564 Rescinded.

History: 1944 ACS 36, p. 51; 1954 AC, p. 957; 1954 ACS 1, p. 8, Eff. Mar. 18, 1955; 1954 ACS 5, p. 47, Eff. Feb. 15, 1956; 1954 ACS 28, p. 6, Eff. Nov. 14, 1961; rescinded 1954 ACS 48, p. 7, Eff. Nov. 14, 1966.

R 205.565 Refunds.

Rule 15. Upon examination of an annual return on which it appears that the taxpayer has overpaid his liability, the excess so paid may be credited against a

R 205.566 Formula of apportionment for taxpayers doing business within and without this state.

Rule 16. In applying the formula of apportionment, the following shall govern:

(a) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.

(b) Property factor:

(i) Original cost includes the original cost of additions and improvements.

(ii) If original cost is not available, as in mergers and consolidations, then the book values at which the properties were transferred.

(iii) Inventories may be valued consistent with and in the same manner as for federal income tax purposes.

(iv) Annual rental rate includes the entire amount of money or other consideration paid either directly or indirectly. If rent is paid on other than a time basis then the other basis shall be used. The term shall also include any amount paid or accrued for interest, taxes, insurance or other items of expense to the taxpayer pursuant to the use of property of others. If the rental rate is nominal or zero the department shall apply a rate which will reasonably reflect the value of the property rented.

(c) Payroll factor: This is the same figure which will be used by the taxpayer for unemployment compensation purposes.

(d) Sales factor: This factor shall be the gross receipts as determined under R 205.560.

History: 1954 ACS 48, p. 7, Eff. Nov. 14, 1966.

CITY INCOME TAX

(By authority of Act No. 284 of the Public Acts of 1964, being §141.501 et seq. of the Michigan Compiled Laws)

R 205.901 Nature of appeal.

Rule 1. Appeals to the commissioner of revenue are limited to:

(a) A final determination of the board of review on a final assessment, denial in whole or part of a claim for refund, or a special ruling.

(b) Adoption of a rule or regulation by the administrator.

History: 1954 ACS 42, p. 12, Eff. May 15, 1965.

R 205.902 Time and place of appeal.

Rule 2. The appeal, in form and content as provided in R 205.905, shall be filed with the commissioner of revenue at his offices in Lansing, Michigan, not later than 30 days after notice of the final determination of the board of review or the date of the adoption of the rule or regulation.

History: 1954 ACS 42, p. 12, Eff. May 15, 1965.

R 205.903 Representation.

Rule 3. A taxpayer or any other person entitled to appeal may appear for himself or by a duly authorized representative. The commissioner may require adequate identification and authority.

History: 1954 ACS 42, p. 12, Eff. May 15, 1965.

R 205.904 Form and style of papers.

Rule 4. (1) All papers filed with the commissioner of revenue shall be either printed or typewritten, and if typewritten, shall be on only one side of plain white paper. This paper shall be no more than 8½ inches wide and 11 inches long. Copies shall be legible but may be on any weight paper. Citations shall be in italics when printed, and underscored when typewritten.

(2) The proper caption shall be placed upon all papers filed. If the petitioner is an individual, the full given name and surname shall be set forth in the caption. If the petitioner is a married woman, her given name shall be used, not the name of her husband preceded by "Mrs." If the petitioner is a husband and wife who have filed a joint return, the full given name and surname of each shall be set forth. If the petitioner is a fiduciary, the names of the estate, trust, or other person for whom he acts, shall be given first, followed by the name of the fiduciary.

(3) Except as otherwise provided in these rules, a signed original and 1 copy of all papers shall be filed. Whenever any paper is filed in more than 1 proceeding (as a motion to consolidate proceedings or in proceedings already consolidated), 1 additional copy shall be filed for each additional proceeding.

(4) The written signature, whether of the representative or of the petitioner, shall be in individual and not in the firm name, except that where the petitioner is a corporation the written signature shall be by an active officer of the corporation. The name and mailing address of the petitioner or of the representative shall be typed or printed immediately following the written signature.

History: 1954 ACS 42, p. 13, Eff. May 15, 1965.

R 205.905 Initiation of a proceeding.

Rule 5. (1) A proceeding shall be initiated by filing with the commissioner of revenue a notice of appeal by petition as provided in R 205.904, and substantially in accordance with the form hereinafter set forth.

(2) The petition shall be complete in itself so as to fully state the issues and shall contain the following:

STATE OF MICHIGAN
DEPARTMENT OF REVENUE

_____ Appellant vs. City of _____ Appellee	DOCKET NO.

PETITION

TO THE STATE COMMISSIONER OF REVENUE:

The above named appellant hereby petitions for a redetermination of the (final assessment, denial in whole or part of a claim for refund, special ruling, adoption

R 205.907 Docket.

Rule 7. Upon receipt of the petition, the proceedings will be docketed and assigned a number, and the parties notified thereof. This number shall be placed by the parties on all papers thereafter filed in the proceeding.

History: 1954 ACS 42, p. 14, Eff. May 15, 1965.

R 205.908 Service of petition.

Rule 8. (1) The appellant in any case initiated before the commissioner of revenue shall forthwith serve a copy of the petition upon the administrator of the city, or any agent within the city, designated by the administrator. The appellant shall then file proof of service with the commissioner of revenue within 5 days after such service. If proof of service is filed with the commissioner of revenue by mail the postmark will be considered the date of filing.

(2) Such service upon the administrator or his designated agent may be made by the appellant or his representative either personally or by registered or certified mail with the return receipt demanded.

History: 1954 ACS 42, p. 14, Eff. May 15, 1965.

R 205.909 Answer.

Rule 9. (1) After service of a copy of the petition, the city shall have 20 days within which to file an answer to the petition. The answer shall be drawn fully and completely so as to advise the appellant and the commissioner of revenue of the nature of the defense. It shall contain a specific admission or denial of each material allegation of fact contained in the petition, and a statement of any facts upon which the city relies for defense, and shall contain any affirmative allegations to be relied upon by the city.

(2) Each paragraph contained in the answer shall be numbered to correspond with the paragraphs of the petition. An original and 1 copy of the answer shall be filed, of which the original shall be signed by the administrator of the city or his counsel and the copies conformed by him.

(3) The city shall forthwith serve a copy of the answer upon the representative of record, or if there is no representative of record then upon the appellant, and shall file proof of service with the commissioner of revenue within 5 days after such service.

History: 1954 ACS 42, p. 14, Eff. May 15, 1965.

R 205.910 Stipulations.

Rule 10. Matters involving interpretation of law and statements of fact in which parties are in agreement shall be stipulated 5 days prior to the date set for the hearing.

History: 1954 ACS 42, p. 15, Eff. May 15, 1965.

R 205.911 Notice of hearings.

Rule 11. (1) Upon the filing of the answer, the commissioner of revenue shall have jurisdiction to review such determination, decision or order, and both the appellant and the city shall have the right to swear witnesses and to be represented by counsel.

(2) Said hearing shall be had within 60 days after filing of the answer.

(3) When a proceeding has been placed upon the calendar for hearing, the commissioner of revenue will notify the parties of the time and place of hearing not less than 15 days prior thereto. In his discretion the commissioner may adjourn

the hearing to another time or place. Parties shall arrange to have their witnesses at the time and place designated in the notice of hearing, and exhibits must be ready for presentation at such time.

History: 1954 ACS 42, p. 15, Eff. May 15, 1965.

R 205.912 Failure to appear.

Rule 12. The unexcused absence of a party or his representative at the place and hour set for hearing of any proceeding before the commissioner of revenue will not be an occasion for delay. The hearing will proceed and the case will be regarded as submitted on the part of the absent party or parties.

History: 1954 ACS 42, p. 15, Eff. May 15, 1965.

R 205.913 Amendments.

Rule 13. Either party may amend his petition or answer at any time prior to the hearing by consent of the adverse party or by leave of the commissioner of revenue. An original and 1 copy of such amendment shall be filed with the commissioner of revenue, and the adverse party or his representative of record shall be served with a copy thereof. All motions to amend must be accompanied by the proposed amendments.

History: 1954 ACS 42, p. 15, Eff. May 15, 1965.

R 205.914 Hearings.

Rule 14. (1) The commissioner of revenue may delegate an employee of the department of revenue to hold the hearing in his behalf.

(2) All hearings before the commissioner of revenue shall be public; provided, however, that the commissioner of revenue, upon motion of the appellant, may exclude from the hearing all persons not directly interested therein. The commissioner of revenue may make such an order upon a proper showing by the appellant that information divulged would be detrimental to the appellant's business.

(3) Either party may, at his own expense, arrange to have a transcript of the proceedings.

History: 1954 ACS 42, p. 15, Eff. May 15, 1965.

R 205.915 Briefs.

Rule 15. The commissioner of revenue, or his delegate, in his discretion, may require that briefs be submitted either before or after the hearing and may designate the manner of filing and serving the same and the time therefor.

History: 1954 ACS 42, p. 15, Eff. May 15, 1965.

R 205.916 Proposed findings of fact.

Rule 16. The commissioner of revenue or his delegate may require either party to a proceeding to submit proposed findings of fact at the close of the hearing or within such time as he may direct.

History: 1954 ACS 42, p. 15, Eff. May 15, 1965.

R 205.917 Order and opinion.

Rule 17. The commissioner of revenue, after completion of the hearing, shall review the record, briefs and such other matters as may have been submitted and by written order affirm, reverse or modify the action of the city, and shall further serve upon the appellant or his duly authorized representative and the duly

TAX TRIBUNAL

PRACTICE AND PROCEDURE

(By authority conferred on the tax tribunal by sections 32 and 49 of Act No. 186 of the Public Acts of 1973, being §§205.732 and 205.749 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 205.1101 Definitions.

Rule 101. (1) As used in these rules:

(a) "Act" means Act No. 186 of the Public Acts of 1973, as amended, being §205.701 et seq. of the Michigan Compiled Laws.

(b) "Authorized representative" means a person selected by a party to appear on his behalf before the tribunal.

(c) "Clerk" means the chief clerk or a deputy clerk of the tribunal.

(d) "General property tax act" means Act No. 206 of the Public Acts of 1893, as amended, being §§211.1 to 211.157 of the Michigan Compiled Laws.

(e) "Hearing officer or referee" means an individual other than a tribunal judge authorized to hear any matter assigned by the tribunal.

(f) "Member of tribunal" means tribunal judge with quasi-judicial powers as described in the act.

(g) "Nonproperty tax appeal" means any proceeding other than property tax appeals over which the tribunal has jurisdiction.

(h) "Property tax appeals" means real and personal property tax appeals of assessments, valuations, special assessments, refunds, allocation, equalization, or other proceedings brought before the tribunal under the property tax laws.

(i) "Small claims division" means the property and nonproperty division created by section 61 of the act.

(2) The terms defined in the act have the same meanings when used in these rules.

History: 1954 ACS 84, p. 7, Eff. Aug. 16, 1975; 1954 ACS 101, p. 12, Eff. Oct. 30, 1979.

R 205.1111 Scope.

Rule 111. (1) These rules govern the practice and procedure in all cases and proceedings before the tribunal. These rules shall be known and may be referred to as the "tax tribunal rules" and may be cited as "TTR."

(2) R 205.1601 to R 205.1650 govern the small claims division.

(3) Where there is no applicable tax tribunal rule, the Michigan General Court Rules of 1963, as amended, and chapter 4 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.271 to 24.287 of the Michigan Compiled Laws, shall govern.

History: 1954 ACS 84, p. 7, Eff. Aug. 16, 1975; 1954 ACS 101, p. 12, Eff. Oct. 30, 1979.

R 205.1115 Fees and charges.

Rule 115. Payments to the tribunal for fees or charges of the tribunal shall be made either in cash or in checks, money orders, or other drafts made payable to the order of "State of Michigan" and shall be mailed or delivered to the clerk of

the tribunal at Lansing. The following fees shall be paid to the clerk in all proceedings other than proceedings in the small claims division and other than upon petitions filed under section 22 or 154 of the general property tax act unless the petitions are contested:

(a) Upon filing of a property tax appeal petition:

	Filing Fee
(i) Allocation, apportionment, and equalization	$250.00
(ii) State Equalized Value in Contention*	Filing Fee**
under $40,000.00	$ 50.00
$ 40,000.01 - 75,000.00	75.00
$ 75,000.01 - 150,000.00	100.00
$150,000.01 - 500,000.00	150.00
Over $500,000.00	250.00

(b) Upon filing of a nonproperty tax appeal petition: The filing fee shall be 2% of the difference between the amount of tax as determined in the assessment notice and the amount of tax as contended by the petitioner, but in no case less than $50.00, nor more than $250.00.

(c) Upon transfer of a proceeding from the small claims division to the entire tribunal on a party's or intervenor's motion	$ 25.00
(d) Upon transfer of a cause to the tribunal from any forum	25.00
(e) Upon filing of a motion	25.00
(f) Upon certification of the record on appeal to the court of appeals	25.00***
(g) For copies of documents on file with the tribunal	.50/page

*Value in contention is the difference between the state equalized value as determined from the assessment and the state equalized value contended by the petitioner.

**Multiple parcels (contiguous) owned by the same person: One filing fee plus $10.00 for each additional assessed parcel, not to exceed a total filing fee of $500.00.

***Plus the cost of the transcript.

History: 1954 ACS 84, p. 7, Eff. Aug. 16, 1975; 1954 ACS 101, p. 13, Eff. Oct. 30, 1979.

R 205.1120 Records; removal and public access.

Rule 120. (1) An original record, paper, document, or exhibit filed with the tribunal shall not be taken from the hearing room or offices of the tribunal or from the custody of a member of the tribunal, hearing officer, or referee, except as authorized by these rules or by the chairman of the tribunal or except as may be necessary for the clerk to furnish copies, to transmit records to the court of appeals or other official purposes. After the time for appeal has expired, the clerk shall make available for return each party's respective exhibits, and, if not redeemed within 90 days thereafter, dispose of them at his discretion.

(2) Except upon an order of the entire tribunal for good cause shown or as otherwise provided by law, all public records are available for inspection. Copies may be obtained from the clerk upon payment of the charge as established by these rules.

History: 1954 ACS 84, p. 8, Eff. Aug. 16, 1975; 1954 ACS 101, p. 13, Eff. Oct. 30, 1979.

PART 2. COMMENCEMENT OF PROCEEDINGS AND PREHEARING PROCEDURES

R 205.1201 Commencement of proceedings.

Rule 201. Except in the small claims division, an appeal, application for review, or any other proceeding is commenced by filing a petition with the tribunal within the periods prescribed by statute. A petition shall be considered filed when mailed by certified mail addressed to the tribunal or when delivered in person, as permitted by GCR 1963, 107.

History: 1954 ACS 84, p. 8, Eff. Aug. 16, 1975; 1954 ACS 101, p. 13, Eff. Oct. 30, 1979.

R 205.1205 Docketing of cases.

Rule 205. (1) Upon the timely filing of the petition and payment of all required fees, the clerk shall time stamp all pleadings, assign an individual docket number to the proceeding, secure all original pleadings in a durable binder for safekeeping, and establish a separate docket record for each case on a form approved by the tribunal.

(2) The docket number assigned to each case shall be the permanent number of the proceeding and shall be affixed by the parties to future filings in the case. The separate docket record established for each case shall contain written entries of all pertinent filings and proceedings in the case and, together with the file containing all original pleadings, constitute the official public record of the case to be preserved by the tribunal as prescribed by law.

History: 1954 ACS 84, p. 8, Eff. Aug. 16, 1975.

R 205.1208 Service of papers.

Rule 208. (1) In property tax appeals, service shall be deemed proper upon units of government if the petition is served upon the certified assessor or board of assessors of the unit of government making an assessment being appealed, the city clerk in the case of cities and the township supervisor or clerk in the case of townships. Service of petitions commencing a proceeding shall be made on the above named individuals by certified mail addressed to them at their last known address or by personal service. Copies of petitions commencing a proceeding shall be sent by first class mail, or be delivered in person to the secretary of the school board in the local school district in which the property is located, the county equalization director, and the county clerk of any county which may be affected.

(2) In nonproperty tax appeals, service of the petition shall be deemed proper if made upon the state revenue commissioner or, when other than the state revenue commissioner, upon the appropriate official administering the tax being appealed. Service under this subsection shall be made by certified mail addressed to the individual named above at his last known address or by personal service.

(3) Except as may be otherwise required by these rules, all pleadings, motions, orders, decisions, notices, demands, briefs, appearances, or other documents filed with the tribunal relating to a case shall be served concurrently on each of the parties to the proceeding or his representative.

(4) All other pleadings and documents required to be served may be served by first class mail or in person as permitted by GCR 1963, 197.

(5) Proof of service shall be established by either a written acknowledgement of a receipt of a pleading or other document, dated and signed by the person authorized under these rules to receive them, or by certification stating the facts of service. Failure to make proof of service does not affect the validity of the service.

History: 1954 ACS 84, p. 8, Eff. Aug. 16, 1975; 1954 ACS 101, p. 14, Eff. Oct. 30, 1979.

R 205.1210 Time for service of papers.

Rule 210. (1) A respondent shall serve and file his answer or take such other action as may be permitted by law within 30 days after service of a petition.

(2) An answer, motion, or other document filed or served shall be deemed to be filed or served upon mailing or upon delivery in person as permitted by GCR 1963, 107, within the time fixed for filing or service.

(3) All pleadings and other documents required to be filed or served on a day during which the offices of the tribunal are not open for business shall be filed on the next business day thereafter.

History: 1954 ACS 84, p. 9, Eff. Aug. 16, 1975; 1954 ACS 101, p. 14, Eff Oct. 30, 1979.

R 205.1215 Appearance and representation.

Rule 215. (1) Attorneys or other authorized representatives may enter an appearance either by subscribing the petition or other document initiating the participation of a party in a proceeding or by filing an appearance in the proceeding.

(2) The tribunal may require an authorized representative or agent to provide a written statement of authorization signed by the party for whom the representative appears.

(3) In the absence of appearance by an attorney or other authorized representative, a party is deemed to appear for himself. A corporation, unincorporated association, or unit of government may be represented by an authorized officer. An estate or trust may be represented by a fiduciary. A person shall state in his initial pleading or other document his name, address, and telephone number and promptly inform the clerk of the tribunal and all parties of any change in that information.

(4) All parties appearing before the tribunal shall conduct themselves with decorum.

History: 1954 ACS 84, p. 9, Eff. Aug. 16, 1975.

R 205.1220 Parties.

Rule 220. (1) The party who commences a proceeding shall be designated as petitioner and the adverse party as respondent.

(2) Upon change or transfer of interest, the proceeding may be continued by or against the original party in his original capacity, unless the tribunal directs the person to whom the interest is transferred to be substituted in the proceeding for the original party, joined with the original party or made a party in another capacity.

(3) When proceedings involving a substantial and controlling common question of law or fact are pending before the tribunal, it may do any or all of the following:

(a) Order a joint hearing on any or all the matters in issue.

(b) Order a joinder of all parties in accordance with their interests.

(c) Order the proceedings consolidated.

(d) Make such other orders concerning the proceedings as may tend to avoid unnecessary costs or delay.

(4) Parties may be added or dropped by order of the tribunal on its own initiative or on motion of any party at any stage of the proceedings and on such terms as are just.

R 205.1222 Amicus curiae.

Rule 222. The tribunal may upon order direct a state or local governmental unit to appear as amicus curiae or in such other capacity as the tribunal deems appropriate.

History: 1954 ACS 84, p. 10, Eff. Aug. 16, 1975.

R 205.1225 Pleadings and amended and supplemental pleadings.

Rule 225. (1) There shall be a petition and an answer. An application for review or any other document initiating a proceeding will be deemed to be a petition. An answer raising an affirmative defense or allegation shall be deemed denied and a responsive pleading thereto is not necessary. Any other pleading is not allowed except that an answer may be made to petitions or answers filed by parties who are later substituted or joined in the proceedings.

(2) A party may amend or supplement his pleading only by leave of the tribunal, except that a petition to seek refund of a tax may be amended as of right when a tax is paid while the determination of the right thereto is pending before the tribunal.

History: 1954 ACS 84, p. 10, Eff. Aug. 16, 1975.

R 205.1230 Motions.

Rule 230. (1) All requests to the tribunal shall be made by written motion filed with the clerk and accompanied by the appropriate fee. Motions shall be served concurrently by the moving party on all other parties of record and proof of service shall be filed with the clerk. Written opposition, if any, to motions shall be filed within 20 days after service.

(2) Pleading on motions is limited to the motion and brief in support thereof and a single response in objection thereto with supporting brief.

(3) The clerk shall timely submit motions and pleadings in opposition thereto to the tribunal for decision which shall be by written order. Copies of orders on motions shall be mailed to the parties.

(4) Oral argument is not allowed on motions, except on order of the tribunal.

History: 1954 ACS 84, p. 10, Eff. Aug. 16, 1975; 1954 ACS 101, p. 14, Eff. Oct. 30, 1979.

R 205.1235 General rules of pleading.

Rule 235. (1) All documents filed with the tribunal shall contain the caption, "Michigan Tax Tribunal," the title of the proceeding, the docket number after it becomes available and a designation showing the nature of the document.

(2) The original of all pleadings, motions, and briefs shall be filed with the tribunal.

History: 1954 ACS 84, p. 10, Eff. Aug. 16, 1975.

R 205.1240 Petition.

Rule 240. (1) A petition shall contain a statement of facts without repetition upon which the petitioner relies in making his claim for relief. The statement shall be made in separately designated paragraphs, the contents of each of which shall be limited as far as practicable to a statement of a single fact. Each claim shall be stated separately whenever separation facilitates the clear presentation of the matters set forth. A petition for review of assessed parcels generally may not cover more than 1 assessed parcel. However:

(a) A single petition involving real property may cover more than 1 assessed parcel if the real property is contiguous and within a single assessing unit.

(b) A single petition involving personal property may cover personal property in more than 1 location provided the property is assessed as 1 assessment and is located within a single assessing unit.

(c) A single petition may include both real and personal property.

(2) Each petition shall contain all of the following:

(a) The petitioner's name and legal residence, or in the case of a corporation, its principal office or place of business.

(b) The name of the opposite parties.

(c) A description of the matter in controversy, including the type of tax and the year or years involved.

(d) A statement of the amount in dispute, which shall include, in nonproperty tax appeal petitions, a statement of that portion of tax admitted to be correct, if any, and a copy of the assessment or other notice attached to the petition.

(e) In assessment, valuation, or exemption petitions, a statement as to whether the matter in controversy has been timely protested, and the date thereof, to the local board of review and, if applicable, the date of receipt of the disputed tax bill.

(f) A clear and concise statement of the facts upon which the petitioner relies, except those facts as to which the burden of proof is on the opposite party.

(g) The relief sought.

(h) The signature of the petitioner and his attorney or other authorized representative.

(3) In equalization, allocation, and apportionment appeals, the petition shall be sworn to and be in compliance with the applicable statutes.

History: 1954 ACS 84, p. 10, Eff. Aug. 16, 1975; 1954 ACS 101, p. 14, Eff. Oct. 30, 1979.

R 205.1245 Answers.

Rule 245. (1) The respondent shall have 30 days from the date of service of the petition within which to file an answer or other responsive pleading.

(2) The answer shall be drawn so that it will advise fully of the nature of the defense, and shall contain a specific admission or denial of each material allegation in the petition. If the respondent is without knowledge or information sufficient to form a belief as to the truth of an allegation, he shall so state and the statement shall have the effect of a denial. If the respondent intends to qualify or to deny only a part of an allegation, he shall specify so much of it as is true and shall qualify or deny only the remainder. In addition, the answer shall contain a clear and concise statement of every ground on which the respondent relies and has the burden of proof. Paragraphs of the answer shall be designated to correspond to those of the petition to which they relate.

(3) An answer may assert as many defenses as the respondent may have against an opposing party. A defense is not waived by being joined with 1 or more other defenses. All defenses not asserted in either the answer or by appropriate motion are waived, except the following:

(a) Lack of jurisdiction.

(b) Failure to state a claim.

(c) Failure to state a valid defense.

History: 1954 ACS 84, p. 11, Eff. Aug. 16, 1975; 1954 ACS 101, p. 15, Eff. Oct. 30, 1979.

R 205.1247 Defaults, dismissals, and transfers.

Rule 247. (1) When a party has failed to plead, appear, or otherwise proceed as provided by these rules or as required by the tribunal, he may be held in default by the tribunal on motion of another party or on the initiative of the tribunal.

Thereafter, the tribunal may enter a decision against the defaulting party upon such terms and conditions as the tribunal deems proper.

(2) A proceeding may be dismissed voluntarily by the petitioner before the first responsive pleading. Thereafter, a voluntary dismissal shall be granted only upon stipulation of all the parties.

(3) Failure of a petitioner to properly prosecute the appeal or comply with these rules is cause for dismissal.

(4) Defaults, dismissals, or decisions rendered thereon may be set aside by the tribunal for reasons it deems sufficient upon motion made within 20 days of entry of the order of default or dismissal.

(5) By stipulation of the parties, or by a petitioner's motion and notice to the adverse party, the tribunal may transfer a matter to the small claims division by order.

History: 1954 ACS 84, p. 11, Eff. Aug. 16, 1975; 1954 ACS 101, p. 15, Eff. Oct. 30, 1979.

R 205.1249 Equalization, allocation, apportionment, and nonproperty tax appeals.

Rule 249. In the case of equalization, allocation, apportionment, and nonproperty tax appeals, the prehearing and discovery procedures fixed by R 205.1250 to R 205.1270 do not apply, unless otherwise ordered by the tribunal.

History: 1954 ACS 101, p. 16, Eff. Oct. 30, 1979.

R 205.1250 Counsel conference.

Rule 250. (1) In all proceedings, except as provided in R 205.1249, the petitioner or representative shall arrange for a conference with all other parties or representatives to:

(a) Discuss the possibility of settlement. Petitioner and respondent shall each express a good faith estimate of the true cash value of the subject property.

(b) Stipulate evidence to the fullest extent to which complete or qualified agreement can be reached, including all material facts that are not or fairly should not be in dispute.

(c) Consider all other matters that may aid in the disposition of the proceeding.

(2) The conference shall be held within 30 days after the filing of an answer at a time and place mutually agreed to or, if no agreement can be reached, fixed by order of the tribunal.

(3) The petitioner shall prepare a summary of the results of this conference which shall be served upon all opposing parties and together with proof of service filed with the clerk within 10 days after the conference. Any objections to the summary shall be filed with the clerk within 10 days after the filing of the summary.

History: 1954 ACS 84, p. 11, Eff. Aug. 16, 1975; 1954 ACS 101, p. 16, Eff. Oct. 30, 1979.

R 205.1252 Prehearing valuation disclosure.

Rule 252. (1) Without permission of the tribunal for good cause shown, an assessor or expert witness may not testify as to the value of property without submission of a written report, such as an appraisal or an appraisal card, containing the person's value conclusions and the basis therefor. The report shall be supplied to the opposing party or their counsel within 120 days after the counsel conference required by R 205.1250.

(2) Within 120 days after the counsel conference required by R 205.1250, each party shall provide the opposing party with the name and address of any person who may testify on matters pertaining to value, together with a general summary

of the subject area of such testimony. A person not so disclosed shall not be permitted to give testimony, unless, for good cause shown, the tribunal permits the testimony to be taken.

History: 1954 ACS 84, p. 12, Eff. Aug. 16, 1975; 1954 ACS 101, p. 16, Eff. Oct. 30, 1979.

R 205.1255 Interrogatories to parties.

Rule 255. (1) A party to a proceeding may file and serve upon all adverse parties written interrogatories to be answered by the party to whom the interrogatories are directed.

(2) Interrogatories shall be answered separately and fully in writing under oath. If an interrogatory is objected to, the reasons for objection shall be stated in lieu of an answer. The answers shall be signed by the person making them and shall contain such information as is available to the party served or that could be obtained by such party from its employees, agents, representatives, or persons who may testify on the party's behalf. The party to whom the interrogatories are directed shall file and serve a copy of the answers on the party submitting the interrogatories and on all other parties within 30 days after service of interrogatories.

(3) If any of the interrogatories have not been answered within the time specified under subrule (2), the tribunal, on motion and for good cause shown, may issue an order compelling response. A party failing to answer interrogatories pursuant to an order of the tribunal is in default.

(4) To the extent that answers are admissible as evidence before the tribunal, any or all of the answers to interrogatories may be used against the party making them, and an adverse party may introduce an answer which has not been previously offered in evidence by a party.

(5) A person answering interrogatories is not the witness of the party submitting the interrogatories.

(6) By tribunal order, interrogatories may be limited as justice requires to protect the answering party from annoyance, expense, embarrassment, oppression, or violation of a privilege.

(7) A party who has given a response that was complete when made is not under a duty to supplement the response to include information thereafter acquired, unless ordered by the tribunal, except as follows:

(a) To supplement the response with respect to any question directly addressed to the identity and location of persons having knowledge of discoverable matters; and the identity of each person expected to be called as a witness at the hearing, the subject matter on which the witness is expected to testify, and the substance of the witness's testimony.

(b) To amend a prior response if the party obtains information upon the basis of which a party knows that the response was incorrect when made, or that the response, though correct when made, is no longer true and the circumstances are such that a failure to amend the response is, in substance, a knowing concealment.

History: 1954 ACS 84, p. 12, Eff. Aug. 16, 1975; 1954 ACS 101, p. 16, Eff. Oct. 30, 1979.

R 205.1257 Depositions.

Rule 257. Parties may stipulate to take depositions or may, by written motion, request to take the testimony of any person, including a party, by deposition for the purpose of discovery or for use as evidence in the action, or for both purposes, and the tribunal, in its discretion, may order the taking of depositions.

History: 1954 ACS 84, p. 13, Eff. Aug. 16, 1975; 1954 ACS 101, p. 17, Eff. Oct. 30, 1979.

R 205.1260 Discovery and production of documents and things for inspection, copying, or photographing.

Rule 260. (1) After filing of a petition invoking the jurisdiction of the tribunal, the tribunal upon motion of a party and upon notice to all other parties may:

(a) Order a party to produce and permit the inspection and copying or photographing, by or on behalf of the moving party, of any designated documents, papers, books, records, accounts, letters, photographs, objects, or tangible things, not privileged, coming within scope of discovery permitted by R 205.1255 and which are in his possession, custody, or control.

(b) Direct a person on whom a subpoena duces tecum has been served, to permit the inspection and copying or photographing of such books, papers, documents, or tangible things subpoenaed.

(2) The order shall specify the time, place, and manner of making the inspection and copies, photographs, or samplings and may prescribe such terms and conditions as are just.

(3) If the party or person claims that the item is not in his possession or control or that he does not have information calculated to lead to discovery of its whereabouts, he may be ordered to submit to examination before a tribunal member or other means of discovery regarding the claim.

(4) If the tribunal secures information or documentation from persons other than the parties to the proceedings, it shall make the information or documentation available to the parties within a reasonable time prior to the hearing.

History: 1954 ACS 84, p. 13, Eff. Aug. 16, 1975.

R 205.1262 Rescinded.

History: 1954 ACS 84, p. 13, Eff. Aug. 16, 1975; rescinded 1954 ACS 101, p. 17, Eff. Oct. 30, 1979.

R 205.1264 Consequences of refusal to make discovery.

Rule 264. (1) If a party or other person to whom discovery is directed refuses to answer a question after being directed to do so by the tribunal, the proponent of the question may file a petition with the circuit court for Ingham county or the county in which the discovery is being taken to compel the party or person to whom the discovery is directed to comply with the order of the tribunal.

(2) If a party refuses to obey an order made under subrule (3) of R 205.1255, subrule (1) of this rule requiring him to answer designated questions, or an order made under R 205.1260, the tribunal may make such orders in regard to the refusal as justice requires.

History: 1954 ACS 84, p. 14, Eff. Aug. 16, 1975; 1954 ACS 101, p. 17, Eff. Oct. 30, 1979.

R 205.1270 Prehearing conference.

Rule 270. (1) In all proceedings before the entire tribunal, a prehearing conference shall be held, unless otherwise ordered or dispensed with by the tribunal.

(2) Not less than 10 days before the prehearing conference, each party shall exchange and file with the clerk a prehearing statement in such form as the tribunal may require.

(3) The purpose of the prehearing conference is to:

(a) State and simplify the factual and legal issues to be litigated, consider the formal amendment of all petitions and answers or their amendment by prehearing order, and if desirable or necessary, to order that such amendments be made.

(b) Consider the consolidation of petitions for hearing, the separation of issues, and the order in which issues are to be heard.

(c) Consider admissions of fact, including level of assessment and authenticity of documents, including statutes, ordinances, charters, and regulations which will avoid unnecessary proof.

(d) Identify all witnesses.

(e) Specify all sums in controversy and the particular issues to which they relate.

(f) Produce all exhibits in support of the main case or defense and admit the authenticity of exhibits whenever possible.

(g) Estimate the time required for hearing.

(h) Disclose and consider costs and the taxation thereof.

(i) Discuss the possibility of settlement.

(j) Consider all other matters that may aid in the disposition of the proceeding.

(4) The prehearing conference shall be held 180 days after the filing of a petition initiating a proceeding or as soon thereafter as the schedule of the tribunal may permit. By stipulation of all parties with the concurrence of the tribunal, or by order of the tribunal, the time for the prehearing conference may be accelerated.

(5) The person conducting the prehearing conference shall inquire of the parties as to whether or not all claims arising out of the appealed finding, ruling, determination, decision, or order have been joined. The answers to such inquiry and each finding, ruling, determination, decision, or order pertaining to this subject shall be included in the summary of the results of the conference.

(6) The person conducting the prehearing conference shall prepare, or direct a party or parties to prepare, file, and cause to be served upon the parties, their representatives, or attorneys of record, not less than 10 days in advance of hearing, a summary of the results of the conference specifically covering each of the items stated in the rule. The summary of results controls the subsequent course of the proceeding unless modified at or before hearing by the tribunal to prevent manifest injustice. The tribunal may provide a prehearing calendar on which proceedings may be placed for consideration, and may also amplify or modify the prehearing procedure as justice requires, but not in conflict with these rules.

(7) The person conducting the prehearing conference may direct counsel to furnish the tribunal with a hearing brief as to all or any of the issues involved in the proceeding. This subrule does not preclude the filing of a hearing brief not less than 5 days before the date set for hearing.

(8) Discovery shall not be conducted after completion of the prehearing conference, unless ordered by the tribunal.

(9) Failure to appear at a duly scheduled prehearing conference is a default.

History: 1954 ACS 84, p. 14, Eff. Aug. 16, 1975; 1954 ACS 101, p. 17, Eff. Oct. 30, 1979.

R 205.1275 Supplemental discovery and prehearing procedure.

Rule 275. The tribunal may issue orders dispensing with the counsel conference required by R 205.1250 or extending the time fixed by R 205.1250 for holding the conference; extending the time for submitting and the scope of interrogatories fixed by subrules (1) and (2) of R 205.1255 and making such other changes in the prehearing and discovery procedures fixed by R 205.1250 to R 205.1270 as justice may require to achieve a full and fair hearing of a matter before the tribunal.

History: 1954 ACS 84, p. 15, Eff. Aug. 16, 1975; 1954 ACS 101, p. 18, Eff. Oct. 30, 1979.

R 205.1280 Rescinded.

PART 4. HEARING AND POSTHEARING PROCEDURES

R 205.1401 Hearing docket.

Rule 401. (1) When a proceeding is ready for hearing, the clerk shall schedule the matter at a time and place to be designated by the tribunal either on an individual case basis or by the general trial docket. The clerk shall send notice of the time, date, and place of hearing to all parties or their representatives not less than 30 days prior to the hearing. When a general call docket is established, the clerk shall send notice of the time, date, and place for the hearing of case number 1 to all parties or their representatives listed on that general call docket not less than 30 days prior to the hearing. In all succeeding cases which appear on the general call docket, the parties or their representatives shall be telephonically notified by the clerk not less than 24 hours prior to the hearing. The tribunal may in its discretion reduce or increase the 30-day period by order.

(2) One adjournment of hearing may be authorized by the tribunal clerk. Succeeding adjournments of hearings shall be granted only by order of the tribunal.

History: 1954 ACS 84, p. 15, Eff. Aug. 16, 1975; 1954 ACS 101, p. 18, Eff. Oct. 30, 1979.

R 205.1405 Subpoenas.

Rule 405. (1) On written request of a party to a proceeding, the tribunal, through the clerk, shall issue subpoenas for the attendance and testimony of witnesses and the production of evidence, including but not limited to, books, records, correspondence, and documents in their possession or under their control.

(2) A witness to whom a subpoena has been issued may file a motion under R 205.1230 to revoke the subpoena if the evidence sought to be produced does not relate to a matter in issue, if the subpoena does not describe the evidence sought with sufficient particularity, or if the subpoena is invalid for any legal reason.

(3) Proceedings to enforce a subpoena may be commenced in the circuit court for Ingham county or the county in which the hearing is held.

History: 1954 ACS 84, p. 15, Eff. Aug. 16, 1975.

R 205.1410 Conduct of hearings.

Rule 410. (1) The tribunal may admit and give probative effect to evidence of a type commonly relied upon by reasonably prudent men in the conduct of their affairs. Irrelevant, immaterial, or unduly repetitious evidence may be excluded. Effect shall be given to the rules of privilege recognized by law.

(2) Witnesses before the tribunal shall swear or affirm before a member thereof to give full and truthful testimony.

(3) All proceedings before the tribunal shall be recorded either electronically or stenographically, or both, in the discretion of the tribunal.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975.

R 205.1430 Briefs.

Rule 430. The tribunal may order the parties to submit proposed findings of fact and conclusions of law, or briefs, or any of them and designate the manner and time for filing and serving them.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975; 1954 ACS 101, p. 18, Eff. Oct. 30, 1979.

R 205.1435 Decisions and opinions.

Rule 435. (1) A decision shall be stated in a written opinion or opinion stated on the record. An opinion shall include a concise statement of facts and

conclusions of law, and, upon order of the tribunal, shall be officially reported and published.

(2) A decision or order may be amended or vacated on rehearing.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975; 1954 ACS 101, p. 18, Eff. Oct. 30, 1979.

R 205.1440 Effective date of decisions and orders.

Rule 440. (1) Decisions and orders of the tribunal, including decisions and orders on rehearing, are effective when officially entered by the clerk.

(2) Notice of entry and a copy of the decision and order shall be sent to the parties at the time of entry.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975; 1954 ACS 101, p. 18, Eff. Oct. 30, 1979.

R 205.1445 Rehearings.

Rule 445. The tribunal may order a rehearing upon its own motion or the motion of any party filed within 20 days of the entry of the order or decision sought to be reheard. The filing of a motion for rehearing tolls the appeal period and any party shall have 20 additional days after a decision or denial of such motion for rehearing to appeal the order or decision which the motion related to.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975.

R 205.1450 Corrections of clerical errors.

Rule 450. Clerical mistakes in decisions or orders of the tribunal, or in the records of any proceedings arising from oversight or omission, may be corrected by order of the tribunal at any time on motion of a party or on its own initiative.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975; 1954 ACS 101, p. 18, Eff. Oct. 30, 1979.

R 205.1455 Disability of tribunal members.

Rule 455. In the event of the death, sickness, or disability of a member of the tribunal after the member has heard any part of a proceeding, his successor or alternate may continue the proceeding, decide the matter, if, in the discretion of the tribunal, such action will not injure a party to the proceeding or otherwise result in injustice, or the tribunal, in its discretion, may order the matter reheard.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975; 1954 ACS 101, p. 19, Eff. Oct. 30, 1979.

R 205.1460 Witness fees.

Rule 460. A witness summoned to a hearing or other proceeding, or whose deposition is taken, shall receive the same fees and mileage as witnesses in the circuit courts of the state. A witness shall not be required to testify until the fees and mileage provided for have been tendered to him by the party at whose instance he has been subpoenaed.

History: 1954 ACS 84, p. 16, Eff. Aug. 16, 1975.

R 205.1462 Costs.

Rule 462. (1) Costs shall be allowed only when provided for by the tribunal in a final judgment or order.

(2) When costs are allowed, the prevailing party shall file a bill of costs with the clerk within 10 days following a final decision of the tribunal and furnish a copy thereof to all other parties to the action. A party shall have 10 days after the service of the bill of costs to protest it or any item thereon. A protest shall be filed with the tribunal. If objections are filed, the clerk may set the same for a hearing or present such objections as a motion before the tribunal. Failure to file the bill of costs within the 10-day period constitutes a waiver of any right thereto.

(3) The bill of costs shall state each item claimed and the amount thereof separately and shall be verified by affidavit of the party or representative. The affidavit shall state that each item is correct and that the same was necessarily incurred.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975; 1954 ACS 101, p. 19, Eff. Oct. 30, 1979.

R 205.1471 Appeals.

Rule 471. All appeals from decisions of the tribunal shall be taken in accordance with section 53 of the act. When an appeal is taken to the court of appeals, the appellant shall file a copy of the claim of appeal or application for leave to appeal with the clerk of the tribunal.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975.

R 205.1475 Record on appeal.

Rule 475. (1) When the clerk of the court of appeals gives notice to the clerk pursuant to GCR 1963, 812.3(2) that the cause is ready for submission, or at any time upon order of the court, the clerk shall transmit the record promptly to the court of appeals.

(2) The record shall consist of the tribunal's original file, including the following:

(a) A certified list of docket entries showing the dates of filing and the nature of all documents filed and the date and disposition of all proceedings conducted.

(b) All original papers, including notices, pleadings, motions, briefs, intermediate rulings and the decision, opinion, or order appealed.

(c) Transcripts of all hearings.

(d) Exhibits.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975.

PART 6. SMALL CLAIMS DIVISION; PROPERTY AND NONPROPERTY

R 205.1601 Scope.

Rule 601. This part governs the practice and procedure in all matters before the small claims division of the tribunal.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975; 1954 ACS 101, p. 19, Eff. Oct. 30, 1979.

R 205.1605 Record and fees.

Rule 605. A formal record shall not be taken, nor shall any fees or costs be charged or allowed, for any proceeding commenced and completed in the small claims division.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975; 1954 ACS 101, p. 19, Eff. Oct. 30, 1979.

R 205.1610 Jurisdiction.

Rule 610. (1) A property tax matter may be heard in the small claims division if any 1 of the following properties is exclusively involved:

(a) Residential or homestead property.

(b) Agricultural property.

(c) Income-producing residential property consisting of less than 4 rental units.

(d) Any other property where the assessed valuation of the property, after applying the state equalization factor, shall not be increased or decreased by more than $20,000.00.

(2) A nonproperty tax matter may be heard in the small claims division if the amount of tax in dispute does not exceed $1,000.00, exclusive of interest or penalty charges.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975; 1954 ACS 101, p. 19, Eff. Oct. 30, 1979.

R 205.1612 Petitioner's election of small claims division.

Rule 612. A petitioner who wishes to have a matter heard in the small claims division shall elect to do so.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975; 1954 ACS 101, p. 19, Eff. Oct. 30, 1979.

R 205.1613 Appearance and protest to local board of review.

Rule 613. In assessment appeals, the valuation of the same property shall be protested before the local board of review.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975.

R 205.1615 Intervention and transfers.

Rule 615. (1) Prior to a hearing, a party or intervenor by motion and notice may request a transfer of the proceeding from the small claims division to the entire tribunal. If the request is granted, the moving party shall pay the reasonable expenses incurred by the other parties incidental to the transfer and any costs resulting from subsequent appeals.

(2) With the permission of the petitioner, the division or the chairman may refer a proceeding to the entire tribunal for its decision.

(3) Except as provided in subrule (1), motion practice shall not be conducted in the small claims division.

History: 1954 ACS 84, p. 17, Eff. Aug. 16, 1975; 1954 ACS 101, p. 19, Eff. Oct. 30, 1979.

R 205.1617 Appearance and representation.

Rule 617. (1) A party may appear for himself, be represented by an attorney, or be represented by such other party as he may choose.

(2) Petitioner's failure to appear or be represented at a scheduled hearing shall result in either a dismissal of the appeal or in a consideration and decision on the evidence and pleadings submitted.

(3) All persons appearing before the small claims division shall conduct themselves with decorum.

History: 1954 ACS 84, p. 18, Eff. Aug. 15, 1975; 1954 ACS 101, p. 20, Eff. Oct. 30, 1979.

R 205.1620 Commencement of proceedings.

Rule 620. (1) Subject to the provisions of R 205.1612 requiring an election, a proceeding before the small claims division may be commenced by mailing or delivering a letter to the tribunal within the time prescribed by statute giving the name and mailing address of the petitioner and respondent. In property tax appeals, include the township or city and county in which the property is located, and, if available, attach a copy of the notice or action taken by the local board of review. In nonproperty tax appeals, attach a copy of the assessment notice.

(2) Upon receipt of the letter from the petitioner, the clerk of the tribunal shall send the petitioner a form to be completed and returned to the tribunal within 30 days after mailing. Failure to complete and return the form within the 30 days shall result in a dismissal of the petition.

History: 1954 ACS 84, p. 18, Eff. Aug. 16, 1975; 1954 ACS 101, p. 20, Eff. Oct. 30, 1979.

R 205.1630 Notice to respondent of appeal.

Rule 630. Upon timely receipt of the completed form from the petitioner, the clerk of the tribunal shall forward a copy of the completed form to the respondent.

History: 1954 ACS 84, p. 18, Eff. Aug. 16, 1975; 1954 ACS 101, p. 20, Eff. Oct. 30, 1979.

R 205.1632 Answers to petitions.

Rule 632. (1) Answers to petitions shall be filed with the tribunal within 30 days after notice required by R 205.1630 on a form available from the tribunal, or in a written response substantially in compliance therewith, that fully sets forth the facts upon which the defense of the matter rests.

(2) The respondent shall serve upon petitioner a copy of the answer and any supporting documentation filed with the tribunal.

History: 1954 ACS 84, p. 18, Eff. Aug. 16, 1975; 1954 ACS 101, p. 20, Eff. Oct. 30, 1979.

R 205.1633 Stipulations.

Rule 633. A consent judgment may be entered upon submission of a stipulation by all parties in interest as to true cash value, if such stipulation is found to be acceptable by the tribunal.

History: 1954 ACS 101, p. 20, Eff. Oct. 30, 1979.

R 205.1635 Hearing sites.

Rule 635. (1) For property tax appeals, hearing of small claims shall be conducted at the county seat in which the property is located or the county seat of a county contiguous thereto.

(2) For nonproperty tax appeals, hearing of small claims shall be conducted at a site to be determined by the tribunal.

History: 1954 ACS 84, p. 18, Eff. Aug. 16, 1975; 1954 ACS 101, p. 20, Eff. Oct. 30, 1979.

R 205.1640 Notice of hearing.

Rule 640. The clerk shall send the parties notice of the time, date, and place of the hearing at least 14 days prior to the hearing.

History: 1954 ACS 84, p. 18, Eff. Aug. 16, 1975.

R 205.1642 Conduct of hearing.

Rule 642. (1) The tribunal may admit and give probative effect to evidence of a type commonly relied upon by reasonably prudent men in the conduct of their affairs. Irrelevant, immaterial, or unduly repetitious evidence may be excluded. Effect shall be given to the rules of privilege recognized by law.

(2) A copy of an appraisal report or other written evidence shall be submitted to the opposing party not less than 10 days before the date of the hearing.

(3) Witnesses testifying at hearings shall swear or affirm to give full and truthful testimony.

History: 1954 ACS 84, p. 18, Eff. Aug. 15, 1975; 1954 ACS 101, p. 20, Eff. Oct. 30, 1979.

R 205.1645 Decisions and effective date.

Rule 645. (1) A decision of the small claims division shall be in writing.

(2) A decision shall become effective when officially entered by the clerk, at which time the clerk shall mail a copy of the decision and order to all parties to the proceeding.

R 205.1650 Corrections of clerical errors.

Rule 650. Clerical errors in decisions or judgments of this division may be corrected by this division.

History: 1954 ACS 84, p. 19, Eff. Aug. 16, 1975.

REVENUE DIVISION

INCOME TAX

(By authority conferred on the department of treasury by sections 3 and 13 of Act No. 122 of the Public Acts of 1941, as amended, and sections 9 and 83 of Act No. 380 of the Public Acts of 1965, being §§205.3, 205.13, 16.109, and 16.183 of the Michigan Compiled Laws)

R 206.1 "Business income" defined.

Rule 1. "Business income" means that income which is derived during the regular course of a taxpayer's trade or business. The expenses incurred in deriving the income are allowed as a deduction from gross income in determining the taxpayer's adjusted gross income.

History: 1954 ACS 95, p. 6, Eff. Apr. 5, 1978.

R 206.2 Employee.

Rule 2. (1) The term "employee" is defined in section 8(2) of Act No. 281 of the Public Acts of 1967, as amended, being §206.8(2) of the Michigan Compiled Laws.

(2) The term "employee" includes every individual performing services if the relationship between him and the person for whom he performs such services is the legal relationship of employer and employee. The term includes officers and employees, whether elected or appointed, of the United States, a state, territory, Puerto Rico, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any 1 or more of the foregoing.

(3) Generally, the relationship of employer and employee exists when the person for whom services are performed has the right to control and direct the individual who performs the services, not only as to the result to be accomplished by the work, but also as to the details and means by which that result is accomplished; that is, an employee is subject to the will and control of the employer, not only as to what shall be done, but also as to how it shall be done. However, it is not necessary that the employer actually direct or control the manner in which the services are performed; it is sufficient if he has the right to do so. The right to discharge is also an important factor indicating that the person possessing that right is an employer. Other factors characteristic of an employer, but not necessarily present in every case, are the furnishing of tools and the

furnishing of a place to work to the individual who performs the services. In general, if an individual is subject to the control or direction of another merely as to the result to be accomplished by the work but not as to the means and methods for accomplishing the result, he is not an employee.

(4) Generally, physicians, lawyers, dentists, veterinarians, contractors, subcontractors, public stenographers, auctioneers, and others who follow an independent trade, business, or profession, in which they offer their services to the public, are not employees.

(5) Whether the relationship of employer and employee exists shall, in doubtful cases, be determined upon an examination of the particular facts of each case.

(6) If the relationship of employer and employee exists, the designation or description of the relationship by the parties as anything other than that of employer and employee is immaterial. For example, it is of no consequence that the employee is designated as a partner, coadventurer, agent, independent contractor, or the like.

(7) All classes or grades of employees are included within the relationship of employer and employee. Thus, superintendents, managers, and other supervisory personnel are employees. Generally, an officer of a corporation is an employee of the corporation. However, an officer of a corporation who as such does not perform any services, or performs only minor services, and who neither receives nor is entitled to receive, directly or indirectly, any remuneration, is not considered to be an employee of the corporation. A director of a corporation in his capacity as a director is not an employee of the corporation.

(8) The term "employee" includes every individual who receives a supplemental unemployment compensation benefit, which is treated as wages.

History: 1954 ACS 95, p. 6, Eff. Apr. 5, 1978.

R 206.3 Employer.

Rule 3. (1) The term "employer" is defined in section 8(3) of Act No. 281 of the Public Acts of 1967, as amended, being §206.8(3) of the Michigan Compiled Laws.

(2) The term "employer" means any person for whom an individual performs or performed any service, of whatever nature, as the employee of such person.

(3) It is not necessary that the services be continuing at the time the wages are paid in order that the status of employer exist. Thus, for purposes of withholding, a person for whom an individual has performed past services for which he is still receiving wages from such person is an employer.

(4) An employer may be an individual, a corporation, a partnership, a trust, an estate, a joint-stock company, an association, or a syndicate, group, pool, joint venture, or other unincorporated organization, group, or entity. A trust or estate, rather than the fiduciary acting for, or on behalf of, the trust or estate, is generally the employer.

(5) The term "employer" embraces not only individuals and organizations engaged in a trade or business, but also organizations exempt from income tax, such as religious and charitable organizations, educational institutions, clubs, social organizations and societies, as well as the governments of the United States, the states, territories, Puerto Rico, and the District of Columbia, including their agencies, instrumentalities, and political subdivisions.

(6) The term "employer" also means any person paying wages on behalf of a nonresident alien individual, foreign partnership, or foreign corporation, not engaged in trade or business within the United States, including Puerto Rico as if a part of the United States.

(7) If the person for whom the services are or were performed does not have legal control of the payment of the wages for such services, the term "employer" means, except for the purpose of the definition of "wages," the person having such control. For example, where wages, such as certain types of pensions or retirement pay, are paid by a trust and the person for whom the services were performed has no legal control over the payment of such wages, the trust is the employer.

(8) The term "employer" also means a person making a payment of a supplemental unemployment compensation benefit when it is treated as if it were wages under the internal revenue code, 26 U.S.C. §3401. For example, if supplemental unemployment compensation benefits are paid from a trust which was created under the terms of a collective bargaining agreement, the trust shall generally be deemed to be the employer. However, if the person making such payment is acting solely as an agent for another person, the term "employer" shall mean such other person and not the person actually making the payment.

(9) It is a basic purpose to centralize in the employer the responsibility for withholding, returning, and paying the tax, and for furnishing the statements required under chapter 7 of the Michigan income tax act of 1967.

History: 1954 ACS 95, p. 7, Eff. Apr. 5, 1978.

R 206.4 "Household income" defined.

Rule 4. (1) "Income" means the sum of federal adjusted gross income as defined in the internal revenue code, 26 U.S.C. §62 plus:

(a) Benefits received from federal social security, including supplemental security income (SSI), and railroad retirement benefits.

(b) Cash public assistance payments paid by a governmental unit.

(c) Unemployment insurance benefits.

(d) Worker's compensation payments whether for temporary disability, permanent disability, or death.

(e) Veteran's disability payments, pension benefits, or mustering out payments.

(f) Amounts received for loss of wages due to permanent disability.

(g) Amounts received as damages for personal injury or sickness.

(h) Amounts in excess of the claimant's contributions received from a pension plan or annuity.

(i) Life insurance proceeds, except benefits from insurance on a spouse.

(j) Money received from a person not a member of the same household who is legally obligated to support a member of the household.

(k) An inheritance, bequest, or devise, excluding an inheritance from a spouse.

(l) Educational benefits received under federal or state legislation with respect to services in the military or naval forces of the United States.

(m) A scholarship or other educational grant.

(n) Income from an obligation issued by a state or its political subdivisions, including this state.

(o) Gifts in cash or kind from nongovernmental sources exceeding $300.00.

(p) The portion of capital gains and dividends excluded or deducted from federal gross income.

(q) Death benefits paid by, or on behalf of, an employer.

(r) The portion of lump sum distributions from pension deducted from federal gross income.

(s) Earned income from foreign sources excluded from federal gross income.

(t) Accumulation distributions received from a trust not previously included in the claimant's adjusted gross income.

(2) "Household income" does not include:

(a) Surplus foods.

(b) Relief in kind by a governmental unit such as medicaid payments to a nursing home or doctor, or rent paid, in whole or in part, directly to the landlord. Chore service payments are income to the provider but not to the person receiving the benefits.

(c) Governmental grants which must be used by the claimant to improve a homestead.

(d) State and city income tax refunds, including homestead property tax credits. Farmland preservation tax credits shall be included in federal adjusted gross income and household income.

(e) Amounts deducted from social security or railroad retirement benefits for medicare premiums.

(f) Amounts paid by an employer for life, health, or accident insurance.

(g) The first $300.00 in income from gambling, bingo, lottery, or prizes and awards.

(3) Effective with the calendar year 1977, any health or accident insurance premiums paid, in whole or in part, by the claimant, and not by an employer, for himself and his family are deductible from gross income to arrive at household income.

History: 1954 ACS 95, p. 7, Eff. Apr. 5, 1978.

R 206.5 Residency; determination guidelines.

Rule 5. (1) A person who is domiciled in this state is a resident of this state. "Domicile" means the fixed, permanent, and principal home to which a person, wherever temporarily located, always intends to return. A person may have several residences or dwelling places but only may have 1 domicile at a particular time. Domicile, once established, is not lost until there is a concurrence of all of the following:

(a) The specific intent to abandon the old domicile.

(b) The intent to acquire a specific new domicile.

(c) Actual physical presence in the new state of domicile. Generally, the domicile of the wife follows that of the husband.

(2) To overcome the presumption of residency, as stated in subrule (1), a taxpayer shall present detailed factual data to the department. Factors to be considered in determining a taxpayer's residency or domicile include where he keeps his most important possessions, houses his family, votes, maintains club and lodge memberships, buys automobile licenses, maintains a mailing address and banks, operates a business, or sues for divorce. However, no one of these factors is controlling. The failure of a person to pay income taxes in the state to which he claims to have domicile is very significant.

(3) A person whose residency cannot be determined by the above guidelines shall be deemed a resident of Michigan if he lives within the state for not less than 183 days during the tax year or for more than ½ the days during a taxable year of less than 12 months.

History: 1954 ACS 95, p. 8, Eff. Apr. 5, 1978.

R 206.6 Income from obligations and securities of states other than Michigan.

Rule 6. (1) Gross interest and dividend income from obligations and securities of states other than Michigan, and their political subdivisions, not subject to

federal income taxes, including such interest and dividends from qualifying mutual funds, shall be added to adjusted gross income.

(2) The income may be reduced by related expenses not deducted in computing federal adjusted gross income because of the internal revenue code, 26 U.S.C. §265(1).

(a) Example:

Gross interest income from state of Ohio bonds	$600.00
Expense (investment counseling fees, bank charges, brokerage fees)	32.00
Interest income to be added to adjusted gross income	$568.00

(b) Interest on indebtedness incurred in carrying the obligation or security is not deductible from the interest or dividend income.

History: 1954 ACS 95, p. 8, Eff. Apr. 5, 1978.

R 206.7 Add back of taxes on or measured by income.

Rule 7. (1) Taxes on or measured by income deducted in computing federal adjusted gross income shall be added back to federal adjusted gross income to determine the income subject to Michigan income tax.

(2) An individual who receives distributive income from partnerships, joint ventures, and subchapter S corporations is required to make the adjustment in subrule (1) if the partnership, joint venture, or subchapter S corporation paid city or state income tax on its distributive income and did not add back such taxes to the amounts distributed to the partners or shareholders.

History: 1954 ACS 95, p. 9, Eff. Apr. 5, 1978.

R 206.8 Losses on sale or exchange of United States obligations; reporting.

Rule 8. Losses on the sale or exchange of United States obligations, the income of which the state is prohibited from taxing, shall be subtracted from federal adjusted gross income. To do this, file form MI-1040D and enter a zero in column "Z" of the line on which the loss is reported.

(a) Example:

Mr. Smith is reporting a gain from the sale of stock in the amount of $2,100.00 and a loss from the sale of United States obligations in the amount of $900.00.

(b) These transactions are reported on form MI-1040D as follows:

Long-term capital gains and losses—assets held more than 6 months

	Date Acquired	Date Sold	Federal Gain Col. Y	Michigan Gain Col. Z
6. Stock	9-30-68	10-1-77	$2,100.00	$2,100.00
U.S. obligation	4-1-69	7-10-77	(900.00)	—0—
7. Capital gain distributions				
8. Enter gain if applicable from form MI-4797 line 4(a)(1)				
9. Enter your share of net long-term gain or (loss) from partnerships and fiduciaries				
10. Enter your share of net long-term gain from small business corporations (subchapter S)				
11. Net gain or (loss), combine lines 6 through 10			1,200.00	2,100.00

14. Combine the amounts shown on lines 5 and 13 and enter the net gain (loss) here			1,200.00	2,100.00
15. If line 14 shows a gain—				
(a) Enter 50% of line 13 or 50% of line 14, whichever is smaller. Enter zero if there is a loss or no entry on line 13			600.00	1,050.00
(b) Subtract line 15(a) from line 14. Enter here and carry amount in column Y to MI-1040 line 39(a) carry amount in column Z to MI-1040 line 32(a)			600.00	1,050.00

History: 1954 ACS 95, p. 9, Eff. Apr. 5, 1978.

R 206.9 Interest income and gains from sale or disposal of United States obligations exempted from state taxation; treatment; interest on federal income tax refunds.

Rule 9. (1) Interest income and gains from the sale or disposal of United States obligations, which are exempted from state taxation by the United States Constitution, treaties, and statutes, are deductible from adjusted gross income. The deduction for such income shall be reduced by any interest on indebtedness incurred in carrying the United States obligation and by any other expense, including amortized bond premiums, deducted from gross income to arrive at adjusted gross income. The income from the following United States obligations is not subject to state income tax:

(a) United States treasury bonds, notes, bills, and savings bonds.

(b) Bonds, notes, debentures, and other obligations issued by:

(i) Federal intermediate credit banks.

(ii) Federal land banks.

(iii) Federal home loan banks.

(iv) Central banks for co-operatives.

(v) Regional banks for co-operatives.

(vi) Tennessee valley authority.

(vii) United States postal service obligations.

(2) Interest on federal income tax refunds is not exempted from state taxation and shall not be claimed as a deduction.

History: 1954 ACS 95, p. 10, Eff. Apr. 5, 1978.

R 206.10 Compensation for service in the armed forces of the United States; treatment.

Rule 10. (1) Compensation paid from federal appropriations, including retirement benefits, for military services in the armed forces is exempt from Michigan income tax, and is deductible from adjusted gross income by the recipient to the extent it is included in federal adjusted gross income.

(a) Example 1. Active duty personnel

All military compensation is exempt.

(b) Example 2. Reservist

$10,000.00	Compensation from civilian employment
500.00	Active duty military pay
10,500.00	Federal adjusted gross income
500.00	Deduct military pay
$10,000.00	Income subject to Michigan income tax

The $500.00 active duty military pay was paid from federal appropriations and is not subject to Michigan income tax.

(c) Example 3. National guardsman

$10,000.00	Compensation—Civilian employment
500.00	Two weeks' camp and monthly military pay
250.00	Riot duty (emergency declared by governor)
10,750.00	Adjusted gross income
500.00	Deduct
$10,250.00	Income subject to Michigan income tax

The guardsman was federalized during the 2 weeks at camp and at the monthly military drills. The pay for these came from federal appropriations.

The $250.00 paid for riot duty came from state funds and is subject to Michigan income tax.

(d) Example 4. National guard technicians

National guard technicians, although paid from federal funds, are full-time civilian employees. Their civilian pay is subject to Michigan income tax. They are members of the national guard, however, and compensation paid for the 2 weeks' encampment and the monthly drills is military pay and is exempt from Michigan income tax as in example 3.

(e) Example 5. Armory board of control

Compensation for serving as a member of an armory board of control is subject to Michigan income tax.

(f) Example 6. Retirement benefits

Retirement benefits paid to retirees of the armed forces for services performed while a member of the armed forces are exempt from Michigan income tax.

(2) Employee business expenses attributable to military income shall reduce the subtraction for military income. If the expenses exceed the military income, there can be no subtraction for military income.

History: 1954 ACS 95, p. 10, Eff. Apr. 5, 1978.

R 206.11 Retirement and pension benefits.

Rule 11. (1) Retirement and pension benefits received from a retirement system of the state of Michigan or any of its local units of government, including public colleges and universities, may be deducted to the extent included in federal adjusted gross income.

(2) Retirement and pension benefits from the following sources, which shall be included in adjusted gross income, are deductible to a maximum of $7,500.00 ($10,000.00 on a joint return). The maximum deduction allowed a married couple filing separately is $10,000.00.

(a) Pension trusts and annuity plans that qualify under internal revenue code, 26 U.S.C. §401(a), including:

(i) Plans for self-employed persons, such as proprietors and partners, commonly known as Keogh or HR 10 plans.

(ii) Individual retirement plans for persons who are not participants in a qualified plan, a Keogh plan, or a charitable annuity.

(iii) Employee annuities (tax-sheltered annuities) purchased under 26 U.S.C. §403(b) by organizations exempted by internal revenue code, 26 U.S.C. §501(c)(3) and public school systems.

(b) Plans not qualified under the internal revenue code:

(i) Plans of the United States, state governments other than Michigan, and other political subdivisions, agencies, or instrumentalities.

(ii) Plans maintained by a church or a convention or association of churches.

(iii) All other unqualified pension trusts which prescribe eligibility for retirement, and predetermine contributions and benefits.

(3) Pension or retirement benefits received by a surviving spouse may be deducted to the extent allowed, providing the benefits qualified for deduction prior to the decedent's death. Such benefits, when received by a surviving child, are not deductible.

(4) Amounts received from a plan that allows the employee to set the amount of compensation to be deferred and does not prescribe retirement age or years of service are not deductible.

(5) Premature distributions paid on separation, withdrawal, or discontinuance of a plan prior to the earliest date the recipient could have retired under the provisions of the plan are not deductible.

History: 1954 ACS 95, p. 11, Eff. Apr. 5, 1978.

R 206.12 Allocation and apportionment of income; adjustments.

Rule 12. (1) Salaries, wages, and other compensation received by a Michigan resident are allocated to Michigan. The credit provided in section 255 of Act No. 281 of the Public Acts of 1967, being §206.255 of the Michigan Compiled Laws, may be claimed if the compensation was earned in another state and taxed by that state.

(2) Salaries and wages earned in Michigan by a nonresident are allocated to Michigan. The credit for tax paid to the resident state pursuant to section 256 may be claimed by residents of states listed in the tax instruction booklet for the corresponding tax year. These states are considered reciprocal as to the nonresident tax credit.

(3) Income from a trade or business as defined in R 206.1 is allocated or apportioned to the state in which the activity takes place.

(4) Business income that is attributable to Michigan and 1 or more other states shall be apportioned as provided in sections 115 to 195 of Act No. 281 of the Public Acts of 1967, as amended, being §§206.115 to 206.195 of the Michigan Compiled Laws.

(5) Net rents and royalties from real property are allocated to the state in which the real property is located.

(6) Net rents and royalties from tangible property are allocated to Michigan, if any of the following exist:

(a) The personal property is utilized in Michigan.

(b) The rent is received by a Michigan resident, or the recipient has a commercial domicile in Michigan and is not organized under the laws of, or subject to tax by, the state in which the property was utilized.

(7) Capital gains and losses from the disposition of real property are allocated to the state in which the real property is located.

(8) Capital gains and losses from the disposition of personal property are allocated to Michigan if any of the following exist:

(a) The property was located in Michigan at the time of sale.

(b) The taxpayer is a Michigan resident.

(c) The taxpayer has a commercial domicile in this state and is not taxable in the state in which the property had a situs.

(9) Capital gains and losses from the disposition of intangible personal property are allocated to Michigan if received by a Michigan resident.

(10) Interest, dividends, and pension and annuity income are allocated to Michigan if received by a Michigan resident.

(11) Patent and copyright royalties are allocated to Michigan if either of the following:

(a) The patent or copyright is used in Michigan.

(b) The owner is a Michigan resident or has a commercial domicile in Michigan and is not taxable in the state in which the patent or copyright was used.

(12) A patent is used in Michigan if the patented product is produced in Michigan or the patent is used in Michigan production, fabrication, manufacturing, or other processing.

(13) A copyright is used in Michigan if the printing or publication of the copyrighted item takes place in Michigan.

(14) Income includable in federal adjusted gross income not specifically allocated or apportioned by this rule is allocated to Michigan when received by a Michigan resident. Credit for tax paid to another state on income subject to tax in the other state may be claimed by the Michigan resident.

(15) The following forms of income may be claimed as a subtraction from adjusted gross income if not allocated or apportioned to Michigan; conversely, losses not allocated or apportioned to Michigan shall be added to adjusted gross income:

(a) Trade or business, including farming.

(b) Rents and royalties from real and personal property.

(c) Capital gains from the disposition of real and tangible personal property.

(d) Capital gains from the disposition of intangible personal property.

(e) Interest and dividends.

(f) Pensions and annuities.

(g) Patent and copyright royalties.

(16) Distributive share items received by a partner are allocated or apportioned as follows:

(a) Ordinary income is apportioned to Michigan by the partnership apportionment factors as provided by sections 115 to 195 of Act No. 281 of the Public Acts of 1967, as amended.

(b) Salary allocated to Michigan when received by a Michigan resident. Credit may be claimed for tax paid to another state if the salary was earned in the other state. Salary earned in Michigan by a nonresident partner is allocated to Michigan.

(c) Interest income and qualifying dividends paid to resident partners.

(d) Short-term capital gains (losses), long-term capital gains (losses), involuntary conversion gains (losses), and other gains (losses) from real or personal property that had a situs in Michigan at the time of sale are allocated to Michigan. Capital gains from the sale of intangible personal property are allocated to Michigan when received by a Michigan resident.

(e) Additional first year depreciation on property located in Michigan is allocated to Michigan.

(f) Distributive items from a partnership not allocated or apportioned to Michigan may be claimed as a deduction from adjusted gross income. Conversely, losses and deductions not allocated or apportioned to Michigan shall be added to adjusted gross income.

(17) All distributive income from a subchapter S corporation includable in the shareholder's adjusted gross income is subject to tax if allocated or apportioned to Michigan.

(18) Dividend distributions taxable as ordinary income, plus undistributed income taxable as ordinary income, are apportioned to Michigan if all of the corporation's business activities are confined to Michigan. If the corporation is taxable both within and without Michigan, such income is apportioned to Michigan as provided in sections 115 to 195 of Act No. 281 of the Public Acts of 1967, as amended.

(19) Dividend distributions taxable as long-term capital gains and undistributed long-term capital gains are allocated as follows:

(a) Capital gains from the disposition of real property are allocated to Michigan if the property is located in Michigan.

(b) Capital gains from the disposition of tangible personal property are allocated to Michigan if the property has a situs in Michigan at the time of sale.

(c) Capital gains from the sale of intangible personal property are allocated to Michigan when received by a Michigan resident.

(20) Distributive income from a subchapter S corporation not allocated or apportioned to Michigan may be claimed as a subtraction from adjusted gross income. Conversely, losses not allocated or apportioned to Michigan shall be added to adjusted gross income.

History: 1954 ACS 95, p. 11, Eff. Apr. 5, 1978.

R 206.13 Personal and dependent's exemption allowance; proration for nonresident or part-year resident; death of taxpayer.

Rule 13. (1) A nonresident or part-year resident is allowed that portion of the personal and dependent's exemption allowance that the taxpayer's income from Michigan sources bears to total income from all sources. Total income for this proration is federal adjusted gross income plus the deduction allowed under internal revenue code, 26 U.S.C. §1202, excluding sick pay and foreign source income.

(2) A person who is permanently leaving Michigan and is filing a final federal return covering less than 12 months shall file a Michigan return covering the same period and prorate the exemption allowance on the basis of months in Michigan during the calendar year to 12 months.

(3) A proration of the exemption allowance is not required because of the death of the taxpayer during the tax year.

History: 1954 ACS 95, p. 13, Eff. Apr. 5, 1978.

R 206.14 Moving expenses.

Rule 14. Persons moving into or out of the state of Michigan shall allocate all adjustments to gross income resulting from the move to the state of destination as shown in the following examples:

(a) Example 1. Wage earner moves to Michigan.

Michigan wages	$ 6,000.00	Reported on MI-1040 as follows:	
Nonresident wages	4,000.00	Federal adjusted gross income	$ 8,500.00
Total	10,000.00	Income attributable to another state	4,000.00
Moving expenses	(1,500.00)	Income subject to Michigan tax	$ 4,500.00
Adjusted gross income	$ 8,500.00		

Note: The Michigan income is reduced by the moving expenses.

(b) Example 2. Taxpayer moves to Michigan and his reimbursed expenses exceeded the amount that could be deducted on his federal return.

Michigan wages	$12,000.00	Reported on MI-1040 as follows:	
Nonresident wages	8,000.00	Federal adjusted gross income	$20,500.00
Total	$20,000.00	Income attributable to another state	8,000.00
Reimbursed moving expenses	3,000.00	Income subject to Michigan tax	$12,500.00
Not allowable moving expenses	2,500.00		
Difference	500.00		
Federal adjusted gross income	$20,500.00		

Note: Reimbursed moving expenses include reimbursement for the cost of selling a house in former state, as this is a separate transaction not included in the computation of the gain from the sale of the residence.

Note: Taxpayer's excess reimbursed moving expense is taxable in Michigan.

(c) Example 3. Wage earner moves from Michigan to another state.

Michigan income	$ 6,000.00	Reported on MI-1040 as follows:	
Nonresident income	4,000.00	Federal adjusted gross income	$ 8,500.00
Total	10,000.00	Income attributable to another state	2,500.00
Allowable moving expenses	1,500.00	Income subject to Michigan tax	$ 6,000.00
Federal adjusted gross income	$ 8,500.00		

Note: Taxpayer's subtraction of income attributable to state of destination is reduced by the moving expense.

(d) Example 4. Taxpayer moving out of Michigan whose reimbursed moving expenses exceeded the amount that could be deducted on his federal return.

Michigan wages	$12,000.00	Reported on MI-1040 as follows:	
Nonresident wages	8,000.00	Federal adjusted gross income	$20,500.00
Total	20,000.00	Income attributable to another state	8,500.00
Reimbursed moving expenses	3,000.00	Income subject to Michigan tax	$12,000.00
Allowable moving expenses	2,500.00		
Difference	500.00		
Federal adjusted gross income	$20,500.00		

Note: Taxpayer's subtraction of income attributable to state of destination includes the excess reimbursed moving expense.

History: 1954 ACS 95, p. 13, Eff. Apr. 5, 1978.

R 206.15 Credit for income tax withheld from compensation.

Rule 15. (1) The income tax deducted and withheld from compensation under chapter 7 of Act No. 281 of the Public Acts of 1967, as amended, is allowed as a credit against the income tax of the person from whose wages the tax was

withheld. Credit shall be given to the employee even though such tax has not been paid to the department by the employer.

(a) Example 1. An employee received compensation of $15,000.00 from his employer for the year. The employer withheld tax of $500.00 from the employee and furnished him with a W-2 wage and tax statement showing $500.00 withheld. The department shall give the employee credit for tax withheld of $500.00.

(b) Example 2. The employer paid his employees by check and withheld tax from each payment of wages. Each check contained a stub which itemized all deductions. One of the deductions was headed "Michigan Tax." The employees did not have W-2 wage and tax statements to attach to their individual income tax returns because the employer did not give the employees the statements. The employees shall receive credit against the tax established by their individual income tax returns for all tax they can prove was withheld. A copy of each check stub shall be accepted as evidence of the tax withheld unless the department can prove otherwise. If the employee cannot support his claim for tax withheld by W-2 wage and tax statements or check stubs, he shall file an employee complaint form with his income tax return.

(2) If a taxpayer files individual income tax returns on any basis other than a calendar year basis, the tax deducted and withheld during any calendar year is allowed as a credit against the income tax of the person from whose wages the tax was withheld for the taxable year which begins in such calendar year. If the person from whose wages the tax was withheld has more than 1 taxable year beginning in that calendar year, the credit shall be allowed against the tax for the last taxable year beginning in such calendar year.

(a) Example 1. A man and his wife own a business and file their individual income tax return, MI-1040, on a fiscal year basis ending June 30th. They made 4 estimated payments totaling $700.00 toward their tax liability for their year ending June 30, 1976. The husband also worked for another business and the employer withheld $325.00 tax from his compensation for calendar year 1975. The tax liability of the husband and wife established by the MI-1040 for fiscal year ending June 30, 1976, was $1,100.00. The taxpayer should take credit for the $700.00 estimated payments made for the fiscal year ending June 30, 1976, plus the $325.00 tax the husband's employer withheld during calendar year 1975. They must pay $75.00 with the MI-1040 when they file.

(b) Example 2. The situation in this example is the same as in example 1 except the husband worked from January 15, 1976, to May 31, 1976, for the employer but did not work for him during calendar year 1975.

The husband and wife cannot claim the $325.00 tax the employer withheld from the husband's compensation in 1976 on their MI-1040 for fiscal year ending June 30, 1976, and must pay $400.00 at the time they file their annual return, MI-1040. They must take credit for the $325.00 tax withheld in 1976 on their MI-1040 for the year ending June 30, 1977.

(c) Example 3. After filing his 1976 tax return on a calendar year basis, a taxpayer decides to change his filing to a fiscal year basis using the fiscal period of July 1 to June 30. He must file a return for the period of January 1, 1977, to June 30, 1977, and pay the tax. He shall not receive credit for the tax withheld during that period. When filing his full year return for the fiscal period July 1, 1977, to June 30, 1978, he shall report his income for the last 6 months of 1977 and the first 6 months of 1978 and shall receive credit for the full amount of tax withheld during calendar year 1977. The 1977 W-2 wage and tax statement shall be attached to the return.

History: 1954 ACS 95, p. 14, Eff. Apr. 5, 1978.

R 206.16 Credit allowed resident for income tax paid to other states.

Rule 16. (1) A resident taxpayer is allowed a credit for tax imposed on income which is also subject to tax by another state of the United States, or political subdivision thereof, or the District of Columbia. This credit is limited to the smaller of (a) the Michigan tax on such income or (b) the tax imposed by the other state. The credit is that portion of the Michigan income tax that the income which is subject to tax in both states bears to total taxable income. Example:

Michigan wages	$ 8,000.00
Wages earned in another state	2,000.00
United States government bond interest	1,000.00
Adjusted gross income	11,000.00
United States government bond interest	1,000.00
Total taxable income	$10,000.00
Income subject to tax in both states $2,000.00 or 20%	
Taxpayer has 2 exemptions	
2 x $1,500.00	3,000.00
Taxable balance	7,000.00
Tax @ 4.6%	322.00
Tax paid to other state; $70.00	
Maximum credit allowed 20% of $322.00	$ 64.40

In this example, the taxpayer cannot claim the full $70.00 paid to another state as his credit is limited to 20% of $322.00 or $64.40. The credit cannot exceed the amount paid to another state.

(2) Since Michigan allows a subtraction of income attributable to other states the credit is ordinarily limited to tax imposed on compensation received for services rendered in another state.

History: 1954 ACS 95, p. 15, Eff. Apr. 5, 1978.

R 206.17 City income tax credit.

Rule 17. (1) Each person subject to tax under this act may claim a credit for a portion of the income taxes levied by cities in Michigan which are deductible if that person had not elected the standard deduction. For purposes of computations of this credit, city income taxes do not include penalties or interest paid.

(2) The amount of city income taxes used as a basis for computation of this credit shall be the city income tax paid by the taxpayer in the tax year. The tax paid shall be reduced by any refund of overpaid taxes of a prior year.

(3) If a person is assessed and pays additional city income taxes applicable to prior years, the additional taxes paid shall be added to the city income tax of the year in which they are paid for purposes of computation of this credit.

(4) A credit shall not be allowed unless the credit is claimed on a tax return filed within 6 months after the end of the year for which the credit is claimed or within the period of an authorized extension for filing.

The credit shall be computed as follows:

If the total city income tax is:	The credit shall be:
Not over $100.00	20% of the city income taxes
Over $100.00; not over $150.00	$20.00 + 10% of the excess over $100.00
Over $150.00; not over $200.00	$25.00 + 5% of the excess over $150.00
Over $200.00	$27.50 + 5% of the excess over $200.00
	The total credit shall not exceed $10,000.00.

R 206.18 Charitable contribution tax credit.

Rule 18. (1) Each taxpayer shall be allowed a credit against his tax liability for a portion of the charitable contributions made during the year to public libraries and institutions of higher learning located within this state and to the Michigan colleges foundation.

(2) For the tax years 1974 to 1979, credit shall also be allowed to a nonprofit corporation, fund, foundation, trust, or association which is organized and operated exclusively for the benefit of institutions of higher learning located within this state. To qualify for credit, each recipient organization shall be controlled, or approved and reviewed, by the governing boards of the institutions benefiting from the charitable contributions. Copies of the independently audited annual financial statements of the recipient organization shall be provided to the Michigan auditor general and to the chairmen of the senate and house appropriations committees.

(3) The charitable contribution credit shall equal 50% of the contribution except:

(a) In the case of a taxpayer other than a resident estate or trust, the amount allowable as a credit under this rule for any taxable year shall not exceed 20% of the taxpayer's tax liability for such year as determined before any tax credits or $100.00, or in the case of a husband and wife filing a joint return, $200.00, whichever is less.

(b) In the case of a resident estate or trust, the amount allowable as a credit under this section for any taxable year shall not exceed 10% of the tax liability for such year as determined before any tax credits or $5,000.00, whichever is less.

(4) "Institution of higher learning" means an educational institution which is recognized by the state board of education as an institution of higher learning and appears as such in the annual publication of the department of education entitled "The Directory of Institutions of Higher Education."

(5) "Public library" means a library established for free public purposes by a governmental entity and does not include a special library organized by a professional or technical group or a school.

History: 1954 ACS 95, p. 16, Eff. Apr. 5, 1978.

R 206.19 Adjustment of pre-tax gains or losses.

Rule 19. (1) A taxpayer, whose federal adjusted gross income includes gains and losses realized in the tax year from the disposition of property acquired prior to October 1, 1967, which are described in and subject to the provisions of subchapter P of the internal revenue code, 26 U.S.C. §1201 et seq., may reduce taxable income by the portion of gain or loss attributable to the period before October 1, 1967. When this election is made, it shall include all items of gain or loss realized during the taxable year.

(2) To compute this adjustment a fraction is applied to the gain. The denominator is the total months held and the numerator is the number of months held after October 1, 1967. In making this calculation, property acquired or disposed of from the first to the fifteenth of the month shall be counted from the first of the month and property acquired or disposed of after the fifteenth of the month shall be counted from the last day of the month.

(3) Losses resulting from the application of this rule shall not be carried forward.

History: 1954 ACS 95, p. 16, Eff. Apr. 5, 1978.

R 206.20 Withholding generally.

Rule 20. (1) Every employer, over whom Michigan has jurisdiction, required to withhold federal income tax from compensation paid an employee, shall also withhold Michigan income tax from (a) compensation paid to the employee if the employee is a resident of Michigan, and (b) from that portion of the compensation earned in Michigan if the employee is not a resident of Michigan, unless (i) the compensation is paid to an employee from whom the employer is prohibited from withholding Michigan income tax because of a federal law, or (ii) the employer is not required to withhold Michigan income tax because of a reciprocal agreement between Michigan and another state or between Michigan and another city. (See employer's tax guide.)

(2) Churches, schools, governmental agencies, and nonprofit organizations exempt from income tax shall withhold Michigan income tax from compensation paid employees the same as any other employer.

(a) Example 1. A church has a full-time secretary and withholds federal income tax from her compensation. The church shall also withhold Michigan income tax from her compensation.

(b) Example 2. A machine shop is located in Michigan close to the Indiana state line. It employs residents of both Michigan and Indiana and is required to withhold federal income tax from all employees. The firm shall withhold Michigan income tax from Michigan residents, but will not be required to withhold Michigan income tax from residents of Indiana who provide the employer with a certificate of nonresidency. Michigan and Indiana have a reciprocal agreement.

(c) Example 3. A contractor from Pennsylvania builds a shopping center in Michigan. He employs residents of Michigan from the local labor force and brings 2 of his permanent employees from Pennsylvania to Michigan for 3 months to supervise the construction. The contractor shall register and withhold Michigan income tax from the compensation paid to all employees engaged in the project including the compensation paid to the 2 residents of Pennsylvania for the compensation paid for the work performed in Michigan. This contractor has the same obligation to withhold the Michigan tax as a Michigan contractor who performs all of his business in Michigan.

History: 1954 ACS 95, p. 17, Eff. Apr. 5, 1978.

R 206.21 Failure to withhold; withholding less than correct amount; liability of employer.

Rule 21. (1) If an employer erroneously fails to withhold Michigan income tax from compensation paid to an employee, or withholds less than the correct amount, he is liable for payment of the amount which should have been withheld, whether or not it is collected from the employee by the employer. The employer should correct the error within the same calendar year, if possible, by deducting the difference between the amount withheld and the amount required to be withheld from any compensation still owed the employee.

(2) If the failure to withhold is in a year other than the current year, the employer is still liable for the amount that should have been withheld and shall pay it to the department. Any reimbursement by the employee to the employer is a matter between the employer and the employee.

(3) If the employer fails to withhold the tax as required and, thereafter, the income tax against which the tax may be credited is paid, the tax required to be deducted and withheld shall not be collected from the employer. Such payment

does not, however, operate to relieve the employer from liability for penalties and interest on the tax that should have been withheld.

(a) Example 1. An individual started a business on March 1 of the current year. He was an employer and the people on his payroll were employees subject to collection of federal income tax at source on wages under chapter 24 of the internal revenue code, 26 U.S.C. §4101 et seq. The employer did not register and start withholding Michigan income tax until August 1. The employer is liable for withholding the correct tax from the compensation he pays his employees. He should compute the tax he should have withheld from each employee from March 1 to August 1 and withhold this from each employee during the remainder of the year in addition to the correct tax that must be withheld from each payment of compensation. This is according to subrule (1) above.

(b) Example 2. An employer was withholding federal income tax from wages, but was not withholding Michigan income tax. The department made an audit in June, 1976, and determined the following:

	1973		1974	
Employee	Wages paid	Should have withheld	Wages paid	Should have withheld
No. 1	$15,255.00	$328.00	$15,425.00	$438.00
No. 2	$12,000.00	300.00	$13,000.00	416.00
Tax due		$628.00		$854.00

	1975		1976	
Employee	Wages paid	Should have withheld	Wages paid	Should have withheld
No. 1	$16,000.00	$450.00	$8,000.00	$225.00
No. 2	$14,000.00	448.00	$7,000.00	224.00
Tax due		$898.00		$449.00

The department assessed tax of $2,829.00 plus penalty and interest against the employer. Subsequently, the employer obtained signed employee wage statements from the employees and sent them to the department.

Employee no. 2 claimed he filed MI-1040 returns for the years 1973, 1974, and 1975. The department checked its records and found returns for all 3 years and that the employee did pay the tax on his own MI-1040.

Since the assessment had not been paid, the department reduced the assessment by $1,164.00, which is the tax in the audit for the years 1973, 1974, and 1975. If the assessment had been paid, the department would have issued a refund to the employer. This is according to subrule (3) above. Employee no. 1 also gave his employer signed employee wage statements claiming he filed MI-1040 returns and paid his own tax on the wages he received from the employer. The department checked its records and could not find a return for 1973. They found a joint return for 1974, but the adjusted gross income on the return was $12,000.00. This was compensation the wife received as a schoolteacher. It agreed with the compensation shown on the W-2 issued by the school district. The department also found a joint return for 1975 and the employee and his wife reported the compensation from both their employers. The department reduced the assessment against the employer by $450.00 for the tax included in the audit for 1975 since the employee paid the tax on this compensation on his own MI-1040. This is according to subrule (3) above.

The department cannot give the employer relief for the tax he should have withheld from employee no. 1 in 1973 and 1974 since the employee did not report on any MI-1040 the compensation he received from the employer.

Employee no. 1 is delinquent for the year 1973 and filed a false MI-1040 for 1974. The department will give the employee credit as tax withheld of $328.00 in 1973 and $438.00 in 1974 at the time it confronts him about his individual income tax returns. The employer shall look to the employee if he wishes to get reimbursed for these 2 amounts. This is a matter between the employer and the employee. See subrule (2) above.

The employer may recover the $449.00 tax he did not withhold in 1976 by deducting it from future compensation paid the employee during the remainder of the year according to subrule (1). The employees shall be given credit for these amounts on their 1976 W-2 plus any additional tax to be deducted for the remainder of 1976.

History: 1954 ACS 95, p. 17, Eff. Apr. 5, 1978.

R 206.22 Overwithholding or withholding in error.

Rule 22. (1) If an employer overwithholds income tax from an employee's wages, or if he withholds Michigan tax where he should not have withheld Michigan tax, he may repay the amount withheld in error to the employee at any time within the same calendar year. He shall obtain a receipt from the employee for the amount refunded and keep it as a part of his own records. The employer may adjust his records internally and deduct the amount refunded from the tax owing on his next return or he may ask for a cash refund.

(2) The fact that an employer is withholding more on 1 basis than he would if he were using another method, for example, the wage bracket method as compared to the percentage method, does not mean that there has been an overcollection. The employer may choose whichever method he prefers and if his computation is correct according to the method selected, there is no overcollection. Similarly, if an employee does not file an exemption certificate so that more is withheld than would have been if he had claimed his exemptions, there is no overcollection on that account and no repayments to him by the employer would be authorized.

(3) If the employer does not repay the employee for the overcollection, the employee's remedy lies in claiming credit for the amount withheld on an individual income tax return.

(a) Example 1. An employee was a resident of Michigan and lived and worked in Michigan through June of the current year. On July 1, his employer reassigned the employee to New York state. The employee moved to and became a legal resident of New York state on July 1.

The employer correctly withheld $600.00 Michigan tax from January through June, but erroneously withheld another $200.00 Michigan tax instead of New York tax during July and August and paid Michigan $800.00 tax which was withheld from this 1 employee.

The employer should refund $200.00 to the employee and obtain a receipt for his records. The employer may either reduce his next Michigan return by $200.00 or ask for a refund. The W-2 shall show $600.00 Michigan tax withheld.

(b) Example 2. A coding error resulted in Michigan tax being withheld from an employee who is a resident of Minnesota. The employee never lived or worked in Michigan. The employee found the error when he received his W-2. If the employer can recover the W-2 and issue a corrected W-2 showing no Michigan tax withheld, he may refund the tax to the employee, obtain a receipt, and either

deduct it from the amount withheld the following month or ask the department for a refund. If the employer cannot recover the W-2 from the employee, the employee shall obtain relief by filing a Michigan individual income tax return.

History: 1954 ACS 95, p. 18, Eff. Apr. 5, 1978.

R 206.23 Withholding tax returns.

Rule 23. The income tax withheld from compensation paid to employees is a personal obligation of the employer (taxpayer) and is due and payable on or before the fifteenth day of the month next succeeding the month in which the tax was withheld. The commissioner of revenue may require filing of returns on other than a monthly basis. The taxpayer shall make out a tax return for the preceding month on the form required by the department, showing the amount of the tax for which he is liable and mail the return, together with a remittance for the amount of the tax, payable to the state of Michigan, to the address as indicated on the return, on or before the fifteenth day of the month. The return shall be signed by the taxpayer or the duly authorized agent of the taxpayer.

History: 1954 ACS 95, p. 19, Eff. Apr. 5, 1978.

R 206.24 Withholding exemption certificate.

Rule 24. (1) Every employee shall file a signed employee's Michigan withholding exemption certificate, form MI-W4, with his or her employer. The number of personal and dependency exemptions claimed on the MI-W4 shall not exceed the number of personal and dependency exemptions the employee is entitled to claim on his or her individual income tax return. If married, and the employee and his or her spouse are both employed, they shall not claim the same personal and dependency exemptions with their employers at the same time. If a person is unmarried and holds more than 1 job, the person shall not claim the same exemption with more than 1 employer at the same time.

(2) An employee may claim exemption from Michigan income tax withholding, which shall be renewed annually, if all of the following conditions exist:

(a) He claimed exemption from federal income tax withholding.

(b) He did not incur a Michigan income tax liability for the previous year.

(c) He does not anticipate a Michigan income tax liability for the current year because his employment is less than full time, intermittent, or temporary, and his personal and dependency exemptions will exceed his annual compensation.

(3) An employee shall file a new certificate within 10 days if the number of exemptions previously claimed decreases because:

(a) The spouse for whom the employee has been claiming exemption is divorced or legally separated, or claims her or his own exemption on a separate certificate.

(b) The employee finds that a dependent claimed as an exemption on the certificate must be dropped for federal purposes.

(4) The death of a spouse or a dependent does not affect the employee's withholding until the following year.

(5) If an employee fails or refuses to furnish an exemption certificate, the employer shall withhold tax from the employee's total compensation without allowance for any exemptions.

History: 1954 ACS 95, p. 19, Eff. Apr. 5, 1978.

R 206.25 "Homestead" defined.

Rule 25. (1) "Homestead" means a dwelling, or a unit in a multiple unit dwelling, which is subject to property tax or a service charge in lieu of taxes

Digitized by Google

pursuant to section 15a of Act No. 346 of the Public Acts of 1968, and is occupied as a home by the owner or renter. Real property classified as agricultural land for property tax purposes is part of a person's homestead under any of the following conditions:

(a) If the gross receipts from the taxpayer's agricultural or horticultural operations are greater than his household income, all taxes on farmland may be claimed for credit.

(b) If gross receipts from the taxpayer's agricultural or horticultural operations are less than his household income, the credit for property taxes is limited to the property taxes on land that he has lived on for 10 years or more and which is adjacent or contiguous to his home.

(c) If the taxpayer has not lived on the land for 10 years and the gross receipts from agricultural or horticultural operations do not exceed the taxpayer's household income, only the taxes on the home and 5 acres of land may be claimed for credit.

(2) The taxes on a homestead, which is an integral part of a larger unit of assessment, shall be the proportion of the total property tax that the value of the homestead is to the total value of the assessed property.

(a) Example 1. The taxpayer is an insurance agent and is using the first floor of his 2-story house as a business office. He and his wife live on the second floor. Assuming the value of the real property used for business is equal to the value of the real property used as a home, the taxpayer may claim for credit one-half of the property taxes.

(b) Example 2. The taxpayer has converted the second floor of his home to an apartment which he rents for $175.00 per month. To determine the property taxes applicable to the apartment, the annual rent of $2,100.00 (12 x $175.00 = $2,100.00) is multiplied by 17%. This amounts to $357.00 which is subtracted from the total property taxes assessed to arrive at the homestead property tax the taxpayer may claim for credit.

This example is used when the homestead is a part of a larger unit of assessment and that portion of the assessed property not used as a homestead by the taxpayer is rented or leased to another person who occupies it as his home.

(3) A mobile home or trailer coach in a trailer park is a homestead. See R 206.28 for the property taxes that may be claimed for credit by persons residing in a mobile home in a trailer park.

(4) A nursing home or foster care home or home for the aged is the homestead of a permanent resident. A homestead maintained elsewhere by the spouse is considered a part of the same homestead.

(5) A single person who is a permanent resident of a nursing home, foster care home, or home for the aged and also owns the house he formerly occupied may claim for credit either the taxes on the house or his share of the taxes paid by nursing home, foster care home, or home for the aged, but not both.

(6) See R 206.28 for the property taxes that may be claimed for credit by a person residing in a nursing home, foster care home, or home for the aged.

History: 1954 ACS 95, p. 20, Eff. Apr. 5, 1978.

R 206.26 Property taxes claimable for homestead property tax credit; sale of property; apportionment of taxes; computation of credit.

Rule 26. (1) Property taxes which may be claimed for a property tax credit are:

(a) Taxes based on the state equalized value of the homestead, including collection fees. Special assessments based on state equalized value may also be claimed.

(b) The property must be located in Michigan and be the principal residence of the claimant.

(c) The taxes shall be the taxes billed for the year the credit is claimed. For example, a property tax credit claimed for 1976 shall be based on taxes billed to the owner for 1976, usually in July and December.

(2) If the property is sold during the year, the taxes shall be apportioned between the buyer and seller according to the number of days in the calendar year that each occupied the house.

(a) Example 1. The taxpayer sold his home in April, 1976, which he occupied until May 31, 1976. The property taxes for 1976 amounted to $600.00 (summer taxes $200.00, winter taxes $400.00) billed to the new owner in July and December of 1976. On August 1, 1976, he purchased a new home which he first occupied on October 1, 1976. The 1976 taxes on the new home totaled $800.00 (summer taxes $300.00, winter taxes $500.00). The taxes that may be claimed for credit are computed as follows:

Computation Steps	Homestead Sold	Homestead Bought	
1. Number of days occupied	152	92	
2. Divide line 1 by 366 days	41.5%	25.1%	
3. 1976 property taxes	$600.00	$800.00	
4. Prorated taxes line 3 x line 2	$249.00	$200.80	
5. Total taxes for credit			$449.80

The taxpayer rented a home for the period June 1 to September 30, 1976, and may also claim the 17% of tax in rent.

History: 1954 ACS 95, p. 20, Eff. Apr. 5, 1978.

R 206.27 Homestead property tax credit; "owner" defined.

Rule 27. (1) The term "owner," for the purpose of claiming a homestead property tax credit, means a natural person who owns his home or is:

(a) Purchasing a homestead under a mortgage or land contract.

(b) Purchasing a dwelling on leased land.

(c) A tenant stockholder of a cooperative housing corporation.

(d) Holding a life lease in a homestead previously sold.

(e) The sole occupant of a homestead in which he is a joint owner.

(2) Claimants not related as husband and wife, who jointly own and occupy the same dwelling, shall file separate claims on their prorated share of the taxes.

History: 1954 ACS 95, p. 21, Eff. Apr. 5, 1978.

R 206.28 Homestead property tax credit; renter.

Rule 28. (1) A person renting a homestead that is subject to a property tax is entitled to a homestead property tax credit similar to the credit allowed the homeowner.

(2) The renter, in his computation of the credit, shall use 17% of gross rent for taxes on his homestead.

(3) Gross rent is the contracted rental amount the renter or lessee pays to the landlord. If the department has reason to believe that the amount charged is excessive, the department may adjust the rent to fair market value for purposes of computing the credit.

(4) Persons living in a mobile home park may claim credit on the $3.00 per month specific tax and 17% of the remaining charges as rent.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) Example 1. Monthly charges for the lot are $65.00, including the $3.00 per month specific tax. Rent paid for the entire year, $62.00 x 12 = $744.00.

Property tax in rent, 17% x $744.00	$126.48
Specific tax at $3.00 per month	36.00
Homestead property taxes for credit computation	$162.48

(5) A person renting a homestead which is subject to a service fee as provided by section 15a of Act No. 346 of the Public Acts of 1966, being §125.1415a of the Michigan Compiled Laws, in lieu of an ad valorem property tax, shall base his property tax credit on the service fee included in the rent he pays. He does not use 17% of rent paid. For example, John Doe rents a home for $160.00 per month or $1,920.00 per year. The home is tax exempt but a service fee of 7% of rent is paid to the city by the owner. In the computation of the credit, John Doe uses 7% of $1,920.00 or $134.40 for property taxes. The service fees can vary from 1% to 10% of the rent paid depending on the city and type of housing. Therefore, occupants of service fee housing should ask their management agent for the percentage that applies to their homestead.

(6) Persons residing permanently in homes for the aged, nursing homes, or foster care homes that issue a lump sum billing for rent, food, nursing, and other services shall use their allocated share of the property taxes levied on the facility in the computation of their credit. For example, Mary Doe is a permanent resident of a nursing home licensed by the department of public health as a 40-bed facility which was assessed property taxes of $4,840.00 for the tax year. Mary Doe's allocated share of the taxes is $121.00 ($4,840.00 ÷ 40 = $121.00). The number of occupants designated by the license or permit issued by the department of public health or department of social services shall be used in the allocation of the taxes.

(7) Other renters of homesteads that have their meals furnished by the landlord and receive a lump sum billing shall compute their credit on the property taxes levied on the homestead. If the homestead is located in a multi-dwelling complex, the property taxes on the entire complex are allocated to each apartment in the complex. The allocation is to be based on the square feet of each apartment to the total square feet of all apartments. For example, Mr. and Mrs. Doe rent a 600-square-foot apartment in a 100-unit apartment complex. They are billed $750.00 per month for rent and meals. The rent is not stated separately. The total square feet of all of the apartments is 62,000. The taxes on the complex, including carports, swimming pool, and common laundering facilities, amounted to $54,000.00. The taxes that Mr. and Mrs. Doe may claim for credit are $523.80 (600 ÷ 62,000 = 0.97% x $54,000 = $523.80).

(8) This rule to become effective for the tax year starting January 1, 1978.

History: 1954 ACS 95, p. 21, Eff. Apr. 5, 1978.

R 206.29 Homestead property tax credit; separation or divorce of claimants.

Rule 29. (1) For the period prior to separation or divorce, the taxes or rent paid shall be prorated on the basis of each spouse's income to total income for the period. However, if 1 spouse's income does not equal ½ the taxes or tax in rent for the period, the other spouse may claim all of the taxes or tax in rent for that period. In the example in subrule (5) Alice is not entitled to claim part of the property taxes during the period they lived together because for that period she did not have income equal to ½ of the taxes.

(2) During the period of separation or divorce, the occupant of the homestead is entitled to the credit.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(3) If 1 of the parties to a separation or divorce is required to continue the house payments and taxes or the rent on the dwelling occupied by the other, the occupant shall include these payments in his or her household income.

(4) Household income is that income received during the period the claimant is entitled to claim property taxes or tax in rent.

(5) Example 1. Bob and Alice Jones separated June 1 and were divorced November 3. They owned a home on which the taxes for the year were $900.00. Alice continued to occupy the home and received title to the property upon their divorce. Bob moved into an apartment June 1 and paid $225.00 per month rent for the balance of the year. Bob's income for the year was $15,000.00 and, at the time they separated, he was ordered to pay Alice $200.00 per month plus the payments on the house ($240.00 per month, including taxes and insurance). The divorce decree called for alimony to Alice of $200.00 per month. Alice earned $30.00 per month on a part-time job through July but quit to go to work full time on August 1 for a salary of $500.00 per month. Their homestead property tax credits are computed as follows:

Alice	
Wages:	
Part-time June 1-July 31	$ 60.00
Full-time Aug. 1-Dec. 31	2,500.00
Alimony and separate maintenance	
7 months @ $200.00	1,400.00
5 months @ $240.00	1,200.00
Total household income June 1-Dec. 31	5,160.00
Property taxes	
Jan. 1-May 31	—0—
June 1-Dec. 31 ⅞ x $900.00 =	525.00
Total taxes	
Amount not refundable 3½% of $5,160.00	180.60
Balance	344.40
Property tax credit (60%)	$ 206.64
Bob	
Wages: Jan. 1-Dec. 31	$15,000.00
Total household income	15,000.00
Property taxes	
Jan. 1-May 31 ⅝ x $900.00 =	375.00
Tax in rent	
7 x $2,225.00 x 17% =	267.75
Total taxes	
Amount not refundable 3½% of $15,000.00	525.00
Balance	117.75
Property tax credit (60%)	$ 70.65

History: 1954 ACS 95, p. 22, Eff. Apr. 5, 1978.

R 206.30 Homestead property tax credit; part-year resident.

Rule 30. A person who moved into or out of the state during the tax year and was a resident for at least 6 months may compute a property tax credit on his or her Michigan household income. For purposes of computing the credit, the taxes on the Michigan home bought or sold shall be reduced to the ratio of days occupied to total days in the tax year.

(a) Example 1. Mr. Jones came to Michigan on May 1, purchased a home, and moved into it with his family on June 1. The taxes on the home for the full year were $720.00. Mr. Jones received the following income:

Source of Income	Total	Michigan	Other States
Wages	$13,400.00	$ 8,400.00	$5,000.00
Moving reimbursement	3,000.00	3,000.00	
Total	16,400.00	11,400.00	5,000.00
Moving expense	2,700.00	2,700.00	—0—
Federal adjusted gross income	$13,700.00	$ 8,700.00	$5,000.00

The homestead property tax credit is computed as follows:

Household income	$8,700.00
Property tax $^{21}/_{365}$ = 59% x $720.00	424.80
Amount not refundable 3.5% of $8,700.00	304.50
Balance	120.30
Credit 60%	$ 72.18

History: 1954 ACS 95, p. 23, Eff. Apr. 5, 1978.

R 206.31 Homestead property tax credit; death of taxpayer.

Rule 31. The 6-month residency rule does not apply to deceased taxpayers. The taxes on which a credit may be based are those taxes billed to, and paid by, the claimant for the current tax year. For renters, the tax is 17% of the rent paid up to the date of death.

History: 1954 ACS 95, p. 23, Eff. Apr. 5, 1978.

R 206.32 Veteran's homestead property tax credit.

Rule 32. (1) The credit allowed servicemen, veterans, or their widows under the requirements of section 506 of Act No. 281 of the Public Acts of 1967, being §206.506 of the Michigan Compiled Laws, shall be known as a veteran's homestead property tax credit.

(2) A person eligible for the veteran's credit may file a claim for the year in which he first became eligible and all years thereafter for which he remains eligible, including the year in which his eligibility is terminated. Eligible claimants of a veteran's homestead property tax credit who buy or sell and rent a home during the tax year shall compute their credit as shown in the following example:

John Brown is an eligible veteran with a 30% service-connected disability which entitles him to a state equalized value allowance of $3,500.00. He sold his home in March and moved out on April 30. Its state equalized value was $10,500.00. The taxes for the entire year amounted to $546.00. He rented a home for the next 5 months for $275.00 per month. He purchased a new home which he moved into on October 1. The state equalized value is $15,000.00. Taxes of $780.00 were assessed for the entire year. Mr. and Mrs. John Brown's household income for the tax year amounted to $12,000.00.

R 206.33 Income tax return preparers.

Rule 33. (1) An income tax return preparer shall furnish a completed copy of any return or refund claim he prepares to the taxpayer before or at the time he presents it to him for signing.

(2) The preparer shall retain a completed copy of the return or refund claim, or retain on a list the name, taxpayer's social security number and taxable year of the taxpayer for whom such return or claim for refund was prepared.

(3) The preparer shall make such copy or list available for inspection upon request by the commissioner of revenue or his representative. The return copy or list shall be retained for the 3-year period following the close of the return period during which such return or claim for refund was presented to the taxpayer for filing. However, in the case of a return which becomes due during a return period (including extensions, if any) following the return period during which the return was presented to the taxpayer for filing, then such materials as described in this paragraph shall be retained and kept available for inspection upon request for the 3-year period following the close of such later return period in which the return became due. For the definition of "return period" see the internal revenue code, 26 U.S.C. §6060(c).

(4) For the purpose of this rule, the term "income tax return preparer" means any person who prepares for compensation, or who employs 1 or more persons to prepare for compensation, any return of tax imposed by Act No. 281 of the Public Acts of 1967, or any claim for refund under the same act. For the purpose of the

COLLECTIONS DIVISION

MOTOR FUEL TAX

(By authority conferred on the department of treasury by section 3 of Act No. 122 of the Public Acts of 1941, as amended, and sections 17, 32, and 62 of Act No. 150 of the Public Acts of 1927, as amended, being §§207.103, 207.117, 207.132, and 207.162 of the Michigan Compiled Laws)

R 207.1 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 150 of the Public Acts of 1927, as amended, being §207.101 et seq. of the Michigan Compiled Laws.

(b) "Boat terminal transfer" means docks, tanks, and equipment contiguous thereto used in unloading gasoline from tank steamers and transferring such gasoline to tanks pending wholesale bulk reshipment. "Boat terminal transfer" also includes tanks and equipment used in receiving and storing gasoline from interstate or intrastate pipelines pending wholesale bulk reshipment.

(c) "Diesel fuel dealer" means any person selling and delivering diesel motor fuel into the fuel supply tanks of motor vehicles in this state. The term "diesel fuel dealer" also means a user, as defined in subdivision (g), who consumes from his own storage facility.

(d) "Gallonage" means gross gallons as measured at actual concurrent temperature of the motor fuel without adjustment of gallonage for any temperature variance.

(e) "Liquefied petroleum gas licensed dealer" means any person using liquefied petroleum gas within the meaning of "use," which includes all of the following:

(i) Selling or delivering liquefied petroleum gas not previously subjected to tax by placing it into either permanently attached fuel supply tanks or motor vehicles.

(ii) Exchanging or replacing fuel supply tanks of a motor vehicle.

(iii) Delivering liquefied petroleum gas into storage to be consumed in motor vehicles on the public roads and highways.

(iv) The withdrawal of liquefied petroleum gas from the cargo tank of a truck, trailer, or semitrailer for the operation of a motor vehicle upon the public roads and highways of this state, whether such fuel is used in vapor or liquid form by a person who is the holder of a valid license issued by the department.

(f) "Retail dealer" means any person or persons, firm, association, or corporation, both private and municipal, other than a wholesale distributor, that engages in the business of selling or distributing gasoline within this state.

(g) "User" means and includes a natural person, partnership, firm, association, joint stock company, syndicate, and corporation, and any receiver, trustee, conservator, or any other officer having jurisdiction and control of property by virtue of the provisions of any law, that is the owner, in this state or any other state, of a motor vehicle propelled by diesel engines or diesel motors and which receives diesel fuel into its fuel supply tank.

(h) "Wholesale distributor" means any person or persons, firm, association, or corporation, both private and municipal, that does any of the following:

(i) Imports gasoline into the state from any other state, territory, or possession of the United States, or foreign country.

(ii) Produces, manufactures, refines, or blends gasoline within this state.

(iii) Receives gasoline from a refiner or manufacturer of gasoline or from a boat terminal transfer in this state for storage and subsequent sale and distribution.

(iv) Receives gasoline from a refiner or manufacturer of gasoline or from a boat terminal transfer in this state solely for storage and consumption.

History: 1954 ACS 98, p. 28, Eff. Mar. 14, 1979.

R 207.2 Wholesale gasoline distributor, diesel dealer, diesel user, and liquid petroleum gas dealer; licensing; applications; fees.

Rule 2. (1) To procure a license, a wholesale gasoline distributor, diesel dealer, diesel user, and liquid petroleum gas dealer shall file with the department a verified application form prescribed and furnished by the department.

(2) The application of a wholesale distributor of gasoline shall contain the name under which the applicant intends to transact business; the names and addresses of the several persons constituting the firm or partnership, and, if a corporation, the corporate name, the state where incorporated, the date incorporated, the name of its officers and directors and, if a foreign corporation, the name of its resident agent; the location of its place of business, the date such business was established, and any other information the department may require.

(3) The application of a diesel dealer shall include the name and address of the dealer and each place of business operated by such dealer at which diesel motor fuel is or will be dispensed into fuel supply tanks of motor vehicles, and such other information as the department may reasonably require for the purpose of the act.

(4) The diesel user application shall contain the name under which the user registers his or her motor vehicle or vehicles and the name and address of the owner, partnership, or, if a corporation, the names and addresses of the several persons constituting the firm and, if a foreign corporation, the name of its resident agent, the location of its place of business, and such other pertinent information the department may require.

(5) The application of a liquefied petroleum gas dealer shall include the name and address of the dealer and each place of business operated by such dealer at which liquefied petroleum gas will be used within the meaning of the term "use," as referred to in R 207.1(e), and such other information as the department may require.

(6) At the time of applying for a wholesale gasoline distributor's license an applicant shall pay an annual fee of $5.00.

(7) An applicant for a diesel dealer, diesel user, and liquefied petroleum license shall pay an annual fee of $1.00.

History: 1954 ACS 98, p. 28, Eff. Mar. 14, 1979.

R 207.3 Wholesale gasoline distributor license, diesel dealer license, and liquefied petroleum gas dealer license; applicant; surety bond.

Rule 3. (1) If an applicant for a wholesale gasoline distributor license, a diesel dealer license, or a liquefied petroleum gas dealer license cannot satisfy the department as to the applicant's financial responsibility, the applicant shall file with the department a cash or surety bond payable to the state, upon which the applicant is the obligor.

(2) The bond of a wholesale gasoline distributor shall not be less than $1,000.00 nor more than $25,000.00.

(3) The bond of a diesel dealer or a liquefied petroleum gas dealer shall not be less than $500.00 nor more than $5,000.00.

(4) All bond requirements are determined based on the assumption that the applicant shall comply with the laws pertaining to motor fuel taxes and will promptly file true reports and pay the taxes and penalties provided for or required. Such bonds shall be approved as to the amount and sureties by the department.

(5) The department may require such additional bond as shall be deemed necessary, within the limits in this rule, on giving of 10 days' notice. Upon approval of the department, an applicant may file with the department good and sufficient security or personal bond in such form and amount as the department may require, but the amount of personal bond shall not exceed limitations as outlined.

(6) The department may require a licensee to furnish such additional bond as shall be deemed necessary within the limits outlined on the giving of 10 days' notice in writing.

History: 1954 ACS 98, p. 29, Eff. Mar. 14, 1979.

R 207.4 Licensed wholesale gasoline distributor, diesel dealer, liquefied petroleum gas dealer, and diesel user; filing reports and remitting tax.

Rule 4. (1) A licensed wholesale gasoline distributor, diesel dealer, liquefied petroleum gas dealer, and diesel user, except a user who acquires all diesel fuel from a dealer or licensed dealer, shall file reports and remit tax due on or before the twentieth day of the month next succeeding the month in which the tax accrued, except that if the twentieth day of a month falls on a Saturday, Sunday, or legal holiday, the tax is due on the next regular business day. A final report is due 20 days after the date of selling or dissolution of a business.

(2) The commissioner of revenue may require filing of reports on other than a monthly basis.

History: 1954 ACS 98, p. 29, Eff. Mar. 14, 1979.

R 207.5 Licensed wholesale gasoline distributor, diesel dealer, or liquefied petroleum gas dealer; failure to file monthly report and pay tax; revocation of license; filing report and paying tax within 7 days after due date.

Rule 5. (1) If a licensed wholesale gasoline distributor, licensed diesel dealer, or licensed liquefied petroleum gas dealer fails, refuses, or neglects to file a monthly report and pay the full amount of tax, the department shall, after notice and hearing, revoke the license and shall promptly notify the license holder of the result of the hearing by notice sent by certified mail to the most recent address of the holder appearing in department records.

(2) If the report is filed and the tax is paid within 7 days after it became due, and it is established that the delay was due to an accident or justifiable oversight, the department may continue the privileges of the license.

History: 1954 ACS 98, p. 29, Eff. Mar. 14, 1979.

R 207.6 Failure to file return or pay tax; penalty and interest.

Rule 6. If a licensee, or any other person subject to the provisions of the motor fuel act, fails or refuses to file a report or pay the tax required by the act within the time specified by sections 8, 27, and 57 of Act No. 150 of the Public Acts of 1927, as amended, being §§207.108, 207.127, and 207.157 of the Michigan Compiled Laws, a penalty of $5.00 or 5% of the tax, whichever is greater, shall be added if the failure is for not more than 1 month or fraction of a month. An additional penalty of 5% shall be added for each additional month, or fractions thereof, during which the failure continues or the tax and penalty is not paid, to a maximum of 25%. In addition to the penalty, interest shall be added at the rate of ¾ of 1% per month on the amount of the tax from the time the tax was due until the date of payment.

History: 1954 ACS 98, p. 29, Eff. Mar. 14, 1979.

R 207.7 Licensee; neglecting or refusing to file report or pay tax; computation and collection of tax by department.

Rule 7. If a licensee neglects or refuses to file a report and pay tax due as imposed by Act No. 150 of the Public Acts of 1927, as amended, being §§207.101 to 207.186 of the Michigan Compiled Laws, the department may compute tax due from any information available and may proceed to collect the tax due. The department may use all legal means at its disposal to collect such tax due based upon such computed reports.

History: 1954 ACS 98, p. 30, Eff. Mar. 14, 1979.

R 207.8 Wholesale gasoline distributor, diesel fuel dealer, user, or liquefied petroleum gas dealer; revocation of license; reinstatement; surety bond.

Rule 8. (1) Before a wholesale gasoline distributor, diesel fuel dealer, user, or liquefied petroleum gas dealer, whose license has been revoked, may apply for or obtain the reinstatement of a license, such wholesale gasoline distributor, diesel dealer, user, or liquefied petroleum gas dealer shall pay to the department any and all delinquent taxes, penalties, interest, and costs that remain unpaid.

(2) An applicant shall file with the department a surety bond, upon which the licensee is the obligor, to secure the prompt filing of true reports and full payment of taxes. The bond shall be in such amount as the department shall determine, not to exceed 4 times the applicable rate of tax per gallon on all taxable gallons for the preceding month.

(3) If no liability was incurred during the preceding month, or if for any reason a computation cannot be made, an amount determined by the department, not exceeding 4 times the applicable rate of tax, may be estimated, which estimate may be based upon any information available.

History: 1954 ACS 98, p. 30, Eff. Mar. 14, 1979.

R 207.9 Gasoline tax; deduction by wholesale distributor to allow for evaporation and loss; credit to registered retail dealer operating on consignment basis; losses occurring after gasoline incurs taxable status; statutory refund allowance.

Rule 9. (1) In computing gasoline tax, 3% of the quantity of gasoline received by a wholesale distributor shall be deducted to allow for evaporation and loss, if, at the time of filing the report and paying the tax, the wholesale gasoline distributor submits satisfactory evidence to the department that the amount of tax represented by ⅛ of the deduction has been paid or credited to the registered retail dealers on quantities sold to them during the period covered by the report.

(2) Registered retail dealers operating on a consignment basis shall receive credit as settlement and payment for the product for quantities sold to them, notwithstanding that loss may not have occurred.

(3) Losses occurring after gasoline has incurred taxable status is not subject to refund of tax as the distributor is allowed 3% by statute.

(4) Reimbursement or refund of tax on any loss shall not exceed the statutory allowance provided in section 8 of Act No. 150 of the Public Acts of 1927, as amended, being §207.108 of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 30, Eff. Mar. 14, 1979.

R 207.10 Licensed wholesale distributor; collection of tax; monies held in trust if not paid to the department.

Rule 10. A licensed wholesale distributor who sells or distributes gasoline for any purpose shall collect tax from the purchaser at the applicable rate per gallon. All monies paid by the purchaser as taxes on gasoline that have not been paid to the department shall be and remain public money, the property of the state, and shall be held in trust in a separate account by the wholesale distributor for the sole use and benefit of the state, until paid to the department.

History: 1954 ACS 98, p. 30, Eff. Mar. 14, 1979.

R 207.11 Purchases of gasoline entitled to refund of state gasoline tax paid; claims; deduction from refund of sales tax due.

Rule 11. (1) The following purchasers of gasoline are entitled to a refund of the state gasoline tax paid:

(a) Persons using gasoline for any purpose other than to operate vehicles on the public roads and highways of this state.

(b) State and federal governmental units using gasoline in vehicles owned and operated by such entities.

(c) Persons operating passenger vehicles of a capacity of 5 or more under a municipal franchise, license, permit, or agreement.

(d) Political subdivisions of the state.

(e) Nonprofit private, parochial, or denominational schools, colleges, and universities purchasing gasoline for use in school buses owned and operated by such entities.

(f) Persons operating passenger vehicles for the transportation of school students under a certificate of public convenience and necessity issued by the public service commission.

(2) A purchaser shall file a verified claim on forms furnished by the department within 1 year from the date of purchase, as shown by the invoice. Any claim received within the 1-year period, as evidenced by the postmark, shall be considered timely filed. A refund claim shall comply with the following requirements to qualify for payment after the time limit has been established:

(a) An original numbered invoice (top copy received at time of delivery) for each purchase shall be attached to the claim. The invoice shall contain all of the following:

(i) Name and address of dealer.

(ii) Date of sale.

(iii) Name and address of purchaser.

(iv) Number of gallons, price per gallon, and Michigan gasoline tax shown as a separate item.

(v) The signature of the dealer or his agent.

(b) A claim shall not be considered for gasoline that has not been consumed.

(c) An invoice shall clearly indicate that payment has been made to the supplier.

(d) All invoices become part of the claim and shall not be returned.

(e) A claim accompanied by invoices on which there is evidence of changes shall be disallowed in its entirety.

(f) A claim shall not be approved if the gasoline is used in motor vehicles both on and off the public highways, if use is from the common supply tank of the vehicle.

(g) If highway and nonhighway vehicles are fueled from storage, records of withdrawal shall be maintained showing dates, number of gallons, and vehicle fueled.

(h) If the original invoice is not received, or if it is lost or destroyed, an affidavit to that effect shall be submitted to the department, and if it is determined the cause was not due to carelessness on the part of the purchaser, a duplicate invoice shall be accepted.

(3) If a verified claim of a purchaser shows or indicates that the gasoline used by the claimant is subject to sales tax under Act No. 167 of the Public Acts of 1933, as amended, being §§205.51 to 205.78 of the Michigan Compiled Laws, the department shall deduct from the refund the amount of sales tax due.

History: 1954 ACS 98, p. 31, Eff. Mar. 14, 1979.

R 207.12 Tax lien; recording.

Rule 12. (1) Taxes imposed, plus any penalties, interest, and costs which may have accrued, shall become a lien in favor of the state against all property and rights of property, both real and personal, then owned or afterwards acquired by the licensee, to secure payment to the state.

(2) All state tax liens are recorded as provided for in Act No. 203 of the Public Acts of 1968, being §211.681 et seq. of the Michigan Compiled Laws. A state tax lien not recorded is void as against any mortgagee, pledgee, purchaser, including a land contract purchaser, or judgment creditor who secured any interest in the property subject to the lien prior to the time such notice of lien was filed or recorded.

History: 1954 ACS 98, p. 31, Eff. Mar. 14, 1979.

R 207.13 Department; authority to examine records and enter premises to take samples of petroleum products and make tests.

Rule 13. Authorized agents of the department of treasury may examine the books, records, and papers of any wholesale distributor, retail dealer, contract or common carrier, diesel dealer, diesel user, or liquefied petroleum dealer pertaining to products received, sold, shipped, or delivered to verify the accuracy of any statement, report, or return. The department may also enter the premises of any blender or dealer in petroleum products at all reasonable times to take samples of petroleum products and to make such tests as may be required in the enforcement of the act.

History: 1954 ACS 98, p. 31, Eff. Mar. 14, 1979.

R 207.14 Gasoline withdrawn from marine or pipeline storage and returned to terminal storage; unauthorized receipt of gasoline by means of landborne equipment into terminal storage.

Rule 14. Gasoline withdrawn from marine or pipeline storage, on which taxes have been paid, shall not be returned to terminal storage without receiving prior authorization from the department of treasury, motor fuel tax division. This does not pertain to gasoline withdrawn and returned for meter test. The unauthorized receipt of gasoline by means of landborne equipment into terminal storage shall

result in the conversion of tax-free storage to a tax-paid bulk plant and tax shall be due on inventory on hand.

History: 1954 ACS 98, p. 32, Eff. Mar. 14, 1979.

R 207.15 Terminals containing gasoline of more than 1 owner; operator; duties.

Rule 15. A terminal that contains gasoline inventory of more than 1 owner shall be identified as commingled terminals. The operator of the terminal, for the purpose of the act, shall be considered as the owner of all product. The operator is responsible for all receipts, shipments, use, and losses on which tax applies.

History: 1954 ACS 98, p. 32, Eff. Mar. 14, 1979.

R 207.16 Night permit.

Rule 16. (1) A wholesale distributor, retail dealer, or any other person selling gasoline to the consumer shall not receive or deliver any gasoline into storage tanks or other storage devices between the hours of 9 p.m. and 5 a.m. without prior written consent of the department.

(2) To secure a permit, the wholesale distributor, retail dealer, or any other person shall file with the department an application on a form prescribed and furnished by the department.

(3) The application shall contain the name and address of the applicant, the wholesale distributor license number, retail dealer registration number, or, if a common carrier, the common carrier certificate number or contract carrier number.

(4) When the permit is for use of a motor vehicle, the applicant shall include the make of vehicle, type, identification number, current license number, capacity in gallons, and trailer license number.

(5) An applicant shall furnish any other information the department may reasonably require for the purpose of this act.

(6) Receipt of gasoline between those hours by any wholesale distributor, retail dealer, or any other person without prior written consent, shall be prima facie evidence of a violation of the provisions of the act.

History: 1954 ACS 98, p. 32, Eff. Mar. 14, 1979.

STATE TAX COMMISSION

GENERAL RULES

(By authority conferred on the state tax commission by section 33 of Act No. 306 of the Public Acts of 1969, and section 9b of Act No. 206 of the Public Acts of 1893, as added, being §§24.233 and 211.9b of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 209.1 Definitions.

Rule 1. As used in these rules:

(a) "Act" means the general property tax act, being Act No. 206 of the Public Acts of 1893, as amended, and §§211.1 to 211.157 of the Michigan Compiled Laws.

(b) "Commission" means the state tax commission.

History: 1954 ACS 67, p. 5, Eff. May 27, 1971.

R 209.3 Jurisdiction.

Rule 3. The commission has jurisdiction and may hold hearings in the following matters:

(a) Local property tax assessments.

(i) Taxpayer appeals. See section 152 of the act.

(ii) Omissions from tax rolls. See section 154 of the act.

(iii) Revision of personal property assessments. See section 22 of the act.

(b) Local tax exemption certificates for pollution control facilities.

(i) Water pollution. See Act No. 222 of the Public Acts of 1966, being §§323.351 to 323.358 of the Michigan Compiled Laws.

(ii) Air pollution. See Act No. 250 of the Public Acts of 1965, as amended, being §§336.1 to 336.8 of the Michigan Compiled Laws.

(c) Utility property assessments. See Act No. 282 of the Public Acts of 1905, as amended, being §§207.1 to 207.21 of the Michigan Compiled Laws.

(d) Allocation of millage in counties. See sections 217 and 217a of Act No. 62 of the Public Acts of 1933, as amended, being §§211.217 and 211.217a of the Michigan Compiled Laws.

(e) Equalization of assessments.

(i) County. See section 34 of the act.

(ii) State. See Act No. 44 of the Public Acts of 1911, as amended, being §§209.1 to 209.8 of the Michigan Compiled Laws.

History: 1954 ACS 67, p. 5, Eff. May 27, 1971.

R 209.5 Procedure in general.

Rule 5. The statutory references in R 209.3 prescribe commission procedure in the several matters in varying degrees of detail and to which reference shall be made. Additional procedures are prescribed in these rules, matters applicable to all commission procedure, with exceptions as noted, being covered in the remainder of this part.

History: 1954 ACS 67, p. 5, Eff. May 27, 1971.

R 209.7 Business hours.

Rule 7. The office of the commission is at Lansing, Michigan and is open from 8:00 to 12:00 a.m. and 1:00 to 5:00 p.m. daily, except Saturdays, Sundays and legal holidays.

History: 1954 ACS 67, p. 5, Eff. May 27, 1971.

R 209.8 Filing of papers.

Rule 8. Papers required by statute or rule to be filed with the commission shall be filed with the secretary of the commission.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.9 Representation.

Rule 9. (1) Practice before the commission, except in a matter involving state equalization, shall be by an individual or personal representative upon adequate identification evidenced by written authorization.

(2) In a formal hearing an individual may represent himself, a partnership or corporation may be represented by a partner or officer, or the individual, partnership, or corporation, may be represented by licensed attorneys.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.10 Investigations and informal dispositions.

Rule 10. (1) The commission may refer any matter to its representative for further investigation. The representative shall submit a written report of findings

and recommendations to the commission. The report shall be made available to the parties upon written request to the commission.

(2) The commission, upon its own motion, may request any person it deems necessary to assist in presentation of facts to the commission informally or at a hearing.

(3) If disposition cannot be made by an informal method, the commission shall hold a hearing without undue delay.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.11 Notices of hearings.

Rule 11. When a matter is placed on the calendar for hearing, the commission's secretary shall notify the parties of the time and place of hearing not less than the statutory period before the day of the hearing, except that in a proceeding under section 152 of the act notice to the taxpayer shall be given not less than 14 days before the day of the hearing.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.12 Hearings.

Rule 12. (1) A hearing before the commission shall be public except that the commission may, for good cause shown, exclude from the hearing a person who does not have a direct interest therein.

(2) The hearing shall be conducted informally and a record of proceedings shall not be made unless requested by a party in writing.

(3) If a record of proceedings is to be made, the appellant, the opposite party and the commission may be represented by counsel and swear witnesses.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.13 Transcripts of proceedings.

Rule 13. A party desiring a transcript of testimony and proceedings at a hearing before the commission after proper notification to the opposite party and to the commission and at his own expense may make arrangements for the reporting and transcription thereof by a stenographer. He shall furnish a copy of the transcript to the commission without cost to the commission. Any other party to the hearing may obtain a copy of the transcript from the stenographer upon payment of fees for the copy which shall not be greater than those permitted for copies of transcripts in the circuit court in the county in which the hearing is held.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.14 Failure to appear.

Rule 14. A continuance shall not be granted due to unexcused absence of a party, his representative, or his attorney, at the time and place set for a scheduled hearing before the commission. The hearing shall proceed and the case shall be regarded as submitted on the part of the absent party.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.15 Evidence.

Rule 15. (1) The rules of evidence applicable to proceedings in the circuit court shall apply so far as practicable to a hearing before the commission, but the commission may admit and give probative effect to evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs. The commission may exclude evidence which is incompetent, immaterial, or unduly repetitious.

(2) The commission shall take official notice without further identification of the contents of original records and documents in possession of the commission when duly certified copies thereof are offered in evidence and made a part of the record. The commission may receive other documentary evidence in the form of copies or excerpts or that which is incorporated by reference.

(3) The following do not constitute evidence:

(a) Statements of counsel.

(b) Unidentified and unauthorized documents and letters.

(c) Affidavits and appraisals which have not been submitted before the hearing to the opposite party and the commission, and approved by the parties to be admitted as evidence at the hearing.

(d) Briefs and arguments.

History: 1954 ACS 67, p. 6, Eff. May 27, 1971.

R 209.16 Exhibits.

Rule 16. Documents and papers offered in evidence by the parties at a hearing before the commission shall be marked as exhibits. Exhibits offered by a taxpayer shall be marked "Taxpayer's Exhibit No. ___" and shall be consecutively numbered. Exhibits offered by any other party shall be marked "(type of party) Exhibit No. ___" and shall be consecutively numbered. Exhibits offered by the commission or its representative shall be marked "Commission Exhibit No. ___" and shall be consecutively numbered.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971.

R 209.17 Amendments to pleadings.

Rule 17. An amendment to pleadings may be made at any time before a hearing with consent of the parties and the commission. A copy of the amendment shall be attached to the motion to amend.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971.

R 209.18 Stipulations of fact.

Rule 18. The parties may agree as to any fact before final submission of a matter by written stipulation filed with the commission.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971.

R 209.19 Briefs.

Rule 19. A brief and reply brief may be filed by a party before the hearing, but if filed thereafter shall be filed within the time designated by the commission or representative holding the hearing.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971.

PART 2. LOCAL PROPERTY TAXES

R 209.21 "Special tools" defined.

Rule 21. "Special tools," as used in section 9b of the act, means those finished or unfinished devices, such as dies, jigs, fixtures, molds, patterns, and special gauges, used or being prepared for use in the manufacturing function for which they are designed or are acquired or made for the production of products or models and are of such specialized nature that their utility and amortization cease with the discontinuance of such products or models.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971; 1954 ACS 97, p. 12, Eff. Nov. 25, 1978.

R 209.23 Exemption certificates for pollution control facilities.

Rule 23. An application for property tax exemption for a water or air pollution control facility shall be filed on forms in accordance with instructions furnished by the commission.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971.

R 209.24 Personal property examiners' certifications.

Rule 24. An application for certification as a personal property examiner shall provide a complete background of education and experience in property tax administration and shall be filed with the commission.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971.

R 209.25 Appraisal manuals.

Rule 25. Two copies of an appraisal manual, other than the commission manual, which is to be used by an independent appraisal firm shall be submitted for approval by the commission.

History: 1954 ACS 67, p. 7, Eff. May 27, 1971.

R 209.26 Assessment rolls.

Rule 26. (1) The procedures and instructions in chapter II of the assessors manual, as amended, shall be followed in describing real property in the assessment roll.

(2) An entry in an assessment roll shall be in permanent ink or machine inscribed. An erroneous figure entered shall not be erased, but shall be crossed out and the proper figure shall be entered, initialed, and dated.

History: 1954 ACS 67, p. 8, Eff. May 27, 1971.

R 209.28 Board of review minutes and lists of changes.

Rule 28. (1) A board of review shall keep minutes on an assessment action which shall state the name of the person appearing, the date, the description or assessment code number of the property assessment, whether the assessment was protested and the final action of the board.

(2) An assessment unit shall file with the commission a detailed list of the assessment changes, reasons for the changes, and school districts in which the property is located, for each property changed by action of the December board of review.

History: 1954 ACS 67, p. 8, Eff. May 27, 1971.

PART 3. PROPERTY ASSESSMENT REVIEW BY COMMISSION

R 209.31 Personal property assessment revisions.

Rule 31. A petition which is filed with the commission under section 22 of the act for revision of a personal property assessment shall be fully substantiated. The petitioning party shall seek acceptance from the other party. If the other party does not accept, a hearing shall be held.

History: 1954 ACS 67, p. 8, Eff. May 27, 1971.

R 209.32 Property assessment letters of appeal.

Rule 32. A property assessment appeal shall be commenced by filing with the commission a letter of appeal within the time limit prescribed by statute setting forth the intent to appeal, whether the appeal is on real or personal property or both, the county and township or city in which the property is located, the

number of assessments upon which appeal is taken in an assessing unit, the name and mailing address of the taxpayer, and in case of an agent, his name and mailing address.

History: 1954 ACS 67, p. 8, Eff. May 27, 1971.

R 209.33 Forms for perfecting appeals.

Rule 33. (1) Upon receipt of a letter of appeal the commission shall docket and assign a number for each assessment on appeal and send to the appellant or his agent, appropriate forms for perfecting the appeal.

(2) After the commission mails the forms the appellant or his agent shall complete and return the forms to the commission within 30 days or the appeal shall be considered withdrawn and shall be dismissed by the commission unless permission for an extension is approved in writing within the 30 days.

(3) An appraisal of the property to be submitted by a party shall be filed within 60 days after mailing of forms by the commission, unless permission for an extension is granted in writing by the commission.

(4) Exhibits which are not attached to a form shall be served on the opposite parties within 5 days after they are filed with the commission. The service may be made by the party or his representative personally or by certified mail with return receipt demanded.

History: 1954 ACS 67, p. 8, Eff. May 27, 1971.

R 209.34 Form and style of papers.

Rule 34. (1) Property assessment appeal papers filed with the commission shall be printed or typewritten, and if typewritten, shall be typed on only 1 side of plain white paper. The paper shall not be more than 8½ inches wide and 13 inches long except exhibits, plat maps and photographs. Copies shall be legible but may be on any weight paper.

(2) Citations shall be in italics when printed, and underscored when typewritten.

(3) Except as otherwise provided in these rules, a signed original and 1 copy of papers shall be filed with the commission and 1 copy shall be filed with the opposite party.

(4) When a paper is filed in more than 1 proceeding such as a motion to consolidate proceedings or in proceedings already consolidated, 1 additional copy shall be filed for each additional proceeding.

(5) Exhibits shall remain with the commission until 60 days after an official order is rendered, after which they shall be returned to the sender upon request.

History: 1954 ACS 67, p. 8, Eff. May 27, 1971.

R 209.35 Service of forms.

Rule 35. An appellant shall file proof of service with the commission within 5 days after the service. Proof of service shall be in the following form, dated and signed: "A true copy of this _____ has been this day forwarded by U.S. mail to (opposite party)."

History: 1954 ACS 67, p. 9, Eff. May 27, 1971.

R 209.36 Answers.

Rule 36. (1) After service of a copy of the prescribed forms, documents, exhibits, maps and photographs, the opposite party shall file a full and complete answer within 30 days after receipt of all papers and documents.

(2) A paragraph in the answer shall be numbered to correspond with the paragraph of the form.

(3) An original and 1 copy of the answer shall be filed with the commission and 1 copy filed with the appellant or his agent.

(4) Proof of service shall be filed.

(5) Failure to file an answer with the commission and to serve a copy upon the appellant and to file a proof of service thereof with the commission shall result in the allegations of the appellant's complaint standing as admitted, subject only to such other and different proofs as the commission's staff may properly introduce.

History: 1954 ACS 67, p. 9, Eff. May 27, 1971.

R 209.37 Letters of acceptance.

Rule 37. (1) If the investigation in a property assessment appeal indicates that the current assessment does not agree with the true cash value reduced to the assessment level of all other real or personal property in the assessing unit, the recommendations of the commission's representative shall be submitted to both parties for an agreed settlement. Both parties shall reply within 20 days after receipt of the representative's recommendation.

(2) If both parties accept the representative's recommendations, the commission shall issue an order accordingly. If a party disagrees with the recommendation, the commission shall fix a time for a hearing if demanded by a party.

History: 1954 ACS 67, p. 9, Eff. May 27, 1971.

R 209.38 Representatives' reports.

Rule 38. The commission's representative's report shall be made available to the parties to the appeal upon written request to the commission within 30 days after the commission has mailed the letter for an agreed settlement. A representative's report shall not be furnished after a decision is rendered unless an action in court is commenced requiring the report for the record.

History: 1954 ACS 67, p. 9, Eff. May 27, 1971.

R 209.39 Applicability of part.

Rule 39. This part governs pending reviews by the commission to the extent of proceedings conducted hereunder after the effective date hereof.

History: 1954 ACS 67, p. 9, Eff. May 27, 1971.

PART 4. EQUALIZATION AND UTILITY ASSESSMENTS

R 209.41 County equalization.

Rule 41. Reports shall be filed on forms prescribed by, and in accordance with instructions furnished by, the commission. The procedures and instructions in chapter XVI of the assessors manual, as amended, shall be followed for equalization. Adjustments made to the base equalized value for a county shall be submitted to the commission not later than December 31.

History: 1954 ACS 67, p. 9, Eff. May 27, 1971.

R 209.43 State equalization.

Rule 43. (1) The commission acting in state equalization matters will hold an annual hearing in the city of Lansing on the fourth Monday in each May at 10:00 a.m., at a location of which the clerk of each county will be notified annually by mail.

(2) A revision or change from the preliminary statement of assessed valuations shall be announced by the commission at the hearing.

(3) The commission shall hear official representatives from the counties on a roll call of the counties, at which time additional evidence regarding county assessed values shall be presented for consideration. The counties shall notify the commission before the hearing of those persons who are their official representatives.

(4) After roll call of the counties, the commission shall recess for final consideration of evidence presented at the hearing.

History: 1954 ACS 67, p. 9, Eff. May 27, 1971.

R 209.45 Assessment of utilities.

Rule 45. (1) The annual reports of a state assessed utility shall be filed in a manner and on forms prescribed by the state board of assessors.

(2) Reports required to be filed by local governing officials listing valuation and taxes levied shall be on forms and in the manner as prescribed by the board.

(3) Hearings at the annual meeting of the state board of assessors shall be conducted pursuant to section 11 of Act No. 282 of the Public Acts of 1905, as amended, being §207.11 of the Michigan Compiled Laws.

History: 1954 ACS 67, p. 10, Eff. May 27, 1971.

STATE LAND OFFICE BOARD

(By authority of Act No. 155 of the Public Acts of 1937, being §211.351 et seq. of the Michigan Compiled Laws)

AUCTION SALE OF STATE-OWNED LANDS

R 211.1 Date of sale.

Rule 1. Beginning _____ (Date)

The sale will be officially opened _____ (Date), at 9 a.m., Michigan standard time, and continue from day to day until all parcels have been offered.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.2 Time of sale.

Rule 2. Nine a.m. to 12 noon and 1 p.m. to 4 p.m., daily, excepting Saturdays, Sundays, and legal holidays.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.3 Place of sale.

Rule 3. The sale will be conducted at the county seats of the respective counties in the offices of the county treasurers, or such other place designated by the board. Should the county treasurer's office prove unsuitable, the sale may be adjourned to such other place as may be selected. Notice of the place of adjournment will be posted in and near the county treasurer's office.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.4 Properties offered.

Rule 4. All parcels of land to which the state received title pursuant to the tax sale of May, 1938, and all tax sales subsequent thereto, and not previously offered

for sale, and excepting those parcels withheld from sale by the state land office board in accordance with the provisions of the above act.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.5 List of properties for sale.

Rule 5. Lists of the properties to be offered for sale in each county may be obtained from the respective county treasurers or at the offices of the board. A charge will be made for said lists.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.6 The auction sale.

Rule 6. The sale will be conducted as a public auction. No bids will be received in advance or by mail. Each bidder must be present at the sale or have an authorized agent bid for him. Each parcel will be offered separately and sold to the high bidder, subject to the provisions of the above act and these rules. The auctioneer shall have the right to disregard nuisance and nominal bids.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.7 Order of sale.

Rule 7. The parcels will be offered in the order in which they appear in the printed sale lists for each county.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.8 High bidder must identify himself.

Rule 8. (1) If no bid is received when a parcel is offered, that parcel will not be reoffered at this sale except as provided in the following subrule:

(2) No highest bid will be recognized unless the high bidder immediately identifies himself by signing a memorandum of sale and making a good faith deposit as required by the board or its representative. In the event such high bidder fails or refuses to do so, then the parcel on which he bid will be immediately reoffered by the auctioneer.

History: 1944 AC, p. 420; 1954 AC, p. 1101.

R 211.9 Calendar of sale.

Rule 9. A calendar will be made and posted at the place of sale. This calendar will show as nearly as possible which parcels are to be offered on each day; and insofar as possible it will be posted a week in advance of the offering.

History: 1944 AC, p. 421; 1954 AC, p. 1102.

R 211.10 Minimum sale price.

Rule 10. The minimum price which may be accepted on any parcel is 25% of the assessed value thereof, as of the year preceding that year in which title was vested in the state.

History: 1944 AC, p. 421; 1954 AC, p. 1102.

R 211.11 Terms of sale.

Rule 11. (1) Payments must be in cash, which shall include certified check, bank draft or money order made payable to the order of the state land office board.

(2) Any bidder other than an "owner" or "municipality" as defined in the above act must pay cash for all purchases.

(3) A "municipality" must pay in cash that portion of the bid price due the other taxing units.

(4) An "owner" may pay cash for any purchase.

(5) An "owner" must pay cash for all purchases of $25.00 or less.

(6) An "owner" may buy on land contract if the purchase price is over $25.00, with a down payment of 10% or more of the purchase price, but not less than $25.00, and the balance shall be payable in successive monthly installments of $1.12 or more per hundred dollars of said balance, which installments shall include interest at the rate of 4% per annum, but no monthly payment shall be for less than $10.00; contract to be paid in full within 10 years from the date of purchase. A standard form of land contract adopted by the state land office board shall be used.

History: 1944 AC, p. 421; 1954 AC, p. 1102.

R 211.12 Procedure for high bidder.

Rule 12. (1) Immediately following the announcement of the highest bid by the auctioneer, the high bidder must present himself before the proper clerk of the sale, execute a memorandum of sale upon the form provided by the board, which form includes an application for a time payment plan for "owners" and affidavit of ownership and make required deposit. One copy of this memorandum must be retained by the bidder.

(2) The high bidder must not later than the close of the next following business day, Saturdays excepted, present his copy of the memorandum of sale to the clerk to identify himself. If such bidder is not an "owner" or a "municipality," he must then pay the full bid price in cash. If he is an "owner," he must either pay the full bid price in cash, or, if he is entitled to a time payment plan, pay the required down payment to purchase on land contract. If such bidder is a "municipality," it must pay in cash that portion of the bid price due the other taxing units.

(3) If a high bidder fails or refuses to complete his bid as provided above, he may, at the option of the board or its representative, be barred from making further bids at the sale and be subject to such penalties as provided by law.

History: 1944 AC, p. 421; 1954 AC, p. 1102.

R 211.13 Procedure for "owner" who was not the high bidder.

Rule 13. (1) Any time within 30 days from the date of the sale of the parcel concerned, an "owner" may claim the property by meeting the highest bid. To do so, he must appear at the place of the sale or other designated place and make a proper application to purchase the property, sign an affidavit of interest and make the required payment. He may pay cash or apply for a land contract on the terms stated above. The 30-day period shall not include the day of the sale, but shall include Sundays and holidays.

(2) An "owner" may meet the highest bid any time within 30 days after the high bidder signs the memorandum of sale, whether or not such high bidder takes up his bid before the close of the following business day. If such high bidder does not make the required payment, an "owner" may still meet the highest bid any time within 30 days from the date of the sale.

History: 1944 AC, p. 421; 1954 AC, p. 1102.

R 211.14 Requirements of a municipality bidding or meeting a highest bid.

Rule 14. A municipality bidding at the sale or meeting a highest bid must, not later than 10 days prior to its bid or meeting bid, file with the board or its

representative a certified copy of the action of its governing body authorizing the purchase and also prove satisfactory to the board that such lands are needed for public use.

History: 1944 AC, p. 421; 1954 AC, p. 1103.

R 211.15 Procedure of a "municipality" that was not the high bidder.

Rule 15. If an "owner" does not exercise his right to meet the highest bid within the 30-day period allowed him, then a "municipality" as defined in said act may meet the highest bid any time within the following 15 days. It must make application to the board and pay the pro rata share of the purchase price due the other "municipalities." "Municipalities" may make application severally or in combination. The 15-day period shall not include the last day of the 30-day period, but shall include Sundays and holidays.

History: 1944 AC, p. 421; 1954 AC, p. 1103.

R 211.16 Arbitration of priority rights.

Rule 16. Where each of 2 or more "owners" or "municipalities" claims the priority right to purchase a parcel the board shall have the right to require such further proof from the parties of their interest and financial investment in said parcel as it may deem necessary. The board may appoint a committee in each county to investigate and determine the priority rights of such owners.

History: 1944 AC, p. 422; 1954 AC, p. 1103.

R 211.17 "Owner" buying 2 or more parcels; release clauses.

Rule 17. An "owner" buying 2 or more parcels situated in the same subdivision and in the same taxing unit may, at the discretion of the board, purchase as many of such parcels as he wishes on 1 land contract; provided, however, an "owner" buying 2 or more parcels in the city of Detroit may at the discretion of the board purchase as many of such parcels as he wishes on 1 land contract, provided said parcels are purchased during not more than 5 consecutive sales days. The down payment and the monthly payments will be calculated on the total purchase price of the several parcels. Any parcel may be released upon payment of 90% of the purchase price of such parcel, which sum shall be applied upon the principal balance of the contract.

History: 1944 AC, p. 422; 1954 AC, p. 1103.

R 211.18 Closing of the sale; 45-day waiting period.

Rule 18. (1) No deed or contract will be issued until after the expiration of the 45-day period during which an "owner" or "municipality" may offer to meet the highest bid.

(2) After the 45-day period, the successful bidder, if he is entitled to a deed, will be notified to surrender his certificate of purchase and accept delivery of such deed.

(3) If the successful bidder is entitled to a land contract, he will be notified by mail of the time and place to appear to sign and secure his copy of said contract. The purchaser may obtain a postponement of said time by arrangement with the representative of the board, but upon his failure to appear within 10 days of the time set in said notice or of such adjourned date, the certificate of purchase shall be void and the down payment in said land contract shall be forfeited as liquidated damages. The copy of the certificate of purchase held by such purchaser must be surrendered to the board before he can secure his copy of the

land contract. If an "owner" entitled to a land contract fails to execute the same, and his certificate of purchase has become void as above provided, a deed will be issued or land contract entered into, as the case may be, with the bidder or "owner" meeting the highest bid who would have prevailed but for the rights of the defaulted purchaser, providing said highest bidder or one meeting the high bid, who is entitled to a refund, has not surrendered his certificate of purchase.

History: 1944 AC, p. 422; 1954 AC, p. 1103.

R 211.19 Return of deposits to unsuccessful bidders.

Rule 19. Upon receipt of a matching bid the high bidder will be notified and, provided the matching bidder is entitled to the preference to meet a high bid given to an owner or municipality, the said high bidder may obtain a refund of his deposit upon surrender of his certificate of purchase.

History: 1944 AC, p. 422; 1954 AC, p. 1103.

R 211.20 Possession of properties purchased.

Rule 20. No bidder or purchaser shall be entitled to possession of any properties until delivery of the deed or land contract.

History: 1944 AC, p. 422; 1954 AC, p. 1104.

R 211.21 Cancellation of sale.

Rule 21. The board reserves the right to refund a deposit and cancel a sale before deed or contract has been delivered.

History: 1944 AC, p. 422; 1954 AC, p. 1104.

R 211.22 Definition of "parcel."

Rule 22. A "parcel" as used herein shall be any description contained in the official sale book.

History: 1944 AC, p. 422; 1954 AC, p. 1104.

R 211.23 Lost certificate of purchase or memorandum of sale.

Rule 23. Duplicates may be issued upon furnishing such proof of loss and identification as may be required by the board. A fee of 25 cents shall be charged for such duplicates.

History: 1944 AC, p. 422; 1954 AC, p. 1104.

R 211.24 Forms.

Rule 24. The forms used in furtherance of the sale shall be the standard forms adopted by the board.

History: 1944 AC, p. 422; 1954 AC, p. 1104.

R 211.25 Authority of official representative in each county.

Rule 25. The official representatives of the board shall have full authority and power to conduct the sale in their respective counties in accordance with the provisions of said act and these rules, subject to the control, supervision, and direction of the board.

History: 1944 AC, p. 423; 1954 AC, p. 1104.

R 211.26 Pronouns.

Rule 26. Pronouns used herein in reference to bidders, owners, and purchasers shall be read as though in the masculine, neuter, feminine, plural, or singular as the case may be.

History: 1944 AC, p. 423; 1954 AC, p. 1104.

AUCTION SALE OF STATE-OWNED LANDS PREVIOUSLY OFFERED FOR SALE

R 211.101 Date of sale.

Rule 1. This sale will begin on such date as may be designated and announced for each county and will continue from day to day except Saturdays, Sundays, and holidays.

History: 1944 AC, p. 423; 1954 AC, p. 1104.

R 211.102 Time of sale.

Rule 2. 9 a.m. to 12 noon and 1 p.m. to 4 p.m., Michigan standard time, daily, excepting Saturdays, Sundays, and legal holidays.

History: 1944 AC, p. 423; 1954 AC, p. 1104.

R 211.103 Place of sale.

Rule 3. This sale will be opened at the offices of the county treasurers or at such other suitable place as the board may select.

History: 1944 AC, p. 423; 1954 AC, p. 1104.

R 211.104 Properties offered.

Rule 4. Parcels of land to which the state received title as a result of the tax sales and which were offered at public auction pursuant to section 7 of the above mentioned act and which were not sold or have not been subsequently deeded to municipalities or withheld from sale by the board.

History: 1944 AC, p. 423; 1954 AC, p. 1104.

R 211.105 Lists of properties for sale.

Rule 5. Lists of the properties to be offered for sale in each county may be obtained from the respective county treasurers, or at the office of the board, capitol building, Lansing. A charge will be made for said lists.

History: 1944 AC, p. 423; 1954 AC, p. 1104.

R 211.106 The auction sale.

Rule 6. The sale will be conducted as a public auction. No bids will be received in advance or by mail. Each bidder must be present at the sale or have an agent bid for him. Each parcel will be sold to the high bidder, subject to the provisions of the above act and these rules and regulations. The auctioneer shall have the right to disregard nuisance and nominal bids and to reject any bids for good cause.

History: 1944 AC, p. 423; 1954 AC, p. 1105.

R 211.107 Order of sale.

Rule 7. The parcels will be offered in the order in which they appear in the official sale's books for each county.

History: 1944 AC, p. 423; 1954 AC, p. 1105.

R 211.108 Properties to be reoffered.

Rule 8. (1) If no bid is received when a parcel is offered, that parcel may, at the option of the board, be reoffered at this sale.

(2) No highest bid will be recognized unless the high bidder immediately identifies himself by signing a memorandum of sale and making the required deposit. In the event such high bidder fails or refuses to do so, then the parcel on which he bid will be immediately reoffered by the auctioneer.

History: 1944 AC, p. 423; 1954 AC, p. 1105.

R 211.109 Calendar of sale.

Rule 9. A calendar will be made and posted at the place of sale. This calendar will show as nearly as possible which parcels are to be offered on each day; and insofar as possible it will be posted a week in advance where the sale will last for that long a period.

History: 1944 AC, p. 423; 1954 AC, p. 1105.

R 211.110 Minimum sale price.

Rule 10. The minimum price which may be accepted on any parcel is the minimum bid price as fixed by the board.

History: 1944 AC, p. 423; 1954 AC, p. 1105.

R 211.111 Terms of sale.

Rule 11. (1) Payments must be in cash, which shall include certified check, bank draft, or money order made payable to the order of the state land office board.

(2) A buyer may pay cash for any purchase.

(3) A buyer must pay cash for all purchases of $100.00 or less.

(4) A buyer may buy on land contract if the purchase price is over $100.00, with a down payment of 20% or more of the purchase price, but not less than $100.00 and the balance shall be payable in successive monthly installments of $1.46 or more per hundred dollars of said balance, which installments shall include interest at the rate of 4% per annum, but no monthly payment shall be for less than $10.00; contract to be paid in full within 7 years from the date of purchase. A standard form of land contract adopted by the state land office board shall be used.

History: 1944 AC, p. 423; 1954 AC, p. 1105.

R 211.112 Procedure for high bidder.

Rule 12. (1) Immediately following the announcement of the highest bid by the auctioneer, the high bidder must present himself before the proper clerk of the sale and execute a memorandum of sale upon the form provided by the board, which form includes an application for a time payment plan. One copy of this memorandum must be retained by the bidder.

(2) To take up his bid, the high bidder must at once present his copy of the memorandum of sale to the clerk to identify himself, and either pay the full bid price in cash, or, if he is entitled to a time payment plan, pay the required down payment to purchase on land contract.

(3) If a high bidder fails or refuses to complete his bid as provided above, he may, at the option of the board or its representative, be barred from making further bids at the sale and be subject to such penalties as provided by law.

(4) The board reserves the right to reject any or all bids at any time prior to delivery of deeds or contracts covering said bids.

History: 1944 AC, p. 423; 1954 AC, p. 1105.

R 211.113 Buying 2 or more parcels; release clauses.

Rule 13. Anyone buying 2 or more parcels situated in the same subdivision and in the same taxing unit may, at the discretion of the board, purchase as many of such parcels as he wishes on 1 land contract. The down payment and the monthly payments will be calculated on the total purchase price of the several parcels. Any parcel may be released upon payment of the original unpaid balance of the purchase price of such parcel, which sum shall be applied upon the principal balance of the contract.

History: 1944 AC, p. 423; 1954 AC, p. 1106.

R 211.114 Closing of the sale.

Rule 14. (1) Deeds and contracts will be issued as soon as possible.

(2) If the successful bidder is entitled to a land contract, he will be notified by mail of the time and place to appear to sign and secure his copy of said contract. The purchaser may obtain a postponement of said time by arrangement with the representative of the board, but upon his failure to appear within 10 days of the time set in said notice or of such adjourned date, the certificate of purchase shall be void and the down payment in said land contract shall be forfeited as liquidated damages.

(3) The copy of the certificate of purchase held by such purchaser must be surrendered to the board before he can secure his deed or his copy of the land contract.

History: 1944 AC, p. 424; 1954 AC, p. 1106.

R 211.115 Possession of properties purchased.

Rule 15. No bidder or purchaser shall be entitled to possession of any properties until the delivery of the deed or land contract.

History: 1944 AC, p. 424; 1954 AC, p. 1106.

R 211.116 Definition of "parcel."

Rule 16. A "parcel" as used herein shall be any description contained in the official sale book and offered at this sale.

History: 1944 AC, p. 424; 1954 AC, p. 1106.

R 211.117 Lost certificate of purchase or memorandum of sale.

Rule 17. Duplicates may be issued upon furnishing such proof of loss and identification and payment of such fee as may be required by the board.

History: 1944 AC, p. 424; 1954 AC, p. 1106.

R 211.118 Forms.

Rule 18. The forms used in furtherance of the sale shall be the standard forms adopted by the board.

History: 1944 AC, p. 424; 1954 AC, p. 1106.

R 211.119 Authority of official representative in each county.

Rule 19. The official representatives of the board shall have full authority and power to conduct the sale in the respective counties in accordance with the provisions of said act and these rules, subject to the control, supervision, and direction of the board.

History: 1944 AC, p. 424; 1954 AC, p. 1106.

PRIVATE SALE OF STATE-OWNED LANDS

R 211.201 Place of sale.

Rule 1. The sale shall be conducted by the state land office board at its office in Lansing, Michigan, or by a duly authorized representative in the county in which said lands are located.

History: 1944 AC, p. 424; 1954 AC, p. 1107.

R 211.202 Office hours.

Rule 2. Eight a.m. to 5 p.m., daily, excepting Saturdays, Sundays, and legal holidays, or at any other designated time.

History: 1944 AC, p. 424; 1954 AC, p. 1107.

R 211.203 Properties to be offered at private sale.

Rule 3. (1) All properties that have been offered at public auction under the provisions of section 7 of said Act No. 155 and not sold or otherwise disposed of or withheld by the board will be offered for sale.

(2) Lists and minimum sale prices of properties to be sold at private sale are available to the general public at offices of the board or county treasurers. Said lists will be revised and supplemented from time to time.

History: 1944 AC, p. 424; 1954 AC, p. 1107.

R 211.204 Procedure of sale.

Rule 4. Any person desiring to purchase any listed property shall make application therefor upon the form of "offer to purchase" available at the office of the board, and submit the same properly completed and executed in triplicate to the board, or to its authorized representative, either in person or by mail accompanied by the required cash deposit. Such offer shall be in an amount not less than the appraised value of the property as established by the state land office board.

History: 1944 AC, p. 425; 1954 AC, p. 1107.

R 211.205 Terms of sale.

Rule 5. All payments must be in cash or by certified check, bank draft, or money order payable to the state land office board. All sales of $100.00 or less must be for cash. Any sale over $100.00 may be for cash or on a land contract basis. If on land contract, the down payment shall be at least 20% of the purchase price but not less than $100.00, and the balance shall be payable in successive monthly installments of $1.46 or more per $100.00 of said balance, which installments shall include interest at the rate of 4% per annum, but no monthly

payment shall be for less than $10.00; contract to be paid in full within 7 years from date of purchase.

History: 1944 AC, p. 425; 1954 AC, p. 1107.

R 211.206 Required cash deposit.

Rule 6. The "offer to purchase" shall be accompanied by the full purchase price on all offers of $100.00 or less; if over $100.00, the required deposit shall be at least 20% of the total offer but not less than $100.00. The supervisory sales agent may at its option, accept with an "offer to purchase" vacant land, a deposit of 5% of the minimum sales price, but not less than $25.00, together with the total amount of all raises; said deposit shall be accompanied by an agreement from the offerer to pay the required balance of the down payment or full purchase price within 60 days from the date of said offer. The deposit shall be forfeited upon the offerer's failure to pay the said required balance as above provided.

History: 1944 AC, p. 425; 1954 AC, p. 1107.

R 211.207 Offer subject to higher offer for 7 days.

Rule 7. Each offer will be held for a period of 7 days from the day the offer is received. If the 7th day falls on a legal holiday the offer will be held by the board until the close of the following business day. During said 7-day period, no further offer will be received unless such further offer is in an amount increased by $25.00, or not less than 10% of the minimum sale price, whichever is the larger.

History: 1944 AC, p. 425; 1954 AC, p. 1107.

R 211.208 Offers irrevocable for 20 days.

Rule 8. Any offer to purchase shall be irrevocable for a period of 20 days after being made as herein required and thereafter may be revoked only by written notice of revocation given to the board before notice has been mailed to the offerer that a contract is ready for execution by the offerer, or deed is ready for delivery, as the case may be.

History: 1944 AC, p. 425; 1954 AC, p. 1107.

R 211.209 Closing of land contracts and delivery of deeds.

Rule 9. (1) All land contracts will be closed at the office of the state land office board, or at such other location as may be established by the board. Due notice of the closing date will be mailed to the purchaser at the designated address appearing in the "offer to purchase" unless purchaser has otherwise instructed the board in writing. If purchaser does not appear to sign land contract within 10 days from closing date, or make satisfactory arrangements for postponement, the sale may be voided at the option of the board and all rights of purchaser terminated, and the deposit shall be forfeited to the state as liquidated damages.

(2) Deed or land contract, as the case may be, shall be issued in the exact name, or names, as designated in the "offer to purchase." The board reserves the right to reject any offer at any time prior to delivery of deed or land contract, and in the event of rejection by the board, it will return the deposit accompanying the offer.

History: 1944 AC, p. 425; 1954 AC, p. 1108.

R 211.210 Buying 2 or more parcels; release clause.

Rule 10. Anyone buying 2 or more parcels situated in the same subdivision and in the same taxing unit may, at the discretion of the board, purchase as many of such parcels as he wishes on 1 land contract. The down payment and the monthly

PRIVATE SALE OF STATE-OWNED LANDS BY EXCLUSIVE SUPERVISORY SALE AGENTS

R 211.301 Place of sale.

Rule 1. The sale shall be conducted by the exclusive supervisory sales agent of the state land office board for the county in which said lands are located.

History: 1944 AC, p. 426; 1954 AC, p. 1108.

R 211.302 Office hours.

Rule 2. Nine a.m. to 4 p.m., Monday through Friday; and 9 a.m. to 12 noon, Saturday.

History: 1944 AC, p. 426; 1954 AC, p. 1109.

R 211.303 Properties to be offered at private sale.

Rule 3. (1) All properties that have been offered at public auction under the provisions of section 7 of said Act No. 155 and not sold or otherwise disposed of or withheld by the board will be offered for sale.

(2) Lists and minimum sale prices of properties to be sold at private sale are available to all licensed real estate brokers and the general public at offices of the board or supervisory sales agent. Said lists will be revised and supplemented from time to time.

History: 1944 AC, p. 426; 1954 AC, p. 1109.

R 211.304. Procedure of sale.

Rule 4. Any person desiring to purchase any listed property shall make application therefor upon the form of "offer to purchase" available at the offices of the exclusive supervisory sales agent, and submit the same properly completed and executed in triplicate to said agency either in person or through a licensed real estate broker accompanied by the required cash deposit. Such offer shall be in an amount not less than the appraised value of the property as established by the state land office board.

History: 1944 AC, p. 428; 1954 AC, p. 1109.

R 211.305 Terms of sale.

Rule 5. All payments must be in cash or by certified check, bank draft, or money order payable to the exclusive supervisory sales agent. All sales of $100.00 or less must be for cash. Any sale over $100.00 may be for cash or on a land contract basis. If on land contract, the down payment shall be at least 20% of the purchase price but not less than $100.00, and the balance shall be payable in successive monthly installments of $1.46 or more per $100.00 of said balance, which installments shall include interest at the rate of 4% per annum, but no monthly payment shall be for less than $10.00; contract to be paid in full within 7 years from date of purchase.

History: 1944 AC, p. 428; 1954 AC, p. 1109.

R 211.306 Required cash deposit.

Rule 6. The "offer to purchase" shall be accompanied by the full purchase price on all offers of $100.00 or less; if over $100.00, the required deposit shall be at least 20% of the total offer but not less than $100.00. The supervisory sales agent may, at its option, accept with an "offer to purchase" vacant land, a deposit of 5% of the minimum sales price, but not less than $25.00, together with the total amount of all raises; said deposit shall be accompanied by an agreement from the offerer to pay the required balance of the down payment or full purchase price within 60 days from the date of said offer. The deposit shall be forfeited upon the offerer's failure to pay the said required balance as above provided.

History: 1944 AC, p. 428; 1954 AC, p. 1109.

R 211.307 Offer subject to higher offer for 7 days.

Rule 7. Each offer will be held for a period of 7 days from the day the offer is received. If the 7th day falls on a legal holiday, the offer will be held by the board until the close of the following business day. During said 7-day period, no further offer will be received unless such further offer is in an amount increased by $25.00, or not less than 10% of the minimum sale price, whichever is the larger.

History: 1944 AC, p. 428; 1954 AC, p. 1109.

R 211.308 Offers irrevocable for 20 days.

Rule 8. Any offer to purchase shall be irrevocable for a period of 20 days after being made as herein required and thereafter may be revoked only by written notice of revocation given to the board before notice has been mailed to the offerer that a contract is ready for execution by the offerer, or deed is ready for delivery, as the case may be.

History: 1944 AC, p. 428; 1954 AC, p. 1109.

R 211.309 Closing of land contracts and delivery of deeds.

Rule 9. (1) All land contracts will be closed at the office of the state land office board, or at such other location as may be established by the board. Due notice of the closing date will be mailed to the purchaser at the designated address appearing in the "offer to purchase" unless purchaser has otherwise instructed the agency in writing. If purchaser does not appear to sign land contract within 10 days from closing date, or make satisfactory arrangements for postponement, the sale may be voided at the option of the board and all rights of purchaser terminated, and the deposit shall be forfeited to the state as liquidated damages.

(2) Deed or land contract, as the case may be, shall be issued in the exact name or names, as designated in the "offer to purchase." The board reserves the right to reject any offer at any time prior to delivery of deed or land contract, and in the event of rejection by the board, it will return the deposit accompanying the offer.

History: 1944 AC, p. 426; 1954 AC, p. 1109.

R 211.310 Buying 2 or more parcels; release clause.

Rule 10. Anyone buying 2 or more parcels situated in the same subdivision and in the same taxing unit may, at the discretion of the board, purchase as many of such parcels as he wishes on 1 land contract. The down payment and the monthly payments will be calculated on the total purchase price of the several parcels. Any parcel may be released upon payment of the original unpaid balance of the purchase price after the down payment on such parcel, which sum shall be applied upon the principal unpaid balance of said contract, plus a service charge of $1.00 for each such release.

History: 1944 AC, p. 427; 1954 AC, p. 1110.

R 211.311 Sales made through licensed real estate brokers.

Rule 11. (1) Any duly licensed real estate broker submitting an "offer to purchase," as required herewith and with the required deposit, shall be entitled to a commission thereon in accordance with the real estate broker commission schedule established by the board, upon execution and delivery of land contract or deed, as the case may be. A broker will not be allowed a commission as to purchase by such broker, either directly or indirectly.

(2) Any broker may register in writing with the exclusive supervisory sales agent the name of prospects to whom he has personally shown property, giving the date of showing and description of property. Such broker may be allowed a commission on any sale of property appearing in said registration made upon an offer thereafter submitted to the agency by the prospect personally and not through another broker within 30 days from the date of registration.

(3) In the case of duplicate offers to purchase the same property, priority will be given the first received.

(4) All conflicting claims between 2 or more brokers and any questioned claim of any broker as to rights to commission may, at the discretion of the board, be referred to an arbitration committee appointed by the board, or its duly authorized agent, for settlement and the finding of such committee will be final and binding on the broker or brokers involved.

History: 1944 AC, p. 427; 1954 AC, p. 1110.

R 211.312 Possession of properties purchased.

Rule 12. No purchaser shall be entitled to possession of any properties until the delivery of the deed or land contract.

History: 1944 AC, p. 427; 1954 AC, p. 1110.

R 211.313 Forms.

Rule 13. The form of land contract and deed given, and all other forms used in completion of the sale, shall be the standard forms adopted by the board.

History: 1944 AC, p. 427; 1954 AC, p. 1110.

R 211.314 Authority of supervisory sales agent.

Rule 14. The supervisory sales agent of the board shall have full authority and power to conduct the sale in accordance with the provisions of said act and these rules, subject to the control, supervision, and direction of the board.

History: 1944 AC, p. 427; 1954 AC, p. 1110.

R 211.315 Amendments.

Rule 15. These rules may be amended at any time without notice by action of the state land office board.

History: 1944 AC, p. 427; 1954 AC, p. 1110.

STATE ASSESSOR'S BOARD

GENERAL RULES

(By authority conferred on the state assessor's board by section 33 of Act No. 306 of the Public Acts of 1969, being §24.233 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 211.401 Definitions.

Rule 1. As used in these rules:

(a) "Act" means sections 10c and 10d of Act No. 206 of the Public Acts of 1893 as added by Act No. 203 of the Public Acts of 1969, being §§211.10c and 211.10d of the Michigan Compiled Laws.

(b) "Board" means the state assessor's board.

History: 1954 ACS 78, p. 7, Eff. Feb. 20, 1974.

R 211.403 Jurisdiction.

Rule 3. The board has jurisdiction and may hold hearings in the following matters:

(a) Assessor training programs.

(b) Assessor certification.

(c) Level of certification required of assessing units.

History: 1954 ACS 78, p. 8, Eff. Feb. 20, 1974.

R 211.404 Office and meetings.

Rule 4. (1) The office of the board is located in the Treasury Building, Lansing, Michigan, and is open daily, except Saturdays, Sundays, and legal holidays.

(2) Regular meetings of the board shall be held each month at a time and place specified by the chairman or a majority of the members of the board.

(3) Special meetings of the board may be called by the chairman or a majority of the board.

History: 1954 ACS 78, p. 8, Eff. Feb. 20, 1974; 1954 ACS 91, p. 13, Eff. Mar. 23, 1977.

R 211.405 Organization.

Rule 5. (1) The board shall elect a chairman and vice chairman at the first scheduled meeting of each year.

(2) The board shall establish and maintain the position of executive secretary to conduct activities, effect policies and procedures, and maintain communications with assessing officers; and such other positions as deemed necessary.

History: 1954 ACS 78, p. 8, Eff. Feb. 20, 1974.

R 211.407 Filing of papers.

Rule 7. Papers required by statute or rule to be filed with the board shall be filed with the secretary of the board.

History: 1954 ACS 78, p. 8, Eff. Feb. 20, 1974.

R 211.408 Information available to public.

Rule 8. Inquiries as to the level of certification required by an assessing unit, the certification status of an assessing officer or the availability of approved assessor training programs may be made verbally or in writing to the secretary of the board.

History: 1954 ACS 78, p. 8, Eff. Feb. 20, 1974.

R 211.409 Declaratory rulings.

Rule 9. An interested person desiring a declaratory ruling as to the application of the act or rules of the board to an actual state of facts shall submit a request in writing giving full information as to the background, reasoning and proposed ruling. The board shall consider the request as soon as practicable and may hold a hearing before accepting the proposed ruling or another ruling.

History: 1954 ACS 78, p. 8, Eff. Feb. 20, 1974.

PART 2. TRAINING PROGRAMS

R 211.421 Educational institution information.

Rule 21. An educational institution conducting an assessor training program shall submit, in writing, to the board a syllabus of its program with an outline of courses or classes offered, the number of hours for each course, reference and text material, and any other pertinent information specifically requested by the board no later than August 1 of each year for consideration by the board.

History: 1954 ACS 78, p. 8, Eff. Feb. 20, 1974.

R 211.422 Educational institution courses.

Rule 22. As a requisite for approval by the board, an assessor training program shall comply with minimum requirements as follows:

Course Description Number	Course Content	Class Hours Required
	BASIC	
	A. Basic assessment administration (30 hours)	
1 & 2	History of property taxation; basic administration; public and human relations	3
18	Personal property	3
3	Local government finance	3
4	General property tax law	6

R 211.427 Examinations.

Rule 27. (1) An educational institution desiring to administer a certification examination may apply in writing to the board upon termination of an approved assessor training program. The request shall indicate the level of certification examination desired. The request shall be made at least 30 days before the desired examination date. The fee for an examination is $15.00 and shall be paid prior to writing an examination.

(2) An examination shall be monitored or controlled by the board or its authorized representative.

(3) Notices of examination results shall be stated as passing or failing.

(4) There shall be a 90-day waiting period between writings of the same level of examination.

(5) Examination scores shall remain valid for a period not to exceed 180 days from the date the examination was written.

History: 1954 ACS 78, p. 9, Eff. Feb. 20, 1974; 1954 ACS 91, p. 14, Eff. Mar. 23, 1977.

PART 3. RATING AND CERTIFICATION

R 211.431 Rating of assessing units.

Rule 31. (1) An assessing unit shall be rated as to the level of certification which is required to assess or equalize the entire unit in accordance with R 211.432 to R 211.435. An individual may qualify at a level higher than the level assigned to his unit.

(2) Factors considered by the board in assigning levels to assessing units are:

(a) Total state equalized value.

(b) Percentage of value in commercial and industrial classifications, both real and personal.

(c) Assistance given the local unit by the equalization department or state tax commission on special use properties.

(3) A rating is subject to review and change annually. Notice of any change shall be mailed not later than July 1 of each year to the state tax commission and to the affected counties and units.

(4) A request for a hearing on the rating shall be in writing and shall be submitted to the board postmarked not later than August 1 each year. The appellant shall be notified on or before September 1 as to the date set for a hearing.

History: 1954 ACS 78, p. 10, Eff. Feb. 20, 1974; 1954 ACS 91, p. 14, Eff. Mar. 23, 1977.

R 211.432 Certification at level 1; qualifications.

Rule 32. (1) A person to be qualified for certification at level 1 shall be able to:

(a) Assess residential property, using the cost and market approach. This category of property includes, but is not restricted to:

(i) Single-family dwellings.

(ii) Duplexes and small multi-family dwellings.

(iii) Farmhouses.

(iv) Garages, sheds, barns, silos, and corncribs.

(b) Assess land improvements for the types of properties listed in subdivision (a). Examples include, but are not restricted to:

(i) Fencing.

(ii) Paving and drives.

(iii) Retaining walls.

(iv) Wells and septic systems.

(c) Assess all types of land.

(d) Assess timber and cut-over timber, if applicable, using the market approach.

(e) Read, write, and draw basic property descriptions.

(f) Collect, analyze, and maintain sales data.

(g) Understand the basic principles of the cost and market valuation concepts and be aware of the income approach.

(h) Make working use of communication skills.

(i) Demonstrate general knowledge of the general property tax laws, including rules of the state tax commission and Michigan tax tribunal; assessment, allocation, and equalization appeal procedures; and the tax calendar.

(j) Demonstrate working knowledge of how the equalization process works and is applied in:

(i) Preparing assessment rolls.

(ii) Preparing required state tax commission forms.

(iii) Preparing required reports to the county and state.

(k) Demonstrate general knowledge of laws regarding assessing of personal property.

(2) Examination and verification of accounting records is not required at this level.

History: 1954 ACS 78, p. 10, Eff. Feb. 20, 1974; 1954 ACS 91, p. 14, Eff. Mar. 23, 1977.

R 211.433 Certification at level 2; qualifications.

Rule 33. A person to be qualified for certification at level 2 shall be able to:

(a) Meet all level 1 requirements.

(b) Assess smaller or light-use commercial properties using acceptable appraisal techniques. Examples include, but are not restricted to:

(i) Stores, shops, and restaurants.

(ii) Warehouses.

(iii) Gas stations.

(iv) Apartment houses.

(c) Assess smaller, well-defined, general-purpose industrial properties using acceptable appraisal techniques. Examples include, but are not restricted to:

(i) Light assembly buildings.

(ii) Small machine shops and light manufacturing.

(d) Develop capitalization rates from the marketplace.

(e) Determine value of land using the land residual approach.

(f) Determine value of farm and timberlands, if applicable, by the income approach.

(g) Examine income tax statements and cost records for verification of personal property reports.

History: 1954 ACS 78, p. 10, Eff. Feb. 20, 1974; 1954 ACS 91, p. 15, Eff. Mar. 23, 1977.

R 211.434 Certification at level 3; qualifications.

Rule 34. A person to be qualified for certification at level 3 shall be able to:

(a) Meet all levels 1 and 2 requirements.

(b) Assess large and difficult properties of all types. Examples include, but are not restricted to:

(i) Regional shopping centers.

(ii) Industrial complexes and heavy manufacturing.

(iii) Concentrated downtown areas, including high-rise office buildings, hotels, and department stores.

(iv) Condominiums and apartment complexes.

(c) Demonstrate a thorough working knowledge of all approaches to value.

(d) Examine and verify industrial and commercial personal property records.

(e) Organize and coordinate mass appraisal projects.

(f) Demonstrate a knowledge of how equalization studies are implemented for determination of assessment levels within townships or cities, or both.

(g) Administer an assessor's office, including, but not limited to:

(i) Working with other governmental agencies.

(ii) Setting up record books and assessment systems, maps, and the like.

(iii) Scheduling work loads and planning assessment reviews and personal property audits.

(iv) Education of subordinates in the practices and procedures of assessment.

(h) Demonstrate a knowledge of tax tribunal decisions, court decisions, and attorney general opinions pertaining to property assessment and taxation.

History: 1954 ACS 78, p. 11, Eff. Feb. 20, 1974; 1954 ACS 91, p. 15, Eff. Mar. 23, 1977.

R 211.435 Certification at level 4; qualifications.

Rule 35. A person to be qualified for certification at level 4 shall be able to:

(a) Meet all levels 1, 2, and 3 requirements.

(b) Administer and formulate policies for the more complex assessment office.

(c) Demonstrate a knowledge of all phases of the general property tax law and its implications; and of current and decided court cases affecting property taxation; and demonstrate an ability to keep current on contemplated laws and bills in the legislature and their probable effect on local revenues.

(d) Demonstrate a knowledge of local government finance, including, but not limited to:

(i) Allocation procedures.

(ii) Apportionment.

(iii) Special millage elections and bonding issues.

(e) Communicate with government officials and general public.

(f) Prepare a narrative appraisal report, the valuation date of which shall not be more than 1 year from the date of submission to the board. Guidelines for writing the narrative appraisal are available upon request.

(g) Successfully complete an oral exam that relates to all items listed in R 211.432 to R 211.435.

History: 1954 ACS 78, p. 11, Eff. Feb. 20, 1974; 1954 ACS 91, p. 15, Eff. Mar. 23, 1977.

R 211.437 Certification of individuals; form; fee; time; qualifications; limitation.

Rule 37. (1) An application for certification of an individual shall be on the form prescribed by and available from the board, Department of Treasury, Lansing, Michigan 48922. The application form shall be accompanied by a fee of $25.00, which is not refundable. Application for certification shall be made within 180 days of passage of the examination.

(2) An individual seeking certification at a specific level shall have knowledge and understanding of the assessing profession for that level as prescribed in R 211.432 to R 211.435.

(3) An individual shall be certified by examination only. An individual seeking certification at level 4 shall be certified at level 3 or have successfully completed the level 3 examination.

(4) An individual shall assess only the properties covered by his certification level, unless conditional certification is granted by the board under R 211.439(1).

History: 1954 ACS 78, p. 11, Eff. Feb. 20, 1974; 1954 ACS 91, p. 16, Eff. Mar. 23, 1977.

R 211.439 Conditional, regular, and provisional certification.

Rule 39. (1) Conditional certification may be granted to a newly-elected assessing officer at level 1 or 2, or to an assessing officer in a unit which has had the level of certification increased by the board under R 211.431(2). Conditional certifications are granted on a 1-time basis only and may not be renewed or extended. To be eligible for conditional certification, the assessing officer shall file the following papers with the board as soon as practicable:

(a) An application for certification, with the application filing fee of $25.00 attached.

(b) A request for conditional certification of the assessing officer submitted by the governing body of the local assessing unit.

(c) A statement from the assessing officer outlining the course of training he plans to pursue to become certified at the required level.

(2) Regular certification is granted to an individual employed by a governmental unit in the field of assessment administration who has completed the requirements for certification. A regular certification shall be changed to a provisional certification when the individual is no longer employed in the field of assessment administration.

(3) Provisional certification may be granted to an individual who has completed the requirements for certification, but is not currently employed in the field of assessment administration. A provisional certificate may be changed to a regular certificate upon notice from a local assessing unit that the provisionally certified individual is performing specific duties related to the assessment function.

History: 1954 ACS 78, p. 11, Eff. Feb. 20, 1974; 1954 ACS 91, p. 16, Eff. Mar. 23, 1977.

R 211.441 Certification of state tax commission chairman, appraisers, and equalization directors.

Rule 41. (1) A state tax commission chairman shall qualify at level 4 certification within 2 years after his appointment.

(2) All property appraisers above the grade of 11 in the employ of the commission shall be certified at level 4. All property appraisers at the grade of 11 in the employ of the commission shall be certified at level 3.

(3) An equalization director shall qualify for a certification at the level of certification assigned to his county by the board under R 211.431(1), unless conditional certification is granted by the board under R 211.439(1).

History: 1954 ACS 78, p. 12, Eff. Feb. 20, 1974; 1954 ACS 91, p. 16, Eff. Mar. 23, 1977.

R 211.442 Certification of appraisal firm personnel.

Rule 42. An appraisal firm doing business in this state, and employed to make appraisals for assessment purposes shall have a project supervisor certified at the level required of the assessing unit. The certification shall be required of the project supervisor in residence or of any staff member assigned comparable duties and responsibilities. The certification level shall be equal to the highest designated certification necessary for the units of government where the firm will be conducting business.

History: 1954 ACS 78, p. 12, Eff. Feb. 20, 1974; 1954 ACS 91, p. 17, Eff. Mar. 23, 1977.

R 211.444 Renewal of certification.

Rule 44. (1) A certification expires biennially beginning December 30, 1974. A certification may be renewed upon application and payment to the board of a

renewal fee of $15.00 and evidence of annual attendance at a renewal seminar as specified by the board. Notice of renewal requirements and classes shall be sent to each certified assessor by regular first-class mail. It is the responsibility of the certified individual to keep the board informed of his current mailing address. Failure to receive notice by first-class mail does not nullify the annual requirement.

(2) Applications approved by the board from July to December meetings of the board during even-numbered years shall be granted a certificate for the next expiration period, and the board may waive the renewal seminar for that year only. Certifications granted in the odd-numbered years between July and December shall not be required to attend the renewal seminar for that year, but attendance shall be required at the renewal seminar of the expiration year.

(3) An individual certified at level 3 or higher shall submit proof of attendance at a 6-hour appraisal seminar conducted by a recognized assessment or appraisal association in addition to the requirements in R 211.444(1) and (2).

History: 1954 ACS 78, p. 12, Eff. Feb. 20, 1974; 1954 ACS 91, p. 17, Eff. Mar. 23, 1977.

R 211.447 Revocation of certification; grounds; hearing.

Rule 47. A certification may be revoked for a false statement on the application, malfeasance, misfeasance, nonfeasance, or an unethical practice. Proceedings for revocation may be initiated by petition to the board or on a motion of the board. Upon petition to the board, a hearing shall be held as soon as possible under the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

History: 1954 ACS 91, p. 17, Eff. Mar. 23, 1977.

DEPARTMENT OF TRANSPORTATION

HEARINGS ON TRAFFIC CONTROL ORDERS

(By authority conferred on the state highway commissioner by Act No. 197 of the Public Acts of 1952, as amended, and Act No. 88 of the Public Acts of 1943, as amended, being §24.101 et seq. and §24.71 et seq. of the Michigan Compiled Laws)

R 225.1 Referral of hearing to highway department staff member.

Rule 1. The hearings required to be conducted under §257.675 of the Michigan Compiled Laws may be referred by the state highway commissioner to a member of the staff of the state highway department, who shall hear the evidence, prepare such record as is required by §§24.101 to 24.110 of the Michigan Compiled Laws, and file a report with the state highway commissioner.

History: 1954 ACS 29, p. 11, Eff. Feb. 14, 1962.

R 225.2 "City" defined.

Rule 2. The term "city" shall be deemed to mean a home rule city duly incorporated pursuant to the laws of the state of Michigan.

History: 1954 ACS 29, p. 11, Eff. Feb. 14, 1962.

R 225.3 Appearance.

Rule 3. When an appearance is made at such hearing, it shall be made by legal counsel for and on behalf of the city or by some other person duly authorized by the legislative body of the city.

History: 1954 ACS 29, p. 11, Eff. Feb. 14, 1962.

R 225.4 Notice of intention to file traffic control order.

Rule 4. Whenever the state highway commissioner and the commissioner of the Michigan state police shall deem it necessary to issue a traffic control order as set forth in §257.675(d) of the Michigan Compiled Laws, the state highway commissioner, individually, or by his duly authorized representative, shall notify the city involved by registered mail of his intention to file a traffic control order with the county clerk and the effective date thereof. Such notice shall set forth the nature of the order, the reasons therefor, and shall be mailed to the city clerk or city manager, or mayor of said home rule city.

History: 1954 ACS 29, p. 12, Eff. Feb. 14, 1962.

R 225.5 Notice of objections to proposed order; service.

Rule 5. The city, if it shall desire a hearing, shall, within 20 days after receiving notice as set forth in R 225.4, notify and serve upon the state highway commissioner, by registered mail, specifications of its objections to the proposed traffic control order.

History: 1954 ACS 29, p. 12, Eff. Feb. 14, 1962.

R 225.6 Notice of hearing.

Rule 6. Upon receipt of demand for a hearing and objections by the city, the state highway commissioner shall, within 10 days, notify the city by registered mail of the date, time, and place for holding said hearing.

History: 1954 ACS 29, p. 12, Eff. Feb. 14, 1962.

R 225.7 Adjournment or continuance of hearing.

Rule 7. No hearing shall be adjourned or continued, except upon order of the state highway commissioner or his agent designated to conduct the hearing. All motions and requests for an adjournment or continuance shall be accompanied by a statement of the reasons therefor. No motion or request for an adjournment or continuance will be considered unless same is filed with the state highway commissioner at least 5 days prior to the date assigned for the hearing, except that the state highway commissioner or his agent may accept such request during a hearing or may waive the 5-day notification if proper showing is made that, for reasons not within the control of the city making the motion or request, the motion or request could not be filed within the said 5-day period.

History: 1954 ACS 29, p. 12, Eff. Feb. 14, 1962.

R 225.8 Stipulations.

Rule 8. The parties to any hearing before the state highway commissioner, may, by stipulation in writing, filed with the state highway commissioner, agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence on the hearing.

History: 1954 ACS 29, p. 12, Eff. Feb. 14, 1962.

R 225.9 Depositions.

Rule 9. Depositions may be taken upon written authority of the state highway commissioner if it appears to the state highway commissioner that it is impracticable or impossible to obtain the evidence otherwise. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan as provided by §617.6 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 29, p. 12, Eff. Feb. 14, 1962.

R 225.10 Parties in interest.

Rule 10. The state highway commissioner and the city shall be deemed the sole parties in interest in the hearing, and they alone are permitted to present evidence, to cross-examine, and to exercise other legal rights afforded an interested party in a contested case.

History: 1954 ACS 29, p. 12, Eff. Feb. 14, 1962.

CLASSIFICATION AND RATING OF BIDDERS

(By authority conferred on the state highway commission by section 9 of Act No. 286 of the Public Acts of 1964 and section 33 of Act No. 306 of the Public Acts of 1969, being §§247.809 and 24.233 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 247.1 Effective date and applicability.

Rule 1. These rules are effective April 15, 1975.

History: 1954 ACS 58, p. 6, Eff. May 15, 1969; 1954 ACS 83, p. 5, Eff. Apr. 16, 1975.

R 247.11 Definitions.

Rule 11. (1) "Commission" means the state highway commission.

(2) "Committee" means the prequalification committee authorized by these rules.

Digitized by Google

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

(3) "Department" means the department of state highways and transportation.

(4) "Financial resources" means the information shown on an annual financial statement, which shall include a balance sheet, an operating statement and appropriate supporting schedules based upon the bidder's established annual accounting period.

(5) "Bidder" means an individual proprietor, a person acting under an assumed name, a partnership, a corporation or a combination thereof which seeks to perform work for the commission. When a combination of any of the aforementioned entities is prequalified, it shall be prequalified as only 1 bidder which may act through an authorized representative.

(6) "Day" means a calendar day.

History: 1954 ACS 58, p. 6, Eff. May 15, 1969; 1954 ACS 71, p. 10, Eff. Apr. 18, 1972; 1954 ACS 83, p. 5, Eff. Apr. 16, 1975.

PART 2. PREQUALIFICATION COMMITTEE

R 247.21 Membership and general duties.

Rule 21. (1) The commission shall appoint a prequalification committee composed of members of the department's staff. The committee shall classify and numerically rate bidders for the commission's construction work. The 3 major factors used in arriving at this rating are:

(a) The bidder's financial resources and related information.

(b) The bidder's experience, key personnel, and past performance on work of a similar nature.

(c) The bidder's construction equipment and facilities which it proposes to use on the work advertised for construction.

(2) The committee shall determine if the bidder is a suitable person to bid on the work. The committee shall keep minutes of its proceedings and shall notify bidders in writing of their classification and ratings.

History: 1954 ACS 58, p. 6, Eff. May 15, 1969; 1954 ACS 71, p. 11, Eff. Apr. 18, 1972.

R 247.22 Action by the committee.

Rule 22. (1) After approval by the commission, the committee shall notify a bidder in writing of his work classification and rating. The work classification and rating is accepted unless the committee is notified in writing to the contrary within 15 days after a bidder is officially notified.

(2) A bidder submitting a false statement will not be prequalified.

(3) A bidder who fails to comply with each provision of the rules or fails to complete each applicable item and schedule set forth in the prequalification forms is disqualified from bidding on department construction work, until all requirements are met.

(4) A bidder may at any time be given a provisional numerical rating while hearings or investigations are being conducted upon its submitted financial, experience, or equipment data. The provisional prequalification may be removed as a result of the findings of the committee, and be converted to:

(a) Disqualification upon findings adverse to the bidder.

(b) Continuous qualification upon findings favorable to the bidder.

(c) Continued provisional prequalification pending further investigation and findings by the committee.

(5) The committee may declare a prequalified bidder ineligible to bid at any time because of developments subsequent to prequalification which, in their opinion, would affect the responsibility of the bidder or his ability to perform the

contract work. The committee shall notify the bidder of any such action taken and give him the opportunity to present additional information at a hearing.

History: 1954 ACS 58, p. 7, Eff. May 15, 1969; 1954 ACS 71, p. 11, Eff. Apr. 18, 1972; 1954 ACS 83, p. 5, Eff. Apr. 16, 1975.

PART 3. INFORMATION FROM BIDDERS

R 247.31 Prequalification for bidding.

Rule 31. The rules governing financial statements and financial resources govern the numerical rating given to a bidder seeking prequalification whether it wishes to bid at a single bid letting or wishes annual prequalification.

History: 1954 ACS 58, p. 7, Eff. May 15, 1969; 1954 ACS 83, p. 5, Eff. Apr. 16, 1975.

R 247.32 Time for filing forms and statements.

Rule 32. (1) Prequalification forms shall be submitted at least 15 days before the formal date for opening bids for a project on which the bidder desires to bid if it is not previously prequalified.

(2) A financial statement as at the close of the bidder's fiscal year is required. Interim financial statements will not be accepted.

(3) For annual prequalification, a bidder shall submit prequalification forms and its financial statement within 3½ months after the close of the bidder's fiscal year.

(4) A request for an extension of time in which to file the prequalification questionnaire shall be applied for in writing on or before the due date of the questionnaire. If approved, the extension shall not exceed 60 days.

(5) A statement of current contracts and subcontracts shall be submitted as required under R 247.43(3) and (4).

History: 1954 ACS 58, p. 7, Eff. May 15, 1969; 1954 ACS 71, p. 11, Eff. Apr. 18, 1972; 1954 ACS 83, p. 5, Eff. Apr. 16, 1975.

R 247.33 Forms and effect.

Rule 33. (1) A bidder's financial resources shall be set forth in appropriate prequalification forms to be furnished by the commission.

(2) The operating statement will not affect the rating factors and methods set forth in these rules.

History: 1954 ACS 58, p. 7, Eff. May 15, 1969; 1954 ACS 83, p. 6, Eff. Apr. 16, 1975.

R 247.34 Certification and verification of statements.

Rule 34. (1) A bidder applying for prequalification for construction work for more than $200,000.00 shall submit with the financial statement portions of the prequalification forms a copy of its most recent audited financial statement as of the same date as on the prequalification forms reflecting the accounting theory and practice consistently employed by the bidder and prepared and certified to by an independent certified public accountant. If the certified public accountant cannot express an opinion as to the overall fairness of the financial statement, the bidder's prequalification for work will be limited to $200,000.00. If an opinion contains exceptions which are material in the judgment of the committee, the items may be disallowed for prequalification purposes. The certification of a certified public accountant employed on the payroll of the bidder or who is an officer of or a director of the firm seeking prequalification is not acceptable. The certification and subsequent submission of questionnaires or other certified documents to the prequalification committee for acceptance and approval by any certified public accountant who is related to or associated in any business enterprise with a member of the committee or the committee staff shall not be

accepted by the committee. If 60% or more of the total annual fees of a certified public accountant are derived from a single prequalifying bidder, his certification of the financial statement of that bidder for prequalification is not acceptable.

(2) Prequalification for work of $200,000.00 or less does not require certification of the financial statement; however, it is desirable. When the statement is not certified, or when a certification contains exceptions, the department may request clarification and verification of any information submitted, and if necessary, examine the bidder's records and accounts.

(3) Prequalification forms shall be sworn to before a notary public by an authorized officer, owner, or partner of the bidder.

History: 1954 ACS 58, p. 7, Eff. May 15, 1969; 1954 ACS 71, p. 11, Eff. Apr. 18, 1972; 1954 ACS 83, p. 6, Eff. Apr. 16, 1975.

R 247.35 Period covered by financial statements.

Rule 35. (1) An annual financial statement submitted by the bidder shall cover the same period as its established fiscal year. A financial statement found to be inconsistent with the bidder's fiscal year will result in the bidder being declared ineligible for prequalification.

(2) A newly formed organization requesting prequalification shall file its opening balance sheet for an initial prequalification rating. Thereafter, financial statements shall cover the same period as its established fiscal year.

History: 1954 ACS 58, p. 8, Eff. May 15, 1969; 1954 ACS 83, p. 6, Eff. Apr. 16, 1975.

R 247.36 Statement of accounting method and basis.

Rule 36. (1) Instructions contained in the prequalification forms shall require a statement of the accounting method and basis used by the bidder in keeping its books of account, which shall also be set forth in the notes to the financial statement or in the accountant's certificate, as follows:

(a) Percentage of completion method.

(b) Completed contract method.

(c) Any other accounting method used by the bidder in keeping its books of account shall require approval in writing by the committee, prior to submission of the bidder's annual report for prequalification.

(2) This rule takes into account the American institute of certified public accountants bulletin 45, dated October, 1955, entitled "Long Term Construction Type Contracts," with particular reference to the handling of the current asset account, "cost in excess of billings," and the current liability account, "billings in excess of cost." Income tax liabilities arising from earned contract income on a completed contract method or percentage of completion method shall be shown as current liabilities. Prior written approval shall be obtained before submission of prequalification financial statements where the books of account are kept by any other method. A written approval may be granted after hearing by the committee.

History: 1954 ACS 58, p. 8, Eff. May 15, 1969.

R 247.37 Supplemental statements.

Rule 37. (1) A bidder who maintains accounting records on a cash basis shall submit a supplemental statement of assets and liabilities on an accrual basis on the schedule provided in the prequalification forms.

(2) A bidder who maintains accounting records on an accrual basis but reports on a completed contract method has the option of submitting a supplemental statement on the schedule provided in the prequalification forms which adjusts the completed contract method, as per its audited annual financial statement, to the percentage of completion method of financial reporting for prequalification

rating. However, the bidder shall request approval of the committee to report for prequalification purposes using an accounting method other than the method used in maintaining its accounting records and shall receive written approval by the committee. Once having exercised the option, the bidder shall not change the method of reporting without written approval by the committee.

(3) The certified public accountant who prepared and certified the bidder's annual financial report shall prepare and sign the statements.

History: 1954 ACS 58, p. 8, Eff. May 15, 1969; 1954 ACS 83, p. 6, Eff. Apr. 16, 1975.

R 247.38 Evidence of equipment and experience.

Rule 38. At the time a bidder submits the prequalification forms and the required attachments, it shall submit therein evidence that:

(a) It owns or currently leases the major equipment items necessary to perform the work in the various classifications for which it is requesting prequalification. Only 1 additional classification shall be allowed by presenting, for approval by the committee, a copy of a bona fide purchase order or a lease agreement for a minimum of 1 year thereby indicating that it shall purchase or lease the major equipment necessary to perform work in the additional classification. The 1 additional work classification allowed shall be limited to a maximum numerical rating of 20.

(b) The experience of its key personnel makes it capable of performing work in the classifications for which it seeks approval.

History: 1954 ACS 58, p. 9, Eff. May 15, 1969; 1954 ACS 71, p. 12, Eff. Apr. 18, 1972; 1954 ACS 83, p. 7, Eff. Apr. 16, 1975.

R 247.39 Equal employment opportunity policies.

Rule 39. A bidder for highway contracts shall submit on the prequalification form, a statement that it has initiated and intends to continue an equal employment opportunity policy designed to eliminate any discrimination in employment because of race, color, religion, sex or national origin. If the committee finds that a prequalified bidder is not in compliance with the bidder's approved equal employment opportunity policy, the committee may reduce or suspend the bidder's numerical rating subject to the provisions of R 247.46 and part 7 of these rules.

History: 1954 ACS 58, p. 9, Eff. May 15, 1969; 1954 ACS 83, p. 7, Eff. Apr. 16, 1975.

R 247.40 Audits, investigations, and comparisons.

Rule 40. (1) The commission, through the committee, may designate auditors to perform audits on the books of accounts, or investigate any items on the prequalification forms submitted by a bidder. The bidder has the right to a hearing before the committee to explain any conflict arising from such audits or investigations prior to a determination of the bidder's prequalification rating. During the course of such proceedings, the bidder may be given a provisional numerical rating until the commission has made its findings and determinations based on the hearing.

(2) The committee may cause comparative reviews to be made at any time between the bidder's annual prequalification statements and any reports filed by the bidder with other departments of this state based upon the bidder's books of account. When significant variance appears between such reports and the prequalification statement, for which prior approval of the committee was not obtained in writing, the committee shall notify the bidder of a hearing at which the bidder shall show cause why its numerical rating and classifications should not be suspended.

History: 1954 ACS 58, p. 9, Eff. May 15, 1969; 1954 ACS 71, p. 12, Eff. Apr. 18, 1972.

PART 4. NUMERICAL RATINGS

R 247.41 Factors applied to assets.

Rule 41. The assets as determined from the financial statement shall be used in computing the numerical rating of a bidder by use of the sum of the following factors:

(a) Working capital either positive or negative multiplied by 9.

(b) Depreciation expense on construction and transportation equipment in the amount of 1½ times this allowable amount of depreciation, as recorded on the bidder's books of account and also shown in the space provided in the prequalification questionnaire for the same fiscal year as covered by the prequalification statement, multiplied by 9.

(c) Net construction and transportation equipment values multiplied by 4. This value is the bidder's equity in such equipment less the long term portion of the obligation on this equipment.

History: 1954 ACS 58, p. 9, Eff. May 15, 1969; 1954 ACS 71, p. 12, Eff. Apr. 18, 1972; 1954 ACS 83, p. 7, Eff. Apr. 16, 1975.

R 247.42 Rating table.

Rule 42. (1) The following table shall be used in designating the numerical rating and dollar value of work each bidder is eligible to bid:

Rating Table

Numerical Rating	Value of Work	Numerical Rating	Value of Work
½	$ 5,000	10	$ 100,000
1	10,000	20	200,000
2	20,000	30	300,000
3	30,000	40	400,000
4	40,000	50	500,000
5	50,000	60	600,000
6	60,000	70	700,000
7	70,000	80	800,000
8	80,000	90	900,000
9	90,000	100	1,000,000

For ratings above $1,000,000.00 use same system of numerical rating.

(2) For bidding purposes, a bidder will be given the numerical rating nearest the sum of its financial rating or available balance as computed under these rules.

History: 1954 ACS 58, p. 9, Eff. May 15, 1969; 1954 ACS 71, p. 12, Eff. Apr. 18, 1972; 1954 ACS 83, p. 7, Eff. Apr. 16, 1975.

R 247.43 Work allowed.

Rule 43. (1) The maximum amount of work in dollars allowed at any time shall be the amount of the numerical rating less the bidder's uncompleted work on hand.

(2) "Work on hand" means any uncompleted work to be performed by the bidder.

(3) A contractor desiring to bid on department projects shall file with the department a statement of current contracts and subcontracts reporting work on hand. This statement must be received in the department contract office not less than 6 days or more than 30 days before the date of the specific bid letting at which he wishes to bid. Bidders failing to submit this statement of current

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

contracts and subcontracts, in accordance with these rules, shall not be eligible to bid or be issued bidding documents.

(4) The value of any work not completed by the bidder shall be deducted from the bidder's numerical rating in determining his available balance. The value of uncompleted work shall be determined by subtracting from the contract awards the actual pay quantities of work completed up to the time of filing the statement of current contracts and subcontracts. Purchase orders for materials shall not be considered as subcontracts in computing a contractor's net prequalification numerical rating.

(5) Due to unusual delays in starting time on certain classifications of work on large package jobs and in recognition of the prequalification problem this causes in some cases, the committee, at the request of the bidder, may reduce the deduction from the bidder's maximum numerical rating not to exceed 50% for work on hand which cannot be begun in the year in which the prequalification rating applies as shown in the progress schedules. Such deduction shall not be given if the scheduled dates for performance of the work overlaps.

(6) A bidder that is a publicly held company whose stock is listed on either the New York or American stock exchange and who submits its annual certified financial statements for prequalification showing balance sheet current assets exceeding current liabilities of $250,000,000.00 or more shall not be required to submit the monthly statement of current contracts and subcontracts.

History: 1954 ACS 58, p. 10, Eff. May 15, 1969; 1954 ACS 71, p. 12, Eff. Apr. 18, 1972; 1954 ACS 83, p. 7, Eff. Apr. 16, 1975.

R 247.44 Subcontracts.

Rule 44. In establishing a bidder's net numerical rating for all work:

(a) A bidder shall be given credit for the value of all work sublet to other approved contractors.

(b) A bidder, performing as a subcontractor, shall have deductions made for the value of its uncompleted subcontract work.

History: 1954 ACS 58, p. 10, Eff. May 15, 1969; 1954 ACS 83, p. 8, Eff. Apr. 16, 1975.

R 247.45 Tentative numerical ratings.

Rule 45. (1) Initially a bidder will be given a tentative numerical rating factor of 100% on its allowed work classifications. If, in the opinion of the committee, a requested work classification warrants a lower tentative numerical rating factor because of lack of construction experience, organization and personnel, or equipment, this numerical rating will be determined in accordance with R 247.46.

(2) A numerical rating of 20 shall be the maximum granted a bidder for the work classifications it has not previously engaged in.

History: 1954 ACS 58, p. 11, Eff. May 15, 1969; 1954 ACS 71, p. 13, Eff. Apr. 18, 1972; 1954 ACS 83, p. 8, Eff. Apr. 16, 1975.

R 247.46 Changes in numerical ratings.

Rule 46. The numerical rating factor is subject to change, in accordance with these rules, and on completion of contracts with the department as determined by the committee from a summary of reports from field engineers and further investigations by the department of the following factors which may permit deductions up to 100%:

(a) Construction experience.
(b) Quality of work.
(c) Record as to unpaid accounts and claims.
(d) Organization and personnel.
(e) Equipment.

(f) Unfavorable working capital ratio.
(g) Record of contract completion.
(h) Record of compliance with safety specifications.
(i) Failure to submit required documents.
(j) Failure to comply with any applicable provisions of these rules.
(k) Common ownership and control.
(l) Record of compliance with equal employment opportunity program.
(m) Failure to execute a contract.
(n) Violation of any other contract provisions.

History: 1954 ACS 58, p. 11, Eff. May 15, 1969; 1954 ACS 71, p. 13, Eff. Apr. 18, 1972; 1954 ACS 83, p. 8, Eff. Apr. 16, 1975.

R 247.47 Scope of rules.

Rule 47. This set of rules defines those assets and liabilities, current and fixed, the accounting basis and contract method, depreciation allowance, net equipment values, and operating statement which will be specifically allowed by the committee in fixing the numerical rating of the bidder.

History: 1954 ACS 58, p. 11, Eff. May 15, 1969.

R 247.48 Current asset accounts.

Rule 48. The following current asset accounts will be used by the committee in determining the working capital position of a bidder:

(a) Cash on hand or in banks

(b) Readily marketable securities: Those securities that are verified by the certified public accountant and that represent investments of cash that are available for current operations, excluding investments in affiliated companies

(c) Receivables:

Trade accounts receivable—current:
Including earned estimates in process
Show division of trade receivables as on balance sheet in prequalification forms
Deduct: Reserve for uncollectible accounts
Notes receivable:
Notes due within 1 year
Exclude notes due from officers, employees and affiliated companies
Interest and dividends receivable:
Exclude interest or dividends due from affiliated companies, officers and employees

(d) Cost of uncompleted contracts in excess of related billings

(e) Inventories (at the lower of market or cost), construction materials and supplies on hand

(f) Other allowable current assets

Bid deposits (including bid deposits on joint bidding ventures)
Prepayments:
Insurance, interest, taxes, etc.
Cash surrender value of life insurance
Other assets realizable within 1 year (describe)

History: 1954 ACS 58, p. 11, Eff. May 15, 1969; 1954 ACS 71, p. 13, Eff. Apr. 18, 1972; 1954 ACS 83, p. 8, Eff. Apr. 16, 1975.

R 247.49 Current liability accounts.

Rule 49. The following current liability accounts, payable within 1 year, will be used by the committee in determining the working capital position of a bidder:

(a) Notes payable, banks

(b) Notes or contracts payable on construction equipment except notes due officers, employees and affiliated companies

(c) Accounts payable to subcontractors and trade accounts except accounts payable to officers, employees and affiliated companies

(d) Accrued expenses

Include wages, payroll taxes, fringe benefits, etc.

Exclude interest payable to officers, employees and affiliated companies

(e) Taxes

(i) Federal income tax liability

(Including taxes applicable to income arising from conversion to the percentage of completion method)

(ii) State of Michigan income taxes

(Including taxes applicable to income arising from conversion to the percentage of completion method)

(iii) All other taxes

(f) Pension and profit sharing contributions payable

(g) Billings on uncompleted contracts in excess of related costs

(h) Mortgages payable

(i) Other liabilities (describe)

(j) Long term unsecured liabilities

(i) An unsecured long-term liability shall be accompanied by a signed statement from the lending agency and the bidder indicating that a decrease in the long-term unsecured borrowing shall be reported to the committee immediately. In addition, the statement from the lender shall disclose the date of the loan, the termination date, a statement that the loan is free of conditions and whether it is interest or non-interest bearing.

(ii) An unsecured long-term liability, not accompanied by such a statement, shall be considered a current liability for prequalification rating purposes.

History: 1954 ACS 58, p. 12, Eff. May 15, 1969; 1954 ACS 71, p. 13, Eff. Apr. 18, 1972; 1954 ACS 83, p. 9, Eff. Apr. 16, 1975.

R 247.50 Equipment.

Rule 50. (1) For each classification for which a bidder requests prequalification, certain major items of equipment are necessary, and the ownership or lack of each affects his numerical rating. The list of equipment submitted by the prospective bidder may be checked by the committee and an evaluation determined.

(2) If a bidder owns a new construction unit, used unit or a rebuilt unit, the purchase price will be allowed in computing his equipment value and be credited as a fixed asset. For each year after purchase of the unit, the annual depreciation charge will be deducted from the purchase price in computing book value.

(3) At the written request of the bidder, the committee may consider the use of an appraised evaluation but only when this appraisal is prepared and certified by an acceptable appraisal firm. This appraisal shall be as of the close of the bidder's fiscal year and will be accepted for 1 year only. A bidder may compute the current value of his equipment for the purpose of prequalification using the straight line method of depreciation if the bidder submits a schedule of depreciation in detail and form as required by the commission together with the confidential experience questionnaire and financial statement.

(4) The value of the construction and transportation equipment for the purpose of computing the numerical rating will be the book value of the equipment as shown under fixed assets less any long term portion of notes or contracts payable on this equipment. This value is then multiplied in accordance with R 247.41.

History: 1954 ACS 58, p. 12, Eff. May 15, 1969; 1954 ACS 71, p. 14, Eff. Apr. 18, 1972; 1954 ACS 83, p. 9, Eff. Apr. 16, 1975.

PART 5. CLASSIFICATION OF BIDDERS

R 247.51 Work classifications.

Rule 51. (1) A bidder may be classified for the performance of work in 1 or more of the following work classifications:

B Concrete pavement
Construction of portland cement concrete base and surface course

Ba Concrete pavement patching and widening

C Bituminous paving
Construction of bituminous base and surface courses, as specified in the subheadings of this rule

Ca Nonskid surface treatment
Road mix

Cb Bituminous surface courses-dense graded
All plant mix

D Aggregate construction
The construction of all non-bituminous gravel and crushed rock base and surface courses and aggregate shoulders

Da Producing aggregate material only

E Grading and drainage structures
Construction of roadways, including drainage structures and other construction incidental thereto

Ea Grading and drainage structures
Truck haul operation
Construction of roadways including drainage structures and other construction incidental thereto

F Bridges

Fa Bridges and special structures
Construction of masonry, fabricated steel or timber bridges, large culverts and grade separations, special structures, and other construction incidental thereto

Fb Structural steel
Erection of structural steel and placing reinforcing steel on bridges and grade separations and other structures incidental thereto

Fc Structural steel and prestressed concrete
Furnishing, fabricating, shop painting, and delivery of structural steel, prestressed I-beams or girders for bridges and grade separations

Fd Pumphouses
Construction of pumphouses and other structures incidental thereto

G Building moving and demolition
Building moving, demolition and other construction incidental thereto

H Landscaping
Contracts involving ornamentation of roadsides and parks and other construction incidental thereto

I Sodding, seeding, guard rail, fences
Placing of sod, seeding, erection of guard posts, guard rail, fences, and other construction incidental thereto

J Miscellaneous structures
Construction of small culverts, curb, curb and gutters, sidewalks, sewers, tiling, catch basins, manholes, and other construction incidental thereto

K Watermains and open cut sewer 6 feet deep and over
Other construction incidental thereto

Ka Tunneling and jacking
Other construction incidental thereto
L Electrical construction
M Structure concrete repair
Preplaced aggregate material method
N Special contracts
Blasting, clearing and grubbing, pavement marking, painting, railroad track construction, signs, waterproofing, marine, others

(2) A contractor shall check on prequalification forms in the space provided the items for which it requests prequalification.

History: 1954 ACS 58, p. 12, Eff. May 15, 1969; 1954 ACS 71, p. 14, Eff. Apr. 18, 1972; 1954 ACS 83, p. 10, Eff. Apr. 16, 1975.

R 247.52 Original and additional work classifications.

Rule 52. A bidder will be classified for types of work on the basis of its experience at the time of filing the prequalification forms and financial statement. The commission may grant additional work classifications to a bidder based on written evidence submitted by the bidder that it is properly equipped and has had sufficient experience to warrant such additional work classifications.

History: 1954 ACS 58, p. 13, Eff. May 15, 1969; 1954 ACS 83, p. 11, Eff. Apr. 16, 1975.

R 247.53 Duplicate work classifications.

Rule 53. (1) When a person is a director, partner, or officer, or has a financial interest in 2 or more bidders, which, in the opinion of the committee, would have a detrimental effect on the department, the work classification for which these bidders may prequalify shall not be duplicated. A bidder shall submit on the prequalification form the names and addresses of persons acting under an assumed name, the names and addresses of all partners, the names and addresses of all officers and directors of a corporation, and the names and addresses of all persons owning more than 10% of any class of stock in any other prequalified or prequalifying corporation if that person is also an officer or a director of a prequalified or prequalifying corporation.

(2) When a bidder or a director, officer, or partner of a bidder has a financial interest in any other bidder who is prequalified or is seeking to prequalify, the name of the other bidder shall be given and the nature of the interest shall be described.

History: 1954 ACS 58, p. 13, Eff. May 15, 1969; 1954 ACS 71, p. 15, Eff. Apr. 18, 1972; 1954 ACS 83, p. 11, Eff. Apr. 16, 1975.

PART 6. BIDDING

R 247.61 Bidding procedure.

Rule 61. (1) In order to bid on any project advertised by the department, the bidder shall have prequalification in the required work classification and a net numerical rating equal to or greater than the required rating stated in the advertisement for that project. Ratings in the several work classifications are not cumulative or transferable.

(2) A prequalified bidder who has sufficient unencumbered prequalification and has met the requirements of R 247.43 shall be issued plans and proposals on any project advertised until 5:00 p.m. on the day preceding the formal opening of bids. A charge shall be made for plans or proposals furnished for each project.

(3) If a bidder is low on 2 or more projects, the total of which exceeds its numerical rating, the department shall select the project or projects for award to the bidder which will give the best financial advantage to the department after

approval by the commission and the state administrative board. The department may give credit for the value of the named designated subcontractors or named specialty subcontractors in determining the eligibility of the bidder for award of the projects in question.

(4) A contract will not be awarded to a bidder who does not present evidence at the time of bidding that he will subcontract to a prequalified contractor, those parts of the contract dealing with work classifications in which he is not prequalified, subject to the limitation for subcontracting as provided in the department's standard specifications for highway construction.

History: 1954 ACS 58, p. 14, Eff. May 15, 1969; 1954 ACS 83, p. 11, Eff. Apr. 16, 1975.

R 247.62 Joint bidding.

Rule 62. (1) Two but not more than 3 bidders may bid jointly on a project without declaring their intention to do so before the opening of bids, if each bidder has a net numerical rating equal to or greater than the total required for the project and has met the requirements of R 247.43.

(2) A bidder with a net numerical rating equal to or greater than the total required for a project may bid jointly with not more than 2 bidders who have less than the total rating required but equal to or more than an equal proportion as determined by the number of joint bidders. The bidder with less than the total required shall declare the joint bidding arrangements before obtaining a bidding proposal. Bidders under this bidding arrangement who have met the requirements of R 247.43, shall request approval of the joint venture combination before 5:00 p.m. of the day preceding the formal opening of bids.

(3) A bidder with a net numerical rating less than the total required but with equal to or more prequalification than the direct proportion as determined by the number of joint bidders, not more than 3, may bid jointly if the intention is declared when the request is made for the bidding proposal. A bidder may obtain plans and a courtesy proposal and later may obtain a bidding proposal for joint bidding when the bidders declare their intention to bid jointly. Bidders under this bidding arrangement who have met the requirements of R 247.43, shall request approval of the joint venture combination before 5:00 p.m. of the day preceding the formal opening of bids.

(4) Two but not more than 3 bidders who have met the requirements of R 247.43 may bid jointly on a project and each be responsible for unequal shares of the work if, prior to the close of business 4 days before the opening of bids on the project, they declare in writing the percentage and classification of work they propose to do.

(5) All joint bidders shall be prequalified in the classification of work they intend to perform.

History: 1954 ACS 58, p. 14, Eff. May 15, 1969; 1954 ACS 71, p. 15, Eff. Apr. 18, 1972; 1954 ACS 83, p. 11, Eff. Apr. 16, 1975.

PART 7. HEARINGS

R 247.71 Requests and time of committee hearings.

Rule 71. (1) A bidder who wishes to contest the numerical rating or classification given it by the committee, or who wishes to contest the committee's decision not to prequalify it, has the right to a hearing before the committee if a written request for a hearing is filed with the committee within 15 days after receipt of the classification and numerical rating, or within 15 days after receipt of notice of not being prequalified. A hearing shall be held within 10 days after the written request is received by the committee.

(2) When the committee determines that a bidder who has previously been given a satisfactory numerical rating and work classification should be disqualified or its numerical rating or work classification changed for any reason, the bidder shall have a hearing before the committee if a written request for a hearing is filed with the committee within 15 days after receipt of the notice of intent to disqualify or to change its numerical rating or its work classifications or both. A hearing shall be held within 10 days after the written request is received by the committee. Upon failure to request a hearing, the determination of the committee becomes final.

History: 1954 ACS 58, p. 14, Eff. May 15, 1969; 1954 ACS 71, p. 16, Eff. Apr. 18, 1972.

R 247.72 Representation and appearances.

Rule 72. A bidder may represent itself at a hearing or be represented by legal counsel. The department may be represented by the attorney general.

History: 1954 ACS 58, p. 15, Eff. May 15, 1969.

R 247.73 Opening statements, evidence, and cross-examination.

Rule 73. (1) The chairman of the committee shall open the hearing with a concise statement of its nature and purpose. The committee shall follow the rules of evidence applicable to circuit court proceedings. However, in addition, the committee may admit and give probative effect to any evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs.

(2) Evidence, including documents and records in possession of the committee of which it desires to avail itself, shall be offered and made a part of the record, and no other factual information or evidence shall be considered in determination of the case. Documentary evidence may be received in the form of copies or excerpts, or by incorporation by reference.

(3) The bidder and the committee have the right of cross-examination, which includes the right to cross-examine the author of any document prepared for the use of the committee, and to offer it in evidence; and have the right to submit rebuttal evidence.

History: 1954 ACS 58, p. 15, Eff. May 15, 1969.

R 247.74 Judicial notice.

Rule 74. The committee may take judicial notice of facts, and take notice of general technical or scientific facts within the specialized knowledge of its members. The bidder shall be notified 5 days before the hearing of material so noticed, and shall have an opportunity to rebut the facts so noticed. The committee may use the experience, technical competence, and specialized knowledge of its members in the evaluation of the evidence presented to the committee.

History: 1954 ACS 58, p. 15, Eff. May 15, 1969.

R 247.75 Exhibits.

Rule 75. (1) Evidence to be presented, consisting of matters so complex as to make the presentation difficult to follow, may be presented in exhibit form, supplemented and explained, but not duplicated by oral testimony. Documentary exhibits shall be typed on 1 side only of pages not exceeding a 8½ inches by 11 inches, or multiples thereof, with a sufficient margin for binding, preferably 1½ inches to be left blank on left side of each page. An exhibit in excess of 8½ inches wide shall be folded to be not more than 8½ inches by 11 inches if practicable. It is

desirable that an exhibit of 2 or more pages be stapled together and notation made at the top of the first page as to the number of pages contained in the exhibit. An exhibit shall indicate the docket number at the top of the first page and provide space for the name of the witness and the number and date of the exhibit. Exhibits shall be numbered in numerical sequence regardless of the identity of the party offering them. The number of the exhibit shall be prefixed with a letter indicating the identity of the party offering it.

(2) A party introducing documentary exhibits shall furnish 6 copies to the committee.

(3) Additional documentary evidence may be submitted subsequent to the closing of the hearing upon stipulation of the parties.

History: 1954 ACS 58, p. 15, Eff. May 15, 1969.

R 247.76 Arguments and decisions.

Rule 76. (1) After all of the evidence has been entered into the record, the bidder and the department may summarize their arguments and the hearing shall be closed.

(2) Within 30 days after the hearing, the committee shall notify the bidder, in writing, of the hearing decision and send to the bidder a copy of the hearing transcript if the bidder has been given an unsatisfactory classification and numerical rating.

History: 1954 ACS 58, p. 15, Eff. May 15, 1969; 1954 ACS 71, p. 16, Eff. Apr. 18, 1972.

R 247.77 Appeals.

Rule 77. (1) Any decision of the committee pursuant to a hearing may be appealed to the commission if written notice of appeal is filed by the bidder with the commission within 10 days after the committee renders its hearing decision. On appeal to the commission, a brief which is filed by the bidder or the department shall be filed within 7 days of filing the notice of appeal of the committee's decision.

(2) In rendering its decision, the commission shall take into consideration the entire committee hearing record, together with any briefs which may have been filed by the bidder and the department. The commission shall inform the bidder and the department of its decision on the appeal by sending a copy of its written decision within 30 days after the date on which briefs were or could have been filed.

(3) If the commission affirms the committee's decision, the bidder may seek legal remedies in the appropriate state courts as provided by statutes and court rules.

History: 1954 ACS 58, p. 15, Eff. May 15, 1969; 1954 ACS 71, p. 16, Eff. Apr. 18, 1972; 1954 ACS 83, p. 12, Eff. Apr. 16, 1975.

JUNK YARDS ADJACENT TO HIGHWAYS

(By authority conferred on the department of state highways by section 7 of Act No. 219 of the Public Acts of 1966, being §252.207 of the Michigan Compiled Laws)

R 247.101 Definitions.

Rule 1. (1) The words and phrases defined in the act have the same meaning when used in these rules.

(2) "Act" means Act No. 219 of the Public Acts of 1966, being §§252.201 to 252.211 of the Michigan Compiled Laws.

(3) "Department" means the department of state highways.

(4) "Industrial activity" means an activity generally recognized as an industrial activity by the zoning authorities in this state, except that none of the following shall be considered an industrial activity:

(a) Outdoor advertising structures.

(b) Agricultural, forestry, ranching, grazing, farming and related activities, including, but not limited to, wayside fresh produce stands.

(c) Activities normally and regularly in operation less than 3 months of the year.

(d) Transient or temporary activities.

(e) Activities not visible from the traffic lanes of the main traveled way.

(f) Activities more than 300 feet from the nearest edge of the main traveled way.

(g) Activities conducted in a building principally used as a residence.

(h) Railroad tracks, minor sidings and passenger depots.

(i) Junk yards, as defined in 23 U.S.C. §136.

(5) "Unzoned industrial area" means land occupied by a regularly used building, parking lot, storage area or processing area of an industrial activity, and land within 1,000 feet of the nearest edge of the right-of-way which meets all of the following:

(a) It is located on the same side of the highway as the principal part of the activity.

(b) It is not predominantly used for residential or commercial purposes.

(c) It is not zoned by state or local law, rule or ordinance.

History: 1954 ACS 60, p. 7, Eff. Nov. 14, 1969.

R 247.102 Inventory of junk yards and review.

Rule 2. (1) An inventory of existing junk yards within 1,000 feet of the nearest edge of the right-of-way of all interstate and primary highways will be established by the department. The department may make additions to or exclusions from the inventory on receipt of satisfactory information substantiating the desirability of such changes.

(2) Junk yard sites appearing on the inventory that are not in compliance with the act will be considered for screening, relocation of junk material, or removal after a determination has been made as to the status of each site with regard to junk yard control factors established by law and rules.

(3) Junk yard sites along highways determined in the future to be interstate or primary highways, and not now so designated, will be within the controls of the act. Such junk yard sites will be considered for screening, relocation, or removal if they meet all the conditions set forth in R 247.103.

History: 1954 ACS 60, p. 7, Eff. Nov. 14, 1969.

R 247.103 Junk yards subject to control.

Rule 3. Junk yard sites meeting all the following conditions are subject to control:

(a) Those within 1,000 feet from the nearest edge of the right-of-way of an interstate or primary highway.

(b) Those not located within areas zoned industrial by law.

(c) Those not located within areas determined to be unzoned industrial areas.

(d) Those which are visible from the main traveled way of an interstate or primary highway.

(e) Those which are not adequately screened as determined by the department.

(f) Those containing 10 or more wrecked or partially dismantled automobiles or other junk materials.

History: 1954 ACS 60, p. 7, Eff. Nov. 14, 1969.

R 247.104 Review and determination of type of control.

Rule 4. A junk yard site subject to control will be reviewed by the department to determine:

(a) The physical possibility of adequately screening the site from visibility from the main traveled way of the highway.

(b) If the site is screenable, the most practical and economic type of screening and the location of such screening. Sites to be screened will be so determined after evaluation of the following:

(i) Cost of screening.

(ii) Cost of removal of junk to screened location, if possible.

(iii) Cost of removal or relocation of junk yard.

(c) A site not possible or economically feasible to screen will be programmed for relocation or removal with just compensation to the owners.

History: 1954 ACS 60, p. 7, Eff. Nov. 14, 1969.

R 247.105 Screening.

Rule 5. (1) Appropriate screening materials and location of screening installations will be chosen by the department. Screening materials may consist of landscape plantings, screen fences, earth mounds, or other appropriate means. In selecting screening materials, consideration will be given to existing conditions at each site so an effective and attractive screen installation can be provided for. Where adequate existing screening occurs on a portion of the site to be screened, such existing features will be incorporated in the overall screening proposed for the site.

(2) The location of screening installations will be selected with consideration given to the following factors:

(a) A location that effectively screens existing stored junk.

(b) A location that allows the use of the minimum practical amount of screening both as to length and height of installation.

(c) A location which does not adversely affect safe operation of the highway.

(d) A location that considers the operating interests of the junk yard owner consistent with screening requirements.

(e) Combination business interests, where existing, will be recognized. Screen locations may provide for unscreened business areas off the highway right-of-way. Such business areas may not be used for storage of existing or future junk.

(f) Locations near property lines will be used insofar as such locations do not require substantial additional screening.

(g) Where feasible, considering practical and economic aspects, screening will be placed on existing highway right-of-way.

(h) Where necessary, screening will be located off the highway right-of-way. Highway beautification easements will be secured for the use of land outside the highway right-of-way required to construct and maintain screening installations. Junk materials located on areas required for screening installations will be moved prior to construction of the installation.

History: 1954 ACS 60, p. 8, Eff. Nov. 14, 1969.

R 247.106 Expansion of existing, and installation of new, junk yards.

Rule 6. (1) Expansion of junk yard sites subject to the control of the act shall provide for adequate screening of all expanded storage areas at the expense of the

owner or operator. Screening shall be of a nature compatible with the intent of the act to enhance the appearance of lands bordering public highways. Screening of such expanded operations is subject to the control of the department. A permit procedure will be maintained by the department to regulate expansion of existing junk yards.

(2) A new junk yard installed in an area subject to control by the act and as set forth in R 247.103 shall provide for adequate screening at the expense of the owner or operator. Screening shall be of a nature compatible with the intent of the act to enhance the appearance of lands bordering public highways. A permit procedure will be maintained by the department to regulate new junk yards adjacent to interstate and primary highways.

History: 1954 ACS 60, p. 8, Eff. Nov. 14, 1969.

R 247.109 Enforcement of rules.

Rule 9. If a junk yard is maintained, expanded, or established not in compliance with the act, rules, and permit procedures of the department, the noncompliance will be brought to the attention of the owner by the department. A reasonable time will be allowed for such compliance. Failure to comply with the act, rules, and permit procedures of the department will occasion the department to apply to the court of proper jurisdiction for an injunction to compel compliance therewith.

History: 1954 ACS 60, p. 8, Eff. Nov. 14, 1969.

STATE TRANSPORTATION COMMISSION

CRITICAL BRIDGE PROGRAM

(By authority conferred on the department of transportation by section 11b of Act No. 51 of the Public Acts of 1951, as amended, being §247.661b of the Michigan Compiled Laws)

R 247.151 Definitions.

Rule 1. As used in these rules:

(a) "Advisory committee" means a 9-member committee appointed by the director of the department, comprised of 3 members representing the counties, 3 members representing the department, 1 of whom shall act as chairman, and 3 members representing the cities and villages.

(b) "Bridge" means a structure with a total clear span of more than 20 feet measured along the centerline of the roadway over a stream, watercourse, or opening.

(c) "Commission" means the transportation commission.

(d) "County" means a board of county road commissioners.

(e) "Critical bridge" means a structure under jurisdiction of a highway authority, which is hazardous or inadequate in relation to the highway, road, or street it serves.

(f) "Department" means the department of transportation.

(g) "Highway authority" means the department, a county road commission, a city, or a village.

History: 1954 ACS 79, p. 5, Eff. May 22, 1974; 1954 ACS 100, p. 67, Eff. Aug. 28, 1979.

R 247.152 Procedure; annual listing.

Rule 2. (1) The department, in cooperation with the advisory committee, shall develop such procedural guides and processes as are required to administer the critical bridge program.

(2) Annually the department, in cooperation with the advisory committee, shall identify and list in order the most critical bridges in the state by analyzing information obtained from all highway authorities in the state.

History: 1954 ACS 79, p. 5, Eff. May 22, 1974.

R 247.153 Eligibility and priority.

Rule 3. (1) In the preparation of a list of critical bridges, the department shall take into consideration the following factors:

(a) Present and future importance of the critical bridge to the highway, road, or street network of which it is a part, and importance of the highway, road, or street network to the area.

(b) Inadequate capacity calculated in accordance with methods prescribed by the department.

(c) Financial obligation and capacity of the highway authority in relation to its highway system and needs.

(2) In the determination of priority for funding, the department shall give high priority to a bridge which is an important transportation link in the area served, which has an inadequate capacity, and where the highway authority is severely limited in ability to improve the bridge through use of other funds obtained under Act No. 51 of the Public Acts of 1951, as amended, being §247.651 et seq. of the Michigan Compiled Laws, or federal aid highway funds.

History: 1954 ACS 79, p. 5, Eff. May 22, 1974; 1954 ACS 100, p. 68, Eff. Aug. 28, 1979.

R 247.154 Allocation of funds.

Rule 4. The department annually shall establish a program to allocate funds for critical bridges under the following conditions:

(a) Not more than 38.4% of the funds in any 5-year period shall be used for critical bridges on the state trunk line system.

(b) Prior to the allocation of funds, the department shall require an estimate of the cost of improving the critical bridge, including engineering, for which funds are to be used, along with details of funding the complete work.

(c) Funds allocated cannot be used for design costs, right-of-way costs, or approach construction costs except for minor approach adjustments, unless otherwise determined by the advisory committee.

(d) Allocated funds shall include an allowance up to 15% of the total contract cost for construction engineering.

History: 1954 ACS 79, p. 5, Eff. May 22, 1974; 1954 ACS 100, p. 68, Eff. Aug. 28, 1979.

R 247.155 Disbursement of funds and performance of construction engineering.

Rule 5. (1) The department shall disburse funds appropriated from the Michigan transportation fund for the critical bridge program under the following conditions:

(a) The highway authority has secured department approval of plans and costs for the proposed work. These plans shall have been prepared by a qualified engineer registered to practice professional engineering in Michigan.

(b) Funds disbursed in any 1 year may be for all or part of the eligible project costs.

(c) The allocated funds along with other financial assistance available to the responsible highway authority are adequate to complete the required critical bridge work.

(2) The department shall award and administer the construction contract unless otherwise determined by the department.

(3) The construction engineering may be done by the engineering staff of the highway authority, by the engineer consultant retained by the highway authority, or by the department, as agreed upon by the highway authority and the department.

History: 1954 ACS 79, p. 6, Eff. May 22, 1974; 1954 ACS 100, p. 68, Eff. Aug. 28, 1979.

R 247.156 Reallocation of funds.

Rule 6. Funds allocated for work which cannot be placed under contract within 6 months of the allocation date due to delays in plan preparation or to delays in securing such supplemental funding or right-of-way as might be required may be reallocated to other work. The deletion of a project from a program by reallocation of funds shall not impair the eligibility of that project for funds the following year.

History: 1954 ACS 79, p. 6, Eff. May 22, 1974.

TRACTION DEVICES

(By authority conferred upon the department by section 710 of Act No. 300 of the Public Acts of 1949, as amended, being §257.710 of the Michigan Compiled Laws)

R 247.171 Definitions.

Rule 1. (1) "Reference standard studded tire" means size E 78-14, 4-ply, bias construction tubeless snow tire containing 90 studs (kennametal class III (16-3-585)) fixed in 6 rows around the tire with 15 studs in each row. This reference tire was chosen because it was that used in the wear tests reported in laboratory evaluation of pavement damage caused by studded tires, salt, and abrasive sand, final report, American oil company, project 6128, May 1971.

(2) "Bias construction tire" means a pneumatic tire in which the ply cords extending to the beads are laid at alternate angles substantially less than 90 degrees to the centerline of the tread.

(3) "Northern Lower Peninsula" means all counties whose southern boundaries are as far or farther north than the southern boundary of Missaukee county.

History: 1954 ACS 83, p. 12, Eff. May 7, 1975.

R 247.172 Applicability.

Rule 2. (1) These rules apply to all public streets and highways in this state.

(2) These rules do not prevent the application of any other statute or local ordinance which is more restrictive than these rules. Traction devices shall not be used pursuant to these rules unless there is compliance with other laws and ordinances.

History: 1954 ACS 83, p. 12, Eff. May 7, 1975.

R 247.173 Restrictions on use.

Rule 3. After March 31, 1975, a vehicle or special mobile equipment shall not be operated on the public streets or highways of this state on metal or plastic track or on tires which are equipped with metal that comes in contact with the surface of the road or which have a partial contact of metal or plastic with the surface of the road, except as provided in section 710 of Act No. 300 of the Public Acts of 1949, as amended, being §257.710 of the Michigan Compiled Laws, or unless the device meets the requirements set forth in these rules.

History: 1954 ACS 83, p. 12, Eff. May 7, 1975.

R 247.174 Use of traction devices.

Rule 4. Studs or other traction devices shall not be used unless they wear either concrete or asphalt pavements, typical of those in this state, at a rate not to exceed 25% of the reference standard studded tire.

History: 1954 ACS 83, p. 13, Eff. May 7, 1975.

R 247.175 Seasonal restrictions.

Rule 5. Traction devices permitted under these rules may be used only between November 15 and April 1 of the succeeding year except in the Upper Peninsula and the northern Lower Peninsula, where, because of extreme winter snow and ice conditions, they may be used between October 1 and May 1 of the succeeding year.

History: 1954 ACS 83, p. 13, Eff. May 7, 1975.

DRIVEWAYS, BANNERS, AND PARADES ON AND OVER HIGHWAYS

(By authority conferred on the department of state highways by section 5 of Act No. 200 of the Public Acts of 1969, being §247.325 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 247.201 Definitions; B, C.

Rule 1. (1) The terms defined in Act No. 200 of the Public Acts of 1969 have the same meaning when used in these rules, except that the term "highway" means only a state trunk line highway.

(2) "Banner" means an arrangement of words, lettering or symbols or a decorative device, including a Christmas decoration, suspended over any portion of a highway or adjacent to a travel lane.

(3) "Buffer area" means a portion of a highway right-of-way adjacent to a pavement that serves as a physical barrier between highway traffic and activity on private property.

(4) "Circle driveway" means a private driveway that enters and leaves private property at 2 points within the same frontage.

(5) "Clear vision area" means land acquired or used by the agency having jurisdiction over a highway, for the purpose of maintaining unobstructed vision.

(6) "Commercial driveway" means a driveway serving a commercial establishment, industry, governmental or educational institution, hospital, church, apartment building, or other large traffic generator.

(7) "Commission" means the Michigan state highway commission.

History: 1954 ACS 64, p. 5, Eff. Nov. 6, 1970.

R 247.202 Definitions; D.

Rule 2. (1) "Department" means the Michigan department of state highways.

(2) "Directional driveway" means a driveway designed so that traffic leaving the highway is separated from traffic entering the highway with some turning movements prohibited.

(3) "Divided driveway" means a driveway designed so that traffic leaving the highway is separated from traffic entering the highway.

(4) "Dual service driveways" means 2 adjacent commercial driveways designed to facilitate traffic movement from a highway to a single private property

by use of either driveway and a return to the highway by use of the other driveway.

History: 1954 ACS 64, p. 6, Eff. Nov. 6, 1970.

R 247.204 Definitions; F to L.

Rule 4. (1) "Field entrance" means a driveway serving a farmyard, cultivated or uncultivated field, timberland, or undeveloped land not used for industrial, commercial or residential purposes.

(2) "Frontage" means a private property line that abuts a highway right-of-way.

(3) "Limited access" means a highway right-of-way in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the highway except at designated access points, determined by the public authority having jurisdiction over the highway.

History: 1954 ACS 64, p. 6, Eff. Nov. 6, 1970.

R 247.206 Definitions; R to U.

Rule 6. (1) "Residential driveway" means a driveway serving a private home.

(2) "Resolution" means a resolution passed by a local governing body authorizing a specific official to apply to the department for an individual permit, or for all permits in a blanket resolution, wherein the governing body agrees to idemnify and save harmless all persons from claims of every kind arising out of operations authorized by such permit as is issued.

(3) "Right-of-way line" means a boundary between private property and public land under legal control of the agency having jurisdiction over the highway.

(4) "Utility structure driveway" means a driveway serving a utility structure, such as a pumphouse or substation, which operates automatically and requires only occasional access.

History: 1954 ACS 64, p. 6, Eff. Nov. 6, 1970.

R 247.211 Applicability.

Rule 11. (1) These rules apply to all highways under the jurisdiction of the commission.

(2) Nothing in these rules shall be construed to prevent the application of the provisions of any other statute of this state or any local ordinance which is more restrictive than these rules nor to preclude any city or village from requiring city or village permits with respect to any street or highway within its corporate limits. No permit shall be issued pursuant to these rules unless there is compliance with other provisions of law and ordinances.

History: 1954 ACS 64, p. 6, Eff. Nov. 6, 1970.

R 247.213 Permits; necessity.

Rule 13. A person, organization, or governmental unit shall not undertake or conduct any of the following activities on or along a highway unless a permit has been obtained from the department:

(a) Construct, reconstruct, relocate, or surface a driveway or related construction.

(b) Operate, use, or maintain a new driveway.

(c) Erect or suspend a banner, decoration, or similar object.

(d) Close a section of a highway to normal traffic for the purpose of staging a parade, celebration, festival, or similar activity.

History: 1954 ACS 64, p. 6, Eff. Nov. 6, 1970.

R 247.214 Processing of permits.

Rule 14. (1) A permit shall not be issued for a driveway, banner, parade, celebration, or festival along or over a limited access highway.

(2) The department may authorize local governmental agencies to review or process applications and to perform necessary site inspections.

(3) Construction of a new driveway or reconstruction of a driveway connecting to a highway shall be allowed only after a permit has been obtained from the department. The construction or reconstruction of a driveway shall be as described in the permit and plans or drawings attached, unless the department authorizes a change.

(4) Future changes in the use of property abutting a highway, such as a change from residential to commercial use or a change in the type of commercial operation, may require changes in the number, design, or location of driveways constructed after the effective date of these rules. The property owner then shall obtain a new permit from the department.

(5) In the case of commercial, industrial, or other developments where driveway access or related activities may be complicated or where the available parking area on private property is limited, the department may be contacted in the initial site planning stages before application for a permit. An approved preliminary site plan satisfactory to all parties then may be established early in the development process.

History: 1954 ACS 64, p. 7, Eff. Nov. 6, 1970.

R 247.215 Enforcement.

Rule 15. (1) If a person fails to comply with any provisions of a permit or fails to obtain an appropriate permit, the department may halt his activity for which a permit is required until adequate corrections have been made. Costs incurred by the department in correcting failure to comply with the terms and conditions of a permit, failure to obtain a permit, or defective workmanship or materials shall be borne by the applicant or person undertaking the activity.

(2) The applicant or his representative shall perform all work and pay all costs in connection with permitted activities.

History: 1954 ACS 64, p. 7, Eff. Nov. 6, 1970.

PART 2. DRIVEWAY PERMITS

R 247.221 Applications.

Rule 21. (1) An application for a driveway permit shall be accepted from a property owner, governmental agency, lessee, or its legally authorized agent.

(2) An application for a driveway permit shall be submitted in the manner prescribed on forms supplied by the department. The application shall contain or be accompanied by a certification of either legal ownership or agency authorization. The application shall be accompanied by plans or drawings containing the information required by R 247.222 and shall include the applicable design features required by part 3.

History: 1954 ACS 64, p. 7, Eff. Nov. 6, 1970.

R 247.222 Plans or drawings.

Rule 22. Copies of a driveway permit application shall be accompanied by plans or drawings clearly indicating the following features of the site and abutting highway as the department may require:

(a) Existing highway pavement, ditches, right-of-way and property lines, highway appurtenances, utilities, medians, if existing, and dimensions thereof.

(b) For commercial driveways, buildings, both proposed and existing, and appurtenances and dimensions thereof, including a notation as to present use of the buildings and details of internal traffic circulation, parking, and traffic signs.

(c) Design features in accordance with part 3 of driveways, tapers and right-turn lanes to be constructed, reconstructed, relocated, surfaced, resurfaced, operated, used, or maintained, including the following dimensions and features:

(i) Widths of driveways.

(ii) Radii of driveway returns and other points of curvature.

(iii) Driveway grades or profile view of drive, when necessary.

(iv) Angle of the driveway relative to the highway centerline.

(v) Dimensions of traffic islands adjacent to the highway.

(vi) Driveway surface material and traffic island surface material.

(d) Distance from each existing and proposed driveway on the site to:

(i) Nearest intersecting street, road, or highway.

(ii) Nearest driveway on adjacent properties.

(iii) Street, road, highway, or driveways opposite the site.

(iv) Property lines and property lines extended to the highway centerline.

(v) Buildings and business appurtenances on the site.

(e) Features in addition to driveways to be constructed within the highway right-of-way, including traffic control islands, curb, sidewalks, and authorized traffic signs.

(f) Existing and proposed drainage structures and controls to include:

(i) Size of drive culvert.

(ii) Type of culvert.

(iii) Type of culvert end treatment.

(iv) Grade of culvert.

(v) Direction of surface water flow on or from adjacent property.

(g) North directional arrow.

History: 1954 ACS 64, p. 7, Eff. Nov. 6, 1970.

R 247.223 Specifications and design standards.

Rule 23. The design, location, construction, and operation of driveways and related construction within the highway right-of-way shall meet requirements of the current department standard specifications for highway construction and the design standards required by part 3 of these rules. A deviation therefrom shall be consistent with current and projected traffic volumes on the highway and on the driveway, adjacent development, equivalence of materials and methods, and safety requirements of persons using the driveways and highway. The deviation shall be authorized only by the department.

History: 1954 ACS 64, p. 8, Eff. Nov. 6, 1970.

R 247.224 Conditions and limitations in permits.

Rule 24. A driveway permit is subject to the following conditions and limitations:

(a) The department reserves the right of inspection by its authorized representatives of a driveway constructed within a highway right-of-way. The permittee shall reimburse the department for the services of an on-the-job inspection which may be required for major commercial developments or other special cases.

(b) The department or its representative may require that it be given at least 5 days' notice before commencement of an operation covered by the permit.

(c) The permittee shall have a copy of the permit available at the site during construction.

(d) The permittee shall take, provide, and maintain necessary precautions to prevent injury or damage to persons and property from operations covered by the permit, and shall use warning signs and safety devices which are in accordance with the current Michigan manual of uniform traffic control devices.

(e) The permittee shall surrender the permit and all rights thereunder when notified to do so by the department because of its need for the area covered by the permit or because of default of any provision of the permit. The department may grant the person a new permit.

(f) Altered natural drainage shall not be permitted to flow onto the highway right-of-way unless special provisions are approved by the department.

(g) The permit holder shall remove all surplus materials to an area outside of the highway right-of-way, unless the permit provides for disposal at locations within the highway right-of-way. Excavated material shall be stockpiled so it does not adversely affect the safety of traffic.

(h) Work authorized by the permit shall be completed to the satisfaction of the department on or before the completion date specified in the permit. A request for an extension of time for completion of this work shall include reasons for the request. Approval of extension of time shall be based on extenuating circumstances and absence of neglect by the permittee.

(i) The property owner or his agent shall maintain the driveways set forth in the permit.

History: 1954 ACS 64, p. 8, Eff. Nov. 6, 1970.

R 247.226 Indemnity and insurance.

Rule 26. A permittee shall save harmless the department against any claim for damages arising from his negligence or his contractor's negligence in operations covered by the permit. Certificates of insurance may be required in case of a commercial driveway to insure claims for damage or personal injury. General liability insurance carried by an applicant or contractor is acceptable.

History: 1954 ACS 64, p. 8, Eff. Nov. 6, 1970.

R 247.227 Performance bonds.

Rule 27. (1) A performance bond shall be required by a permit which is issued for construction or reconstruction of a commercial driveway to protect the department against the cost of completing construction or correcting deficiencies. A reasonable amount of coverage of the bond shall be determined by the department. A bond shall not be required from a governmental agency.

(2) Acceptable types of bonds may be a certified check or money order payable to the department or a surety bond executed on forms obtainable from the department.

History: 1954 ACS 64, p. 9, Eff. Nov. 6, 1970.

PART 3. DRIVEWAY DESIGN STANDARDS

R 247.231 Driveway locations.

Rule 31. (1) A driveway shall be so located that no undue interference with the free movement of highway traffic will result. A driveway shall be so located also to provide the most favorable vision and grade conditions possible for motorists

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

using the highway and the driveway consistent with development of the site considering proper traffic operations and safety.

(2) A driveway, including the radii but not including the right-turn lanes and tapers, shall be located entirely within the area between the permittee's property lines extended to the centerline of the highway. A driveway radius may extend outside of that area only if the adjacent property owner certifies in writing that he will permit such extension.

(3) If the driveway is to be located adjacent to a highway intersection, the following shall apply:

(a) If the intersecting highway is curbed, the point of curvature of the driveway radius shall be at least 20 feet from the point of curvature of the intersecting highway radius.

(b) If the intersecting highway is uncurbed, the point of curvature of the driveway radius shall be at least 50 feet from the edge of pavement of the intersecting highway.

(c) When an existing highway or driveway is reconstructed or the requirements in subdivisons (a) or (b) cannot be applied, the driveway radius shall not encroach upon the intersection radius unless such encroachment is physically unavoidable.

(4) A driveway shall not be constructed along the acceleration or deceleration lanes and tapers connecting to interchange ramp terminals, unless no other reasonable access point is available.

History: 1954 ACS 64, p. 9, Eff. Nov. 6, 1970.

R 247.232 Clear vision and buffer areas.

Rule 32. (1) At an intersection or railroad crossing where the department owns limited access right-of-way to provide a clear vision area, a driveway shall not enter or cross that clear vision area. At an intersection or railroad crossing where the department has an easement for a clear vision area, a driveway shall not enter or cross that clear vision area if another reasonable access point is available.

(2) Adjacent to and on both sides of a driveway, a buffer area between the right-of-way line and the pavement edge shall be used, as determined by the department, to provide a physical barrier between highway traffic and activity on private property. A buffer area is needed to provide an unobscured vision area and to prevent potentially hazardous movement of vehicles, especially at undesirable angles of approach, from and to the highway. The buffer area shall consist of a lawn area, a low shrub area, a ditch, or equivalent. Where encroachment of vehicle parking on the buffer area takes place or may take place, the department may require the buffer area to be established by guardrail, guard posts, curb, or equivalent.

History: 1954 ACS 64, p. 9, Eff. Nov. 6, 1970.

R 247.233 Design features.

Rule 33. The design features described in this rule and illustrated in figure 1 shall be used by the applicant in dimensioning a proposed driveway or driveway system on plans accompanying the driveway permit application. The dimensions to be used for various driveway design features, shown as a standard with a working range of dimensions, are given in tables 1 to 7, R 247.237 to R 247.249. These standard dimensions shall be used unless conditions warrant a deviation. The department may specify particular dimensions so a particular driveway system will accommodate vehicle movements normally expected without creating undue congestion or hazard on the highway or to provide reasonable access. The letters in the following design features refer to features in figure 1:

(a) Intersecting angle, A, the clockwise angle from a highway centerline to a driveway reference line which is the centerline or the edge of the driveway.

(b) Driveway width, B, the distance between driveway edges of pavement or edges of the gravel surface measured at the point where the edges of the driveway become parallel, point b in figure 1. If the right-of-way line is so close to the pavement that point b falls on the applicant's property, then the width of the driveway at the right-of-way line shall be based on the projected driveway width.

(c) Entering radius, C, the radius of a driveway edge curve on the right side of a vehicle entering the applicant's property.

(d) Exiting radius, D, the radius of a driveway edge curve on the right side of a vehicle leaving the applicant's property.

(e) Curb ending, E, the length of the height transition of the driveway curb from ground level to full curb height along an uncurbed highway. This curb transition may be 10 feet minimum.

(f) Right-turn lane length, F, the length of an auxiliary lane constructed preceding the driveway to accommodate right-turn traffic entering the applicant's property.

(g) Right-turn lane width, G, the width edge-to-edge of a right-turn lane, or the width edge-to-edge at the full width of entering and exiting tapers.

(h) Entering taper, H, the length of a pavement widening, preceding the driveway for a right-turn lane or taper.

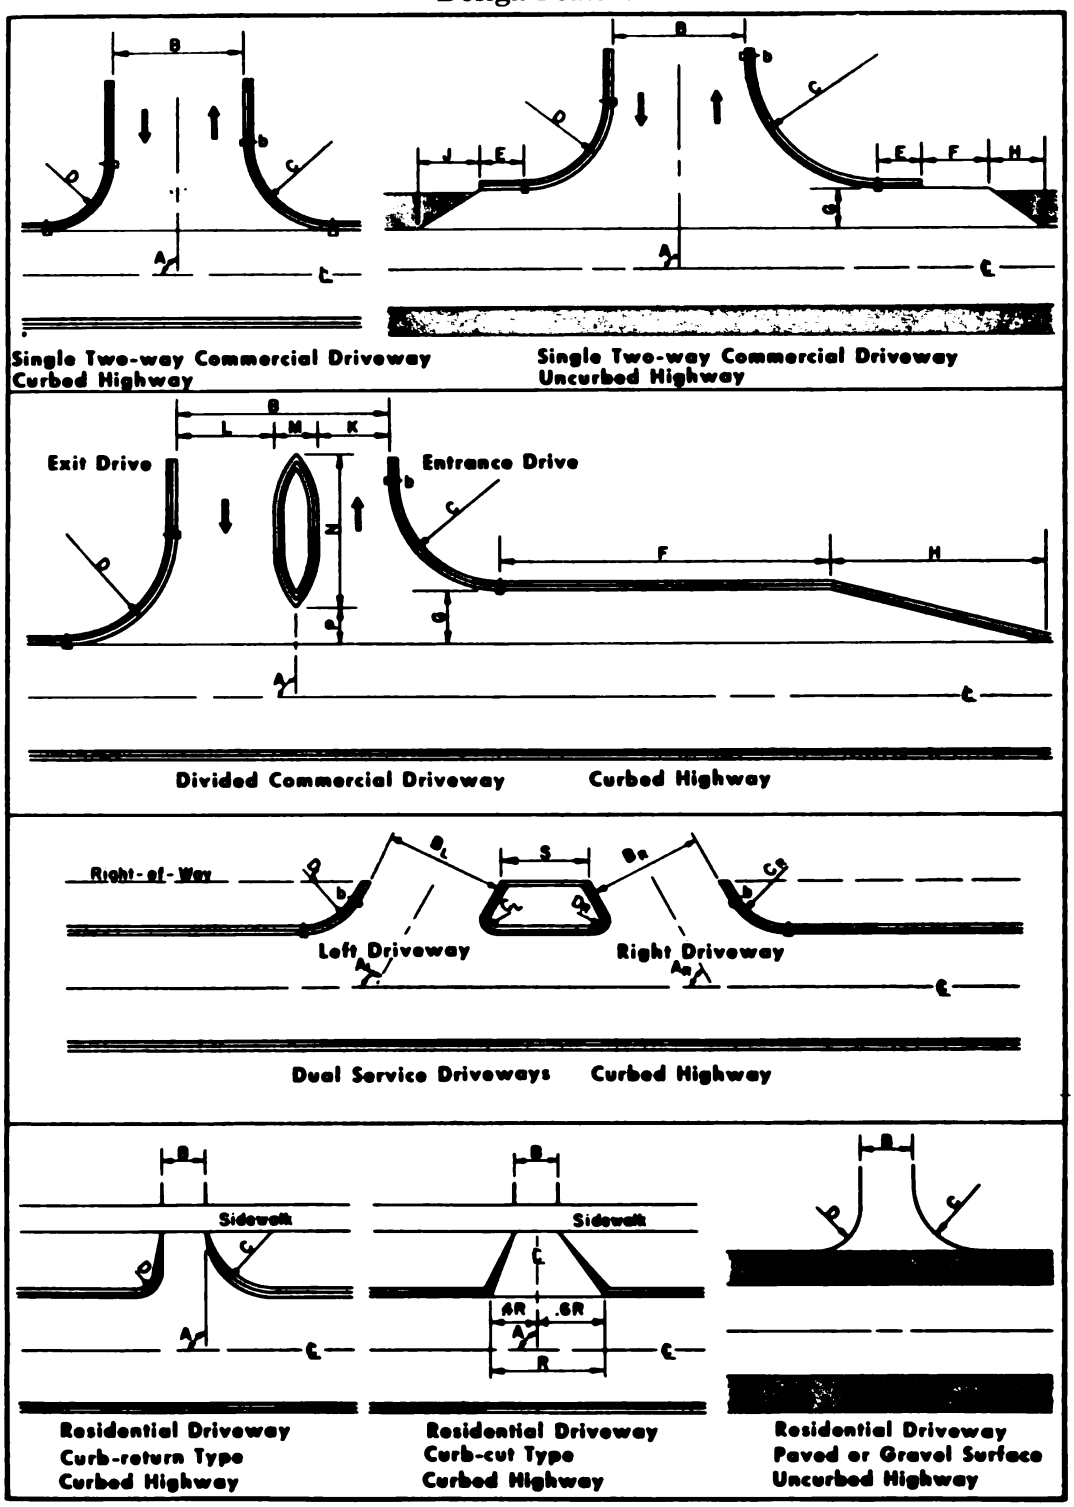
(i) Exiting taper, J, the length of a pavement narrowing, following the driveway.

(j) Entrance drive width, K, the width of the portion of a divided or a directional driveway that is used by a vehicle entering the applicant's property.

(k) Exit drive width, L, the width of the portion of a divided or a directional driveway that is used by a vehicle leaving the applicant's property.

(l) Island width, M, the edge-to-edge distance between an entrance drive and an exit drive.

(m) Island length, N, the distance between ends of the island, measured parallel to the entrance drive.



(n) Nose offset, P, the distance between the edge of pavement and the traffic island of a divided or directional driveway.

(o) Curb cut, R, the length of the opening along a highway curb for a straight-sided residential driveway.

(p) Distance between driveways, S, the inside distance between 2 adjacent driveways measured along a highway right-of-way line.

FIGURE 1
Design Features

SKETCHES ARE NOT DRAWN TO SCALE

History: 1954 ACS 64, p. 9, Eff. Nov. 6, 1970.

R 247.234 Commercial driveways; permits.

Rule 34. A permit application for a commercial driveway shall specify the driveway system requested, including the number and type: 2-way, 1-way,

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

divided, dual service or directional. The department may approve the requested system or may require changes in it to insure safe conditions and necessary spacing between driveways, based on anticipated traffic volumes on the driveways and on the highway, type of traffic to use the driveways, type of roadside development and other operational considerations.

History: 1954 ACS 64, p. 12, Eff. Nov. 6, 1970.

R 247.235 Commercial driveways; consolidation.

Rule 35. Adjacent property owners may consolidate their commercial driveways by using either a frontage road or a joint driveway system. If the department approves such a system, a driveway permit shall be issued to all property owners concerned and shall state that there is an agreement that all properties shall have access to the highway via the frontage road and the joint driveway system.

History: 1954 ACS 64, p. 12, Eff. Nov. 6, 1970.

R 247.236 Commercial driveways; alteration of dimensions.

Rule 36. If the highway carries 1-way traffic, the dimensions given in R 247.241 and R 247.242 may be altered so that the prohibited movements are discouraged. If the driveway system is on the left-hand side of a 1-way highway, the dimensions used shall be based on same principles as used on right-hand side driveways.

History: 1954 ACS 64, p. 12, Eff. Nov. 6, 1970.

R 247.237 Commercial driveways; right-turn lanes.

Rule 37. The applicant shall provide right-turn lanes or tapers as part of a commercial driveway system if the department determines that such right-turn lanes or tapers are required to minimize congestion or hazard on the highway caused by vehicles entering the applicant's driveways. A right-turn lane shall be preceded by a taper. The design feature dimensions of a right-turn lane and taper shall conform to those given in table 1.

TABLE 1

COMMERCIAL RIGHT-TURN LANE AND TAPERS

Design Features		Curbed Highway		Uncurbed Highway	
		Standard	Range	Standard	Range
Curb Ending	E	not applicable		10 ft	no range
Right-turn Lane Length	F	as determined by the department			
Right-turn Lane Width	G	12 ft	10 to 15 ft	12 ft	10 to 15 ft
Entering Taper	H	150 ft *	50 to 150 ft	150 ft	50 to 150 ft
Exiting Taper	J	not applicable		50 ft	50 to 150 ft

* If a right-turn lane is used, the Entering Taper standard shall be 50 ft. Without a right-turn lane, the Entering Taper standard shall be 150 ft.

The standard shall be used unless engineering judgment determines that another dimension within the range is more suitable for a particular site or special condition and is approved by the department.

History: 1954 ACS 64, p. 12, Eff. Nov. 6, 1970.

R 247.241 Two-way commercial driveways.

Rule 41. The design feature dimensions of a 2-way commercial driveway shall conform to those given in table 2.

TABLE 2

TWO-WAY COMMERCIAL DRIVEWAY

Design Features		Curbed Highway		Uncurbed Highway	
		Standard	Range	Standard	Range
Intersecting Angle	A	90°	60 to 120°	90°	60 to 120°
Driveway Width	B	30 ft	12 to 50 ft	30 ft	15 to 50 ft
Entering Radius	C	20 ft	5 to 50 ft	30 ft	5 to 50 ft
Exiting Radius	D	15 ft	5 to 50 ft	20 ft	5 to 50 ft

The standard shall be used unless engineering judgment determines that another dimension within the range is more suitable for a particular site or special condition and is approved by the department.

History: 1954 ACS 64, p. 12, Eff. Nov. 6, 1970.

R 247.242 One-way commercial driveways.

Rule 42. The design feature dimensions of a 1-way commercial driveway shall conform to those given in table 3.

TABLE 3

ONE-WAY COMMERCIAL DRIVEWAY

Design Features			Curbed Highway		Uncurbed Highway	
			Standard	Range	Standard	Range
Distance Between Driveways		S	not applicable	40 to 500 ft	not applicable	40 to 500 ft
Intersecting Angle		A	90°	60 to 120°	90°	60 to 120°
Driveway Width		B	16 ft	16 to 30 ft	16 ft	16 to 30 ft
One-way In	Entering Radius	C_I	20 ft	15 to 50 ft	20 ft	15 to 50 ft
	Exiting Radius	D_I	10 ft	5 to 15 ft	5 ft	5 to 15 ft
One-way Out	Entering Radius	C_O	10 ft	5 to 15 ft	5 ft	5 to 15 ft
	Exiting Radius	D_O	20 ft	15 to 50 ft	20 ft	15 to 50 ft

The standard shall be used unless engineering judgment determines that another dimension within the range is more suitable for a particular site or special condition and is approved by the department.

History: 1954 ACS 64, p. 13, Eff. Nov. 6, 1970.

R 247.243 Divided commercial driveways.

Rule 43. A divided commercial driveway shall have a curbed island separating the entrance drive and the exit drive. The radii forming the edges on this island shall be designed to accommodate the largest vehicle that will normally use the driveway. The minimum area of the island shall be 50 square feet. The design feature dimensions of a divided commercial driveway shall conform to those given in table 4.

TABLE 4

DIVIDED COMMERCIAL DRIVEWAY

Design Features		Curbed Highway		Uncurbed Highway	
		Standard	Range	Standard	Range
Intersecting Angle	A	90°	75 to 105°	90°	75 to 105°
Driveway Width	B	48 ft	42 to 90 ft	48 ft	42 to 90 ft
Entering Radius	C	25 ft	5 to 50 ft	25 ft	5 to 50 ft
Exiting Radius	D	25 ft	5 to 50 ft	20 ft	5 to 50 ft
Entrance Drive Width	K	16 ft	16 to 30 ft	16 ft	16 to 30 ft
Exit Drive Width	L	22 ft	16 to 30 ft	22 ft	16 to 30 ft
Island Width	M	10 ft	10 to 30 ft	10 ft	10 to 30 ft
Nose Offset	P	8 ft	2 to 10 ft	14 ft	12 to 17 ft
Island Length	N	35 ft	20 to 150 ft	35 ft	20 to 150 ft

The standard shall be used unless engineering judgment determines that another dimension within the range is more suitable for a particular site or special condition and is approved by the department.

History: 1954 ACS 64, p. 13, Eff. Nov. 6, 1970.

R 247.244 Dual service driveways.

Rule 44. To facilitate vehicle movements between a highway and private property when the major vehicle movement at a commercial establishment is approximately parallel to the highway, such as at a service station or drive-in bank, the department may permit dual service driveways. The design feature dimensions of dual service driveways shall conform to those given in table 5.

History: 1954 ACS 64, p. 14, Eff. Nov. 6, 1970.

R 247.245 Directional commercial driveways.

Rule 45. A directional commercial driveway is a special case and the driveway shall be designed individually to facilitate the desired turning movements and to discourage prohibited movements. Radii shall be as approved by the department, based on the driveway intersecting angle and on the turning path of the largest vehicle that will normally use the driveway.

History: 1954 ACS 64, p. 14, Eff. Nov. 6, 1970.

R 247.247 Residential driveways; number and separation.

Rule 47. The number of residential driveways permitted shall be determined as follows:

(a) One residential driveway shall be permitted for each platted lot or for unplatted residential property with less than 100 feet of frontage.

(b) One additional residential driveway may be permitted for residential property for each 70 feet of frontage in excess of the first 100 feet of frontage.

(c) Two residential driveways may be permitted on the same property, in lieu of the requirements of paragraph (b), to serve a circle driveway if the frontage of the property is 80 feet or more.

(d) Residential driveways on the same property shall be at least 45 feet apart, center-to-center.

TABLE 5

DUAL SERVICE DRIVEWAYS

Design Features			Curbed Highway		Uncurbed Highway	
			Standard	Range	Standard	Range
Right Driveway	Intersecting Angle	A_R	60°	45 to 90°	60°	45 to 90°
	Entering Radius	C_R	15 ft	5 to 50 ft	20 ft	5 to 50 ft
	Exiting Radius	D_R	10 ft	5 to 25 ft	5 ft	5 to 25 ft
Left Driveway	Intersecting Angle	A_L	120°	90 to 135°	120°	90 to 135°
	Entering Radius	C_L	10 ft	5 to 25 ft	5 ft	5 to 25 ft
	Exiting Radius	D_L	15 ft	5 to 50 ft	20 ft	5 to 50 ft
Driveway Width		B	30 ft	12 to 50 ft	30 ft	15 to 50 ft
Distance Between Driveways		S	20 ft	10 to 150 ft	20 ft	10 to 150 ft

The standard shall be used unless engineering judgment determines that another dimension within the range is more suitable for a particular site or special condition and is approved by the department.

R 247.248 Residential driveway dimensions.

Rule 48. The design feature dimensions of a residential driveway shall conform to those given in table 6.

TABLE 6

RESIDENTIAL DRIVEWAY					
Design Features		Curbed Highway		Uncurbed Highway	
		Standard	Range	Standard	Range
Intersecting Angle	A	90°	70 to 110°	90°	70 to 110°
Driveway Width	B	10 ft	8 to 24 ft	12 ft	8 to 24 ft
Entering Radius	C	15 ft	5 to 15 ft	15 ft	5 to 20 ft
Exiting Radius	D	6 ft	5 to 15 ft	10 ft	5 to 20 ft
Curb Cut	R	26 ft	20 to 40 ft	not applicable	
The standard shall be used unless engineering judgment determines that another dimension within the range is more suitable for a particular site or special condition and is approved by the department.					

History: 1954 ACS 64, p. 14, Eff. Nov. 6, 1970.

R 247.249 Field entrances and utility structure driveways.

Rule 49. (1) One field entrance may be permitted for each 1,000 feet of frontage of cultivated land, timberland or undeveloped land. Additional driveways may be permitted when a single driveway will not provide adequate access due to topographic conditions.

(2) The design feature dimensions of a field entrance and of a utility structure driveway shall conform to those given in table 7.

TABLE 7

FIELD ENTRANCE AND UTILITY STRUCTURE DRIVEWAY					
Design Features		Curbed Highway		Uncurbed Highway	
		Standard	Range	Standard	Range
Intersecting Angle	A	90°	70 to 110°	90°	70 to 110°
Driveway Width	B	20 ft	15 to 40 ft	20 ft	15 to 40 ft
Entering Radius	C	not applicable		20 ft	5 to 40 ft
Exiting Radius	D	not applicable		20 ft	5 to 40 ft
Curb Cut	R	26 ft	20 to 50 ft	not applicable	
The standard shall be used unless engineering judgment determines that another dimension within the range is more suitable for a particular site or special condition and is approved by the department.

R 247.251 Surfacing and curbing along curbed highways.

Rule 51. If a highway is curbed, the following driveway surfacing and curbing requirements apply:

(a) A commercial driveway shall be paved and curbed to either the right-of-way line or to the point of curvature between the driveway edge and the larger radius, point b in figure 1, as determined by the department.

(b) A residential driveway shall be paved between the edge of the pavement and the existing or proposed sidewalk. If there is no existing or proposed sidewalk, the surfacing shall extend at least 10 feet from the edge of the pavement. For a residential driveway, either curb cuts or curb returns shall be required as determined by the department, based on the current department standards for curb and gutter.

History: 1954 ACS 64, p. 16, Eff. Nov. 6, 1970.

R 247.252 Surfacing and curbing along uncurbed highways.

Rule 52. If a highway is uncurbed, the following driveway surfacing and curbing requirements apply:

(a) A commercial driveway shall be paved and curbed to either the right-of-way line or to the point of curvature between the driveway edge and the larger radius, point b in figure 1, except a commercial driveway may be uncurbed where there is a proper ditch and other adequate roadside control or delineation, as determined by the department. The curb ending adjacent to the highway shall be located at least 13.5 feet from and parallel to the edge of the pavement.

(b) A low volume commercial driveway along a low volume highway shall be paved, but the paving may be delayed as mutually agreed upon by the applicant and the department.

(c) A residential driveway may be paved or surfaced with stabilized gravel and may be curbed or uncurbed.

History: 1954 ACS 64, p. 16, Eff. Nov. 6, 1970.

R 247.253 Surfacing and curbing of field entrances and utility structure driveways.

Rule 53. A field entrance or a utility structure driveway may be surfaced with stabilized gravel or with sod over a stable base and may be uncurbed, as determined by the department.

History: 1954 ACS 64, p. 16, Eff. Nov. 6, 1970.

R 247.254 Surface materials and thickness.

Rule 54. The surface of a paved driveway, excluding right-turn lanes, shall be concrete, bituminous or equivalent surfacing material. The thickness of the surface and the base to be used shall be sufficient to provide the bearing capacity needed to carry the proposed traffic loads. A 2¼-inch, 250 pounds per square yard, bituminous mix on 8 inches of compacted gravel, 8 inches of unreinforced concrete or equivalent surfacing material which meets current department standard specifications for highway construction is acceptable for normal driveway traffic loads over stable soil.

History: 1954 ACS 64, p. 16, Eff. Nov. 6, 1970.

R 247.255 Right-turn lanes and tapers.

Rule 55. (1) The pavement of a right-turn lane and accompanying tapers shall match the highway pavement, unless the department permits the use of an equivalent pavement.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

(2) The cross slope of a right-turn lane and tapers shall be:

(a) A continuation of the cross slope of the highway if the highway is curbed.

(b) Equal to the shoulder slope if the highway is uncurbed.

History: 1954 ACS 64, p. 17, Eff. Nov. 6, 1970.

R 247.256 Shoulders.

Rule 56. (1) The surface of the shoulder adjacent to a right-turn lane and tapers shall be of the same material as the highway shoulder and conform to the current department standard specifications for highway construction.

(2) If the distance between 2 paved commercial driveways serving the same property is less than 100 feet, measured between adjacent ends of the curb endings, the applicant shall pave the shoulder between the driveways.

History: 1954 ACS 64, p. 17, Eff. Nov. 6, 1970.

R 247.259 Driveway curb details.

Rule 59. (1) The driveway curb shall either match the existing highway curb or shall conform to the current department standards for curb and gutter.

(2) The driveway curb height shall be constant if there is no existing or proposed sidewalk or if an inclined sidewalk is permitted by the department.

(3) The driveway curb height may be tapered to zero height at the sidewalk if the driveway grade meets the grade of an existing or proposed sidewalk.

History: 1954 ACS 64, p. 17, Eff. Nov. 6, 1970.

R 247.261 Drainage.

Rule 61. (1) A driveway shall be constructed so that it does not adversely affect the highway drainage. The drainage and the stability of the highway subgrade shall not be altered by driveway construction or roadside development.

(2) Drainage from adjacent parking or storage areas on private property in excess of existing drainage shall not be discharged into the highway drainage system.

(3) Culvert pipe shall be of a size adequate to carry the anticipated natural flow of the ditch. The culvert shall be no smaller than the nearest upstream culvert nor less than 12 inches inside diameter. A culvert, catch basin, drainage channel and other drainage structure required within the highway right-of-way shall be manufactured or constructed and installed in accordance with the current department standard specifications for highway construction. The minimum length of the culvert may be determined as the sum of the distance between driveway edges, measured along the ditch line, plus the distances needed to accommodate an embankment slope not to exceed 1 foot vertical for 6 feet horizontal on both sides of the driveway.

History: 1954 ACS 64, p. 17, Eff. Nov. 6, 1970.

R 247.263 Profile.

Rule 63. A driveway profile shall be determined using the following criteria:

(a) If the highway is uncurbed, the grade of the driveway between the highway edge of pavement and the edge of the shoulder shall conform to the slope of the shoulder.

(b) If the highway is uncurbed or if the sidewalk is more than 10 feet from the edge of the pavement or if there is no sidewalk:

(i) The grade of a 2-way, 1-way or divided commercial driveway shall not exceed 1.5% for a minimum distance of 25 feet from the edge of the pavement. Beyond this distance, the grade shall not exceed 8%.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

(ii) The grade of a residential or utility structure driveway or field entrance shall not exceed 10%.

(c) If the highway is curbed and if the sidewalk is 10 feet or less from the edge of pavement, the grade of a driveway, except a directional driveway, shall be the grade required to meet the sidewalk elevation; but if that grade would exceed the maximums specified in subdivision (b), the sidewalk shall be either tilted or inclined.

(d) The grade of a directional driveway shall be designed so to provide vision of the highway edge of pavement and the driveway surface for a distance of 100 feet along the driveway. For a driveway on an upgrade towards the highway, a grade of 1.5% for a distance of 100 feet from the edge of the pavement is acceptable. Beyond this distance, the grade shall not exceed 4% and the difference in grades where there is a change of grade shall not exceed 3%.

(e) Vertical curves, with a minimum length of 15 feet, shall be provided at a change of grade of 4% or more.

(f) If the sidewalk elevation has to be adjusted to meet the driveway, the department may require that the sidewalk be inclined at a rate not to exceed 1 foot vertical for every 24 feet horizontal.

History: 1954 ACS 64, p. 17, Eff. Nov. 6, 1970.

R 247.265 Parking and storage.

Rule 65. Adequate storage for vehicles parking or waiting to be serviced shall be provided so as not to interfere with pedestrian movements, vision requirements, or traffic operations on the highway.

History: 1954 ACS 64, p. 18, Eff. Nov. 6, 1970.

R 247.267 Traffic signs and markings.

Rule 67. A permittee shall provide and properly maintain traffic signs and pavement markings which the department determines necessary, subject to local ordinances, for proper operation of the driveway. Only those traffic signs and pavement markings approved by the department may be used within the highway right-of-way. Signs and pavement markings shall conform to the current Michigan manual of uniform traffic control devices.

History: 1954 ACS 64, p. 18, Eff. Nov. 6, 1970.

PART 4. BANNER PERMITS

R 247.271 Permittees.

Rule 71. A permit for the installation of banners to be placed within or over a highway right-of-way may be issued by the department only to the governing body of a city, village, or township.

History: 1954 ACS 64, p. 18, Eff. Nov. 6, 1970.

R 247.272 Application forms and contents.

Rule 72. (1) An application for a permit for the installation of a banner shall be in the manner prescribed on forms supplied by the department.

(2) An application shall include the following information:

(a) Activity in connection with which the banners are to be placed.

(b) Location of the proposed installation, including distance to overhead traffic control devices.

(c) Description of the banners, including any legend or symbol thereon.

(d) Height of an overhead banner at its lowest point above the pavement.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(e) Dates on which the banner will be installed and removed. This period shall not exceed a time period specified by the department. An acceptable period of time for banners, other than Christmas decorations, to be in place is 3 weeks, and an acceptable duration for Christmas decorations to be in place is 6 weeks.

(f) Such other information as the department may require.

History: 1954 ACS 64, p. 18, Eff. Nov. 6, 1970.

R 247.273 Local government resolutions.

Rule 73. An application shall be accompanied by a copy of a resolution from the local governing body designating an authorized official of the city, village, or township who has authority to make the application, unless a blanket resolution, which has the same effect and authorizes the same conditions as an individual resolution but covers issuance of permits for a specified period of time, is on file with the department. Appropriate forms for local governmental resolutions and blanket resolutions may be supplied by the department.

History: 1954 ACS 64, p. 18, Eff. Nov. 6, 1970.

R 247.275 Design and placement.

Rule 75. (1) The design, method of installation, and location of banners shall not endanger persons using the highway or unduly interfere with the free movement of traffic.

(2) An overhead banner shall have a minimum bottom height of 18 feet above the pavement, shall not be placed closer than 10 feet on either side of traffic signals, and shall not be placed so as to obstruct a clear view of traffic signals or other traffic control devices.

History: 1954 ACS 64, p. 18, Eff. Nov. 6, 1970.

R 247.276 Contents of banners.

Rule 76. (1) A banner shall not have displayed thereon any legend or symbol which may be construed to advertise, promote the sale of, or publicize any merchandise or commodity, or to be political in nature.

(2) A banner shall not have displayed thereon any legend or symbol which is or purports to be an imitation of or resembles, or which may be mistaken for, a traffic control device, or which attempts to direct the movement of traffic.

(3) Decorations shall not include flashing lights that may be distracting to motorists.

History: 1954 ACS 64, p. 19, Eff. Nov. 6, 1970.

R 247.278 Duties of local governments.

Rule 78. A city, village, or township receiving a permit shall faithfully fulfill permit requirements and shall indemnify and save harmless the department from claims of every kind arising out of the use of an issued permit.

History: 1954 ACS 64, p. 19, Eff. Nov. 6, 1970.

R 247.279 Cancellation of permits.

Rule 79. A permit for the installation of a banner may be cancelled by the department if the installation becomes dangerous to motorists or unduly interferes with the free movement of traffic.

History: 1954 ACS 64, p. 19, Eff. Nov. 6, 1970.

PART 5. PARADE, CELEBRATION, OR FESTIVAL HIGHWAY CLOSURE PERMITS

R 247.281 Permittees.

Rule 81. A permit granting permission for the temporary closure of a highway for a reasonable length of time for a parade, celebration, or festival may be issued by the department only to the governing body of a city, village, or township.

History: 1954 ACS 64, p. 19, Eff. Nov. 6, 1970.

R 247.282 Application forms.

Rule 82. An application for a permit to close or partially close a highway for a parade, celebration, or festival shall be in the manner prescribed on forms supplied by the department.

History: 1954 ACS 64, p. 19, Eff. Nov 6, 1970.

R 247.283 Application contents and resolutions.

Rule 83. An application shall state the nature of the activity for which the permit is requested, the dates and times it is proposed to close and reopen the highway to traffic, and such other information as the department may require. The reasonable period of time shall be approved by the department. An application shall be accompanied by a copy of a resolution from the city, village, or township requesting permission for the closure or partial closure.

History: 1954 ACS 64, p. 19, Eff. Nov. 6, 1970.

R 247.284 Permit conditions.

Rule 84. A permit shall be issued subject to the following conditions:

(a) The closure or partial closure and the use of a detour route shall not unduly interfere with the safe and free movement of traffic.

(b) A suitable alternate location is not available for the parade, celebration, or festival which is more acceptable for traffic safety and causes less interruption of traffic.

(c) A closure or partial closure normally shall be allowed during daylight hours only. When temporary nighttime closure is permitted points of potential hazard, barricades and warning traffic signs shall be lighted at the permittee's expense. The lighting shall be in accordance with requirements and specifications of the department.

History: 1954 ACS 64, p. 19, Eff. Nov. 6, 1970.

R 247.285 Traffic control devices.

Rule 85. (1) Traffic control devices installed in conjunction with the closure or partial closure and the detour route shall conform to the provisions of the current department manual of uniform traffic control devices.

(2) Required traffic control devices may be furnished and installed either by the local governing body or by the department. Costs arising from the installation, maintenance, and removal of such devices shall be borne by the permittee.

(3) The local governing body shall provide necessary police supervision, establish and post necessary detour signs, and assume liability for damage claims which may arise as a result of the closure or partial closure.

(4) The closure or partial closure shall not be for the purpose of allowing private commercial activities, such as advertising or sale of goods, wares, or produce.

History: 1954 ACS 64, p. 19, Eff. Nov. 6, 1970.

PART 9. HEARINGS AND APPEALS

R 247.351 Requests and time of hearings.

Rule 151. (1) After a permit application has been denied, or before the department may revoke a driveway permit for failure to comply with any provision of the permit, the person or agency has the right to a hearing before an officer appointed by the department if a written request for hearing is filed with the department within 30 days after receipt of the denial of application or notice of intent to revoke a permit.

(2) A hearing shall be held within 30 days after the request is received by the department. The department shall notify the person or agency of the hearing date, time, and place at least 10 days before the hearing.

(3) A driveway permit revocation is effective either 30 days after the person or agency receives a notice of intent to revoke the permit in the absence of a hearing request, or after the hearing and appeal procedures affirming the department's revocation.

History: 1954 ACS 64, p. 20, Eff. Nov. 6, 1970.

R 247.352 Representation.

Rule 152. A person may represent himself at a hearing or be represented by legal counsel and technical counsel. The department may be represented by the attorney general.

History: 1954 ACS 64, p. 20, Eff. Nov. 6, 1970.

R 247.353 Opening statements, evidence, and cross-examination.

Rule 153. (1) The hearing officer shall open the hearing with a concise statement of its nature and purpose. He shall follow the rules of evidence applicable to circuit court proceedings, but may admit and give probative effect to evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs.

(2) Evidence, including documents and records in possession of the department, which it desires to present, shall be accepted and made a part of the record. Documentary evidence may be received in the form of copies or excerpts, or may be incorporated by reference.

(3) The person and the department have the right of cross-examination which includes the right to cross-examine the author of any document prepared for the use of the department and to offer the document as evidence, and have the right to submit rebuttal evidence.

History: 1954 ACS 64, p. 20, Eff. Nov. 6, 1970.

R 247.354 Official notice and evaluation of evidence.

Rule 154. The hearing officer may take official notice of judicially cognizable facts, and of general technical and scientific facts within his specialized knowledge. The parties shall be notified at least 5 days before the hearing of material so noticed, and shall have an opportunity to rebut the facts so noticed. The officer may use his experience, technical competence and specialized knowledge in the evaluation of the evidence presented to him.

History: 1954 ACS 64, p. 20, Eff. Nov. 6, 1970.

R 247.355 Exhibits.

Rule 155. (1) Evidence to be presented, consisting of matters so complex as to make testimony difficult to follow, may be presented in exhibit form, supple-

mented and explained, but not duplicated by oral testimony. Documentary exhibits shall be typed on 1 side only on pages not exceeding 8½ by 11 inches, or multiples thereof, with a sufficient margin for binding on the left side of each page. An exhibit in excess of these dimensions shall be folded to be not more than 8½ inches by 11 inches. An exhibit of 2 or more pages shall be stapled together and notation made at the top of the first page of the number of pages contained in the exhibit. An exhibit shall indicate the docket number at the top of the first page and provide space for the name of the witness, the number and the date of the exhibit. Exhibits shall be numbered in numerical sequence regardless of the identity of the party offering them.

(2) A person introducing documentary exhibits shall furnish 6 copies to the hearing officer.

(3) Additional documentary evidence may be submitted after the closing of the hearing upon stipulation of the parties.

History: 1954 ACS 64, p. 20, Eff. Nov. 6, 1970.

R 247.356 Arguments and decisions.

Rule 156. (1) After all the evidence has been entered in the record the person and the department representative may summarize their arguments after which the hearing shall be closed.

(2) Within 5 days after the hearing, the department shall notify the person in writing of the hearing decision and send to the person a copy of the hearing transcript if either the person's application for a permit is denied, or the department's revocation of permit is upheld.

History: 1954 ACS 64, p. 21, Eff. Nov. 6, 1970.

R 247.357 Appeals.

Rule 157. (1) A decision of the hearing officer may be appealed to the commission by written notice of appeal filed with the commission within 5 days after the officer renders his decision. On appeal to the commission, briefs may be filed by the person and by the department within 7 days after filing the notice of appeal.

(2) In rendering its decision, the commission shall consider the entire hearing record and briefs which may have been filed. The commission shall inform the person and the department of its decision by filing a copy of its written decision within 7 days after the date on which original briefs were filed, and by mailing a copy of its decision to the appellant.

(3) If the commission affirms the hearing officer's decision the party may petition for judicial review in the appropriate state court.

History: 1954 ACS 64, p. 21, Eff. Nov. 6, 1970.

RELOCATION ASSISTANCE

(By authority conferred on the state highway commission by section 2 of Act No. 31 of the Public Acts of 1970 and section 7 of Act No. 227 of the Public Acts of 1972, being §§252.142 and 213.326 of the Michigan Compiled Laws)

R 247.401 Definitions.

Rule 1. (1) "Commission" means the state highway commission.

(2) "Department" means the department of state highways and transportation.

(3) "Uniform act" means the uniform relocation assistance and real property acquisition policies act of 1970, Public Law 91-646.

(4) "Aggrieved relocatee" means a person who may be entitled to a determination pursuant to the uniform act who is dissatisfied with the department's determination with regard to their eligibility for benefits or the amount of the benefits.

(5) "Person" means an individual, partnership, corporation, or association.

History: 1954 ACS 79, p. 6, Eff. May 22, 1974.

R 247.402 Aggrieved relocatee's options.

Rule 2. (1) An aggrieved relocatee who wishes to contest any determination made by the department concerning either eligibility for benefits or the amount of benefits due pursuant to the uniform act may either:

(a) File written objections with the department's district right-of-way agent.

(b) Appear before the department's district right-of-way agent and present his objections orally.

(2) Objections, whether written or oral, shall be filed or presented within 6 months after the aggrieved relocatee is given written notice of the determination to which objection is made.

(3) The district right-of-way agent shall give written notice of his decision, by certified mail, within 30 days after receipt of written or oral objections.

History: 1954 ACS 79, p. 6, Eff. May 22, 1974.

R 247.403 Hearing by department.

Rule 3. An aggrieved relocatee, who wishes to contest the district agent's written decision, may file written objections with the department and may also appear before the department to present objections after written decision of the district agent. The written objections shall be filed within 30 days after written notice by the district agent. A personal appearance shall be scheduled after a written request by the aggrieved relocatee. The hearing shall be conducted by a hearings officer appointed by the director of the department. The aggrieved relocatee may represent himself at the hearing or be represented by legal counsel. The department shall be represented by a member of the right-of-way division and in addition may be represented by the attorney general.

History: 1954 ACS 79, p. 6, Eff. May 22, 1974.

R 247.404 Opening statements; evidence; witnesses.

Rule 4. (1) The hearing shall be opened by the hearings officer with a concise statement of the hearing's nature and purpose. The hearings officer shall follow the rules of evidence applicable to circuit court proceedings. However, in addition, the hearings officer may admit and give probative effect to any evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs.

(2) Documentary evidence may be received in the form of copies, excerpts or by incorporation by reference.

(3) The aggrieved relocatee, the department and the hearings officer may examine witnesses.

History: 1954 ACS 79, p. 7, Eff. May 22, 1974.

R 247.405 Exhibits; forms; submission.

Rule 5. (1) Evidence to be presented, consisting of matters so complex as to make the presentation difficult to follow, may be presented in exhibit form and supplemented and explained but not duplicated by oral testimony.

(2) Documentary exhibits shall be typed on 1 side only of pages not exceeding 8½ inches by 11 inches, or multiples thereof, with a sufficient margin for binding, preferably 1½ inches to be left blank on left side of each page. An exhibit in excess of 8½ inches wide shall be folded to be not more than 8½ inches by 11 inches if practicable. It is desirable that an exhibit of 2 or more pages be stapled together and notation made at the top of the first page as to the number of pages contained in the exhibit.

(3) An exhibit shall indicate the control section and parcel number on the first page and provide space for the name of the witness and number and date of the exhibit. Exhibits shall be numbered in numerical sequence regardless of the identity of the party offering them. The number of the exhibit shall be prefixed with a letter indicating the identity of the party offering it. A party introducing documentary exhibits shall furnish 3 copies to the hearings officer.

(4) Additional documentary evidence may be submitted subsequent to the closing of the hearing upon stipulation of the parties.

History: 1954 ACS 79, p. 7, Eff. May 22, 1974.

R 247.406 Arguments and decisions.

Rule 6. (1) After all of the evidence is entered in the record, the aggrieved relocatee and the department may summarize their arguments and the hearing shall be closed.

(2) Within 30 days after the hearing, the hearings officer shall send a written notice of the hearing decision by certified mail to the aggrieved relocatee. The written notice shall contain the reasons supporting the decision. A copy of the hearing transcript shall be available upon request.

History: 1954 ACS 79, p. 7, Eff. May 22, 1974.

R 247.407 Appeals to commission.

Rule 7. (1) The decision of the hearings officer may be appealed to the commission if written notice of appeal is filed by the aggrieved relocatee with the commission within 30 days after the hearings officer renders a decision.

(2) On appeal to the commission, additional written evidence may be filed by the aggrieved relocatee and by the department within 10 days after filing the notice of appeal of the hearings officer's decision. In rendering its decision, the commission shall consider the entire hearing record, and additional written evidence which may have been filed by the aggrieved relocatee or the department. The commission may request the aggrieved relocatee to appear personally. The commission shall inform the aggrieved relocatee and the department of its decision on the appeal by sending each of them a copy of its written decision within 30 days after the commission meets following the filing of additional written evidence.

(3) If the commission affirms the hearings officer's decision, the aggrieved relocatee may seek legal remedies in the appropriate state or federal court as provided by statutes and court rules.

History: 1954 ACS 79, p. 7, Eff. May 22, 1974.

ADVERTISING ADJACENT TO HIGHWAYS

(By authority conferred on the state highway commission by section 23 of Act No. 106 of the Public Acts of 1972 and Act No. 306 of the Public Acts of 1969, as amended, being §§252.323 and 24.201 to 24.315 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 247.701 Definitions; A to D.

Rule 1. (1) Terms defined and used in the act have the same meaning when used in these rules.

(2) "Act" means Act No. 106 of the Public Acts of 1972, being §§252.301 to 252.324 of the Michigan Compiled Laws.

(3) "Directional and other official signs and notices" means an official sign or notice, public utility sign, service club and religious notice, public service sign, and directional signs.

(4) "Directional sign" means a sign containing only directional information and the identification of the activity about public places owned or operated by federal, state or local governments or their agencies, publicly or privately owned natural phenomena, historic, cultural, scientific, educational, or religious site, deemed to be in the interest of the traveling public.

History: 1954 ACS 79, p. 8, Eff. June 18, 1974.

R 247.702 Definitions; M to O.

Rule 2. (1) "Official signs and notices" means a sign or notice erected and maintained by public officers or a public agency within their territorial or zoning jurisdiction and pursuant to and in accordance with direction or authorization contained in federal, state, or local law for the purposes of carrying out an official duty or responsibility and a historical marker authorized by state law and erected by state or local government agency or nonprofit historical society.

(2) "On-premise advertising signs and devices" means a sign, display, or device which identifies the business transacted, services rendered, goods sold or produced on the property, name of the business, name of firm or corporation occupying the property.

History: 1954 ACS 79, p. 8, Eff. June 18, 1974.

R 247.703 Definitions; P to V.

Rule 3. (1) "Parkland" means a publicly owned land which is designated or used as a public park, recreation area, wildlife or waterfowl refuge or historic site.

(2) "Public service sign" means a sign located on an approved school bus shelter containing identification of donor and such safety slogans as to not occupy over 60% of the area of the sign.

(3) "Public utility signs" means a warning sign, informational sign, notice, or marker which is customarily erected and maintained by a publicly or privately owned public utility, and essential to their operation.

(4) "Scenic area" means an area of particular scenic beauty or historical significance as determined by the federal, state or local officials having jurisdiction thereof and includes interest in land which has been acquired for the restoration, preservation, and enhancement of scenic beauty.

(5) "Service club and religious notice" means a sign or notice, relating to meetings of a nonprofit service club or charitable association or religious service, which signs do not exceed 8 square feet in area.

(6) "Transient or temporary operation" means that which operates less than 3 months per year.

(7) "Turning roadway" means a connecting roadway for traffic turning between 2 intersecting legs of an interchange.

(8) "Village" means an incorporated village.

History: 1954 ACS 79, p. 8, Eff. June 18, 1974.

R 247.705 Scope.

Rule 5. An outdoor advertising sign or device, erected or maintained within 660 feet of the right-of-way in a city, village, or charter township, and within 3,000 feet of the right-of-way in other areas adjacent to interstate, freeway, and federal-aid primary highways, which is visible from the main traveled way of that trunk line, shall conform to the following rules.

History: 1954 ACS 79, p. 9, Eff. June 18, 1974.

R 247.706 Spacing of signs.

Rule 6. (1) Along interstate highways and freeways, a sign structure located in business areas or unzoned commercial or industrial areas shall not be erected or maintained closer than 500 feet to another sign structure on the same side of the highway.

(2) Along primary highways within the limits of municipalities, a sign structure located in business areas or unzoned commercial or industrial areas shall not be erected or maintained closer than 100 feet to another sign structure.

(3) Along primary highways in areas outside of the limits of municipalities, a sign structure located in business areas or unzoned commercial or industrial areas shall not be erected or maintained closer than 300 feet to another sign structure.

History: 1954 ACS 79, p. 9, Eff. June 18, 1974.

R 247.707 Spacing within intersecting adjacent areas.

Rule 7. (1) A sign shall be under the controls established for the highway upon which the sign location or locations front.

(2) Spacing controls shall be measured parallel to the pertinent highway.

(3) A sign visible from an interstate or primary highway shall occupy a location fronting on that highway and only 1 sign structure visible from that highway shall occupy any portion of that location.

(4) A sign visible from 2 adjacent interstate or primary highways shall occupy 2 locations, 1 fronting on each highway. Another sign shall not occupy either of the 2 locations.

(5) The minimum spacing between signs or sign structures visible from different highways shall be not more than the minimum spacing required of the intersecting highways.

History: 1954 ACS 79, p. 9, Eff. June 18, 1974.

R 247.708 Visual limitations.

Rule 8. Topographical features used to determine vision limitations to signs include land forms, water, vegetation, and buildings affixed to the land.

History: 1954 ACS 79, p. 9, Eff. June 18, 1974.

R 247.709 Measurements.

Rule 9. (1) Measurements for spacing determination shall be made parallel to the edge of the pavement of the main traveled way.

(2) Measurements for determining that portion of a business area that is within 1 mile of a municipality shall be made on an arc or radius basis, with measurements starting at the nearest point on the corporate limits and extending toward the controlled highways.

(3) Measurements between multiface signs shall be horizontal between the edge or back of the display face or face border trim of the sign and sign structure.

(4) The following shall be deemed 1 sign structure for spacing and size controls if they comply to the stated criteria:

(a) Double-faced display; faces lying in the same general plane not more than 4 feet apart and facing the same direction of travel.

(b) Back-to-back sign structure; faces not more than 10 feet apart and facing in opposite directions of travel.

History: 1954 ACS 79, p. 9, Eff. June 18, 1974.

R 247.710 Structures and location areas.

Rule 10. (1) An outdoor advertising sign or device shall be securely affixed to a substantial structure.

(2) A sign location occupies the full distance between the highway right-of-way line and the outer edge of the adjacent area measured perpendicular to the pavement edge of the main traveled roadway.

History: 1954 ACS 79, p. 10, Eff. June 18, 1974.

R 247.711 Zoning areas.

Rule 11. (1) Zoning shall be in accordance with procedures established by state law.

(2) The status of an unzoned commercial or industrial area, or a zoned business area beyond 1 mile of the corporate limits, shall remain unchanged for a period of 3 years after the businesses creating the commercial or industrial area have closed operations. During the period when a commercial or industrial business is not in operation, additional signs shall not be allowed within the area.

(3) In determining unzoned commercial or industrial areas, activities related to agriculture or forestry such as nurseries, greenhouses, storage facilities, portable sawmills, natural resource extraction operations normally located in agricultural or forest areas such as unmanned oil wells and storage areas, earth borrow areas lacking permanent processing equipment, as well as unmanned public utility structures or operations shall not be considered commercial or industrial.

History: 1954 ACS 79, p. 10, Eff. June 18, 1974.

PART 2. PERMITS AND VIOLATIONS

R 247.721 Permits.

Rule 21. (1) Each sign face shall be treated as a separate sign for permit purposes.

(2) If the permit number cannot be placed on the sign facing, it may be placed on the sign structure in compliance with the act. If the permit number is placed on the structure, it shall be visible from the highway faced by the sign or sign structure.

(3) Any permit issued pursuant to these rules does not relieve the applicant from the responsibility of complying with all ordinances which comply with section 4 of the act.

(4) The location of the proposed sign as specified in the permit application shall be relied upon by the department in the issuance of future permits in that vicinity.

(5) A person is not required to obtain a permit for his own sign which is located on his own premise, only if that sign advertises the business, products or profession which is conducted or maintained on that premise as defined in these rules.

(6) An annual permit sticker issued by the department shall be placed above the 4-inch permit number on all outdoor advertising signs or devices which are issued permits prior to July 1973. The permit sticker must be attached within 4

months of the issuance of a permit on signs existing on the effective date of the act or within 3 business days of the completion of erection of a new sign.

History: 1954 ACS 79, p. 10, Eff. June 18, 1974.

R 247.723 Violation notices and postings.

Rule 23. When a sign or sign structure is found to be in violation of the act, a notice shall be posted on the sign or sign structure.

History: 1954 ACS 79, p. 10, Eff. June 18, 1974.

PART 3. DIRECTIONAL AND OTHER OFFICIAL SIGNS

R 247.731 Directional and other official signs; applicability.

Rule 31. All applicable provisions of the act shall apply to directional and other official signs and notices which are erected and maintained within the adjacent area of an interstate, freeway, or primary highway and which are visible from the main traveled way of the highway, except as hereinafter provided.

History: 1954 ACS 79, p. 10, Eff. June 18, 1974.

R 247.732 Directional sign qualifications.

Rule 32. (1) A privately owned activity or attraction eligible for a directional sign is a natural phenomenon, scenic attraction, natural outdoor recreational area, or an historic, educational, cultural, scientific, or religious site.

(2) To be eligible, a privately owned attraction or activity shall be nationally or regionally known and of outstanding interest to the traveling public.

(3) The department shall determine the eligibility of each attraction or activity. In making this determination, the department may avail itself of the experience and knowledge of selected groups in the specific type of attraction or activity being considered. Any scenic, natural wonder, or historical site shall be sanctioned by the direction of the department of natural resources upon recommendations from the natural area advisory council or historical preservation advisory council before approval by the department.

History: 1954 ACS 79, p. 10, Eff. June 18, 1974.

R 247.733 Permits.

Rule 33. (1) A permit is required for a directional, service club, church, or public service sign.

(2) Permit numbers for a service club, church, or public service sign shall be 2 inches in height and may be placed on the back of the sign.

History: 1954 ACS 79, p. 11, Eff. June 18, 1974.

R 247.735 Size.

Rule 35. (1) A sign shall not exceed the following limits:

(a) Service clubs and church signs, 8 square feet per organization.

(b) Directional signs, 150 square feet.

(c) Public service signs, 32 square feet.

(2) The maximum height or length is 20 feet.

(3) All dimensions include border and trim.

History: 1954 ACS 79, p. 11, Eff. June 18, 1974.

R 247.736 Spacing and location.

Rule 36. (1) Each location of a service club, church, and directional sign shall be approved by the department.

(2) The total number of service club and church signs on 1 side of the highway shall be not more than 4 in any 1,000 feet.

(3) A directional sign shall be located not less than 2,000 feet from an interchange, rest area, or intersection at-grade along the interstate system or other freeway as measured along the main traveled way from the nearest point of the beginning or ending of pavement widening at the exit or entrance to the main traveled way.

(4) A directional sign shall be located not less than 2,000 feet from a parkland or a scenic area.

(5) Directional signs facing the same direction of travel shall be spaced not less than 1 mile apart.

(6) Not more than 3 directional signs pertaining to the same activity and facing the same direction of travel shall be erected along a single route approaching the activity.

(7) A sign located adjacent to an interstate highway shall be not more than 75 air miles from the activity.

(8) A sign located adjacent to a primary highway shall be not more than 50 air miles from the activity.

History: 1954 ACS 79, p. 11, Eff. June 18, 1974.

R 247.737 Illumination.

Rule 37. (1) A sign shall not contain, include, or be illuminated by a flashing, intermittent, or moving light.

(2) A sign shall be effectively shielded so as to prevent beams or rays of light from being directed at any portion of the traveled way of an interstate or primary highway, and shall be of such intensity or brilliance as to not cause glare or impair the vision of the driver of any motor vehicle or otherwise interfere with the operation of a motor vehicle.

(3) A sign shall be so illuminated as not to interfere with the effectiveness of or obscure an official traffic sign, device or signal.

History: 1954 ACS 79, p. 11, Eff. June 18, 1974.

PART 4. HEARINGS AND APPEALS

R 247.741 Requests for hearing.

Rule 41. (1) A person aggrieved by any action or inaction of the department, other than the amount of compensation to be paid pursuant to the act, is entitled to a hearing before an officer appointed by the department upon filing a written request with the department within 20 days after the grievance arises.

(2) In his request for a hearing, a person aggrieved by the department's action or inaction under the provisions of these rules shall consolidate all related grievances which arose or accrued 10 days before the request.

(3) For the purposes of this rule, all violation notices against the same party shall be deemed related and all permit grievances brought by the same party shall be deemed related.

(4) A hearing shall be held not more than 30 days after the request is received by the department, unless good cause is shown by either party. The department shall notify the person of the hearing date, time, and place not less than 10 days before the hearing.

(5) In the notice of hearing required by subrule (4), the department shall set forth a statement of the legal authority under which the hearing is to be held and the particular sections of statutes and rules involved.

(6) The party requesting the hearing shall specify in the request the locations of

all signs to be considered and shall set forth a statement, which shall be placed in the notice of hearing, of the matters to be asserted by him or on his behalf at the hearing.

History: 1954 ACS 79, p. 11, Eff. June 18, 1974.

R 247.742 Representation.

Rule 42. A person may represent himself at a hearing or be represented by legal counsel and technical counsel. The department may be represented by the attorney general.

History: 1954 ACS 79, p. 12, Eff. June 18, 1974.

R 247.743 Opening statements, evidence and cross-examination.

Rule 43. (1) The hearing officer shall open the hearing with a concise statement of its nature and purpose. He shall follow the rules of evidence applicable to circuit court proceedings, but may admit and give probative effect to evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs.

(2) Evidence, including documents and records in possession of the department, which a party desires to present shall be accepted and made a part of the record. Documentary evidence may be received in the form of copies or excerpts or may be incorporated by reference.

(3) The parties have the right of cross-examination which includes the right to cross-examine the author of any document prepared for the use of the department and to offer the document as evidence and have the right to submit rebuttal evidence.

History: 1954 ACS 79, p. 12, Eff. June 18, 1974.

R 247.744 Official notice and evaluation of evidence.

Rule 44. The hearing officer may take official notice of judicially cognizable facts and of general technical and scientific facts within his specialized knowledge. The parties shall be notified at least 5 days before the hearing of material so noticed and shall have an opportunity to rebut the facts so noticed. The hearing officer may use his experience, technical competence and specialized knowledge in the evaluation of the evidence presented to him.

History: 1954 ACS 79, p. 12, Eff. June 18, 1974.

R 247.745 Exhibits.

Rule 45. (1) When evidence to be presented consists of matters so complex as to make testimony difficult to follow it may be presented in exhibit form, supplemented and explained, but not duplicated, by oral testimony. Documentary exhibits shall be typed on 1 side only on pages not more than 8½ by 11 inches, or multiples thereof, with a sufficient margin for binding on the left side of each page. An exhibit in excess of these dimensions shall be folded to be not more than 8½ inches by 11 inches. An exhibit of 2 or more pages shall be stapled together and a notation made at the top of the first page of the number of pages contained in the exhibit. An exhibit shall be numbered in numerical sequence regardless of the identity of the party offering it.

(2) A person introducing a documentary exhibit shall furnish 6 copies to the hearing officer.

(3) Additional documentary evidence may be submitted after the closing of the hearing upon stipulation of the parties.

History: 1954 ACS 79, p. 12, Eff. June 18, 1974.

R 247.746 Arguments and decisions.

Rule 46. (1) After all the evidence has been entered in the record the parties may summarize their arguments after which the hearing shall be closed.

(2) The department shall notify the person in writing of the hearing decision within 30 days after the hearing.

History: 1954 ACS 79, p. 12, Eff. June 18, 1974.

R 247.747 Appeals.

Rule 47. (1) A decision of the hearing officer may be appealed to the commission by written notice of appeal filed with the commission not more than 5 days after the officer renders his decision. On appeal to the commission, briefs may be filed by the person and the department 20 days after filing the notice of appeal.

(2) In rendering its decision, the commission shall consider the entire hearing record and briefs which may have been filed. The commission shall inform the person and the department of its decision by filing a copy of its written decision within 45 days after the date on which original briefs were filed, and by mailing a copy of its decision to the appellant.

(3) If the commission affirms the hearing officer's decision, either party may petition for judicial review in the appropriate state court.

History: 1954 ACS 79, p. 13, Eff. June 18, 1974.

GENERAL TRANSPORTATION FUND

(By authority conferred on the state highway commission by section 10g of Act No. 51 of the Public Acts of 1951, as added, being §247.660g of the Michigan Compiled Laws)

R 247.801 Definitions.

Rule 1. (1) The terms defined in the act have the same meanings when used in these rules.

(2) "Act" means sections 10 to 10j of Act No. 51 of the Public Acts of 1951, as amended, being §§247.660 to 247.660j of the Michigan Compiled Laws.

(3) "Annual application information" means the information required to be submitted annually to the bureau for an eligible authority or eligible governmental agency to participate in the following state fiscal year allocation of general transportation funds.

(4) "Bureau" means the bureau of urban and public transportation.

(5) "Commission" means the state highway commission.

(6) "Council" means the public transportation council established under section 10i of the act.

(7) "Department" means the department of state highways and transportation.

(8) "Downriver area of Wayne county" means the cities of Ecorse, Gibraltar, Lincoln Park, River Rouge, Riverview, Southgate, Trenton and Wyandotte, the township of Grosse Ile, and the township of Brownstown lying east of the city of Rockwood, as they existed on January 3, 1973.

History: 1954 ACS 84, p. 19, Eff. Aug. 5, 1975.

R 247.802 Submittal and approval process.

Rule 2. Annual and multiyear plans for financial assistance under the act shall be submitted in accordance with the following annual schedule:

Item	Responsibility	Annual Deadline
Annual application information	Bureau	August 1
Urban public transportation plan annual or multiyear	Eligible authority or eligible governmental agency	January 1
Review of annual public transportation plan	Agency responsible for land use and urban planning in the urban area	February 1
Review of submittals	Council	February 15
Approval of submittals	Commission	March 1
Statewide annual general transportation program to legislature	Commission	March 1
Approval of statewide annual general transportation program	Legislature	30 legislative session days after receipt of the plan
Preliminary federal capital program	Eligible authority or eligible governmental agency	May 1

History: 1954 ACS 84, p. 19, Eff. Aug. 5, 1975.

R 247.803 Eligibility.

Rule 3. (1) To establish eligibility, an eligible authority or eligible governmental agency shall submit documentation to the bureau which shows:

(a) That the applicant is legally furnishing transportation services in the area.

(b) The applicant has been established according to the Michigan Compiled Laws.

(2) Eligibility documentation means submission by the eligible authority or eligible governmental agency of:

(a) A resolution by the county, city, or village establishing an authority.

(b) The adopted bylaws and articles of incorporation, if any, of the eligible authority or eligible governmental agency requesting eligibility which indicates the specific duties, functions, and powers of the eligible authority or eligible governmental agency.

(c) A certified copy of the city or village charter permitting eligible governmental agencies to provide public transportation services.

(d) A resolution by the governing body of the eligible authority or eligible governmental agency requesting eligibility determination by the commission.

(3) Eligible governmental agencies established after January 3, 1973, and located within the area of legal responsibility of an eligible authority must submit a resolution from the eligible authority indicating that approval has been granted to make direct application under the act.

(4) Eligible governmental agencies in areas of under 50,000 people shall be eligible for public transportation purposes under the act, upon the written determination by the commission that public transportation services should reasonably be provided presently or in the future.

History: 1954 ACS 84, p. 20, Eff. Aug. 5, 1975.

R 247.804 Resolution of intent.

Rule 4. A resolution of intent to participate in the general transportation fund shall be enacted annually by the governing entity of the eligible authority or eligible governmental agency. This resolution shall encompass all of the following:

(a) Makes known the intent of the governing entity to provide public transportation services, in accordance with the act.

(b) Specifies that the governing entity requests state financial assistance under the provisions of section 10e of the act.

(c) Names an official who shall serve as the official representative of the governing entity and the commission on urban transportation matters.

(d) Authorizes the official representative to provide such information as deemed necessary by the commission for its administration of the act.

History: 1954 ACS 84, p. 20, Eff. Aug. 5, 1975.

R 247.805 Application approval.

Rule 5. (1) Annually the bureau shall issue application information to all eligible authorities and eligible governmental agencies. Each year the bureau shall update the annual application information from the previous year annual application information to reflect the views and comments of eligible governmental agencies, eligible authorities, the council and the commission.

(2) Within 30 days of receipt, the commission may approve or reject an annual or multiyear plan or application for general transportation funds by a written statement to the eligible authority or eligible governmental agency public body setting forth its reasons for the rejection. The commission may reject an annual or multiyear plan or application for general transportation funds if:

(a) The eligible authority or eligible governmental agency has failed to submit an application as outlined by the annual application information.

(b) The review process as prescribed by section 10f of the act and R 247.809 has not been met by the eligible authority or eligible governmental agency.

(c) The eligible authority or eligible agency is in default on terms and conditions of a contractual agreement entered into between it and the commission under R 247.811.

(d) The proposed annual or multiyear plan fails adequately to address the present or projected demand for transportation within the service area of eligible authority or eligible governmental agency.

(e) The eligible authority fails to meet the conditions for grants as prescribed by section 10j of the act.

(f) The eligible authority or eligible governmental agency fails to comply with the provisions of section 10e of the act.

(g) The eligible authority or eligible governmental agency has taken actions or failed to take actions which would tend to indicate it is not a responsible agency as required by section 10f of the act.

(h) The eligible authority or eligible governmental agency fails to meet the requirements of section 10h of the act.

History: 1954 ACS 84, p. 20, Eff. Aug. 5, 1975.

R 247.806 Eligible costs.

Rule 6. (1) Where the department has approved a demonstration project under section 10e of the act, the costs of providing service under the demonstration project shall be considered as eligible costs in the meaning of actual eligible operating costs for that action.

(2) Where the department has approved a demonstration project under section 10e of the act, the transit vehicle miles of service provided under the demonstration project shall be considered as eligible vehicle miles for the purposes of that section.

(3) Research, planning, program management, engineering, design, operation, maintenance, and capital costs are eligible costs for demonstration grants.

(4) Eligible costs for the purposes of receiving funds under subdivision (c) of subsection (1) of section 10e of the act may include:

(a) Depreciation of real and personal property to the extent purchased with local funds after January 3, 1973, as supported by IRS straight depreciation methods in IRS publication no. 534.

(b) Direct labor, material, and overhead expenses as well as expenses for contractual services directly incident to the management and operation of public transportation.

(c) Supportive services provided to the eligible authority or eligible governmental agency to the extent those costs are operating costs as intended by the act. A cost allocation plan shall document the basis for allocation of such supportive services expenses for public transportation. This plan shall be submitted to the bureau each year by eligible authorities and eligible governmental agencies as part of its annual application for approval.

(d) Expenses incurred by an eligible authority or an eligible governmental agency in the development of a program of projects where this technical support is unique to the operation or provision of public transportation or directs time and resources from the operation of the system. However, where this technical support duplicates staff capability of other agencies or where such support is provided by contract with another public or private entity, such expenses are ineligible.

(e) Pension benefits and contributions to a pension plan to the extent they are actually paid and are in conformance with section 10j of the act.

(f) Interest and other financial costs associated with borrowings to provide working capital to pay current operating costs pending receipt of state funds under subdivision (c) of subsection (1) of section 10e of the act. Interest income earned on working capital shall offset eligible operating costs.

(g) The operating costs of a transit system with whom the eligible authority or eligible governmental agency has an approved purchase of service agreement.

(5) Ineligible costs for the purposes of receiving funds under subdivision (c) of subsection (1) of section 10e shall include, but not be limited to:

(a) Expenses reimbursed by other state programs or other activities of the department or expenses reimbursed under subrules (1), (2), and (3).

(b) Expenses incurred by a county, city, or village in its capacity as an intermediary between the bureau and the eligible authority or eligible governmental agency.

(c) Provisions for income tax.

(d) Expenses reimbursed by insurance carriers or by a county, city, or village for insurance-type costs.

(e) Expenses recovered by the eligible authority or eligible governmental agency by contract or charter transportation services.

(f) Expenses reimbursed under federal programs excluding 49 U.S.C. (1604).

(6) Proceeds from the sale of capital equipment and facilities shall offset eligible costs under subrule (4) on a pro rata basis if the original equipment and facilities were purchased in part with funds received under the act.

(7) In addition to those items listed in subdivision (c) of subsection (1) of section 10e of the act, the commission may approve capital grants for those items necessary for public transportation if the unit cost of the item is $250.00 or more.

(8) Any category of operating cost not described above may be submitted to the bureau for a determination as to eligibility.

R 247.807 Transit vehicle miles and related operating cost eligibility.

Rule 7. (1) Transit vehicle miles and related operating costs qualify for reimbursement under section 10e of the act upon acceptance by the bureau of the information prescribed in subrule (2).

(2) Transit vehicle miles and related operating costs shall meet the following requirements:

(a) Service shall be provided over defined routes so that the general public is aware of the availability of the service, the origin-destination, headways, and schedules.

(b) Fare for the user shall be paid by the user either by cash, subscription, token, or charge card. The cash fare option shall always be available, if requested.

(c) There is reasonable uniformity in days of service for all routes.

(d) Service shall be available to the general public for all trip purposes. For example, a trip from an express pickup stop to a factory shall take passengers who will be making arrangements for trip transfer at the factory.

(e) If the operator publishes for general distribution schedules of routes and headways, all services shall be incorporated into this publication.

(f) The transit system shall provide reasonable evidence that it is encouraging the use of all services by all of the general public who might have an occasion to use them for any purpose.

History: 1954 ACS 84, p. 22, Eff. Aug. 5, 1975.

R 247.808 Quarterly certification.

Rule 8. (1) No later than 20 days of the end of each calendar year quarter, each eligible authority or eligible governmental agency shall prepare and submit to the department a quarterly report on its public transportation services during the preceding quarter according to format established by the bureau.

(2) In the quarterly report, the eligible authority or eligible governmental agency shall include a certification verifying that the costs and data submitted are correct and are in compliance with the other provisions of the act and the annual application guidelines as established by the department.

History: 1954 ACS 84, p. 22, Eff. Aug. 5, 1975.

R 247.809 Review process.

Rule 9. Each eligible authority or eligible governmental agency shall transmit to the department all comments received on the annual or multiyear plan through the review process as outlined in section 10f of the act.

History: 1954 ACS 84, p. 22, Eff. Aug. 5, 1975.

R 247.810 Annual report.

Rule 10. (1) Each eligible authority or eligible governmental agency shall file an annual report in the form prescribed by the bureau on or before September 30 of each year. The report shall contain as a minimum certified financial statements and the independent auditor's management letters and a progress report of all general transportation fund allocations made by the bureau for the preceding fiscal year.

(2) The financial statements shall be certified by an independent public accountant in accordance with subsection (4) of section 10h of the act. The scope of audit shall include but not be limited to:

(a) Verification of the accuracy of financial statements including reports filed under R 247.808. The information provided in R 247.808 shall be compared to the

certified financial statements and a written explanation for differences shall be prepared and filed with the bureau.

(b) Conformation of assets and liabilities.

(c) Test of receipts.

(d) Examination of expenditures for supporting documentation.

(e) Verification of the transit vehicle miles reported under R 247.808.

(f) Verification of the passenger ridership data reported under R 247.808.

(g) Identification of sources of revenues.

(h) Breakdown of costs and revenues by type of service; linehaul, demand-response, contract, and charter.

(i) For capital and demonstration projects, all costs applicable should be identified according to bureau project identification number and verified according to the current contract agreement on each project.

(j) Verification of administrative and overhead rates and costs used in determination of capital and demonstration projects.

(k) Verification of eligible costs as defined by R 247.806.

(l) Compliance with rules and regulations and the act as annually set forth by the bureau in the annual report instructions and annual application guidelines.

History: 1954 ACS 84, p. 22, Eff. Aug. 5, 1975.

R 247.811 Contractual agreements.

Rule 11. The commission shall require a contractual agreement for approved projects under subdivisions (d) and (e) of subsection (1) of section 10e of the act. The agreement shall not become binding under this rule until approved by the state administrative board.

History: 1954 ACS 84, p. 23, Eff. Aug. 5, 1975.

R 247.812 Declaratory rulings.

Rule 12. (1) The department, on request of an interested person, may issue a declaratory ruling as to the applicability of the act or a rule to an actual statement of facts when the person submits to the department the following:

(a) A clear and concise statement of the actual statement of facts.

(b) If the interested person desires, a brief or other reference to legal authorities upon which he relies for determination of the applicability of the act or a rule to the statement of facts.

(2) If the department determines it will issue a declaratory ruling, it shall furnish the person with a statement to that effect and set forth the time in which it will issue the ruling.

(3) A ruling shall repeat the actual statement of facts, the legal authority on which the department relies for its ruling and the ruling it makes. A ruling once issued is binding on the department and the department may not change the ruling retroactively, but it may change a ruling prospectively.

History: 1954 ACS 84, p. 23, Eff. Aug. 5, 1975.

R 247.813 Grant administration.

Rule 13. The commission may adjust project funds awarded under section 10h of the act or may adjust project quantities or alter the project scope if:

(a) Federal funds necessary for the completion of the project are not awarded.

(b) The actual general transportation fund revenues available for commitment fall below the estimated general transportation fund revenues on which a grant commitment was made.

(c) The actual cost of the project varies from the estimated costs on which a grant commitment was made.

(d) Revisions to the annual urban public transportation plan are requested by an eligible authority or eligible governmental agency and reviewed according to section 10f of the act.

History: 1954 ACS 84, p. 23, Eff. Aug. 5, 1975.

R 247.814 Grant commitments.

Rule 14. (1) The commission may refuse to honor a grant commitment to an eligible authority or eligible governmental agency for general transportation funds if the eligible authority or eligible governmental agency fails to comply with the act or these rules or the department's annual application guidelines. Before entering an order of refusal or rejection, the department shall notify the eligible authority or eligible governmental agency by certified mail of the commission's decision in a notice of intent to refuse to honor or to reject for deficiencies. This notice shall toll the running of a 30-day period during which the eligible authority or eligible governmental agency shall undertake to correct the deficiencies.

(2) The final decision shall be by further order.

(3) An order of rejection shall be entered automatically after 30 days following the date of mailing of the notice of intent to reject, unless the eligible authority or eligible governmental agency corrects the deficiencies to the department's satisfaction within that time or the department extends the time to correct to a day certain.

DEPARTMENT OF STATE

VISUAL STANDARDS FOR MOTOR VEHICLE DRIVERS' LICENSES

(By authority conferred upon the secretary of state by section 309 of Act No. 300 of Public Acts of 1949, as amended, being §257.309 of the Michigan Compiled Laws)

R 257.1 Vision examinations.

Rule 1. A driver's license applicant and a licensed driver examined as required under chapter 3 of Act No. 300 of the Public Acts of 1949, as amended, being §§257.301 to 257.327 of the Michigan Compiled Laws, in order to be licensed shall successfully pass a vision test authorized or administered by the department and meet other requirements of law. Whenever required hereunder, he shall submit a statement of examination on a form prescribed by or acceptable to the department which shall contain the name, address, title, and signature of an ophthalmologist or an optometrist, and the full name, address, date of birth, result of the examination, date of examination, and signature of the applicant.

History: 1954 ACS 81, p. 17, Eff. Nov. 13, 1974.

R 257.2 Unrestricted drivers' licenses.

Rule 2. An unrestricted driver's license may be issued to an applicant or licensee who has visual acuity of 20/40 and a peripheral field of vision of 140 degrees. Visual acuity less than 20/40 to and including 20/50 and a peripheral field of vision of 140 degrees or less to and including 110 degrees may be accepted if the applicant or licensee submits a statement of examination on a form prescribed by or acceptable to the department signed by an ophthalmologist or optometrist.

History: 1954 ACS 81, p. 17, Eff. Nov. 13, 1974.

R 257.3 Restricted drivers' licenses.

Rule 3. (1) A restricted driver's license requiring the driver to wear appropriate corrective lenses while driving may be issued if corrective lenses are necessary to meet any vision requirement.

(2) A restricted driver's license permitting daylight driving only may be issued if an applicant or licensee submits a statement from an ophthalmologist or optometrist stating 1 of the following:

(a) He has visual acuity less than 20/50 to and including 20/70 with no recognizable progressive abnormalities affecting vision.

(b) He has visual acuity less than 20/50 to and including 20/60 with recognizable progressive abnormalities affecting vision.

(3) A restricted driver's license containing additional conditions and requirements may be issued to an applicant or licensee who has a peripheral field of vision of less than 110 degrees to and including 90 degrees. The applicant or licensee shall pass any driving test specified by the department.

(4) A restricted driver's license may contain additional conditions and requirements.

History: 1954 ACS 81, p. 17, Eff. Nov. 13, 1974.

R 257.4 Denial or suspension of drivers' licenses.

Rule 4. A driver's license shall be denied or supended indefinitely if an applicant or licensee has visual acuity less than 20/60 with recognizable progres-

sive abnormalities affecting vision; visual acuity less than 20/70 without recognizable progressive abnormalities affecting vision; visual acuity of 20/100 or less in 1 eye and less than 20/50 in the other; or a peripheral field of vision less than 90 degrees.

History: 1954 ACS 81, p. 18, Eff. Nov. 13, 1974.

R 257.5 Additional examinations.

Rule 5. The department may require an additional examination of the applicant or licensee.

History: 1954 ACS 81, p. 18, Eff. Nov. 13, 1974.

DEALER LICENSING DIVISION

DEALER DESIGNATION RULES

(By authority conferred on the secretary of state by section 204 of Act No. 300 of the Public Acts of 1949, being §257.204 of the Michigan Compiled Laws)

R 257.21 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 300 of the Public Acts of 1949, as amended, being §257.1 et seq. of the Michigan Compiled Laws.

(b) "Field office" means an office of the secretary of state where a dealer makes application to the secretary of state for titles, transfers or secures registration plates, and secures a certificate of registration for a vehicle, in the name of the transferee.

(2) The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 92, p. 6, Eff. Aug. 6, 1977.

R 257.22 Designation of field office.

Rule 2. The secretary of state shall designate to each dealer the only field office or field offices at which the dealer shall conduct business.

History: 1954 ACS 92, p. 6, Eff. Aug. 6, 1977.

DRIVER LICENSE APPEAL DIVISION

GENERAL RULES

(By authority conferred on the secretary of state by section 33 of Act No. 306 of the Public Acts of 1969, and by section 204 of Act No. 300 of the Public Acts of 1949, being §§24.233 and 257.204 of the Michigan Compiled Laws)

R 257.31 Definitions.

Rule 1. (1) The terms and definitions used in the act have the same meaning given therein when used in these rules.

(2) "Act" means Act No. 300 of the Public Acts of 1949, as amended, being §257.1 et seq. of the Michigan Compiled Laws.

(3) "Administrator" means the secretary of state or the duly authorized representative thereof.

(4) "Hearing" means an appeal as provided in section 322 of the act, or a proceeding as provided in section 625f of the act.

(5) "Hearing officer" means the individual appointed by the secretary of state to hold a hearing.

(6) "Petitioner" means an individual qualifying for a hearing pursuant to the act.

History: 1954 ACS 89, p. 5, Eff. Nov. 3, 1976.

R 257.32 Requests for hearing; contents; notice of denial.

Rule 2. (1) Requests for hearings shall be in writing and shall be received by the department within 14 days as provided in sections 322 or 625e of the act. The request shall include the petitioner's full name, date of birth, and, if known, driver's license number.

(2) If the request is denied, within a reasonable time the administrator shall notify the petitioner requesting the hearing and state the reason or reasons for the denial.

History: 1954 ACS 89, p. 5, Eff. Nov. 3, 1976.

R 257.33 Notice of hearing; contents.

Rule 3. (1) After a timely and proper request for hearing, the administrator shall schedule a hearing to be held within a reasonable time, except as provided by section 625f of the act.

(2) At least 10 days prior to the day of hearing, the administrator shall mail a written notice of hearing, by first class mail, to the last known address of the petitioner requesting the hearing.

(3) The notice of hearing shall include:

(a) The date, time, place, and nature of the hearing.

(b) The legal authority under which the hearing is being held.

(c) A reference to the particular sections of the statutes and rules involved.

(d) A short, plain statement of the matters asserted.

(e) In the case of an implied consent hearing, the issues that the hearing shall cover, as provided in section 625f of the act.

History: 1954 ACS 89, p. 5, Eff. Nov. 3, 1976.

R 257.34 Withdrawal of request for hearing; adjournments.

Rule 4. (1) A petitioner requesting a hearing may withdraw that request, in writing, up to the time of the hearing.

(2) After a hearing date has been set by the administrator, it shall not be adjourned except by action of the administrator or the hearing officer.

(3) A request for an adjournment shall be in writing and shall state concisely the reason or reasons why an adjournment is necessary. A request for an adjournment shall be received by the administrator not less than 2 business days prior to the date of the hearing. The hearing officer may grant an adjournment at any time, including the day of the hearing. An adjournment shall be granted only for reasonable cause, to be determined by the administrator or hearing officer.

History: 1954 ACS 89, p. 5, Eff. Nov. 3, 1976.

R 257.35 Subpoenas; issuance; service; witness fees; enforcement.

Rule 5. (1) Upon written request of a petitioner, the hearing officer may sign and issue a subpoena.

(2) The responsibility for service of the subpoena, determination of expert witness fees, payment of witness fees, and enforcement of the subpoena shall be solely with the petitioner requesting the subpoena.

(3) To enforce a subpoena, the petitioner may file a petition for an order requiring compliance in the circuit court for the county in which the hearing is held.

(4) A subpoena shall issue on a form prescribed by the administrator.

History: 1954 ACS 89, p. 6, Eff. Nov. 3, 1976.

R 257.36 Appearance by petitioner.

Rule 6. A petitioner shall appear at a hearing and may be accompanied by counsel or other interested persons.

History: 1954 ACS 89, p. 6, Eff. Nov. 3, 1976.

R 257.37 Rehearing; time; effect of failure to appear.

Rule 7. (1) After a hearing has been held or a request for a hearing has been withdrawn, another hearing on the same matter shall not be held until 1 year from the hearing date or withdrawal date, unless the administrator or hearing officer provides otherwise.

(2) A hearing shall commence not later than 20 minutes after the scheduled hearing time, except for reasonable cause to be determined by the administrator or hearing officer.

(3) If a police officer fails to appear within 20 minutes of the scheduled hearing time of an implied consent hearing, the matter shall be dismissed, whether or not the petitioner appears, except for reasonable cause to be determined by the administrator or hearing officer.

History: 1954 ACS 89, p. 6, Eff. Nov. 3, 1976.

R 257.38 Record of hearing; transcript; fee; request; reprocessing of tape recording.

Rule 8. (1) A record shall be made of the hearing. A written transcript shall be provided upon demand by a petitioner.

(2) A fee, as provided in section 813 of the act, shall be charged to a petitioner requesting a transcript.

(3) A request for a transcript of a hearing shall be made in writing within 30 days from the hearing, and shall include the full name, date of birth, date of hearing, and, if known, the driver's license number of the petitioner.

(4) The administrator may reprocess the tape recording of a hearing if a request for a transcript has not been received by the administrator.

History: 1954 ACS 89, p. 6, Eff. Nov. 3, 1976.

R 257.39 Rescission.

Rule 9. The rules for conducting hearings held by the license appeal board, being R 11.51 to R 11.55 of the Michigan Administrative Code and appearing on page 177 of the 1956 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 89, p. 6, Eff. Nov. 3, 1976.

BUREAU OF DRIVER AND VEHICLE SERVICES

ADMINISTRATIVE SERVICES DIVISION

SPECIAL FARM VEHICLE PERMIT

(By authority conferred on the secretary of state by section 216 of Act No. 300 of the Public Acts of 1949, as amended, being §257.216 of the Michigan Compiled Laws)

Digitized by Google

R 257.51 Special farm vehicle permit.

Rule 1. (1) In order to obtain a special farm vehicle permit, an applicant shall submit to the secretary of state all of the following:

(a) A Michigan title to the vehicle, a completed application for title, a Michigan registration for the previous year, or other acceptable proof of ownership.

(b) Acceptable proof of insurance.

(c) A completed application for a special farm vehicle permit.

(2) An application form shall be provided by the secretary of state. A completed application shall include all of the following:

(a) The owner's name and address.

(b) The make and model of the vehicle.

(c) The vehicle identification number.

(d) A statement signed by the owner certifying that the vehicle is to be used exclusively for gratuitously transporting farm crops between the field where produced and the place of storage.

(e) Photographs of the vehicle illustrating the features of the vehicle which indicate that the vehicle is designed for transporting farm crops.

(3) Only a vehicle with a bin that is unsuitable for transporting goods other than farm crops is eligible for the special farm vehicle permit authorized by this rule.

(4) The permit shall be a metal license plate securely fastened in a horizontal position to the rear of the vehicle for which it is issued, in a place and position to be clearly visible.

(5) A special farm permit shall expire on the last day of December except a permit obtained after December 1 shall expire on the last day of December of the next year.

(6) The fee for the permit shall be $15.00.

(7) The permit is not transferable between vehicles.

(8) A replacement for a lost, stolen, or mutilated permit may be obtained by submitting a completed application and $1.00 to the secretary of state.

History: 1954 ACS 94, p. 14, Eff. Dec. 20, 1977.

BUREAU OF AUTOMOTIVE REGULATION

GENERAL RULES

(By authority conferred on the secretary of state by section 9 of Act No. 300 of the Public Acts of 1974, being §257.1309 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 257.101 Definitions.

Rule 1. (1) The terms and definitions used in the act have the same meaning given therein when used in these rules.

(2) "Act" means Act No. 300 of the Public Acts of 1974, as amended, being §257.1301 et seq. of the Michigan Compiled Laws.

(3) "Advertise" means to advise, announce, apprise, command, give notice of, inform, make known, or publish any material which calls to the attention of the public the availability of parts and services.

(4) "Contract" means a written or oral agreement, understanding, arrangement or similar circumstances whereby a person agrees that another person perform work, labor, diagnosis, repair, reconditioning, replacement, adjustment, or alteration, directly or indirectly, upon a motor vehicle.

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(5) "Customer" means a person who inquires about, makes a request for, or purchases parts or services from a motor vehicle repair facility or one who seeks repairs or services under the terms of a warranty.

(6) "Estimate" means a written statement itemizing as closely as possible the price for labor, by showing both the labor price and the number of hours required to perform the work, and the price of parts necessary for a specific repair.

(7) "Facility" means a place of business operated by an association, incorporated or unincorporated, or natural person or other legal entity, required to be registered under the act, which performs services for compensation directly or indirectly, with regard to motor vehicle repairs.

(8) "Lien" means a charge, security, or incumbrance upon a motor vehicle, including where the law itself, without the stipulation of the parties, raises an implication or legal consequence from the relation of the parties or the circumstances of their dealings.

(9) "Material fact" means a fact which is used by a person as a premise upon which a conclusion is based.

(10) "Person" means a natural person, corporation, trust, partnership, incorporated or unincorporated association, or other legal entity, including a motor vehicle repair facility.

(11) "Repair" means the reconditioning, adjustment, alteration, maintenance, or diagnosis of the operating condition of a motor vehicle, with or without the replacement of any component or subassembly of a motor vehicle, for compensation or under the terms of a warranty.

(12) "Representation" means a statement made by a facility to a customer in regard to some past, present, or future fact, circumstance, or set of facts pertinent to the contract.

(13) "Warranty" means a guarantee given by a motor vehicle repair facility, in writing or by implication, of the merchantability, the integrity of the subject of a contract or of the maker's responsibility for the replacement or repair of defective parts or services, or both, assuring performance, product, or conditions as promised or declared.

History: 1954 ACS 86, p. 12, Eff. Mar. 1, 1976.

R 257.102 Public access to records.

Rule 2. (1) Access to records shall be in accordance with sections 21 and 22 of Act No. 306 of the Public Acts of 1969, being §§24.221 and 24.222 of the Michigan Compiled Laws.

(2) Requests for access to records shall be in writing and shall identify the specific record. A request will be regarded as identifiable if the department can reasonably ascertain the particular record without unduly interfering or burdening its operations.

(3) The administrator shall grant or deny a request for records within a reasonable time after its receipt.

(4) A denial of a written request for a record shall be in writing and shall state specific grounds for the denial.

(5) Where the production of identifiable records of the department is denied, a person may petition the circuit court for the county in which the department records are situated for relief.

(6) There shall be a reasonable charge for the reproduction and mailing of identifiable records.

History: 1954 ACS 86, p. 13, Eff. Mar. 1, 1976.

R 257.103 Address of administrator.

Rule 3. The official address of the administrator for delivery and receipt of all mail, telegrams, information, filings, registrations, applications, and other material required by the act or these rules is:

Department of State
Bureau of Automotive Regulation
Lansing, Michigan 48918

History: 1954 ACS 86, p. 13, Eff. Mar. 1, 1976.

R 257.104 Declaratory rulings.

Rule 4. (1) The administrator, on request of an interested person, may issue a declaratory ruling as to the applicability to an actual statement of facts of the act or a rule herein when he submits to the administrator the following:

(a) A clear and concise statement of the actual statement of facts.

(b) If the interested person desires, a brief or other reference to legal authorities upon which he relies for determination of the applicability of the act or a rule to the statement of facts.

(2) The administrator, if he determines to issue a declaratory ruling, shall furnish the person with a statement to that effect and set forth the time in which the ruling will be issued.

(3) A ruling shall repeat the actual statement of facts, the legal authority on which the department relies for its ruling, if any, and the ruling it makes. A ruling once issued is binding on the administrator and he may not retroactively change the ruling, but nothing in this rule shall prohibit the administrator from prospectively changing a ruling.

History: 1954 ACS 86, p. 13, Eff. Mar. 1, 1976.

PART 2. MAJOR AND MINOR REPAIRS

R 257.111 Minor repair services.

Rule 11. Minor repair services shall include the changing or installing of light bulbs, tires, lamp globes, batteries, air filters, oil filters, windshield wiper blades, fan or power assist belts, minor or ornamental accessories, or lubrication, oil changes, or other activities incidental to the business of selling motor fuel and lubricants. It shall also include the replacement, adjustment, repair, or servicing of the following parts and assemblies:

(a) Air cleaner element.
(b) Air conditioner compressor belts.
(c) Air pump belt.
(d) Air pump hose.
(e) Antifreeze, installing, changing, or otherwise servicing the coolant.
(f) Automatic door lamp switch.
(g) Battery.
(h) Battery ground cable.
(i) Battery hold down strap.
(j) Battery positive cable.
(k) Battery to starter relay cable.
(l) Body repairing.
(m) Brake, pedal pads.
(n) Carburetor, air cleaner.
(o) Clutch pedal pads.
(p) Crankcase closed vent valve.

(q) Crankcase vent air cleaner.
(r) Crankcase vent air cleaner hose.
(s) Exhaust pipe and associated attaching parts.
(t) Fan and alternator drive belts.
(u) Fuel filter.
(v) Fuel line flex hoses or lines.
(w) Fuses.
(x) Headlamp foot dimmer.
(y) Heater hoses.
(z) Horns.
(aa) Idler pulley, adjust only.
(bb) Ignition coil cable.
(cc) Muffler, except catalytic.
(dd) Oil filter.
(ee) Power steering pump belt.
(ff) Radiators.
(gg) Radiator hoses, upper and lower.
(hh) Radiator reserve tank.
(ii) Shock absorbers which are not built in combination with other parts of the suspension.
(jj) Spark plugs.
(kk) Tail pipe and associated attaching parts.
(ll) Trunk latch.
(mm) Vapor canister hose.
(nn) Wheel covers or hubcaps.
(oo) Wheels, except alignment.
(pp) Windshield washer hose.
(qq) Windshield washer motor.
(rr) Windshield washer tank.
(ss) Wiper blades.

R 257.112 Motor vehicle repair not defined as minor repair service.

Rule 12. A motor vehicle repair, not defined in the act or in these rules as a minor repair service, shall be performed, inspected, and approved after January 1, 1978, by a master or specialty mechanic certified in the category of the repair.

History: 1954 ACS 86, p. 14, Eff. Mar. 1, 1976; 1954 ACS 94, p. 16, Eff. Jan. 14, 1978.

PART 3. REGISTRATION OF FACILITIES

R 257.121 Motor vehicle repair facility registration; applicant; description of facility; effective and expiration dates; renewal; operation after expiration date.

Rule 21. (1) An applicant for registration as a motor vehicle repair facility shall submit to the administrator a description of the facility to be registered which shall include, in addition to other information required by the act or these rules, all of the following information:
(a) The type of service business operated.
(b) The type of repairs performed.
(c) The type of vehicles serviced.
(d) The number of mechanics employed in the performance of motor vehicle repairs.

(e) The range of gross revenue obtained from the performance of motor vehicle repairs, including parts and goods sold in conjunction with motor vehicle repairs, for the most recent federal income tax year.

(f) The size of the facility in terms of the number of square feet devoted to the performance of motor vehicle repairs.

(2) A motor vehicle repair facility registration shall take effect on the date it is approved by the administrator and shall expire 1 year from that date, except that an original registration issued prior to October 1, 1976, shall expire on September 30, 1977, and an original registration issued after October 1, 1976, to a business operating as a motor vehicle repair facility on or prior to October 1, 1976, shall be deemed to be effective as of October 1, 1976, and shall expire on September 30, 1977. A motor vehicle repair facility registration shall be renewed annually, and a motor vehicle repair facility shall file application for renewal with the administrator not later than 30 days prior to the expiration of its registration.

(3) A motor vehicle repair facility may continue to operate after the expiration date, pending approval of the renewal application, if the renewal application has been received by the administrator on or before the expiration date. If a renewal application is filed after the expiration date, the facility may operate from the day on which the application is received by the administrator, pending approval of the renewal application. A renewal fee of 1½ times the normal renewal fee shall be imposed if the application is received by the administrator after the expiration date.

History: 1954 ACS 86, p. 14, Eff. Mar. 1, 1976; 1954 ACS 94, p. 16, Eff. Jan. 14, 1978.

R 257.122 Forms; documents; records; inspection.

Rule 22. (1) Applications, renewal applications, and applications for a duplicate registration shall be submitted on forms provided by the administrator.

(2) A motor vehicle repair facility shall provide with the application for registration 1 copy each of contracts or other papers used by the facility in dealing with the public in the execution of estimates, diagnoses, repairs, invoices, warranties, waivers, and papers otherwise used to comply with the act or rules, including papers upon which the facility routinely requires the customer's signature.

(3) A motor vehicle repair facility shall maintain for a period of not less than 1 year subsequent to the completion of a repair transaction, copies of contracts and papers used with respect to the transaction in the execution of estimates, diagnoses, repairs, waivers, warranties, including other means used by the facility to record or convey the terms of the transaction, or other papers required by the act. If the facility is advised by the administrator that a complaint has been received and is under investigation by the administrator, records relating to the transaction at issue shall be maintained until the administrator advises the repair facility in writing that the complaint has been closed, but in no case shall the records be maintained for less than 1 year subsequent to the transaction. In the event that a repair service transaction involves the assumption by the facility of an obligation extending beyond 1 year, papers relating to that obligation shall be maintained for not less than the term of the obligation.

(4) A facility shall maintain posted business hours during which time the administrator or his designated representatives may inspect all records kept by the facility.

R 257.123 Change of ownership.

Rule 23. (1) In the event of a change of ownership of a repair facility, a new registration and payment of a new registration fee shall be required and the facility shall not operate until its application is approved by the administrator. For purposes of this rule, "change of ownership" means a change in the ownership of a facility which is either a sole proprietorship or partnership.

(2) Corporations which have a change of 10% or more of the ownership of the corporation shall notify the administrator of the change within 30 days.

History: 1954 ACS 86, p. 15, Eff. Mar. 1, 1976.

R 257.124 Registration fee; determination.

Rule 24. The fee for the registration of a motor vehicle repair facility shall accompany the facility's application for registration filed with the administrator. The fee shall be determined by a sliding fee scale based upon all of the following:

(a) The size of the facility in terms of square feet devoted to the performance of motor vehicle repairs.

(b) The number of mechanics employed in the performance of motor vehicle repairs.

(c) The range of gross revenue obtained from the performance of motor vehicle repairs, including parts and goods sold in conjunction with repairs, for the last federal income tax year. In the case of a business which has not completed a full federal income tax year, the range of gross revenue shall be based on the reasonably anticipated gross revenue for the first full federal income tax year of operation.

History: 1954 ACS 86, p. 15, Eff. Mar. 1, 1976; 1954 ACS 94, p. 16, Eff. Jan. 14, 1978.

R 257.125 Registration fee schedule; renewal fee; loss, destruction, or mutilation of registration; replacement registration.

Rule 25. (1) Fees shall range from $25.00 to a maximum of $300.00 as determined by the following schedule:

Gross Annual Revenue	Facility Area Over 500 Square Feet		Facility Area Under 500 Square Feet	
	1 to 3 Mechanics	Over 3 Mechanics	1 to 3 Mechanics	Over 3 Mechanics
	Fee	Fee	Fee	Fee
Under $15,000.00	$ 35	$ 40	$ 25	$ 30
$ 15,000.00 to $ 25,000.00	$ 50	$ 60	$ 40	$ 45
$ 25,000.01 to $ 40,000.00	$ 75	$ 85	$ 60	$ 65
$ 40,000.01 to $ 60,000.00	$100	$110	$ 75	$ 85
$ 60,000.01 to $ 80,000.00	$125	$135	$ 90	$100
$ 80,000.01 to $100,000.00	$150	$160	$115	$125
$100,000.01 to $120,000.00	$175	$185	$140	$150
$120,000.01 to $140,000.00	$200	$210	$165	$175

Gross Annual Revenue	Facility Area Over 500 Square Feet		Facility Area Under 500 Square Feet	
	1 to 3 Mechanics	Over 3 Mechanics	1 to 3 Mechanics	Over 3 Mechanics
$140,000.01 to $160,000.00	$225	$235	$190	$200
$160,000.01 to $180,000.00	$250	$260	$215	$225
$180,000.01 to $200,000.00	$275	$285	$240	$250
Over $200,000.00	$300	$300	$265	$275

(2) The annual registration renewal fee for a motor vehicle repair facility shall be determined in the same manner and according to the same schedule as the original registration fee.

(3) In the event that a registration issued to a motor vehicle repair facility is lost, destroyed, or mutilated, the facility shall immediately apply to the administrator for a replacement registration. The application for a replacement registration shall be accompanied by payment of a $5.00 fee.

History: 1954 ACS 86, p. 16, Eff. Mar. 1, 1976; 1954 ACS 94, p. 17, Eff. Jan. 14, 1978.

R 257.126 Display of certificate of registration; registration number; consumer information sign; contents; specifications; display; replacement.

Rule 26. (1) A motor vehicle repair facility shall display, upon issuance, in a place and manner conspicuous to its customers, a current and valid certificate of repair facility registration issued by the administrator. The facility shall affix its registration number, as assigned by the administrator, to each copy of every contract or other paper used in dealing with the public in the execution of estimates, diagnoses, repairs, invoices, warranties, waivers, and other papers used to comply with the act or these rules.

(2) A motor vehicle repair facility shall display a consumer information sign. The sign shall contain 15 lines of lettering worded substantially as follows:

THIS ESTABLISHMENT IS REGISTERED WITH
THE MICHIGAN DEPARTMENT OF STATE
AND IS REQUIRED BY LAW TO FURNISH
A CUSTOMER WITH A:
(1) WRITTEN ESTIMATE IF REPAIRS WILL BE $20 OR MORE
OR UPON REQUEST IF REPAIRS WILL BE LESS THAN $20.
(2) DETAILED INVOICE OF LABOR AND
PARTS SUPPLIED.
QUESTIONS REGARDING SERVICE WORK SHOULD BE
DIRECTED FIRST TO THE MANAGER OF THIS
REPAIR FACILITY.
MICHIGAN DEPARTMENT OF STATE
P.O. BOX _____, LANSING, MI 489_____
TOLL-FREE TELEPHONE: 800 _____
MON.-FRI., 8:30 A.M.-4:30 P.M.

(3) The sign shall be rectangular in shape and not less than 28 inches high by 24 inches wide. It shall be constructed of durable material. The background shall be white. Print and other markings shall be black. The wording of the sign in lines 1, 2, 12, 13, and 14 shall be printed in bold, block, capital letters 1-inch high and

½-inch wide; lines 3, 4, and 15 in bold, block, capital letters ¾-inch high and ½-inch wide; and lines 5 to 11 in bold, block, capital letters ½-inch high and ⅜-inch wide. The sign shall be laid out in a clearly legible fashion, with the lettering arranged so that there is not less than a ⅛-inch space between any 2 letters within a line and not less than a ½-inch space between any 2 lines. The department of state address and telephone numbers in lines 13 and 14 shall be included as they are provided by the administrator.

(4) The sign shall be displayed at each entrance to the facility. For purposes of this rule, "entrance to the facility" means each location in or about the facility where customer repair service orders are initially executed. The sign shall be displayed at each cashier station. At all times, the sign shall be unobstructed and clearly and readily visible to customers. In the case of an unenclosed or mobile repair facility, the sign shall be placed in an area where it is easily noticeable to customers transacting business with the facility.

(5) The administrator may require the replacement of any sign which fails to meet the specifications outlined above or which is no longer readily legible, or the repositioning of any sign which is improperly displayed.

History: 1954 ACS 86, p. 16, Eff. Mar. 1, 1976; 1954 ACS 94, p. 17, Eff. Jan. 14, 1978.

PART 4. UNFAIR AND DECEPTIVE PRACTICES

R 257.131 Contracts and invoices.

Rule 31. (1) The following contracts are unfair and deceptive:

(a) A contract which uses a waiver to circumvent or evade the act.

(b) A contract which takes advantage of a customer's inability to reasonably protect his interests on account of illiteracy or inability to understand the language of an agreement, if the facility knows or reasonably should know of the customer's inability.

(c) A contract which has gross discrepancies between the oral representations of the facility and the written agreement covering the same transaction.

(2) It is an unfair and deceptive practice to:

(a) Make, either written or orally, an untrue or misleading statement of a material fact.

(b) Fail to reveal a material fact, the omission of which tends to mislead or deceive the customer and which fact could not reasonably be known by the customer.

(c) Enter into a contract which attempts to abrogate, disclaim, or disallow the legal rights, obligations, or remedies of a customer.

(d) Allow a customer to sign an acknowledgment, certificate, or other writing which affirms acceptance, delivery, compliance with a requirement of law, or other performance, if the facility knows or has reason to know that the statement is not true.

(e) Set up contractual provisions, including the statement of repairs and waivers, which are not specific in language, clearly described, or reasonably legible.

(f) Attempt to avoid or evade the law through a contract or any provision thereof.

(g) Fail to promptly restore to the person entitled thereto any deposit, down payment, or other payment when a contract is rescinded, cancelled, or otherwise terminated in accordance with the terms of the contract or the act.

(h) Allow a customer to sign a document in blank relating to the repair of a motor vehicle.

(i) Fail to give the customer a copy of a document evidencing the engagement of the facility at the time of its signing by the customer.

(j) Fail upon return of a repaired vehicle to the customer to give a written statement of repairs to the customer which disclose:

(i) Repairs needed, as determined by the facility.

(ii) Repairs requested by the customer.

(iii) Repairs authorized by the customer.

(iv) The facility's estimate of repair costs.

(v) Actual costs of repairs.

(vi) Repairs or services performed, including a detailed identification of all parts that were replaced and a specification as to which are new, used, rebuilt, or reconditioned.

(vii) A certification that authorized repairs were completed properly or a detailed explanation of an inability to complete repairs properly. The statement shall be signed by the owner of the facility or by a person designated by the owner to represent the facility. The name of the mechanic who performed the diagnosis and the repair shall appear on the statement.

History: 1954 ACS 86, p. 17, Eff. Mar. 1, 1976.

R 257.132 Repair and parts replacement; performance, disclosure, and representation.

Rule 32. It is an unfair and deceptive practice to:

(a) Charge for repairs that are in fact not performed.

(b) Perform repairs which are in fact not necessary, except when a customer insists that a repair be performed in disregard to the facility's advice that it is unnecessary.

(c) Represent, directly or indirectly, that repairs are necessary when in fact they are not.

(d) Perform repairs not specifically authorized.

(e) Fail to perform promised repairs within the period of time agreed, or within a reasonable time, unless circumstances beyond the control of the repair facility, of which the repair facility did not have reason to know at the time of consignment, prevent the timely performance of the repairs.

(f) Represent, either directly or indirectly, that a replacement part used in the repair of a vehicle is new or of a particular manufacture when in fact it is used, rebuilt, reconditioned, deteriorated, or of a different manufacture, or otherwise fail to disclose in writing, prior to the commencement of repairs, the use of used, rebuilt, or reconditioned parts.

(g) Replace a part with one that lacks merchantability or fitness, or represent that parts or components provided or repairs performed are of a particular standard or grade when in fact they are not.

(h) Fail, subsequent to a diagnosis for which a charge is made, to disclose, at the customer's request, a diagnosed or suspected malfunction together with the recommended remedy and any test, analysis, or other procedure employed to determine the malfunction.

History: 1954 ACS 86, p. 18, Eff. Mar. 1, 1976.

R 257.133 Warranties.

Rule 33. It is an unfair and deceptive practice to:

(a) Disclaim or limit the implied warranty of merchantability or fitness for use, unless excluded or modified pursuant to §2316 of the Uniform Commercial

Code, Act No. 174 of the Public Acts of 1962, being §440.2316 of the Michigan Compiled Laws.

(b) Fail to extend the period of a repair facility's own warranty for repairs and services, if the customer has been deprived of the use or enjoyment of the subject of the warranty because of a failure on the part of the repair facility to comply completely with the terms of the warranty. The extension shall be equal to or greater than the time of the deprivation.

(c) Fail to honor a warranty on a new part by replacing it with a used part or replacing it with a rebuilt or remanufactured part which does not meet original equipment quality, standards, or specifications.

(d) Fail to honor an express warranty.

(e) Fail to disclose in written language which is clear as to the nature or scope of a warranty all material aspects and intent, including, but not limited to, what is warranted, who will honor the warranty, the duration of the warranty, obligations, if any, of the person to whom the warranty is extended, and exceptions and exclusions from the terms of the written warranty agreement.

History: 1954 ACS 66, p. 18, Eff. Mar. 1, 1976.

R 257.134 Advertising and representations.

Rule 34. It is an unfair and deceptive practice to advertise or represent, either directly or indirectly:

(a) Reduced prices for products or services and not sell them at the advertised price during the period of the offering.

(b) Products or services at a particular price during a particular period and fail to extend the offer beyond that period to persons seeking but not obtaining the products or services during the advertised period because the facility has failed to prepare for the reasonably expected public demand.

(c) That a customer will receive products or services "free," "without charge," or words of similar import, if there are undisclosed conditions, terms, or limitations attached to the offering.

(d) Products or services while failing to reveal a material fact, the omission of which tends to mislead or deceive the customer, and which fact could not reasonably be known by the customer.

(e) That a customer will receive a rebate, discount, or other benefit as an inducement for entering into a contract, if the benefit is contingent on an event to occur subsequent to the consummation of the transaction.

(f) That a repair facility has the ability to perform repair services using personnel qualified in specific repair specialties, including those specialties enumerated in section 10 of the act, when in fact the facility does not employ mechanics legally certified in those specialties.

(g) Products or services when there is a material contingency, condition, or limitation on the offer, unless the contingency, condition, or limitation is stated contemporaneously with the offer in a manner clearly and easily understood by the customer.

(h) Products or services in a language other than English without including in the advertisement or representation required disclosures or limitations on the offer in the language principally used in the advertisement or representation.

(i) That mechanics employed by a repair facility are "certified," "licensed," or otherwise qualified when that representation might tend to give the impression that all mechanics employed by the facility are certified or licensed if in fact they are not.

(j) That a customer's failure to act quickly or within a certain period of time to procure products or services will result in the loss of opportunity to procure them at a particular price when in fact this is not the case.

(k) Credit availability in such a manner as to cause a likelihood of confusion or of misunderstanding as to the terms or conditions of credit, or that credit availability or terms are "easy" or words of similar import when in fact that is not the case.

(l) That products or services are sold under the terms of "satisfaction guaranteed or money back" or words of similar import when in fact the customer's declaration of dissatisfaction is not the sole criterion for the refund of money on purchases so warranted.

(m) The necessity, desirability, or advantage to a prospective customer of dealing with a repair facility by misrepresenting the facility's alleged advantages of size.

(n) That a document which a customer signs is something other than what it is.

(o) An aspect of the repair transaction in a manner causing a likelihood of confusion, or of misunderstanding, with respect to the authority of a mechanic, salesperson, representative, or agent to negotiate the final terms of a transaction.

(p) An aspect of a repair transaction in a manner causing a likelihood of confusion, or of misunderstanding, as to the legal rights, obligations, or remedies of a party to the transaction.

(q) That service on an offered product is available under a warranty when in fact it is not available or there are undisclosed limitations or conditions on the availability of that service.

(r) A free or low cost inspection or diagnosis necessitating the removal or dismantling, or both, of a part or assembly and fail to disclose prior to the transaction a charge for replacement or reassembly in the event the customer declines to authorize a recommended repair.

(s) A product or service at a reduced rate and, upon the facility's failure to provide it at the offered price during the period of the offering to a customer seeking it, to fail to offer and provide the customer the opportunity to obtain the product or service at the same reduced rate within a reasonable period of time after the expiration of the original offer.

(t) Products or services, or the availability or obtainability of products or services in a manner involving the solicitation of waivers by the facility.

(u) Products or services and fail to meet the reasonably expected public demand for the duration of the advertised offering, except where the advertisement has clearly expressed a specific limitation on the quantity of the advertised products or services.

(v) The words "certification," "licensing," "registration," or words of similar import, of a motor vehicle repair facility, or mechanic by an organization, association, governmental entity, or other program or authority other than the administrator, without clearly and conspicuously disclosing the source of the "certification," "licensing," or "registration," and adding the disclaimer "not the Michigan Department of State."

(w) The desirability or advantages of certification or licensing by a federal, state, or local government agency, or that a motor vehicle repair facility or mechanic has been indorsed or sanctioned by the administrator.

History: 1954 ACS 88, p. 18, Eff. Mar. 1, 1976.

(a) Assert, claim, or impose a mechanic's or similar type lien where a facility has violated the act or these rules with respect to the transaction upon which the lien is based.

(b) Seek the repossession of a motor vehicle where a facility has violated the act or these rules with respect to the transaction upon which the repossession is based.

(c) Seek to assert or enforce a lien to the extent of refusing to return a vehicle where the facility has violated the act or these rules with respect to the transaction upon which the refusal is based.

(d) Fail to return the customer's vehicle if there is a dispute and the customer has paid the amount of the written estimate and any amount in excess thereof agreed to either orally or in writing by the customer.

History: 1954 ACS 86, p. 20, Eff. Mar. 1, 1976.

R 257.136 Estimates and charges.

Rule 36. It is an unfair and deceptive practice to:

(a) Fail, except where legally waived by the customer, to give the customer a written estimate prior to the commencement of work.

(b) Charge for work done or parts supplied in excess of the estimated price without the knowing written or oral consent of the customer.

(c) Fail to give the customer an estimate for the cost, if any, of reassembly, disassembly, or diagnosis.

(d) Fail to inform a customer, at a time prior to the customer executing a document or engaging the facility for the work, by the use of a notice as required by section 33 of the act, of his right to receive or inspect replaced parts for which he will be charged in the repair of his motor vehicle.

(e) Fail to retain a customer waiver with records which are retained concerning the transaction.

(f) Charge the customer storage charges where there is a dispute as to repair charges. Where delays in repairs are caused by lack of parts, a repair facility may make a charge for storage after informing the customer of the approximate length of the anticipated delay and of the daily storage charge rate and obtaining the customer's consent to the delay and the storage charges.

(g) Fail to be in compliance with the federal truth in lending act, 15 U.S.C. §1601 et seq. (1970), as amended, and the retail installment sales act, Act No. 224 of the Public Acts of 1966, being §445.851 et seq. of the Michigan Compiled Laws, where the customer finances repairs through the facility.

(h) Fail in practice to comply with advertised or stated payment policies.

(i) Conspire, combine, or confederate to fix prices.

(j) Conspire, combine, or confederate to allocate the market.

(k) Fail to notify the customer of an exchange agreement and charges for exchange parts if a customer wishes to have those parts returned.

(l) Fail to disclose, upon the customer's request, the method used by a facility to compute labor charges.

History: 1954 ACS 86, p. 20, Eff. Mar. 1, 1976.

R 257.137 Coercive practices.

Rule 37. It is an unfair and deceptive practice to:

(a) Improperly utilize waivers in such a way as to suggest or imply, directly or indirectly, orally or by action, that service or repairs will be improved or expedited if a waiver is signed, or that price will be improved.

Digitized by Google

(b) Exaggerate the seriousness of the malfunction to induce the customer to agree to the repair.

(c) Suggest or imply, directly or indirectly, orally or by action, that service will be improved or expedited or that price will be improved if the customer will agree that the facility need not be required to return for inspection parts that have been replaced.

(d) Misrepresent that because of some defect in a customer's motor vehicle, the health, safety and lives of the customer or his family are in danger if the goods or repair services are not purchased when in fact the defect does not exist or the goods or services would not remove the danger.

History: 1954 ACS 86, p. 20, Eff. Mar. 1, 1976.

PART 5. RETURN OF REPLACED PARTS

R 257.141 Requirement of notice.

Rule 41. A motor vehicle repair facility shall inform a customer, at a time prior to the customer executing a document or engaging the facility for the work, of his right to receive or inspect replaced parts for which the customer will be charged in the repair of his motor vehicle. The information shall be given to the customer in the form of a written notice pursuant to section 33 of the act.

History: 1954 ACS 86, p. 21, Eff. Mar. 1, 1976.

R 257.142 Form of notice.

Rule 42. The notice shall be presented either:

(a) On the face of a contract, work order form, or other document evidencing the engagement of the facility in a type size not less than 12 point bold face and not less than 4 points larger than the principal type size of the master document.

(b) By a separate written document in bold face capital letters of not less than 12 point type size.

(c) By a clearly legible sign with lettering not less than 1-inch high, conspicuously displayed in the part of the facility where customer repairs are routinely contracted for.

History: 1954 ACS 86, p. 21, Eff. Mar. 1, 1976.

R 257.143 Explanation of part replacement.

Rule 43. Upon request of the customer, the facility shall explain exactly why a replaced part is defective or nonfunctional, or otherwise why it was replaced.

History: 1954 ACS 86, p. 21, Eff. Mar. 1, 1976.

R 257.144 Disposition of replaced parts.

Rule 44. (1) Upon completion of repairs, the facility shall, at the customer's request, reasonably clean the replaced parts that are to be returned or inspected by the customer. Portable parts shall be placed in a suitable container. Parts that are not portable shall be identified and stored in a suitable place in the facility for the customer's inspection. The facility shall not bar the customer from removing any heavy or large part by the customer's own means and expense. If the facility makes a charge in connection with the return of replaced parts, the charge shall be disclosed to the customer in writing prior to engagement of the facility.

(2) For reasons of safety, the facility shall not be required to return gasoline tanks or any other container-type parts that have been filled with or otherwise been in appreciable contact with flammable fuels unless those parts are rendered nonflammable. If any returned part presents an actual danger of flammability or explosiveness, the facility shall clearly inform the customer of that danger.

(3) In the case of an undisputed transaction, replaced parts shall be held by the facility for not less than 2 business days after the delivery of the vehicle to the customer unless the customer has in fact authorized immediate disposition of the parts. Where there is a question or dispute raised by the customer within 2 business days with respect either to repairs or charges for repairs, the facility shall hold the replaced parts not returned to the customer until such time as the disputed matter is resolved. If the dispute involves a replaced part which the consumer has chosen not to remove from the facility, the facility shall, in the presence of the customer, immediately affix to the part in question a permanent mark sufficient to identify the part.

History: 1954 ACS 86, p. 21, Eff. Mar. 1, 1976.

R 257.145 Exchange agreements.

Rule 45. If replacement of a part is contingent upon the facility keeping the part under an exchange agreement, the facility shall explain in a manner understandable to the customer, the precise terms of the exchange agreement, including a disclosure of the price to the customer if he wishes to reclaim the part. If a customer raises a question or dispute with the facility within 2 business days of the delivery of the vehicle to the customer and the dispute involves an exchange part for which the facility may require of the customer a deposit in the amount of the facility's obligation, the deposit shall be refundable to the customer upon his return of the part to the facility.

History: 1954 ACS 86, p. 21, Eff. Mar. 1, 1976.

PART 6. BOND REQUIREMENT

R 257.151—R 257.157 Rescinded.

History: 1954 ACS 86, pp. 21-22, Eff. Mar. 1, 1976; rescinded 1954 ACS 94, p. 15, Eff. Jan. 14, 1978.

PART 7. CERTIFICATION OF MECHANICS

R 257.161 Application for certification.

Rule 61. (1) Before a person is certified as a master or specialty mechanic, the person shall have taken 1 or more of the following examinations and received scores, as determined by the administrator, which indicate competency to perform motor vehicle repairs in the category or categories examined:

(a) DOS ETS UAO1, DOS ETS VAO1, DOS ETS VAO2, DOS ETS VTR1, DOS ETS WAO1, DOS ETS WTR1, DOS ETS WAO2, DOS ETS WTR2, DOS ETS XAO1, DOS ETS XTR1, DOS ETS XAO2, DOS ETS XTR2, DOS ETS YAO1, DOS ETS YTR1, DOS ETS ZAO1, DOS ETS ZTR1, DOS ETS YAO2, DOS ETS YTR2, DOS ETS ZAO2, DOS ETS ZTR2.

(b) Examinations developed by the administrator.

(2) An applicant shall submit to the administrator, in addition to such other information as may be required, the following information:

(a) The name and home address of the applicant.

(b) The repair category or categories for which the applicant is applying.

(c) The number of years the applicant has worked as a motor vehicle mechanic for compensation, and the education or training the applicant has had to prepare him for work as a motor vehicle mechanic, specialty mechanic, or master mechanic.

(d) The states or jurisdiction in which the applicant is licensed or certified to work as a motor vehicle mechanic, specialty mechanic, or master mechanic.

(e) A copy of an irrevocable appointment of the secretary of state as the applicant's agent for service of process.

History: 1954 ACS 86, p. 22, Eff. Mar. 1, 1976; 1954 ACS 94, p. 18, Eff. Jan. 14, 1978.

R 257.162 Applications; forms.

Rule 62. Applications, including those for certification, renewals, trainee permits, and replacement certificates or permits, shall be submitted on forms prescribed by the administrator.

History: 1954 ACS 86, p. 23, Eff. Mar. 1, 1976; 1954 ACS 94, p. 18, Eff. Jan. 14, 1978.

R 257.163 Examinations; times, scores, type.

Rule 63. (1) Examinations shall be given at places and times determined by the administrator.

(2) Results of the examinations shall not be final until approved by the administrator. Results of the examinations shall be forwarded to the applicant by the administrator or his authorized representative.

(3) Examinations shall be written, except that the administrator may allow a person to take an oral or practical examination if the person has special language problems which preclude the possibility of his passing a standard English language examination, or if he has been unsuccessful on the written examination. This exception shall be decided on an individual basis.

History: 1954 ACS 86, p. 23, Eff. Mar. 1, 1976.

R 257.164 Repair categories; specialty, master mechanics, automobiles and light trucks.

Rule 64. (1) Repair categories for the certification of specialty and master mechanics for automobiles and light trucks are:

(a) Engine repair.
(b) Automatic transmission.
(c) Manual transmission, front and rear axle.
(d) Front end and steering systems.
(e) Brakes and braking systems.
(f) Electrical systems.
(g) Heating and air conditioning.
(h) Engine tune-up.

(2) A person applying for certification as a specialty automobile mechanic shall pass an examination in the repair category which relates to his specialty. A person applying for certification as a master automobile mechanic shall pass an examination in all 8 repair categories.

(3) For purposes of these rules, "automobile and light truck" means a motor vehicle which has a gross vehicle weight less than 10,000 pounds.

History: 1954 ACS 86, p. 23, Eff. Mar. 1, 1976.

R 257.165 Repair categories; specialty and master mechanic certification; heavy-duty trucks; examination; "heavy-duty truck" defined.

Rule 65. (1) Repair categories for the certification of specialty or master mechanics for heavy-duty trucks are:

(a) Engine repair, gasoline.
(b) Engine repair, diesel.
(c) Drive trains.
(d) Brakes and braking systems.

(e) Suspension and steering systems.

(f) Electrical systems.

(2) A person applying for certification as a specialty heavy-duty truck mechanic shall pass an examination in the repair category which relates to his specialty. A person applying for certification as a master heavy-duty truck mechanic shall pass an examination in all 6 repair categories.

(3) For purposes of these rules, "heavy-duty truck" means a motor vehicle has a gross vehicle weight of 10,000 pounds or more and includes both single unit and combination tractor trailer or tractor semitrailer vehicles.

History: 1954 ACS 86, p. 23, Eff. Mar. 1, 1976; 1954 ACS 94, p. 19, Eff. Jan. 14, 1978.

R 257.166 Master motorcycle mechanic.

Rule 66. A person applying for certification as a master motorcycle mechanic shall pass a motorcycle examination pertaining to all mechanical aspects of motorcycle repair. There shall not be a specialty motorcycle mechanic certificate.

History: 1954 ACS 86, p. 23, Eff. Mar. 1, 1976.

R 257.166a Recreational trailer mechanic certification; examination; "recreational trailer" defined.

Rule 66a. (1) A person applying for certification as a recreational trailer mechanic shall pass an examination pertaining to all mechanical aspects of the installation, service, and repair of such items of recreational trailer equipment as brakes, suspension, wheels, axles, including adaptations and alterations to towing vehicles, and other items of equipment on a recreational trailer required by sections 683 to 714a of Act No. 300 of the Public Acts of 1949, as amended, being §§257.683 to 257.714a of the Michigan Compiled Laws.

(2) For purposes of this rule, "recreational trailer" means a travel trailer, camper trailer, or other special purpose or utility trailer or semitrailer designed or intended to be drawn on the highway by an automobile or light truck having a gross towing vehicle weight of less than 10,000 pounds.

History: 1954 ACS 94, p. 19, Eff. Jan. 14, 1978.

R 257.167 Mechanic certification; effective date; renewal; functioning as mechanic after expiration date.

Rule 67. (1) A mechanic's certification shall take effect on the date it is approved by the administrator and shall expire 1 year from the date of issue, except that a mechanic's certificate approved prior to January 1, 1978, shall expire on December 31, 1978. A mechanic's certification may be renewed annually upon payment of the required renewal fee.

(2) A certified motor vehicle mechanic may continue to function as a certified mechanic after the expiration date without a certificate, pending approval of the renewal application, if the renewal application has been received by the administrator on or before the expiration date. If a renewal application is filed after the expiration date, the motor vehicle mechanic may temporarily engage in repairs without a certificate from the day on which the application is received by the administrator, pending approval of the renewal application. A renewal fee of 1½ times the standard renewal fee shall be imposed if the application is filed after the expiration date.

R 257.168 Loss, destruction, or mutilation of certificate or trainee permit; replacement.

Rule 68. In the event of loss, destruction, or mutilation of a certificate or permit, the person to whom the certificate or permit was issued may obtain a replacement upon furnishing satisfactory proof of loss, destruction, or mutilation. Application for a replacement certificate or permit shall disclose the following information:

(a) Name and address of applicant.

(b) An explanation of the loss, destruction, or mutilation of the original certificate or trainee permit.

History: 1954 ACS 86, p. 24, Eff. Mar. 1, 1976; 1954 ACS 94, p. 19, Eff. Jan. 14, 1978.

R 257.169 Examination and certificate fees; mechanic and trainee.

Rule 69. (1) Fees shall accompany forms which are required to be submitted. The examination fees and the certificate fees for the certification of mechanics shall be as follows:

(a) Each certification examination administered by the administrator, $5.00.

(b) Application for original certification, $20.00.

(c) Renewal certificate, $15.00.

(d) Replacement certificate, $5.00.

(2) The permit fees for the mechanic trainee shall be as follows:

(a) Application for trainee permit, $20.00.

(b) Replacement of trainee permit, $5.00.

History: 1954 ACS 86, p. 24, Eff. Mar. 1, 1976; 1954 ACS 94, p. 19, Eff. Jan. 14, 1978.

R 257.170 Display of certificate; certification number.

Rule 70. A certified mechanic shall display, in a conspicuous location in the place of business, a current and valid certificate issued by the administrator. A certified mechanic who works on, inspects and approves, or supervises a repair, shall affix his name and certification number, as assigned by the administrator, to the written statement of repairs given the customer.

DEALER LICENSING DIVISION

LICENSING VEHICLE BROKERS

(By authority conferred on the secretary of state by section 204 of Act No. 300 of the Public Acts of 1949, as amended, being §257.204 of the Michigan Compiled Laws)

R 257.181 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 300 of the Public Acts of 1949, as amended, being §257.1 et seq. of the Michigan Compiled Laws.

(b) "Administrator" means the secretary of state or any person designated by him to act in his place.

(c) "Broker" means a person who for a consideration does or offers to do at least 1 of the following with respect to the sale, purchase, or exchange of a vehicle of a type required to be registered under the act and with respect to which he does not have title or other legal interest:

(i) Brings together the buyer and seller.

(ii) Negotiates the terms of a transaction.

(iii) Shows or displays a vehicle.

"Broker" does not include a person employed by a licensed class A, class B, or class C dealer, while acting within the scope of his employment.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 94, p. 20, Eff. Feb. 8, 1978.

R 257.182 Address of administrator.

Rule 2. The official address of the administrator for delivery and receipt of all mail, telegrams, information, filings, registrations, applications, and other material required by the act or these rules is:

Department of State
Bureau of Automotive Regulation
Lansing, Michigan 48918

History: 1954 ACS 94, p. 20, Eff. Feb. 8, 1978.

R 257.183 Declaratory rulings.

Rule 3. (1) The administrator, on written request of an interested person, may issue a declaratory ruling as to the applicability to an actual statement of facts of the act or these rules upon submission of the following:

(a) A clear and concise statement of the actual statement of facts.

(b) If the interested person desires, a brief or other reference to legal authorities upon which he relies for determination of the applicability of the act or these rules to the statement of facts.

(2) A declaratory ruling shall include the actual statement of facts, the legal authority on which the department relies for its ruling, if any, and the ruling it makes. A ruling once issued is binding on the administrator and it may not retroactively be changed, but nothing in this rule shall prohibit the administrator from prospectively changing a ruling.

History: 1954 ACS 94, p. 20, Eff. Feb. 8, 1978.

R 257.184 Classification of dealers; licenses.

Rule 4. (1) A person who sells new vehicles shall be issued, upon approval of the person's application by the administrator, a class A license. A dealer who has been issued a class A license may sell new vehicles, used vehicles, and vehicle parts.

(2) A person shall be issued, upon approval of the person's application by the administrator, a class B license if the person shall only buy and sell used vehicles and vehicle parts.

(3) A person shall be issued, upon approval of the person's application by the administrator, a class C license if the person shall only buy and hold vehicles to be torn down for the purpose of selling the component parts thereof individually, or vehicles to be scrapped.

(4) A person shall be issued, upon approval of the person's application by the administrator, a class D license if the person shall only operate as a broker in vehicle sales. A person licensed as a class A, class B, or class C dealer shall not be licensed as, or function as, a broker.

History: 1954 ACS 94, p. 20, Eff. Feb. 8, 1978.

R 257.185 Brokering of new vehicles.

Rule 5. A broker shall, in the brokering of new vehicles, deal through a licensed class A dealer in this state.

History: 1954 ACS 94, p. 21, Eff. Feb. 8, 1978.

R 257.186 Brokering of used vehicles; requirements.

Rule 6. (1) A broker is not required, in the brokering of used vehicles, to deal through a licensed vehicle dealer.

(2) In a used vehicle transaction where neither the buyer nor seller is a licensed vehicle dealer, the broker shall apply for title and registration for the vehicle in the name of the buyer, as provided in section 217(b) of the act, and shall submit taxes due on the transaction.

History: 1954 ACS 94, p. 21, Eff. Feb. 8, 1978.

R 257.187 Advertising.

Rule 7. When a broker shall advertise, the advertisement shall include a disclosure of the advertiser's identity as a broker.

History: 1954 ACS 94, p. 21, Eff. Feb. 8, 1978.

R 257.188 Purchase agreement; terms.

Rule 8. A broker negotiating the sale of a vehicle shall draw up, prior to consummation of the sale, a purchase agreement which shall be in addition to, and shall not differ in its terms from, any other papers, forms, or documents required by the act or otherwise executed between the buyer and the seller of the vehicle. A copy shall be retained by the broker, with copies provided to the buyer and the seller at the time of their signing. The purchase agreement shall be on a form prescribed by the administrator, shall be dated not later than the actual date of delivery of the vehicle to the buyer, and shall contain all of the following information:

(a) The name and address of the buyer.

(b) A description of the vehicle including make, model year, vehicle identification number, body style, and dealer and factory-installed accessories.

(c) The name and address of the seller.

(d) The name and address of the broker.

(e) Date of delivery.

(f) Odometer reading.

(g) Total price.

(h) Down payment.

(i) A statement signed by the broker certifying that the terms of all warranties applicable to the vehicle have been fully disclosed to the buyer.

(j) Signatures of buyer, seller, and broker.

History: 1954 ACS 94, p. 21, Eff. Feb. 8, 1978.

R 257.189 Broker's fee in writing.

Rule 9. Before a broker shall charge a fee, a written document shall be drawn up and signed by the broker and the person paying the fee, with a copy provided at the time of signing to the person paying the fee and a copy retained by the broker. The document shall clearly set forth all of the following:

(a) The amount of the fee, except in a transaction involving a new vehicle.

(b) When, in what manner, and under what circumstances the fee is payable, except in a transaction involving a new vehicle.

(c) The amount of any deposit required in advance and whether and under what circumstances the deposit or any portion of it shall be refunded.

(d) The length of time for which the broker's services are contracted.

(e) Any other terms agreed upon by the signers.

History: 1954 ACS 94, p. 21, Eff. Feb. 8, 1978.

BUREAU OF DEPARTMENT SERVICES

TANKER LOAN PROGRAM

(By authority conferred on the department of state by section 7 of Act No. 387 of the Public Acts of 1978, being §257.937 of the Michigan Compiled Laws)

R 257.201 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 387 of the Public Acts of 1978, being §257.931 et seq. of the Michigan Compiled Laws.

(b) "Applicant" means a motor carrier or private carrier who is the owner of a vehicle required to be replaced or modified under the code.

(c) "Code" means Act No. 300 of the Public Acts of 1949, as amended, being §257.1 et seq. of the Michigan Compiled Laws and known as the Michigan vehicle code.

(d) "Debtor" means an applicant who has received a loan under these rules that has not been repaid in full to the state of Michigan.

(e) "Department" means the department of state, its agents, and employees.

(f) "Fire marshal's inspection" means the hazardous cargo inspections carried out by the fire marshal division of the department of state police pursuant to the governor's directive of September 23, 1977, and Act No. 3 of the Public Acts of 1978, being §29.1 et seq. of the Michigan Compiled Laws.

(g) "Legal capacity" means the actual capacity of a vehicle or 9,000 gallons whichever is less.

(h) "Motor carrier" means a carrier possessing a certificate of public convenience and necessity, or a permit to operate as a motor carrier from the public service commission.

(i) "Nonreplaceable capacity" means 9,000 times the number of units that have a capacity between 9,000 and 9,500 gallons inclusive and meet the requirements of section 722 of the code or can be feasibly modified to meet the requirements of that section.

(j) "Owner" means either of the following:

(i) A motor carrier or private carrier who holds legal title to a truck, truck tractor, trailer, or semitrailer, as those terms are defined in the code.

(ii) A motor carrier or private carrier renting a truck, truck tractor, trailer, or semitrailer, as those terms are defined in the code, or having exclusive use thereof, under a lease or otherwise, for a period of greater than 30 days.

(k) "Principal business" means that business which generated more than 50% of the private carrier's total revenue from all business activities as that revenue was reported in the private carrier's most recently filed federal income tax return as gross income before taxes.

(l) "Private carrier" means a carrier whose principal business is the distribution of the carrier's own petroleum products to consumers and retailers of those products in Michigan.

(m) "Replacement capacity" means total capacity minus nonreplaceable capacity minus the legal capacity of replacement units for which money has already been loaned. Replacement capacity of not less than 3,000 gallons, but not more than 9,000 gallons, shall be considered to be 9,000 gallons. Replacement capacity of less than 3,000 gallons shall be considered to be zero gallons.

(n) "Replacement unit" means a vehicle, including a truck, truck tractor, and semitrailer, as those terms are defined in the code, that is chosen by an applicant to meet the requirements of section 722 of the code.

(o) "Total capacity" means the gallon capacity of a carrier to transport petroleum products with a flash point at or below 70 degrees Fahrenheit as that capacity existed at the time of the fire marshal's inspection of the carrier's vehicle.

History: 1954 ACS 99, p. 22, Eff. Apr. 26, 1979.

R 257.202 Loan application.

Rule 2. (1) An application for a loan under these rules shall be submitted to the department on forms prescribed for that purpose. Forms may be obtained from, and applications submitted to, the following organization:

Michigan Department of State
Bureau of Department Services
Finance Division
Lansing, Michigan 48918

(2) The applicant shall complete all applicable entries on the form before the department receives the application. An applicant shall sign the application form and certify that the information in it is true, correct, and complete.

(3) Upon receipt by the department, an application shall be dated and assigned an application number.

(4) A loan application shall include all of the following items:

(a) The applicant's Michigan public service commission certificate of public convenience or permit number, if the applicant is a motor carrier.

(b) A statement regarding type of business activities engaged in during the previous year with a corresponding percentage of income from each.

(c) Credit information as required on the form.

(d) Extent and cost of replacement or modification sought.

(e) Need for replacement or modification.

(f) Vehicle identification number and full description of vehicle being replaced or modified.

(g) Copy of vehicle title and registration of vehicle being replaced or modified, and a copy of any lease agreement affecting the vehicle.

(h) Copy of purchase order, modification agreement, or receipt for modification work done or purchase made.

(i) Copy of hazardous cargo inspection form or other information indicating that the vehicle to be replaced or modified was inspected during the fire marshal's inspection.

(j) Vehicle identification number and full description of all the carrier's vehicles that underwent the fire marshal's inspection.

(k) Identification of all vehicles that have a capacity between 9,000 and 9,500 gallons inclusive and meet the requirements of section 722 of the code or can be feasibly modified to meet the requirements of that section.

(5) The presence of the applicant may be required by the department during the review of the application.

(6) The department, based upon the application, the criteria set out in these rules, the act, and any additional information considered necessary in taking final action, shall approve or disapprove the loan application. Notice of the status of the loan application shall be sent within 30 days of the filing of the application.

(7) The department shall notify the applicant when a loan is disapproved and shall state the reasons for disapproval.

(8) A loan for modification shall be approved in a specified amount. Following loan approval, and upon proper execution or completion of the loan agreement, the department shall disburse the approved amount.

(9) A loan for a replacement unit shall be approved in the amount of the estimated cost of the unit. When the actual total cost becomes known to the applicant, the debtor shall submit a purchase agreement for that amount to the department.

(10) Upon receipt of the purchase agreement for a replacement unit and upon proper execution or completion of a loan agreement, the department shall disburse the loan for the total actual cost set out in the purchase agreement if that cost is reasonably related to the estimated cost for which the loan was approved.

History: 1954 ACS 99, p. 22, Eff. Apr. 26, 1979.

R 257.203 Criteria for approving or disapproving loans.

Rule 3. (1) A vehicle to be replaced with loan money under this program shall have a valid Michigan title and registration.

(2) Replacement units shall have a gallon capacity of not greater than 9,500 gallons nor less than 8,000 gallons. A loan shall not be approved for the replacement of a truck tractor.

(3) The department shall consider the applicant's creditworthiness, as determined by the applicant's credit rating, past, present, and estimated income, years in business, and other factors ordinarily considered by lending institutions in approving or disapproving commercial loans.

(4) A trade-in of a vehicle for which a replacement unit is purchased is required if a market for such vehicles exists. A vehicle replaced but not traded in shall not be used in any manner that would permit the carrier to legally exceed its total capacity by more than 6,000 gallons.

(5) In computing capacity, the department shall consider only the capacity of a vehicle that was included in computing the carrier's total capacity and the capacity of a vehicle for which a loan was granted under these rules.

(6) A loan shall not be made to the extent that it would allow a carrier to exceed total capacity by more than 6,000 gallons.

(7) A vehicle being replaced or modified shall not already meet the requirements of sections 722(i), (j), (k), or (l) of the code, except that if a vehicle has been modified or replaced subsequent to the effective date of the act to meet its requirements, the carrier may then be eligible for a loan under these rules.

(8) When money is loaned under these rules, a security interest shall be created in the modified vehicle or the replacement unit. When a security interest is created in a vehicle, the debtor shall apply to the department for a corrected title indicating the state of Michigan as a lienholder.

(9) When money is loaned for the purchase of a replacement unit, the state of Michigan shall be the first secured party. The department shall imprint on the back of the check, issued for the purchase of a unit, the information required under section 217(d) of the code.

History: 1954 ACS 99, p. 23, Eff. Apr. 26, 1979.

R 257.204 Loan agreement.

Rule 4. Before proceeds of a loan are disbursed, a loan agreement shall be signed by the applicant and the department, and shall include all of the following information:

(a) The total amount, including the interest charged, shall be set out in the loan agreement. Four percent simple interest shall be charged on the loaned amount.

(b) A loan repayment schedule shall be established by agreement between the department and the debtor. The length of the repayment period shall not exceed 5 years.

(c) The debtor shall make the first payment 30 days after the loan agreement is signed and subsequent payments every 30 days thereafter during the repayment period.

(d) A monthly payment shall not be less than $200.00.

(e) A late fee in the amount of 10% of the monthly payment shall be assessed and added to the monthly payment when the payment becomes 10 or more days late.

History: 1954 ACS 99, p. 24, Eff. Apr. 26, 1979.

R 257.205 Default.

Rule 5. (1) The debtor shall be in default if a monthly payment becomes more than 30 days past due.

(2) A debtor in default shall pay the entire balance owing on the loan, including interest, upon demand.

(3) Upon default, the department may exercise those rights given to creditors by law, except that the department shall not exercise the right given in subsection (2) of section 9505 of Act No. 174 of the Public Acts of 1962, as amended, being §440.9505(2) of the Michigan Compiled Laws, to retain collateral in satisfaction of the obligation, and the department shall not sell collateral other than at a public sale.

(4) Default may occur upon a finding by the department that loan money has been misused under the act and these rules.

History: 1954 ACS 99, p. 24, Eff. Apr. 26, 1979.

R 257.206 Misuse of loan; audit; inspection.

Rule 6. A loan under the act and these rules shall be used only for the purpose stated. Use of the loaned funds shall be subject to audit. A vehicle being replaced or modified and a replacement unit shall be subject to on-site inspection. Unauthorized use of loan money may result in default or in the seeking of other legal remedies against the debtor.

History: 1954 ACS 99, p. 24, Eff. Apr. 26, 1979.

BUREAU OF DRIVER AND VEHICLE SERVICES

SPECIAL PARKING PRIVILEGES

(By authority conferred on the secretary of state by sections 204 and 675 of Act No. 300 of the Public Acts of 1949, as amended, being §§257.204 and 257.675 of the Michigan Compiled Laws)

R 257.801 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 300 of the Public Acts of 1949, as amended, being §257.1 et seq. of the Michigan Compiled Laws.

(b) "Blind" or "blindness" means an impairment of both eyes as follows: central visual acuity of 20/200 or less in the better eye, with corrective glasses, or central visual acuity of more than 20/200 if there is a field defect in which the peripheral field has contracted to such an extent that the widest diameter of visual field subtends an angular distance not greater than 20 degrees in the better eye.

(c) "Facility" means a publicly or privately operated legal entity which provides specialized services to 6 or more handicappers. Facility includes a foster care facility, nursing home, retirement home, home for the aged, health facility, mental facility, and an educational facility which provides services to handicappers.

(d) "Handicap" means a physical impairment or condition which may have resulted from disease, injury, functional disorder, or age, which necessitates the use of a wheelchair or crutches; causes a person to walk with significant difficulty or insecurity; significantly reduces ambulatory coordination, flexibility, or mobility; exposes a person to danger if prolonged ambulation occurs; or results in blindness.

(e) "Obvious" means easily observed and recognized without further evidence by a person not trained in medicine.

(f) "Permanent handicap" means a handicap for which there is a present medical expectation that the handicap will persist for more than 4 years.

(g) "Temporary handicap" means a handicap for which there is a present medical expectation that the handicap will persist for not more than 4 years.

(2) A term defined in the act has the same meaning when used in these rules.

History: 1954 ACS 101, p. 21, Eff. Oct. 2, 1979.

R 257.802 Certificate of identification as handicapper.

Rule 2. (1) The secretary of state may issue 6-month and 4-year certificates of identification pursuant to section 675 of the act and these rules.

(2) A certificate of identification shall be issued or renewed upon application and a proper showing of eligibility.

(3) A handicapper applying for a certificate of identification shall submit, as part of the application, a medical statement attesting to the fact that the handicapper possesses a temporary or permanent handicap. An application need not be accompanied by a medical statement in either of the following situations:

(a) The handicapper personally applies for a certificate of identification at a branch office of the secretary of state and it appears obvious to the person accepting the application that the applicant possesses a handicap.

(b) The handicapper possesses a permanent handicap and the application is for a renewal certificate of identification.

(4) A handicapper who possesses a temporary handicap shall receive a 6-month certificate of identification and a handicapper who possesses a permanent handicap shall receive a 4-year certificate of identification.

(5) A certificate of identification issued before the effective date of these rules shall expire 6 months after these rules take effect. A handicapper who possesses such a certificate may apply for a 6-month or 4-year certificate of identification, depending upon the nature and duration of his or her handicap.

(6) A certificate of identification shall not be used by a person whose handicap no longer persists, even if the certificate has not yet expired.

History: 1954 ACS 101, p. 21, Eff. Oct. 2, 1979.

R 257.803 Application by facility for special registration plate.

Rule 3. (1) A facility may apply for and receive a special registration plate for a motor vehicle owned by the facility and used to transport handicappers who receive services from the facility.

(2) A statement to the effect that the vehicle will be used for the purpose of transporting handicappers and will be parked in a space reserved for use by handicappers only when handicappers are being transported shall accompany each application from a facility for a special registration plate.

(3) A motor vehicle bearing a special registration plate issued pursuant to subrule (1) shall not be parked in a special parking place unless the vehicle will imminently be used to transport 1 or more handicappers.

History: 1954 ACS 101, p. 22, Eff. Oct. 2, 1979.

DEPARTMENT OF NATURAL RESOURCES

LAW ENFORCEMENT DIVISION

STATE AID FOR SNOWMOBILE SAFETY PROGRAMS

(By authority conferred on the department of natural resources by section 4b of Act No. 74 of the Public Acts of 1968, being §257.1504b of the Michigan Compiled Laws)

R 257.1501 Definitions.

Rule 1. (1) "Act" means Act No. 74 of the Public Acts of 1968, as amended, being §§257.1501 to 257.1517a of the Michigan Compiled Laws.

(2) "Authorized expenditures" means those expenditures incurred and determined by the director to be reasonable and necessary for the conduct of a snowmobile enforcement and safety training program.

(3) "Authorized expenditures actually incurred" means the expenditures of funds actually made during the past calendar year for the conduct of the snowmobile enforcement and safety education training program.

(4) "Department" means the department of natural resources.

(5) "Director" means the director of the department of natural resources.

(6) "Estimate of authorized expenditures" means the estimate of funds to be expended for the conduct of the snowmobile enforcement and safety education program for the following calendar year as approved by the county board of commissioners.

(7) "General supervisory duties" means having jurisdiction over more than snowmobile and marine activities.

(8) "Proration of funds" means equitable appropriations to counties if funds are insufficient to pay the full amount to which counties are entitled.

History: 1954 ACS 77, p. 5, Eff. Nov. 10, 1973.

R 257.1502 Requests for state aid.

Rule 2. The board of commissioners of any county requesting state aid for the conduct of a snowmobile safety and enforcement program shall submit to the department by November 1 of each year an estimate of authorized expenditures for the following calendar year on forms furnished by the department. The estimate of authorized expenditures shall consist of a complete statement on the type and extent of snowmobile safety and enforcement program to be conducted including equipment required, and a certification that the board of commissioners has appropriated the funds indicated on the estimate of authorized expenditures. Submission of an estimate of authorized expenditures by a county is an agreement by the county to comply with these rules.

History: 1954 ACS 77, p. 6, Eff. Nov. 10, 1973.

R 257.1503 Conduct of a snowmobile safety and enforcement program.

Rule 3. Counties participating in a snowmobile safety and enforcement program may be limited to 4 calendar months of program participation within the calendar year.

History: 1954 ACS 77, p. 6, Eff. Nov. 10, 1973.

R 257.1504 Snowmobile safety and enforcement functions.

Rule 4. (1) Equipment, purchased with state matching funds or included in a claim for which reimbursement has been made in accordance with the act and these rules, shall be used exclusively in the conduct of the snowmobile safety and enforcement program.

(2) Snowmobile laws and rules applicable to the jurisdiction of the county shall be enforced.

(3) Court dispositions shall be submitted periodically on forms prescribed by the department.

(4) Snowmobile accidents occurring within the county's jurisdiction shall be investigated and reports submitted as required by statute.

(5) Equipment purchased or leased under the state aid program shall be made available to the director or his authorized representative for the purpose of inspection, investigation, or other official duties.

(6) Snowmobiles and snowmobile trailers may be procured through centralized purchasing by the state department of administration for the department and for counties requesting snowmobiles and trailers in their annual budget request.

History: 1954 ACS 77, p. 6, Eff. Nov. 10, 1973.

R 257.1505 Personnel; wages and salaries.

Rule 5. (1) Personnel assigned to snowmobile safety and enforcement duties shall meet the age, mental and physical requirements prescribed for other full-time employees of the county sheriff's department.

(2) Daily time report records shall be maintained for each employee assigned to snowmobile safety training and enforcement duties. Reimbursement to the county shall be made for hours actually worked in the snowmobile safety and enforcement program and documented by daily time records.

(3) Hourly pay rates for personnel assigned to snowmobile safety and enforcement duties shall not exceed the hourly pay rates of other personnel assigned to similar duties within the county sheriff's department.

(4) Personnel assigned to snowmobile safety and enforcement duties shall not be paid overtime or premium pay unless such personnel have worked in excess of 40 hours on snowmobile safety and enforcement duties in a scheduled work week. Overtime pay may be paid for hours in excess of 40 hours if approved by the county sheriff or immediate supervisor.

(5) Personnel providing snowmobile safety training shall not require students to purchase additional training materials, certificates or safety brassards.

(6) The power and authority of personnel who have not completed the required hours of training pursuant to Act No. 203 of the Public Acts of 1965, as amended, being §§28.601 to 28.616 of the Michigan Compiled Laws shall be restricted to enforcement of the act.

(7) An employee of the county sheriff's department assigned to general supervisory duties is not eligible to receive payment of salaries or wages from snowmobile state aid funds.

History: 1954 ACS 77, p. 6, Eff. Nov. 10, 1973.

R 257.1506 Records, reports, and publicity.

Rule 6. (1) Records shall be kept pertaining to snowmobile violations, snowmobile related accidents, number of students trained, public meetings attended, daily vehicle mileage, daily personnel time reports and expenditures from the general fund under activity no. 136, sheriff-law enforcement assistance—snowmobiles.

(2) The county snowmobile safety and enforcement fund shall be audited by the local audit division, bureau of local government services, department of treasury, during the course of their routine annual examination of the records of county offices or at such time as the department deems an audit necessary or desirable. Records shall be retained for a period of 1 year after the department of treasury has audited the account of the snowmobile safety and enforcement program.

(3) Public information provided by the department shall be distributed.

(4) Local publicity shall be disseminated regarding existing laws and rules and new laws and rules which may be established. Persons shall be provided with information regarding safe methods of snowmobile operation.

(5) Reports shall be submitted to the department as may be required by the director or his authorized representative.

(6) A detail of authorized expenditures actually incurred submitted to the department shall be certified as true and correct.

History: 1954 ACS 77, p. 7, Eff. Nov. 10, 1973.

R 257.1507 County restricted snowmobile safety and enforcement funds.

Rule 7. The county treasurer or fiscal officer shall establish a fund for the county appropriations for the conduct of a snowmobile safety and enforcement program for the calendar year. Expenditures shall be budgeted and paid from the county general fund—activity no. 136, sheriff-law enforcement assistance—snowmobiles. The function is public safety, 104-136—expense account. Expenditures from the fund shall be made solely for the personnel payroll and authorized expenditure costs of the snowmobile safety and enforcement program.

History: 1954 ACS 77, p. 7, Eff. Nov. 10, 1973.

R 257.1508 State aid vouchers.

Rule 8. (1) Expenditures not in accordance with the act or approved on the budget request summary, or in accordance with these rules shall not be approved and shall be deducted from the statement of authorized expenditures.

(2) Certification for payment shall be made for 75% of the final approved statement of authorized expenditures.

(3) If the amount appropriated by the legislature for state aid to counties is insufficient to pay the full amount to which counties are entitled, the department shall prorate available appropriations equitably among the various counties.

(4) The director or his authorized representative may certify for payment 75% of the approved total of a state aid voucher which exceeds the estimate of authorized expenditures, if funds are available for state aid to counties.

History: 1954 ACS 77, p. 7, Eff. Nov. 10, 1973.

R 257.1509 Authorized expenditures.

Rule 9. (1) Seventy-five percent of the personnel payroll and approved expenditures made in accordance with the schedule of authorized expenditures shall be reimbursable to the county upon submission of a state aid voucher. Prior written approval for an expenditure not on the schedule of authorized expenditures shall be obtained from the department in order to qualify for reimbursement as an authorized expenditure.

(2) If authorized equipment purchased with state aid matching funds is in need of replacement or reimbursement has been included in a state aid voucher, the trade-in value or fair market value shall not be included in the state aid voucher for reimbursement for the purchase of new equipment.

(3) Receipts accruing from refund gas tax monies or from the sale of equipment purchased with state aid funds shall be deposited to the credit of the county general fund, activity no. 136, sheriff-law enforcement assistance—snowmobiles.

(4) The cost of replacing authorized equipment which has been lost or destroyed, less any amount which may be received from insurance coverage, may be included on a state aid voucher. Prior written approval shall be obtained from the department for replacement of such equipment.

History: 1954 ACS 77, p. 7, Eff. Nov. 10, 1973.

R 257.1510 Withholding and denying payment of claims.

Rule 10. (1) The department may withhold payment of a state aid voucher claim pending investigation of the detailed expenditures of the claim.

(2) The department may deny all or partial payment of a state aid voucher claim which it deems is not in accordance with the schedule of authorized expenditures incurred which were not authorized in an approved written procedure.

(3) The department may deny all or partial payment of a state aid voucher claim if any portion of the claim contains statements which are found to be false or submitted with the intent to defraud.

(4) The department may deny all or partial payment of a state aid voucher claim for payroll funds paid to personnel not meeting the physical or mental standards prescribed by these rules.

(5) The department may deny all or partial state aid payment to any county deemed by the department as not conducting an adequate snowmobile safety and enforcement program. Failure to comply with any part of these rules is grounds for nonpayment pursuant to the state aid formula for reimbursement to counties.

(6) A county participating in the state aid snowmobile safety and enforcement program may request the director or his authorized representative to conduct an informal hearing in any determination of denying reimbursement of state aid for a violation of these rules.

History: 1954 ACS 77, p. 8, Eff. Nov. 10, 1973.

R 257.1511 Discontinuance of county participation.

Rule 11. If a county discontinues participation in the state aid program, the county clerk shall notify the department by November 1 of the year prior to discontinuance, of the county's decision by certified resolution. Upon submission of a state aid voucher for the final calendar year of county participation, a deduction shall be made from the total state aid voucher of the fair market value of all authorized equipment previously included in a claim for which reimbursement has been made in accordance with the act and these rules. If the fair market value of such authorized equipment exceeds the total claim for the final calendar year of county participation, 75% of such excess shall be refunded to the department by the county and deposited in the state general fund.

History: 1954 ACS 77, p. 8, Eff. Nov. 10, 1973.

PLACEMENT OF ORV DECAL

(By authority conferred on the commission of natural resources by section 6 of Act No. 319 of the Public Acts of 1975, as amended, being §257.1606 of the Michigan Compiled Laws)

R 257.1691 Placement of ORV decal.

Rule 1. The registration decal for an off-road recreation vehicle shall be permanently attached to the vehicle and shall be visibly displayed in the following manner:

DEPARTMENT OF TRANSPORTATION

AERONAUTICS COMMISSION

R 259.1—R 259.100 Superseded.

History: 1944 ACS 18, pp. 5-24; 1954 AC, pp. 1203-1224; superseded 1954 ACS 12, pp. 12-26, Eff. Nov. 26, 1957.

R 259.101—R 259.200 Rescinded.

History: 1954 ACS 12, pp. 12-27, Eff. Nov. 21, 1957; 1954 ACS 35, pp. 17, 18, Eff. Aug. 14, 1963; 1954 ACS 50, pp. 11, 12, Eff. May 15, 1967; rescinded 1954 ACS 52, p. 20, Eff. Nov. 15, 1967.

GENERAL RULES

(By authority conferred on the aeronautics commission by section 51 of Act No. 327 of the Public Acts of 1945, as amended, section 2 of Act No. 257 of the Public Acts of 1955, section 11 of Act No. 259 of the Public Acts of 1959, and Executive Reorganization Order Nos. 1973-1 and 1973-1a, being §§259.51, 259.672, 259.491, and 247.821 of the Michigan Compiled Laws)

PART 1. DEFINITIONS

R 259.201 Statutory definitions.

Rule 201. The words and phrases defined in the following acts have the same meanings when used in these rules:

Public Act	Year	1948 Compiled Law Sections
327	1945	259.1—259.208
23	1950 (Ex. Ses.)	259.431—259.464
257	1955	259.671—259.692
259	1959	259.481—259.493

History: 1954 ACS 52, p. 5, Eff. Nov. 15, 1967.

PART 2. LICENSES AND REGISTRATION

R 259.221 Exemptions from registration and certification.

Rule 221. The following are exempted from the registration and certificate requirements of this part of the rules: aircraft operated by a state or political subdivision thereof, the United States government, or licensed by a foreign country with which the United States has reciprocal agreements, if they are not engaged in any commercial activity within this state, and any aircraft and airman engaged in scheduled interstate commercial operations. A resident of another state, who has complied with registration requirements of that state, may operate within this state for not to exceed 90 days in any 1 year.

History: 1954 ACS 52, p. 5, Eff. Nov. 15, 1967.

R 259.222 Applications.

Rule 222. An application for licensing and registration shall be made on forms provided by the commission, Capital City Airport, Lansing, Michigan 48906, and shall be signed and sworn to by the applicant. The license or registration shall be issued subject to approval of the commission.

History: 1954 ACS 52, p. 6, Eff. Nov. 15, 1967.

R 259.223 Fees.

Rule 223. (1) Fees shall be paid to the commission in the form of a check, money order, or bank draft, payable to the State of Michigan, Michigan Aeronautics Commission, or in the form of cash paid in person.

(2) The aircraft registration fee is ¼ cent per pound of net empty weight, payable annually before August 1. A registration certificate issued after February 1 is issued for 50% of the annual fee. The fee for transfer of an aircraft registration is $1.00.

(3) The fees for general registration numbers for an aircraft manufacturer, an aircraft engine manufacturer, or a dealer in aircraft, are $9.00 for the first three numbers, and $3.00 for each additional number. General registration numbers shall be issued annually and the fees therefor are payable before August 1. They shall be used only for aircraft used for testing, ferrying or demonstrations for the purpose of sales and not for any other commercial activity.

(4) The initial fee for an airport is $25.00 and the annual renewal fee is $10.00. The license renewal fee shall be paid before November 1 of each year. Failure to comply requires payment of another initial fee. Licenses for a subsequent year shall not be issued before October 1.

(5) A temporary field permit may be issued upon application, accompanied by a $2.00 fee, for use by applicant for not to exceed 15 days. Permits may be granted for succeeding 15-day periods.

(6) The initial fee for a flight or ground school is $25.00 and the annual renewal fee is $10.00, payable from original date of issue. Failure to renew prior to expiration date requires filing of an initial application and payment of another initial fee. A state-approved flight school is exempt from a ground school fee; a public college or university is exempt from a flight or ground school fee.

(7) The fee for scheduled commercial intrastate operations registration is $25.00.

(8) For a flying club registration is mandatory but no fee is required.

(9) For a pilot registration is mandatory.

(10) For an airport manager or assistant airport manager the initial fee is $2.00 and the annual renewal fee is $2.00, payable before November 1.

(11) For a flight or ground instructor the initial fee is $1.00 and the annual renewal fee is $1.00, payable from original date of issue.

History: 1954 ACS 52, p. 6, Eff. Nov. 15, 1967.

R 259.224 Display of registration certificates and permits.

Rule 224. The state registration certificate shall be displayed in a conspicuous place in the aircraft at all times. Decals furnished by the commission shall be placed near the top of each side of the vertical stabilizer of the aircraft. On aircraft with multiple stabilizers, decals shall be placed on the outboard side of each outboard fin, and on helicopters immediately adjacent to the U.S. registration number.

History: 1954 ACS 52, p. 6, Eff. Nov. 15, 1967.

R 259.225 Transfers of licenses.

Rule 225. A license issued under these rules shall not be transferred, either in its ownership or geographical location, unless the transfer is approved in writing by the commission. Within 48 hours of the sale of an aircraft, the recorded owner shall return to the commission the registration certificate with the name and residence of the purchaser. The puchaser, within 48 hours, shall apply for transfer of the certificate.

History: 1954 ACS 52, p. 6, Eff. Nov. 15, 1967.

R 259.226 Inspections.

Rule 226. Personnel of the commission, licensed airport managers and their assistants, the Michigan state police, and other law enforcement agencies authorized to enforce the Michigan aeronautics code, the rules and regulations adopted thereunder, and federal aviation laws, shall be permitted at any time and place to make such inspection as deemed necessary to determine compliance with the Michigan aeronautics code and these rules and regulations.

History: 1954 ACS 52, p. 6, Eff. Nov. 15, 1967.

PART 3. SUSPENSION AND REVOCATION OF LICENSES

R 259.231 Suspension and revocation.

Rule 231. The commission or its duly authorized representative, after consideration of the issues of fact and after hearing held, may suspend or permanently revoke, or both, a license or letter of authority of any person who:

(a) Knowingly forges, counterfeits, alters or falsely makes a certificate authorized to be issued under these rules, or uses or attempts to use any such certificate.

(b) Knowingly makes a false statement in an application for a license or registration or in a report required by the commission.

(c) Violates a condition or provision of a license or letter of authority issued by the commission.

(d) Fails to render reports requested by, and within the time limits prescribed by, the commission.

(e) Fails to maintain the minimum standards determined by the commission.

(f) Commits an act on the part of a school by an instructor or representative which is deemed contrary to public safety or to the proper training of students enrolled therein.

(g) Fails to comply, in whole or in part, with any rule or regulation issued by the commission.

(h) Fails to abate a hazard certified by the commission.

History: 1954 ACS 52, p. 7, Eff. Nov. 15, 1967.

R 259.232 Surrender of licenses and letters of authority.

Rule 232. The commission, upon suspending or revoking a license or letter of authority, shall require that it be surrendered to the commission.

History: 1954 ACS 52, p. 7, Eff. Nov. 15, 1967.

PART 4. AIRPORT CLASSIFICATION

R 259.241 Scope of part 4.

Rule 241. This part prescribes minimum airport facilities required for the granting of a license or for the approval to operate a public use airport, and for its inclusion on the aeronautical charts and in other aviation publications made available to the public.

History: 1954 ACS 52, p. 7, Eff. Nov. 15, 1967.

R 259.242 Existing licensed facilities.

Rule 242. An existing facility licensed as of the effective date of these rules may be relicensed as a class C commercial airport as long as the license is not allowed to lapse for a period of more than 30 days, if the requirements of R 259.245(c) and (d) are met before November 1, 1969. A facility seeking relicensing after lapse shall meet the requirements of these rules.

History: 1954 ACS 52, p. 7, Eff. Nov. 15, 1967.

R 259.243 Approaches.

Rule 243. (1) No runway shall be established or maintained at any licensed or approved airport which does not meet the minimum approach requirements of R 259.244(a).

(2) The commission shall review proposed construction or alteration of objects which may be hazardous to the flight of aircraft on or in the vicinity of a licensed or approved airport to the extent of the minimum approach requirements of this part. If these minimum requirements are exceeded, then review will be based on the dimensions indicated in part 8. This review will consider existing controlling objects which shield those objects being proposed.

History: 1954 ACS 52, p. 7, Eff. Nov. 15, 1967.

R 259.244 Class D substandard noncommercial airports.

Rule 244. A class D substandard noncommercial airport is a substandard landing area available for public use. No license shall be granted, but approval will be granted annually and publication of the airport will be made if the following minimum requirements are provided and maintained:

(a) At least 1 runway with a 1,200-foot landing length in each direction from a clear approach of 20:1 and a 50-foot usable width, with an additional 25-foot minimum on each side free of obstructions. The approach slope shall be based on clearance of all objects within the approach area, including a roadway clearance of 15 feet (17 feet over an interstate highway), a railway clearance of 25 feet, and clearance at the boundary of the airport property interest of 25 feet. Runway lights are not considered an obstruction in the runway width required to be free of obstruction.

(b) A permanent monument established on the centerline at or beyond each end of the landing strip, according to commission drawing no. ST-R-101.

(c) Runway well defined either by mowing, use of markers or low peripheral farming with displaced thresholds marked according to commission drawing no. ST-R-103.

(d) Runway in a permanent location and not moved from 1 area to another.

(e) Wind cone.

(f) Telephone available at or near the airport. Directions shall be posted indicating the location of the nearest telephone.

(g) Commercial operations, such as, but not limited to, the sale of gasoline and oil, soliciting of charter flights or student instruction, are not permitted on this class of airport.

(h) A person using a class D airport does so at his own risk.

History: 1954 ACS 52, p. 7, Eff. Nov. 15, 1967.

R 259.245 Class C commercial airports.

Rule 245. A class C commercial airport license will be granted if the following are provided and maintained:

(a) Licensed airport manager and assistant manager.

(b) A runway with 1,800-foot landing length in each direction from a clear approach slope of 20:1 and a 100-foot usable width with an additional 50-foot minimum on each side free of obstructions.

(c) An approach slope at a ratio of 20:1 with a width of not less than 200 feet. The approach slope shall be based on a clearance of all objects within the approach area including a roadway clearance of 15 feet (17 feet over an interstate highway), a railway clearance of 25 feet and a clearance at the boundary of airport property interests of 25 feet.

(d) Marking as follows:

(i) Segmented circle with wind indicator according to commission drawing no. ST-R-102, except where traffic control is exercised.

(ii) Displaced thresholds marked according to commission drawing no. ST-R-103 or 104.

(iii) A permanent monument established on the centerline at or beyond each end of the landing strip. (Commission drawing no. ST-R-101.)

(iv) Markers outlining the landing area on sod strips. (Commission drawing no. ST-R-103.)

(v) Centerline marking and runway numbering on hard-surfaced runways. (Commission drawing no. ST-R-104.)

(e) Runway lights in operation from sunset to sunrise unless attended or automatically controlled. Failure to meet this condition will require being publicized as an unlighted airport.

(f) A telephone available on the airport and its location clearly indicated.

(g) Sanitary facilities.

(h) Shelter for public use.

(i) Aircraft parking and tie-down area.

History: 1954 ACS 52, p. 8, Eff. Nov. 15, 1967.

R 259.246 Class B commercial airports.

Rule 246. A class B commercial airport license will be granted if airport facilities required for a class C license are provided, and the following additional services and facilities are provided and maintained:

(a) Suitable buildings for housing the facilities and services required.

(b) Intermittent attendance.

(c) Aircraft fuels and oils.

(d) Airman information and data.

(e) Automotive parking area and adequate safety barrier.

(f) Safety fence for spectator areas.

(g) Year-round operation and maintenance.

History: 1954 ACS 52, p. 8, Eff. Nov. 15, 1967.

R 259.247 Class A commercial airports.

Rule 247. A class A commercial airport license will be granted if airport facilities required for class B and C licenses are provided, and the following additional services and facilities are provided and maintained:

(a) Suitable buildings for housing the facilities and services required.

(b) Attended from 8:00 a.m. to sunset daily.

(c) Aircraft fuels and oil available from 8:00 a.m. to sunset daily.

(d) Air frame and power plant repair service on the airport.

(e) Hangar facilities.

(f) Motorized fire equipment in operational condition, such as a pumper or crash truck located on the airport or a written agreement with a unit of government capable of providing such equipment within 5 minutes of notification of need.

History: 1954 ACS 52, p. 9, Eff. Nov. 15, 1967.

PART 5. LANDING AREA LICENSES

R 259.251 Approval of sites.

Rule 251. Upon receipt of an application, the commission shall cause the proposed airport site to be inspected, and shall examine the plans and specifica-

tions as to all local conditions affecting the construction, and the detailed requirements of construction provided by all state, local and federal laws. If the proposed or completed facility is found to meet the minimum requirements for issuance of site approval or an airport license, the commission will cause the approval or license to be issued.

History: 1954 ACS 52, p. 9, Eff. Nov. 15, 1967.

R 259.252 Priority of applications.

Rule 252. Written applications for inspection and approval of proposed sites will be given priority in order of receipt of the applications. Priorities will be valid for a period of 60 days, and further periods as in the judgment of the commission are justified upon satisfactorily showing that planning or construction is being carried on diligently to a degree of completion.

History: 1954 ACS 52, p. 9, Eff. Nov. 15, 1967.

R 259.253 Location of facilities.

Rule 253. (1) No facility intended for the use of aircraft shall be established, without prior commission approval, within 5 miles of a public use facility licensed by the commission.

(2) No facility shall be licensed or approved which requires aircraft to be airborne under a bridge or power line during the approach to or take-off from a landing area.

(3) The commission reserves the right to refuse issuance of a license or approval when the location of a proposed airport is at or near an existing airport or is in proximity to a game, fishery or other refuge established by the department of conservation.

History: 1954 ACS 52, p. 9, Eff. Nov. 15, 1967.

R 259.254 Airport name change.

Rule 254. The official name of an airport, as designated in a license issued by the commission, shall not be changed unless written request is made by resolution of the governing body of the airport authorizing the name change.

History: 1954 ACS 52, p. 9, Eff. Nov. 15, 1967.

R 259.255 Temporary field permits.

Rule 255. (1) When the owner of an aircraft uses, or proposes to use, an area of land or water for temporary commercial operations, he shall apply to the commission for a temporary field permit on forms furnished by the commission.

(2) The application shall be received at least 7 days before the date of requested issuance, and be accompanied by the fee provided by these rules.

(3) The area shall be inspected by the commission, and if found to be safe for use by the type of aircraft stated in the application, the commission may issue a temporary field permit for a period not to exceed 15 days.

History: 1954 ACS 52, p. 9, Eff. Nov. 15, 1967.

PART 6. SEAPLANE BASES

R 259.261 Facilities and equipment.

Rule 261. A seaplane base shall provide and maintain:

(a) At least 1 unobstructed straight line channel of at least 5,000 feet in length, and 200 feet in width.

(b) A ramp for beaching aircraft.

(c) A suitable float or mooring facility at some point on the shore adjoining the landing area.

(d) Fire extinguishers.

(e) A telephone at the mooring facility.

History: 1954 ACS 52, p. Eff. Nov. 15, 1967.

R 259.262 Prohibited adjacent areas.

Rule 262. No facility shall be licensed or approved which requires aircraft to be airborne under a bridge or power line during the approach to or take off from a landing area, or requires aircraft to fly in proximity to a bathing beach or boat dock in a manner which may endanger persons or property.

History: 1954 ACS 52, p. 10, Eff. Nov. 15, 1967.

PART 7. HELIPORTS

R 259.271 Class A commercial heliports.

Rule 271. A class A commercial heliport license will be granted, and the heliport may be included on aeronautical charts, if the following are provided and maintained:

(a) A length and width (A and B of commission drawing no. ST-R-106) of the landing area of at least 1½ times the length of the helicopter using the facility.

(b) At least 2 approach zones shall be provided, free of obstruction within the ratios on height limitations illustrated in commission drawing no. ST-R-106. Two of the approach zones provided shall be located to provide that their centerline shall form an arc of not less than 90 degrees at their intersection. Each approach zone shall provide an area suitable for an emergency landing during take-off, climb-out and landing.

(c) When a heliport is located on an elevated structure or roof, local building and fire codes shall be complied with. The minimum square foot strength of the contact surface shall be great enough to withstand at least 75% of the gross weight of the largest helicopter authorized to use the heliport. When applying for a license, the applicant shall file a certificate signed by a professional engineer registered in this state, certifying structural compliance of the heliport.

(d) Wind cone.

(e) At least 2 twenty-pound dry chemical fire extinguishers.

(f) Telephone available on the heliport and location clearly indicated.

(g) Nonclimbable fencing.

(h) Signs, indicating a heliport, located on its perimeter.

History: 1954 ACS 52, p. 10, Eff. Nov. 15, 1967.

R 259.272 Temporary commercial heliports.

Rule 272. A temporary commercial heliport will be approved if the following are provided and maintained:

(a) A landing area with a minimum diameter equal to twice the diameter of the rotor system of any rotary wing aircraft to be operated from the area. The landing area shall be free of all obstructions and roped off.

(b) At least 2 approach zones with a glide slope of 5:1 free of obstructions. Each approach zone shall provide an area suitable for an emergency landing during take-off, climb-out and landing.

History: 1954 ACS 52, p. 10, Eff. Nov. 15, 1967.

PART 8. AIRPORT APPROACH STANDARDS

R 259.281 Scope of part 8.

Rule 281. This part prescribes the airport approach standards which will be used by the commission in conducting aeronautical studies.

History: 1954 ACS 52, p. 10, Eff. Nov. 15, 1967.

R 259.282 Objects of interference.

Rule 282. A man-made structure, natural growth or other object which projects above the landing area or any of the airport referenced imaginary surfaces hereinafter described and on commission drawing no. ST-R-107, is considered an object of interference to air-navigation unless an aeronautical study reveals otherwise.

History: 1954 ACS 52, p. 10, Eff. Nov. 15, 1967.

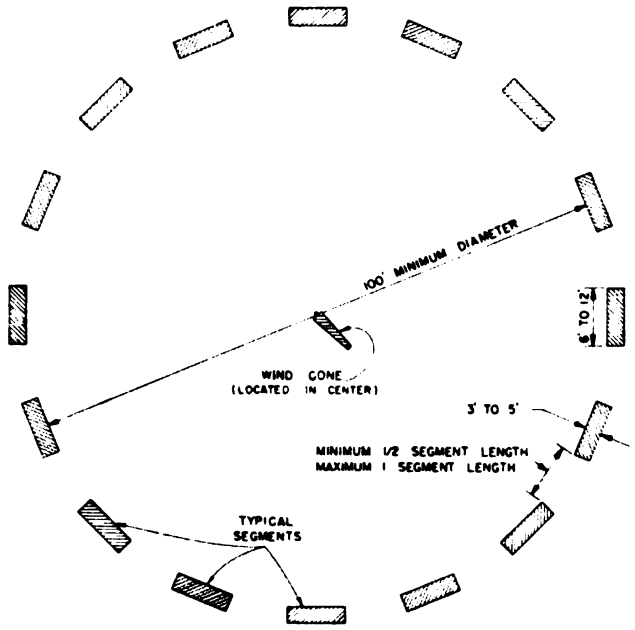
R 259.283 Airport referenced imaginary surfaces.

Rule 283. Airport referenced imaginary surfaces are established by reference to the airport as hereinafter described and consist of the approach surfaces, inner horizontal surface, extended inner horizontal surface, conical surface, transitional surfaces, outer horizontal surface, and extended 500-foot parallel surface.

History: 1954 ACS 52, p. 10, Eff. Nov. 15, 1967.

R 259.284 Approach surfaces.

Rule 284. The approach surface is an inclined plane located directly above the approach area. The dimensions of the approach area are measured horizontally as follows:



(a) The approach area has a variable length, measured on the extended centerline, beginning 200 feet outward from the threshold of or the displaced threshold of each runway, and extending outward, ending at the intersection of the inner horizontal surface and the approach surface.

(b) The approach area is symmetrically located with respect to the extended runway centerline. For FAA designated or master plan instrument landing system runways, the approach area has a total width of 1,000 feet at the end adjacent to the runway and flares outward at a ratio of 20:3 until the approach surface intersects the inner horizontal surface. For all other runways, the approach area has a total width at the end adjacent to the runway as follows: runways 3,501 or longer, 500 feet; runways less than 3,501 feet long, 250 feet. The approach areas with widths of 250 feet and 500 feet flare outward at a ratio of 10:1 until the approach surface intersects the inner horizontal surface.

(c) For FAA designated or master plan instrument landing runways, the slope of the approach surface along the runway centerline extended is 50:1. For runways 3,200 feet or longer, corrected length, this slope is 34:1 and for runways less than 3,200 feet, corrected length, the slope is 20:1. Corrected length is that which is corrected to elevation, the runway gradient and the normal maximum temperature of the hottest month of the site.

Segmented Circle

MINIMUM REQUIRED INSTALLATION

GENERAL NOTES

1. THE MINIMUM INSTALLATION SHALL CONSIST OF A SEGMENTED CIRCLE AND A CONVENTIONAL WIND CONE LOCATED OFF THE TRAFFIC AREA ADDITIONAL CONTROL AIDS MAY BE ADDED AS SHOWN
2. ALL ITEMS SHALL BE CONSTRUCTED OF DURABLE WEATHERPROOF MATERIAL.
3. COLOR OF SEGMENTS (NATURAL OR APPLIED) SHALL PROVIDE AN EFFECTIVE CONTRAST TO THE SURROUNDING AREA
4. SEGMENTS AND INDICATORS MAY BE OF ANY TYPE CONSTRUCTION THAT WILL SIMULATE THE SHAPES SHOWN THEY SHALL BE OF A TYPE THAT WILL SHED SNOW AND NOT BE OBSCURED BY VEGETATION OR DRIFTING SNOW AND SAND.
5. 55 GAL OIL DRUMS OR SIMILARLY VISABLE UNITS MAY BE USED AS SEGMENTS. CIRCLE DIAMETER MAY BE REDUCED TO 50' USING 20 SEGMENTS.

ADDITIONAL CONTROL AIDS

R 259.285 Inner horizontal surface.

Rule 285. The inner horizontal surface is a plane, circular in shape, with a height of 149 feet above the established elevation of the airport, which is the highest point on the usable runways, and having a radius of 3 miles from the airport reference point, which is the center of the usable runways.

History: 1954 ACS 52, p. 11, Eff. Nov. 15, 1967.

R 259.286 Extended inner horizontal surface.

Rule 286. The extended inner horizontal surface is a plane with its height 149 feet above the established airport elevation and extending outward 10 miles from the airport reference point. This surface is parallel to and symmetrical with the instrument approach course as established by the FAA or master plan, and has the following widths:

(a) At an airport with a radio navigational aid on the airport, the surface is 4 miles wide at the airport reference point and 10 miles wide at the outer limits.

(b) At an airport with a radio navigational aid located off the airport, the surface is 4 miles wide for the entire length.

History: 1954 ACS 52, p. 11, Eff. Nov. 15, 1967.

R 259.287 Conical surface.

Rule 287. The conical surface extends from the periphery of the inner horizontal surface outward and upward to a horizontal distance of 33,390 feet from the airport reference point and to a height of 500 feet above the established elevation of the airport.

History: 1954 ACS 52, p. 11, Eff. Nov. 15, 1967.

R 259.288 Transitional surfaces.

Rule 288. The transitional surfaces are inclined planes with a slope of 7:1 measured outward and upward in a vertical plane at right angles to the centerline or extended centerline of the runway. The transitional surfaces, symmetrically located on either side of the runway, extend outward and upward from a line on either side of the runway, which is parallel to and level with the runway centerline. These parallel lines are at a horizontal distance from the runway centerline equal to ½ of the width of the approach area indicated in R 259.284. Transitional surfaces extend from the edges of all approach surfaces outward and upward to the intersection with the inner horizontal surface.

History: 1954 ACS 52, p. 11, Eff. Nov. 15, 1967.

R 259.289 Outer horizontal 500-foot turning zone surface.

Rule 289. The outer horizontal 500-foot turning zone surface is a plane, circular in shape, with its height 500 feet above the established airport elevation, and extends from the outer periphery of the conical surface a distance of 10 miles from the airport reference point. This surface applies only to an airport with runways 5,001 feet or longer.

History: 1954 ACS 52, p. 12, Eff. Nov. 15, 1967.

R 259.290 Extended 500-foot parallel surface.

Rule 290. The extended 500-foot parallel surface is a horizontal plane with its height 500 feet above the established airport elevation, and extends outwardly from the outer limits of the extended inner horizontal surface to a distance of 20 miles from the airport reference point. This surface is parallel to the instrument

approach course as established by the FAA or master plan, and is 10 miles wide on the maneuvering side of a procedure turn and 5 miles wide on the opposite side. This surface applies only to an airport with instrument procedures.

History: 1954 ACS 52, p. 12, Eff. Nov. 15, 1967.

PART 9. AIRPORT HAZARDS

R 259.291 Applications.

Rule 291. (1) Application shall be made for a commission permit, unless otherwise authorized in these rules, before a structure, natural growth, or other object shall be erected, rebuilt, altered, allowed to grow or maintained within the areas described in R 259.292 and R 259.293, which will result in an object extending more than 500 feet above the highest point of land within a 1 mile radius from the object.

(2) No application shall be required for the emergency repair, alteration, or replacement of public utility structures, other than buildings when the height of such structures will not be increased. Any circumstance calling for immediate action or remedy in the repair, alteration, or replacement of public utility structures shall be deemed an emergency.

History: 1954 ACS 52, p. 12, Eff. Nov. 15, 1967.

R 259.292 Zoning ordinances.

Rule 292. (1) In areas surrounding a public use airport for which zoning ordinances or resolutions have not been adopted by local units of government, no person shall erect, add to the height of, or replace any object within an area lying 500 feet on either side of the centerline of a runway or landing strip for a distance of 2 miles from the nearest boundary of a public use airport, which will result in an object extending higher than the height determined by the ratio of 20:1 between the nearest boundary of the airport and the object.

(2) In areas for which zoning ordinances or resolutions have been adopted by local units of government, no person shall erect, add to the height of, or replace an object except as authorized by the local zoning ordinance. Outside of locally zoned territory and within an area determined by the extensions of the approach surface and the transitional surface on the same slope ratios established under the local zoning ordinance or resolution, but not to exceed a slope ratio of 40:1 for the approach surface, or 7:1 for the transitional surface, to a point where the extended approach and transitional surfaces intersect the 500-foot level described in R 259.291, no object shall be erected, altered by increasing its height, or replaced until a permit therefor has been obtained from the commission.

History: 1954 ACS 52, p. 12, Eff. Nov. 15, 1967.

R 259.293 Nonconforming structures and trees.

Rule 293. These rules do not require removal, lowering, change, or alteration of a structure, vegetation, or other object not conforming to these rules as of their effective date. However, the owner of a nonconforming object shall without expense provide or permit installation, operation, and maintenance of markers and lights deemed necessary by the commission to indicate the presence of airport hazards. Where an airport hazard area exists in connection with a public use airport, the commission shall define and determine the airport hazard area and certify such determination to the political subdivision where the airport is located, and to the airport owner or operator.

History: 1954 ACS 52, p. 12, Eff. Nov. 15, 1967.

R 259.294 Abatement of hazards.

Rule 294. An encroachment upon an airport protection area arising out of the erection, rebuilding, alteration, growth, or maintenance of a structure, vegetation, or other object constitutes a public nuisance and may be abated.

History: 1954 ACS 52, p. 12, Eff. Nov. 15, 1967.

R 259.295 Conflicting rules.

Rule 295. If these rules conflict with other regulations applicable to the same area, whether the conflict is with respect to the height of structures, vegetation, or other objects, or any other matter, those limitations or requirements determined by the commission to be most conducive to airport and air travel safety shall prevail and govern.

History: 1954 ACS 52, p. 13, Eff. Nov. 15, 1967.

PART 10. AIRPORT FIELD RULES

R 259.301 General provisions.

Rule 301. (1) Unless specifically exempted by these rules, no person shall navigate an aircraft over, land upon, or fly the same from, or service, maintain, or repair an aircraft on an airport or landing area, or conduct an aircraft operation from an airport or landing area in this state otherwise than in conformity with the requirements of the Michigan aeronautics code and the rules and regulations of the commission.

(2) Unless specifically exempted by these rules, no person shall use an airport or landing area as a base or terminal for the carrying on of commercial aviation, the transportation of passengers, freight, express or mail, student flying, or private purposes of transportation without first securing a permit from the manager or assistant manager and paying the fees and charges prescribed.

(3) An airport manager or assistant manager at all times has authority to take such action authorized by law as may be necessary in the handling, conduct, and management of the public in attendance at the airport.

(4) A person dealing, at wholesale or retail, in aviation fuel shall acquire and dispense such fuels in accordance with the laws of this state, the rules and regulations of the commission, and the rules and regulations of the state fire marshal. Fuels of different octane shall not be dispensed from the same pump.

History: 1954 ACS 52, p. 13, Eff. Nov. 15, 1967.

R 259.302 Use of airports by aircraft and airmen.

Rule 302. (1) Aircraft shall conform to the standard traffic pattern as outlined in commission drawing no. ST-R-108 except as follows:

(a) When meteorological conditions are such that compliance with visual flight rules as prescribed by federal air regulations is impossible at the prescribed traffic pattern altitudes, such altitudes may be reduced as necessary down to but no lower than altitudes in accordance with the appropriate federal air regulations and the rules and regulations of the commission.

(b) Aircraft engaged in providing scheduled service may make straight-in approaches when ramp monitoring is conducted.

(c) When local conditions require, and the traffic pattern has been altered to fit these conditions and approved by the commission.

(2) No aircraft shall be flown acrobatically over an airport except upon written authority of the airport manager and then only when the airport is closed to traffic.

(3) Aircraft approaching an airport for a landing shall make at least a ½ circuit of the field, conforming with the standard traffic pattern, except when otherwise denoted on a segmented circle, or except when otherwise directed by air traffic control.

(4) Visiting pilots landing on an airport, where practical, shall sign the airport register.

(5) Airmen, before departing from an airport, shall make satisfactory arrangements for the payment of storage, repair and supply charges.

(6) Persons giving flight instruction shall acquaint students with the rules and regulations of the commission in effect at the airport, and are responsible for their conduct.

History: 1954 ACS 52, p. 13, Eff. Nov. 15, 1967.

R 259.303 Standard traffic pattern at uncontrolled airports.

Rule 303. (1) Traffic at an uncontrolled airport shall conform with the traffic pattern illustrated in commission drawing no. ST-R-108, with the exceptions listed in R 259.302.

(2) Light, slow aircraft shall enter the pattern at 800 feet above the airport elevation and use the inner rectangular pattern to secure wind direction. Heavy, fast aircraft shall enter the pattern at 1,000 feet above airport elevation, and use outer circular pattern.

(3) Aircraft shall use the runway nearest to direction as indicated by the wind sock or runway indicator for takeoffs and landings.

(4) Under calm wind conditions, aircraft shall use the preferential runway indicated in the local traffic pattern sketch posted in the airport office.

(5) Departing light, slow aircraft shall proceed straight ahead until reaching an altitude of 400 feet and passing the end of the runway, then making a 90 degree left turn and climb to 600 feet, then make a 45 degree turn to the right and depart the traffic area. Heavy, fast aircraft may depart straight ahead. Altitudes quoted are above the airport elevation.

History: 1954 ACS 52, p. 13, Eff. Nov. 15, 1967.

R 259.304 Supervision of running engines.

Rule 304. (1) An aircraft engine shall not be started unless a competent operator is in the aircraft attending the engine controls.

(2) Blocks equipped with ropes or other suitable means of removing the blocks shall always be placed in front of the wheels before starting the engine, unless the aircraft is equipped with adequate parking brakes and the brakes are effectively set.

(3) An aircraft shall be started and warmed up only in areas designated for such purposes.

History: 1954 ACS 52, p. 14, Eff. Nov. 15, 1967.

R 259.305 Fueling of aircraft.

Rule 305. No aircraft shall be fueled in a hangar, or while the engine is running.

History: 1954 ACS 52, p. 14, Eff. Nov. 15, 1967.

R 259.306 Accidents and wrecked aircraft.

Rule 306. (1) An aircraft owner, his pilot, or authorized agent is responsible for the prompt disposal of a wrecked aircraft and its parts to avoid interference with airport operations, unless specifically directed by the airport manager,

commission, state police, or appropriate federal agency to delay removal pending investigation.

(2) Participants in an accident at or near an airport shall report to the airport manager or responsible authorities as soon after an accident as possible, furnishing their names, addresses, and rendering reports required.

(3) Reports of investigations or hearings, or any part thereof, shall not be admitted in evidence or used for any purpose growing out of a matter referred to in an investigation, hearing or report, except in case of criminal or other proceedings in behalf of the commission.

(4) An officer or employee of the commission shall not be required to testify as an expert witness in an action involving an aircraft.

History: 1954 ACS 52, p. 14, Eff. Nov. 15, 1967.

R 259.307 Towing.

Rule 307. A pilot shall not tow anything by an aircraft unless authority for the operation has been issued in writing by the airport manager, and appropriate commission and federal waivers have been issued.

History: 1954 ACS 52, p. 14, Eff. Nov. 15, 1967.

R 259.308 Dropping of objects.

Rule 308. The pilot of an aircraft shall not permit an object to be dropped from an aircraft in flight except upon written permission of the political subdivision having jurisdiction over the proposed act, and after full compliance is made with all applicable federal, state, and local laws and regulations. This rule does not prohibit aerial application operations such as seeding, spraying or dusting, where authorized by law, or acts performed in emergencies when it is necessary to lighten an aircraft in the interests of safety of the aircraft and its occupants.

History: 1954 ACS 52, p. 14, Eff. Nov. 15, 1967.

PART 11. AIRPORT MANAGERS AND ASSISTANT AIRPORT MANAGERS

R 259.311 Appointment and licensing.

Rule 311. (1) The owner or operator of a licensed airport in this state shall appoint a manager, and, if the manager is unable to be continuously in attendance, shall appoint an assistant manager.

(2) The manager shall be furnished, by appropriate resolution of the political subdivision appointing him, adequate power and authority to exercise control over the airport for the enforcement of federal, state and local rules and regulations pertaining to the airport and its use. The assistant manager shall be empowered to act for the manager in his absence.

(3) The issuance of a license to an airport manager or assistant airport manager shall require a 70% passing grade on a test based on the Michigan aeronautics code and the rules and regulations of the commission. Tests will be furnished by the commission.

History: 1954 ACS 52, p. 14, Eff. Nov. 15, 1967.

R 259.312 Responsibilities and duties.

Rule 312. An airport manager and assistant manager shall:

(a) Enforce the rules and regulations of the commission.

(b) Determine that all airport requirements for the class under which the airport is licensed are maintained.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(c) Determine and take appropriate action to assure that all pilots, mechanics, instructors, aircraft, and schools operating on the airport under his authority have appropriate and effective valid airworthiness or competency certificates and registrations as issued by the appropriate state and federal agencies.

(d) Establish, maintain and preserve an airport register book showing arrivals and departures of aircraft, the number of airmen and passengers, and other relevant information required by the commission. The records of the airport register shall be retained for 1 year, or such other period required by the commission, and are available for inspection upon demand by the commission or its authorized representative.

(e) Maintain a record of the number of gallons of aviation fuel purchased, used or sold at the airport during the preceding calendar year, setting forth information required by the commission. The report shall be filed with the commission on request.

(f) Post current local airport rules.

(g) File NOTAMS with the proper federal agency designating any change in airport condition.

(h) Note and advise the commission of a proposed construction or zoning change adjacent to or near the airport which would affect air navigation safety or airport use.

(i) Advise sponsors of new and proposed construction of federal regulations pertaining to objects affecting navigable airspace, and have available for distribution commission form no. 117, notice of proposed construction or alteration.

History: 1954 ACS 52, p. 15, Eff. Nov. 15, 1967.

PART 12. AVIATION SCHOOLS AND INSTRUCTORS

R 259.321 Applications.

Rule 321. (1) Upon receipt of an application by an aviation school, together with the license fee, the commission will cause the school to be inspected, and the qualifications of the applicant determined.

(2) An aviation school shall be classed as a ground school or a flight school.

History: 1954 ACS 52, p. 15, Eff. Nov. 15, 1967.

R 259.322 Duration and renewal of licenses.

Rule 322. (1) Unless sooner surrendered, suspended, or revoked, a school license expires 1 year from date of issuance, or upon the sale or transfer by the owner of its property, equipment, or franchise.

(2) A change in the name of the school, without change in ownership, does not cause a current license to expire, if the owner of the school, within 15 days, notifies the commission in writing of the change. The commission will then issue a license under the new name, with the same expiration date as the license previously issued, with no additional fee required.

History: 1954 ACS 52, p. 15, Eff. Nov. 15, 1967.

R 259.323 Ground schools.

Rule 323. (1) A ground school shall provide a suitable space of permanent nature, properly heated, lighted, and ventilated, to house adequate equipment necessary to the proper conduct of business matters, and the preparation and preservation of business records. The office facilities of the school shall be equipped with necessary chairs, desks, or tables, filing cabinets, typewriters, and telephone.

(2) The school shall provide classroom space of a permanent nature. Equipment and supplies shall be housed in a suitable, well-lighted, and well-ventilated room with clean and sanitary surroundings. Ample separate space shall be provided for classrooms and equipment sufficient to accommodate the largest number of students scheduled for attendance at any time. Each student shall be provided with a desk chair, or chair and desk or table suitable for writing examinations. Sanitary facilities, including adequate toilet and washroom facilities, shall be provided in the building or in the immediate vicinity. Classrooms shall be maintained in a neat and sanitary condition, equipped with a blackboard of sufficient size to provide explanation by means of diagrams, and lighted with illumination of sufficient intensity to promote study without eye strain.

(3) The school shall make available sufficient texts and related reading and visual material covering state and federal aviation laws, regulations, engines, aircraft, meteorology, navigation and radio, and other subjects which may be required by state or federal authority.

(4) The school shall provide adequate instruction to properly qualify a student completing its courses for the appropriate federal agency examinations covering the grade of certificate or rating the student is seeking.

(5) A person employed as a ground instructor shall be certified in accordance with federal regulations, and registered with the commission, or shall be under the direct supervision of a certificated ground instructor. A certified flight instructor may conduct ground school training if approved audio visual aids are used. An instructor in a public school, college, or university is exempt from the requirements of this subrule.

History: 1954 ACS 52, p. 15, Eff. Nov. 15, 1967.

R 259.324 Flight schools.

Rule 324. (1) A flight school shall provide the same office facilities as prescribed for a ground school.

(2) The school shall provide the same classroom facilities as prescribed for a ground school; however, if classrooms are located other than at an airport, a student ready-room shall be provided at the airport site. A suitable space, with clean and sanitary surroundings, properly heated, lighted, and ventilated to accommodate flight students and equipped with necessary chairs, clothes racks, lockers, bulletin boards, appropriate aeronautical charts, and sanitary facilities as prescribed for a ground school shall be provided.

(3) The school shall provide a suitable space, properly heated, lighted, and ventilated to conduct necessary inspections, repairs, and maintenance operations required to maintain aircraft.

(4) The school shall provide sufficient tools, mechanical devices and aircraft engine and airframe manufacturers' manuals to perform adequately all maintenance operations.

(5) A building or structure shall not be used or occupied for any purpose or meeting until inspected and approved by the state or local fire marshal.

(6) If the equipment and facilities required in this rule are not provided, a contractual agreement with a maintenance and repair shop, upon approval of the commission, will be deemed adequate to fulfill compliance with the maintenance and repair requirements of this rule.

(7) The school's application shall show that:

(a) Each aircraft to be used for purposes of flight instruction is possessed of a valid airworthiness certificate issued by the appropriate federal agency, is

properly registered with the commission, and has the equipment and performance characteristics appropriate to the curriculum, and the airport to be used.

(b) Each certificated aircraft is registered in the name of the owner, or operated under lease, the terms of which are satisfactory to the commission, and sufficient aircraft are available at the training location for the flight training periods prescribed.

(8) The school shall have at least 1 flight instructor available for each scheduled instruction period or supervised solo period. A person employed as a flight instructor shall possess valid and appropriate commercial pilot's and instructor's certificates issued by the appropriate federal agency and registered with the commission.

(9) The school shall have a written curriculum including lesson plans so organized as to properly qualify a student completing the particular course for the certificate or rating he is seeking.

History: 1954 ACS 52, p. 16, Eff. Nov. 15, 1967.

R 259.325 Conduct of schools.

Rule 325. (1) The school license in its currently effective form shall be conspicuously posted in the principal office of the school where it may be readily observed.

(2) An applicant for, or holder of, a school license shall permit and offer full cooperation in respect to an inspection which may be made of the applicant or licensee by an authorized representative of the commission. Records and rosters pertaining to operation of the school shall be available for inspection by any authorized representative of the commission, upon demand. The commission shall at all times have access to the lands, buildings and equipment of a licensed school and to the records required to be kept by the school.

(3) A copy of the school regulations shall be posted conspicuously on the school bulletin board for information and guidance of students enrolled therein.

(4) A school and its representatives and instructors shall not in its advertising guarantee, or imply the guarantee of, employment prior to, during, or upon completion of a course of study. Only a licensed school may advertise flight and ground school instruction.

History: 1954 ACS 52, p. 16, Eff. Nov. 15, 1967.

PART 13. FLYING CLUBS

R 259.331 Applications for registration of aircraft.

Rule 331. An application for registering aircraft owned by a flying club shall be made upon forms provided by the commission, shall be executed by an authorized officer or incorporator of the club, and shall state:

(a) The location and post office address of the club's registered office, and the principal place of its operations.

(b) The names and places of residence, or business addresses, of each of the club's officers.

(c) The registered owner of the aircraft as designated on the certificate of registration.

(d) That the aircraft is not being used, or proposed to be used, for profit or reward.

History: 1954 ACS 52, p. 17, Eff. Nov. 15, 1967.

R 259.332 Application signers' responsibility; designation of agents.

Rule 332. (1) The officer or authorized member of the flying club signing the application for registering club aircraft is responsible for compliance by the club members with all aviation laws and the rules and regulations of the commission.

(2) A flying club shall designate in writing an agent upon whom service of notices, reports, and other requirements of the commission may be made, as if made personally upon the club.

History: 1954 ACS 52, p. 17, Eff. Nov. 15, 1967.

R 259.333 Operation of aircraft.

Rule 333. (1) An aircraft operated, owned or leased by a flying club shall comply with the airworthiness requirements of the appropriate federal agency.

(2) The club shall not derive greater revenue from the use of its aircraft than the amount necessary for its actual operation, maintenance and replacement.

(3) The club's aircraft shall not be used by other than bona fide members for rental, or by anyone for charter or taxi lease.

History: 1954 ACS 52, p. 17, Eff. Nov. 15, 1967.

PART 14. AIR TRAFFIC RULES

R 259.341 General.

Rule 341. (1) The owner, operator, or pilot of an aircraft, or a person to whom he has given permission to use the aircraft, is directly responsible for its safe operation.

(2) When an aircraft is involved in an accident in this state which causes injury or death, or damage in excess of $100.00 to the aircraft, the owner or person in control of the aircraft shall immediately report the accident to the nearest state police post.

(3) A person shall not operate an aircraft in a careless or reckless manner so as to endanger, or be likely to endanger, the life or property of another. Other than at a licensed or approved airport, no person shall fly an aircraft less than 25 feet above the ground at the field boundary, or closer than 25 feet to any object or structure while landing or taking off.

(4) A person shall not operate an aircraft, or serve as a member of its crew, while under the influence of an intoxicating beverage, or while using any drug which affects his faculties in any manner contrary to safety. The owner, operator, or pilot of an aircraft shall not permit any person to be carried in the aircraft who, in his opinion, is addicted to or under the influence of drugs or alcoholic beverages, except a patient under medical care.

(5) Aircraft shall be flown at least 500 feet apart, except by prearrangement of the pilots in command.

(6) A certificate of waiver will be required from the commission for aerial patrol and aerial towing, except for towing of gliders.

History: 1954 ACS 52, p. 17, Eff. Nov. 15, 1967.

R 259.342 Landings and takeoffs.

Rule 342. (1) An aircraft shall not land, except in an emergency, on private property, other than upon recognized landing areas, unless express permission is secured from the owner or lessee.

(2) An aircraft shall not land on, or take off from, a public highway, except in an emergency. An aircraft shall not take off from a public highway unless traffic is controlled by law enforcement officials.

History: 1954 ACS 52, p. 18, Eff. Nov. 15, 1967.

R 259.343 Minimum altitudes.

Rule 343. Except when necessary for taking off and landing, an aircraft shall not be flown:

(a) Over the limits of a city or village at an altitude below that which will permit a safe landing outside the congested areas, in case of power failure, and in no case less than 1,000 feet above the area, or less than 2,000 feet horizontally from the highest obstruction.

(b) Over any other area at an altitude of less than 500 feet above the area, except over open water or sparsely populated areas, in which case the aircraft shall not be operated less than 500 feet from any person, vessel, vehicle or structure.

(c) A helicopter may be flown at altitudes less than the minimums prescribed, if the operation is conducted without hazard to persons or property.

History: 1954 ACS 52, p. 18, Eff. Nov. 15, 1967.

R 259.344 Aircraft lights.

Rule 344. (1) An aircraft in flight shall display position lights between the hours of official sunset and sunrise.

(2) An aircraft parked, moored, or otherwise stationed within any area of an airport used, or available, for night flight operations shall be clearly illuminated, unless the parking area is otherwise marked with lights clearly defining the boundaries of the area.

(3) An aircraft parked, moored, or otherwise stationed on water shall display a white anchor light, or position light.

History: 1954 ACS 52, p. 18, Eff. Nov. 15, 1967.

PART 15. INTRASTATE COMMERCIAL OPERATIONS

R 259.351 Intrastate air commerce; when prohibited.

Rule 351. (1) No person shall operate, or authorize to be operated, civil aircraft for hire in scheduled intrastate air commerce within this state without prior approval of the commission. Intrastate air commerce means transportation by air originating and terminating within the territorial limits of this state.

(2) This rule does not apply to an air carrier engaged principally in scheduled commercial flying constituting an act of interstate commerce, and whose scheduled intrastate mileage is not in excess of 50% of its total route mileage, both within and without this state.

History: 1954 ACS 52, p. 18, Eff. Nov. 15, 1967.

R 259.352 Applications for letters of approval.

Rule 352. (1) An applicant applying for a letter of approval shall do so on a form furnished by the commission, accompanied by a $25.00 fee payable to the State of Michigan, Michigan Aeronautics Commission. The application shall be executed by the applicant, be acknowledged before a person authorized to administer oaths, and contain:

(a) The name, bona fide residence, and mailing address of the owner, and business address of the firm, partnership, corporation, company, or association.

(b) The aircraft to be used listed by federal license number.

(c) Pilots listed by name and address.

(d) A summary of applicant's proposed operations including:

(i) Computation of scheduled intrastate mileage.

(ii) Proposed routes, showing terminal points and intermediate stops.

(iii) Proposed rates, fares, and charges for air transportation to be served by the applicant.

(iv) Proposed days and hours of scheduled operations.

(e) Proof of public liability and property damage insurance issued by an insurance carrier licensed to do business in this state and providing coverages not less than:

(i) $50,000.00 passenger bodily injury liability per seat.

(ii) $50,000.00 bodily injury liability per person, excluding passengers.

(iii) $50,000.00 public liability each occurrence.

(iv) $500,000.00 property damage.

(f) A true copy of applicant's federal aviation agency air taxi certificate.

(g) A copy of applicant's airport use agreement, evidencing that the agreement is in full force and effect as executed by appropriate local authorities, for each intermediate and terminal stop on the proposed intrastate route.

(2) An applicant proposing to offer advance ticket sales shall furnish surety bonds in an amount determined by the commission for the purpose of guaranteeing refunds to passengers for unused tickets.

(3) All aircraft and airmen shall be registered with the commission.

History: 1954 ACS 52, p. 18, Eff. Nov. 15, 1967.

R 259.353 Letters of approval and change of route.

Rule 353. (1) Upon receipt of an application, and the commission's determination that all of the requirements of R 259.352 have been met, the commission shall issue a letter of approval to engage in scheduled commercial operations in intrastate commerce.

(2) Any addition to a route, as approved in the application, requires prior written approval of the commission.

(3) Except as provided in subrule (2), the holder of a letter of approval from the commission shall notify the commission in writing within 30 days of any changes in the information provided in the approved application.

(4) The commission may revoke the letter of approval of an applicant who fails to comply, in whole or in part, with the terms and conditions of this part.

History: 1954 ACS 52, p. 19, Eff. Nov. 15, 1967.

PART 16. FINANCIAL RESPONSIBILITY

R 259.361 Reporting of accidents.

Rule 361. (1) The operator of an aircraft involved in an accident within this state in which any person is killed or injured or damage in excess of $100.00 is sustained other than to property owned by the owner or operator, upon written request of the commission, shall report the matter in writing on forms supplied by the commission.

(2) If the operator is physically incapable, the owner of the aircraft involved in the accident shall make the report.

(3) If the owner or operator dies as a result of the accident, the legal representative of the owner or operator shall make the report.

(4) The law enforcement agency within whose jurisdiction the accident occurred shall immediately notify the commission thereof in writing, but not later than 48 hours after learning of the accident.

History: 1954 ACS 52, p. 19, Eff. Nov. 15, 1967.

R 259.362 Security and claims.

Rule 362. (1) When the commission determines the amount of security necessary, the owner or operator shall furnish the requested security within 10 days after the request.

(2) Failure to deposit security within 10 days after the request may cause the commission to suspend the aircraft registration and operating privileges of the owner or operator.

(3) The commission shall not consider the claim of any person until it is executed on the proper form available from the commission.

History: 1954 ACS 52, p. 19, Eff. Nov. 15, 1967.

R 259.363 Penalties.

Rule 363. Specific violation of the uniform aircraft responsibility act, Act No. 257 of the Public Acts of 1955, as amended, being §§259.671 to 259.692 of the Michigan Compiled Laws, shall subject the owner or operator to the penalties set forth in section 14 of that act.

History: 1954 ACS 52, p. 19, Eff. Nov. 15, 1967.

PART 18. HEARINGS BY THE COMMISSION

R 259.381 Location and notice.

Rule 381. Hearings by the commission shall be conducted in accordance with Act No. 197 of the Public Acts of 1952, as amended, being §§24.101 to 24.110 of the Michigan Compiled Laws. Unless otherwise indicated, a hearing shall be held in the offices of the commission, Capital City Airport, Lansing, Michigan. A hearing notice shall be given by registered mail, and shall state the date, time, place, issues involved, and reason for conducting the hearing. The notice shall be mailed at least 20 days prior to the date set for hearing.

History: 1954 ACS 52, p. 20, Eff. Nov. 15, 1967.

R 259.382 Adjournments and continuances.

Rule 382. A hearing shall not be adjourned or continued except upon order of the commission, or its duly authorized hearings representative. A request for adjournment or continuance shall be in writing, stating concisely the reasons why it is required, and be filed at least 10 days prior to the date set for hearing, or sufficient showing made that reasons beyond the control of the party making such request prevented such filing.

History: 1954 ACS 52, p. 20, Eff. Nov. 15, 1967.

R 259.383 Appearances and defaults.

Rule 383. A party may appear in person or by a duly authorized representative or attorney. If a party fails to appear after proper service of notice, and if no adjournment is granted, the commission may proceed with the hearing and make its decisions in the absence of the party.

History: 1954 ACS 52, p. 20, Eff. Nov. 15, 1967.

R 259.384 Pleadings, briefs, and stipulations.

Rule 384. (1) A party requesting a hearing shall submit to the commission in writing a fair and accurate statement of the reasons therefor, the facts and issues involved, and may file a brief upon the law. Allegations of fact recited in the statement may be accepted by the commission as evidence, unless a written

answer is filed denying such facts or unless a party asserts affirmative defenses in his answer.

(2) A proper party may file a written answer to charges or claims made, or may present an oral statement at the time of hearing. Copies of statements, written pleadings and briefs of any party shall be served on the commission, and upon all other proper parties at least 10 days prior to the date set for hearing.

(3) The parties to any proceeding before the commission, by written stipulation filed with the commission, may agree upon any issues of fact involved in the controversy, and the stipulation may be accepted and used as evidence at the hearing.

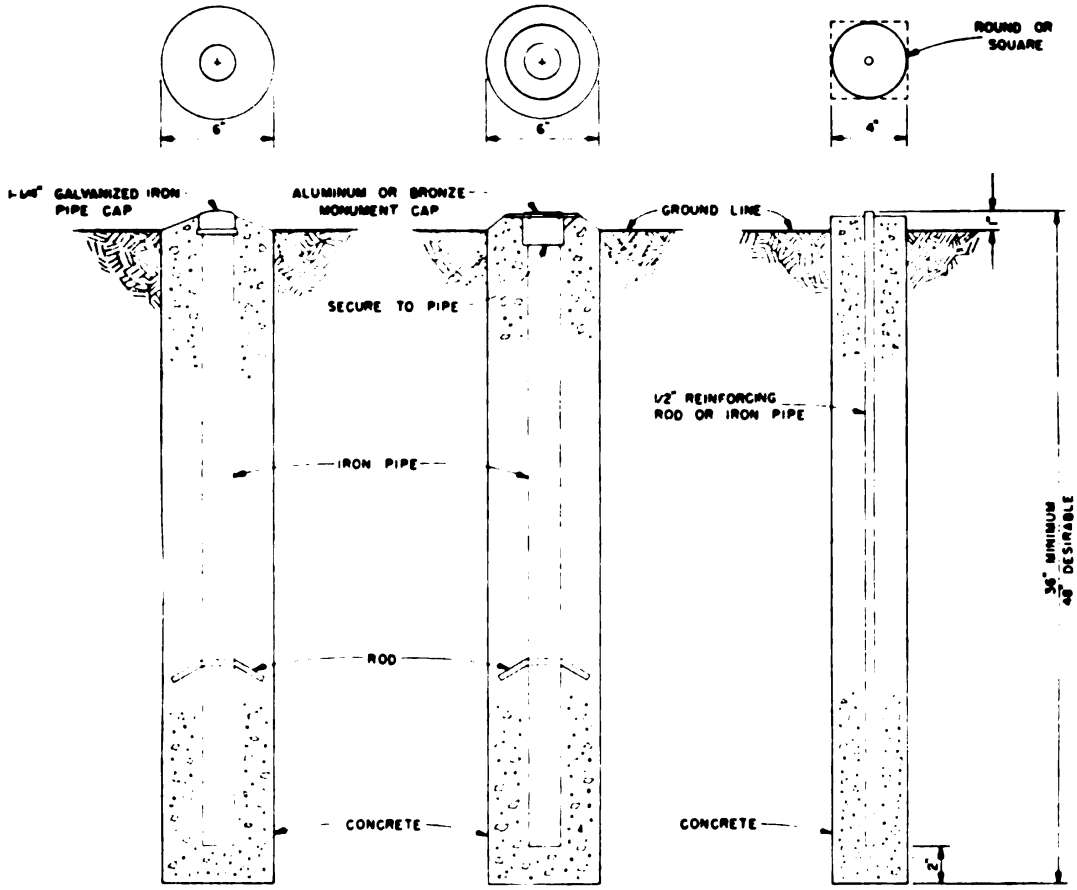
History: 1954 ACS 52, p. 20, Eff. Nov. 15, 1967.

PART 19. GENERAL PROVISIONS AND RESCISSION

R 259.391 Waiver of rules.

Rule 391. The commission may, at its discretion, waive compliance with these rules and regulations in connection with any particular application when, after a hearing, waiver is found to be required by circumstances or conditions and is determined to be in the public interest.

History: 1954 ACS 52, p. 20, Eff. Nov. 15, 1967.



R 259.399 Rescission of prior rules.

Rule 399. Rules 1.0 to 10.0 of the General Rules of the commission as amended, being R 259.101 to R 259.200 of the Michigan Administrative Code, and appearing on pages 349 to 365 of the 1957 Supplement to the Code, and pages 2790 and 2791 of the 1963 Annual Supplement to the Code, and pages 11 and 12 of Supplement No. 50 to the Code, are rescinded.

Runway Marking Details (Cont.)

TYPICAL NUMBER SPACING

ARROWS AND CHEVRONS

GENERAL NOTES

1. ALL RUNWAY MARKINGS SHALL BE PAINTED A SOLID WHITE COLOR.
2. A PROPORTIONAL REDUCTION IN THE SIZE AND TRANSVERSE SPACING OF NUMERALS AND CHEVRONS MAY BE USED FOR RUNWAYS LESS THAN 75 FEET IN WIDTH.
3. ARROWS SHALL NOT BE REDUCED IN SIZE.
4. ARROWS SHALL BE REPEATED AT THE PROPER SPACING FOR THE FULL LENGTH OF THE PAVEMENT ON THE APPROACH SIDE OF A DISPLACED THRESHOLD. A PARTIAL ARROW MAY BE REQUIRED AT THE PAVEMENT END
5. WHERE MARKINGS OF TWO RUNWAYS CONFLICT, PREFERENCE IN MARKING LOCATION SHALL BE GIVEN TO THE MOST IMPORTANT RUNWAY.
6. PARALLEL RUNWAYS SHALL BE MARKED WITH AN "L" OR "R" BELOW THE RUNWAY NUMBER. DETERMINATION OF "LEFT" OR "RIGHT" IS MADE FROM THE APPROACH DIRECTION.
7. DESIRABLE PAINT COVERAGE IS 100 - 125 SQUARE FEET PER GALLON.

AIRPORT DEVELOPMENT LOANS

(By authority conferred on the aeronautics commission by section 3 of Act No. 107 of the Public Acts of 1969, and Executive Reorganization Order Nos. 1973-1 and 1973-1a, being §§259.253 and 247.821 of the Michigan Compiled Laws)

R 259.801 Purpose.

Rule 1. These rules are prescribed requirements and procedures for the use of state funds for airport development loans to establish new publicly owned airports and to develop and improve existing publicly owned airports, and to provide for the orderly processing and expeditious closing of mortgage loans authorized by Act No. 107 of the Public Acts of 1969, being §§259.251 to 259.255 of the Michigan Compiled Laws.

History: 1954 ACS 79, p. 16, Eff. May 22, 1974.

R 259.802 Eligibility and priorities.

Rule 2. (1) A publicly owned airport is eligible for state loan funds.

(2) An airport development and improvement project, including land acquisition is eligible for state loan funds.

(3) To make the most effective use of state loan funds, the following project priorities are established in the order stated:

(a) Communities having no publicly owned airport and listed in the current national airport plan as compiled by the federal aviation administration or airports listed in the current state airport plan as compiled by the aeronautics commission.

(b) Projects which upgrade substandard airports to minimum standards for new airports. "Substandard airports," as used in this rule, means those not complying with current rules of the aeronautics commission. Projects which replace a substandard or unexpandable airport.

(c) Projects at non-air carrier airports.

(d) Projects at air carrier airports or replacement for an economically unexpandable air carrier airport. Air carrier airports are those so certificated by the civil aeronautics board.

History: 1954 ACS 79, p. 16, Eff. May 22, 1974.

R 259.803 Applications.

Rule 3. (1) A publicly owned airport sponsor shall initiate a loan request with a letter of application signed by a responsible official of the governing body, briefly describing the improvement project.

(2) The governing body attorney shall render a legal opinion indicating the legality of the sponsor's proposed mortgage loan, including proof of the sponsor's authority to request the loan.

History: 1954 ACS 79, p. 16, Eff. May 22, 1974.

R 259.804 Commission studies and approval.

Rule 4. (1) The aeronautics commission staff shall make a feasibility study of the proposed project upon receipt of the sponsor's application. In making its study, the commission will consider the following:

(a) Projected future growth in the airport service area.

(b) Engineering design of the project.

(c) Total cost of the project.

(d) Financial ability of the sponsor to carry out the project.

(e) Term of the loan.

Digitized by Google

(2) The commission staff shall advise the sponsor promptly of the results of the feasibility study.

(3) If the project is accepted, the commission staff shall issue a conditional mortgage commitment, subject to the approval of the commission, which approval shall not be withheld unreasonably.

(4) Subsequent to commission approval, the commission staff shall forward to the sponsor model resolutions, model title opinion, grant agreement, mortgage note and first mortgage and loan amortization schedule.

History: 1954 ACS 79, p. 16, Eff. May 22, 1974.

R 259.805 Mortgage loans.

Rule 5. (1) A public sponsor shall execute the required documents and shall supply the aeronautics commission with an attorney's title opinion dated subsequent to the loan application date.

(2) A mortgage loan shall be made in an amount at an interest rate and with a maturity as provided for by the act.

(3) A mortgagor shall execute a mortgage note and first mortgage, which pledges all of the publicly owned airport land as security for the loan.

(4) Payments of principal and interest shall be paid promptly as agreed at the offices of the mortgagee, aeronautics commission, Lansing, Michigan.

(5) Upon full repayment of principal and interest, the mortgagee shall give a discharge of mortgage promptly.

History: 1954 ACS 79, p. 16, Eff. May 22, 1974.

R 259.806 Maintenance and amortization.

Rule 6. (1) The agreement on airports under the Michigan aid, airport loan program requires maintenance of the airport by the airport sponsor. These covenants shall be enforced by the aeronautics commission staff.

(2) The airport sponsor shall adhere strictly to the amortization schedule.

(3) Failure to repay a loan timely or failure to maintain the airport as agreed are grounds for mortgage foreclosure.

History: 1954 ACS 79, p. 17, Eff. May 22, 1974.

R 259.807 Records and crediting of payments.

Rule 7. The aeronautics commission staff shall keep adequate records of loan repayments of principal and interest. Principal and interest payments shall be credited as provided by the act.

History: 1954 ACS 79, p. 17, Eff. May 22, 1974.

CAPITAL CITY AIRPORT TRAFFIC CODE

(By authority of section 107 of Act No. 327 of the Public Acts of 1945, as amended, being §259.107 of the Michigan Compiled Laws)

PART 1. DEFINITIONS

R 259.1101 Short title.

Rule 101. These rules shall be known and cited as the capital city airport traffic code.

History: 1954 ACS 35, p. 18, Eff. Aug. 14, 1963.

R 259.1102 Words and phrases defined.

Rule 102. The following words and phrases when used in this code shall, for the purpose of this code, have the meanings respectively ascribed to them in this

rule. Whenever any words and phrases used herein are not defined herein, but are defined in Act No. 300 of the Public Acts of 1949, as amended, any such definition therein shall be deemed to apply to such words and phrases used herein.

(a) "Authorized emergency vehicle" means vehicles of the fire department, police vehicles, ambulances, emergency vehicles of governmental departments, or such vehicles of public service corporations and privately owned motor vehicles of volunteer and paid firemen, as are authorized by the director.

(b) "Bus" means every motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons.

(c) "Bus stand or bus stop" means a fixed area in the roadway parallel and adjacent to the curb to be occupied exclusively by buses for layover in operating schedules or waiting for, loading or unloading passengers.

(d) "Commercial vehicle" includes all motor vehicles used for the transportation of passengers for hire, or constructed or used for transportation of goods, wares or merchandise, and/or all motor vehicles designed and used for drawing other vehicles and not so constructed as to carry any load thereon either independently or any part of the weight of a vehicle or load so drawn.

(e) "Cross walk" means any portion of a highway at an intersection or elsewhere distinctly indicated for pedestrian crossing by lines or other markings on the surface.

(f) "Curb loading zone" means a space adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials.

(g) "Director" means director of aeronautics, as defined in the aeronautics code, Act No. 327 of the Public Acts of 1945, as amended, being §259.1 et seq. of the Michigan Compiled Laws.

(h) "Driver" means every person who drives or is in actual physical control of a vehicle.

(i) "Freight curb loading zone" means a space adjacent to a curb for exclusive use of vehicles during the loading or unloading of freight.

(j) "Intersection" means:

(i) The area embraced within the prolongation or connection of the lateral curb lines or, if none, then the lateral boundary lines of the roadways of 2 highways which join one another at, or approximately at, right angles, or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict.

(ii) Where a highway includes 2 roadways 30 feet or more apart, then every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. In the event such intersecting highway also includes 2 roadways 30 feet or more apart, then every crossing of 2 roadways of such highways shall be regarded as a separate intersection.

(k) "Laned roadway" means a roadway which is divided into 2 or more clearly marked lanes for vehicular traffic.

(l) "Limousine" means a sedan accommodating 2 or more persons, driven by a chauffeur.

(m) "Limousine stop" or "limousine stand" means a fixed area in the roadway set aside for limousines to stand or wait for passengers.

(n) "Manager" means manager of the capital city airport, with general supervision over the airport and its operation.

(o) "Motorcycle" means every motor vehicle having a saddle or seat for the use of the rider and designed to travel on not more than 3 wheels in contact with the ground but excluding a tractor.

(p) "Motor driven cycle" means every motorcycle, including every motor scooter, with a motor which produces not to exceed 5 maximum brake horsepower, and every bicycle with motor attached.

(q) "Motor vehicle" means every vehicle which is self-propelled and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails.

(r) "Operator" means every person, other than a chauffeur, who is in actual physical control of a motor vehicle.

(s) "Owner" means:

(i) Any person, firm, association, or corporation renting a motor vehicle or having the exclusive use thereof, under a lease or otherwise, for a period of greater than 30 days.

(ii) A person who holds the legal title of a vehicle or in the event a vehicle is the subject of an agreement for the conditional sale or lease thereof with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee or in the event a mortgagor of a vehicle is entitled to possession, then such conditional vendee or lessee or mortgagor shall be deemed the owner.

(t) "Parking" means standing a vehicle, whether occupied or not, upon a highway, when not loading or unloading except when making necessary repairs.

(u) "Parking meter zone" means an area adjacent to a parking meter set aside for the exclusive use of vehicles upon the deposit of a coin of United States currency in said parking meter as specified thereon.

(v) "Passenger curb loading zone" means a place adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers.

(w) "Pedestrian" means any person afoot.

(x) "Person" means every natural person, firm, copartnership, association, or corporation and their legal successors.

(y) "Police officer" means every member of the Michigan state police and every sheriff or deputy sheriff of any county wherein any airport, landing field or aeronautical facility governed by this code is located.

(z) "Private road or driveway" means every road or driveway not open to the use of the public for purposes of vehicular traffic.

(aa) "Right-of-way" means the privilege of the immediate use of the highway.

(bb) "Roadway" means that portion of a highway improved, designed, or ordinarily used for vehicular travel. In the event a highway includes 2 or more separate roadways, the term "roadway," as used herein, shall refer to any such roadway separately, but not to all such roadways collectively.

(cc) "Sidewalk" means that portion of a street between the curb lines, or the lateral lines of roadway, and the adjacent property lines intended for the use of pedestrians.

(dd) "Stand or standing" means the halting of a vehicle, whether occupied or not, otherwise than for the purpose of and while actually engaged in receiving or discharging passengers.

(ee) "Stop," when required, means complete cessation from movement.

(ff) "Stop or stopping" when prohibited means any halting even momentarily of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic control sign or signal.

(gg) "Street or highway" means the entire width between boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel.

(hh) "Taxicab" means a licensed public motor vehicle for hire designated and constructed to seat not more than 10 persons and operating as a common carrier on call or demand.

(ii) "Taxicab stand" means a fixed area in the roadway set aside for taxicabs to stand or wait for passengers.

(jj) "Traffic" means pedestrians, vehicles, and other conveyances, either singly or together, while using any highway for purposes of travel.

(kk) "Traffic control devices" means all signs, signals, markings, and devices not inconsistent with this ordinance placed or erected by authority of a public body or official having jurisdiction, for the purpose of regulating, warning, or guiding traffic.

(ll) "Traffic control signal" means any device, whether manually, electrically or mechanically operated, by which traffic is alternately directed to stop and to proceed.

(mm) "Truck" means every motor vehicle designed, used, or maintained primarily for the transportation of property.

(nn) "Vehicle" means every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

History: 1954 ACS 35, p. 18, Eff. Aug. 14, 1963.

R 259.1103 Tenses.

Rule 103. The present tense includes the past and future tenses; and the future, the present.

History: 1954 ACS 35, p. 18, Eff. Aug. 14, 1963.

R 259.1104 Number; gender.

Rule 104. The singular shall include the plural and the plural shall include the singular; the masculine shall include the feminine and neuter, as requisite.

History: 1954 ACS 35, p. 18, Eff. Aug. 14, 1963.

R 259.1105 Shall and may.

Rule 105. "Shall" and "may" mean "shall" is mandatory and "may" is permissive.

History: 1954 ACS 35, p. 18, Eff. Aug. 14, 1963.

PART 2. ADMINISTRATION

R 259.1201 Airport manager; powers and duties.

Rule 201. The airport manager is hereby directed to exercise the powers and duties provided in this ordinance in a manner consistent with traffic safety practices and in the best interests of aeronautics. It shall be his general duty, with the aid and advice of the commissioner of the Michigan state police, and under the direct supervision of the director of the department, to plan and direct the operation of traffic on the roadways and boulevards within the boundaries of the capital city airport. It shall be his further duty to establish parking areas therein, designate limits and uses thereof; to install appropriate signs implementing the provisions of this ordinance; and to certify as to the installation, removal or authorization of such devices and signs as the director of the department shall so order.

History: 1954 ACS 35, p. 21, Eff. Aug. 14, 1963.

R 259.1202 Airport manager; notices to public.

Rule 202. The airport manager shall determine and designate the locations for the erection of stop signs; for the erection and location of signs relating to stopping, standing or parking; for the location of cross walks, safety zones and traffic lines; for the erection of speed restriction signs, turn signs, loading zones, taxi stands, rental car stands, bus stands, and any other required notices to the public thereof.

History: 1954 ACS 35, p. 21, Eff. Aug. 14, 1963.

R 259.1203 Authority to impound vehicles.

Rule 203. Police officers are hereby authorized to remove a vehicle from the airport proper or from any street, highway, or parking lot governed by this code to the nearest garage or other place of safety, or to a garage designated or maintained by the aeronautics commission under the circumstances hereinafter enumerated:

(a) When a vehicle upon a street is so disabled as to constitute an obstruction to traffic and the person or persons in charge of the vehicle are by reason of physical injury incapacitated to such an extent as to be unable to provide for its custody or removal.

(b) When any vehicle is left unattended upon a street and is so parked illegally as to constitute a definite hazard or obstruction to the normal movement of traffic.

(c) When a vehicle is found being driven upon the streets and is not in proper condition to be driven.

(d) When a vehicle is left unattended upon a street or parking lot continuously for more than 24 hours and may be presumed to be abandoned.

(e) When the driver of such vehicle is taken into custody by the police and such vehicle would thereby be left unattended upon the street.

(f) When removal is necessary in the interest of public safety because of fire, flood, storm, snow, or other emergency reason.

History: 1954 ACS 35, p. 22, Eff. Aug. 14, 1963.

R 259.1204 Notifying owner of impounded vehicle.

Rule 204. Whenever an officer removes a vehicle from a street as authorized in this ordinance, and the officer knows or is able to ascertain the name and address of the owner thereof, such officer shall immediately give or cause to be given notice in writing to such owner of the fact of such removal, and the reasons therefor, and of the place to which such vehicle has been removed. In the event any such vehicle is stored in a garage, a copy of such notice shall be given to the proprietor of such garage.

History: 1954 ACS 35, p. 22, Eff. Aug. 14, 1963.

R 259.1205 Notifying secretary of state of impounded vehicle.

Rule 205. Whenever an officer removes a vehicle from a street as authorized in this code, and does not know and is not able to ascertain the name of the owner, or for any other reason is unable to give the notice to the owner as hereinbefore provided, and in the event the vehicle is not returned to the owner within a period of 3 days, then and in that event the officer shall, within a reasonable period of time, send or cause to be sent a written report of such removal by mail to the secretary of state, and shall file a copy of such notice with the proprietor of any garage in which the vehicle may be stored. Such notice shall include a complete description of the vehicle, the date, time, and place from which removed, the

R 259.1206 Notifying airport manager of impounded vehicle.

Rule 206. Whenever an officer removes a vehicle as authorized by this code, he shall file a report within 12 hours with the airport manager, which report shall contain a complete description of the vehicle, the date, time, and place from which removed, the reasons for such removal, and the name of the garage or place where the vehicle is stored.

History: 1954 ACS 35, p. 22, Eff. Aug. 14, 1963.

PART 3. ACCIDENTS: DUTY TO STOP AND REPORT

R 259.1301 Damage to vehicle; stopping; giving information.

Rule 301. The driver of any vehicle who knows or who has reason to believe that he has been involved in an accident resulting only in damage to a vehicle which is driven or attended by any person shall immediately stop such vehicle at the scene of such accident and shall remain thereat and shall give his name, address, and the registration number of the vehicle he is driving, also the name and address of the owner, and exhibit his operator's or chauffeur's license to the driver or occupants of any vehicle collided with. Every such stop shall be made without obstructing traffic more than is necessary. Any person failing to stop or comply with said requirements under such circumstances shall be guilty of a violation of this code.

History: 1954 ACS 35, p. 22, Eff. Aug. 14, 1963.

R 259.1302 Accident; fixtures on or adjacent to highway; report.

Rule 302. The driver of any vehicle involved in an accident resulting only in damage to fixtures legally upon or adjacent to a street or other property shall take reasonable steps to locate and notify the airport manager or his assistant of such accident and of his name and address and of the registration number of the vehicle he is driving and shall upon request exhibit his operator's or chauffeur's license and, if such airport manager or his assistant cannot be found, shall forthwith report such accident to the nearest or most convenient police officer.

History: 1954 ACS 35, p. 23, Eff. Aug. 14, 1963.

R 259.1303 Injury to or death of person; stopping; giving information and aid.

Rule 303. The driver of any vehicle who knows or who has reason to believe that he has been involved in an accident upon airport property resulting in injury to or death of any person shall immediately stop such vehicle at the scene of such accident and shall remain thereat and shall give his name, address and the registration number of the vehicle he is driving, also the name and address of the owner, and exhibit his operator's or chauffeur's license to the person struck or the driver or occupants of any vehicle collided with and shall render to any person injured in such accident reasonable assistance in securing medical aid or transportation of injured person or persons. Every such stop shall be made without obstructing traffic more than is necessary.

R 259.1304 Unattended vehicle; report.

Rule 304. The driver of any vehicle which collides with any vehicle which is unattended shall immediately stop and shall then and there either locate and notify the operator or owner of such vehicle of the name and address of the driver and owner of the vehicle striking the unattended vehicle, or if such owner cannot be located, shall forthwith report it to the nearest or most convenient police officer.

History: 1954 ACS 35, p. 23, Eff. Aug. 14, 1963.

R 259.1305 Duty to report accidents forthwith.

Rule 305. The driver of a vehicle involved in an accident resulting in injury to or death of any person or property damage to an apparent extent of $100.00 or more, shall forthwith report such accident to the airport manager or the nearest Michigan state police officer, or sheriff or deputy sheriff.

History: 1954 ACS 35, p. 23, Eff. Aug. 14, 1963.

R 259.1306 Accident report; form.

Rule 306. Every accident report required to be made under the provisions of this chapter shall be made on a form approved by the commissioner of the Michigan state police and the director.

History: 1954 ACS 35, p. 23, Eff. Aug. 14, 1963.

PART 4. SPEED REGULATIONS

R 259.1401 Speed restrictions.

Rule 401. (1) No person shall drive a vehicle on a roadway at a speed greater than is reasonable and prudent under the conditions then existing.

(2) Speed where no special hazard exists. The following speeds shall be prima facie lawful, but any speed in excess of said limits shall be prima facie evidence that the speed is not reasonable or prudent and is unlawful:

(a) 45 miles per hour on capital city boulevard;

(b) 35 miles per hour on service roads;

(c) 20 miles per hour on drives in proximity to buildings;

(d) any other number of miles per hour when and as posted.

(3) The fact that the speed of a vehicle is lower than the foregoing prima facie limits shall not relieve the driver from the duty to decrease speed when approaching and crossing an intersection, when approaching and going around a curve, when traveling upon any narrow or winding roadway, or when special hazards exist with respect to pedestrians or other traffic or by reason of weather or roadway conditions, and speed shall be decreased as may be necessary to avoid colliding with any person, vehicle, or other conveyance on or entering the roadway in compliance with legal requirements and the duty of all persons to use due care.

(4) In every charge of violation of the provision of this rule, by driving a vehicle in excess of the applicable speed limits specified under subrule (2), the complaint and also the summons or notice to appear shall specify the speed applicable within the district or at the location, and in the event charges shall also be made of violation of any other provisions of these rules, the complaint and the summons or notice to appear shall also specify such other offense alleged to have been committed.

History: 1954 ACS 35, p. 23, Eff. Aug. 14, 1963.

R 259.1402 Speed signs.

Rule 402. The airport manager shall, with the approval of the aeronautics commission, establish and post speed limits upon airport property. It shall be prima facie unlawful to exceed the speed stated on signs erected in accordance with this section.

History: 1954 ACS 35, p. 24, Eff. Aug. 14, 1963.

PART 5. TRAFFIC

R 259.1501 Stop signs.

Rule 501. Every driver of a vehicle approaching a stop sign shall stop before entering the crosswalk on the near side of the intersection or in the event there is no crosswalk shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection and shall proceed into the intersection only when such movement can be made in safety and without interfering with other traffic, except when directed to proceed by a police officer or traffic-control signal.

History: 1954 ACS 35, p. 24, Eff. Aug. 14, 1963.

R 259.1502 Stop when traffic obstructed.

Rule 502. No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic-control signal indication to proceed.

History: 1954 ACS 35, p. 24, Eff. Aug. 14, 1963.

R 259.1503 Passing stopped vehicle at intersection.

Rule 503. Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at any intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

History: 1954 ACS 35, p. 24, Eff. Aug. 14, 1963.

R 259.1504 Right-of-way at intersections.

Rule 504. When 2 vehicles enter an intersection at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right except as otherwise provided. The driver of any vehicle traveling at an unlawful speed shall forfeit any right-of-way which he might otherwise have hereunder.

History: 1954 ACS 35, p. 24, Eff. Aug. 14, 1963.

R 259.1505 Yield right-of-way signs.

Rule 505. Where signs bearing the message "yield right-of-way" are erected upon the approach to an intersection, a driver approaching such sign shall slow to a reasonable speed for existing conditions of traffic and visibility, yielding the right-of-way to all traffic on the intersecting street which is so close as to constitute an immediate hazard. The driver of any vehicle traveling at an unlawful speed shall forfeit any right-of-way which he might otherwise have hereunder.

History: 1954 ACS 35, p. 24, Eff. Aug. 14, 1963.

R 259.1506 Right-of-way; vehicle turning left at intersection.

Rule 506. The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard, but said driver, having so yielded and having given a signal when and as required by this code, may make such left turn and the drivers of all other vehicles approaching the intersection from said opposite direction shall yield the right-of-way to the vehicle making the left turn; provided that an intersection at which a traffic signal is located, a driver intending to make a left turn shall permit vehicles bound straight through in the opposite direction which are awaiting a go signal to pass through the intersection before making the turn.

History: 1954 ACS 35, p. 24, Eff. Aug. 14, 1963.

R 259.1507 Drive on right side of roadway; exceptions.

Rule 507. Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement.

(b) When the right half of a roadway is closed to traffic while under construction or repair.

(c) Upon a roadway divided into 3 marked lanes for traffic under the rules applicable thereon.

(d) Upon a roadway designated and signposted for 1-way traffic.

History: 1954 ACS 35, p. 25, Eff. Aug. 14, 1963.

R 259.1508 Passing vehicles proceeding in opposite directions.

Rule 508. Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than 1 line of traffic in each direction each driver shall give to the other at least ½ of the main-traveled portion of the roadway as nearly as possible.

History: 1954 ACS 35, p. 25, Eff. Aug. 14, 1963.

R 259.1509 Overtaking and passing on left of moving vehicles.

Rule 509. The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions, and special rules hereafter stated:

(a) The driver of any vehicles overtaking another vehicle proceeding in the same direction shall pass at a safe distance to the left thereof, and when safely clear of such overtaken vehicle shall take up a position as near the right-hand edge of the main-traveled portion of the highway as is practicable.

(b) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

History: 1954 ACS 35, p. 25, Eff. Aug. 14, 1963.

R 259.1510 Overtaking and passing on right of moving vehicles.

Rule 510. The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or about to make a left turn.

(b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles of sufficient width for 2 or more lines of moving vehicles in each

direction and when such vehicles are moving in substantially continuous lanes of traffic.

(c) Upon a 1-way street, or upon any roadway on which traffic is restricted to 1 direction of movement, where the roadway is free from obstructions and of sufficient width for 2 or more lines of moving vehicles and when such vehicles are moving in substantially continuous lanes of traffic.

(d) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

History: 1954 ACS 35, p. 25, Eff. Aug. 14, 1963.

R 259.1511 Overtaking and passing on left; restrictions.

Rule 511. No vehicle shall be driven to the left side of the center of a 2-lane street or in the center lane of a 3-lane street in overtaking and passing another vehicle proceeding in the same direction, unless such left side or center lane is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken.

History: 1954 ACS 35, p. 25, Eff. Aug. 14, 1963.

R 259.1512 Left of center operation; prohibition.

Rule 512. No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

(a) When approaching the crest of a grade or upon a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction.

(b) When the view is obstructed upon approaching within 100 feet of any bridge, viaduct, or tunnel.

History: 1954 ACS 35, p. 25, Eff. Aug. 14, 1963.

R 259.1513 No passing zones.

Rule 513. The driver of a vehicle shall not overtake and pass any vehicle in a no passing zone where official signs or markings on the roadway indicate the beginning and end of such zone and when such signs or markings are in place and clearly visible to an ordinarily observant person.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1514 One-way streets and rotary traffic islands.

Rule 514. Vehicular traffic shall move only in the indicated direction upon those streets and parts of streets and on those roadways around rotary traffic islands where signs have been erected indicating traffic shall move in only 1 direction. A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1515 Following too closely.

Rule 515. The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicle and the traffic upon and the condition of the street.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

PART 6. TURNS

R 259.1601 Access to roadways.

Rule 601. No person shall drive a vehicle onto or from any roadway, except at such entrances and exits as are established by public authority.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1602 Driving on divided highways.

Rule 602. Whenever any highway has been divided into 2 roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway, and no vehicle shall park or be driven over, across, or within any such dividing space, barrier, or section, except through an opening in such physical barrier or dividing section or intersection established by public authority.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1603 Required position and method of turning at intersections.

Rule 603. The driver of a vehicle intending to turn at an intersection shall do so as follows:

(a) Right turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) Left turns on 2-way roadways. At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of such center line where it enters the intersection and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(c) Left turns on other than 2-way roadways. At any intersection where traffic is restricted to 1 direction on 1 or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle and, after entering the intersection, the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1604 Obedience to turning markers.

Rule 604. When authorized markers, buttons, or other indications are placed within an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1605 Obedience to no turn signs.

Rule 605. Whenever authorized signs are erected indicating that no right or left or U turn is permitted, no driver of a vehicle shall disobey the directions of any such sign.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1606 Limitations on turning around.

Rule 606. The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction upon any street in a business district and shall not, upon any other street, so turn a vehicle unless such movement can be made in safety and without interfering with other traffic.

History: 1954 ACS 35, p. 26, Eff. Aug. 14, 1963.

R 259.1607 Signals for starting, stopping, or turning.

Rule 607. The driver of any vehicle upon a street, before starting, stopping or turning from a direct line, shall first see that such movement can be made in safety and shall give a signal as required hereafter.

(a) Manner of signaling. The required signal shall be given either by means of the hand and arm in the manner hereafter specified, or by a mechanical or electrical signal device which conveys an intelligible signal or warning to another driver approaching from the rear.

(b) Arm signal. Whenever the signal is given by means of the hand and arm, the driver shall indicate his intention to start, stop, or turn by extending the hand and arm horizontally from and beyond the left side of the vehicle.

History: 1954 ACS 35, p. 27, Eff. Aug. 14, 1963.

PART 7. MISCELLANEOUS

R 259.1701 Operation of vehicle without license or required equipment prohibited; exceptions.

Rule 701. No vehicle shall be operated on any roadway or airport governed by this code unless such vehicle is equipped and licensed in accordance with the provisions of Act No. 300 of the Public Acts of 1949, as amended, and unless the driver or operator of such vehicle is licensed under the provisions of Act No. 300 of the Public Acts of 1949, as amended. The airport manager, with the approval of the director, may provide for exceptions to this rule.

History: 1954 ACS 35, p. 27, Eff. Aug. 14, 1963.

R 259.1702 Operation of vehicles on approach of authorized emergency vehicles.

Rule 702. Upon the immediate approach of an authorized emergency vehicle equipped with at least 1 lighted flashing, rotating, or oscillating lamp exhibiting red light visible under normal atmospheric condition from a distance of 500 feet to the front of such vehicle and when the driver is giving audible signal by siren, exhaust whistle, or bell, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to and as close as possible to the right-hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

History: 1954 ACS 35, p. 27, Eff. Aug. 14, 1963.

R 259.1703 Following fire apparatus prohibited.

Rule 703. The driver of any vehicle other than an authorized emergency vehicle on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than 500 feet or drive into or park such vehicle within 500 feet where fire apparatus has stopped in answer to a fire alarm.

History: 1954 ACS 35, p. 27, Eff. Aug. 14, 1963.

R 259.1704 Reckless driving.

Rule 704. No person shall drive any vehicle upon a highway or any other place open to the general public, including any area designated for the parking of motor vehicles, carelessly and heedlessly in wilful or wanton disregard of the rights or safety of others, or without due caution and circumspection and at a speed or in a manner so as to endanger or be likely to endanger any person or property.

History: 1954 ACS 35, p. 27, Eff. Aug. 14, 1963.

R 259.1705 Driving while under the influence of intoxicating liquor or narcotic drugs.

Rule 705. It shall be unlawful for any person whether licensed or not who is an habitual user of narcotic drugs, barbital, or any derivative of barbital, or any person who is under the influence of intoxicating liquor or narcotic drugs, barbital, or any derivation of barbital, to drive any vehicle upon any street or any other place open to the general public, including any area designated for the parking of motor vehicles.

History: 1954 ACS 35, p. 27, Eff. Aug. 14, 1963.

R 259.1706 Permission by owner or person having charge of motor vehicle.

Rule 706. It shall also be unlawful for the owner of any motor vehicle or any person having such in charge or in control thereof to authorize or knowingly permit the same to be driven or operated upon any street or any other place open to the general public, including any area designated for the parking of motor vehicles by any person who is an habitual user of narcotic drugs, barbital, or any derivative of barbital or any person who is under the influence of intoxicating liquor or narcotic drugs, barbital, or any derivative of barbital.

History: 1954 ACS 35, p. 27, Eff. Aug. 14, 1963.

R 259.1707 Obedience to signal indicating approach of railroad train.

Rule 707. Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances stated in this rule, the driver of such vehicle shall stop within 50 feet but not less than 15 feet from the nearest rail of such railroad, and shall not proceed until he can do so safely. The foregoing requirements shall apply when:

(a) A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train.

(b) A crossing gate is lowered or when a human flagman gives or continues to give a signal of the approach or passage of a railroad train.

(c) A railroad train approaching within approximately 1,500 feet of the highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard.

(d) An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1708 When permits required for parades and processions.

Rule 708. No procession or parade, excepting the forces of the United States armed services, the military forces of this state, and the forces of the police and fire departments, shall occupy, march, or proceed along any roadway except in accordance with a permit issued by the airport manager and such other regulations as are set forth herein which may apply.

R 259.1709 Safety zones occupied by persons.

Rule 709. The driver of a vehicle shall not at any time drive through or over a safety zone when such safety zone contains any person thereon.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1710 Vehicles shall not be driven on a sidewalk.

Rule 710. The driver of a vehicle shall not drive upon or within any sidewalk area except at a driveway.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1711 Limitations on backing.

Rule 711. The driver of a vehicle shall not back the same unless such movement can be made with reasonable safety and without interfering with other traffic.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1712 Crossing fire hose.

Rule 712. No vehicle shall be driven over any unprotected fire hose of a fire department without the consent of the fire department official in command.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1713 Boarding or alighting from vehicles.

Rule 713. No person shall board or alight from any vehicle while such vehicle is in motion.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1714 Splashing.

Rule 714. No driver of a motor vehicle shall recklessly, wilfully, wantonly, or carelessly operate his vehicle in such manner as to splash snow, rain, water, mud, dirt, or debris on any person then upon a sidewalk, crosswalk or safety zone.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1715 Wrecked or damaged vehicles.

Rule 715. Any person removing a wrecked or damaged vehicle from a street shall remove any glass or other injurious substance dropped upon the street from such vehicle.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1716 Spilling loads on streets prohibited.

Rule 716. No vehicle shall be driven or moved on any street unless such vehicle is so constructed or loaded as to prevent its contents from dropping, sifting, leaking, or otherwise escaping therefrom.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1717 Interference with driver's view or control.

Rule 717. No person shall drive a vehicle when it is so loaded, or when there are in the front seat such number of persons, as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism of the vehicle.

History: 1954 ACS 35, p. 28, Eff. Aug. 14, 1963.

R 259.1718 Position of passengers.

Rule 718. No passenger in a vehicle shall ride in such position as to interfere with the driver's view ahead or to the sides, or to interfere with his control over the driving mechanism of the vehicle.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1719 Possession; display.

Rule 719. Every driver shall have his operator's or chauffeur's license in his immediate possession at all times when driving a motor vehicle, and shall display the same upon demand of any police officer.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1720 Unlawful display or representation.

Rule 720. It is unlawful for any person to display or to represent as one's own any operator's or chauffeur's license not issued to the person so displaying the same.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1721 Instruction permit.

Rule 721. It shall be unlawful for an operator holding an instruction permit to operate a motor vehicle unless accompanied by a licensed operator or chauffeur who is actually occupying a seat beside the driver.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1722 Unlicensed driver; owner's permission.

Rule 722. No person shall knowingly authorize or permit a motor vehicle owned by him or under his control to be driven by any person who is unlicensed to drive such vehicle.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1723 Lights; spotlights.

Rule 723. Every vehicle operated upon a roadway or an airport governed by this code shall be equipped with lights which shall be lighted in accordance with the provisions of Act No. 300 of the Public Acts of 1949, as amended. Spotlights shall be so aimed and used upon approaching another vehicle that no part of the beam will be directed into the eyes of the approaching driver. Such spotlights shall not be directed toward aircraft in the air or on the ground.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1724 Flashing lights prohibited.

Rule 724. No vehicles, except those authorized by these rules, shall display any flashing, oscillating, or rotating light.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1725 Flashing red, blue, or amber lights authorized.

Rule 725. Flashing, oscillating, or rotating red, blue, or amber lights may be used only as follows:

(a) By authorized emergency vehicles as provided by these rules. State, county, or municipal vehicles engaged in snow removal or ice control operations shall be equipped with flashing, oscillating, or rotating amber lights placed in such position on the vehicle as to be visible throughout 360 degrees.

(b) By public utility service vehicles, ambulances, authorized emergency vehicles, automobile service cars, and wreckers engaged in removing or assisting vehicles at the site of traffic accidents and government owned vehicles actually engaged in the maintenance or repair of the street.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1726 Size, weight, and load.

Rule 726. No person shall drive or move or cause or knowingly permit to be driven or moved on any street any vehicle or vehicles of width, height, length, or weight in excess of the limitations governing size and weight restrictions specified in the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, as amended.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1727 Lamp or flag on projecting load.

Rule 727. Whenever the load upon any vehicle extends to the rear 4 feet or more beyond the bed or body of such vehicle, there shall be displayed at the extreme rear end of the load, during the hours between ½ hour after sunset and ½ hour before sunrise, and at any other time when there is not sufficient light to render clearly discernible persons and vehicles on the highway at a distance of 500 feet ahead, a red light or lantern plainly visible from a distance of at least 500 feet to the sides and rear. The red light or lantern required under this rule shall be in addition to the red rear light required upon every vehicle. At any other time there shall be displayed at the extreme rear end of such load a red flag or cloth not less than 12 inches square and so hung that the entire area is visible to the driver of a vehicle approaching from the rear.

History: 1954 ACS 35, p. 29, Eff. Aug. 14, 1963.

R 259.1728 Display on vehicle of official designation.

Rule 728. No owner shall display upon any part of his vehicle or knowingly permit the display thereon of any official designation, sign, or insignia of any public or quasi-public corporation, municipal, state or national department or government subdivision without authority of such agency.

History: 1954 ACS 35 p. 30, Eff. Aug. 14, 1963.

R 259.1729 Motorcycles; motor-driven cycles.

Rule 729. Every person operating a motorcycle or motor-driven cycle upon a roadway shall be granted all rights and shall be subject to all the duties applicable to the driver of a vehicle under these rules, except as to those provisions which by their nature can have no application.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1730 Number and manner of carrying persons; motorcycles and motor-driven cycles.

Rule 730. A person operating a motorcycle or motor-driven cycle shall ride only upon the permanent and regular seat attached thereto, and such operator shall not carry any other person nor shall any other person ride on a motorcycle or motor-driven cycle unless such motorcycle or motor-driven cycle is designed to carry more than 1 person, in which event, a passenger may ride upon the permanent and regular seat if designed for 2 persons, or upon another seat firmly attached to the vehicle, to the rear or side of the operator.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1731 Two abreast.

Rule 731. Persons operating motorcycles or motor-driven cycles upon a roadway shall not ride more than 2 abreast.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1732 Carrying articles.

Rule 732. No person operating a motorcycle or motor-driven cycle shall carry any package, bundle, or article which prevents the operator from keeping both hands upon the handlebars of said vehicle.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1733 Spotlights.

Rule 733. A motorcycle shall not be equipped with more than 1 spotlight.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

PART 8. STOPPING, STANDING, AND PARKING

R 259.1801 Standing or parking close to curb.

Rule 801. No person shall stand or park a vehicle in a roadway other than parallel with the edge of the roadway headed in the direction of lawful traffic movement and with the right-hand wheels of the vehicle within 12 inches of the curb or edge of the roadway, except as otherwise provided in this chapter.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1802 One-way streets.

Rule 802. Vehicles may park with the left-hand wheels adjacent to and within 12 inches of the left-hand curb of properly signed 1-way streets.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1803 Obedience to angle parking signs or markings.

Rule 803. Upon those streets which have been signed or marked for angle parking, no person shall stop, stand, or park a vehicle other than at the angle to the curb or edge of the roadway indicated by such signs or markings.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1804 Obstructing roadway.

Rule 804. No person shall stop, stand, or park any vehicle upon a roadway in such a manner or under such conditions as to leave available insufficient width of the roadway for free movement of vehicular traffic, except that a driver may stop temporarily during the actual loading or unloading of passengers or, when necessary, in obedience to traffic regulations, traffic signs or signals, or a police officer.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1805 Vehicle starting from parked position.

Rule 805. A vehicle starting from a parked position shall give moving vehicles the right-of-way, and the operator of such vehicle shall give a timely and visible warning signal before so starting.

History: 1954 ACS 35, p. 30, Eff. Aug. 14, 1963.

R 259.1806 Angle parking.

Rule 806. A vehicle parked at an angle to the curb and about to start shall give moving vehicles the right-of-way, and the operator thereof shall not back such vehicle from the curb into the moving lane of traffic unless such maneuver can be made in safety and without conflict with moving vehicles.

History: 1954 ACS 35, p. 31, Eff. Aug. 14, 1963.

R 259.1807 Lights on parked vehicles.

Rule 807. (1) Whenever a vehicle is lawfully parked on a street or roadway and there is sufficient natural or artificial light to reveal any person within a distance of 500 feet upon such street or roadway, no lights need be displayed upon such parked vehicle. If there is insufficient natural or artificial light, there shall be displayed upon the left side of such vehicle 1 or more lamps which shall exhibit a white light on the roadway side visible from a distance of 500 feet to the front of the vehicle and a red light visible from a distance of 500 feet to the rear of the vehicle.

(2) Any lighted headlights upon a parked vehicle shall be depressed or dimmed.

History: 1954 ACS 35, p. 31, Eff. Aug. 14, 1963.

R 259.1808 Prohibiting parking.

Rule 808. No person shall stop, stand, or park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with law or the directions of a police officer or traffic-control device, in any of the following places:

(a) On a sidewalk.

(b) In front of a public driveway.

(c) Within an intersection.

(d) Within 15 feet of a fire hydrant.

(e) On a crosswalk.

(f) Within 20 feet of a crosswalk, or if none, then within 15 feet of the intersection of property lines at an intersection of streets.

(g) Within 30 feet upon the approach to any flashing beacon, stop sign, yield right-of-way sign, or traffic-control signal located at the side of a street.

(h) Within 50 feet of the nearest rail of a railroad crossing.

(i) Within 20 feet of the driveway entrance to any fire station and on the side of a street opposite the entrance to any fire station within 75 feet of said entrance when properly signposted.

(j) Alongside or opposite any street excavation or obstruction when such stopping, standing, or parking would obstruct traffic.

(k) On the street side of any vehicle stopped or parked at the edge or curb of a street.

(l) Within 200 feet of an accident at which police officers are in attendance.

(m) In any place or in any manner so as to block immediate egress from any emergency exit or exits conspicuously marked as such of buildings.

(n) In any place or in any manner so as to block or hamper the immediate use of an immediate egress from any fire escape conspicuously marked as such providing an emergency means of egress from any building.

(o) At any place where official signs prohibit stopping, standing, or parking.

(p) In any metered parking area in any place other than a metered space.

History: 1954 ACS 35, p. 31, Eff. Aug. 14, 1963.

R 259.1809 Motor buses, limousines, and taxis; stopping.

Rule 809. Motor buses, limousines and taxis, for the purpose of taking on or discharging passengers, may be stopped at the places designated in R 259.1808 (b), (d), and (f), or on the street side of a vehicle illegally parked in a legally designated bus, limousine or taxi loading zone.

History: 1954 ACS 35, p. 31, Eff. Aug. 14, 1963.

R 259.1810 Driving off roadway prohibited.

Rule 810. No person shall drive a motor vehicle or park such vehicle upon the grass or over a curb or beyond the designated roadway width or off the shoulder of a roadway unless otherwise directed to do so by a police officer.

History: 1954 ACS 35, p. 31, Eff. Aug. 14, 1963.

R 259.1811 Moving parked vehicle.

Rule 811. No person shall move a vehicle not lawfully under his control into any prohibited parking area or away from a curb such distance as is unlawful.

History: 1954 ACS 35, p. 31, Eff. Aug. 14, 1963.

R 259.1812 Parking for certain purposes prohibited.

Rule 812. It shall be unlawful for any person to park upon a street or roadway any vehicle:

(a) Displayed for sale.

(b) For washing, greasing, or repairing such vehicle, except repairs necessitated by an emergency.

(c) Exhibiting such vehicle or any article or thing thereon or therein as a prize in any lottery, drawing, game of chance, reward, or number pool.

(d) It shall be unlawful to park or operate upon a street or roadway any vehicle or conveyance whereon there is operated any loudspeaker, public address system, or radio device for the purpose of advertising, calling attention to any show, performance, sale, or display of merchandise.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1813 Unattended motor vehicle.

Rule 813. No person having control or charge of a motor vehicle shall allow such vehicle to stand on any roadway or in any parking lot unattended without first effectively setting the brakes thereon and stopping the motor of said vehicle. No person shall leave any motor vehicle unattended upon any roadway or in any parking lot without removing the keys and locking the ignition of said vehicle.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1814 Prohibitions and restrictions; signs required.

Rule 814. No person shall stop, stand, or park a vehicle, except when necessary to avoid conflict with traffic or in compliance with law or the direction of a police officer, in violation of any legally established parking restriction or prohibition; provided that signs stating such restrictions or prohibitions are duly posted. A driver of a passenger vehicle may stop temporarily in such restricted or prohibited zones for the purpose of and while actually engaged in loading or unloading passengers when such stopping does not interfere with traffic.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1815 Standing in passenger curb loading zone.

Rule 815. No person shall stop, stand, or park a vehicle for any purpose or period of time, except for the expeditious loading or unloading of passengers, in any place marked as a passenger curb loading zone during hours when the rules applicable to such passenger curb loading zone are effective, and then only for a period not to exceed 5 minutes.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1816 Standing in freight curb loading zone.

Rule 816. No person shall stop, stand, or park a vehicle for any purpose or length of time, other than for the expeditious unloading and delivery or pick-up and loading of materials, in any place marked as a freight curb loading zone during hours when the provisions applicable to such zone are in effect.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1817 Driver may stop temporarily.

Rule 817. The driver of a vehicle may stop temporarily at a place marked as a freight curb loading zone for the purpose of, and while actually engaged in, loading or unloading passengers when such stopping does not interfere with any motor vehicle used for the transportation of materials which is waiting to enter or about to enter such zone.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1818 Stopping, standing, or parking of buses, limousines, and taxicabs regulated.

Rule 818. The operator of a bus, limousine, or taxicab shall not stop, stand, or park upon any roadway at any place other than at a bus stop, limousine stop, or taxicab stand, respectively, except that this provision shall not prevent the operator of any such vehicle from temporarily stopping in accordance with other stopping, standing, or parking regulations at any place for the purpose of and while engaged in the expeditious loading or unloading of passengers.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1819 Restricted use of bus, limousine, and taxicab stands.

Rule 819. No person shall stop, stand, or park a vehicle other than a bus in a bus stop, a limousine in a limousine stop, or a taxicab in a taxicab stand, when such stop or stand has been officially designated and appropriately signed, except that the driver of a passenger vehicle may temporarily stop therein for the purpose of and while actually engaged in the expeditious loading or unloading of passengers when such stopping does not interfere with any bus, limousine, or taxicab waiting to enter or about to enter such zone.

History: 1954 ACS 35, p. 32, Eff. Aug. 14, 1963.

R 259.1820 Metered parking zones.

Rule 820. When parking meters are erected adjacent to a space marked for parking, such space shall be a metered parking zone and no person shall stop a vehicle in any such zone for a period of time longer than designated on said parking meters upon the deposit of a coin of United States currency of the denomination designated on said meters on the days and during the time said regulations are in force as designated on said meters.

History: 1954 ACS 35, p. 33, Eff. Aug. 14, 1963.

R 259.1821 Drivers to park within spaces.

Rule 821. Every vehicle shall be parked wholly within the metered parking space for which the meter shows parking privilege has been granted, except that a vehicle which is of a size too large to be parked within a single designated parking meter zone shall be permitted to occupy 2 adjoining parking meter spaces when coins shall have been deposited in the parking meter for each space so occupied as is required in these rules for the parking of other vehicles in such space.

History: 1954 ACS 35, p. 33, Eff. Aug. 14, 1963.

R 259.1822 Parking lots regulated.

Rule 822. No person shall drive a vehicle into a parking lot through the "exit" side of the parking lot access roadway, or drive a vehicle from a parking lot through the "entrance" side of the parking lot access roadway, unless directed to do so by a police officer or parking lot attendant.

History: 1954 ACS 35, p. 33, Eff. Aug. 14, 1963.

R 259.1823 Prima facie evidence; parking violators.

Rule 823. In any proceeding for a violation of this code relating to the standing or parking of a vehicle, proof that the particular vehicle described in the complaint was parked in violation of any law or rule, together with proof that the defendant named in the complaint was at the time of such parking the registered owner of such vehicle, shall constitute in evidence a presumption that the registered owner of such vehicle was the person who parked or placed such vehicle at the point where, and for the time during which, such violation occurred.

History: 1954 ACS 35, p. 33, Eff. Aug. 14, 1963.

PART 9. ENFORCEMENT

R 259.1901 Traffic law enforcement.

Rule 901. It shall be the duty of the Michigan state police, sheriffs, or assigned deputy sheriffs to enforce the provisions of this code, to make arrests for traffic violations, to assist in the prosecution of persons charged with such violations, to investigate accidents, to cooperate with the airport manager and other officials in the administration of the airport traffic code and in developing ways and means to improve traffic conditions and to carry out those duties specially imposed by this code and any amendments thereto.

History: 1954 ACS 35, p. 33, Eff. Aug. 14, 1963.

R 259.1902 Penalties.

Rule 902. Any violation of this code shall constitute a misdemeanor; unless otherwise provided for in this code, every person convicted of a violation of any provision of this code shall be punished by a fine of not more than $100.00 or by imprisonment for not more than 90 days, or by both such fine and imprisonment.

History: 1954 ACS 36, p. 5, Eff. Aug. 14, 1963.

DEPARTMENT OF TRANSPORTATION AND DEPARTMENT OF AGRICULTURE

DRAINAGE ASSESSMENTS

(By authority conferred on the department of state highways and transportation and the department of agriculture by section 14a of Act No. 51 of the Public Acts of 1951, as added, being §247.664a of the Michigan Compiled Laws)

R 280.1 Definitions.

Rule 1. (1) "Apportionment" means that portion or share of the total cost of a drainage improvement, expressed as a percentage, to be borne by the assessed party by reason of benefits to a state highway or county road.

(2) "Assessment" means the apportionment expressed as a monetary amount.

(3) "County road" means a roadway, including the right-of-way, under the jurisdiction of a county road commission. It includes property contiguous to a roadway owned in fee or easement by the county which is used for highway purposes. It does not include facilities such as garage sites and office buildings that are not contiguous to the highway right-of-way.

(4) "Department" means the Michigan department of highways and transportation.

(5) "Drainage district" means the total area of land contributing storm water runoff to the drain or portion of the drain under consideration.

(6) "Rainfall intensity" means the rate of rainfall in inches per hour.

(7) "Runoff" means that part of the rainfall which drains off the land rather than being absorbed.

(8) "Runoff coefficient" means the ratio of the rate of runoff to the rate of rainfall at an average storm intensity if all the drainage area is contributing.

(9) "State highway" means a roadway, including the right-of-way, under the jurisdiction of the department which is part of a designated system of highways. It includes property contiguous to the highway owned in fee or in easement by the department which is used for highway purposes. It does not include facilities such as garage sites and office buildings that are not contiguous to the highway right-of-way.

History: 1954 ACS 92, p. 6, Eff. Aug. 31, 1977.

R 280.2 Computation of basic benefits.

Rule 2. (1) Basic benefits for county roads and state highways shall be computed in direct proportion to the pro rata share of storm water from county roads and state highways within the drainage district to the total design storm water runoff from the drainage district.

(2) Storm water runoff quantities (Q) shall be determined for the drainage district by use of the accepted engineering formula, $Q = ciA$, this being the product of the runoff coefficient (c), referred to in table I set forth in R 280.9, the rainfall intensity (i), and the area of the drainage district (A). Rainfall intensity is assumed to be of uniform rate throughout the drainage district.

(3) Storm water runoff quantities (Q) for a county road or a state highway shall be determined by using the same method as that used for the entire drainage district. Computation examples are set forth in R 280.7 and R 280.8.

(4) If the rainfall intensity used in the design of a county road or a state highway drainage facility is not the same as the rainfall intensity used in the design

of the enclosed receiving county drain or intercounty drain, the basic benefit computed for the county road or the state highway shall be multiplied by the number which expresses the ratio of the design runoff from the county road or state highway to the design runoff for the receiving county or intercounty drain according to the recurrence interval factors. (See table II set forth in R 280.9.)

History: 1954 ACS 92, p. 7, Eff. Aug. 31, 1977.

R 280.3 Computation of supplemental benefits.

Rule 3. (1) Supplemental benefits for county roads and state highways, which shall result from maintenance, improvement, or the installation of facilities, structures, or mechanical devices jointly determined to be necessary by the highway jurisdiction and drain commissioner or drainage board to accommodate or relieve county road drainage or state highway drainage, shall be computed in the direct proportion of the estimated cost or the actual cost, if known, of such maintenance, improvement, facilities, structures, or mechanical devices to the estimated construction cost or the actual construction cost, if known, of the total project.

(2) Supplemental benefits for county roads and state highways, which shall result by reason of special specifications or construction conditions required by county highway authorities and state highway authorities, shall be computed in the direct proportion of the estimated cost or the actual cost, if known, of such special specifications or construction conditions to the estimated construction cost or the actual construction cost, if known, of the total project.

History: 1954 ACS 92, p. 7, Eff. Aug. 31, 1977.

R 280.4 Apportionments.

Rule 4. (1) Apportionments to a county for county road benefits and to the department for state highway benefits shall be based on benefits computed and determined under R 280.2 and R 280.3, except that such apportionments shall not include the cost of work performed under R 280.4(2).

(2) The department or a county road commission may enter into agreements with a drain commissioner or drainage board to perform additional work which is not subject to these rules. Cost of work performed under such agreements shall not be included with the assessments to the department or the county road commission.

(3) A county road commission or the department shall be notified of its apportionments pursuant to Act No. 40 of the Public Acts of 1956, as amended, being §280.1 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 92, p. 7, Eff. Aug. 31, 1977.

R 280.5 Assessments.

Rule 5. (1) Assessments shall be according to the apportioned ratio of the total cost of a project.

(2) If a project is financed by the sale of bonds, evidence that the bonds shall be sold shall be presented with the apportionment notice.

(3) Fifty percent of the cost of drain assessments against a county for drainage of county roads shall be paid by the county road commission from county road funds.

History: 1954 ACS 92, p. 8, Eff. Aug. 31, 1977.

R 280.6 Reports.

Rule 6. Expenditures for county drain assessments shall be reported by each county road commission to the state highway commission. The reports shall be

made as of December 31 of each year and shall be submitted by March 1 of the following year.

History: 1954 ACS 92, p. 8, Eff. Aug. 31, 1977.

R 280.7 Average runoff coefficient; computation examples.

Rule 7. The following examples demonstrate the desired method of computing the average runoff coefficient (A.R.C.) for cross-sections commonly employed in the construction of county roads and state highways.

(a) Cross-section A—dual roadway:
300′ ROW

Consisting of:			Tabulation:	
Pavements	2-24′		48′ x 0.90 =	43.2
Paved shoulders	2-10′		20′ x 0.90 =	18.0
Gravel shoulders	2-8′		16′ x 0.50 =	8.0
Berms	216′		216′ x 0.20 =	43.2
		Totals	300′	112.4

Average runoff coefficient: 112.4 ÷ 300′ = 0.375

(b) Cross-section B—urban roadway:
83′ ROW

Consisting of:			Tabulation:	
Pavement & C/G	57′		57′ x 0.90 =	51.3
Sidewalks	2-5′		10′ x 0.90 =	9.0
Berms	16′		16′ x 0.20 =	3.2
		Totals	83′	63.5

Average runoff coefficient: 63.5 ÷ 83′ = 0.765

(c) Cross-section C—dual roadway (depressed):
240′ ROW

Consisting of:			Tabulation:	
Pavement & C/G	2-53′		106′ x 0.90 =	95.4
Paved median	21′		21′ x 0.90 =	18.9
Paved shoulders	2-9.5′		19′ x 0.90 =	17.1
Berms	94′		94′ x 0.20 =	18.8
		Totals	240′	150.2

Average runoff coefficient: 150.2 ÷ 240′ = 0.626

(d) Cross-section D—rural roadway:
66′ ROW

Consisting of:			Tabulation:	
Gravel road	20′		20′ x 0.7 =	14.0
Gravel shoulders	2-5′		10′ x 0.5 =	5.0
Berms	36′		36′ x 0.2 =	7.2
		Totals	66′	26.2

Average runoff coefficient: 26.2 ÷ 66′ = 0.397

History: 1954 ACS 92, p. 8, Eff. Aug. 31, 1977.

R 280.8 Pro rata share of runoff for county roads and state highways; computation examples.

Rule 8. The computations hereinafter set forth are included to clarify the method by which the pro rata share of runoff for county roads and state highways may be determined.

Formula: Q = ciA

Q = runoff
c = runoff coefficient
i = rainfall intensity
A = area

Rainfall intensity is assumed to be constant throughout the drainage district, according to R 280.2 (2), and since the apportionment is based on the pro rata share of the runoff, the rainfall intensity has been deleted from these computations.

(a) Computation No. 1:

Given:

Drainage district	670.00 acres
State highway ROW—dual roadway	17.65 acres
County road ROW—rural type	31.23 acres
Remaining lands—agricultural type (See subdivision (c))	621.12 acres

Find: The pro rata shares of the runoff for state highways, county roads, and remaining lands.

Solution

State highway	17.65 A x 0.375 =	6.619 equivalent runoff acres
County roads	31.23 A x 0.397 =	12.398 equivalent runoff acres
Remaining lands	621.12 A x 0.200 =	124.224 equivalent runoff acres
Totals	670.00 A	143.241 equivalent runoff acres

Pro rata share for state highways:

$$\frac{6.619}{143.241} = 4.621\%$$

Pro rata share for county roads:

$$\frac{12.398}{143.241} = 8.655\%$$

Pro rata share for remaining lands:

$$\frac{124.224}{143.241} = 86.724\%$$

(b) Computation No. 2:

Given:

Drainage district	32.00 acres
State highway ROW—urban type	6.33 acres
County road ROW—urban type	1.47 acres
County road ROW—rural type	2.78 acres
Remaining lands—residential type (See subdivision (c))	21.42 acres

Find: The pro rata shares of the runoff for state highways, county roads, and remaining lands.

Solution

State highway	6.33 A x 0.765 =	4.842 equivalent runoff acres
County roads	1.47 A x 0.765 =	1.125 equivalent runoff acres
County roads	2.78 A x 0.397 =	1.104 equivalent runoff acres

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

Remaining lands ..... 21.42 A x 0.500 = 10.710 equivalent runoff acres
Totals 32.00 A 17.781 equivalent runoff acres

Pro rata share for state highway:

$$\frac{4.842}{17.781} = 27.231\%$$

Pro rata share for county roads:

$$\frac{1.125 + 1.104}{17.781} = 12.536\%$$

Pro rata share for remaining lands:

$$\frac{10.710}{17.781} = 60.233\%$$

(c) Utilities, railroads, or streets may also be subtracted from the total entitled "remaining lands," and computed on an equitable "c" factor at the discretion of the assessing authority.

History: 1954 ACS 92, p. 8, Eff. Aug. 31, 1977.

R 280.9 Tables.

Rule 9. The tables referred to in these rules are set forth as follows:

TABLE I

Type of Surface	Runoff Coefficient
Concrete or asphalt pavement	0.8 - 0.9
Commercial and industrial	0.7 - 0.9
Gravel roadways and shoulders	0.5 - 0.7
Residential—urban	0.5 - 0.7
suburban	0.3 - 0.5
Undeveloped	0.1 - 0.3
Berms	0.1 - 0.3
Agricultural—cultivated fields	0.15 - 0.4
pastures	0.1 - 0.4
forested areas	0.1 - 0.4

For flat slopes or permeable soil, lower values shall be used. For steep slopes or impermeable soil, higher values shall be used. Steep slopes are 2:1 and steeper.

TABLE II

Rainfall Intensity Conversion Factors
(Design of Drainage Channels, FHWA, Hydraulic Design Series No. 4)

Duration in Minutes	Factor	Duration in Minutes	Factor
5	2.22	40	0.8
10	1.71	50	0.7
15	1.44	60	0.6
20	1.25	90	0.5
30	1.00	120	0.4

Note: U.S. Weather Bureau says "Rainfall amounts for the 5-, 10-, and 15-minute durations may be obtained by multiplying the 30-minute values by 0.37, 0.57, and 0.72, respectively."

DEPARTMENT OF NATURAL RESOURCES

DIVISION OF LAND RESOURCE PROGRAMS

R 281.1—R 281.19 Rescinded.

History: 1954 ACS 78, pp. 12-15, Eff. Jan. 12, 1974; 1954 ACS 87, pp. 6-8, Eff. Apr. 9, 1976; rescinded 1954 ACS 96, p. 60, Eff. Aug. 17, 1978.

GREAT LAKES SHORELANDS

(By authority conferred on the natural resources commission by section 11 of Act No. 245 of the Public Acts of 1970, as amended, and Executive Reorganization Order Nos. 1973-2 and 1976-1, being §§281.641 and 299.11 of the Michigan Compiled Laws)

R 281.21 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 245 of the Public Acts of 1970, as amended, being §281.631 et seq. of the Michigan Compiled Laws, and known as the shorelands protection and management act of 1970.

(b) "Bluffline" means the line which is the edge or crest of the elevated segment of the shoreline above the beach which normally has a precipitous front inclining steeply on the lakeward side.

(c) "Minimum required setback" means the distance between the bluffline and the lakeward edge of the permanent structure.

(d) "100-year flood" means the flood having a 1% chance of being equalled or exceeded in any given year.

(e) "Parcel" means a continuous area or acreage of land which is in the same ownership at the time of designation.

(f) "Permanent structure" means a residential building, commercial building, industrial building, institutional building, mobile home, accessory and related buildings, septic systems, tile field or other waste handling facility erected, installed, or moved on a parcel of property. This definition does not include recreational vehicles or travel trailers; nor does it include appurtenant structures that are less than 15 feet by 15 feet by 10 feet high which are used for picnicking, storage of recreational or lawn equipment, and are constructed in a manner which facilitates easy removal. The appurtenant structure shall not have a permanent foundation and shall not be used as a residential facility.

(g) "Structure zone" means an area within an environmental area where a permit is not required to engage in the activities specified in R 281.23(6).

(h) "Wetland-oriented birds" means waterfowl, shorebirds, gulls, terns, herons, rails, bitterns, or other birds associated with coastal or wetland areas.

(i) "Wetland-oriented mammals" means muskrats, mink, beaver, otter or other mammals associated with coastal or wetland habitats.

(2) The terms defined in the act shall have the same meaning when used in these rules.

History: 1954 ACS 96, p. 54, Eff. Aug. 17, 1978.

R 281.22 High-risk erosion areas.

Rule 2. (1) Prior to designation of a high-risk erosion area, the department shall mail pre-designation letters to the affected landowners of record as shown in

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-google

the last assessment rolls. The letter shall explain that the property is being considered for designation as a high-risk erosion area and shall invite comments from the affected landowners. The department shall schedule a meeting prior to designation to explain the proposed designation to property owners and local governmental agencies.

(2) The department shall designate a high-risk erosion area upon its finding that bluffline recession has been occurring at an average annual rate of 1.0 foot or greater per year, based on a minimum period of 15 years. The designation shall contain the minimum required setback from the bluffline for any future permanent structure. The setback shall be based on a projected 30-year period of bluffline recession.

(3) In designating a high-risk erosion area, the department shall notify the landowner of record and the local governmental agency affected thereby. The notice of designation shall be delivered personally or sent by certified mail to the landowner of record at the address given in the last assessment roll.

(4) The notice of designation to affected landowners and local governmental agencies shall include all of the following information:

(a) The authority and reasons for designation of high-risk erosion areas.

(b) A description, graphic or otherwise, of the limits of the high-risk erosion area.

(c) An explanation of any regulatory measures which may be required in the high-risk erosion area and the regulatory role of the local governmental agency.

(d) The procedure by which the designation may be appealed.

(5) The department shall consider additional high-risk erosion areas as may be proposed by local governmental agencies, citizens, or interested groups.

(6) A regulation may be modified upon presentation of engineering studies acceptable to the department documenting annual recession rates at variance with department recession rate data. Upon department acceptance of the data as accurate and compatible with the objectives of the act, a structure setback from the bluffline shall be calculated and implemented based on the new recession rate information.

(7) In the absence of an approved local ordinance enacted pursuant to sections 7, 8, 9, and 10 of the act, any person or local governmental agency proposing to erect, install, or move a permanent structure on a parcel, any portion of which is a designated high-risk erosion area, shall submit to the department for its approval a permit application. The permit application shall contain all of the following information:

(a) A legal description of the property.

(b) A description of the proposed permanent structure.

(c) A sketch of the proposed site, showing the location of the proposed permanent structure in relation to the location of the bluffline.

(d) The signature and address of the applicant.

(8) A permit application to erect, install, or move a permanent structure on a parcel, any portion of which is in a designated high-risk erosion area shall be approved if the proposed permanent structure meets or exceeds the minimum setback requirements established by the department.

(9) If a parcel which has been established prior to the high-risk erosion area designation does not have adequate depth to provide the minimum required setback from the bluffline for a permanent structure, a permanent structure which can be moved prior to damage from erosion may be allowed by a special exception. A special exception shall be granted only if criteria (a) and (b) and either (c) or (d) of this subrule are met:

(a) If a sanitary sewer is not used, the septic system shall be located on the landward side of the permanent structure.

(b) The permanent structure shall be located as far landward of the bluffline as local zoning restrictions allow.

(c) The permanent structure shall be structurally designed and constructed to be moveable in accordance with proper engineering standards and building moving restrictions applicable to the subject area. Review and approval of the design shall be incorporated into the department of natural resources permit process. All construction materials, including foundations, shall be removed or disposed of as part of the moving operation. Access to and from the structure site shall be of sufficient width and acceptable grade to allow for moving of the permanent structure.

(d) A department-approved erosion control device is constructed and maintained by a state, county, municipal, or township government.

(10) Not more than 60 days after receipt of a permit application, the department shall send by certified mail to the applicant a notice of its approval or disapproval. In case of disapproval, the reasons therefor shall be stated. A permit application which does not require field investigation shall be processed within 20 days.

(11) Approval of a permit does not exempt the applicant from complying with other statutes, ordinances, or regulations.

(12) Any aggrieved party that contests the designation of a high-risk erosion area or the disapproval of a permit application shall be granted a hearing if a petition is filed with the department not more than 60 days after the designation letter or the notice of disapproval is sent. Such petition should be sent to the Director, Department of Natural Resources, P.O. Box 30028, Lansing, Michigan 48909. The hearing shall be conducted in accordance with the provisions for contested cases in Act No. 306 of the Public Acts of 1969, as amended, being §24.271 et seq. of the Michigan Compiled Laws and R 299.3071 to R 299.3081 of the Michigan Administrative Code.

(13) The landowner of record and the local governmental agency shall be sent a notice by certified mail if the high-risk erosion area designation is removed.

(14) All high-risk erosion area designations in existence at the effective date of these rules shall remain in full force and effect.

History: 1954 ACS 98, p. 55, Eff. Aug. 17, 1978.

R 281.23 Environmental areas.

Rule 3. (1) In determining whether an area is necessary for the preservation and maintenance of fish, the following uses shall be considered:

(a) Spawning, which is the placement and fertilization of eggs by fish for the propagation of young.

(b) Nursery, which is the utilization of an area by young fish as a sheltered habitat in which to feed and grow.

(c) Feeding, which is the process of obtaining and ingesting plant or animal matter necessary for maintaining growth and life functions.

(d) Protection, which is the utilization of an area as escape cover from predators or unsuitable environmental conditions.

(e) Migration, which is a daily or seasonal movement.

(2) In determining whether an area is necessary for the preservation and maintenance of wildlife, the following uses by wetland-oriented birds and wetland-oriented mammals shall be considered:

(a) Breeding, which is the process of courting, pairing, and mating.

(b) Nesting, which is the process of laying, incubating, and hatching eggs.

(c) Rearing of young, which is the feeding and protection of young.

(d) Feeding, which is the process of obtaining and ingesting plant or animal matter necessary for maintaining growth and life functions.

(e) Resting, which is a period of inactivity in the daily routine or seasonal migration.

(3) Prior to designation of environmental areas, the department shall mail predesignation letters to the affected landowners of record as shown in the last assessment rolls. The letter shall explain that the property is being considered for designation as an environmental area and shall invite comments from the affected landowners. The department shall schedule a meeting prior to designation to explain the proposed designation to property owners and local governmental agencies.

(4) The department shall designate environmental areas determined to be necessary for the preservation and maintenance of fish and wildlife. The notice of designation shall be delivered personally or sent by certified mail to the landowner of record at the address given in the last assessment roll and to the local governmental agency.

(5) The notice of designation to affected landowners and local governmental agencies shall include all of the following information:

(a) The authority and reasons for designation of environmental areas.

(b) A description, graphic or otherwise, of the limits of the environmental area.

(c) An explanation of any regulatory measures which may be required in environmental areas and the regulatory role of the local governmental agency.

(d) The procedure by which the designation may be appealed.

(6) The following shoreland uses in an environmental area shall require a permit from the department in accordance with these rules or from a local governmental agency pursuant to an ordinance approved by the department:

(a) Dredging, filling, grading, or other alterations of the soil.

(b) Alteration of natural drainage, but not including the reasonable care and maintenance of established drainage improvement works. A permit is not required for maintenance of existing dikes.

(c) Alteration of vegetation utilized by fish or wildlife, or both, for the uses covered in subrules (1) and (2) of this rule. Timber harvest shall not require a permit unless it involves an identified colonial bird nesting area, such as a heron rookery.

(d) Placement of permanent structures.

(7) Farming of lands within the environmental area is allowed without a permit if artificial draining, pumping, diking, dredging, or filling are not used. Pumping of water into an environmental area is allowed without a permit.

(8) The operation of an off-road vehicle in an environmental area shall be regulated by Act No. 319 of the Public Acts of 1975, as amended, and Act No. 323 of the Public Acts of 1976, being §257.1601 et seq. and §317.171 et seq. of the Michigan Compiled Laws.

(9) A structure zone not to exceed 12,000 square feet shall be delineated for all parcels of land which are totally included within the boundaries of an environmental area at the time of designation. If a parcel has less than 12,000 square feet of land outside the boundaries of the environmental area, a structure zone shall be delineated which, in conjunction with the land outside the environmental area, shall total 12,000 square feet. Use of a structure zone is subject to all other statutes, ordinances, and regulations.

(10) The department shall consider additional environmental areas as may be proposed by local governmental agencies, citizens, or interested groups.

(11) In the absence of an approved zoning ordinance enacted pursuant to sections 7, 8, 9, and 10 of the act, any person or local governmental agency proposing one of the uses regulated in subrule (6) of this rule outside the structure zone or proposing a change in the location of a structure zone shall submit to the department a permit application for the proposed use. The permit application shall contain all of the following:

(a) A legal description of the property.

(b) A drawing of the site with the proposed project clearly shown.

(c) A detailed description of the proposed project.

(d) The signature and address of the applicant.

(12) A permit application as described in R 281.23(11) shall be approved if both of the following conditions are satisfied:

(a) The adverse effects to the uses described in R 281.23(1) and (2) are minimal and shall be mitigated to the maximum extent feasible.

(b) No feasible and prudent alternative to the proposed plan is available.

(13) Not more than 60 days after receipt of a permit application, the department shall send by certified mail to the applicant a notice of its approval or disapproval. In case of disapproval, the reasons therefor shall be stated. A permit application which does not require field investigation shall be processed within 20 days.

(14) Approval of a permit does not exempt the applicant from complying with other statutes, ordinances, and regulations.

(15) Any aggrieved party that contests the designation of an environmental area or the disapproval of a permit application shall be granted a hearing if a petition is filed with the department not more than 60 days after the designation letter or the notice of disapproval is sent. Such petition should be sent to the Director, Department of Natural Resources, P.O. Box 30028, Lansing, Michigan 48909. The hearing shall be conducted in accordance with the provisions for contested cases in Act No. 306 of the Public Acts of 1969, as amended, and in R 299.3071 to R 299.3081 of the Michigan Administrative Code.

(16) The landowner of record and the local governmental agency shall be sent a notice by certified mail if the environmental area designation is removed.

(17) All environmental area designations in existence at the effective date of these rules shall remain in full force and effect.

History: 1954 ACS 98, p. 56, Eff. Aug. 17, 1978.

R 281.24 Flood risk areas.

Rule 4. (1) Any area which is within the 100-year floodplain of a Great Lake or a connecting waterway, as identified in one of the following approved floodplain delineation studies, is designated as a flood risk area. Said documents are listed as follows and incorporated into these rules by reference:

(a) Flood insurance study, city of East Tawas, Michigan, Iosco county, U.S. department of housing and urban development, federal insurance administration, September, 1977.

(b) Flood insurance study, city of Escanaba, Michigan, Delta county, U.S. department of housing and urban development, federal insurance administration, September, 1977.

(c) Flood insurance study, city of Gladstone, Michigan, Delta county, U.S. department of housing and urban development, federal insurance administration, September, 1977.

(d) Flood insurance study, city of Harbor Springs, Michigan, Emmet county, U.S. department of housing and urban development, federal insurance administration, November, 1976.

(e) Flood insurance study, city of Monroe, Michigan, Monroe county, U.S. department of housing and urban development, federal insurance administration, December, 1976.

(f) Flood insurance study, city of Muskegon, Michigan, Muskegon county, U.S. department of housing and urban development, federal insurance administration, December, 1976.

(g) Flood insurance study, township of Muskegon, Michigan, Muskegon county, U.S. department of housing and urban development, federal insurance administration, August, 1977.

(h) Flood insurance study, city of North Muskegon, Michigan, Muskegon county, U.S. department of housing and urban development, federal insurance administration, November, 1976.

(i) Flood insurance study, city of Norton Shores, Michigan, Muskegon county, U.S. department of housing and urban development, federal insurance administration, September, 1977.

(j) Flood insurance study, village of Suttons Bay, Michigan, Leelanau county, U.S. department of housing and urban development, federal insurance administration, December, 1976.

The documents listed above are available in limited quantity from the local unit of government involved, from the Federal Insurance Administration, U.S. Department of Housing and Urban Development, Washington, D.C. 20410, or from the Michigan Department of Natural Resources, Division of Land Resource Programs, P.O. Box 30028, Lansing, Michigan 48909.

(2) The department may designate additional flood risk areas which are located within the 100-year floodplain of a Great Lake or a connecting waterway. The following information and studies may be used in delineating the flood risk areas:

(a) Current floodplain information reports by the U.S. army, corps of engineers.

(b) Report on Great Lakes open-coast flood levels by the U.S. army, corps of engineers.

(c) Current flood hazard analysis studies by the U.S. department of housing and urban development, federal insurance administration.

(d) Current flood hazard analysis studies by the U.S. soil conservation service.

(e) Engineering studies currently acceptable to the department.

(3) If the studies listed in subrule (2) of this rule are used to determine the flood risk area, the following procedures for designation shall be used:

(a) Prior to designation of a flood risk area, the department shall mail predesignation letters to the affected landowners of record as shown in the last assessment role. The letter shall explain that the property is being considered for designation as a flood risk area. The department shall schedule a meeting prior to designation to explain the proposed designation to property owners and local governmental agencies.

(b) The department shall designate a flood risk area upon its findings that the property lies within the 100-year floodplain of a Great Lake or a connecting waterway.

(c) In designating a flood risk area, the department shall notify the landowner of record and the local governmental agency affected thereby. The notice of designation shall be delivered personally or sent by certified mail to the landowner of record at the address given in the last assessment roll.

(d) The notice of designation to affected landowners and local governmental agencies shall include all of the following information:

(i) The authority and reasons for designation of flood risk areas.

(ii) A description, graphic or otherwise, of the limits of the flood risk area.

(iii) An explanation of any regulatory measures which may be required in the flood risk area and the regulatory role of the local governmental agency.

(iv) The procedure by which the designation may be appealed.

(4) The department shall consider additional flood risk areas as may be proposed by local governmental agencies, citizens, or interested groups.

(5) In the absence of an approved local ordinance enacted pursuant to sections 7, 8, 9, and 10 of the act, a person or local governmental agency proposing a new permanent structure on a parcel, any portion of which is a designated flood risk area, shall submit to the department, for its approval, a permit application for the proposed new permanent structure. A new permanent structure in a subdivision for which approval is required pursuant to Act No. 288 of the Public Acts of 1967, as amended, being §560.101 et seq. of the Michigan Compiled Laws, and known as the subdivision control act of 1967, is exempt from the requirements of this rule. The permit application shall contain all of the following information:

(a) A legal description of the property.

(b) A description of the proposed permanent structure.

(c) A topographic map of the property in sufficient detail to allow review.

(d) The means to be undertaken to prevent property loss.

(e) The signature and address of the applicant.

(6) A permit application for a new permanent structure on a parcel, any portion of which is a designated flood risk area, shall be approved if it meets or exceeds the minimum requirements established in subrules (9) or (10), or both, of this rule.

(7) Not more than 60 days after receipt of a permit application, the department shall send by certified mail to the applicant a notice of its approval or disapproval. In case of disapproval, the reasons therefor shall be stated. A permit application which does not require a field investigation shall be processed within 20 days.

(8) Approval of a permit does not exempt the applicant from complying with other statutes, ordinances, or regulations.

(9) New residential structures in a flood risk area shall satisfy both of the following requirements:

(a) Have the lowest floor, including basement, not lower than the elevation defining the flood risk area.

(b) Have new or replacement sanitary sewage systems designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, or have on-site waste disposal systems located to avoid impairment to them or contamination from them during flooding, or both.

(10) New nonresidential structures in a flood risk area shall have the lowest floor, including basement, not lower than the elevation defining the flood risk area, or together with attendant utility and sanitary facilities, be certified by a professional engineer or architect to be designed so that below the elevation defining the flood risk area, the structure is watertight and able to withstand hydrostatic pressures from a water level equal to the elevation defining the flood risk area.

(11) Any aggrieved party that contests the designation of a flood risk area under subrule (3) of this rule or the disapproval of a permit application shall be granted a hearing if a petition is filed with the department not more than 60 days after the notice of designation or notice of disapproval is sent. Such petition should be sent to the Director, Department of Natural Resources, P.O. Box 30028,

R 281.26 Rescission.

Rule 6. R 281.1 to R 281.19 of the Michigan Administrative Code, appearing on pages 7129 to 7132 of the 1974 Annual Supplement to the Code and pages 6 to 8 of Quarterly Supplement No. 87 to the Code, are rescinded.

History: 1954 ACS 98, p. 60, Eff. Aug. 17, 1978.

BETSIE RIVER NATURAL RIVER ZONING

(By authority conferred on the commission of natural resources by section 13 of Act No. 231 of the Public Acts of 1970, being §281.773 of the Michigan Compiled Laws)

R 281.31 Definitions.

Rule 1. (1) "Applicant" means a person who requests on proper forms and via proper procedures, a zoning permit, special exception permit, or variance.

(2) "Appurtenance" means a structure incidental to a dwelling, including, but not limited to, garages, private access roads, pump houses, wells, sanitary facilities, and electrical service lines.

(3) "Building permit" means a permit issued by the appropriate governmental subdivision as presently required under provisions of the state construction code act of 1972, Act No. 230 of the Public Acts of 1972, being §125.1501 et seq. of the Michigan Compiled Laws.

(4) "Building inspector" means the agency or individual appointed by the appropriate governmental subdivision to administer provisions of Act No. 230 of the Public Acts of 1972, including issuance of building permits.

(5) "Commission" means the natural resources commission.

(6) "Director" means the director of the department of natural resources.

(7) "Dwelling, single family" means a detached building, or portion thereof, which is used exclusively for residential purposes, and which is designed for or occupied exclusively by 1 family and containing housekeeping facilities.

(8) "Filtered view of the river" means maintenance or establishment of woody vegetation of sufficient density to screen developments from the river, provide for streambank stabilization and erosion control, serve as an aid to infiltration of surface runoff, and provide cover to shade the water. It need not be so dense as to completely block the river view. It means no clear cutting.

(9) "Front" means that side of a lot abutting the water's edge of the mainstream or tributary.

(10) "Lot" means a parcel of land occupied or intended to be occupied by 1 single family dwelling and appurtenances incidental to it, including such open spaces as are arranged and designed to be used in connection with such buildings.

(11) "Natural river district" means the Betsie river natural river district as described in subrule (1) of R 281.33.

(12) "Parcel" means a continuous area or acreage of land which can be described for purposes of transfer, sale, lease, rent, or other conveyance.

(13) "Reforestation" means renewal of vegetative cover by seeding, planting, or transplanting.

(14) "Setback" means the horizontal distance between any portion of a structure and the water's edge, measured at its closest point.

(15) "Soil erosion and sedimentation control enforcement agency" means the local agency appointed by the appropriate governmental subdivision to enforce the provisions of Act No. 347 of the Public Acts of 1972, being §282.101 et seq. of the Michigan Compiled Laws.

(16) "Structure" means anything constructed, erected, or to be moved to or from any premise which is permanently located above, on or below the ground, including signs and billboards.

(17) "Zoning administrator" means the administrator of these zoning rules appointed by the natural resources commission.

(18) "Zoning permit" means a standard form issued by the zoning administrator upon application and declaration by the owner or his duly authorized agent approving proposed construction and use of land and buildings and structures thereon.

(19) "Zoning review board" means a group of 3 or more persons appointed by the commission to act upon requests for special exceptions.

History: 1954 ACS 91, p. 17, Eff. June 14, 1977.

R 281.32 Purpose.

Rule 2. It is the purpose of these rules:

(a) To promote the public health, safety, and general welfare, to prevent economic and ecological damages due to unwise development patterns within the natural river district, and to preserve the values of the natural river district for the benefit of present and future generations.

(b) To protect the free flowing conditions, fish and wildlife resources, water quality, scenic and aesthetic qualities, and historical and recreational values of the Betsie river and adjoining land.

(c) To prevent flood damages due to interference with natural floodplain characteristics by excluding developments which are vulnerable to flood damages, and which may reduce the capacity of the floodway of the river to withstand flooding conditions.

(d) To provide for residential and other permitted uses that complement the natural characteristics of the natural river system.

(e) To protect individuals from buying or developing lands which are unsuited for building purposes.

History: 1954 ACS 91, p. 18, Eff. June 14, 1977.

R 281.33 Boundaries; display and filing of zoning map; effect of zoning rules.

Rule 3. (1) The Betsie river natural river district is that area comprising:

(a) The Betsie river from Grass Lake dam in section 2, T25N, R13W in Benzie county to its mouth at Betsie lake in section 35, T26N, R16W, including Thompsonville pond.

(b) The Little Betsie river from its headwaters in section 24, T25N, R13W in Benzie county to its confluence with the Betsie river in section 25, T25N, R14W.

(c) Dair creek from its headwaters in section 15, T25N, R14W, to its confluence with the Betsie river in section 19, T25N, R14W.

(d) The lands lying within 400 feet of the edge of the waters enumerated in subdivisions (a), (b), and (c).

(2) Certified copies of the Betsie river natural river zoning map shall be filed with the local tax assessing officers and with the state tax commission, and additional display copies will be provided to local offices in the Betsie river area, including: county register of deeds, zoning administrator of these rules, local planning and zoning officials, township and county clerks, local building inspector, local soil erosion and sedimentation control enforcement agencies, and soil conservation service.

(3) These zoning rules do not repeal, abrogate, or impair any existing easements, covenants, or deed restrictions applicable to lands within the natural river district, except that where these rules impose greater restrictions than found on such easements, covenants or deeds, the provisions of these rules shall prevail.

(4) These zoning rules do not permit actions prohibited by other statutes or ordinances, including zoning ordinances, applicable to the natural river district, therefore:

(a) All earth changing activities, other than normal landscaping or maintenance, undertaken within 500 feet of a lake or stream, shall be conducted in accordance with an appointed soil erosion and sedimentation control plan and permit issued by the local soil erosion and sedimentation control enforcement agency.

(b) All development and land uses in the Betsie river natural river district are subject to provisions of appropriate local health codes and building codes, including requirements for permits and approvals.

History: 1954 ACS 91, p. 18, Eff. June 14, 1977.

R 281.34 Permitted uses.

Rule 4. The following uses shall be permitted by the owner upon the owner's property within the natural river district, subject to limitations and requirements outlined in these zoning rules, local ordinances, and other applicable statutes:

(a) One single-family dwelling and appurtenances on a lot at least 200 front feet wide, subject to the following limitations:

(i) On the Betsie river mainstream, setback shall be at least 200 feet from the water's edge, except that for every foot of vertical river bank elevation greater than 5 feet above the normal water level, the building setback may be moved 5 feet closer to the edge of the river ridge or escarpment until a minimum of 150 feet is reached.

(ii) On the Little Betsie river and Dair creek, setback shall be at least 100 feet from the water's edge.

(b) Plats, if the minimum setback and lot width requirements specified in subdivision (a) are met.

(c) Camping and other recreational activities outside of the natural vegetation strip, if structures are set back at least 200 feet from the water's edge on the Betsie river mainstream, and at least 100 feet from the water's edge on the Little Betsie river and Dair creek.

(d) Operation of watercraft subject to limitations of local ordinances established under the authority of Act No. 303 of the Public Acts of 1967, being §281.1001 et seq. of the Michigan Compiled Laws.

(e) Fishing and hunting in compliance with current laws and regulations.

(f) Reforestation.

(g) Normal agricultural activities, if those activities meet the requirements of these rules, and if the bureau of environmental protection of the department of natural resources determines that the activities do not contribute to stream degradation.

(h) Operation of licensed motor vehicles on dedicated public roads or access roads to private single-family dwellings.

(i) Private foot paths constructed by the landowner of natural materials to facilitate permitted uses.

(j) Private boat docks not to exceed 4 feet in width nor more than 20 feet in length, with not more than 4 feet of the dock extending over the water, if constructed of natural materials and camouflaged into the natural surroundings.

(k) Mining and extractive industries more than 300 feet from the water's edge, if constructed and operated pursuant to applicable laws and rules of the state.

(l) Underground gas and utility lines to private single-family dwellings originating from the landward side of the dwelling.

(m) Surface gas and utility lines on lands or interests in real property continuously owned by a utility from and after January 1, 1971, subject to review and approval by the commission.

(n) Disposal fields and septic tanks in conformance with local county health codes and the provisions of these rules.

(o) Cutting and filling of the land surface, unless the high ground water table is within 6 feet of the land surface, if the cutting and filling meets all the requirements of Act No. 347 of the Public Acts of 1972, being §282.101 et seq. of the Michigan Compiled Laws, and approval is granted by the local soil erosion and sedimentation control enforcement agency.

(p) Other uses for which an applicant is granted a permit by the zoning administrator pursuant to R 281.36 and R 281.37.

History: 1954 ACS 91, p. 19, Eff. June 14, 1977.

R 281.35 Natural vegetation strip.

Rule 5. A strip 50 feet wide on each side of, and parallel to, the Betsie river mainstream, the Little Betsie river, and Dair creek shall be maintained in trees and shrubs or in its natural state, except that dead, diseased, unsafe, or fallen trees, as well as noxious plants may be removed, and trees and shrubs, upon approval of the area forester, may be selectively pruned or removed for landscaping purposes or to provide a filtered view of the river.

History: 1954 ACS 91, p. 20, Eff. June 14, 1977.

R 281.36 Special exception permits.

Rule 6. (1) Special exception permits may be granted to allow a use in the natural river district that is not specifically permitted by R 281.34, where implementation of that use does not contravene the purposes of these rules as specified in R 281.32.

(2) Application for a special exception permit shall be made on a form provided by the zoning administrator.

(3) Upon reviewing an application for a special exception permit, the zoning review board, at any time prior to rendering a decision thereon, shall require the applicant to furnish any of the following information as is deemed necessary by the zoning review board for determining the suitability of the particular site for the proposed use:

(a) A detailed description of the proposed activity or use.

(b) A plan (surface view) showing elevations or contours of the ground, including existing earth fills; generalized vegetative cover; size, location, and spatial arrangement of all proposed and existing structures on the site; location and elevations of streets, access roads, water supply and sanitary facilities.

(c) Photographs showing existing land uses and vegetation upstream and downstream from the proposed use.

(d) Valley cross sections showing the natural stream channel, streambanks and high water marks, if any, with indications of locations of proposed developments.

(e) Any other information deemed relevant by the zoning administrator, and necessary to carry out the intent and provisions of these rules.

(4) Before considering applications, the zoning review board shall give notice by certified mail to all property owners within 500 feet of the proposed use as shown on the current tax assessment rolls, and to local officials and department of natural resources personnel, including: township supervisor, township building inspector, county health officer, local soil erosion and sedimentation control enforcement agency, county and township planning and zoning officials, soil conservation service, and regional office and natural rivers section of the department of natural resources.

(5) In review of an application, the zoning review board shall consider all relevant factors specified in these rules in the light of the spirit and intent of the purposes specified in R 281.32.

(6) The zoning review board may require public hearings to be held regarding the application. The zoning review board shall decide on an application within 15 days from receiving the application, except that, where public hearings are held or additional information is required pursuant to subrule (3), it shall render a decision within 15 days following the hearings or receipt of the last requested information.

(7) The zoning review board shall attach such conditions to the granting of a special exception as are necessary to further the purposes of these rules.

(8) A special exception use shall adhere strictly to the terms of the special exception permit or such permit may be revoked by the zoning administrator.

History: 1954 ACS 91, p. 20, Eff. June 14, 1977.

R 281.37 Nonconforming uses.

Rule 7. (1) The lawful use of any land or structure existing at the effective date of these rules may be continued, although the use does not conform with these rules.

(2) Routine or normal repairs and maintenance work required to keep a nonconforming structure or other use, such as a roadway, in sound condition are permitted. Remodeling of nonconforming structures within the confines of the existing foundation and elevations is permitted.

(3) The granting of a special exception permit is required for the restoration of a nonconforming building or structure damaged or destroyed by more than 50% of its value due to flood, fire, or other means. In determining whether 50% of the value has been destroyed, the zoning review board shall use appraised replacement costs as determined by a qualified individual appointed by the zoning review board, and shall compare the value of the part destroyed to the value of the total operating unit where there are several buildings or structures which are used together by the landowner as a single operating unit. A request for restoration of a nonconforming building or structure damaged or destroyed by more than 50% of its value shall be approved if all of the following conditions exist:

(a) The land upon which it is situated is not subject to flooding.

(b) Continued use of a nonconforming building or structure would not lead to accelerated bank erosion or other material degradation of the river resource, and approval is granted by the local soil erosion and sedimentation control enforcement agency.

(c) The continued use conforms with local county health codes and approval is granted by the local county health department.

(d) The continued use conforms with local building codes and approval is granted by the local building inspector.

(e) Restoration of a damaged building or structure approved by the zoning review board shall be started within 1 year from the time of damage.

(4) A nonconforming use may be changed to a use of a like or similar character, provided the new use conforms more closely to the rules of the natural river district.

(5) A nonconforming use of any land or structure may not hereinafter be enlarged or extended without the granting of a special exception permit upon consideration of the factors outlined below in subdivisions (a), (b), (c), (d), and (e) of subrule (3). An enlargement or extension of a nonconforming use of up to 50% of the land area or the floor area of a residential structure or public accommodation providing overnight facilities not exceeding 12 units may be approved by the zoning review board when the owner submits to the zoning review board a detailed description of the proposed enlargement or extension together with a site plan showing the location of all new structures or uses, and upon a determination that all of the following conditions exist:

(a) The land upon which it is situated is not subject to flooding.

(b) The enlargement or extension of the nonconforming use does not lead to accelerated bank erosion or other material degradation of the river resource, and approval is granted by the appropriate local soil erosion and sedimentation control enforcement agency.

(c) The enlarged or extended use conforms with local county health codes and approval is granted by the local county health department.

(d) The enlarged or extended use conforms with local building codes and approval is granted by the local building administrator.

(e) The enlarged or extended use does not contravene the purposes of these rules as specified in R 281.32.

(6) Substitution of nonconforming structures with new structures may be made, but the granting of a special exception permit upon consideration of the factors outlined in subrule (5) is required to ensure that the changed uses conform as closely as possible to the purposes of these rules as specified in R 281.32.

(7) If a nonconforming use is discontinued for 12 consecutive months, any future use at that site shall conform to these rules.

(8) A property owner may request the zoning review board to certify the existence of a prior nonconforming use on the owner's property which certification shall be granted where a use meets the criteria of this rule and the common law criteria of nonconforming uses of the state.

History: 1954 ACS 91, p. 21, Eff. June 14, 1977.

R 281.38 Hearing; variances.

Rule 8. (1) An applicant who is denied a zoning permit or a special exception permit shall have a hearing pursuant to sections 71 to 87 of Act No. 306 of the Public Acts of 1969, being §§24.271 to 24.287 of the Michigan Compiled Laws, upon petition thereof filed with the director within 30 days of the denial.

(2) Upon receipt of a petition for a hearing, the director shall set a date for a hearing on the facts and proposed action, and shall appoint a hearing officer to preside at the hearing. The proposed hearing shall be scheduled not more than 8 weeks after receipt of the petition. The hearing officer shall hear the evidence and

prepare a record of the proceedings and a proposal for a decision, including findings of fact and conclusions of law.

(3) The hearing officer shall give notice of the hearing by certified mail to the persons named in subrule (4) of R 281.36 at least 30 days prior to the hearing.

(4) The record of the proceedings and proposal for decision shall be transmitted to the commission and shall be served by certified mail on all other parties to the proceedings not more than 30 days after completion of the testimony.

(5) A final decision or order of the commission in a contested case shall be made not more than 60 days after the date of the hearing, and a copy of the decision or order shall be delivered or mailed forthwith to each party and to that party's attorney.

(6) The commission shall prepare an official record of hearing pursuant to section 86 of Act No. 306 of the Public Acts of 1969, being §24.286 of the Michigan Compiled Laws.

(7) The final decision or order of the commission after a hearing is conclusive unless reviewed in accordance with section 87 or sections 101 to 106 of Act No. 306 of the Public Acts of 1969, being §§24.287 and 24.301 to 24.306 of the Michigan Compiled Laws.

(8) In determining a final decision in a contested case, the commission shall consider:

(a) The economic effect of the subject property weighed in light of the applicant's entire contiguous holdings and not merely the portion within the natural river district. If the subject portion is the remainder of a larger holding, this fact and a description of the title history shall be included in the hearing evidence.

(b) Increase in flood levels and flood damages that may be occasioned by the proposed use at the site and upstream and downstream from the site, water quality consequences and other factors relevant within the terms of these rules.

(c) Cumulative effect upon the natural river district from potential development of holdings in a legal position similar to the applicant's, if variances are requested and granted for these properties.

(d) Reasonable alternatives available to the applicant.

(e) All other factors relevant to the purposes and provisions of these rules.

(9) In weighing the application for a variance, considerations of public health, safety, and welfare shall prevail, unless private injury is proved by substantial preponderance of the evidence to be so great as to override the public interest.

(10) A variance shall not be granted where the commission determines that the requested use poses substantial hazard to life or property rights either public or private.

(11) Where, by reason of the narrowness, shallowness, or shape of a lot or property at the effective date of these rules, the lot or property cannot accommodate a building because of the required building setback, variances shall be allowed only upon a consideration of the factors prescribed in subrule (8) of this rule. Such variance shall provide that the structures shall be so placed as to best meet the spirit and objectives of the natural rivers act, Act No. 231 of the Public Acts of 1970, being §281.761 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 91, p. 22, Eff. June 14, 1977.

R 281.39 Zoning administrator and zoning review board; appointment and duties.

Rule 9. (1) The commission shall appoint a zoning administrator and a zoning review board to act as its agent to enforce these rules, including the receiving and processing of applications for zoning permits, special exception permits, petitions

for variances, requests for changes, amendments or supplements, as outlined in these rules, or other matters the commission is required to decide.

(2) A person shall not commence excavation, erection, alteration, or repair for a building or structure, or commence a land use, until an application for a zoning permit has been secured from the zoning administrator. Alterations and ordinary maintenance made on dwellings which do not change the character of the structure or land use, and where the total cost does not exceed 5% of the market value of the structure in any 12-month period, are exempt from obtaining a zoning permit, but may be required to obtain a local building permit from the appropriate local building inspector.

(3) Application for a zoning permit shall be filed in writing with the zoning administrator. There shall be submitted with all applications for zoning permits:

(a) Two copies of a site plan giving accurate dimensions on either a scale drawing or a rough sketch and containing the following information:

(i) Location upon the lot of all existing and proposed structures.

(ii) Existing or intended use of the structure.

(iii) Generalized vegetative cover.

(iv) Lines and dimensions of the lot to be used.

(b) Evidence of ownership of all property affected by the coverage of the permit.

(c) Evidence that all required federal, state, county, and township licenses or permits have been acquired or that applications have been filed for the licenses or permits.

(d) Other information as may be required by the zoning administrator, and necessary to carry out the intent and provisions of these rules.

(4) One copy of both plans and specifications shall be filed and retained by the zoning administrator, and the other shall be delivered to the applicant when the zoning administrator has approved the application, completed the site inspection and issued the zoning permit. To insure that new land uses in the natural river district are in conformance with these rules, the applicant shall display a permit required by these rules face out within 24 hours of its issuance by placing it in a conspicuous place facing the nearest street or roadway and displaying it continuously until the purpose for which the permit was issued is completed. Failure to obtain and display a permit is a violation of these rules and shall subject a person for whose benefit the permit is required to court action.

granted where implementation of the change does not contravene the purposes of these rules as specified in R 281.32.

(2) A local unit of government or a landowner who requests a change, amendment, or supplement to the boundaries or to permitted uses shall have a hearing held in accordance with, and subject to, sections 71 to 87 of Act No. 306 of the Public Acts of 1969, as prescribed in subrules (2) to (10) of R 281.38.

History: 1954 ACS 91, p. 23, Eff. June 14, 1977.

JORDAN RIVER NATURAL RIVER ZONING

(By authority conferred on the commission of natural resources by section 13 of Act No. 231 of the Public Acts of 1970, being §281.773 of the Michigan Compiled Laws)

R 281.51 Definitions.

Rule 1. (1) "Applicant" means a person who requests on proper forms and via proper procedures, a zoning permit, special exception permit or variance.

(2) "Appurtenance" means a structure incidental to a dwelling including, but not limited to, garages, pump houses, wells, sanitary facilities and electrical service lines.

(3) "Commission" means the natural resources commission.

(4) "Director" means the director of the department of natural resources.

(5) "Dwelling" means a building, or portion thereof, which is designed or used exclusively for residential purposes.

(6) "Dwelling, single family" means a detached building designed for or occupied exclusively by 1 family and containing housekeeping facilities.

(7) "Front" means that side of a lot abutting the water's edge of the mainstream or tributary.

(8) "Lot" means a parcel of land occupied or intended to be occupied by 1 dwelling and appurtenances incidental to it, including such open spaces as are arranged and designed to be used in connection with such buildings.

(9) "Natural river district" means the Jordan river natural river district as described in subrule (1) of R 281.53.

(10) "Reforestation" means renewal of vegetative cover by seeding, planting, or transplanting.

(11) "Setback" means the horizontal distance between any portion of a structure and the water's edge, measured at its closest point.

(12) "Structure" means anything constructed, erected or to be moved to or from any premise which is permanently located above, on or below the ground including signs and billboards.

(13) "Zoning administrator" means the administrator of these zoning rules appointed by the natural resources commission.

(14) "Zoning permit" means a standard form issued by the zoning administrator upon application and declaration by the owner or his duly authorized agent approving proposed construction and use of land and buildings and structures thereon.

(15) "Zoning review board" means a group of 3 or more persons appointed by the commission to act upon requests for special exceptions.

History: 1954 ACS 81, p. 18, Eff. Sept. 27, 1974.

R 281.52 Purpose.

Rule 2. It is the purpose of these rules:

(a) To promote the public health, safety, and general welfare, to prevent economic and ecological damages due to unwise development patterns within the natural river district, and to preserve the values of the natural river district for the benefit of present and future generations.

(b) To protect the free flowing conditions, fish and wildlife resources, water quality, scenic and aesthetic qualities and historical and recreational values of the Jordan river and adjoining land.

(c) To prevent flood damages due to interference with natural flood plain characteristics by excluding developments which are vulnerable to flood damages.

(d) To provide for residential and other permitted development that will complement the natural characteristics of the natural river system.

History: 1954 ACS 81, p. 19, Eff. Sept. 27, 1974.

R 281.53 Boundaries; map; abrogation and other restrictions.

Rule 3. (1) The Jordan river natural river district is that area comprising the Jordan river and its tributaries from its source in section 22, T31N, R5W in Antrim county to Roger's bridge in section 35, T32N, R7W in Charlevoix county and all lands lying within 400 feet of the river's edge.

(2) Certified copies of the Jordan river natural river zoning map shall be displayed in the office of the county register of deeds and in the office of the zoning administrator and shall be filed with the local tax assessing officer and with the state tax commission.

(3) These zoning rules do not repeal, abrogate, or impair any existing easements, convenants, or deed restrictions, nor permit actions prohibited by other statutes or ordinances, including zoning ordinances, applicable to the Jordan river natural river district, except that where these rules impose greater restrictions than found on such easements, convenants, or deeds, the provisions of these rules shall prevail.

History: 1954 ACS 81, p. 19, Eff. Sept. 27, 1974.

R 281.54 Permitted uses.

Rule 4. The following uses shall be permitted by the owner upon his property within the natural river district, subject to limitations and requirements outlined in these zoning rules, local ordinances and other applicable statutes:

(a) One single family dwelling and appurtenances set back at least 200 feet from the water's edge on a lot at least 150 front feet wide along the mainstream and set back 100 feet with minimum lot width of 150 front feet on the tributaries.

(b) Plats if the minimum setback and lot width requirements in subdivision (a) are met.

(c) Camping and other recreational activities which do not require the construction of permanent facilities.

(d) Operation of watercraft subject to limitations of local ordinances established under authority of Act No. 303 of the Public Acts of 1967, as amended, being §§281.1001 to 281.1199 of the Michigan Compiled Laws.

(e) Fishing and hunting in compliance with current laws and regulations.

(f) Reforestation.

(g) Normal agricultural activities, if such activities meet the provisions of these rules and the bureau of water management of the department of natural resources determines that such activities do not contribute to stream degradation.

(h) Operation of licensed motor vehicles on dedicated public roads or access roads to private dwellings.

(i) Private foot paths constructed by the landowner of natural materials to facilitate permitted uses.

(j) Private boat docks constructed by the landowner of natural materials and camouflaged into natural surroundings.

(k) Mining and extractive industries beyond 300 feet from the water's edge.

(l) Underground gas and utility lines.

(m) Surface gas and utility lines on lands, or interests in real property continuously owned by the utility from and after January 1, 1971 subject to review and approval by the commission.

(n) Disposal fields and septic tanks in conformance with local county health codes.

(o) Cutting and filling of the land surface except where the high ground water table is within 6 feet of the land surface.

(p) Other uses which are granted permits by the zoning administrator according to R 281.56 and R 281.59.

History: 1954 ACS 81, p. 19, Eff. Sept. 27, 1974.

R 281.55 Natural vegetation strip.

Rule 5. A strip 100 feet wide on each side of and parallel to the mainstream and 25 feet wide on the tributaries shall be maintained in trees and shrubs or in its natural state, except that dead, diseased, unsafe, or fallen trees may be removed and trees and shrubs, upon approval of the area forester, may be selectively pruned or removed for landscaping purposes or to provide a filtered view of the river.

History: 1954 ACS 81, p. 20, Eff. Sept. 27, 1974.

R 281.56 Special exception permits.

Rule 6. (1) Special exception permits may be granted to allow uses in the natural river district that are not specifically permitted by R 281.54 where implementation of such uses does not contravene the purposes of these rules as specified in R 281.52.

(2) Application for special exception permits shall be made on forms provided by the zoning administrator.

(3) Upon receiving an application for a special exception permit, the zoning review board at any time prior to rendering a decision thereon shall require the applicant to furnish such of the following information as is deemed necessary by the zoning review board for determining the suitability of the particular site for the proposed use:

(a) A detailed description of the proposed activity or use.

(b) A plan (surface view) showing elevations or contours of the ground, including existing earth fills; generalized vegetative cover map; size, location and spatial arrangement of all proposed and existing structures on the site; location and elevations of streets, access roads, water supply and sanitary facilities.

(c) Photographs showing existing land uses and vegetation as seen upstream and downstream from the proposed use.

(d) Valley cross sections showing the natural stream channel, streambanks, and high water marks, if any, with indication of locations of proposed developments.

(e) Any other information deemed relevant by the zoning administrator.

(4) Before considering applications, the zoning review board shall give notice by certified mail to all property owners within 500 feet of the proposed use, and to local officials and department of natural resources personnel, including but not limited to: township supervisor, county health officials, county and township

zoning officials, soil conservation service, and regional office and natural rivers section of the department of natural resources.

(5) In passing upon applications, the zoning review board shall consider all relevant factors specified in these rules, in the light of the spirit and intent of the purposes as specified in R 281.52.

(6) The zoning review board may require public hearings to be held regarding the application. The zoning review board shall decide on an application within 15 days from receiving the application, except that, where public hearings are held or additional information is required pursuant to subrule (3), it shall render a decision within 15 days of the end of hearings or receipt of the last requested information.

(7) The zoning review board shall attach such conditions to the granting of special exceptions as are necessary to further the purposes of these rules.

(8) A special exception use shall adhere strictly to the terms of the special exception permit.

History: 1954 ACS 81, p. 20, Eff. Sept. 27, 1974.

R 281.57 Nonconforming uses.

Rule 7. (1) The lawful use of any land or structure existing at the effective date of these rules may be continued, although the use does not conform with these rules.

(2) Repairs and maintenance work required to keep a nonconforming structure or other use, such as a roadway, in sound condition may be made. Remodeling of nonconforming structures within the confines of the existing foundation and elevations shall be permitted.

(3) A special exception permit shall be granted by the zoning review board when a nonconforming building or structure is damaged or destroyed by fire, flood, or other means, and it may be restored if restoration is started within 1 year from the time of damage. Where there are several buildings or structures which are used together by the landowner as a single operating unit, the value of the part destroyed shall be compared to the value of the total operating unit in determining whether 50% of the value has been destroyed. A nonconforming building or structure damaged by more than 50% of its value may be reconstructed or repaired only if all of the following conditions exist:

(a) The land upon which it is situated is not subject to flooding.

(b) Continued use of a nonconforming building or structure would not lead to bank erosion or other material degradation of the river resource.

(c) The continued use conforms with local county health codes and approval is granted by the local county health department.

(4) The use of a nonconforming structure or land may be changed to a use of a like or similar character, or to a use conforming to the rules of the natural river district.

(5) A nonconforming use of any land or structure may not hereinafter be enlarged or extended without the granting of a special exception permit as provided in subrule (3).

(6) An enlargement or extension of a nonconforming use of up to 50% of the land area or the floor area of a residential structure or public accommodation providing overnight facilities not exceeding 12 units may be approved by the zoning review board when the owner submits to the zoning review board a detailed description of the proposed enlargement or extension together with a site plan showing the location of all new structures or uses, and upon a determination that all of the following conditions exist:

(a) The land upon which it is situated is not subject to flooding.

(b) The enlargement or extension of the nonconforming use would not lead to bank erosion or other material degradation of the river resource.

(c) The enlargement or extended use conforms with local county health codes and approval is granted by local county health department.

(d) The enlarged or extended use does not contravene the purposes of these rules as specified in R 281.52.

(7) Substitution of nonconforming structures with new structures may be made, but the granting of a special exception permit is required to ensure that the changed uses will conform as closely as possible to the purposes of these rules as specified in R 281.52.

(8) If a nonconforming use is discontinued for 12 consecutive months, any future use at that site shall conform to these rules.

(9) A property owner may request the zoning review board to certify the existence of a prior nonconforming use on his property, which certification shall be granted where a use meets the criteria of this rule and the common law criteria of nonconforming uses of the state.

History: 1954 ACS 81, p. 20, Eff. Sept. 27, 1974.

R 281.58 Variances.

Rule 8. (1) An applicant who is denied a zoning permit or a special exception permit shall have a hearing held in accordance with and subject to sections 71 to 87 of Act No. 306 of the Public Acts of 1969, being §§24.271 to 24.287 of the Michigan Compiled Laws, upon petition thereof filed with the director within 30 days of such denial.

(2) Upon receipt of a petition for a hearing, the director shall set a date for a hearing on the facts and proposed action, and shall appoint a hearing officer to preside at the hearing. The proposed hearing shall be scheduled not more than 4 weeks after receipt of the petition. The hearing officer shall hear the evidence, prepare a record of the proceedings and a proposal for a decision including findings of fact and conclusions of law.

(3) The hearing officer shall give notice of the hearing by certified mail to the persons named in subrule (4) of R 281.56.

(4) The record of the proceedings and proposal for decision shall be transmitted to the commission and shall be served by certified mail on all other parties to the proceedings not more than 3 weeks after completion of the testimony.

(5) A final decision or order of the commission in a contested case shall be made not more than 8 weeks after the date of the hearing and a copy of the decision or order shall be delivered or mailed forthwith to each party and to his attorney.

(6) The commission shall prepare an official record of hearing in accordance with section 86 of Act No. 306 of the Public Acts of 1969.

(7) The final decision or order of the commission after a hearing is conclusive unless reviewed in accordance with section 87 or sections 101 to 106 of Act No. 306 of the Public Acts of 1969, being §§24.287 or 24.301 to 24.306 of the Michigan Compiled Laws.

(8) In determining a final decision in a contested case, the commission shall consider:

(a) The economic effect of the subject property weighed in light of the applicant's entire contiguous holdings and not merely the portion within the natural river district. If the subject portion is the remainder of a larger holding, this fact and a description of the title history shall be included in the hearing evidence.

History: 1954 ACS 81, p. 22, Eff. Sept. 27, 1974.

R 281.60 Enforcement.

Rule 10. (1) Buildings erected, razed, altered, moved, or converted or any use of land or premises in violation of these rules are declared to be a nuisance.

(2) Each alleged violation shall be inspected by the zoning administrator who shall order the applicant in writing to correct all conditions found to be in violation of these rules.

(3) Violations of these rules shall be resolved by the appropriate circuit court in accordance with section 13 of Act No. 231 of the Public Acts of 1970, being §281.773 of the Michigan Compiled Laws.

History: 1954 ACS 81, p. 23, Eff. Sept. 27, 1974.

R 281.61 Changes; amendments; supplements.

Rule 11. (1) Changes, amendments, and supplements to boundaries and to permitted uses requested by a local unit of government or by a landowner may be granted where implementation of such changes does not contravene the purposes of these rules as specified in R 281.52.

(2) A local unit of government or a landowner who requests a change, amendment, or supplement to the boundaries or to permitted uses shall have a hearing held in accordance with and subject to sections 71 to 87 of Act No. 306 of the Public Acts of 1969, as prescribed in subrules (2) to (10) of R 281.58.

History: 1954 ACS 81, p. 23, Eff. Sept. 27, 1974.

WHITE RIVER NATURAL RIVER ZONING

(By authority conferred on the commission of natural resources by section 13 of Act No. 231 of the Public Acts of 1970, being §281.773 of the Michigan Compiled Laws)

R 281.71 Definitions.

Rule 1. As used in these rules:

(a) "Applicant" means a person who requests, on proper forms and pursuant to proper procedures, a zoning permit, special exception permit, or variance.

(b) "Appurtenance" means a structure incidental to a dwelling, including, but not limited to, garages, private access roads, pump houses, wells, sanitary facilities, and electrical service lines.

(c) "Bluff" means the top of a steep bank rising sharply from the water's edge of a river or stream.

(d) "Building permit" means a permit issued by the appropriate governmental subdivision as presently required under provisions of Act No. 230 of the Public Acts of 1972, being §125.101 et seq. of the Michigan Compiled Laws, and known as the state construction act of 1972.

(e) "Building inspector" means the agency or individual appointed by the appropriate governmental subdivision to administer provisions of Act No. 230 of the Public Acts of 1972, including issuance of building permits.

(f) "Commission" means the natural resources commission.

(g) "Cutting edge of the river" means the outside edge of a river or stream where water velocity has increased to the point where it may cause soil or stream bank erosion.

(h) "Director" means the director of the department of natural resources.

(i) "Dwelling, single-family" means a detached building, or portion thereof, which is used exclusively for residential purposes, and which is designed for, or occupied exclusively by, 1 family and containing housekeeping facilities.

(j) "Family" means 1 or more persons occupying a single dwelling unit, all related by blood, legal adoption, or marriage, and not more than 3 other persons; or not more than 5 unrelated persons.

(k) "Filtered view of river" means the maintenance or establishment of woody vegetation of sufficient density to screen developments from the river, to provide for streambank stabilization and erosion control, to serve as an aid to infiltration of surface runoff, and to provide cover to shade the water. The vegetation need not be so dense as to completely block the river view. It means no clear cutting.

(l) "Front" means that side of a lot abutting the water's edge of the mainstream or tributary.

(m) "Lot" means a continuous area or acreage of land which can be described for purposes of transfer, sale, lease, rental purposes, or other conveyance.

(n) "Natural river district" means the White river natural river district as described in subrule (1) of R 281.73.

(o) "Ordinary high-water mark" means the line between upland and bottomland which persists through successive changes in water level, below which the presence and action of the water is so common or recurrent that the character of the land is marked distinctly from the upland and is apparent in the soil itself, the configuration of the surface of the soil, and the vegetation.

(p) "River's edge" means the ordinary high water mark as used in Act No. 346 of the Public Acts of 1972 and defined in R 281.71(o).

(q) "Reforestation" means renewal of vegetative cover by seeding, planting, or transplanting.

(r) "Setback" means the horizontal distance between any portion of a structure and the river's edge, measured at the structure's closest point to the river's edge.

(s) "Soil erosion and sedimentation control enforcement agency" means the local agency appointed by the appropriate governmental subdivision to enforce the provisions of Act No. 347 of the Public Acts of 1972, being §282.101 et seq. of the Michigan Compiled Laws.

(t) "Structure" means anything constructed, erected, or to be moved to or from any premise which is located above, on, or below the ground, including, but not limited to, roads, signs, billboards, and mobile homes. A temporary recreational facility, including, but not limited to, tents, camper trailers, and recreation vehicles are not considered a structure.

(u) "Zoning administrator" means the administrator of these rules who is appointed by the natural resources commission.

(v) "Zoning permit" means a standard form issued by the zoning administrator, the issuance of which is conditioned upon a determination that the application and declaration by the owner, or his duly authorized agent, stating that the proposed construction and use of land and buildings and structures thereon, is in compliance with all provisions of these rules.

(w) "Zoning review board" means a group of 5 people, including 4 local representatives and 1 department of natural resources representative, appointed by the commission to act upon requests for special exceptions.

History: 1954 ACS 99, p. 25, Eff. May 8, 1979.

R 281.72 Purpose.

Rule 2. The commission, on its own motion, in order to implement the intent of Act No. 231 of the Public Acts of 1970, and in the absence of local zoning to protect the White river, a designated natural river, promulgates these zoning rules whose purposes are:

(a) To promote the public health, safety, and general welfare, to prevent economic and ecological damages due to unwise development patterns within the natural river district and to preserve the values of the natural river district for the benefit of present and future generations.

(b) To protect the free flowing conditions, fish and wildlife resources, water quality, scenic and aesthetic qualities, and historical and recreational values of the White river and adjoining land.

(c) To prevent flood damages due to interference with natural flood plain characteristics by excluding developments which are vulnerable to flood damages, and which may reduce the capacity of the floodway of the river to withstand flooding conditions.

(d) To provide for residential and other compatible permitted uses that complement the natural characteristics of the natural river system.

(e) To protect individuals from buying or developing lands which are unsuited for building purposes.

History: 1954 ACS 99, p. 26, Eff. May 8, 1979.

R 281.73 Boundaries; rules of construction; display and filing of zoning map; effect of zoning rules.

Rule 3. (1) The boundaries of the White river natural river district shall be as hereinafter described and as depicted on the certified White river natural river zoning map. The White river natural river district comprises that area described as follows:

(a) The mainstream of the White river from 8-Mile road, NW corner of section 28, T15N, R12W in Newaygo county downstream to US-31, Muskegon county, excluding the following: from the north city limit of White Cloud down to old M-20 west of the city, from the east city limit of Hesperia down to the west city limit and those portions within the city limits of Whitehall and Montague.

(b) Mullen creek from 6-Mile road downstream to White river.

(c) Five mile creek from Pine avenue downstream to White river.

(d) Flinton creek from Pine avenue downstream to Catalpa avenue.

(e) Wrights creek from Comstock road downstream to White river.

(f) Mena creek from Minnie lake dam downstream to White river.

(g) Martin creek from Warner avenue in section 2, T14N, R13W, downstream to White river.

(h) East branch Heald creek from Croswell road downstream to Martin creek.

(i) Braton creek from Wilkie road downstream to White river.

(j) Cushman creek from 192nd avenue downstream to White river.

(k) Skeels creek from 192nd avenue (Holton Duck Lake road) downstream to White river.

(l) North branch White river from 197th avenue downstream to White river.

(m) Robinson creek from Woodrow road downstream to North branch.

(n) Swinton and Osborn (Cobmoosa) creek from Filmore road downstream to North branch.

(o) Newman creek from 132nd avenue downstream to North branch.

(p) Knutson creek from Garfield road downstream to North branch.

(q) Sand creek from outlet of Dressler lake downstream to White river.

(r) Carlton creek from Arthur road downstream to White river.

(s) Mud creek from outlet of Heitman lake downstream to Carlton creek.

(t) Carleton (Lanford) creek from Walsh road downstream to White river.

(u) Silver creek from Silver creek road downstream to White river.

(v) Cleveland creek from Russell road downstream to White river.

(w) The lands lying within 300 feet of the river's edge enumerated in subdivisions (a) through (v).

(2) Certified copies of the White river natural river zoning map shall be filed with the local tax assessing officers and with the state tax commission, and additional display copies shall be provided to local offices in the White river area, including the following: county register of deeds; zoning administrator of these rules; local planning, zoning, and health officials; township and county clerks; local building inspector; local soil erosion and sedimentation control enforcement agencies; and the soil conservation service.

(3) These zoning rules do not repeal, abrogate, or impair any existing easements, covenants, or deed restrictions applicable to lands within the natural river district, except that where these rules impose greater restrictions than found on such easements, covenants, or deeds, the provisions of these rules shall prevail.

(4) These zoning rules do not permit actions prohibited by other statutes or ordinances, including zoning ordinances, applicable to the natural river district, therefor:

(a) All earth changing activities, other than normal landscaping or maintenance, undertaken within 500 feet of a lake or stream, are subject to provisions of Act No. 347 of the Public Acts of 1972, being §282.101 et seq. of the Michigan Compiled Laws.

(b) All dredge and fill activities and construction of permanent structures lying below the ordinary high water mark are subject to provisions of Act No. 346 of the Public Acts of 1972, being §281.951 et seq. of the Michigan Compiled Laws.

(c) All development and land uses in the White river natural river district are subject to provisions of appropriate local health codes and building codes, including requirements for permits and approvals.

(5) Where uncertainty exists with respect to the boundaries indicated on the White river natural river zoning map, the following rules shall apply:

(a) Boundaries indicated as approximately following streets or highways shall be construed to be the center lines of the streets or highways.

(b) Boundaries indicated as approximately following lot lines shall be construed as following such lot lines.

(c) Boundaries indicated as approximately following city, township, or county boundary lines shall be construed as following such city, township, or county boundary lines.

(d) Boundaries indicated as approximately following railroad lines shall be construed to be midway between the main tracks.

(e) Boundaries indicated as approximately parallel to the center lines of streets or highways shall be construed as being parallel thereto and at such distance therefrom as indicated on the official White river natural river zoning map. If no distance is given, the dimension shall be determined by the use of the scale shown on the official White river natural river zoning map.

(f) Boundaries following the shoreline of a river, stream, lake, or other body of water shall be construed to follow such shoreline and, in the event of change in the shorelines, shall be construed as moving with the actual shorelines; boundaries indicated as approximately following the thread of streams, canals, or other bodies of water shall be construed to follow such threads.

History: 1954 ACS 99, p. 28, Eff. May 8, 1979.

R 281.74 Zoning permits; application; additional requirements.

Rule 4. (1) A person shall not commence excavation, erection, alteration or repair for a building or structure, or commence a land use, until an application for a zoning permit has been secured from the zoning administrator. Alterations and ordinary maintenance made on dwellings which do not change the character of the structure or land use, and where the total cost does not exceed 5% of the market value of the structure in any 12-month period, are exempt from obtaining a zoning permit, but may be required to obtain a local building permit from the appropriate local building inspector.

(2) Application for a zoning permit shall be filed in writing with the zoning administrator. There shall be submitted with all applications for zoning permits:

(a) Two copies of a site plan giving accurate dimensions on either a scale drawing or a rough sketch and containing the following information:

(i) Location upon the lot of all existing and proposed structures.

(ii) Existing or intended use of the structure.

(iii) Generalized vegetative cover.

(iv) Lines and dimensions of the lot to be used.

(b) Evidence of ownership of all property affected by the coverage of the permit.

(c) Evidence that all required federal, state, county, and township licenses or permits have been acquired or that applications have been filed for the licenses or permits.

(d) Other information as may be required by the zoning administrator, and necessary to carry out the intent and provisions of these rules.

(3) One copy of both plans and specifications shall be filed and retained by the zoning administrator, and the other shall be delivered to the applicant when the zoning administrator has approved the application, completed the site inspection and issued the zoning permit. To insure that new land uses in the natural river district are in conformance with these rules, the applicant shall display a permit required by these rules face out within 24 hours of its issuance by placing it in a conspicuous place facing the nearest street or roadway and displaying it continuously until the purpose for which the permit was issued is completed. Failure to obtain and display a permit is a violation of these rules.

(4) Zoning permits are valid for 1 year and are not transferable. All buildings shall be completed within 1 year from date of issuance of the zoning permit. However, 1 extension may be authorized by the zoning administrator, in writing, for a period of time not to exceed 6 months. Any subsequent extensions must have the written approval of the zoning review board.

(5) Lots created after the effective date of these rules shall be of sufficient size to accommodate building setbacks and minimum lot widths as required by these rules.

History: 1954 ACS 99, p. 28, Eff. May 8, 1979.

R 281.75 Permitted uses.

Rule 5. (1) The following uses are permitted by the owner upon the owner's property within the natural river district, subject to limitations and requirements outlined in these zoning rules, local ordinances, and other applicable statutes:

(a) Private camping and other recreational activities not requiring installation of permanent structures, outside of the natural vegetation strip.

(b) Operation of watercraft subject to limitations of local ordinances established under authority of Act No. 303 of the Public Acts of 1967, being §281.1001 et seq. of the Michigan Compiled Laws.

(c) Fishing and hunting in compliance with existing laws and rules.

(d) Reforestation and other accepted forest management practices, subject to the limitations outlined in this rule.

(e) Normal agricultural activities, if those activities meet the requirements of these rules, and when the bureau of environmental protection of the department of natural resources determines that such activities do not contribute to stream degradation.

(f) Operation of licensed motor vehicles on dedicated public roads or access roads to private single-family dwellings.

(g) Off road operation of emergency and public utility maintenance vehicles.

(h) Private foot paths constructed by the landowner of natural materials to facilitate permitted uses.

(2) The following uses are permitted upon approval of the zoning administrator:

(a) One single-family dwelling and appurtenances on a lot not less than 200 front feet wide, subject to the following limitations:

(i) On the designated portions of the mainstream from 8-Mile road, NW corner of section 28, T15N, R12W, Newaygo county downstream to Lutes bridge (Baldwin road) T14N, R13W, Newaygo county and from Podunk bridge between sections 9 and 10, T13N, R15W, Oceana county downstream to US-31 in Muskegon county, the setback shall be 150 feet from the ordinary high water mark, except that for every foot of bank height above a minimum of 7 feet above the ordinary high water mark, the new structures may be placed 5 feet closer to the river to a minimum of 100 feet.

(ii) On the designated portion of the mainstream from Lutes bridge (Baldwin road) downstream to Podunk bridge and on all designated tributaries, the setback shall be 100 feet from the ordinary high water mark, except that for every foot of bank height above a minimum of 7 feet above the ordinary high water mark, the new structures may be placed 5 feet closer to the river, to a minimum of 75 feet.

(iii) New structures shall not be closer than 50 feet from the top of the bluff on the cutting edges of the river and tributaries.

(iv) Setback shall be not less than 15 feet from side lot lines and not less than 25 feet from the right-of-way of a public road.

(v) New structures shall not be located on land that is subject to flooding.

(b) Plats, if the minimum setbacks and lot width requirements specified in subdivision (a) are met.

(c) Private boat docks not to exceed 4 feet in width or 20 feet in length, with not more than 4 feet of the dock extending over the water, if designed, constructed, and maintained with indigenous natural materials.

(d) Mining and extractive industries more than 300 feet from the ordinary high water mark, if constructed and operated pursuant to applicable laws and rules of this state and local ordinances.

(e) Utility lines to service private single-family dwellings.

(f) Surface gas and utility lines on lands, or interest in real property continuously owned by a utility from and after January 1, 1971, subject to review and approval by the commission.

(g) Disposal fields and septic tanks located not less than 100 feet from the river's edge and in conformance with local county health codes and these rules. In addition, a septic tank or absorption field shall not be closer than 50 feet to any subsurface drainage system emptying into the White river or designated tributaries.

(h) Cutting, dredging, and filling of the land surface, unless the high ground water table is within 6 feet of the land surface, if the activities meet all provisions

of Act No. 347 of the Public Acts of 1972, and Act No. 346 of the Public Acts of 1972, being §282.101 et seq. and §281.951 et seq. of the Michigan Compiled Laws, and approval is granted by the local soil erosion and sedimentation control enforcement agency and the department.

(i) Signs and outdoor advertising devices shall be (A) related to permitted uses, (B) not more than 1 square foot in area for residential uses and not more than 4 square feet in area for any other uses, (C) not illuminated by any neon light or flashing device, and (D) not attached to any tree or shrub.

(j) Other uses for which an applicant is granted a permit by the zoning administrator according to R 281.77 and R 281.79.

History: 1954 ACS 99, p. 28, Eff. May 8, 1979.

R 281.76 Natural vegetation strip.

Rule 6. A restricted cutting belt 50 feet wide on each side of the stream shall be maintained on the White river mainstream and on designated tributaries. Trees and shrubs may be pruned for a filtered view of the river upon approval by the local zoning administrator or the area forester, but clear cutting in the natural vegetation strip is prohibited. The natural vegetation strip is also subject to the following provisions:

(a) Dead, diseased, unsafe, or fallen trees and noxious plants and shrubs, including poison ivy, poison sumac, and poison oak may be removed.

(b) Selective removal or trimming of trees for timber harvest, landscaping, or public utility facilities is permitted upon approval of the area forester or local zoning administrator.

History: 1954 ACS 99, p. 30, Eff. May 8, 1979.

R 281.77 Special exception permits.

Rule 7. (1) Special exception permits may be granted to allow a use in the natural river district that is not specifically permitted by R 281.75, where implementation of that use does not contravene the purposes of these rules as specified in R 281.72.

(2) If there is insufficient lot size or physical limitations on a lot existing on the date these rules become effective, which preclude a proposed structure from meeting all setback requirements, the zoning review board in issuing a special exception permit shall ensure that structures are located to best meet the objectives and purposes of these rules and the natural river act of 1970.

(3) Application for a special exception permit shall be made on a form provided by the zoning administrator.

(4) Upon reviewing an application for a special exception permit, the zoning review board, at any time prior to rendering a decision thereon, shall require the applicant to furnish any of the following information as is deemed necessary by the zoning review board for determining the suitability of the particular site for the proposed use:

(a) A detailed description of the proposed activity or use.

(b) A surface view plan giving accurate dimensions on either a scale drawing or a rough sketch showing elevations or contours of the ground, including existing earth fills; generalized vegetative cover; size; location, and spatial arrangement of all proposed and existing structures on the site; and the location and elevations of streets, access roads, and water supply and sanitary facilities.

(c) Photographs showing existing land uses and vegetation upstream and downstream from the proposed use.

(d) Valley cross sections showing the natural stream channel, streambanks, and high water marks, and flood marks, if known, with indication of locations of proposed developments.

(e) Any other information deemed relevant by the zoning administrator, and necessary to carry out the intent and provisions of these rules.

(5) Before considering applications, the zoning review board shall give notice by certified mail to all property owners and residents within 500 feet of the proposed use as shown on the current tax assessment rolls, and to local officials and department of natural resources personnel, including: township supervisor, township building inspector, county health officer, local soil erosion and sedimentation control enforcement agency, county and township planning and zoning officials, soil conservation service, and regional office and natural rivers section of the department of natural resources, and to any other interested parties who request that they be notified of such requests in the natural river district.

(6) In reviewing an application, the zoning review board shall consider all of the following:

(a) All relevant factors specified in these rules in light of the spirit and intent of the purposes specified in R 281.72.

(b) The economic effect of the subject property weighed in light of the applicant's entire contiguous holdings and not merely the portion within the natural river district. If the subject portion is the remainder of a larger holding this fact and a description of the title history shall be included in the hearing evidence.

(c) Increase in flood levels and flood damages that may be occasioned by the proposed use at the site and upstream and downstream from the site, water quality consequences, and other factors relevant within the terms of these rules.

(d) Cumulative effect upon the natural river district from potential development of holdings in a legal position similar to the applicant's, if applicant's request is approved by the zoning review board.

(e) Reasonable alternatives available to the applicant.

(7) In weighing the applicant's request, consideration of public health, safety, and welfare shall prevail, unless private injury is proved by substantial preponderance of the evidence to be so great as to override the public interest.

(8) A requested use shall not be granted where the zoning review board determines that the requested use poses substantial hazard to life or property rights either public or private.

(9) Where, by reason of the narrowness, shallowness, or shape of a lot or property at the effective date of these rules, the lot or property cannot accommodate a building because of the required building setback, a requested use shall be allowed only upon a consideration of the factors prescribed in subrule (3) of R 281.78. Such approval by the zoning review board shall provide that the structures shall be so placed as to best meet the spirit and objectives of the natural river act, Act No. 231 of the Public Acts of 1970, being §281.761 et seq. of the Michigan Compiled Laws.

(10) The zoning review board may require public hearings to be held regarding the application. The zoning review board shall decide on an application within 30 days after receiving the application; except that, where public hearings are held or additional information is required pursuant to subrule (4), it shall render a decision within 30 days following the hearings or upon receipt of the last requested information.

(11) The zoning review board shall attach such conditions to the granting of a special exception as are necessary to further the purposes of these rules.

(12) A special exception use shall adhere strictly to the terms of the special exception permit or the permit may be revoked.

History: 1954 ACS 99, p. 30, Eff. May 8, 1979.

R 281.78 Nonconforming uses.

Rule 8. (1) The lawful use of any land or structure existing on the effective date of these rules may be continued although the use does not conform to these rules.

(2) Routine or normal repairs and maintenance work required to keep a nonconforming structure or other use, such as a roadway, in sound condition are permitted. Remodeling of nonconforming structures within the confines of the existing foundation and elevations is permitted, as long as the structure is neither enlarged nor extended and complies with the requirements of subrule (4) of R 281.77.

(3) The granting of a special exception permit is required for the restoration of a nonconforming building or structure damaged or destroyed by more than 50% of its value due to flood, fire, or other means. In determining whether 50% of the value has been destroyed, the zoning review board shall use appraised replacement costs as determined by a qualified individual appointed by the zoning review board, and shall compare the value of the part destroyed to the value of the total operating unit where there are several buildings or structures which are used together by the landowner as a single operating unit. A request for restoration of a nonconforming building or structure damaged or destroyed by more than 50% of its value shall be approved if all of the following conditions exist:

(a) The land upon which it is situated is not subject to flooding.

(b) Continued use of a nonconforming building or structure would not lead to accelerated bank erosion or other material degradation of the river resource, and approval is granted by the local soil erosion and sedimentation control enforcement agency.

(c) The continued use conforms with local county health codes and approval is granted by the local county health department.

(d) The continued use conforms with local building codes and approval is granted by the local building inspector.

(e) Restoration of a damaged building or structure approved by the zoning review board shall be started within 1 year from the time of damage.

(4) A nonconforming use may be changed to a use of a like or similar character, provided the use conforms more closely to the rules of the natural river district.

(5) A nonconforming use of any land or structure may not hereinafter be enlarged or extended without the granting of a special exception permit upon consideration of the factors outlined in subrule (3) and subdivisions (a), (b), (c), (d), and (e) of this subrule. An enlargement or extension of a nonconforming use of up to 50% of the land area or the floor area of a residential structure or public accommodation providing overnight facilities not exceeding 12 units may be approved by the zoning review board if the owner submits to the zoning review board a detailed description of the proposed enlargement or extension together with a site plan showing the location of all new structures or uses, and upon a determination that all of the following conditions exist:

(a) The land upon which it is situated is not subject to flooding.

(b) The enlargement or extension of the nonconforming use does not lead to accelerated bank erosion or other material degradation of the river resource, and approval is granted by the local soil erosion and sedimentation control enforcement agency.

(c) The enlargement or extended use conforms with local county health codes and approval is granted by local county health department.

(d) The enlarged or extended use conforms with local building codes and approval is granted by local building inspector.

(e) The enlarged or extended use does not contravene the purposes of these rules as specified in R 281.72.

(6) Substitution of nonconforming structures with new conforming structures may be made, but the granting of a special exception permit upon consideration of the factors outlined in subrule (5) is required to ensure that the changed use conforms as closely as possible to the purposes of these rules as specified in R 281.72.

(7) If a nonconforming use is discontinued for 12 consecutive months, any future use at that site shall conform to these rules.

(8) A property owner may request the zoning review board to certify the existence of a prior nonconforming use on the owner's property, which certification shall be granted if a use meets the criteria of this rule and the common law criteria of nonconforming uses of this state.

History: 1954 ACS 99, p. 31, Eff. May 8, 1979.

R 281.79 Appeals; contested cases.

Rule 9. Any aggrieved party which contests a decision of the zoning administrator or zoning review board shall be granted a hearing if a petition is filed with the director within 60 days after the designation letter or the notice of disapproval is received. The hearing shall be conducted in accordance with the provisions for contested cases in Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws and in R 299.3071 to R 299.3081 of the rules entitled "Department Organization and General Functions."

History: 1954 ACS 99, p. 32, Eff. May 8, 1979.

R 281.80 Zoning administrator and zoning review board; appointment and duties.

Rule 10. The commission shall appoint a zoning administrator and a zoning review board to act as its agent to enforce these rules, including the receiving and processing of applications for zoning permits, special exception permits, petitions for appeals, requests for changes, amendments, or supplements, inspection of sites and issuance or denial of zoning permits, as outlined in these rules, or other matters the commission is required to decide.

History: 1954 ACS 99, p. 32, Eff. May 8, 1979.

R 281.81 Violations.

Rule 11. (1) An alleged violation shall be inspected by the staff of the department and, if it is found that a violation exists, the department shall order the applicant, in writing, to correct conditions found to be in violation of these rules.

(2) Any construction or a use of land or premises, in violation of these rules may be subject to the provisions of section 13 of Act No. 231 of the Public Acts of 1970, being §281.773 of the Michigan Compiled Laws.

History: 1954 ACS 99, p. 32, Eff. May 8, 1979.

R 281.82 Changes, amendments, and supplements to boundaries and permitted uses.

Rule 12. (1) The commission may make changes, amendments, and supplements to boundaries and to permitted uses requested by a local unit of govern-

ment or by a landowner where implementation of the change does not contravene the purposes of these rules as specified in R 281.72.

(2) A local unit of government or a landowner who requests a change, amendment, or supplement to the boundaries or to permitted uses shall have a hearing held pursuant to sections 71 to 87 of Act No. 306 of the Public Acts of 1969.

(3) Copies of any changes, supplements to boundaries, or adopted amendments shall be sent to the county register of deeds, the zoning administrator of these rules, local planning, zoning, and health officials, township and county clerks, the local building inspector, and local soil erosion and sedimentation control enforcement agencies, and the soil conservation service.

(4) Upon approval by the commission of a local zoning ordinance meeting all requirements of Act No. 231 of the Public Acts of 1970, and of either Act No. 183 of the Public Acts of 1943, as amended, being §§125.271 to 125.301 of the Michigan Compiled Laws, or Act No. 184 of the Public Acts of 1943, as amended, being §§125.201 to 125.232 of the Michigan Compiled Laws, whichever is applicable, the adopted local ordinance shall take precedence over these rules. Upon withdrawal of commission approval of a local zoning ordinance or if the local ordinance becomes inapplicable to the land area encompassed by the White river natural river district through court action or by any other reason, these rules shall apply.

History: 1954 ACS 99, p. 32, Eff. May 8, 1979.

NATURAL RESOURCES COMMISSION

UTILITIES AND PUBLICLY PROVIDED FACILITIES IN DESIGNATED NATURAL RIVER AREAS

(By authority conferred on the natural resources commission by section 15 of Act No. 231 of the Public Acts of 1970, being §281.775 of the Michigan Compiled Laws)

R 281.301 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 231 of the Public Acts of 1970, being §281.761 et seq. of the Michigan Compiled Laws.

(b) "Adopted natural river plan" means the river management plan adopted by the commission at the time of designation.

(c) "Applicant" means a person, company, or unit of government applying for project approval pursuant to these rules.

(d) "Commission" means the natural resources commission.

(e) "Department" means the department of natural resources.

(f) "Electric transmission line" means those conductors which operate above 30 kv, their necessary supporting or containing structures located outside of buildings, and the right-of-way used for transmitting a supply of electric energy.

(g) "Natural river" means a river which has been designated by the commission for inclusion in the wild, scenic, and recreational rivers system.

(h) "Natural river area" means the river, its bed, banks, and all lands lying within 400 feet of the river's edge of the designated river.

(i) "Natural vegetation strip" means an area not more than 100 feet wide on either side of, and parallel to, the river, where native vegetation is maintained to enhance the natural character of the river.

(j) "Ordinary high-water mark" means the line between upland and bottomland which persists through successive changes in water levels, below which the presence and action of the water is so common or recurrent that the character of

the land is marked distinctly from the upland and is apparent in the soil itself, the configuration of the surface of the soil, and the vegetation. On an inland lake which has a level established by law, it means the high established level. Where water returns to its natural level as a result of the permanent removal or abandonment of a dam, it means the natural ordinary high-water mark.

(k) "Person" means any individual, partnership, corporation, association, political subdivision of the state, the department or other instrumentality or agency of the state, political subdivision thereof or other legal entity.

(l) "Pipeline" means any pipeline, including flow lines and transmission lines used to transport oil, gas, brine, sewage, or water, or conduits for electricity or communications from one facility to another, including the right-of-way within which such facilities are located.

(m) "Publicly provided facility" means a facility provided by a public agency, including a federal, state, county, township, municipality, or other agency.

(n) "River's edge" means ordinary high-water mark.

(o) "Road" means any right-of-way that is provided for public motorized traffic.

(p) "Utility" means any commercial entity which provides a public service, such as electric, communications, sewage, oil, gas, or water service.

History: 1954 ACS 101, p. 22, Eff. Dec. 14, 1979.

R 281.302 Plans; application for approval; approval or denial within 60 days; exception.

Rule 2. Plans for construction, enlargement, and site or route location of all utility pipelines and transmission lines, roads and road rights-of-way, publicly provided recreation facilities, access sites, and public water management projects within a natural river area shall be approved by the department. An application for the approval of such plans shall be submitted by the applicant, in writing, to the department. Approval or denial by the department shall be made within 60 days of receipt of the complete application, except where a public informational meeting is held pursuant to R 281.304(3).

History: 1954 ACS 101, p. 23, Eff. Dec. 14, 1979.

R 281.303 Application for approval; contents.

Rule 3. An application shall include all of the following:

(a) Plans showing the proposed project or right-of-way in relation to the natural river area, the adjacent shoreline property and existing land uses within 500 feet of the proposed project and existing structures, existing utilities, pipelines, roads, and contour information depicting the topography of the site.

(b) Plans showing prudent, feasible alternative routes or locations, and the reasons the route or site on the application was selected.

(c) The names and addresses of riverfront property owners within 500 feet of the proposed project as shown on the current tax assessment rolls.

(d) Other information which the department determines is necessary to complete an assessment of the proposed project.

History: 1954 ACS 101, p. 23, Eff. Dec. 14, 1979.

R 281.304 Notice of application; permit application; copies; pre-filing conference; public informational meeting.

Rule 4. (1) Within 10 days of the receipt of a completed application, the department shall give notice of the application to all riverfront property owners within 500 feet of the proposed use, as shown on the current tax assessment rolls,

the respective clerks of the county and township in which the proposed use is to be located, the local soil erosion and sedimentation control enforcing agency, the local soil conservation district, and the local watershed council organized under either Act No. 253 of the Public Acts of 1964, being §323.301 et seq. of the Michigan Compiled Laws, or Act No. 200 of the Public Acts of 1957, being §123.631 et seq. of the Michigan Compiled Laws, if any.

(2) An applicant is encouraged to have a pre-filing conference with representatives of the department and other appropriate state and local officials prior to formal submission of their application.

(3) The department may hold a public informational meeting on an application, upon written request of the general public or of 1 of those persons listed in subrule (1), within 30 days of the department's receipt of the complete application, when a proposed project appears to be controversial, or where additional information is desired prior to action by the department. If the department determines a public informational meeting shall be held, it shall be scheduled within 60 days of the department's receipt of a complete application. The department shall make a determination within 30 days following the meeting. All notification requirements of subrule (1) also apply to public informational meetings.

(4) The department shall coordinate and take into consideration any responses or constructive suggestions offered by the general public and those agencies and persons identified in subrule (1).

History: 1954 ACS 101, p. 23, Eff. Dec. 14, 1979.

R 281.305 Application; review.

Rule 5. (1) The following general considerations shall be weighed when reviewing an application:

(a) Effect on the environmental factors and ecological systems involved, such as effect on adjacent lands, waters, aesthetics, wildlife, fisheries, recreational, floodplain, vegetation, and historic and archaeological values.

(b) Cumulative effect upon the natural river area from similar potential developments.

(c) Alternatives available to the applicant.

(d) Secondary effects likely to be caused or encouraged by the project, such as off-road vehicle use, horseback riding, or additional foot access which may lead to noise, erosion, water pollution, or disruption of aesthetic qualities.

(e) Economic factors relating to costs of right-of-way acquisition, construction, and maintenance, and the need for additional facilities or resource protection measures in the approximate area in the future.

(f) All other factors relevant to the purposes and provisions of these rules.

(2) In addition to the general considerations, the following specific requirements shall apply:

(a) Approval for rights-of-way shall be based upon the following:

(i) Alternative routes available to the applicant.

(ii) Proximity of existing rights-of-way, which the proposed facility could share or be located adjacent to.

(iii) The narrowest width right-of-way necessary to facilitate construction and maintenance of the pipeline, transmission line, or road shall be used. The forest management division guidelines, utilities, pipelines and communication structures on state land, which are available by writing the Forest Management Division, Department of Natural Resources, P.O. Box 30028, Lansing, Michigan 48909, shall be followed.

(iv) Capacity of new pipelines, transmission lines, and roads to accommodate projected or anticipated future needs in that area to reduce the need for additional future crossings.

(b) Approval of a plan for site location and design of publicly provided recreation facilities, access sites, publicly developed water management projects, or other structures shall be based upon all of the following:

(i) The adopted natural river plan.

(ii) Site location shall be in accordance with the adopted natural river plan.

(iii) A site plan shall be developed so as to take advantage of existing topography and vegetation to minimize the impact of facilities on the natural character of the area.

(iv) Alteration of existing topography shall be kept to a minimum, as provided for in the approved site plan.

(v) Removal of trees, shrubs, and other vegetation in the natural river area shall be in accordance with the adopted natural river plan.

(vi) A plan shall incorporate the use of materials that blend with the natural setting. Dark roof areas, muted earth tone paints or stains, and low silhouettes are considered desirable.

(vii) A proposed use shall be constructed and maintained so that it does not lead to accelerated bank erosion or degradation of the river resources.

(viii) When replacing an existing bridge or culvert, or constructing a new road crossing over a designated natural river, a structure to accomplish the road crossing shall be designed to maximize the purpose and objectives of the natural river act. In reviewing an application, the department shall consider the anticipated effects of the structure on any portion of the natural river area, and shall consider all of the factors outlined in subrule (1)(a) to (f).

History: 1954 ACS 101, p. 24, Eff. Dec. 14, 1979.

R 281.306 Construction and maintenance of approved projects; applicable requirements and specifications.

Rule 6. (1) Construction and maintenance of approved projects shall follow all applicable requirements and specifications set forth in R 281.811 to R 281.846, R 323.1701 to R 323.1714, R 460.511 to R 460.519, R 460.521 to R 460.529, R 460.540 to R 460.548, R 460.588, R 460.852, R 460.865, R 460.1251 to R 460.1422, R 460.2804 to R 460.2879, R 323.1311 to R 323.1329, and R 460.14001 to R 460.14999 of the Michigan Administrative Code. The forest management division guidelines, utilities, pipelines and communication structures on state land, which are available by writing the Forest Management Division, Department of Natural Resources, P.O. Box 30028, Lansing, Michigan 48909, shall be followed.

(2) The department, in addition to the above requirements, may require other reasonable measures to further protect the natural river environment, including the following as are deemed appropriate and necessary:

(a) Upon reaching the natural vegetation strip during clearing operations for overhead electric transmission line, communication line, and pipeline rights-of-way, tall-growing tree species may selectively be removed. Shrubs, low-growing tree species with a mature height of less than 20 feet, and other vegetation shall be left as natural as possible. Following construction, special measures may be required to discourage damaging off-road vehicle use, enhance wildlife habitat, or protect against soil erosion. The department may require that the right-of-way be left in a rough, ungraded condition and that slash and stumps be scattered over the right-of-way or made into brush piles, if landowner concurrence is obtained.

(b) A single-span stream crossing shall be used wherever possible, which shall be consistent with proper vertical clearance of the wires over the waterway and proper structure height for minimal adverse visual impact. This will result in poles being placed as far landward of the river banks as possible.

(c) If an underground utility right-of-way crosses the natural vegetation strip, only minimal brush and tree removal shall be performed during construction. Following construction, special measures may be required to restore the natural appearance of the area, stabilize river banks, discourage damaging off-road vehicle use, or enhance wildlife habitat. If revegetation is required, native plant materials commonly used in that area, as specified by the department, shall be replanted in the natural vegetation strip. The department may require that the right-of-way be left in a rough, ungraded condition and that slash and stumps be scattered over the right-of-way or made into brush piles, if landowner concurrence is obtained.

(d) Management of trees, shrubs, and other vegetation for maintenance of all rights-of-way shall be done manually in the natural vegetation strip. However, herbicides may be applied by hand to stumps of selectively cut trees in the natural vegetation strip, where establishing and maintaining a low-growing shrub community in this zone will further the objectives of the act. The department may authorize application of selected pesticides to control insect or disease infestations.

(e) The time and method of planting recommended vegetation shall be specified by the department to ensure maximum survival and growth of plant species.

(f) The stream shall be crossed by a method of construction which minimizes disruption to the streambed. Streams should be crossed at the point and time least damaging to fishery resources, and generally at right angles. If aerial crossings are used, they shall be designed to accommodate recreational use of the river in addition to protection of the streambanks.

(g) Materials used for bank stabilization following a river crossing shall maintain and enhance the natural and aesthetic qualities of the natural river area, control bank erosion, restore fish habitat, and discourage damaging off-road vehicle use. Specifications regarding stabilization efforts and revegetation shall be consistent with the goals of maintaining stream width as near as possible to the original width, and to provide early revegetation of the area involved.

(h) During construction for a new road or bridge, or reconstruction of an existing road or bridge, strict erosion control measures shall be taken to prevent sediment from reaching the river. Only minimal clearing of existing vegetation, grubbing, and grading shall be performed in the natural river area. The construction area shall be restored to as natural a condition as possible in the natural river area immediately following construction.

(i) Where bank stabilization is needed to stabilize a bank along a road or at bridge crossings, materials shall be used that insure the maintenance and enhancement of the natural and aesthetic qualities of the natural river area.

(j) All of the following apply to publicly provided recreation and water management projects and access site facilities:

(i) Construction or maintenance of these projects shall follow the recommendations of the adopted natural river plan.

(ii) Only minimal removal of existing vegetation within the natural river area shall be performed.

(iii) The time and method of planting recommended vegetation shall be specified by the department to ensure maximum survival and growth of plant species.

R 281.511 Scope.

Rule 1. These rules are promulgated for the purpose of implementing Act No. 257 of the Public Acts of 1952, as amended, being §§281.561 to 281.569 of the Michigan Compiled Laws, hereinafter referred to as the act.

History: 1954 ACS 54, p. 24, Eff. May 15, 1968.

R 281.512 Inspection of watercraft and equipment.

Rule 2. Watercraft subject to the act shall be:

(a) Of sound and substantial construction and in good seaworthy condition.

(b) Equipped by the livery operator with oars or paddles, as hereinafter provided, which shall be of sturdy construction and without holes, large chips, or cracks which will diminish their operation effectiveness, or structural strength. This subdivision applies to all watercraft, including those propelled by machinery or sail. Watercraft with oarlock sockets shall be equipped with not less than 2 oars and 2 oarlock horns. Watercraft without oarlock sockets shall be equipped with not less than 2 paddles.

(c) Equipped by the livery operator with an anchor of sufficient size and weight and an anchor line of sufficient strength and length to accommodate the watercraft in normal depth of the waters on which it is to be used. This requirement does not apply to canoes.

(d) Equipped by the livery operator with 1 life-saving cushion or other approved life-saving device, in good condition, per person. Life-saving equipment shall be of the type approved by the U.S. Coast Guard and shall bear a stamp or label indicating such approval. Other equipment currently prescribed by law shall also be carried on board.

(e) Provided with sufficient buoyancy to keep the watercraft from sinking when it is filled with water and passengers are clinging to it if the aggregate weight of motor, passengers, and equipment carried in or attached to the watercraft does not exceed its maximum weight capacity, as determined by the maximium weight capacity formula contained in these rules. This requirement shall not become effective until January 1, 1973, except that watercraft newly placed in operation after January 1, 1970, shall meet this requirement.

(f) Pontoon boats shall meet the following deck requirements:

(i) The deck shall not exceed the width at the pontoons.

(ii) The deck shall not be greater than 6 inches above the pontoons.

(iii) The deck length within railings shall not be greater than 80% of pontoon length and shall not overhang the pontoons.

(iv) The deck shall drain freely.

History: 1954 ACS 54, p. 24, Eff. May 15, 1968; 1954 ACS 59, p. 11, Eff. Aug. 14, 1969.

R 281.513 Maximum capacity tags generally.

Rule 3. The sheriff of each county or any peace officer duly authorized by him shall issue to the owner, for each watercraft, a maximum capacity tag. This tag shall be placed by, or in the presence of, the inspecting officer on the watercraft in such a location and manner as to be clearly visible and legible from the position designed or normally intended to be occupied by the operator of the watercraft when underway.

History: 1954 ACS 54, p. 25, Eff. May 15, 1968.

R 281.514 Maximum capacity tags; watercraft for use with outboard motors.

Rule 4. The capacity tag for a watercraft for use with an outboard motor shall contain:

(a) The total weight of persons, motor, gear, and other articles placed aboard which the watercraft is capable of carrying with safety under normal conditions.

(b) The recommended number of persons commensurate with the weight capacity of the watercraft at a presumed weight of 150 pounds per person.

(c) The maximum horsepower of the motor the watercraft is designed or intended to accommodate.

(d) A notice that the information appearing on the capacity tag applies under normal conditions and that the weight of the outboard motor and its associated equipment is considered to be part of the weight capacity.

History: 1954 ACS 54, p. 25, Eff. May 15, 1968.

R 281.515 Maximum capacity tags; watercraft not for use with outboard motors.

Rule 5. The capacity tag for a watercraft not for use with an outboard motor, such as a canoe, rowboat, inboard boat, or inboard-outboard boat shall contain:

(a) The total weight of persons, gear, and other articles placed aboard which the watercraft is capable of carrying with safety under normal conditions.

(b) The recommended number of persons commensurate with the weight capacity of the watercraft at a presumed weight of 150 pounds per person.

(c) A notice that the information appearing on the capacity plate applies under normal conditions.

History: 1954 ACS 54, p. 25, Eff. May 15, 1968.

R 281.516 Weight capacity.

Rule 6. (1) The capacity tag shall contain the weight capacity of the watercraft determined as hereinafter provided.

(2) The weight capacity of a watercraft for use with an outboard motor, except a watercraft dependent solely upon the buoyancy of pontoons or similar flotation devices, shall be determined by either of the following methods:

(a) The formula WC=7½ LBD, where WC is the weight capacity in pounds, L is the centerline length, B is the maximum beam amidships, and D is the effective depth figured from keel to lowest freeboard.

(b) Reference to the manufacturer's capacity tag installed in a watercraft if manufactured or offered for original sale in this state on or after January 1, 1968, or in accordance with standards approved by the state waterways commission.

(3) The weight capacity of a watercraft with a permanently installed engine, except watercraft dependent solely upon the buoyancy of pontoons or similar flotation devices, shall be determined in the same manner as for watercraft for use with outboard motors, except that the weight of all machinery and associated operating gear including battery, fuel, and fuel system shall be subtracted.

(4) The weight capacity of a watercraft dependent solely upon the buoyancy of pontoons or similar flotation devices shall be determined by applying the formula WC=[(62½V)−Boat Wgt.]÷2, where WC is the weight capacity of the watercraft, and V is the volume of both pontoons. If equipped with a permanently installed engine, the weight of all machinery and associated operating gear including battery, fuel, and fuel system shall be subtracted from the weight capacity.

(5) The weight capacity of a rowboat and any other watercraft for use without an outboard motor shall be determined in the same manner as for a watercraft for use with an outboard motor, following the formula expressed as WC=7½ LBD.

(6) The weight capacity of a canoe shall be determined by the formula WC=7½ LBD x 2.

(7) The livery operator shall provide the inspecting officer with information relative to the weight of the watercraft either by reference to the manufacturer's rating or by actual weighing of the watercraft.

History: 1954 ACS 54, p. 25, Eff. May 15, 1968; 1954 ACS 59, p. 11, Eff. Aug. 14, 1969.

R 281.517 Horsepower capacity.

Rule 7. The horsepower capacity of an outboard watercraft, excepting canoes or pontoon craft, shall be determined by either of the following methods:

(a) The horsepower capacity of an outboard watercraft, other than a canoe, and except one dependent solely upon the buoyancy of pontoons or similar flotation devices, shall not exceed the value given by the boat horsepower table in figure 1. The horsepower capacity of an outboard watercraft, other than a canoe, and dependent solely upon the buoyancy of pontoons or similar flotation devices shall not exceed the value given by multiplying the cubic feet of flotation in the pontoons by the pontoon length in feet and dividing by the pontoon diameter in inches. If the pontoons are not circular in cross-section, the diameter of the largest circle that can be inscribed in the pontoon shall be used.

(b) By reference to a manufacturer's capacity plate installed in a watercraft, if manufactured or offered for original sale in this state on or after January 1, 1968, or in accordance with standards approved by the state waterways commission, or the horsepower capacity recommended by the livery operator, whichever is the lesser.

FIGURE 1

Boat Horsepower Table

Multiply overall length ____ x stern width ____ = Factor

(both measurements in decimal feet) (nearest whole number)

	Remote steering and 20" or equivalent	No remote steering or transom less than 20" or equivalent
Factor is: under 40 40-45 46-49 50-53 54-57	over 57	over 57
H.P. Cap. is 5 10 15 20 25	(2 x Factor)—90	(¾ Factor)—20

same meaning when used in the rules prescribing special local watercraft controls, whether such rules were promulgated before or after this rule becomes effective.

History: 1954 ACS 62, p. 5, Eff. May 18, 1970.

R 281.700.2 "Airboat" defined.

Rule 2. As used in these rules, "airboat" means a vessel or contrivance, other than a conventional seaplane, helicopter, or autogiro, that makes use of motor-powered propeller, air vane, or other aerostatic force to support or propel, or both to support and propel, the vessel on or over the surface of the water.

History: 1954 ACS 74, p. 49, Eff. Dec. 22, 1972.

R 281.700.3 High-speed boating and water skiing prohibited; time.

Rule 3. (1) On the waters of this state where special local watercraft controls have been established prohibiting high-speed boating and water skiing from 6:30 p.m. to 10:00 a.m. of the following day, the hours shall be 7:30 p.m. to 11:00 a.m. of the following day when and where eastern daylight saving time is in effect.

(2) "Daylight saving time" means the advancing of the standard time by 1 hour, commencing at 2 o'clock antemeridian on the last Sunday of April of each year and ending at 2 o'clock antemeridian on the last Sunday of October of each year in conformity with the federal uniform time act of 1966.

History: 1954 ACS 80, p. 7, Eff. July 18, 1974.

Regulation No. 1, Alcona county.

R 281.701.1 Crooked lake; high-speed boating and water skiing prohibited.

Rule 1. On the waters of Crooked lake, sections 17 and 18, town 27 north, range 5 east, Mitchell township, Alcona county, it is unlawful to:

(a) Operate a vessel at high speed, or

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 43, p. 5, Eff. Aug. 14, 1965; 1954 ACS 77, p. 9, Eff. Oct. 4, 1973.

R 281.701.2 McCollum lake; hours for water skiing.

Rule 2. On the waters of McCollum lake, county of Alcona, state of Michigan, no operator of any motorboat shall have in tow or shall otherwise be assisting in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance during the period from 6:30 p.m. to 10:00 a.m. of the following day. (See R 281.768.2 for regulation covering the part of this lake lying in Oscoda county.)

History: 1954 ACS 43, p. 6, Eff. Aug. 14, 1965.

R 281.701.3 Rescinded.

Regulation No. 2, Alger county.

R 281.702.1 AuTrain river; slow—no wake speed zone.

Rule 1. On the waters of the AuTrain river, in the north ½, section 32 and the northwest ¼, section 33, T47N, R20W, AuTrain township, Alger county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 79, p. 18, Eff. Apr. 17, 1974.

R 281.702.2 AuTrain river; slow—no wake speed zone.

Rule 2. On the waters of the AuTrain river in section 5, T46N, R20W, AuTrain township, Alger county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 79, p. 18, Eff. Apr. 17, 1974.

R 281.702.3 Cleveland Cliffs basin, AuTrain river; seasonal prohibition of motorboats.

Rule 3. On the waters of the Cleveland Cliffs basin, AuTrain river, in the south ½ of section 25 and section 36, T45N, R21W, and the south ½ of section 30 and section 31, T45N, R20W, Limestone and AuTrain townships, Alger county, it is unlawful to operate a motorboat during September, October, and November.

History: 1954 ACS 79, p. 18, Eff. Apr. 17, 1974.

Regulation No. 3, Allegan county.

R 281.703.1 Kalamazoo river, Saugatuck township; no wake speed.

Rule 1. On the waters of the Kalamazoo river, located in Saugatuck township, Allegan county, state of Michigan, extending from the entrance piers of Lake Michigan, southerly to a line extending westward from the south side of Mason Street, village of Saugatuck, across the Kalamazoo river, all watercraft shall proceed at a speed so as not to create a wake.

History: 1954 ACS 43, p. 6, Eff. Aug. 14, 1965.

R 281.703.2 Saugatuck harbor; lights.

Rule 2. All watercraft, other than vessels whose lighting requirements are presently covered by existing state or federal laws or regulations, used on the waters of Saugatuck harbor shall, during hours of darkness or low visibility, display 1 white light visible through an arc of 360 degrees and of such intensity as to be visible on a dark night with a clear atmosphere at a distance of at least 1 mile.

History: 1954 ACS 43, p. 6, Eff. Aug. 14, 1965.

R 281.703.3 Big lake; hours for high-speed boating and water skiing.

Rule 3. On the waters of Big lake, Watson township, Allegan county, state of Michigan, no operator of any motorboat shall operate such motorboat at high speed or have in tow or shall otherwise be assisting in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance during the period from 6:30 p.m. to 10:00 a.m. of the following day.

History: 1954 ACS 43, p. 6, Eff. Aug. 14, 1965.

R 281.703.4 Selkirk lake; hours for high-speed boating and water skiing; obstructing channel.

Rule 4. (1) On the waters of Selkirk lake, township of Wayland, county of Allegan, state of Michigan, no operator of any motorboat shall, during the period from 6:30 p.m. to 10:00 a.m. of the following day:

(a) Operate such motorboat at high speed.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, water sled, surfboard, or other similar contrivance.

(2) On the waters of the channel connecting Selkirk lake to the north bay of Selkirk lake, township of Wayland, county of Allegan, state of Michigan, no person shall anchor any vessel or otherwise obstruct such channel during the period from 10:00 a.m. to 6:30 p.m. of any day.

History: 1954 ACS 43, p. 6, Eff. Aug. 14, 1965.

R 281.703.5 Ely lake; motorboats prohibited.

Rule 5. On the waters of Ely lake, Clyde township, Allegan county, state of Michigan, no person shall operate or give permission for the operation of any motorboat.

History: 1954 ACS 45, p. 5, Eff. Feb. 14, 1966.

R 281.703.6 East lake; high-speed boating and water skiing prohibited.

Rule 6. On the waters of East lake, township of Hopkins, county of Allegan, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 53, p. 5, Eff. Feb. 14, 1968.

R 281.703.7 Round lake; high-speed boating and water skiing prohibited.

Rule 7. On the waters of Round lake, section 10, town 4 north, range 11 west, Leighton township, Allegan county, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 66, p. 5, Eff. Jan. 4, 1971.

R 281.703.8 Goshorn lake; slow—no wake speed.

Rule 8. On the waters of Goshorn lake, section 3, town 3 north, range 16 west, Saugatuck township, and section 34, town 4 north, range 16 west, Laketown township, Allegan county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 69, p. 29, Eff. Nov. 1, 1971.

R 281.703.9 Wetmore lake; high-speed boating and water skiing prohibited.

Rule 9. On the waters of Wetmore lake, section 3, T2N, R13W, Allegan township, Allegan county, it is unlawful for the operator of a vessel to:

(a) Operate a vessel at high speed.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 100, p. 69, Eff. June 20, 1979.

R 281.703.10 Dumont lake; hours for high-speed boating and water skiing.

Rule 10. On the waters of Dumont lake, sections 32 and 33, T3N, R13W, Monterey township, and sections 4 and 5, T2N, R13W, Allegan township, Allegan

county, it is unlawful, during the period of May 15 to September 15, on Saturdays, Sundays, Memorial day, Independence day, and Labor day, except between the hours of 10:00 a.m. and 6:30 p.m., to:

(a) Operate a vessel at high speed, which means a speed at or above which a motorboat reaches a planing condition.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 89, p. 6, Eff. Nov. 26, 1976.

R 281.703.11 Hutchins lake; hours for high-speed boating and water skiing.

Rule 11. On the waters of Hutchins lake, sections 6 and 7, T2N, R15W, Clyde township, and sections 1 and 12, T2N, R16W, Ganges township, Allegan county, an operator of a motorboat, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, shall not:

(a) Operate the motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 89, p. 7, Eff. Oct. 14, 1976.

Regulation No. 4, Alpena county.

R 281.704.1 Thunder Bay river and floodwaters; slow—no wake speed.

Rule 1. On the waters of the Thunder Bay river and floodwaters from the west line of section 21, town 31 north, range 8 east, downstream and 300 feet in any direction from the mouth in Lake Huron, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 76, p. 6, Eff. June 20, 1973.

Regulation No. 5, Antrim county.

R 281.705.1 Rivers and channels; slow—no wake speed.

Rule 1. On the following rivers and channels, county of Antrim, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed:

(a) Clam river from Torch lake to Clam lake.
(b) Grass river from Clam lake to lake Bellaire.
(c) Intermediate river from lake Bellaire to Intermediate lake.
(d) Channel connecting Intermediate lake to Hanley lake.
(e) Channel connecting Hanley lake to Benway lake.
(f) Channel connecting Benway lake to Wilson lake.
(g) Channel connecting Wilson lake to Ellsworth lake.
(h) Channel connecting Ellsworth lake to St. Clair lake.

History: 1954 ACS 43, p. 6, Eff. Aug. 14, 1965.

R 281.705.2 Torch river and Torch lake adjacent to its mouth; slow—no wake speed.

Rule 2. On the waters of the Torch river, sections 6, 7, and 18, town 28 north, range 8 west, township of Milton, county of Antrim, from the south line of section 18, town 28 north, range 8 west, to the north end of the river and for a distance of 300 feet in any direction in Torch lake, an operator of a vessel shall not exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal. (See R 281.740.8 for regulation covering the part of this river and adjacent lake lying in Kalkaska county.)

History: 1954 ACS 69, p. 29, Eff. June 15, 1971.

R 281.712.5 Craig lake, south part, and channel connecting Craig and Morrison lakes; slow—no wake speed.

Rule 5. On the waters of the south part of Craig lake and the channel connecting Craig lake and Morrison lake, section 32, town 5 south, range 6 west, township of Girard, county of Branch, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 62, p. 5, Eff. May 18, 1970.

R 281.712.6 Lake Lavine; high-speed boating and water skiing hours.

Rule 6. On the waters of Lake Lavine, sections 17, 18, 19 and 20, town 8 south, range 6 west, Kinderhook township, Branch county, state of Michigan, no operator of any motorboat, during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 66, p. 6, Eff. Jan. 14, 1971.

R 281.712.7 Dragon lake; high-speed boating and water skiing prohibited.

Rule 7. On the waters of Dragon lake, sections 5 and 8, town 8 south, range 6 west, Kinderhook township, Branch county, it shall be unlawful to:

(a) Operate a vessel at high speed, which means a speed at or above which a vessel reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 68, p. 7, Eff. Aug. 26, 1971.

R 281.712.8 Marble lake, south part; slow—no wake speed.

Rule 8. On the waters of Marble lake lying south of townline 7 south, in Algansee township, Branch county, it is unlawful for an operator of a vessel, when within 200 feet of any shoreline or island, to exceed a slow—no wake speed.

History: 1954 ACS 71, p. 16, Eff. Apr. 28, 1972.

R 281.712.9 Lake George; hours for high-speed boating and water skiing.

Rule 9. On the waters of Lake George, sections 16, 21 and 22, town 8 south, range 6 west, Kinderhook township, Branch county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 71, p. 16, Eff. Apr. 28, 1972.

R 281.712.10 Coldwater river in Girard township; slow—no wake speed.

Rule 10. On the waters of the Coldwater river, sections 29 and 30, town 5 south, range 6 west, Girard township, Branch county, from Craig lake upstream to Hodunk road, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 71, p. 17, Eff. Apr. 28, 1972.

Regulation No. 18, Clare county.

R 281.718.1 Budd and Little Long lakes.

Rule 1. On the waters of Budd lake and Little Long lake, city of Harrison and township of Hayes, Clare county, state of Michigan, no operator of any motorboat shall, during the period from 6:30 p.m. to 10:00 a.m. of the following day:

(a) Operate such motorboat at high speed.

(b) Have in tow or shall otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 43, p. 7, Eff. Aug. 14, 1965.

R 281.718.2 Long lake.

Rule 2. On the waters of Long lake, Frost township, county of Clare, state of Michigan, no operator of any motorboat shall, during the period from 6:30 p.m. to 10:00 a.m. of the following day:

(a) Operate such motorboat at high speed.

(b) Have in tow or shall otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 43, p. 8, Eff. Aug. 14, 1965.

R 281.718.3 Blue Gill lake.

Rule 3. On the waters of Blue Gill lake, Frost township, county of Clare, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed.

(b) Have in tow or shall otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 43, p. 8, Eff. Aug. 14, 1965.

R 281.718.4 Silver lake; hours for high-speed boating and water skiing.

Rule 4. On the waters of Silver lake, section 30, town 18 north, range 5 west, township of Lincoln, county of Clare, state of Michigan, no operator of any motorboat, during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 62, p. 5, Eff. May 18, 1970.

R 281.718.5 Shamrock lake and Tobacco river; high-speed boating and water skiing prohibited.

Rule 5. On the waters of Shamrock lake and the Tobacco river, sections 26 and 35, town 17 north, range 4 west, city of Clare, county of Clare, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 63, p. 5, Eff. Aug. 14, 1970.

R 281.720.9 Section One lake; water skiing and high-speed boating prohibited.

Rule 9. On the waters of Section One lake, section 1, town 28 north, range 3 west, Maple Forest township, Crawford county, it is unlawful to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance. (See R 281.769.9 for the regulation covering that part of Section One lake that lies in Otsego county.)

History: 1954 ACS 77, p. 9, Eff. Oct. 4, 1973.

R 281.720.10 Bluegill lake; slow—no wake speed.

Rule 10. On the waters of Bluegill lake, sections 5 and 6, T28N, R3W, Maple Forest township, Crawford county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 7, Eff. Feb. 28, 1975.

R 281.720.11 Horseshoe lake; slow—no wake speed.

Rule 11. On the waters of Horseshoe lake, sections 5 and 6, T28N, R3W, Maple Forest township, Crawford county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 7, Eff. Feb. 28, 1975.

Regulation No. 21, Delta county.

R 281.721.1 Camp 7 lake; hours for high-speed boating and water skiing.

Rule 1. On the waters of Camp 7 lake, township of Garden, county of Delta, state of Michigan, no operator of any motorboat, during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 56, p. 5, Eff. Nov. 14, 1968.

R 281.721.2 Ford river and Green bay adjacent to its mouth; slow—no wake speed.

Rule 2. On the waters of the Ford river, sections 15, 16 and 21, town 38 north, range 23 west, Ford River township, Delta county, from the west line of the southeast ¼ of the northwest ¼, section 15, town 38 north, range 23 west, downstream and 300 feet in any direction from the mouth of the river in Green bay, an operator of a vessel shall not exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 31, Eff. June 15, 1971.

Regulation No. 22, Dickinson county.

R 281.722.1 Norway lake; motorboats prohibited.

Rule 1. On the waters of Norway lake, section 5, T42N, R28W, Felch township, Dickinson county, it is unlawful to operate a motorboat.

History: 1954 ACS 80, p. 7, Eff. Aug. 17, 1974.

Regulation No. 23, Eaton county.

R 281.723.1 Narrow lake, part; slow—no wake speed zone.

Rule 1. On the waters of Narrow lake, sections 27, 28, 33 and 34, town 1 north, range 4 west, Brookfield township, Eaton county, south of the south line common to the north ½ of the northeast ¼ of the northeast ¼, section 33, and the north ½ of the northwest ¼ of the northwest ¼ of section 34, town 1 north, range 4 west, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 74, p. 49, Eff. Jan. 23, 1973.

Regulation No. 24, Emmet county.

R 281.724.1 Little Traverse bay; slow—no wake speed.

Rule 1. On the waters of Little Traverse bay, adjacent to Little Traverse township, West Traverse township and city of Harbor Springs, Emmet county, within a line from the easternmost point of land in section 24, T35N, R6W, to where Zole street, as extended, intersects the water's edge, it is unlawful for:

(a) The operator of a vessel 26 feet or more in length to exceed a slow—no wake speed.

(b) The operator of a vessel less than 26 feet in length to exceed a slow—no wake speed in either of the following situations:

(i) When within a line from where Judd street as extended meets the water's edge to where Glen drive as extended meets the water's edge adjacent to the city of Harbor Springs.

(ii) When within 200 feet of any shore, dock, pierhead or the outer limits of a designated anchorage.

History: 1954 ACS 54, p. 28, Eff. May 15, 1968; 1954 ACS 82, p. 7, Eff. Jan. 3, 1975.

R 281.724.2 Crooked river; slow—no wake speed.

Rule 2. On the waters of that portion of the Crooked river located in the NW¼ of section 36, and the SE¼ of the NE¼ of section 35, T36N, R4W, Maple River township, Emmet county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 89, p. 7, Eff. Nov. 4, 1976.

Regulation No. 25, Genesee county.

R 281.725.1 Crooked lake; high-speed boating and water skiing prohibited.

Rule 1. On the waters of Crooked lake, township of Fenton, county of Genesee, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 54, p. 28, Eff. May 15, 1968.

R 281.725.2 Barnum lake; speed restriction.

Rule 2. On the waters of Barnum lake, township of Fenton, county of Genesee, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 56, p. 5, Eff. Nov. 14, 1968.

is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 100 feet of any shore, dock, raft, buoyed or occupied bathing area, or vessel moored or at anchor, except when water skiers are being picked up or dropped off if that operation is otherwise conducted with due regard to the safety of persons and property and in accordance with the laws of this state.

History: 1954 ACS 97, p. 13, Eff. Oct. 24, 1978.

R 281.726.2 Wiggins lake, Grout, and Sage townships; hours for high-speed boating and water skiing.

Rule 2. On the waters of Wiggins lake, T18&19N, R2W, Grout and Sage townships, Gladwin county, it is unlawful between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard or other similar contrivance.

History: 1954 ACS 82, p. 8, Eff. Mar. 14, 1975.

R 281.726.3 Wiggins lake; slow—no wake speed zone.

Rule 3. On the waters of Wiggins lake, sections 27 and 34, T19N, R2W, Sage township, Gladwin county, from Chappel dam to a line from where the west line of lot 20, Level Landing Resort subdivision as extended intersects the water's edge, thence northerly to where the west line of lot 80, Pebble Beach subdivision as extended intersects the water's edge, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 8, Eff. Mar. 14, 1975.

Regulation No. 27, Gogebic county.

R 281.727.1 Imp lake.

Rule 1. On the waters of Imp lake, township of Watersmeet, county of Gogebic, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 50, p. 12, Eff. May 15, 1967.

R 281.727.2 Sylvania recreation area lakes; motorboats prohibited.

Rule 2. On the waters of the following lakes in the Sylvania recreation area, town 44 north, range 39 west; town 44 north, range 40 west; and town 44 north, range 41 west, township of Watersmeet, county of Gogebic, state of Michigan: Banks lake, Clark lake, Corey lake, Cub lake, Daisy lake, Deer Island lake, Dorothy lake, Dream lake, East Bear lake, Elsie lake, Fisher lake, Florence lake, Germain lake, Glimmerglass lake, Golden Silence lake, Hay lake, Helen lake, High lake, Honey lake, Jay lake, Johnston Springs lake, Katherine lake, Kerr lake, Lilius lake, Lois lake, Loon lake, Louise lake, Marsh lake, Moss lake, Mountain lake, Snap Jack lake, Trapper lake, West Bear lake, and Whitefish lake, and those other unnamed lakes located in town 44 north, range 40 west; sections 13 and 24, town 44 north, range 41 west, and those parts of sections 6, 7, 18, 19 and 30, town 44 north, range 39 west, lying west of United States forest road no. 112, no person shall operate any vessel propelled by machinery.

History: 1954 ACS 65, p. 7, Eff. Nov. 3, 1970.

Regulation No. 28, Grand Traverse county.

R 281.728.1 Rescinded.

History: 1954 ACS 43, p. 8, Eff. Aug. 14, 1965; rescinded 1954 ACS 47, p. 10, Eff. Aug. 14, 1966.

R 281.728.2 Arbutus lakes numbers 2, 3, and 4 (central basins); High, Island, Rennie, and Spider lakes; evening and night operations.

Rule 2. On the waters of Arbutus lakes numbers 2, 3, and 4 (central basins), High lake, Island lake, Rennie lake and Spider lake, Grand Traverse county, no operator of any motorboat, during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 47, p. 10, Eff. Aug. 14, 1966.

R 281.728.3 Ellis lake, Arbutus lakes numbers 1 and 5, channels; high-speed boating and water skiing prohibited.

Rule 3. On the waters of Ellis lake and on the waters of Arbutus lake number 1 (southernmost basin) to and including the northernmost portion of the channel connecting Arbutus lake number 1 and Arbutus lake number 2, and on the waters of Arbutus lake number 5 (northernmost basin) to and including the southernmost portion of the channel connecting Arbutus lake number 5 and Arbutus lake number 4, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 47, p. 10, Eff. Aug. 14, 1966.

R 281.728.4 Channels separating Arbutus lakes numbers 1 and 2 and Arbutus lakes numbers 5 and 4; slow—no wake speed.

Rule 4. In the defined channels separating Arbutus lakes numbers 1 and 2 and Arbutus lakes numbers 5 and 4 no operator of any vessel shall exceed a slow—no wake speed.

History: 1954 ACS 47, p. 10, Eff. Aug. 14, 1966.

R 281.728.5 Spider lake, southwest part; slow—no wake speed.

Rule 5. On the waters of that part of Spider lake lying southwest of a line drawn from a point where the north section line of section 10, town 26 north, range 10 west, intersects the water's edge on the northwest shore, thence 127° true to where such line intersects the water's edge on the southeast shore of said lake, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 47, p. 10, Eff. Aug. 14, 1966.

R 281.728.6 Spider lake, a northwest part; slow—no wake speed.

Rule 6. On the waters of that part of Spider lake in the northwest ¼ of the northwest ¼ of section 2, town 26 north, range 10 west, lying between the west section line and a north-south line 430 feet east of said west section line, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 47, p. 11, Eff. Aug. 14, 1966.

R 281.728.7 Spider lake, southeast part; high-speed boating and water skiing prohibited.

Rule 7. On the waters of that part of Spider lake which lie east of a line bearing 180° true from a point of beginning which is described as the westernmost point of land which is 079° true from the point on the western shore of Spider lake where the north section line of section 10, town 26 north, range 10 west, meets the water's edge, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 47, p. 11, Eff. Aug. 14, 1966.

R 281.728.8 Ruth lake; slow—no wake speed.

Rule 8. On the waters of Ruth lake, section 33, T27N, R12W, Long Lake township, Grand Traverse county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 80, p. 7, Eff. Aug. 17, 1974.

R 281.728.10 Cedar Hedge lake; hours for high-speed boating and water skiing.

Rule 10. On the waters of Cedar Hedge lake, sections 4, 5, 8, and 9, T26N, R12W, Green Lake township, Grand Traverse county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 95, p. 26, Eff. June 13, 1978.

Regulation No. 30, Hillsdale county.

R 281.730.1 Long lake; high-speed boating and water skiing hours.

Rule 1. On the waters of Long lake, sections 5, 8 and 17, town 7 south, range 4 west, township of Reading, county of Hillsdale, state of Michigan, no operator of any motorboat during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 66, p. 6, Eff. Jan. 4, 1971.

R 281.730.2 Long lake, connecting channel; slow—no wake speed.

Rule 2. On the waters of the channel connected to Long lake in the northeast ¼ of section 8, town 7 south, range 4 west, township of Reading, county of Hillsdale, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 66, p. 7, Eff. Jan. 4, 1971.

R 281.730.3 Carpenter lake; high-speed boating and water skiing prohibited.

Rule 3. On the waters of Carpenter lake, section 5, town 7 south, range 4 west, township of Reading, county of Hillsdale, state of Michigan, no operator of any motorboat shall:

Regulation No. 32, Huron county.

R 281.732.1 Sebewaing river and channels and canals; slow—no wake speed.

Rule 1. On the waters of the Sebewaing river and connecting natural and artificial channels and canals, sections 7 and 8, town 15 north, range 9 east, Sebewaing village, Huron county, from the M-25 (Beck street) bridge downstream to the mouth, an operator of a vessel shall not exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 31, Eff. June 15, 1971.

Regulation No. 35, Iosco county.

R 281.735.1 Pine river, Alcona county line to Van Etten lake; speed restriction.

Rule 1. On the waters of Pine river, township of Oscoda, county of Iosco, state of Michigan, from its point of entry at the Iosco-Alcona county line, thence southerly for a distance of approximately 1¼ miles to its mouth at Van Etten lake, no operator of any vessel shall exceed a slow—no wake speed.

History: 1954 ACS 57, p. 6, Eff. Feb. 14, 1969.

R 281.735.2 Little Long lake; high-speed boating and water skiing hours.

Rule 2. On the waters of Little Long lake, sections 5 and 8, town 23 north, range 5 east, township of Plainfield, county of Iosco, state of Michigan, no operator of any motorboat, during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 61, p. 5, Eff. Feb. 16, 1970.

R 281.735.3 AuSable river, lower part; slow—no wake speed.

Rule 3. On the waters of the AuSable river, sections 3, 4 and 10, town 23 north, range 9 east, township of AuSable, and sections 33 and 34, town 24 north, range 9 east, township of Oscoda, county of Iosco, state of Michigan, from its mouth at Lake Huron upstream to the Detroit and Mackinaw railroad bridge, a distance of approximately 2¼ miles, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 63, p. 6, Eff. Aug. 14, 1970.

R 281.735.4 Tawas river in Tawas City and area adjacent to its mouth; slow—no wake speed.

Rule 4. On the waters of the Tawas river, sections 25, 30 and 36, town 22 north, range 7 east, Tawas City, Iosco county, from the north city limits downstream and 300 feet in any direction from the mouth of the river in Tawas bay, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 69, p. 31, Eff. Nov. 1, 1971.

R 281.735.5 Tawas lake; slow—no wake speed zone.

Rule 5. On the waters of the canals connected to Tawas lake and Tawas river in section 19, T22N, R8E, city of East Tawas, Iosco county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 83, p. 13, Eff. Apr. 24, 1975.

R 281.750.6 Lake St. Clair and channels; slow—no wake speed.

Rule 6. On those waters of lake St. Clair and natural and artificial canals connecting thereto, city of St. Clair Shores, county of Macomb, state of Michigan, west of a line from a point beginning at the city line between St. Clair Shores and Grosse Pointe Shores at the water's edge, thence 070° true 1,300 feet, thence 340° true 6,500 feet, thence 000° true 7,500 feet more or less to a point due east of the foot of 11 Mile road, thence 270° true 1,300 feet more or less to the shoreline of Lake St. Clair at the foot of said 11 Mile road being latitude 42°29.8′ N, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 54, p. 29, Eff. May 15, 1968.

R 281.750.7 Salt river, Vase creek, and certain channels and canals in Chesterfield township; slow—no wake speed.

Rule 7. On the waters of the Salt river, Vase creek and all channels and canals on private claims 146, 147, 192, 193 and 342, sections 22, 23, 26, 27, 28 and 29, town 3 north, range 14 east, township of Chesterfield, county of Macomb, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 64, p. 21, Eff. Nov. 6, 1970.

R 281.750.8 South channel; moorage restriction.

Rule 8. On the waters of South channel, between lots 233 and 234, Anchor Bay Shores subdivision, private claims 146 and 147, town 3 north, range 14 east, township of Chesterfield, county of Macomb, state of Michigan, no vessel shall be moored, docked or anchored or shall in any other manner obstruct or restrict the passage of other vessels, for a distance of 350 feet inland from Lake St. Clair.

History: 1954 ACS 64, p. 21, Eff. Nov. 6, 1970.

R 281.750.9 Clinton river; speed restriction.

Rule 9. On the waters of Lake St. Clair and the Clinton river, Harrison township, Macomb county, state of Michigan, westward from the easterly ends of the Clinton river breakwater, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 65, p. 8, Eff. Nov. 3, 1970.

R 281.750.10 Black creek and channels and canals in Harrison township; speed restriction.

Rule 10. On the waters of Black creek and the natural and artificial channels and canals in Harrison township, Macomb county, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 65, p. 8, Eff. Nov. 3, 1970.

Regulation No. 51, Manistee county.

R 281.751.1 Manistee harbor, entrance channel; speed restriction.

Rule 1. On the waters of the Manistee harbor entrance channel eastward from a line connecting the south breakwater light and the north pierhead light to the easterly end of the channel at Manistee lake, city of Manistee, county of Manistee,

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 74, p. 50, Eff. Jan. 23, 1973.

R 281.762.13 Sisson lake; high-speed boating and water skiing prohibited.

Rule 13. On the waters of Sisson lake, section 11, town 16 north, range 13 west, Lilley township, Newaygo county, it is unlawful to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance.

History: 1954 ACS 74, p. 50, Eff. Jan. 23, 1973.

R 281.762.14 Woodland lake, certain bays; slow—no wake speed.

Rule 14. On the bays of Woodland lake, sections 9 and 10, T15N, R13W, Merrill township, Newaygo county, hereinafter described, it is unlawful for the operator of a vessel to exceed a slow—no wake speed west of a line beginning where the west line of lot 1, block 234, Woodland Park subdivision, as extended, intersects the water's edge and thence to where the west line of lot 2, block 16, Woodland Park subdivision, intersects the water's edge.

History: 1954 ACS 82, p. 9, Eff. Mar. 14, 1975.

R 281.762.15 East lake; high-speed boating and water skiing prohibited.

Rule 15. On the waters of East lake, section 10, T15N, R13W, Merrill township, Newaygo county, it is unlawful to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard or other similar contrivance.

History: 1954 ACS 82, p. 9, Eff. Mar. 14, 1975.

R 281.762.16 East lake channel; slow—no wake speed.

Rule 16. On the waters of the channel from East lake to Woodland lake, section 10, T15N, R13W, Merrill township, Newaygo county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 9, Eff. Mar. 14, 1975.

R 281.762.17 Woodland lake; hours for high-speed boating and water skiing.

Rule 17. On the bays of Woodland lake, sections 9 and 10, T15N, R13W, Merrill township, Newaygo county, it is unlawful between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard or other similar contrivance.

History: 1954 ACS 82, p. 9, Eff. Mar. 14, 1975.

R 281.762.18 Bitely lake; hours for high-speed boating and water skiing.

Rule 18. On the waters of Bitely lake, sections 28, 33, and 34, T16N, R13W, Lilley township, Newaygo county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 101, p. 27, Eff. Sept. 20, 1979.

R 281.762.19 Pettibone lake; hours for high-speed boating and water skiing.

Rule 19. On the waters of Pettibone lake, sections 13 and 24, T16N, R13W, Lilley township, Newaygo county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 101, p. 27, Eff. Sept. 20, 1979.

R 281.762.20 Mill lake; operation of vessel powered by motor.

Rule 20. On the waters of Mill lake, section 27, T16N, R13W, Lilley township, Newaygo county, it is unlawful to operate a vessel powered by a motor except an electric motor.

History: 1954 ACS 101, p. 27, Eff. Sept. 20, 1979.

Regulation No. 63, Oakland county.

R 281.763.1 Kent lake.

Rule 1. On the waters of Kent lake, Milford township and Lyon township, Oakland county, state of Michigan, the following controls apply:

(a) No person shall operate a motorboat at a speed in excess of 10 statute miles per hour, except an authorized patrol boat or emergency rescue craft.

(b) No person shall operate any watercraft so as to tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance, or permit himself to be so towed.

(c) Rubber rafts and all floating devices other than boats, may be used only in swim areas or special designated areas. (See R 281.747.1 for regulation covering the part of this lake in Livingston county.)

History: 1954 ACS 45, p. 7, Eff. Feb. 14, 1966.

R 281.763.2 Stoney Creek lake.

Rule 2. On the waters of Stoney Creek lake, township of Oakland, county of Oakland, state of Michigan:

(a) Rubber rafts and all floating devices, other than vessels, shall not be used except in swimming areas or special areas designated for their use.

(b) No operator of any vessel shall operate such vessel within areas prohibited to boating.

(c) No operator of any motorboat shall operate such motorboat at a rate of speed greater than 10 statute miles per hour, except an authorized patrol boat or emergency rescue craft.

exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 68, p. 9, Eff. Aug. 26, 1971.

R 281.763.9 Lake Orion; prohibited conduct.

Rule 9. (1) On the waters of Lake Orion and the canals and channels connected thereto, sections 2, 3, 10, and 11, T4N, R10E, village of Lake Orion and Orion township, Oakland county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 100 feet of any shore, dock, raft, buoyed or occupied bathing area, or vessel moored or at anchor, except when water skiers are being picked up or dropped off if that operation is otherwise conducted with due regard to the safety of persons and property and in accordance with the laws of this state.

(2) On the waters of Lake Orion and the canals and channels connected thereto, sections 2, 3, 10, and 11, T4N, R10E, village of Lake Orion and Orion township, Oakland county, it is unlawful, during the period of 1 hour after sunset to 1 hour before sunrise, to:

(a) Operate a vessel at high speed.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

(3) On the waters of Lake Orion and the canals and channels connected thereto, sections 2, 3, 10, and 11, T4N, R10E, village of Lake Orion and Orion township, Oakland county, it is unlawful at any time to operate a vessel at a speed in excess of 40 miles per hour (64 kilometers per hour).

History: 1954 ACS 46, p. 5, Eff. May 14, 1966; 1954 ACS 97, p. 15, Eff. Sept. 23, 1978.

R 281.763.10 Little Square lake.

Rule 10. On the waters of that portion of Square lake lying west of a railroad bridge and locally known as Little Square lake, township of Orion, county of Oakland, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 51, p. 8, Eff. Aug. 15, 1967.

R 281.763.11 Davison lake; high-speed boating and water skiing prohibited.

Rule 11. On the waters of Davison lake, Brandon township, Oakland county, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard or other similar contrivance. (See R 281.744.2 for regulation covering the part of this lake lying in Hadley township, Lapeer county.)

History: 1954 ACS 54, p. 30, Eff. May 15, 1968.

R 281.763.12 Pontiac lake; speed restriction and distance from shoreline and islands.

Rule 12. On the waters of Pontiac lake, township of White Lake and township of Waterford, county of Oakland, state of Michigan, persons operating vessels shall, in addition to the restrictions set forth in section 18 of Act No. 245 of the Public Acts of 1959, as amended, maintain a distance of 100 feet from the shoreline and from any island, except when proceeding at a slow—no wake speed and except when picking up or dropping off water skiers, so long as such

R 281.763.37 Wolverine lake; slow—no wake speed.

Rule 37. On the waters of Wolverine lake, sections 22, 23, 27 and 28, T2N, R8E, village of Wolverine lake, Oakland county, it is unlawful to anchor or moor a vessel at a distance greater than 100 feet from any shore, between 11:00 a.m. and 7:30 p.m. during June, July and August, except in those parts of Wolverine lake established as slow—no wake zones.

History: 1954 ACS 80, p. 8, Eff. Aug. 17, 1974.

R 281.763.38 Middle Straits lake, Commerce township; slow—no wake speed.

Rule 38. On the waters of Middle Straits lake, in sections 12 and 13, T2N, R8E, Commerce township, Oakland county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 80, p. 9, Eff. Aug. 17, 1974.

R 281.763.39 Middle Straits lake, West Bloomfield township.

Rule 39. (1) On that part of the waters of Middle Straits lake located in section 7, T2N, R9E, West Bloomfield township, Oakland county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

(2) On that part of the waters of Middle Straits lake located in sections 17 and 18, T2N, R9E, West Bloomfield township, Oakland county, it is unlawful on Sundays, memorial day, independence day, and labor day, except between the hours of 10:00 a.m. and 6:30 p.m., to:

(a) Operate a vessel at high speed.

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 80, p. 9, Eff. Aug. 17, 1974; 1954 ACS 86, p. 25, Eff. Dec. 24, 1975.

R 281.763.40 Lakeville lake; prohibited conduct.

Rule 40. (1) On the waters of Lakeville lake and the canals and channels connected thereto, sections 21, 22, 26, 27, and 28, T5N, R11E, Addison township, Oakland county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 100 feet of any shore, dock, raft, buoyed or occupied bathing area, or vessel moored or at anchor, except when water skiers are being picked up or dropped off if that operation is otherwise conducted with due regard to the safety of persons and property and in accordance with the laws of this state.

(2) On the waters of Lakeville lake and the canals and channels connected thereto, sections 21, 22, 26, 27, and 28, T5N, R11E, Addison township, Oakland county, it is unlawful, during the period of 1 hour after sunset to 1 hour before sunrise, to:

(a) Operate a vessel at high speed.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

(3) On the waters of Lakeville lake, sections 21, 22, 26, 27, and 28, T5N, R11E, Addison township, Oakland county, it is unlawful at any time to operate a vessel at a speed in excess of 35 miles per hour (56 kilometers per hour).

History: 1954 ACS 91, p. 24, Eff. June 8, 1977.

R 281.763.41 Parke lake; high-speed boating and water skiing prohibited.

Rule 41. On the waters of Parke lake, section 20, T4N, R9E, Independence township and village of Clarkston, Oakland county, it is unlawful to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 84, p. 25, Eff. July 17, 1975.

R 281.763.42 Davis lake; motorboats prohibited.

Rule 42. On the waters of Davis lake, section 28, T5N, R10E, Oxford township, Oakland county, it is unlawful to operate a motorboat.

History: 1954 ACS 86, p. 25, Eff. Jan. 22, 1976.

R 281.763.43 Commerce lake; channels and canals; slow—no wake speed.

Rule 43. On the waters of the canals and channels connected to Commerce lake, sections 10, 15, and 16, T2N, R8E, Commerce township, Oakland county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 92, p. 11, Eff. Sept. 13, 1977.

R 281.763.44 Big Seven and Dickinson lakes, Seven Lakes state park; operation of vessel powered by motor.

Rule 44. On the waters of Big Seven and Dickinson lakes, sections 19, 29, and 30, T5N, R7E, Seven Lakes state park, Holly township, Oakland county, it is unlawful to operate a vessel powered by a motor, except an electric motor which does not exceed 3 horsepower. This rule does not apply to law enforcement officers or department of natural resources personnel pursuing their lawful duties.

History: 1954 ACS 89, p. 7, Eff. Dec. 10, 1976.

R 281.763.45 Little Seven, Spring, Mud, and Gravel Pit lakes, Seven Lakes state park; operation of vessel powered by motor.

Rule 45. On the waters of Little Seven, Spring, Mud, and Gravel Pit lakes, sections 19, 29, and 30, T5N, R7E, Seven Lakes state park, Holly township, Oakland county, it is unlawful to operate a vessel powered by a motor. This rule does not apply to law enforcement officers or department of natural resources personnel pursuing their lawful duties.

History: 1954 ACS 89, p. 8, Eff. Dec. 10, 1976.

R 281.763.46 Mitchell lake; operation of vessel powered by motor.

Rule 46. On the waters of Mitchell lake, sections 4 and 9, T5N, R7E, Holly township, Oakland county, it is unlawful to operate a vessel powered by a motor except an electric motor.

History: 1954 ACS 96, p. 64, Eff. July 28, 1978.

R 281.763.47 Dunham lake; motorboats prohibited.

Rule 47. On the waters of Dunham lake, sections 18 and 19, T3N, R7E, Highland township, Oakland county, it is unlawful to operate a motorboat. (See R 281.747.16 for the regulation covering the part of Dunham lake which lies in Livingston county.)

History: 1954 ACS 90, p. 5, Eff. Feb. 25, 1977.

R 281.763.48 Sears lake; motorboats prohibited.

Rule 48. On the waters of Sears lake, sections 5 and 8, T2N, R7E, Milford township, Oakland county, it is unlawful to operate a motorboat.

History: 1954 ACS 90, p. 6, Eff. Feb. 23, 1977.

Regulation No. 64, Oceana county.

R 281.764.1 McLaren lake, southwest portion; high-speed boating and water skiing prohibited.

Rule 1. On all those waters of McLaren lake lying westerly of a line 200 feet east and parallel with the section line common to sections 11 and 12, T14N, R15W, township of Newfield, county of Oceana, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 54, p. 31, Eff. May 15, 1968.

R 281.764.2 McLaren lake, northwest bay; high-speed boating and water skiing prohibited.

Rule 2. On all those waters of McLaren lake lying westerly of a line commencing at a point at the water's edge of said lake approximately 462 feet south of the center post of section 1, T14N, R15W, thence southwesterly to the opposite shore of a bay at a point on the southeast and west ⅛ line of section 1, T14N, R15W, township of Newfield, county of Oceana, state of Michigan, no operator of any motorboat shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 54, p. 31, Eff. May 15, 1968.

R 281.764.3 Pentwater lake and entrance channel; slow—no wake speed.

Rule 3. On the waters of the Pentwater lake and the entrance channel to Pentwater lake, village of Pentwater and township of Pentwater, county of Oceana, state of Michigan, from the Pentwater entrance channel pierhead to a line drawn from Popp's point in the village of Pentwater westerly to the west shore of Pentwater lake, no operator of any motorboat shall exceed a slow—no wake speed, which means a speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 66, p. 8, Eff. Jan. 4, 1971.

R 281.764.5 School Section lake; hours for high-speed boating and water skiing.

Rule 5. On the waters of School Section lake, sections 15 and 16, T16N, R15W, Colfax township, Oceana county, it is unlawful between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 82, p. 9, Eff. Feb. 28, 1975.

Regulation No. 68, Oscoda county.

R 281.768.1 Loon, Perry, and Tee lakes.

Rule 1. On the waters of Loon lake, Perry lake and Tee lake, Oscoda county, state of Michigan, no operator of any motorboat shall have in tow or shall otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance during the period from 6:30 p.m. to 10:00 a.m. of the following day.

History: 1954 ACS 43, p. 9, Eff. Aug. 14, 1965.
Cross reference: as to Tea lake (also called Tee lake), see also R 281.768.4 and R 281.768.5.

R 281.768.2 McCollum lake.

Rule 2. On the waters of McCollum lake, Oscoda county, state of Michigan, no operator of any motorboat shall have in tow or shall otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance during the period from 6:30 p.m. to 10:00 a.m. of the following day. (See R 281.701.2 for regulation covering the part of this lake lying in Alcona county.)

History: 1954 ACS 43, p. 9, Eff. Aug. 14, 1965.

R 281.768.3 Little Wolf lake; high-speed boating and water skiing hours.

Rule 3. On the waters of Little Wolf lake, township of Greenwood, county of Oscoda, state of Michigan, no operator of any motorboat, during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance. (See R 281.760.1 for regulation covering the part of this lake lying in Montmorency county.)

History: 1954 ACS 54, p. 31, Eff. May 15, 1968.

R 281.768.4 Tea lake; hours for high-speed boating and water skiing.

Rule 4. On the waters of Tea lake, sections 2, 3, 10 and 11, T28N, R1E, Greenwood township, Oscoda county, it is unlawful between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 82, p. 10, Eff. Feb. 28, 1975.

R 281.768.5 Tea lake; slow—no wake speed zone.

Rule 5. On the waters of Tea lake, sections 2, 3, 10 and 11, T28N, R1E, Greenwood township, Oscoda county, south of a line from where the north line of lot 23, T-La-Ka Park No. 1 subdivision, as extended, intersects the water's edge and thence west to the nearest opposite shore, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 10, Eff. Feb. 28, 1975.

Regulation No. 69, Otsego county.

R 281.769.1 Perch lakes; slow—no wake speed.

Rule 1. On the waters of Perch lakes, section 30, town 30 north, range 3 west, Bagley township, Otsego county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 75, p. 7, Eff. June 1, 1973.

R 281.769.2 Bradford lake; hours for high-speed boating and water skiing.

Rule 2. On the waters of Bradford lake, sections 29, 31 and 32, town 29 north, range 3 west, Otsego lake township, Otsego county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance. (See R 281.720.8 for that part of Bradford lake which lies in Crawford county.)

History: 1954 ACS 75, p. 7, Eff. Mar. 27, 1973.

R 281.769.3 Heart lake; hours for high-speed boating and water skiing.

Rule 3. On the waters of Heart lake, section 20, town 29 north, range 3 west, Otsego Lake township, Otsego county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 75, p. 7, Eff. Mar. 27, 1973.

R 281.769.4 Heart lake, west part; slow—no wake speed.

Rule 4. On the waters of Heart lake, section 20, town 29 north, range 3 west, Otsego Lake township, Otsego county, west of a line beginning where the west line of lot 44, Heart Lake subdivision no. 2, intersects the shore of the lake and thence southerly to where the west line of lot 83, Heart Lake subdivision no. 2, intersects the shore, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 75, p. 7, Eff. Mar. 27, 1973.

R 281.769.5 Clear lake; high-speed boating and water skiing prohibited.

Rule 5. On the waters of Clear lake, section 7, town 29 north, range 1 west, Charlton township, Otsego county, it is unlawful to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 75, p. 8, Eff. June 1, 1973.

R 281.769.6 Gee lake; slow—no wake speed.

Rule 6. On the waters of Gee lake, sections 13 and 24, town 29 north, range 1 west, Charlton township, Otsego county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed. (See R 281.760.9 for that part of Gee lake lying in Montmorency county.)

History: 1954 ACS 76, p. 7, Eff. July 14, 1973.

R 281.769.7 Traverse lakes; slow—no wake speed.

Rule 7. On the waters of the Traverse lakes, sections 23 and 24, town 30 north, range 1 west, Charlton township, Otsego county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 75, p. 8, Eff. June 1, 1973.

R 281.769.8 Opal lake; hours for high-speed boating and water skiing.

Rule 8. On the waters of Opal lake, sections 1 and 12, town 29 north, range 3 west, Otsego Lake township, Otsego county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 76, p. 7, Eff. June 20, 1973.

R 281.769.9 Section One lake; water skiing and high-speed boating prohibited.

Rule 9. On the waters of Section One lake, section 36, town 29 north, range 3 west, Otsego Lake township, Otsego county, it is unlawful to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance. (See R 281.720.9 for the regulation covering that part of Section One lake that lies in Crawford county.)

History: 1954 ACS 77, p. 10, Eff. Oct. 4, 1973.

R 281.769.10 Big lake; slow—no wake speed zone.

Rule 10. On the waters of Big lake, section 8, T30N, R2W, Chester township, Otsego county, between a line from where the west line of lot 6, supervisor's plat of Shallow Shores subdivision, as extended, intersects the water's edge and thence to the most westerly point of Hilton island and a line from where the west line of lot 22, supervisor's plat of Shallow Shores subdivision, as extended, intersects the water's edge and thence to the most easterly point of Hilton island, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 10, Eff. Mar. 14, 1975.

R 281.769.11 Big lake; hours for high-speed boating and water skiing.

Rule 11. On the waters of Big lake, section 8, T30N, R2W, Chester township, Otsego county, it is unlawful between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 82, p. 10, Eff. Mar. 14, 1975.

R 281.769.12 Little Bear lake; hours for high-speed boating and water skiing.

Rule 12. On the waters of Little Bear lake, section 35, T30N, R1W, and section 2, T29N, R1W, Charlton township, Otsego county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, to:

(a) Operate a vessel at high speed, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 84, p. 26, Eff. July 17, 1975.

R 281.769.13 Pickerel lake; operation of vessel powered by motor.

Rule 13. On the waters of Pickerel lake, section 11, T32N, R2W, Corwith township, Otsego county, it is unlawful to operate a vessel powered by a motor except an electric motor.

History: 1954 ACS 97, p. 16, Eff. Sept. 23, 1978.

Regulation No. 70, Ottawa county.

R 281.770.1 Lake Macatawa; westerly portion, controlled speed zone.

Rule 1. On those waters of the westerly portion of Lake Macatawa bounded on the north by 42°46'30" north latitude, on the east by 86°11'32" west longitude and

at the westerly end of the entrance channel by 86°12′57″ west longitude, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 50, p. 12, Eff. May 15, 1967.

R 281.770.2 Lake Macatawa; Big bay, controlled speed zone.

Rule 2. On those waters of Big bay, lake Macatawa, lying to the north of 42°47′ north latitude and to the west of 86°11′ west longitude, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 50, p. 12, Eff. May 15, 1967.

R 281.770.3 Lake Macatawa; Pine creek bay, high-speed boating and water skiing hours.

Rule 3. On those waters of Pine creek bay, lake Macatawa, lying north of 42°47′10″, no operator of any motorboat, during the period from 6:30 p.m. to 10:00 a.m. of the following day, shall:

(a) Operate such motorboat at high speed, which means a speed at or above which a motorboat reaches a planing condition, or

(b) Have in tow or otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance.

History: 1954 ACS 50, p. 13, Eff. May 15, 1967.

R 281.770.4 Grand river in Spring Lake village; slow—no wake speed.

Rule 4. On the waters of the Grand river, sections 15, 16, 21 and 22, town 8 north, range 16 west, Spring Lake village, Ottawa county, beginning at the entrance to Spring lake and continuing in an easterly direction for a distance of 4,000 feet, it shall be unlawful for an operator of a vessel to exceed a slow—no wake speed when within 200 feet of the north shore. Slow—no wake speed means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 25, 1971.

R 281.770.5 Spring lake entrance channel; slow—no wake speed.

Rule 5. On the waters of the entrance channel to Spring lake, section 16, town 8 north, range 16 west, Spring Lake village, Ottawa county, from the Grand river, northerly to the Grand Trunk railway bridge, it shall be unlawful for an operator of a vessel to exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 25, 1971.

R 281.770.6 Grand river in Grand Haven township; slow—no wake speed.

Rule 6. On the waters of the Grand river in section 1, town 7 north, range 16 west, Grand Haven township, Ottawa county, it shall be unlawful for an operator of a vessel to exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 25, 1971.

R 281.770.7 Millhouse bayou; slow—no wake speed.

Rule 7. On the waters of Millhouse bayou, section 1, town 7 north, range 16 west, Grand Haven township, Ottawa county, from Mercury Drive bridge to the Grand river, it shall be unlawful for an operator of a vessel to exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 25, 1971.

R 281.770.8 Pottawatomie bayou; slow—no wake speed.

Rule 8. On the waters of Pottawatomie bayou, section 36, town 8 north, range 16 west, Grand Haven township, Ottawa county, for a distance of 500 feet westerly from Grand river, it shall be unlawful for an operator of a vessel to exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 25, 1971.

R 281.770.9 Spring lake; slow—no wake speed.

Rule 9. On the waters of Spring lake adjacent to the city of Ferrysburg, village of Spring Lake, Spring Lake township, Ottawa county, it is unlawful for:

(a) The operator of a vessel less than 26 feet in length to exceed a slow—no wake speed when within 200 feet of any shore, dock, or pierhead.

(b) The operator of a vessel 26 feet or more in length to exceed a slow—no wake speed. (See R 281.761.7, covering that portion of Spring lake which lies in Muskegon county.)

History: 1954 ACS 97, p. 16, Eff. Oct. 31, 1978.

Editor's note: Former R 281.770.9, deriving from ACS 77, p. 10, and containing similar provisions, expired by its own terms on January 1, 1977.

R 281.770.10 Spring lake and connected waters; slow—no wake speed.

Rule 10. It is unlawful for the operator of a vessel to exceed a slow—no wake speed on the following described waters in the city of Ferrysburg, village of Spring Lake, Spring Lake township, Ottawa county:

(a) Smith bayou: On the waters of Smith bayou, sections 9, 15, and 16, T8N, R16W, city of Ferrysburg, Ottawa county, northwesterly of a line beginning where the centerline of Reenders street, as extended, intersects the water's edge and thence southwesterly to the nearest opposite shore.

(b) Hammond bayou: On the waters of Hammond bayou, sections 11 and 14, T8N, R16W, Spring Lake township, Ottawa county, easterly of a line beginning where the east line of lot 20, plat of Longview, intersects the water's edge and thence southerly to the nearest opposite shore.

(c) Cornelius bayou: On the waters of Cornelius bayou, sections 2 and 3, T8N, R16W, Spring Lake township, Ottawa county, west of a line beginning where the west line of lot 24, Belle Point subdivision, intersects the water's edge and thence southwesterly to the nearest opposite shore.

(d) Stahl bayou: On the waters of Stahl bayou, section 2, T8N, R16W, Spring Lake township, Ottawa county, north of a line from the easternmost point of lot 7, Belle Point subdivision, northeasterly to the nearest opposite shore.

History: 1954 ACS 97, p. 16, Eff. Oct. 31, 1978.

Editor's note: Former R 281.770.10, deriving from ACS 77, p. 10, and containing similar provisions, expired by its own terms on January 1, 1977.

R 281.770.11 Grand river; slow—no wake speed.

Rule 11. On the waters of the Grand river, section 31, town 8 north, range 15 west, Crockery and Robinson townships, Ottawa county, from its confluence with Indian channel upstream 3,500 feet, it is unlawful for an operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 78, p. 17, Eff. Feb. 15, 1974.

R 281.770.12 Grand river; slow—no wake speed.

Rule 12. On the waters of the Grand river, sections 33 and 34, town 8 north, range 15 west, Crockery and Robinson townships, Ottawa county, from a point

where 120th avenue, as extended meets the water's edge, downstream for 2,500 feet and upstream for 1,500 feet, it is unlawful for an operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 78, p. 18, Eff. Feb. 15, 1974.

R 281.770.13 Lake Macatawa, Central park; slow—no wake speed.

Rule 13. On the waters of lake Macatawa, city of Holland and township of Park, county of Ottawa, east of a line beginning where Grove avenue as extended intersects the water's edge and thence north to the nearest opposite shore, to a line beginning where Myrtle avenue as extended intersects the water's edge, and thence north to the nearest opposite shore, it is unlawful for:

(a) The operator of a vessel less than 26 feet in length to exceed a slow—no wake speed when within 200 feet of any shore, dock, or pierhead.

(b) The operator of a vessel 26 feet or more in length to exceed a slow—no wake speed when within 600 feet of any shore, dock, or pierhead.

History: 1954 ACS 82, p. 10, Eff. Mar. 14, 1975.

R 281.770.14 Lake Macatawa, Kollen park; slow—no wake speed.

Rule 14. On the waters of lake Macatawa, city of Holland and township of Park, county of Ottawa, east of a line beginning where Cleveland avenue as extended meets the water's edge, and thence north to the nearest opposite shore, to a line beginning where Washington boulevard as extended intersects the water's edge, and thence north to the nearest opposite shore, it is unlawful for:

(a) The operator of a vessel less than 26 feet in length to exceed a slow—no wake speed when within 200 feet of any shore, dock, or pierhead.

(b) The operator of a vessel 26 feet or more in length to exceed a slow—no wake speed when within 600 feet of any shore, dock, or pierhead.

History: 1954 ACS 82, p. 10, Eff. Mar. 14, 1975.

R 281.770.15 Macatawa river, city of Holland; slow—no wake speed.

Rule 15. On the waters of the Macatawa river, city of Holland, county of Ottawa, from a line from where Fourth street as extended west intersects the water's edge and thence northeasterly to the nearest north shore, upstream to a point 1,500 feet upstream from the North River Avenue bridge, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 10, Eff. Mar. 14, 1975.

R 281.770.16 Pigeon lake; hours for slow—no wake speed.

Rule 16. On the waters of Pigeon lake, sections 15 and 16, T6N, R16W, Port Sheldon township, Ottawa county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 84, p. 26, Eff. July 17, 1975.

R 281.770.17 Grand river, entrance channel; slow—no wake speed.

Rule 17. On the waters of the Grand river and entrance channel, sections 19, 20, 29 and 30, T8N, R16W, city of Grand Haven, Ottawa county, from the entrance channel pierhead upstream to a line drawn from the north shore of South channel, at its confluence with the Grand river, westerly to the west shore of the Grand river, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 79, p. 19, Eff. Apr. 17, 1974.

Regulation No. 74, St. Clair county.

R 281.774.1 Lake St. Clair; certain creeks, channels, and canals.

Rule 1. On the waters of Crepeau (also known as Frog) creek, Marsac creek, and all natural and artificial channels and canals in the city of New Baltimore, county of St. Clair, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 50, p. 13, Eff. May 15, 1967.

R 281.774.2 Lake St. Clair; certain channel.

Rule 2. On the waters of that portion of Lake St. Clair, city of New Baltimore, county of St. Clair, state of Michigan, in a channel which extends 500 feet southerly from a harbor entrance at 42°40'21" north latitude and 82°44'17" west longitude, no operator of any motorboat shall exceed a slow—no wake speed. (See R 281.750.4 and R 281.750.5 for regulation covering the part of this lake lying in Macomb county.)

History: 1954 ACS 50, p. 13, Eff. May 15, 1967.

R 281.774.3 Black river, from mouth to Grand Trunk bridge; speed restriction.

Rule 3. On the waters of the Black river, commencing at its mouth at the St. Clair river to the Grand Trunk Western railroad bridge, a distance of 8,000 feet, more or less, city of Port Huron, county of St. Clair, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 62, p. 8, Eff. May 18, 1970.

R 281.774.4 Black river, adjacent to highway 94 bridge, part in city of Port Huron; speed restriction.

Rule 4. On the waters of the Black river, commencing at a point 600 feet southeast of the interstate highway 94 bridge to a point 800 feet northwest of the bridge, city of Port Huron, county of St. Clair, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 62, p. 8, Eff. May 18, 1970.

R 281.774.5 Black river, adjacent to intersection with canal, part in city of Port Huron; speed restriction.

Rule 5. On the waters of the Black river, commencing at a point 1,000 feet south of the intersection of the Black river and the Black river canal to a point 500 feet northwest of the intersection, city of Port Huron, county of St. Clair, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 62, p. 8, Eff. May 18, 1970.

R 281.774.6 Swan creek and connecting channels; speed restriction.

Rule 6. On the waters of Swan creek and all connecting channels, commencing at its mouth at Anchor bay, Lake St. Clair, to Short Cut road, a distance of 2,770 yards more or less, township of Ira, county of St. Clair, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 57, p. 8, Eff. Feb. 14, 1969.

township of Fort Gratiot, county of St. Clair, state of Michigan, no operator of any motorboat shall exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the motorboat would be minimal.

History: 1954 ACS 62, p. 9, Eff. May 18, 1970.

R 281.774.14 Pine river in city of St. Clair; slow—no wake speed.

Rule 14. On the waters of the Pine river, city of St. Clair, St. Clair county, within the city limits, it is unlawful for an operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 71, p. 17, Eff. Apr. 28, 1972.

R 281.774.15 St. Clair river and connected waters; slow—no wake speed.

Rule 15. (1) On the waters of the St. Clair river, from its confluence with the Black river, downstream to Lake St. Clair, including its north channel, middle channel, the Chenal A Bout Rond (the Sni Bora), the south channel, Baltimore highway, Big Fisher highway and Sears highway, it is unlawful for:

(a) The operator of a vessel less than 26 feet in length to exceed a slow—no wake speed when within 200 feet of any shore, dock, or pierhead, and within the jurisdictional boundaries of the state of Michigan.

(b) The operator of a vessel 26 feet or more in length to exceed a slow—no wake speed when within 600 feet of any shore, dock, or pierhead, and within the jurisdictional boundaries of the state of Michigan.

(2) The provisions of this rule shall apply only to vessels used for recreational purposes.

History: 1954 ACS 77, p. 11, Eff. Nov. 23, 1973.

R 281.774.16 Black river canal; prohibited conduct.

Rule 16. (1) On the waters of the Black river canal, sections 26 and 27, T7N, R17E, city of Port Huron, St. Clair county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

(2) On the waters of the Black river canal, extending from Gratiot avenue easterly to Lake Huron, section 26, T7N, R17E, city of Port Huron, St. Clair county, it is unlawful for a person to:

(a) Swim or fish.

(b) Moor or anchor a vessel, except in cases of emergency.

History: 1954 ACS 92, p. 12, Eff. July 6, 1977.

Regulation No. 75, St. Joseph county.

R 281.775.1 Long and Pleasant lakes; hours for water skiing.

Rule 1. On the waters of Long lake and Pleasant lake, Fabius township, St. Joseph county, it is unlawful, between the hours of 6:30 p.m. and 10:00 a.m. of the following day, for the operator of a vessel to have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 43, p. 9, Eff. Aug. 14, 1965; 1954 ACS 99, p. 34, Eff. June 9, 1979.

R 281.775.2 Lewis lake; high-speed boating and water skiing prohibited.

Rule 2. On the waters of Lewis lake, sections 18 and 19, town 5 south, range 12 west, Flowerfield township, St. Joseph county, it is unlawful to:

(a) Operate a vessel at high speed, or

R 281.781.5 Ford lake; hours for high-speed boating.

Rule 5. On the waters of Ford lake, city of Ypsilanti and township of Ypsilanti, county of Washtenaw, it is unlawful during the period of 1 hour after sunset to 1 hour prior to sunrise, to operate a vessel at high speed.

History: 1954 ACS 80, p. 9, Eff. Aug. 17, 1974.

R 281.781.6 Ford lake, portion of; vessels prohibited.

Rule 6. On the waters of Ford lake, city of Ypsilanti and township of Ypsilanti, county of Washtenaw, it is unlawful to operate a vessel 300 feet in any direction from the dam on the east line of section 23, T3S, R7E.

History: 1954 ACS 80, p. 9, Eff. Aug. 17, 1974.

R 281.781.7 Base Line lake, bay; slow—no wake speed.

Rule 7. On the waters of that bay of Base Line lake, section 6, T1S, R5E, Webster township, Washtenaw county, in the SW¼ NW¼ and the W½ of the SE¼ NW¼, section 6, T1S, R5E, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 11, Eff. Feb. 28, 1975.

R 281.781.8 Canals connecting Huron river and Portage lake; slow—no wake speed.

Rule 8. On the waters of the canals connecting the Huron river and Portage lake, section 1, T1S, R5E, Dexter township and section 6, T1S, R5E, Webster township, Washtenaw county, and for a distance of 300 feet from the canal in any direction in Portage lake, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 11, Eff. Feb. 28, 1975.

R 281.781.9 Huron river; slow—no wake speed zone.

Rule 9. On the waters of the Huron river, section 1, T1S, R4E, Dexter township and section 6, T1S, R5E, Webster township, Washtenaw county, upstream from a point 600 feet below the Macgregor road bridge in the SE¼ of SE¼, section 1, to Base Line lake, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 82, p. 11, Eff. Feb. 28, 1975.

R 281.781.11 Hi-Land lake and connecting canals and channels; prohibited conduct.

Rule 11. On the waters of Hi-Land lake and the canals and channels connected thereto, sections 5 and 6, T1S, R4E, Dexter township, Washtenaw county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 100 feet of any shore, dock, raft, buoyed or occupied bathing area, or vessel moored or at anchor, except when water skiers are being picked up or dropped off if that operation is otherwise conducted with due regard to the safety of persons and property and in accordance with the laws of this state. (See R 281.747.19 covering that portion of Hi-Land lake which lies in Livingston county.)

History: 1954 ACS 99, p. 34, Eff. Apr. 28, 1979.

Regulation No. 82, Wayne county.

R 281.782.1 Belleville lake, at Denton road bridge; speed restriction.

Rule 1. On the waters of that portion of Belleville lake, city of Belleville and township of Van Buren, county of Wayne, state of Michigan, within 100 feet of the Denton road bridge, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 54, p. 32, Eff. May 15, 1968.

R 281.782.2 Belleville lake, at Main street bridge; speed restriction.

Rule 2. On the waters of that portion of Belleville lake, city of Belleville and township of Van Buren, county of Wayne, state of Michigan, within 100 feet of the Belleville road—Main street bridge, no operator of any motorboat shall exceed a slow—no wake speed.

History: 1954 ACS 54, p. 32, Eff. May 15, 1968.

R 281.782.3 Huron river, channels and bayous; slow—no wake speed.

Rule 3. On the waters of the Huron river and the natural and artificial channels and bayous in sections 23 to 25, P.C. 636, town 5 south, range 10 east, Brownstown township, Wayne county, an operator of a vessel shall not exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 15, 1971.

R 281.782.4 Silver creek, bayous, estuary, canals and channels; slow—no wake speed.

Rule 4. On the waters of Silver creek, its bayous and estuary and connected artificial and natural canals and channels in sections 14, 15, 23 and 24, and P.C. 636, town 5 south, range 10 east, Brownstown township, Wayne county, an operator of a vessel shall not exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 15, 1971.

R 281.782.5 Maple and Milleville beaches, canals and channels; slow—no wake speed.

Rule 5. On the waters of the artificial and natural canals and channels, Maple and Milleville beaches, in sections 13 and 24, and P.C. 636, town 5 south, range 10 east, Brownstown township, Wayne county, an operator of a vessel shall not exceed a slow—no wake speed, which means a very slow speed whereby the wake or wash created by the vessel would be minimal.

History: 1954 ACS 69, p. 34, Eff. June 15, 1971.

R 281.782.6 Detroit river and connected waters, Grosse Ile township; slow—no wake speed.

Rule 6. On the waters of the Detroit river and connected waters, town 4 south, range 11 east, and town 5 south, range 11 east, Grosse Ile township, Wayne county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 1,000 feet of any shore, dock, or pierhead, except:

(a) East of Grosse Ile and west of Ballards reef channel from Black Can Buoy #1 upstream to Grosse Ile Spit Lighted Buoy LL 969 (HB I QK FLW) and

(b) West of Grosse Ile and east of the mainland of Wayne county from Red Nun #6 upstream to Grosse Ile Spit Lighted Buoy LL 969 (HB I QK FLW) and

(c) On those waters adjacent to the islands of Mama Juda, Powder House, and Stony.

History: 1954 ACS 91, p. 24, Eff. Mar. 17, 1977.

R 281.782.7 Thorofare canal; slow—no wake speed.

Rule 7. On the waters of the Thorofare canal, P.C. 549, 550, 551, and 555, town 4 south, range 11 east, Grosse Ile township, Wayne county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 91, p. 25, Eff. Mar. 17, 1977.

R 281.782.8 Frenchman creek and connected waters; slow—no wake speed.

Rule 8. On the waters of Frenchman creek, passages east and west of Round island and the connected artificial canal, town 4 south, range 11 east, town 5 south, range 11 east, Grosse Ile township, Wayne county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 91, p. 25, Eff. Mar. 17, 1977.

R 281.782.9 Meso-Hickory passage; slow—no wake speed.

Rule 9. On the waters of the passage between Meso and Hickory islands, town 5 south, range 11 east, Grosse Ile township, Wayne county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 91, p. 25, Eff. Mar. 17, 1977.

R 281.782.10 Swan island canal; slow—no wake speed.

Rule 10. On the waters of the canal between Swan island and the mainland of Grosse Ile, town 4 south, range 11 east, town 5 south, range 11 east, Grosse Ile township, Wayne county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 91, p. 25, Eff. Mar. 17, 1977.

R 281.782.11 Elba island canals; slow—no wake speed.

Rule 11. On the waters of the natural and artificial channels and canals adjacent to Elba island, P.C. 553, 554, and 557, town 4 south, range 11 east, and town 5 south, range 11 east, Grosse Ile township, Wayne county, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 91, p. 25, Eff. Mar. 17, 1977.

R 281.782.12 Detroit river, city of Gibraltar; slow—no wake speed.

Rule 12. (1) On the waters of the Detroit river, within the corporate limits of the city of Gibraltar, Wayne county, T4S, R10 and 11E, T5S, R10 and 11E, it is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 500 feet of any shore, dock, or pierhead.

(2) This rule applies only to vessels used for recreational purposes.

History: 1954 ACS 88, p. 50, Eff. Aug. 3, 1976.

R 281.782.13 Natural and artificial channels and canals, city of Gibraltar; slow—no wake speed.

Rule 13. On the waters of all artificial and natural channels and canals, within the corporate limits of the city of Gibraltar, Wayne county, T4S, R10 and 11E and T5S, R10 and 11E, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 88, p. 50, Eff. Aug. 3, 1976.

R 281.782.14 Detroit river, city of Trenton; slow—no wake speed.

Rule 14. (1) On the waters of the Detroit river, within the corporate limits of the city of Trenton, Wayne county, town 4 south, range 11 east, it is unlawful for the operator of a vessel to exceed a slow—no wake speed, when within 1,000 feet of any shore, dock, or pierhead.

(2) This rule applies only to vessels used for recreational purposes.

History: 1954 ACS 87, p. 10, Eff. May 29, 1976.

R 281.782.15 Natural and artificial channels and canals, city of Trenton; slow—no wake speed.

Rule 15. On the waters of all artificial and natural channels and canals, within the corporate limits of the city of Trenton, Wayne county, town 4 south, range 11 east, it is unlawful for the operator of a vessel to exceed a slow—no wake speed.

History: 1954 ACS 87, p. 10, Eff. May 29, 1976.

R 281.782.16 Detroit river, city of Wyandotte; slow—no wake speed zone.

Rule 16. On the waters of the Detroit river, adjacent to the city of Wyandotte, Wayne county, and hereinafter described, it is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 1,000 feet of the shore:

(a) South of a line beginning where Emmons boulevard as extended intersects the water's edge, thence southeasterly to the northernmost part of Grassy island and north of a line beginning where Goodell avenue as extended intersects the water's edge and thence east to Grassy island.

(b) South of a line beginning where Cedar street as extended intersects the water's edge, thence east to the Fighting island channel and north of a line beginning where Plum street as extended intersects the water's edge and thence east to Grosse Ile.

History: 1954 ACS 87, p. 10, Eff. Apr. 24, 1976.

R 281.782.17 Detroit river, city of Ecorse; slow—no wake speed zone.

Rule 17. On the waters of the Detroit river, adjacent to the city of Ecorse, Wayne county, and hereinafter described, it is unlawful for the operator of a vessel to exceed a slow—no wake speed when within 1,000 feet of the shore: within a line beginning where Outer drive as extended intersects the water's edge, thence south to the easternmost point of Mud island, thence south to the city of Ecorse corporation boundary and thence westerly to the water's edge.

History: 1954 ACS 87, p. 10, Eff. June 15, 1976.

R 281.782.18 Phoenix lake; motorboats prohibited.

Rule 18. On the waters of Phoenix lake and the canals and channels connected thereto, sections 14 and 23, T1S, R8E, Wayne county, it is unlawful to operate a motorboat.

History: 1954 ACS 96, p. 64, Eff. Aug. 25, 1978.

R 281.782.19 Rouge river, portion of; motorboats prohibited.

Rule 19. On that portion of the waters of the middle branch of the Rouge river and the canals and channels connected thereto, between Phoenix and Wilcox lakes, section 23, T1S, R8E, Wayne county, it is unlawful to operate a motorboat.

History: 1954 ACS 96, p. 64, Eff. Aug. 25, 1978.

R 281.782.20 Wilcox lake; motorboats prohibited.

Rule 20. On the waters of Wilcox lake and the canals and channels connected thereto, section 23, T1S, R8E, Wayne county, it is unlawful to operate a motorboat.

History: 1954 ACS 96, p. 64, Eff. Aug. 25, 1978.

R 281.782.21 Rouge river, portion of; motorboats prohibited.

Rule 21. On that portion of the waters of the middle branch of the Rouge river and the canals and channels connected thereto, between Wilcox and Newburgh lakes, sections 23, 25, and 26, T1S, R8E, Wayne county, it is unlawful to operate a motorboat.

History: 1954 ACS 96, p. 65, Eff. Aug. 25, 1978.

R 281.782.22 Newburgh lake; motorboats prohibited.

Rule 22. On the waters of Newburgh lake and the canals and channels connected thereto, section 25, T1S, R8E, and sections 30 and 31, T1S, R9E, Wayne county, it is unlawful to operate a motorboat.

History: 1954 ACS 96, p. 65, Eff. Aug. 25, 1978.

R 281.782.23 Rouge river, portion of; motorboats prohibited.

Rule 23. On that portion of the waters of the middle branch of the Rouge river and the canals and channels connected thereto, between Newburgh and Nankin lakes, sections 32 and 33, T1S, R9E, Wayne county, it is unlawful to operate a motorboat.

History: 1954 ACS 96, p. 65, Eff. Aug. 25, 1978.

R 281.782.24 Nankin lake; motorboats prohibited.

Rule 24. On the waters of Nankin lake and the canals and channels connected thereto, section 33, T1S, R9E, and section 4, T2S, R9E, Wayne county, it is unlawful to operate a motorboat.

History: 1954 ACS 96, p. 65, Eff. Aug. 25, 1978.

Regulation No. 83, Wexford county.

R 281.783.1 Berry lake.

Rule 1. On the waters of Berry lake, Clam Lake township, Wexford county, state of Michigan, no operator of any motorboat shall have in tow or shall otherwise assist in the propulsion of a person on water skis, water sled, surfboard, or other similar contrivance during the period from 6:30 p.m. to 10:00 a.m. of the following day.

History: 1954 ACS 43, p. 9, Eff. Aug. 14, 1965.

R 281.783.2 Meauwataka lake; hours for high-speed boating and water skiing.

Rule 2. On the waters of Meauwataka lake, sections 31 and 32, T23N, R10W, Colfax township, Wexford county, it is unlawful, during the period of May 15 to September 15, on Saturdays, Sundays, memorial day, independence day, and labor day, except between the hours of 10:00 a.m. and 6:30 p.m., to:

(a) Operate a vessel at high speed.

(b) Have in tow, or otherwise assist in the propulsion of, a person on water skis, a water sled, kite, surfboard, or other similar contrivance.

History: 1954 ACS 88, p. 51, Eff. July 9, 1976.

HYDROLOGICAL SURVEY DIVISION

INLAND LAKES AND STREAMS

R 281.801—R 281.810 Rescinded.

History: 1954 ACS 51, pp. 8-10, Eff. Aug. 15, 1967; rescinded 1954 ACS 79, p. 28, Eff. May 11, 1974.

INLAND LAKES AND STREAMS

(By authority conferred on the department of natural resources by section 11 of Act No. 346 of the Public Acts of 1972, being §281.961 of the Michigan Compiled Laws)

R 281.811 Definitions.

Rule 1. (1) The definitions in the act are applicable to these rules.

(2) "Act" means Act No. 346 of the Public Acts of 1972, being §281.951 et seq. of the Michigan Compiled Laws.

(3) "Applicant" means a person applying for a permit pursuant to the provisions of the act.

(4) "Bottomland dredging" means dredging of channels and canals, and the removal of any rock, stone or soil from bottomlands.

(5) "Bottomland filling" means placement of rock, stone, soil, or other material on bottomlands.

(6) "Minor drainage structures and facilities" means all of the following:

(a) Cross road culverts which serve only to equalize the existing water surfaces at the ends of the culvert.

(b) Cross road culverts constructed to continue the existence of drainage courses other than inland lakes or streams.

(c) Roadside ditches which serve to convey storm water runoff from the highway right-of-way without materially changing the drainage pattern which existed prior to the construction of the ditches.

(d) Standard appurtenances for storm water runoff facilities, such as manholes, catch basins and headwalls.

(e) Cross road culverts which are constructed for continuation of a drainage course where the drainage area above the culvert is less than 2 square miles.

(7) "Mainstream portions of natural watercourses" includes but is not limited to:

(a) Grand river drain (Jackson county)

Point of beginning: The intersection of Liberty and Milwaukee streets in the city of Jackson.

Point of ending: The west line of Rives township, Jackson county, 1,165 feet south of the northwest corner of section 7, T1S, R1W.

(b) Rogue river drain (Newaygo and Kent counties)

Point of beginning: At its intersection with the south line of section 2, T10N, R12W, Tyrone township, Kent county.

Point of ending: At Ransom lake in section 12, T11N, R12W, Grant township, Newaygo county.

(c) Shiawassee river trunk drain (Saginaw county)

Point of beginning: At the junction of the Shiawassee river and the Flint river in section 9, T11N, R4E, James township, Saginaw county.

Point of ending: At a point in mid-channel of said river in section 34, T10N, R3E, St. Charles township, Saginaw county, approximately 0.2 mile from the south line of section 34.

(d) (i) Clinton river drain (Macomb county)

Point of beginning: The Market street bridge in the city of Mount Clemens.

Point of ending: The Red Run drain outlet.

(ii) Clinton river drain (Oakland county)

Point of beginning: At the intersection with Orchard Lake road on the north line of section 32, T3N, R10E, city of Pontiac.

Point of ending: At the intersection with Auburn road on the east line of section 27, T3N, R10E, city of Pontiac.

(e) Black river drain (Sanilac county)

Point of beginning: At the south line of section 6, T10N, R16E, Lexington township, Sanilac county.

Point of ending: At the north line of section 1, T12N, R14E, Custer township, Sanilac county.

(f) Maple river drain (Gratiot and Shiawassee counties)

Point of beginning: At highway US-27, section 28, T9N, R2W, Washington township, Gratiot county.

Point of ending: At its upper terminus in section 3, T6N, R3E, Shiawassee township, Shiawassee county.

(g) Little Thornapple river drain (Barry and Ionia counties)

Point of beginning: At the south line (M-43) of section 13, T4N, R8W, Carlton township, Barry county.

Point of ending: At the outlet from Tupper lake where the outlet enters Jordan lake in section 34, T5N, R7W, Odessa township, Ionia county.

(h) Kawkawlin river drain (Bay county)

Point of beginning: Mouth of river on Saginaw bay, in section 33, T15N, R5E, Bangor township, Bay county.

Point of ending: At the intersection with Euclid avenue on the west side of section 5, T14N, R5E, Bangor township, Bay county.

(i) St. Joseph river drain (Hillsdale county)

Point of beginning: At intersection of the line between sections 8 and 9, T8S, R4W, Camden township, Hillsdale county.

Point of ending: At a point 715 feet southeast of the line between sections 25 and 26, T8S, R4W, Camden township, Hillsdale county.

(j) East branch of St. Joseph river drain (Hillsdale county)

Point of beginning: At intersection of the line between sections 33 and 34, T7S, R1W, Pittsford township, Hillsdale county.

Point of ending: At intersection with the state line.

(k) Pigeon river drain (Huron county)

Point of beginning: At the mouth of the Pigeon river on Saginaw bay in the village of Caseville, including the mouth of the Pigeon river cut-off drain.

Point of ending: To a point ¾ mile south of Kinde road in section 1, T17N, R10E, Caseville township, Huron county.

(8) "Reasonable sanding of beaches to the existing water's edge by a riparian owner" means placing a layer of sand, free of organic or other pollutant materials, which does not shift the location of the existing ordinary high water mark or shoreline contour.

History: 1954 ACS 79, p. 21, Eff. May 11, 1974.

R 281.812 Permit applications.

Rule 2. (1) Permit application forms shall be obtained from the hydrological survey division of the department or from any field office of the department. In addition to the completed application form, the applicant shall submit the following:

Digitized by Google

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) An application fee made payable to the state of Michigan.

(b) A map or diagram in black ink, on 8½" x 13" sheet of white paper, showing the proposed project and indicating the location of the ordinary high water mark if known; the existing water's edge; the adjacent shoreline property and structures if known; and contour information depicting the topography of the site.

(c) The name and address of an officer of any appropriate property owners' association, as recorded with the county clerk of the county in which the proposed project will be located and the names and addresses of adjacent or opposite riparians.

(2) In the case of upland channeling, cross-section profiles of the channel and the adjacent upland and soil information may be required by the department in addition to a permit application.

(3) In case of pipeline crossing for the transportation of hydrocarbons, evidence of having on file an approved contingency failure plan with the water resources commission shall be submitted to the department.

(4) Proposed marina plans shall show fills, pilings and other structures including moorage areas, boat storage areas, turning basins and traffic lanes existing or proposed. The plan shall include the extent of the riparian lands and bottomlands proposed to be used.

(5) The applicant shall submit a statement that there is or is not litigation involving the property.

(6) The department may require the submission of other information that may be necessary to complete an assessment of the proposed project.

History: 1954 ACS 79, p. 22, Eff. May 11, 1974.

R 281.813 Permit conditions.

Rule 3. (1) A permit shall provide that the work specified therein shall be completed within a specified term, normally not more than 1 year from the date of issuance, or as otherwise determined by the department. An extension of time may be granted by the department. An administrative fee shall not be required for an application for an extension of time.

(2) When a proposed project requires the crossing of numerous streams, the applicant shall submit a preliminary site plan showing the proposed work and all lakes or streams. After completing a timely field investigation, the department shall advise the applicant of those crossings which require a permit under the act.

(3) All proposed projects which involve a lake or stream crossing shall be subject to the specifications and standards prescribed in rules.

(4) A permit does not obviate the necessity of receiving approval from the state department of public health or a local unit of government where applicable, including a local unit of government responsible for administering Act No. 245 of the Public Acts of 1970, being §§281.631 to 281.645 of the Michigan Compiled Laws, Act No. 347 of the Public Acts of 1972, being §§282.101 to 282.117 of the Michigan Compiled Laws, and the United States army corps of engineers, where applicable.

(5) The department shall issue a conditional permit when emergency conditions warrant a project to protect property or the public health and welfare.

(6) The department may issue a permit where extension of work performed under an earlier permit will result in less or no damage to natural resources.

(7) The department shall not issue a permit, except a conditional permit, until 30 days after the mailing of the list to each eligible subscriber, as provided for in subsection (1) of section 6 of the act.

(8) Upon request, the department shall immediately provide any person a copy of a permit application and supporting documents, at cost of reproduction, if the documents are reproducible. If not reproducible, these documents may be examined at the department's office.

History: 1954 ACS 79, p. 22, Eff. May 11, 1974.

R 281.814 Environmental assessment.

Rule 4. In each application for a permit, all existing and potential adverse environmental effects shall be determined and a permit shall not be issued unless the department determines all of the following:

(a) That the adverse effects to the environment and the public trust are minimal and will be mitigated to the extent possible.

(b) That the resource affected is not a rare resource.

(c) That the public interest in the proposed development is greater than the public interest in the unavoidable degradation of the resource.

(d) That no feasible and prudent alternative location is available.

History: 1954 ACS 79, p. 23, Eff. May 11, 1974.

BRIDGE CONSTRUCTION

R 281.821 Bridge application procedures.

Rule 11. (1) Plans and specifications describing the proposed project should accompany the permit application form and be submitted to the hydrological survey division, department of natural resources, as soon as approved by the owner and at least 60 days prior to taking bids or initiating any work. Five copies of the plans and specifications should accompany the application form. Upon completion of a departmental review, the department shall issue the necessary permits under the act and Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.13 of the Michigan Compiled Laws.

(2) The following construction items require submission of plans and specifications:

(a) Programmed culvert replacements.

(b) Culverts replacing bridges.

(c) Bridges.

(d) Road improvement projects involving public waters.

(e) Structures affecting navigation.

History: 1954 ACS 79, p. 23, Eff. May 11, 1974.

R 281.822 Emergencies.

Rule 12. Culvert and bridge repairs or replacement may be made in an emergency situation upon contacting the department for verbal approval. A written report including details of emergency bridge and culvert repairs shall be forwarded to the department at the earliest practical date.

History: 1954 ACS 79, p. 23, Eff. May 11, 1974.

R 281.823 Bridge construction procedures.

Rule 13. (1) Each construction project should be completed so as to prevent erosion and subsequent damaging siltation of streams or lakes. The area of erodible land exposed to the elements by the grading operations at any one time shall be controlled by the owner's engineer and the duration of such exposure prior to final trimming, finishing or maintenance of the area should be as short as practical.

(2) Gravel or stone, consisting of durable particles of rock and containing only negligible quantities of fines, shall be used for construction pads, haul roads and temporary roads in or across streams.

(3) When required by the department, a sedimentation basin shall be constructed downstream from the work site to trap silt and sediment resulting from construction operations. A detailed sketch of a sedimentation basin is available on request from the department. The collected silt and sediment shall be removed as directed by the owner's engineer and the sedimentation basin removed on completion of the project. As found necessary, the department will assist the owner in the design of a sedimentation basin.

(4) The disturbance of lands and waters that are outside the limits of construction as staked shall be avoided.

(5) The owner shall give written notice 5 days prior to the start of work.

History: 1954 ACS 79, p. 23, Eff. May 11, 1974.

R 281.824 Specifications.

Rule 14. (1) The department of state highways standard specifications (1970 or later editions) listed below are necessary for the protection of the natural resources. These specifications are intended to cover all construction and other related work as it affects natural resources found in and adjacent to the work areas.

(2) General coverage in proposal or specifications:

(a) Protection and restoration of property.....Sec. 1.07.07 Std. Specs.
(b) Forest protection .....Sec. 1.07.13 Specs.
(c) Control of water pollution and siltation .....Sec. 1.07.14 Specs.
(d) Borrow areas.....Sec. 2.08.01 Std. Specs.
(e) Borrow area restoration.....Supp. Specs.
(f) Channel excavation.....Sec. 2.09.05 Std. Specs.

(3) Additional department of state highways standard specifications covering measures for prevention of erosion and siltation:

(a) Topsoil surface .....Sec. 6.53 Std. Specs.
(b) Mulching.....Sec. 6.54 Std. Specs.
(c) Seeding .....Sec. 6.52 Std. Specs.
(d) Fertilizing.....Sec. 6.52 Std. Specs.
(e) Riprap (plain-heavy) .....Sec. 6.01 Std. Specs.
(f) Cobble gutter (plain-grouted).....Sec. 6.03 Std. Specs.
(g) Slope planting.....Sec. 6.55 Std. Specs.
(h) Dune grass planting .....Sec. 6.56 Std. Specs.
(i) Sodding.....Sec. 6.51 Std. Specs.
(j) Slope protection.....Sec. 6.01 Std. Specs.
(k) Crushed limestone surface.....Supp. Specs.
(l) Paved ditches.....Supp. Specs.
(m) Rye seeding.....Sec. 6.52 & Supp. Specs.

(4) The state highway design office has information for the design engineer on control of erosion through sodding; water control by catch basins, downspouts, concrete shoulders and spillways; borrow restoration, particularly adjacent to highway limits; seeding, mulching, and plantings. Standard plans are available as follows:

(a) Special outlet headwalls, etc. E-4-A-9F
(b) Sodding, etc. E-4-A-10D
(c) Paved ditches, etc. E-4-A-110C
(d) Shoulder gutter and spillway.....E-4-A-128

History: 1954 ACS 79, p. 24, Eff. May 11, 1974.

PIPELINE AND OTHER UTILITY WATER CROSSING

R 281.831 Application procedures.

Rule 21. Plans for all underground utility projects where construction is contemplated to cross or be within 50 feet of a stream, lake or reservoir shall be furnished by the owner to the hydrological survey division of the bureau of water management of the department.

History: 1954 ACS 79, p. 24, Eff. May 11, 1974.

R 281.832 General requirements; all size pipelines and conduits.

Rule 22. (1) The owner or his agent shall submit general construction plans, including a route map and stream crossing specifications. These general plans and related documents shall be submitted not later than 3 months prior to the solicitation of bids and preferably the route plans should be reviewed with the department prior to acquisition of rights-of-way. Five copies of construction plans and specifications shall be submitted with the application.

(2) A pre-construction meeting shall be held if deemed necessary by either the department or the owner in order to thoroughly acquaint all concerned parties with the measures which must be taken to minimize erosion and siltation and properly protect the natural resources in the project area.

(3) Ten days' written notice shall be given to the department by the owner before the beginning of work.

(4) The owner shall take all necessary steps to prevent damage to fish and game habitat and to preserve the natural resources of the state. Excavation shall be carried out so as to minimize discharge of damaging material into any stream, lake, or reservoir.

(5) The work of clearing, scalping, grading, slope erosion protection, ditching, backfilling and final clean-up within 50 feet of streams, lakes, and reservoirs shall be completed within as short a period as reasonably possible in order to minimize erosion occurring from wind and precipitation.

(6) Trench excavation on any one spread shall be stopped when 10,000 feet remain open, except as authorized in the permit issued by the department.

(7) Replacing of bank plugs and grading of stream banks within 50 feet shall be accomplished immediately following pipe laying.

History: 1954 ACS 79, p. 24, Eff. May 11, 1974.

R 281.833 Special requirements.

Rule 23. Certain information and special protective measures may be required by the department at specified stream crossings. The following items, if required shall be outlined by the department to the owner either prior to or in the permit issued covering the job.

(a) Three days' oral notice of crossing, ditching, or blasting within 50 feet of certain stream crossings.

(b) Construction work across certain stream crossings may be prohibited within 3 days just preceding, or during, memorial day, independence day, or labor day holiday periods.

(c) Installation of approved warning signs may be required at certain stream crossings, to be located as directed by the department, to provide notice of pipeline crossing construction or excavation and shall be maintained by the owner until removal is authorized by the department or until the water crossing bed has been restored to normal.

(d) Soil data on certain water crossings may be requested to determine the nature of soil to be encountered and to delineate possible trouble areas with regard to trench excavation limits. A plan and profile sheet of the water crossing may be requested by the department where soil data indicates a need therefor.

(e) Temporary sedimentation basins or cofferdams may be required for certain water crossings. In such case, the provisions for sedimentation basins hereinafter set forth shall apply.

History: 1954 ACS 79, p. 25, Eff. May 11, 1974.

R 281.834 Sedimentation basins and cofferdams.

Rule 24. (1) Sedimentation basins or cofferdams, where required, shall be constructed prior to any other work at the site crossing. A detail sketch of a sediment basin is available on request from the department.

(2) Temporary weirs or cofferdams are to be removed, including any materials trapped by them in the control of siltation, within 2 weeks of final clean-up. Intermittent removal of silt or sand during construction may be required for proper operation of sedimentation basins. In any event, the sedimentation basins shall be cleaned before removal.

(3) Weirs shall be constructed of continuous interlocking steel sheeting except where other substitute materials are authorized by the department. When specified by the department, a detail sheet of the weir installation will be furnished by the owner.

(4) The owner is responsible for securing the necessary approval of private land owners where temporary additional right-of-way or easement is necessary to construct and operate a settling basin. An easement is not required in locations where the crossing is made on state owned lands.

History: 1954 ACS 79, p. 25, Eff. May 11, 1974.

R 281.835 Haul roads.

Rule 25. (1) Temporary haul roads crossing streams shall be constructed of coarse aggregate with culverts or logs or both laid parallel to the stream. Only coarse aggregate or metal or wood mats may be used as a running surface on log construction. The side slopes shall be protected with permanent riprap, as specified in R 281.836, up to a level 2 rows above the normal water level and over the ends of the culverts.

(2) Permanent haul roads crossing streams (roads that are to be left in place at the request of the property owner) will require a permit under Act No. 245 of the Public Acts of 1929, as amended. Plans and specifications for such crossing shall be prepared by a registered professional engineer and submitted by the property owner along with his application for a permit to construct the facilities.

(3) Both temporary and permanent haul roads shall have adequate top width to permit passage of all construction equipment without sloughing of side slopes.

(4) Culverts of adequate size and length, approved by the department, are required in both temporary and permanent haul roads.

(5) Fording of streams is permitted only where it will not cause either erosion or siltation.

History: 1954 ACS 79, p. 25, Eff. May 11, 1974.

R 281.836 Trench excavation.

Rule 26. (1) All pipe trenches shall be excavated to a depth which will provide a minimum cover of 30 inches from the bed of the stream to the top of the pipe.

Digitized by Google

This minimum cover shall control except where special conditions at certain water crossings may warrant a lesser or greater depth of cover.

(2) Appropriate trench excavation methods shall be employed to minimize material from the pipe trench flowing into the stream, giving due consideration to the soil, terrain, cover, side slopes and weather conditions involved.

(3) The pipe trench excavation shall stop some distance from the stream to leave a protective plug of 10 to 20 feet of unexcavated material at each bank. The plugs shall be left in place until the pipe laying operation across the stream has begun. Bypassing of water in the trench to the side by diversion ditches or by pumping may be required at certain water crossings.

(4) The trench in the stream bed may be backfilled if the material used does not cause excessive siltation. Stone, coarse aggregate or washed gravel shall be used where backfill is required and where use of existing material will cause excessive siltation.

(5) Pumping or draining from trench excavations shall be made on either side of the pipeline and not into the waters of the state. The owner shall secure the necessary approval of private land owners before discharging water from the trench excavation onto private lands.

History: 1954 ACS 79, p. 28, Eff. May 11, 1974.

R 281.837 Stream bank protection.

Rule 27. (1) Following the installation of the pipeline or cable, all work areas along or across streams or lakes shall be restored immediately and the exposed beds and banks shall not remain unprotected over 7 days, except where subsequent permission is provided for a pumping and testing operation.

(2) All disturbed stream banks shall have a finished slope no steeper than 1 on 2 (1 vertical and 2 horizontal) to prevent sloughing until stabilized by vegetative cover or riprap. The 1 on 2 slope shall be graded up and back to the high water line. If the top of the natural bank is more than 3 feet above the high water line, a minimum 10-foot berm shall be constructed at this level and the remaining slope constructed upward parallel with or on a flatter slope than the original natural bank.

(3) All raw soil exposed above the permanent riprap protection line shall be either sodded, riprapped or seeded, fertilized and mulched. Temporary riprap (sandbags) may be used.

(4) Mulch is to consist of 3 inches of straw or other approved material. Mulch on slopes greater than 10% shall be held in place by a spray of asphalt type SS-IS emulsion mixed with an equal amount of water.

(5) Seeding and fertilizing rates shall be as follows:

(a) Fertilizer per acre, 200 pounds of 6-24-24.

(b) Seed per acre, 10 pounds Kentucky 31 fescue, 3 pounds Birdsfoot trefoil and 3 pounds white clover.

(6) Permanent riprap shall be placed from the bed of the channel to 3 feet above normal high water line or to the top of the bank. Permanent riprap shall be 5 to 1 mix of sand to cement in burlap or canvas bags, sackrete, broken concrete, man-size rock or other material approved by the department. Sackrete where used shall be transferred to burlap or canvas bags.

(7) Deflection dikes, reinforced by 1 row of sandbags, shall be used to divert runoff and minimize slope erosion from steep slopes adjacent to water crossings, where the contributing runoff could be great enough to cause slope erosion. Water shall be diverted to undisturbed areas adjacent to the right-of-way.

(8) Deflection dikes shall be placed along the top of all stream banks where the entire slope is not protected with riprap. They shall also be placed at the top of and at 100-foot intervals or less on slopes greater than 20%.

History: 1954 ACS 79, p. 26, Eff. May 11, 1974.

R 281.838 Final clean-up.

Rule 28. Final clean-up shall consist of removing the temporary haul road across the stream; reshaping the stream as nearly as possible to its original configuration, width, depth and bottom material; protection of the stream banks as specified in R 281.837; and removing all construction material and debris from the crossing site, including any material and debris downstream from the site as a result of the pipeline construction.

History: 1954 ACS 79, p. 27, Eff. May 11, 1974.

R 281.839 Use of water for cleaning and testing pipeline.

Rule 29. (1) The cleaning and testing procedure shall be conducted in a manner that will minimize potential problems which might affect fish and game habitat or other natural resources of the state.

(2) Water used for filling the pipeline may be taken from a lake, stream or reservoir, if a written request is made to the department and the requisites listed below are met. In addition, location of points for discharge of cleaning and testing water shall be approved in advance by the department:

(a) Erosion or siltation are to be minimized.

(b) Appropriate releases from the affected riparians shall be obtained where the rate at which water is taken to fill a pipe is more than 30% of the flow at the time or if a state-owned lake or reservoir is exhausted beyond 15% of the total volume.

(c) Water containing detergent or rust from the pipe itself shall be discharged so as to prevent its flowing into any stream, lake or reservoir except where a special request for this specific procedure is made.

(d) Water used for hydrostatic testing shall be discharged in a manner and at a location which minimizes erosion or siltation to any stream or public reservoir, and which does not result in thermal pollution of any trout waters.

(e) The rights of downstream riparians shall be recognized and observed regardless of approval or a no objection statement from the department.

History: 1954 ACS 79, p. 27, Eff. May 11, 1974.

R 281.841 Bulkhead lines.

Rule 31. (1) An application by a local unit of government for the establishment of a bulkhead line pursuant to section 9 of the act shall be made by resolution adopted thereby requesting the department to hold a public hearing for the purpose of considering establishment thereof. The hearing shall be held in the applicant's jurisdiction pursuant to section 6 of the act.

(2) An ordinance adopted by a local unit of government to exercise control landward of an established bulkhead line shall be consistent with the act and in accordance with these rules. The local unit of government shall submit a proposed ordinance to the department for review and approval prior to formal adoption thereby. A copy of an application received by a local unit of government pursuant to its ordinance shall be forwarded to the hydrological survey division prior to issuance of a permit. Variance from the ordinance shall not be granted unless approved by the department.

(3) When establishing a bulkhead line on its own application, the department may retain jurisdiction over the area landward of the bulkhead line to the ordinary high-water mark.

History: 1954 ACS 79, p. 27, Eff. May 11, 1974.

R 281.842 Notification of pending applications.

Rule 32. The list prepared and mailed by the department pursuant to subsection (1) of section 6 of the act will include permit applications received during each week and projects for which permits have been issued. The list shall be mailed weekly to each subscriber. The list includes information on process number, job name, applicant name and address, watercourse, watershed, location of proposal by town, range and section and project description.

History: 1954 ACS 79, p. 27, Eff. May 11, 1974.

R 281.843 Hearings.

Rule 33. (1) The department may hold a public informational hearing when a proposed project appears to be controversial, or where additional information is desired prior to action by the department. The department shall make a determination on the permit application within 30 days following the hearing.

(2) All other hearings shall be conducted in accordance with subsection (2) of section 11 of the act.

(3) All persons who receive notification under subsection (1) of section 6 of the act shall receive at least 10 days' prior notification of any hearings held under this act.

History: 1954 ACS 79, p. 28, Eff. May 11, 1974.

R 281.844 Inspection and certification of completed project.

Rule 34. (1) The applicant shall notify the hydrological survey division within 48 hours of completion of the project to facilitate scheduling a final inspection prior to certification.

(2) The department shall schedule its field inspection of a completed project only when weather conditions will permit a thorough inspection thereof.

History: 1954 ACS 79, p. 28, Eff. May 11, 1974.

R 281.845 Special conditions.

Rule 35. Whenever vertically upward bottomland displacement, also called surcharge, results from filling or other activity immediately adjacent to the displacement area by the applicant, he shall be responsible for its timely removal at the direction of the department.

History: 1954 ACS 79, p. 28, Eff. May 11, 1974.

R 281.846 Rescission.

Rule 36. The rules of the department entitled "Inland Lakes and Streams" being R 281.801 to R 281.810 of the Michigan Administrative Code and appearing on pages 4120 to 4122 of the 1967 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 79, p. 28, Eff. May 11, 1974.

GREAT LAKES SUBMERGED LANDS

(By authority conferred on the department of conservation by section 9 of Act No. 247 of the Public Acts of 1955, section 252 of Act No. 380 of the Public Acts of 1965, and sections 2 and 4 of Act No. 197 of the Public Acts of 1952, as amended, being §§322.709, 16.352, 24.102, and 24.104 of the Michigan Compiled Laws)

R 281.901 Scope and definitions.

Rule 1. (1) These rules are promulgated for the purpose of implementing Act No. 247 of the Public Acts of 1955, as amended, being §§322.701 to 322.711 of the Michigan Compiled Laws, hereinafter referred to as the act.

(2) "Ordinary high-water mark" means the line between upland and bottomland which persists through successive changes in water levels, and below which the presence and action of the water is so common or recurrent as to mark upon the soil a character, distinct from that which occurs on the upland, as to the soil itself, the configuration of the surface of the soil and the vegetation. When the soil, configuration of the surface or vegetation have been altered by man's activity, the ordinary high-water mark shall be located where it would have been if this alteration had not occurred.

(3) "Department" means the department of conservation.

(4) "Bottomland" means lands in the Great Lakes and bays and harbors thereof lying below and lakeward of the ordinary high-water mark.

(5) "Marina" means a dock, wharf, pier, mooring space, or other facility used for the servicing of watercraft of any size and kind which are used (a) for the business of transporting public or private passengers or freight, or (b) for recreational purposes and the marina is available to the public and charges are made for any of its services.

(6) "Submerged patented lands" means any submerged lands lying within a specific legal government grant area.

(7) "Upland" means the riparian or littoral property contiguous to the bottomland for which application is made.

History: 1954 ACS 51, p. 11, Eff. Aug. 15, 1967.

R 281.902 Applications; forms and number.

Rule 2. Application forms for deeds, leases, agreements, permits, or certificates shall be obtained from the lands division, department of conservation, Lansing, Michigan, or from any field office of the department. A separate application shall be filed for each separate parcel of filled or unfilled unpatented lake bottomland, or water area over patented submerged land, or for a certificate of boundary, except that 1 application may be accepted for more than 1 parcel of bottomland fronting on a single upland ownership.

History: 1954 ACS 51, p. 11, Eff. Aug. 15, 1967.

R 281.903 Applications; contents.

Rule 3. An application of any kind shall indicate the extent of the applicant's riparian interest and shall include the names and addresses of adjoining riparian owners. The extended lines of a description of bottomland for which application is made shall not enter the area of riparian rights held by any other riparian owner. The application shall indicate that the applicant is the direct abutting upland owner opposite the bottomland or water area applied for or opposite the boundary requested to be certified or that he otherwise has a legal right to file the application.

History: 1954 ACS 51, p. 11, Eff. Aug. 15, 1967.

R 281.904 Applications; title evidence and maps.

Rule 4. (1) An application for a deed, lease, agreement, or certificate shall be accompanied by evidence of title consisting of an abstract of title, title insurance or other evidence deemed by the department sufficient to entitle the applicant to receive a deed, lease, agreement, or certificate.

(2) Application for a deed, lease, agreement, or certificate shall be accompanied by a map on 1 or more sheets of substantial paper or tracing cloth, including blueprints or their equivalent, excluding tracing paper, and prepared by a registered land surveyor. The map shall show the upland property owned by the applicant and the bottomland or water area applied for, or the location of the boundary to be certified, together with the water's edge at the time of the survey. The ordinary high-water mark shall also be shown. The map shall be prepared at a scale not smaller than 100 feet to an inch. The survey shall be by metes and bounds and shall be tied to a legal corner of a subdivision, according to the original government survey, of a private claim, or of any lot, block or boundary corner of a recorded subdivision or plat generally accepted and used for legal conveyancing of property in the area. The corner shall not be located on submerged land of the Great Lakes at the time the survey is made. All angles and lines measured on or from the upland used to calculate by triangulation the position of any points or lines on bottomland shall be shown. The survey description of the areas applied for and the certification by a registered surveyor shall appear on the face of the map.

History: 1954 ACS 51, p. 11, Eff. Aug. 15, 1967.

R 281.905 Surveys of bottomland filled or to be filled.

Rule 5. In addition to the requirements of R 281.904 where unpatented bottomland is filled or to be filled, or patented bottomland is to be filled, the survey shall show the location of the ordinary high-water mark with relation to the outermost edge of any sheet piling, shoring, cribwork, seawall, or similar installation providing for a vertical face. Where no such installations have been placed, the survey lines shall run along the outermost edge of the base of the natural slope of the material used for making and protecting the fill. Such lines may be straight, curved, or similarly regular along practical courses rather than following the exact irregular edges of such fill bases, but shall follow such edges as closely as practicable along average lines.

History: 1954 ACS 51, p. 12, Eff. Aug. 15, 1967.

R 281.906 Approvals by governmental agencies and units.

Rule 6. The approvals of governmental agencies and units shall accompany the application as follows:

(a) Action by the United States corps of engineers shall be in permit or letter form to the applicant and shall indicate the consent or nonobjection of the corps from the standpoint of federal navigation.

(b) Approval by the state waterways commission shall be in letter form to the applicant and shall indicate the consent or nonobjection of the commission.

(c) Approval by a local unit of government shall be in the form of a certified copy of a resolution of its legislative body.

History: 1954 ACS 51, p. 12, Eff. Aug. 15, 1967.

R 281.907 Marinas.

Rule 7. (1) When an application is made for bottomland or water area for marina purposes, the protection and enhancement of the public interest in the bottomlands and waters of the Great Lakes shall be of primary concern. The department will consider the character and current uses of adjacent shore and lake properties and local zoning ordinances. An applicant may be required to furnish supporting evidence satisfactory to the department that marina services in the locality are necessary.

(2) The survey in addition to other requirements, shall show all fills, pilings, structures, and improvements including mooring area, boat storage, turning basins, and traffic lanes, existing at the date of the application or to be constructed or located thereafter, and the location, number, and size of all boat wells or slips.

History: 1954 ACS 51, p. 12, Eff. Aug. 15, 1967.

R 281.908 Marinas; leases.

Rule 8. (1) A lease for marina purposes shall not exceed a term of 50 years and shall provide for its renewal or extension upon satisfactory performance during the prior term.

(2) The lease shall provide for an advance annual rental equal to 10% of the fair cash value of the bottomland covered by the lease less the value of any improvements. In any case, the annual rental shall not be less than $50.00. If economic conditions change, the lessee may petition the department for a redetermination of the annual rental.

(3) The lease shall provide that the lessee remove structures and improvements on the leased premises after nonuse or abandonment, and piling and other hazards to safety and navigation when required by the department.

(4) An assignment or other agreement affecting the lease is not valid except after written approval by the department. An executed copy of the assignment or agreement shall be furnished to the department.

History: 1954 ACS 51, p. 12, Eff. Aug. 15, 1967.

R 281.909 Marinas; bonds.

Rule 9. The applicant for marina purposes shall file a surety bond or other assurance satisfactory to the department immediately after final approval by the state administrative board and before execution of the lease by the department, conditioned that he will truly and faithfully perform the covenants, conditions and agreements specified in the application and lease and further conditioned that all pilings or other structures that may be a hazard to navigation or interfere with the public trust, be removed upon cancellation or termination of the lease. The amount of the bond shall be determined by the department and be commensurate with the financial obligations incurred in fulfilling all covenants, conditions, agreements, and requirements of the application and lease. The bond shall be in effect for the period of the lease term, plus 2 years.

History: 1954 ACS 51, p. 12, Eff. Aug. 15, 1967.

R 281.910 Marinas; termination of leases.

Rule 10. (1) A lease shall be forfeited and all rights thereunder terminated if the lessee fails to start and proceed with due diligence to complete the marina within 2 years from the date of the lease or a longer period of time set forth in the lease, or if the lessee, for any consecutive 2 years or longer period set forth in the lease, fails to operate the marina. The department, upon request of the lessee, may extend such periods.

(2) Upon expiration of the lease or upon non-use or abandonment of the leased premises for marina purposes, and following performance of the requirements outlined in R 281.909, the lessee shall execute and deliver to the department a recordable release of all his rights and interests in the leased premises. The release shall not become effective until the lease and surety bond requirements and obligations have been met and the bond duly discharged.

R 281.911 Application fees.

Rule 11. The application fee required by the act shall accompany an application and be remitted by check, money order, or bank draft. A fee is not required for a permit to excavate, dredge, or place spoil or other materials on bottomland. Upon approval by the state administrative board of the deed, lease, agreement, or certificate, the applicant is entitled to credit of the application fee against any additional consideration required to be paid.

History: 1954 ACS 51, p. 13, Eff. Aug. 15, 1967.

R 281.912 Processing of applications by department.

Rule 12. (1) An application for a permit to alter or maintain an existing channel or to excavate a new channel for the purpose of accommodating small pleasure craft or for beach improvement may be filed with any field office of the department or a local conservation officer. A local conservation officer may issue a permit for such a purpose if there is no substantial damage to or interference with any public interest, including fishing, hunting, swimming, pleasure boating, or navigation. Where he observes such excavation or improvement and a permit has not been issued, he shall inform the riparian owner of the requirement for a permit and upon application, shall issue a permit if the project is within the scope of this paragraph.

(2) The department may require acquiescence or approval in writing by adjacent riparian owners if the application raises questions concerning lines of riparian rights extended or interference with adjacent riparian owners. Failure to settle a dispute concerning riparian lines extending over bottomland shall be resolved by the courts before further action is taken by the department.

(3) The department reserves the right to offer such deed, lease, agreement, or certificate as will best serve the public interest.

(4) In case of a project for a fill, the department may require a surety bond or other acceptable guarantee depending on the nature of the project and ability of the applicant to complete the project satisfactorily during the period of construction.

History: 1954 ACS 51, p. 13, Eff. Aug. 15, 1967.

R 281.913 Criteria for considering applications.

Rule 13. (1) When an application is made for unpatented, unfilled lake bottomland or for a water area over patented lake bottomland or for certification of boundaries, the act shall be construed to preserve and protect the interests of the general public. The maintenance of the shoreline and the preservation of the public trust are of primary concern.

(2) An application for the purposes of flood, shore erosion, drainage or sanitation control will be considered where need for such control is necessary.

(3) An application for straightening shorelines will be considered where it is desirable to establish a smooth, free-flowing shoreline, free of natural or man-made irregularities or those caused by other activities of man beyond the control of the applicant.

(4) Any other application for filling bottomlands or water areas will be considered when in the public interest or when it will not substantially affect the public trust.

History: 1954 ACS 51, p. 13, Eff. Aug. 15, 1967.

R 281.914 Consideration.

Rule 14. (1) In determining the consideration to be paid for the conveyance of unpatented bottomland filled prior to October 14, 1955, the improvements which

are to be excluded in determining the fair cash market value of the property are construed to be buildings, equipment attached to the land, installations, other improvements placed on the land after filling, erosion control works such as sheet piling, shoring, cribwork, seawalls, or similar installations to protect fills from erosion.

(2) The consideration to be paid for the conveyance of unpatented bottomlands shall not be less than the fair cash market value of the lands less improvements but in no case less than $50.00 or less than 30% of the value of the land as determined from the value of adjacent uplands.

(3) No consideration is required for a permit or agreement to fill or occupy water areas over patented lands except the $50.00 filing fee.

History: 1954 ACS 51, p. 14, Eff. Aug. 15, 1967.

R 281.915 Hearings.

Rule 15. The department upon its own motion, or upon the request of any interested party, may hold a hearing before consideration of any application for a deed, lease, agreement, boundary certificate, or permit to fill or dredge unpatented bottomland or water area over patented bottomland. Any hearing under these rules shall be conducted in accordance with Act No. 197 of the Public Acts of 1952, as amended, being §§24.101 to 24.110 of the Michigan Compiled Laws. The department shall give notice of the hearing to known interested parties including adjoining riparians. Notice of a hearing shall be by certified mail, return receipt requested, to the sendee's last known address on file with the department, or by at least 1 publication in a newspaper of general circulation in the county where the affected waters lie, in either case, not less than 20 days before the hearing. On termination of the hearing, and after review of the testimony, a decision shall be made on the merits and the application approved or disapproved, and thereafter if approved, shall be submitted to the conservation commission and state administrative board for final disposition.

History: 1954 ACS 51, p. 14, Eff. Aug. 15, 1967.

MARINE AND RECREATIONAL VEHICLE SECTION

GENERAL RULES

(By authority conferred on the department of conservation by sections 27 and 151 of Act No. 303 of the Public Acts of 1967, being §§281.1027 and 281.1151 of the Michigan Compiled Laws)

PART 1. REGATTAS AND MARINE PARADES

R 281.1001 Definitions.

Rule 1. The terms defined in Act No. 303 of the Public Acts of 1967, being §§281.1001 to 281.1199 of the Michigan Compiled Laws, have the same meaning when used in these rules.

History: 1954 ACS 53, p. 5, Eff. Feb. 14, 1968.

R 281.1002 Applications; filing and contents.

Rule 2. An individual or organization planning to hold a regatta or marine parade on the waters of this state shall file with the director an application for a sanction to hold such event. The application shall include the following:

(a) Name and address of applicant.

Digitized by Google

(b) Name and address of sponsoring organization.
(c) Name, address and telephone number of person in charge of event.
(d) Nature and purpose of event.
(e) Location where the proposed event is to be held, including body of water, township and county.
(f) Sketch of the body of water showing portion to be used for the event, including dimensions.
(g) Date and hours of proposed event.
(h) Time schedule and description of event.
(i) Estimated number and types of vessels participating in event.
(j) Estimated number and types of spectator vessels.
(k) Number of vessels to be furnished by sponsoring organization to patrol event.
(l) Number of vessels to be furnished by county sheriff's department for patrol to protect the public interest and safety.
(m) Information as to general public interest in the event.
(n) Signature of applicant.

History: 1954 ACS 53, p. 5, Eff. Feb. 14, 1968.

R 281.1003 Action by director on applications.

Rule 3. (1) The director shall determine whether the proposed regatta or marine parade may be held in the proposed location with safety of life and property. To assist in his determination, if he deems it necessary, he may hold a public hearing to obtain the views of all persons interested in, or who will be affected by, the regatta or marine parade.

(2) The director shall notify the applicant of 1 of the following decisions and issue a sanction for the event in case it is approved:

(a) That the application is approved and the event requires no restriction or patrol of the regatta or marine parade area.

(b) That the application is approved, and the nature of the limited restrictions, if any, which he has established pursuant to R 281.1004.

(c) That the interest of safety of life and property on the waters of this state requires specific change or changes in the application before it can be approved.

(d) That the application is disapproved, with reasons for such disapproval.

(3) Where such events are to be held regularly or repeatedly in a single area by an individual or organization, the director, subject to conditions established by him, may issue a sanction for such series of events for a fixed period not to exceed 1 year.

History: 1954 ACS 53, p. 6, Eff. Feb. 14, 1968.

R 281.1004 Limited restrictions on water activities in area.

Rule 4. In approving a regatta or marine parade, the director in the interest of safety may establish limited restrictions on the movement of vessels or other water activities in the immediate area of the event. The restrictions shall be limited to the time immediately prior to, during and immediately after the approved regatta or marine parade.

History: 1954 ACS 53, p. 6, Eff. Feb. 14, 1968.

R 281.1005 Public notice of events and limited restrictions.

Rule 5. (1) After approving a regatta or marine parade and establishing limited restrictions pertaining thereto, the director shall give the public full and adequate notice of the time and location of the regatta or marine parade, together with full and complete information as to the limited restrictions.

(2) After approving a regatta or marine parade and determining that limited restrictions are not necessary, the director may require the sponsors of the event to give the public full and adequate notice of the time and location of the event.

(3) Notices under this rule shall be published at least once, not less than 5 days prior to the holding of the event, in a newspaper of general circulation in the area where the event will be held.

History: 1954 ACS 53, p. 6, Eff. Feb. 14, 1968.

R 281.1006 Patrol of regattas and marine parades.

Rule 6. The director, if he deems it necessary for safety, may require 1 or more marine enforcement vessels to patrol the course of the regatta or marine parade for the purpose of enforcing not only the limited restrictions, but also for assistance of persons or property in peril, and the enforcement of laws generally. Issuance of the sanction may be made contingent upon meeting the requirement for patrol vessels.

History: 1954 ACS 53, p. 6, Eff. Feb. 14, 1968.

R 281.1007 Aids to navigation.

Rule 7. The director may require the sponsors of an approved regatta or marine parade to establish aids to navigation as he deems necessary to assist in the observance and enforcement of the limited restrictions established by him or are incidental to the holding of the regatta or marine parade.

History: 1954 ACS 53, p. 6, Eff. Feb. 14, 1968.

PART 2. WATERCRAFT CAPACITY AND HORSEPOWER FORMULA

R 281.1021—R 281.1026 Rescinded.

History: 1954 ACS 55, pp. 5-8, Eff. Aug. 14, 1968; rescinded 1954 ACS 82, p. 11, Eff. Jan. 1, 1975.

PART 3. STATE AID FOR MARINE SAFETY PROGRAMS

R 281.1031 Definitions.

Rule 31. (1) As used in these rules:

(a) "Act" means Act No. 303 of the Public Acts of 1967, as amended, being §§281.1001 to 281.1199 of the Michigan Compiled Laws.

(b) "Need study" means a study conducted by the department to assist in determining the amount of state aid to be allocated to a county for its marine safety program.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 55, p. 9, Eff. Aug. 14, 1968; 1954 ACS 95, p. 27, Eff. May 20, 1978.

R 281.1032 Requests for state aid.

Rule 32. The county clerk of a county requesting state aid for the conduct of a marine safety program shall, by December 31 of each year, submit to the department an estimate of authorized expenditures for the following calendar year on forms furnished by the department. The estimate of authorized expenditures shall consist of a complete statement on the type and extent of the marine safety program to be conducted and a certification that the board of commissioners has appropriated the funds indicated on the estimate of authorized expenditures. Submission of an estimate of authorized expenditures by a county is deemed an agreement by the county to comply with these rules.

History: 1954 ACS 55, p. 9, Eff. Aug. 14, 1968; 1954 ACS 95, p. 27, Eff. May 20, 1978.

R 281.1033 Marine safety functions.

Rule 33. (1) Equipment which has originally been purchased with state matching funds or has been included in a claim for which reimbursement has been made in accordance with the act and these rules shall be used exclusively in the conduct of the marine safety program.

(2) Marine safety laws applicable to waters within the county's jurisdiction shall be enforced. Court disposition shall be submitted on forms prescribed by the department.

(3) Marine complaints and marine violations within the county's jurisdiction including those referred to the county by the department, shall be investigated.

(4) The department shall purchase uniform vessel violation notices and furnish them to the counties participating in the marine safety program. A county may purchase vessel violation notices provided the violation notice contains the minimum information contained on the uniform vessel violation notice furnished by the department. A participating county shall issue vessel violation notices for violation of marine safety laws and rules promulgated in accordance with marine statutes.

(5) Marine accidents occurring within the county's jurisdiction shall be investigated and required reports submitted.

(6) Reasonable efforts shall be made to recover bodies of persons drowned in waters within the county's jurisdiction but outside the corporate limits of a city.

(7) Livery boats within the county shall be inspected for compliance with Act No. 257 of the Public Acts of 1952, as amended, being §281.561 et seq. of the Michigan Compiled Laws, and rules established thereunder.

(8) Equipment purchased or leased under the state aid program shall be made available to the director or his authorized representative for the purpose of inspection, investigation, or other official duties.

(9) Cooperation with the United States coast guard, other counties of the state, the Michigan state police, and the department, shall be given upon request of the director or his authorized representative.

History: 1954 ACS 55, p. 9, Eff. Aug. 14, 1968; 1954 ACS 95, p. 27, Eff. May 20, 1978.

R 281.1034 Personnel.

Rule 34. (1) Personnel assigned to marine safety duties shall be mentally and physically capable of performing the duties to which they are assigned. They shall have a good knowledge of the provisions of Act No. 303 of the Public Acts of 1967, as amended, Act No. 257 of the Public Acts of 1952, as amended, Act No. 139 of the Public Acts of 1947, being §§281.1001 et seq., 281.561 et seq., and 51.301 et seq. of the Michigan Compiled Laws, and all rules promulgated in accordance with the provisions of such acts. They shall have a good knowledge of the powers, duties, and limitations of authority of peace officers and a thorough knowledge of the operation of small boats. The authority of personnel who have not completed the required hours of training pursuant to Act No. 187 of the Public Acts of 1970, being §§28.601 to 28.616 of the Michigan Compiled Laws, shall be restricted to the following acts:

(a) Act No. 303 of the Public Acts of 1967, as amended, being §§281.1001 to 281.1199 of the Michigan Compiled Laws, and rules and local ordinances established in accordance with the provisions of the act.

(b) Act No. 167 of the Public Acts of 1970, being §§323.331 to 323.342 of the Michigan Compiled Laws, and rules established in accordance with the provisions of the act.

(c) Act No. 106 of the Public Acts of 1963, being §§752.901 to 752.906 of the Michigan Compiled Laws.

(d) Act No. 257 of the Public Acts of 1952, being §§281.561 to 281.569 of the Michigan Compiled Laws, and rules established in accordance with the provisions of the act.

(e) Act No. 228 of the Public Acts of 1965, being §§281.801 to 281.813 of the Michigan Compiled Laws, and rules established in accordance with the provisions of the act.

(f) Act No. 139 of the Public Acts of 1947, being §§51.301 to 51.302 of the Michigan Compiled Laws.

(g) Sections 167 to 168 of Act No. 328 of the Public Acts of 1931, being §§750.167 and 750.168 of the Michigan Compiled Laws.

(2) Such personnel shall actively cooperate with the director or his representatives including but not limited to, the answering of questions, making reports, and showing records as requested.

(3) Hourly pay rates for personnel assigned to marine safety duties shall not exceed the hourly rates of other personnel assigned to similar duties within the county sheriff's department.

(4) Personnel assigned to marine safety duties shall not be paid overtime or premium pay unless such personnel have worked in excess of 40 hours on marine safety duties in a scheduled work week. Overtime may be paid for hours worked in excess of 40 hours if approved by the county sheriff or immediate supervisor.

(5) A county sheriff is not eligible to receive payment of salary or wages from the marine safety fund.

History: 1954 ACS 55, p. 9, Eff. Aug. 14, 1968; 1954 ACS 95, p. 28, Eff. May 20, 1978.

R 281.1035 Publicity, records, and reports.

Rule 35. (1) Publicity shall be disseminated by the county regarding existing laws and rules and any new laws or rules which may be established. Persons shall be provided with information regarding safe methods of vessel operation.

(2) Public information provided by the department shall be distributed by the county.

(3) The county shall maintain records pertaining to marine violations, marine related accidents, body recovery, livery boat inspections, boating safety education, public meetings attended, daily vehicle mileage, daily personnel time records, and marine program expenditures.

(4) Daily time records shall be maintained by the county for each employee assigned to marine safety duties. Reimbursement to the county shall be made for hours actually worked in the marine safety program as documented by daily time records.

(5) Reports as may be required by the director or his authorized representative shall be submitted by the county.

(6) A detail of authorized expenditures actually incurred shall be submitted to the department by the county and shall be certified as true and correct.

History: 1954 ACS 95, p. 28, Eff. May 20, 1978.

R 281.1036 County restricted marine safety funds.

Rule 36. Using the county appropriation for the conduct of a marine safety program for the following calendar year the county treasurer or fiscal officer shall establish a restricted marine safety fund for such calendar year. Special account numbers and expenditure voucher retention procedures shall be as directed by the local audit division of the state department of treasury. Expenditures from the

fund shall be made solely for the payroll and authorized expenditure costs of the marine safety program.

History: 1954 ACS 55, p. 10, Eff. Aug. 14, 1968.

R 281.1037 State aid claim vouchers.

Rule 37. (1) Within 90 days after the close of the calendar year for which a county has submitted the required certified resolution and the estimate of authorized expenditures and has conducted the marine safety program, the county fiscal officer shall file a state aid claim voucher with the department on forms provided by the department. State aid claim vouchers, or supplements thereto, received subsequent to such 90-day period are not eligible for payment.

(2) The director or his authorized representative shall review a state aid claim voucher and shall certify the claim for payment in accordance with the following procedure:

(a) Expenditures not in accordance with the act, the schedule of authorized expenditures, and these rules shall be deducted.

(b) The department shall certify for payment the lesser of the following:

(i) Two-thirds of the total of the claim voucher after all necessary adjustments have been made.

(ii) The amount of state aid originally approved on the county's marine budget.

History: 1954 ACS 55, p. 10, Eff. Aug. 14, 1968; 1954 ACS 95, p. 29, Eff. May 20, 1978.

R 281.1038 Authorized expenditures.

Rule 38. (1) Two-thirds of the payroll and other expenditures when made in accordance with the schedule of authorized expenditures prepared by the director and with these rules shall, subject to R 281.1037, be reimbursable to a county upon submission of a claim. However, other items of expenditures may be authorized if found to be reasonable and necessary. Prior approval of an expenditure not contained on the schedule of authorized expenditures shall be obtained from the department in writing; otherwise, such expenditure shall not be considered an authorized expenditure and shall not qualify for reimbursement.

(2) If authorized equipment, which has originally been purchased with state matching funds or has been included in a claim for which reimbursement has been made in accordance with the act and these rules, is in need of replacement, the trade-in value or fair market value shall not be included in the claim for reimbursement for the purchase of new equipment.

(3) Receipts from the sale of any equipment and gas tax and insurance premium refunds shall be deposited to the credit of the county marine safety fund and deducted from the claim on the state aid voucher form R 9250.

History: 1954 ACS 55, p. 10, Eff. Aug. 14, 1968; 1954 ACS 95, p. 29, Eff. May 20, 1978.

R 281.1039 Withholding and denying payment of claims.

Rule 39. (1) The department reserves the right to withhold payment of a claim pending investigation of the details of such claim.

(2) The department reserves the right to deny payment of a claim, or part thereof, which is not in accordance with the schedule of authorized expenditures or for which prior written authorization was not obtained from the department.

(3) The department reserves the right to deny payment of a claim if any part of such claim is found to be false and submitted with intent to defraud.

(4) The department reserves the right to deny payment of a claim for compensation paid to personnel deemed to be unfit to carry out the duties assigned to them.

(5) The department reserves the right to deny payment to any county which, in the opinion of the director, after investigation and written notice, is not adequately conducting a marine safety program, is not submitting the required reports, or is not complying with these rules.

History: 1954 ACS 55, p. 11, Eff. Aug. 14, 1968; 1954 ACS 95, p. 29, Eff. May 20, 1978.

R 281.1040 Discontinuance of county participation in state aid.

Rule 40. (1) If a county discontinues participation in the state aid program, the county clerk shall, by December 31 of the year prior to discontinuance, notify the department of the county's decision by certified resolution. Upon submission of a state aid voucher for the final calendar year of county participation, a deduction shall be made from the total state aid voucher of the fair market value of all authorized equipment previously included in a claim for which reimbursement has been made in accordance with the act and these rules. For those years when a proration was applicable to equipment purchases, such proration shall be taken into consideration.

(2) When the fair market value of such authorized equipment exceeds the total claim for the final year of county participation, ⅘ of such excess, excluding the proration, if applicable, shall be refunded to the department by the county and deposited in the state treasury to the credit of the marine safety fund.

(3) If the county is utilizing equipment furnished by the department without expense to the county, such equipment shall be reclaimed by the department.

(4) If it is deemed by the department to be in the best interest of the state, the department reserves the right to claim any equipment from the county which was purchased with marine safety funds for which reimbursement has been made by paying to the county ⅕ of the fair market value of such equipment. For those years when a proration was applicable to equipment purchases, such proration shall be taken into consideration.

History: 1954 ACS 55, p. 11, Eff. Aug. 14, 1968; 1954 ACS 95, p. 29, Eff. May 20, 1978.

STATE UNIFORM WATERWAY MARKING SYSTEM

(By authority conferred on the commission of natural resources by section 142 of Act No. 303 of the Public Acts of 1967, being §281.1142 of the Michigan Compiled Laws)

R 281.1101 Definitions.

Rule 1. (1) "Act" means Act No. 303 of the Public Acts of 1967, as amended, being §§281.1001 to 281.1199 of the Michigan Compiled Laws. Terms defined in the act have the same meanings when used in these rules.

(2) "Buoy" means a floating device, including, but not limited to, can, nun, mooring and spar, which by means of certain specifications shall be used to warn vessel operators of natural or artificial obstructions or hazards; to indicate safe channels and to furnish information and control vessel operation.

(3) "Cardinal system" means an aid to navigation based on the cardinal points of the compass, north, east, south, and west.

(4) "Lateral system" means aids to navigation based on the use of red and black solid colored buoys.

(5) "Occulting" means a light totally eclipsed at regular intervals, the duration of light always greater than the duration of darkness.

(6) "Quick flashing" means a light flashing not less than 60 flashes per minute.

(7) "Regulatory marker" means a buoy or daymark that indicates to a vessel operator the existence of dangerous areas, restricted or controlled areas and provides information and directions; regulatory marker does not include buoys used to mark fish nets and devices.

(8) "Slow flashing" means a light flashing not more than 30 flashes per minute.

(9) "Uniform waterway marker system" means the system of private aids to navigation, including regulatory markers, which may be placed in the waters of the state.

History: 1954 ACS 83, p. 13, Eff. Apr. 22, 1975.

R 281.1102 Applicability.

Rule 2. These rules apply to any person placing regulatory markers or other aids to navigation on any waters within the territorial limits of this state including those waters of the Great Lakes which are under the jurisdiction of this state.

History: 1954 ACS 83, p. 14, Eff. Apr. 22, 1975.

R 281.1103 Revocable marker permits.

Rule 3. (1) A person shall not place buoys, markers or aids to navigation, except mooring buoys and buoys for marking fish nets or fishing devices, in any waters of the state unless a permit granting authority to do so has been issued by the department or the United States coast guard.

(2) A person desiring to place buoys, markers or aids to navigation, except mooring buoys and buoys for marking fish nets or fishing devices, in any waters of the state shall comply with the following:

(a) File an application for a revocable marker permit with the department on forms furnished by the department.

(b) Place the buoys, markers or aids to navigation in accordance with the location, specifications, terms and conditions specified in the permit.

(c) Maintain the buoys, markers or aids to navigation in a good, serviceable and legible condition.

History: 1954 ACS 83, p. 14, Eff. Apr. 22, 1975.

R 281.1104 General.

Rule 4. (1) The state uniform waterway marking system has been developed to provide means to convey to the small vessel operator, in particular, adequate guidance to indicate safe boating channels by indicating the presence of either natural or artificial obstructions or hazards, marking restricted or controlled areas, and providing directions. The uniform waterway marking system is suited for use in all water areas and designed to satisfy the needs of all types of small vessels. It supplements and is generally compatible with the United States coast guard lateral system aids to navigation.

(2) The uniform waterway marking system consists of 2 categories of aids to navigation which are:

(a) A system of regulatory markers to indicate to a vessel operator the existence of dangerous areas as well as those which are restricted or controlled, such as speed zones and areas dedicated to a particular use, or to provide general information and directions.

(b) A system of aids to navigation to supplement the federal lateral system of buoyage.

History: 1954 ACS 83, p. 14, Eff. Apr. 22, 1975.

R 281.1105 Markers; size, shape, material, and construction.

Rule 5. (1) The size, shape, material and construction of all markers, both fixed and floating, shall be such as to be observable under normal conditions of visibility at a distance whereby the significance of the marker or aid will be recognizable before the observer proceeds into danger.

(2) All buoys, except mooring buoys and fish net or other fishing device buoys, shall be not less than 6 inches in diameter and shall have an exposure of not less than 36 inches extending above the water line of the buoy.

(3) Mooring buoys shall be not less than 12 inches in diameter and shall have an exposure of not less than 18 inches extending above the water line of the buoy.

(4) Buoys of dimensions other than specified by these rules may be authorized by the director or his authorized representative to meet unusual conditions.

(5) All buoys shall be ballasted so that they will float upright without assistance from the anchor or anchor line.

History: 1954 ACS 83, p. 14, Eff. Apr. 22, 1975.

R 281.1106 Numbers, letters, or words on markers.

Rule 6. (1) Numbers, letters or words on an aid to navigation or regulatory marker shall be placed in a manner as to be clearly visible to an approaching or passing vessel. They shall be block style, well proportioned and as large as the available space permits. Numbers and letters on red or black backgrounds shall be white; numbers and letters on white backgrounds shall be black.

(2) Odd numbers shall be used to identify solid colored black buoys or black topped buoys; even numbers shall be used to identify solid colored red buoys or red topped buoys. All numbers shall increase in an upstream direction or toward the head of navigation. The use of numbers to identify buoys is discretionary unless required as specified in the permit.

(3) Letters only may be used to identify regulatory and red vertically striped obstruction markers. When used, the letters shall follow alphabetical sequence in an upstream direction or toward the head of navigation. The letters I and O shall be omitted to preclude confusion with numbers. The use of letters to identify regulatory and obstruction markers is discretionary unless required as specified in the permit.

History: 1954 ACS 83, p. 15, Eff. Apr. 22, 1975.

R 281.1107 Reflectors or retroreflective materials.

Rule 7. (1) The use of reflectors or retroreflective materials is discretionary unless required as specified in the permit.

(2) When used on buoys having lateral significance, red reflectors or retroreflective materials shall be used on solid colored red buoys; green reflectors or retroreflective materials shall be used on solid colored black buoys; white reflectors or retroreflective materials only shall be used for all other buoys including regulatory markers, except that orange reflectors or retroreflective materials may be used on the orange portions of regulatory markers.

History: 1954 ACS 83, p. 15, Eff. Apr. 22, 1975.

R 281.1108 Navigation lights; types; colors.

Rule 8. (1) The use of navigational lights is discretionary unless required as specified in the permit.

(2) When used, lights on solid colored buoys shall be regularly flashing, regularly occulting or equal interval lights. For ordinary purposes, the frequency

of flashes may be not more than 30 flashes per minute. When it is desired that lights have a distinct cautionary significance, as at sharp turns or sudden constrictions in the channel or to mark wrecks or other artificial or natural obstructions, the frequency of flashes may be not less than 60 flashes per minute.

(3) When a light is used on a cardinal system buoy or a vertically striped white and red buoy, it shall always be quick flashing.

(4) The colors of the lights shall be the same as for reflectors; a red light only on a solid colored red buoy; a green light only on solid colored black buoy; a white light only for all other buoys including regulatory markers.

History: 1954 ACS 83, p. 15, Eff. Apr. 22, 1975.

R 281.1109 Ownership identification.

Rule 9. The use and placement of ownership identification is discretionary if ownership identification is worded and placed in a manner which avoids detracting from the meaning intended to be conveyed by a navigational aid or regulatory marker.

History: 1954 ACS 83, p. 15, Eff. Apr. 22, 1975.

R 281.1110 Regulatory markers.

Rule 10. (1) Each regulatory marker shall be colored white with international orange geometric shapes.

(2) When a buoy is used as a regulatory marker, it shall be white with horizontal bands of international orange completely around the buoy circumference. One band shall be at the top of the buoy body, with a second band placed just above the water line of the buoy so that both international orange bands are clearly visible to approaching vessels. The area of buoy body visible between the 2 bands shall be white.

(3) Geometric shapes shall be placed on the white portion of the buoy body and shall be colored international orange. The authorized geometric shapes and meanings associated with them are as follows:

(a) A vertical open faced diamond shape to mean danger.

(b) A vertical open faced diamond shape having a cross centered in the diamond to mean that a vessel is excluded from the marked area.

(c) A circular shape to mean that a vessel operated in the marked area is subject to certain operating restrictions.

(d) A square or rectangular shape with directions or information lettered on the inside.

(4) Where a regulatory marker consists of a square or rectangular shaped sign displayed from the shore or a structure, the sign shall be white, with an international orange border. When a diamond or circular geometric shape associated with meaning of the marker is included, it shall be centered on the signboard.

History: 1954 ACS 83, p. 15, Eff. Apr. 22, 1975.

R 281.1111 Aids to navigation.

Rule 11. (1) On a well defined channel including a river or other relatively narrow natural or improved waterway, an aid to navigation shall be a solid colored buoy. A buoy which marks the left side of the channel looking upstream or toward the head of navigation shall be colored all black. A buoy which marks the right side of the channel looking upstream or toward the head of navigation shall be colored all red. On a well defined channel, solid colored buoys shall be established in pairs, 1 on each side of the navigable channel which they mark, and

opposite each other to inform the user that the channel lies between the buoys and that he should pass between the buoys.

(2) On an irregularly defined channel, solid colored buoys may be used singly in staggered fashion on alternate sides of the channel if they are spaced at sufficiently close intervals to inform the user that the channel lies between the buoys and that he should pass between the buoys.

(3) Where there is no well defined channel or when a body of water is obstructed by objects whose nature or location is such that the obstruction can be approached by a vessel from more than 1 direction, supplemental aids to navigation having cardinal meaning (i.e., pertaining to the cardinal points of the compass, north, east, south, and west) shall be used. The use of aids to navigation having cardinal meaning is limited to those waters of the state which are not navigable waters of the United States.

(4) Aids to navigation conforming to the cardinal system shall consist of 3 distinctly colored buoys.

(a) A white buoy with a red top shall be used to indicate to a vessel operator that he must pass to the south or west of the buoy.

(b) A white buoy with a black top shall be used to indicate to a vessel operator that he must pass to the north or east of the buoy.

(c) A buoy showing alternate red and white stripes shall be used to indicate to a vessel operator that an obstruction to navigation extends from the nearest shore to the buoy and that he must not pass between the buoy and shore. The number of white and red stripes is discretionary, if the white stripes are twice the width of the red stripes.

History: 1954 ACS 83, p. 16, Eff. Apr. 22, 1975.

R 281.1112 Mooring buoys.

Rule 12. Mooring buoys may be placed in waters of the state without a permit having been issued by the department, however, they shall:

(a) Be colored white and shall have a horizontal blue band around the circumference of the buoy centered midway between the top of the buoy and the water line.

(b) If required to be lighted, display a slow flashing white light. When its location in a waterway is such that it constitutes an obstruction to a vessel operated during hours of darkness, it shall display a quick flashing white light.

(c) Bear ownership identification if desired and if the manner and placement of the identification does not detract from the meaning intended to be conveyed by the color scheme or identification letter when assigned.

History: 1954 ACS 83, p. 16, Eff. Apr. 22, 1975.

R 281.1113 Buoys marking fish nets or other fishing devices.

Rule 13. (1) Buoys marking fish nets or other fishing devices may be placed in waters of the state without a permit having been issued by the department.

(2) Buoys marking gill nets or impoundment and trap nets, hook lines, or other similar type fishing devices shall meet all of the following requirements:

(a) Be a spar buoy with a staff not less than 1 inch in diameter.

(b) Have an exposure of not less than 5½ feet above the water surface.

(c) Have a black flag not less than 10 inches by 12 inches affixed to the top of the buoy.

(d) Have affixed a license number or other identification required by section 17 of Act No. 84 of the Public Acts of 1929, as amended, being §308.17 of the

Michigan Compiled Laws, or Act No. 165 of the Public Acts of 1929, as amended, being §301.1 et seq. of the Michigan Compiled Laws.

(e) Be maintained in good and serviceable condition.

(f) Float in an upright position.

(3) The affixing of a metal radar reflective device to the top of a gill net buoy is optional.

(4) A buoy, as described in subrule (2), with metallic plates or cylinders not less than 6 inches in height affixed near the top and capable of radar detection from an arc of 360 degrees, shall be placed at the lifting buoy of pound, trap, or other impoundment nets.

History: 1954 ACS 83, p. 16, Eff. Apr. 22, 1975; 1954 ACS 86, p. 25, Eff. Feb. 26, 1976.

R 281.1114 Nonconforming markers.

Rule 14. Markers or buoys established in waters of the state in accordance with terms of a permit issued by the department prior to the effective date of these rules may be continued in use as long as they are in good, serviceable and legible condition. At such time as the markers or buoys are no longer in good, serviceable and legible condition or are replaced for other reasons, they shall be replaced with buoys conforming to these rules.

History: 1954 ACS 83, p. 17, Eff. Apr. 22, 1975.

NUMBERING OF VESSELS AND MOTORBOATS

(By authority conferred on the commission of natural resources by sections 31, 33 and 36 of Act No. 303 of the Public Acts of 1967, as amended, being §§281.1031, 281.1033, and 281.1036 of the Michigan Compiled Laws)

R 281.1201 Definitions.

Rule 1. "Act" means Act No. 303 of the Public Acts of 1967, as amended, being §§281.1001 to 281.1199 of the Michigan Compiled Laws. Terms defined in the act have the same meanings when used in these rules.

History: 1954 ACS 83, p. 17, Eff. Apr. 22, 1975.

R 281.1202 Applicability.

Rule 2. These rules apply to all motorboats and all other vessels 12 feet in length or over which are required to be numbered or to display a decal indicating payment of fees under the act and which are operated on any waters within the territorial limits of this state, including those waters of the Great Lakes which are under the jurisdiction of this state.

History: 1954 ACS 83, p. 17, Eff. Apr. 22, 1975.

R 281.1203 Form of number.

Rule 3. (1) Each number required by the act shall consist of capital letters MC denoting the state of Michigan followed by 4 numerals followed by 2 capital letters (example: MC 0000 AA).

(2) A number suffix shall not include the letters I, O, or Q which may be mistaken for numerals.

History: 1954 ACS 83, p. 17, Eff. Apr. 22, 1975.

R 281.1204 Numbers; display; size; color.

Rule 4. (1) Each number required by sections 31 and 33 of the act shall meet all of the following requirements:

(a) Be painted on or permanently attached to each side of the forward half of the vessel or motorboat except as allowed by subrule (2) or required by subrule (3).

(b) Be in plain vertical block characters of not less than 3 inches in height.

(c) Contrast with the color of the background and be distinctly visible and legible.

(d) Have spaces or hyphens that are equal to the width of the letter "M" between the letter and number groupings (example: MC 0000 AA or MC—0000—AA).

(e) Read from left to right.

(f) Be as high above the water line as practical.

(2) When a vessel or motorboat is used by a manufacturer or dealer for testing or demonstrating, the number may be painted on or attached to removable plates that are temporarily but firmly attached to each side of the forward half of the vessel or motorboat.

(3) On vessels or motorboats so configured that a number on the hull or superstructure would not be easily visible, the number must be painted on or attached to a backing plate that is attached to the forward half of the vessel or motorboat so that the number is visible from each side of the vessel or motorboat.

History: 1954 ACS 83, p. 17, Eff. Apr. 22, 1975.

R 281.1205 Other numbers prohibited.

Rule 5. A person may not use a vessel or motorboat to which these rules apply that has any number that is not issued by the secretary of state for that vessel or motorboat on its forward half.

History: 1954 ACS 83, p. 18, Eff. Apr. 22, 1975.

R 281.1206 Documented vessels; decals; display.

Rule 6. (1) Each decal required by sections 31, 32, and 33 of the act to indicate payment of fees required of vessels documented by the United States coast guard or a federal agency successor thereto as provided by section 33 of the act shall be:

(a) Identical to the validation decal prescribed in R 281.1208.

(b) Be permanently affixed to each side of the forward half of the vessel.

(c) Be as high above the water line as practical.

(2) When a decal is lost, destroyed, or defaced, the owner of the documented vessel shall apply to the secretary of state for a duplicate decal.

History: 1954 ACS 83, p. 18, Eff. Apr. 22, 1975.

R 281.1207 Removal of number.

Rule 7. The person whose name appears on a certificate of number as the owner of a motorboat or vessel shall remove the number and validation decal from the vessel when 1 of the following occurs:

(a) The motorboat or vessel is documented by the United States coast guard or federal agency successor thereto; however, the decal prescribed in R 281.1206 shall then be displayed.

(b) The certificate of number is invalid under the act.

(c) The motorboat or vessel is no longer principally used in this state.

History: 1954 ACS 83, p. 18, Eff. Apr. 22, 1975.

R 281.1208 Validation decals; display; size; color.

Rule 8. (1) The validation decal required by section 33 of the act shall meet the following requirements:

(a) Be permanently attached to each side of the forward half of the motorboat or vessel.

(b) Be approximately 3 inches square.

(c) Indicate the year in which the decal expires by the colors, blue, international orange, green, and red, in rotation beginning with blue for decals that expire in 1973 (example: decal expires December 31, 1973—blue, expires December 31, 1974—international orange, expires December 31, 1975—green, expires December 31, 1976—red, expires December 31, 1977—blue, etc.).

(d) Be displayed on each side of the motorboat or vessel 3 inches beyond the last letter of the assigned number and on the same strake or level as the number.

(2) When a validation decal is lost, destroyed, or defaced, the owner of the motorboat or vessel shall apply to the secretary of state for a duplicate.

History: 1954 ACS 83, p. 18, Eff. Apr. 22, 1975.

R 281.1209 Rescission.

Rule 9. Rule 51 of the general rules of the department relating to numbering of motorboats, being R 281.1051 of the Michigan Administrative Code and appearing on page 5427 of the 1970-71 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 83, p. 18, Eff. Apr. 22, 1975.

MARINE COLLISIONS, ACCIDENTS, OR OTHER CASUALTIES

(By authority conferred on the commission of natural resources by section 58 of Act 303 of the Public Acts of 1967, as amended, being §281.1058 of the Michigan Compiled Laws)

R 281.1221 Definitions.

Rule 1. "Act" means Act No. 303 of the Public Acts of 1967, as amended, being §§281.1001 to 281.1199 of the Michigan Compiled Laws. Terms defined in the act have the same meanings when used in these rules.

History: 1954 ACS 83, p. 18, Eff. Apr. 22, 1975.

R 281.1222 Applicability.

Rule 2. (1) These rules apply to each vessel used on any waters within the territorial limits of this state, including those waters of the Great Lakes which are under the jurisdiction of this state, that is used by its operator for recreational purposes; or is required to be numbered under the act.

(2) These rules do not apply to a vessel required to have a certificate of inspection under chapter I of title 46, code of federal regulations.

History: 1954 ACS 83, p. 19, Eff. Apr. 22, 1975.

R 281.1223 Immediate notification of death or disappearance.

Rule 3. (1) When, as a result of an occurrence that involves a vessel or its equipment a person dies or disappears from a vessel, the operator shall notify without delay, by the quickest means available, the sheriff of the county in which the collision, accident or other casualty occurred or the nearest peace officer or state police post of the following:

(a) The date, time and exact location of the occurrence.

(b) The name of each person who died or disappeared.

(c) The number and name of the vessel.

(d) The names and addresses of the owner and operator.

(2) When the operator of a vessel cannot give the notice required by subrule

(1), each person on board the vessel shall give the required notice or determine that the notice has been given.

History: 1954 ACS 83, p. 19, Eff. Apr. 22, 1975.

R 281.1224 Report of collision, accident, or other casualty.

Rule 4. (1) The report required by section 53 of the act shall be made by the operator of a vessel when as a result of an occurrence that involves the vessel or its equipment any of the following occur:

(a) A person dies.

(b) A person loses consciousness or receives medical treatment or is disabled for more than 24 hours.

(c) Damage to the vessel and other property damage totals more than $100.00.

(d) A person disappears from the vessel under circumstances that indicate death or injury.

(2) A report required by section 53 of the act and this rule shall be made as follows:

(a) Within 48 hours of the occurrence if a person dies within 24 hours of the occurrence.

(b) Within 48 hours of the occurrence if a person loses consciousness or receives medical treatment or is disabled for more than 24 hours or disappears from a vessel.

(c) Within 5 days of the occurrence or death if an earlier report is not required by this rule.

(3) When the operator of a vessel cannot make the report required by section 53 of the act and this rule, the owner shall make the report.

History: 1954 ACS 83, p. 19, Eff. Apr. 22, 1975.

R 281.1225 Collision, accident, or other casualty report.

Rule 5. Each report required by section 55 of the act shall be in writing dated upon completion and signed by the peace officer who prepared it and shall contain, if available, at least the following information about the collision, accident or other casualty:

(a) The numbers and names of each vessel involved.

(b) The name and address of each owner of each vessel involved.

(c) The name of the nearest city or town, the county, the state and the body of water.

(d) The time and date the collision, accident, or other casualty occurred.

(e) The location on the water.

(f) The visibility, weather, and water conditions.

(g) The estimated air and water temperatures.

(h) The name, address, age or date of birth, telephone number, vessel operating experience, and boating safety training of the operator involved in the occurrence.

(i) The number of persons on board or towed on water skis, surfboard, or similar contrivance by each vessel.

(j) The name, address, and date of birth of each person injured or killed, whether or not artificial respiration was used, if a physician was in attendance and where the person was treated.

(k) The cause of each death.

(l) Weather forecasts available to, and weather reports used by, the operators of the vessels involved before and during the use of the vessels.

(m) The name and address of each owner of property involved.

(n) The availability and use of personal flotation devices.

(o) The type and amount of each fire extinguisher used.

(p) The nature and extent of each injury.

(q) A description of all property damage and vessel damage with an estimate of the cost of all repairs.

(r) A description of each equipment failure that caused or contributed to the cause of the collision, accident, or other casualty.

(s) A description of the occurrence.

(t) The names of any persons arrested and the charge.

(u) The type of vessel operation (cruising, drifting, fishing, hunting, skiing, racing, or other), and the type of accident (capsizing, sinking, fire, explosion, or other).

(v) The opinion of the peace officer making the report as to the cause of the occurrence.

(w) The make, model, type (open, cabin, house, or other), beam width at widest point, length, depth from transom to keel, horsepower, propulsion (outboard, inboard, inboard outdrive, sail, or other), fuel (gas, diesel, or other), construction (wood, steel, aluminum, plastic, fiberglass, or other) and year built (model year), of the vessels involved.

(x) The name, address, and telephone number of each witness.

(y) The manufacturer's hull identification number, if any, of each vessel involved.

(z) The name, address, department, and telephone number of the peace officer submitting the report.

History: 1954 ACS 83, p. 19, Eff. Apr. 22, 1975.

R 281.1226 Where to report.

Rule 6. (1) If the collision, accident, or other casualty occurred on waters of this state the report shall be made as required by sections 53 and 55 of the act.

(2) If the collision, accident, or other casualty occurred outside this state the report shall be made to the authority having jurisdiction over the waters where the collision, accident, or other casualty occurred.

History: 1954 ACS 83, p. 20, Eff. Apr. 22, 1975.

ASSOCIATED EQUIPMENT ON VESSELS

(By authority conferred on the commission of natural resources by section 18 of Act No. 303 of the Public Acts of 1967, as amended, being §281.1018 of the Michigan Compiled Laws)

R 281.1231 Definitions.

Rule 1. (1) "Act" means Act No. 303 of the Public Acts of 1967, as amended, being §§281.1001 to 281.1199 of the Michigan Compiled Laws. Terms defined in the act have the same meanings when used in these rules.

(2) "Open boat" means a motorboat with all engine and fuel tank compartments and other spaces to which explosives or flammable gases and vapors from these compartments may flow, open to the atmosphere and so arranged as to prevent the entrapment of gases and vapors within the vessel.

(3) "Point" means 11¼ degrees of the compass.

History: 1954 ACS 83, p. 20, Eff. Apr. 22, 1975.

R 281.1232 Applicability.

Rule 2. These rules apply to vessels and associated equipment used, to be used, or carried in vessels used on any waters within the territorial limits of this state including those waters of the Great Lakes which are under the jurisdiction of this state, except:

(a) Foreign vessels temporarily using waters subject to state jurisdiction.

(b) Military or public vessels of the United States, except recreational-type public vessels.

(c) A vessel whose owner is a state or political subdivision thereof, other than this state and its political subdivisions, which is used principally for governmental purposes, and which is clearly identifiable as such.

(d) A ship's lifeboat.

History: 1954 ACS 83, p. 20, Eff. Apr. 22, 1975.

R 281.1233 Navigation lights; intensity standards; placement; screening.

Rule 3. (1) Navigation lights shall be of sufficient intensity so that the candlepower outside the lens is not less than that amount corresponding to the required distance of visibility as indicated in table 1.

TABLE 1

Distance of Visibility in Nautical Miles	Candlepower
1	1.0
2	5.5
3	17.6
5	100.0

(2) As an aid in complying with this rule, the standard double contact bayonet candelabra base lamps listed in table 2 are recommended for motorboats having 6 to 32 volt electrical systems.

TABLE 2

Distance of Visibility in Nautical Miles	Color	Lamp Number for Certain Voltage Systems					
		With Fresnel Lens			Without Fresnel Lens		
		6	12	32	6	12	32
1	Red	82	90	1,226	1,130	1,142	1,230
1	Green	88	94	1,228	—	—	—
2	White	64	68	1,224	82	90	1,226
3	White	82	90	1,226	1,130	1,142	1,230

(3) As an aid in complying with this rule, the incandescent lamps listed in table 3 are recommended for vessels having 115 volt electrical systems.

TABLE 3

Distance of Visibility in Nautical Miles	Color	Wattage	
		With Fresnel Lens	Without Fresnel Lens
1	Red	—	25
1	Green	25	50
2	White	—	15
2	Amber	—	25
2	Red	40	100
2	Green	75	200
3	White	—	25
3	Amber	25	75
5	White	40	100

(4) The light intensity standards of this rule shall apply to new navigation lights installed and replacements of existing lights made on and after January 1, 1973.

(5) Navigation lights required by these rules shall be placed high enough that their light will not be obstructed by persons or parts of the boat or its equipment and shall be screened as indicated in figure 1.

FIGURE 1

History: 1954 ACS 83, p. 21, Eff. Apr. 22, 1975.

R 281.1234 Personal flotation devices.

Rule 4. (1) Personal flotation devices required by these rules to be carried aboard vessels shall be of the following types:

(a) Type I, an approved device designed to turn an unconscious person in the water from a face downward position to a vertical or slightly backward position, and to have more than 20 pounds of buoyancy.

Digitized by Google

(b) Type II, an approved device designed to turn an unconscious person in the water from a face down position to a vertical or slightly backward position and to have at least 15.5 pounds of buoyancy.

(c) Type III, an approved device designed to keep a conscious person in a vertical or slightly backward position and to have at least 15.5 pounds of buoyancy.

(d) Type IV, an approved device designed to be thrown to a person in the water and not worn. It is designed to have at least 16.5 pounds of buoyancy.

(2) Personal flotation devices required by these rules to be carried aboard vessels shall be:

(a) Approved by the United States coast guard.

(b) Legibly marked with the approval number issued by the United States coast guard.

(c) Of an appropriate size for the person for whom it is intended.

(d) Readily accessible and immediately available.

(e) In good and serviceable condition.

History: 1954 ACS 83, p. 22, Eff. Apr. 22, 1975.

R 281.1235 Fire extinguishing equipment.

Rule 5. (1) All hand portable fire extinguishers, semiportable fire extinguishing systems and fixed fire extinguishing systems required by these rules shall be of a type approved by the United States coast guard.

(2) Hand portable fire extinguishers and semiportable fire extinguishing systems are classified by a combination letter and number symbol. The letter indicating the type of fire which the unit could be expected to extinguish, and the number indicating the relative size of the unit.

(3) For the purpose of these rules, all required hand portable fire extinguishers and semiportable fire extinguishing systems are of the "B" type; that is, suitable for extinguishing fires involving flammable liquids, greases, and so forth.

(4) The number designations for size start with "I" for the smallest to "III" for the largest. Sizes I and II are considered hand portable fire extinguishers and size III is considered a semiportable fire extinguishing system which shall be fitted with a suitable hose and nozzle or other practicable means so that all portions of the space concerned may be covered. Examples of size graduations for some of the typical hand portable fire extinguishers and semiportable fire extinguishing systems are as indicated in table 4.

TABLE 4

Classification		Foam Gallons	Carbon Dioxide, Pounds	Dry Chemical, Pounds
Type	Size			
B	I	1¼	4	2
B	II	2½	15	10
B	III	12	35	20

(5) All hand portable fire extinguishers and semiportable fire extinguishing systems shall have permanently attached thereto a metallic nameplate giving the name of the item, the rated capacity in gallons, quarts, or pounds, the name and address of the person or firm for whom approved, and the identifying mark of the actual manufacturer.

(6) Vaporizing liquid type fire extinguishers containing carbon tetrachloride or chlorobromomethane or other toxic liquids are not acceptable as equipment required by these rules.

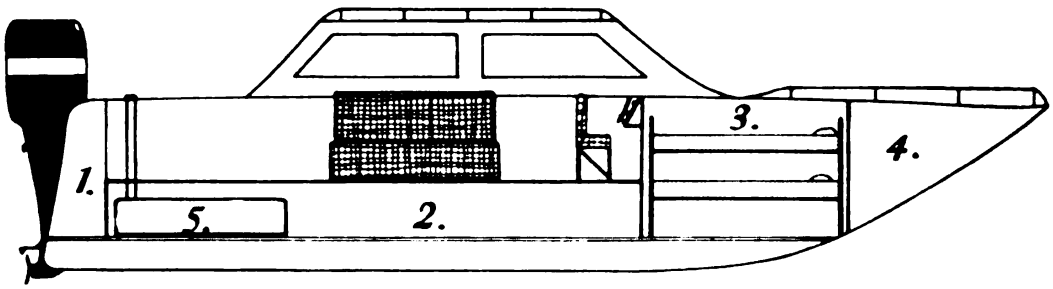
(7) Hand portable or semiportable extinguishers which are required on their nameplates to be protected from freezing shall not be located where freezing temperatures may be expected.

(8) A dry chemical, stored pressure, fire extinguisher not fitted with pressure gauge or indicating device, manufactured prior to January 1, 1965, may be carried on motorboats so long as it is maintained in good and serviceable condition. The following maintenance and inspections are required for such an extinguisher:

(a) When the date on the inspection record tag on the extinguisher shows that 6 months have elapsed since the last weight check ashore, the extinguisher is no longer accepted as meeting required maintenance conditions until reweighed ashore and found to be in a serviceable condition and within required weight conditions.

(b) If the weight of the container is ¼ ounce less than that stamped on the container, it shall be serviced.

(c) If the outer seals, which indicate tampering or use when broken, are not intact, the officer shall inspect the extinguisher to see that the frangible disc in the neck of the container is intact; and if the disc is not intact, the container shall be serviced.



(d) If there is evidence of damage, use, or leakage, such as dry chemical powder observed in the nozzle or elsewhere on the extinguisher, the container shall be replaced and the extinguisher properly serviced or the extinguisher replaced with another approved extinguisher.

(9) A dry chemical, stored pressure, fire extinguisher without pressure gauge or indicating device manufactured after January 1, 1965, shall not be carried on motorboats as required equipment.

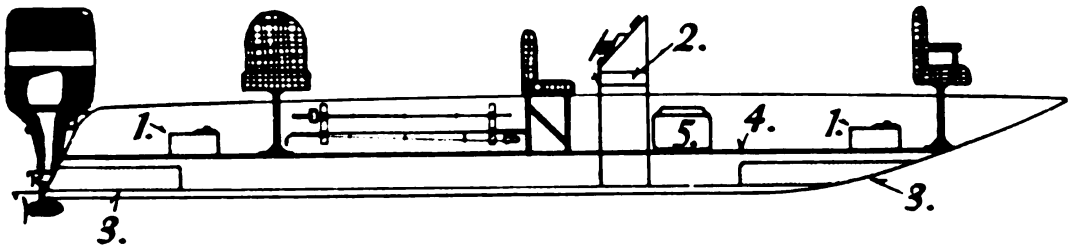
(10) When a fixed fire extinguishing system is installed, it shall be of a carbon dioxide type approved and installed as required by the United States coast guard.

(11) The intent of these rules is illustrated in figure 2, where fire extinguishers are required if any of the specified conditions exist, and in figure 3, where specified conditions do not, in themselves, require that fire extinguishers be carried.

FIGURE 2

Fire extinguishers are required if any of the following conditions exist:

1. Closed compartment under thwarts and seats where portable fuel tanks may be stored.



2. Double bottoms not sealed to the hull or which are not completely filled with flotation material.

3. Closed living spaces.

R 281.1236 Backfire flame control.

Rule 6. (1) Every gasoline engine installed in a motorboat after April 25, 1940, except outboard motors, shall be equipped with an acceptable means of backfire flame control.

(2) Installations made before November 19, 1952, need not meet the detailed requirements of this rule and may be continued in use as long as they are serviceable and in good condition. Replacements shall meet the applicable conditions in this rule.

(3) Installations consisting of backfire flame arresters bearing United States coast guard approval no. 162.015 may be continued in use as long as they are serviceable and in good condition. Replacements shall meet the applicable conditions of this rule.

(4) Installations consisting of engine air and fuel induction systems and given United States coast guard approval no. 162.015 may be continued in use as long as they are serviceable and in good condition. Replacements shall meet the applicable conditions of this rule.

(5) The following are acceptable means of backfire flame control for gasoline engines:

(a) A backfire flame arrester constructed in accordance with specifications of, and approved by, the United States coast guard. The flame arrester shall be suitably secured to the air intake with flame-tight connections.

(b) An engine air and fuel induction system which provides adequate protection from propagation of backfire flame to the atmosphere equivalent to that provided by an approved backfire flame arrester. A gasoline engine utilizing an air and fuel induction system, and operated without an approved backfire flame arrester shall have the installation tested and labeled in accordance with the specifications of, and approved by, the United States coast guard.

(c) Any attachment to the carburetor or location of the engine air induction system by means of which flames caused by engine backfire will be dispersed to

the atmosphere outside the vessel in such a manner that the flames will not endanger the vessel, persons on board or nearby vessels and structures. All attachments shall be of metallic construction with flame-tight connections and firmly secured to withstand vibration, shock, and engine backfire. The installations do not require formal approval and labeling, but will be accepted by state and local law enforcement officers on the basis of compliance with this rule.

(d) Where manufacturers wish to produce vessels having an integrated engine-vessel design, a pre-market approval of an engine air induction system is available. An installation shall be tested and labeled in accordance with the specifications of, and approval by, the United States coast guard.

History: 1954 ACS 83, p. 24, Eff. Apr. 22, 1975.

R 281.1237 Ventilation.

Rule 7. (1) All motorboats, except open boats, the construction or decking over of which is commenced after April 25, 1940, and which use fuel having a flash point of 110 degrees Fahrenheit or less, shall have at least 2 ventilator ducts, fitted with cowls or their equivalent, for the efficient removal of explosive or flammable gases from the bilges of every engine and fuel tank compartment. There shall be at least 1 exhaust duct installed so as to extend from the open atmosphere to the lower portion of the bilge and at least 1 intake duct installed so as to extend to a point at least midway to the bilge or at least below the level of the carburetor intake. The cowls shall be located and trimmed for maximum effectiveness and in such a manner so as to prevent displaced fumes from being recirculated.

(2) Where alterations are needed for existing motorboats to comply with the requirements in this rule, the alterations shall be accomplished as soon as practicable and shall be completed by June 1, 1975.

History: 1954 ACS 83, p. 25, Eff. Apr. 22, 1975.

R 281.1238 Mufflers; cut outs.

Rule 8. The exhaust of all internal combustion engines used on any waters of this state, shall be muffled effectively by equipment so constructed and used as to muffle the noise of the exhaust of the engine in a reasonable manner. The use of cut outs, bypasses, or similar devices is prohibited, except for vessels competing in a boat race or regatta sanctioned by the department under sections 151 and 152 of the act. A modern device, underwater exhaust system or a system discharging cold water through the exhaust of an inboard engine, each of which is capable of muffling the noise of the exhaust of the engine in a reasonable manner, shall be considered as meeting the requirements of this rule.

History: 1954 ACS 83, p. 25, Eff. Apr. 22, 1975.

R 281.1239 Associated equipment carriage requirements.

Rule 9. Associated equipment required by these rules to be carried aboard vessels are minimum and listed in R 281.1240 to R 281.1252 by type and length of vessel and by type of propulsion. A person shall not operate a vessel on waters of this state unless equipped in accordance with these rules.

History: 1954 ACS 83, p. 25, Eff. Apr. 22, 1975.

OUTBOARD MOTORBOATS

R 281.1240 Less than 16 feet in length.

Rule 10. An outboard motorboat less than 16 feet in length shall be equipped as follows:

Digitized by Google

(a) If the motorboat is not an open boat, it shall be equipped with 2 ducts fitted with cowls or their equivalent as specified in R 281.1237.

(b) One type I, II, III, or IV coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition, for each person aboard. The devices shall be ready at hand and not encased in plastic bags or other type containers.

(c) If the motorboat is constructed so that it has decking or compartments where explosive or flammable gases may be entrapped as illustrated in figure 2, it shall be equipped with 1 BI type coast guard approved fire extinguisher in good and serviceable condition and as specified in R 281.1235. When a fixed fire extinguishing system is installed in the machinery space, 1 less BI type fire extinguisher is required.

(d) If underway between sunset and sunrise, the motorboat shall be equipped with an exhibit 1 white light aft higher than the bowlight showing all around the horizon and visible 2 miles and a combination 20 point bowlight forward, showing green to starboard and red to port, visible 1 mile or in lieu of this requirement may display lights as specified by the international rules of the road.

(e) If the motorboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area a white light shall be displayed on the forward part of the motorboat so as to be visible to a boat approaching from any direction.

(f) All lights shall be as specified by R 281.1233.

(g) A muffler as specified by R 281.1238 for each motor.

History: 1954 ACS 83, p. 25, Eff. Apr. 22, 1975.

R 281.1241 Sixteen feet or over and less than 26 feet in length.

Rule 11. An outboard motorboat 16 feet or over and less than 26 feet in length shall be equipped as follows:

(a) If the motorboat is not an open boat, it shall be equipped with 2 ducts fitted with cowls or their equivalent as specified in R 281.1237.

(b) One type I, II, or III coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition, for each person aboard, plus 1 type IV throwable device. The devices shall be ready at hand and not encased in plastic bags or other type containers.

(c) One hand, mouth, or power operated whistle, capable of producing a blast of 2 seconds or more in duration, and audible for at least ½ mile.

(d) If the motorboat is constructed so that it has decking or compartments where explosive or flammable gases may be entrapped as illustrated in figure 2, it shall be equipped with 1 BI type coast guard approved fire extinguisher in good and serviceable condition and as specified in R 281.1235. When a fixed fire extinguishing system is installed in the machinery space, 1 less BI type fire extinguisher is required.

(e) If underway between sunset and sunrise, the motorboat shall be equipped with an exhibit 1 white light aft higher than the bowlight showing all around the horizon and visible 2 miles and a combination 20 point bowlight forward, showing green to starboard and red to port visible 1 mile or in lieu of this requirement may display lights as specified by the international rules of the road.

(f) If the motorboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area, a white light shall be displayed on the forward part of the motorboat so as to be visible to a boat approaching from any direction.

(g) All lights shall be as specified by R 281.1233.

(h) A muffler as specified by R 281.1238 for each motor.

History: 1954 ACS 83, p. 26, Eff. Apr. 22, 1975.

R 281.1242 Twenty-six feet or over and less than 40 feet in length.

Rule 12. An outboard motorboat 26 feet or over and less than 40 feet in length shall be equipped as follows:

(a) If the motorboat is not an open boat, it shall be equipped with 2 ducts fitted with cowls or their equivalent as specified in R 281.1237.

(b) One type I, II, or III coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition, for each person aboard, plus 1 type IV throwable device. The devices shall be ready at hand and not encased in plastic bags or other type containers.

(c) An efficient fog bell which when struck, produces a clear bell-like tone of full round characteristics.

(d) One hand or power operated whistle, capable of producing a blast of 2 seconds or more duration and audible for a distance of at least 1 mile.

(e) If the motorboat is constructed so that it has decking or compartments where explosive or flammable gases may be entrapped as illustrated in figure 2, it shall be equipped with 2 BI type coast guard approved hand portable fire extinguishers in good and serviceable condition and as specified in R 281.1235. One BII type coast guard approved fire extinguisher may be substituted for 2 BI types. When a fixed fire extinguishing system is installed in the machinery space, 1 less BI type fire extinguisher is required.

(f) If underway between sunset and sunrise, the motorboat shall be equipped with an exhibit 1 white light aft higher than the bowlight showing all around the horizon and visible 2 miles, 1 white light forward showing 20 points and visible 2 miles, a green light to starboard showing 10 points and visible 1 mile and a red light to port showing 10 points and visible 1 mile or in lieu of this requirement may display lights as specified by the international rules of the road.

(g) If the motorboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area a white light shall be displayed on the forward part of the motorboat so as to be visible to a boat approaching from any direction.

(h) All lights shall be as specified by R 281.1233.

(i) A muffler as specified by R 281.1238 for each motor.

History: 1954 ACS 83, p. 26, Eff. Apr. 22, 1975.

R 281.1243 Forty feet or over and not more than 65 feet in length.

Rule 13. An outboard motorboat 40 feet or over and not more than 65 feet in length shall be equipped as follows:

(a) If the motorboat is not an open boat, it shall be equipped with 2 ducts fitted with cowls or their equivalent as specified in R 281.1237.

(b) One type I, II, or III coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition, for each person aboard, plus 1 type IV throwable device. The devices shall be ready at hand and not encased in plastic bags or other containers.

(c) An efficient fog bell which when struck, produces a clear bell-like tone of full round characteristics.

(d) One power operated whistle capable of producing a blast of 2 seconds or more duration, and audible for a distance of at least 1 mile.

(e) If the motorboat is constructed so that it has decking or compartments where explosive or flammable gases may be entrapped as illustrated in figure 2, it

INBOARD AND INBOARD-OUTBOARD MOTORBOATS

R 281.1244 Less than 16 feet in length.

Rule 14. An inboard or inboard-outboard motorboat less than 16 feet in length shall be equipped as follows:

(a) One coast guard approved backfire flame arrester as specified in R 281.1236 on each carburetor of all gasoline engines.

(b) At least 2 ducts fitted with cowls or their equivalent as specified in R 281.1237.

(c) One type I, II, III, or IV coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition for each person aboard. The devices shall be ready at hand and not encased in plastic bags or other containers.

(d) One BI type coast guard approved hand portable fire extinguisher in good and serviceable condition and as specified in R 281.1235. When a fixed fire extinguishing system is installed in the machinery space, 1 less BI type fire extinguisher is required.

(e) If underway between sunset and sunrise, the motorboat shall be equipped with and exhibit 1 white light aft higher than the bowlight showing all around the horizon and visible 2 miles and a combination 20 point bowlight forward, showing green to starboard and red to port visible 1 mile or in lieu of this requirement may display lights as specified by the international rules of the road.

(f) If the motorboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area, a white light shall be displayed on the forward part of the motorboat so as to be visible to a boat approaching from any direction.

(g) All lights shall be as specified by R 281.1233.

(h) A muffler as specified by R 281.1238 for each motor.

History: 1954 ACS 83, p. 27, Eff. Apr. 22, 1975.

R 281.1245 Sixteen feet or over and less than 26 feet in length.

(h) All lights shall be as specified by R 281.1233.

(i) A muffler as specified by R 281.1238 for each motor.

History: 1954 ACS 83, p. 28, Eff. Apr. 22, 1975.

R 281.1246 Twenty-six feet and over and less than 40 feet in length.

Rule 16. An inboard or inboard-outboard motorboat 26 feet or over and less than 40 feet in length shall be equipped as follows:

(a) One coast guard approved backfire flame arrester as specified in R 281.1236 on each carburetor of all gasoline engines.

(b) At least 2 ducts fitted with cowls or their equivalent as specified in R 281.1237.

(c) An efficient fog bell which when struck, produces a clear, bell-like tone of full round characteristics.

(d) One hand or power operated whistle, capable of producing a blast of 2 seconds or more duration and audible for a distance of at least 1 mile.

(e) One type I, II, or III coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition for each person aboard, plus 1 type IV throwable device. The devices shall be ready at hand and not encased in plastic bags or other containers.

(f) At least 2 BI type coast guard approved hand portable fire extinguishers in good and serviceable condition and as specified in R 281.1235, one BII type coast guard approved fire extinguisher may be substituted for 2 BI types. When a fixed fire extinguishing system is installed in the machinery space, 1 less BI type fire extinguisher is required.

(g) If underway between sunset and sunrise, the motorboat shall be equipped with an exhibit 1 white light aft higher than the bowlight showing all around the horizon and visible 2 miles, 1 white light forward showing 20 points and visible 2 miles, a green light to starboard showing 10 points and visible 1 mile and a red

light to port showing 10 points and visible 1 mile or in lieu of this requirement may display lights as specified by the international rules of the road.

(h) If the motorboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area, a white light shall be displayed on the forward part of the motorboat so as to be visible to a boat approaching from any direction.

(i) All lights shall be as specified by R 281.1233.

(j) A muffler as specified by R 281.1238 for each motor.

History: 1954 ACS 83, p. 28, Eff. Apr. 22, 1975.

R 281.1247 Forty feet and over and not more than 65 feet in length.

Rule 17. An inboard or inboard-outboard motorboat 40 feet or over and not more than 65 feet in length shall be equipped as follows:

(a) One coast guard approved backfire flame arrester as specified in R 281.1236 on each carburetor of all gasoline engines.

(b) At least 2 ducts fitted with cowls or their equivalent as specified in R 281.1237.

(c) An efficient fog bell which when struck, produces a clear bell-like tone of full round characteristics.

(d) One power operated whistle, capable of producing a blast of 2 seconds or more duration and audible a distance of at least 1 mile.

(e) One type I, II, or III coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition for each person aboard, plus 1 type IV throwable device. The devices shall be ready at hand and not encased in plastic bags or other containers.

(f) At least 3 BI type coast guard approved hand portable fire extinguishers in good and serviceable condition and as specified in R 281.1235. One BII type coast guard approved fire extinguisher may be substituted for 2 BI types. When a fixed fire extinguishing system is installed in the machinery space, 1 less BI type fire extinguisher is required.

(g) If underway between sunset and sunrise, the motorboat shall be equipped with an exhibit 1 white light aft higher than the bowlight showing all around the horizon and visible 2 miles, 1 white light forward showing 20 points and visible 2 miles, a green light to starboard showing 10 points and visible 1 mile and a red light to port showing 10 points and visible 1 mile or in lieu of this requirement may display lights as specified by the international rules of the road.

(h) If the motorboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area, a white light shall be displayed on the forward part of the motorboat so as to be visible to a boat approaching from any direction.

(i) All lights shall be as specified by R 281.1233.

(j) A muffler as specified by R 281.1238 for each motor.

History: 1954 ACS 83, p. 29, Eff. Apr. 22, 1975.

SAILBOATS AND OTHER TYPES OF BOATS

R 281.1248 Sailboat without motor, less than 16 feet in length.

Rule 18. A sailboat without a motor and less than 16 feet in length shall be equipped as follows:

(a) One type I, II, III, or IV coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition for each person aboard. The devices shall be ready at hand and not encased in plastic bags or other containers.

(b) If underway between sunset and sunrise, the sailboat shall be equipped with a lantern showing a white light which shall be ready at hand and which shall be exhibited in sufficient time to prevent collision.

(c) If the sailboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area, a white light shall be displayed on the forward part of the sailboat so as to be visible to a boat approaching from any direction.

History: 1954 ACS 83, p. 29, Eff. Apr. 22, 1975.

R 281.1249 Sailboat without motor, 16 feet or over in length.

Rule 19. A sailboat without a motor and 16 feet or over in length shall be equipped as follows:

(a) One type I, II, III, or IV coast guard approved personal flotation device as specified in R 281.1234 in good and serviceable condition for each person aboard, plus 1 type IV throwable device. The devices shall be ready at hand and not encased in plastic bags or other containers.

(b) If underway between sunset and sunrise, the sailboat shall be equipped with a lantern showing a white light which shall be ready at hand and which shall be exhibited in sufficient time to prevent collision.

(c) If the sailboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area, a white light shall be displayed on the forward part of the sailboat so as to be visible to a boat approaching from any direction.

History: 1954 ACS 83, p. 29, Eff. Apr. 22, 1975.

R 281.1250 Sailboat with motor.

Rule 20. A sailboat with a motor shall be equipped as follows:

(a) Personal flotation devices, backfire flame arresters, ventilation ducts and cowls, fire extinguishers, whistles and bells and mufflers, as required by these rules for motorboats of the same length.

(b) If underway between sunset and sunrise shall be equipped with and exhibit navigation lights as required by these rules for motorboats of the same length, except:

(i) A sailboat 26 feet or over in length under sail alone on the Great Lakes and waters connected thereto between sunset and sunrise shall be equipped with and exhibit a green light to starboard showing 10 points and visible 1 mile, a red light to port showing 10 points and visible 1 mile and a lantern showing a white light which shall be ready at hand and which shall be exhibited in sufficient time to prevent collision.

(ii) If the sailboat is anchored between sunset and sunrise on the Great Lakes or waters connected thereto and not in a special anchorage area, a white light shall be displayed on the forward part of the sailboat so as to be visible to a boat approaching from any direction. In lieu of these lighting requirements sailboats may display lights as specified by the international rules of the road.

History: 1954 ACS 83, p. 30, Eff. Apr. 22, 1975.

R 281.1251 Rowboats.

Rule 21. (1) A rowboat shall be equipped with personal flotation devices as required by these rules for a motorboat of the same length.

(2) If underway between sunset and sunrise a rowboat shall be equipped with a lantern showing a white light which shall be ready at hand and which shall be exhibited in sufficient time to prevent collision.

VESSELS CARRYING PASSENGERS FOR HIRE

(By authority conferred on the state waterways commission by sections 3 and 12 of Act No. 228 of the Public Acts of 1965, being §§281.803 and 281.812 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 281.2001 Scope.

Rule 1. These rules are promulgated for the purpose of implementing Act No. 228 of the Public Acts of 1965, being §§281.801 to 281.813 of the Michigan Compiled Laws, hereinafter referred to as the act.

History: 1954 ACS 59, p. 12, Eff. Aug. 14, 1969.

R 281.2005 Definitions.

Rule 5. As used in these rules:

(a) The terms defined in the act have the same meaning.

(b) "Marine inspector" means a person employed by the commission for the purpose of examining vessels and vessel operators to assure compliance with state law.

(c) "Navigable waters of the United States" means the bodies of water, including all of the Great Lakes and their connecting channels under the jurisdiction of the United States coast guard marine inspection office for the purposes of vessel operator licensing and the inspection and certification of vessels carrying more than 6 passengers for hire.

(d) "Nonnavigable waters of the United States" means all other bodies of water in this state not under the jurisdiction of the United States coast guard as described in subdivision (c).

History: 1954 ACS 59, p. 12, Eff. Aug. 14, 1969.

PART 2. VESSEL EQUIPMENT

R 281.2021 Hull markings.

Rule 21. (1) A vessel, except one documented under federal law, shall be registered by the Michigan department of state and shall display the registration number awarded on both bows of the vessel in accordance with state law.

(2) A documented vessel shall bear all markings required and affixed in accordance with federal law.

(3) A vessel, where applicable, shall bear boat license plates affixed in accordance with state law.

History: 1954 ACS 59, p. 12, Eff. Aug. 14, 1969.

R 281.2022 Main engines; suitability and cooling.

Rule 22. (1) Main engines shall be suitable in type and design for propulsion requirements of the hull in which they are installed and capable of operating at constant marine load without exceeding their designed limitations.

(2) The head, block and exhaust manifold shall be water jacketed and cooled by water from a pump which operates when the engine is operating.

History: 1954 ACS 59, p. 13, Eff. Aug. 14, 1969.

R 281.2023 Main engine carburetors.

Rule 23. (1) A main engine carburetor shall be designed to prevent leakage of fuel around shafts or other connections.

(2) A carburetor shall have integral or properly connected drip collectors of adequate capacity which return all drip and overflow to the engine intake manifold.

(3) A carburetor shall be installed in such a manner as to prevent any drip or accumulation of fuel in the drip collector from escaping into the bilges or engine compartment.

(4) An air intake shall be fitted with an approved means of backfire flame control.

History: 1954 ACS 59, p. 13, Eff. Aug. 14, 1969.

R 281.2024 Main engine gages.

Rule 24. (1) A main engine gage to indicate cooling water discharge temperature shall be so located as to be readable by the operator at all helm positions.

(2) A gage to indicate lubrication oil pressure shall be provided for a propulsion engine having a pressure lubricating system. It shall be located so as to be readable by the operator at all helm positions.

(3) A warning light may be used in lieu of a gage if it is of a type that can be tested at any time by the operator.

History: 1954 ACS 59, p. 13, Eff. Aug. 14, 1969.

R 281.2025 Main engine exhaust pipe systems.

Rule 25. (1) A main engine exhaust pipe system shall be:

(a) Gastight to hull interior.

(b) Designed and installed to prevent water, from the sea or the cooling system, returning to the engine.

(c) So accessible that it can be inspected and repaired throughout its length.

(d) Supported so as to prevent undue stresses that may cause fractures.

(2) Where personnel or combustibles may come in contact with hot surfaces, effective protection shall be provided by waterjacketing, lagging, shielding, or suitable guards. Hangers, brackets, and other supporting components shall be of fire-resistant materials and be installed so as to prevent transmission of heat to adjacent combustible materials.

History: 1954 ACS 59, p. 13, Eff. Aug. 14, 1969.

R 281.2026 Ventilation and location of ducts.

Rule 26. (1) A compartment or space, including the lower portion and bilge, in which an engine or fuel tank is located, shall be provided with ventilation capable of preventing, and effective for removing, an accumulation of flammable or explosive vapor.

(2) Where the engine and fuel tank are not in a completely enclosed compartment, at least 1 mechanical exhaust ventilation duct shall be installed in the fore

part of the vessel, and 1 natural supply duct shall be installed in the after part of the vessel, both ducts having cowls or scoops.

(3) Where the engine and fuel tank are in a completely enclosed compartment, at least 2 supply ducts shall be located at 1 end of the compartment and they shall extend to the lowest part of the compartment or bilge on each side. Similar exhaust ducts shall be led to the mechanical exhaust system from the lowest part of the compartment or bilge on each side of the compartment at the end opposite from that at which the supply ducts are fitted.

(4) The exterior termination of a ventilating duct shall be located to prevent the return of displaced vapors to any enclosed space, and to avoid the pickup of vapors from fuel filling operations.

History: 1954 ACS 59, p. 13, Eff. Aug. 14, 1969.

R 281.2027 Construction of ducts.

Rule 27. (1) A duct shall be of rigid permanent construction of fireproof material and reasonably gastight from end to end. A duct shall lead as directly as possible and be properly fastened and supported. A duct shall be so installed that the ordinary collection of water in the bilge will not trap the duct.

(2) Cross sectional areas of each ventilation duct in a compartment shall be the same, with each cross section having an area of at least 1 square inch per foot of beam.

(3) A supply duct shall be provided with a cowl or scoop having a free area not less than twice the required duct area. When the cowl or scoop is screened, the mouth area shall be increased to compensate for the area of the screen wire. A damper shall not be fitted in a supply duct.

(4) A preferred arrangement uses the after ventilating ducts as inlets and the forward ventilating ducts as outlets, with the cowls of the after or inlet ducts trimmed forward and on a higher plane than the cowls of the forward or outlet ducts which are trimmed aft. The relative difference in elevation between the inlet cowl opening and the outlet cowl opening shall be a minimum of 4 inches.

History: 1954 ACS 59, p. 14, Eff. Aug. 14, 1969.

R 281.2028 Power exhaust blowers for ducts.

Rule 28. (1) The outlet of a ventilating duct shall be fitted with a power operated exhaust blower approved for marine use and installed as high above the bilges as possible. Location of power exhaust blowers just under the deck at the side is recommended. When so located, inspection or repair access shall be provided by easily removable panels or otherwise.

(2) Each helm position shall be placarded with a warning to operate blowers to free compartments of hazardous vapors before starting main or auxiliary engines.

(3) An exhaust blower switch shall be located outside of any space required to be ventilated by these rules, and shall be of the type interlocked with the engine ignition switch so that the blowers are started before the ignition is switched on. However, a blower switch independent from the ignition system will be accepted.

(4) The mechanical exhaust system shall assure the following air changes depending upon the size of the space:

Not over 500 cubic feet in size of space; minutes per air change..... 3
Not over 1,000 cubic feet size of space; minutes per air change..... 4
Not over 1,500 cubic feet of space; minutes per air change..... 5

R 281.2030 Fuel tanks.

Rule 30. A fuel tank on a vessel, except an outboard motor powered vessel, shall be installed:

(a) To permit examination, testing or removal for cleaning with minimum disturbance to the hull structure.

(b) With adequate support and bracing to prevent movement. The supports and braces shall be insulated from contact with the tank surfaces with a nonabrasive and nonabsorbent material.

(c) By electrical bonding to the common ground.

(d) With openings for fill and vent pipes, and for fuel level gages where used, on the topmost surfaces of the tank. The tank shall have no openings in the bottom, sides, or ends, except that an opening fitted with a threaded plug or cap may be used for cleaning the tank.

History: 1954 ACS 59, p. 14, Eff. Aug. 14, 1969.

R 281.2031 Fuel tank filling and sounding pipes.

Rule 31. Fuel tank filling and sounding pipes shall be installed as follows:

(a) A filling pipe shall be not less than 1½ inches nominal pipe size.

(b) A filling or sounding pipe shall be so arranged that overflow of liquid or vapor cannot escape to the inside of the vessel, but will discharge overboard.

(c) A sounding pipe may be omitted where sounding can be accomplished through the fill pipe or where marine type fuel gages are installed.

(d) A sounding pipe when used shall be at least as high as the filling pipe and shall be kept closed at all times except during sounding.

History: 1954 ACS 59, p. 14, Eff. Aug. 14, 1969.

R 281.2032 Fuel tank vent pipes.

Rule 32. Fuel tank vent pipes shall be installed as follows:

(a) A fuel tank shall be fitted with a vent pipe which shall be connected to the tank at its highest point.

(b) The net cross sectional area of the vent pipe shall be not less than that of ¾-inch outside diameter tubing except that, where provision is made to fill the tank under pressure, the cross sectional area of the vent pipe shall be not less than that of the fill pipe.

(c) The discharge end of a vent pipe shall terminate on the hull exterior as high above the waterline as practicable and remote from any hull openings, or shall terminate as high above the weather deck as practicable and as far from any openings into living quarters or other below deck spaces as practicable.

(d) A vent pipe terminating on the hull exterior shall be installed or equipped to prevent accidental contamination of the fuel by water under normal operating conditions.

(e) The discharge end of a vent pipe shall be fitted with a removable flame screen or flame arrester. The flame screen shall consist of a single screen of corrosion resistant wire of at least 30 x 30 mesh.

History: 1954 ACS 59, p. 15, Eff. Aug. 14, 1969.

R 281.2033 Fuel system maintenance.

Rule 33. The entire fuel system, tanks, piping, tank vent line, and accessories shall be maintained in the following manner:

(a) The operator shall regularly inspect them for leaks or evidence of corrosion.

(b) Connections shall be tight at all times.

(c) Fuel carried on board outside of a fixed fuel system shall be in an approved container or in a portable tank as provided by manufacturers of outboard engines and shall be safely stowed outside of engine or living compartments.

History: 1954 ACS 59, p. 15, Eff. Aug. 14, 1969.

R 281.2034 Fueling operations.

Rule 34. (1) During fueling operations, smoking shall be forbidden on board or anywhere nearby.

(2) Passengers shall not be allowed on board a vessel while it is taking on fuel.

(3) Before opening a fuel tank the following precautions shall be observed:

(a) Engines, motors, and fans shall be shut down.

(b) Open flames shall be extinguished.

(c) Ports, windows, doors, and hatches shall be closed.

(d) The quantity of fuel to be taken aboard shall be determined.

(4) The fuel delivery nozzle shall be put in contact with the filling pipe before the flow of fuel is commenced and this contact shall be continuously maintained until the flow has stopped. A serious hazard from static discharge exists unless this rule is observed.

(5) After fuel flow has stopped, the fill cap shall be tightly secured, any spillage shall be wiped up completely, and the entire vessel shall be opened and vented before starting any engines or operating any appliances.

(6) Fueling shall not be undertaken at night except under well lighted conditions.

History: 1954 ACS 59, p. 15, Eff. Aug. 14, 1969.

R 281.2035 Cooking and heating appliances.

Rule 35. (1) Galley stoves and heating appliances shall be manufactured, approved and labeled for marine use.

(2) A durable and permanently legible instruction sign covering the safe operation and maintenance shall be provided by the manufacturer and installed on or adjacent to the consuming appliance, where it may be readily observed.

(3) Galley stoves and heating appliances shall be installed in adequately ventilated areas.

(4) Galley stoves and heating appliances shall be securely fastened when in use and when stored.

(5) A burner system that may affect safety by reason of motion of the vessel shall not be used.

(6) Woodwork or other combustible materials above appliance tops and all woodwork or combustibles immediately surrounding stoves shall be effectively insulated with noncombustible materials or sheathing.

History: 1954 ACS 59, p. 15, Eff. Aug. 14, 1969.

R 281.2036 Alcohol, fuel oil, and kerosene stoves and appliances.

Rule 36. (1) Alcohol, fuel oil, and kerosene stoves and appliances of either pressure or gravity fed burner types, are permissible.

(2) A fuel tank for such a stove or appliance shall be constructed of corrosion resistant metal with welded or brazed joints and fittings.

(3) A pressure tank integrally installed with such a stove or appliance shall withstand a test pressure of at least 200 pounds per square inch gage, and shall be effectively protected from the heat of the burners.

(4) A pressure tank for remote installation shall withstand a test pressure of at least 100 pounds per square inch gage, and shall be rigidly secured in an accessible location permitting convenient filling and pump operation.

(5) A gravity tank shall be substantially secured and shall be installed separate and remote from stoves and appliances. It shall be so located or shielded that under continuous operation at maximum output, the temperature of contained fuel will not be substantially raised by heat from burners.

(6) A gravity tank shall not have a capacity exceeding 2 gallons, and shall have provision for filling and venting outside the space containing the stove or appliances unless otherwise approved by the marine inspector.

(7) A remotely located fuel tank shall have an approved stop valve installed close to the tank. Fuel lines shall be installed with as few fittings as practicable between valves and stove or appliance connections.

History: 1954 ACS 59, p. 16, Eff. Aug. 14, 1969.

R 281.2037 Gasoline and liquefied petroleum gas stoves and appliances.

Rule 37. Stoves and appliances using liquid gasoline or liquefied petroleum gas for fuel shall not be used aboard a vessel, except that a vessel operating on nonnavigable waters of the United States, and approved for the use of liquefied petroleum gas as fuel for cooking under Act No. 113 of the Public Acts of 1909, as amended, being §§408.251 to 408.287 of the Michigan Compiled Laws, now repealed, may be approved if the system is installed, maintained and operated in a manner approved by the marine inspector.

History: 1954 ACS 59, p. 16, Eff. Aug. 14, 1969.

R 281.2044 Electrical wiring.

Rule 44. (1) Wiring shall be routed as high as possible above the bilge with prime consideration given to the protection of the wiring from mechanical damage.

(2) Individual wires and harnessed wires shall be supported with clamps or straps at least every 14 inches to fixed structural members of the vessel. Staples shall not be used for this purpose.

(3) Exposed wiring subject to mechanical damage shall be protected by loom, or other equivalent means.

(4) Wiring passing through bulkheads or other structural members shall be adequately protected against chafing.

History: 1954 ACS 59, p. 16, Eff. Aug. 14, 1969.

R 281.2045 Electrical equipment.

Rule 45. (1) Appliances and fixed AC electrical equipment used on a vessel shall be so designed that the current-carrying parts of the device are effectively insulated from exposed metal parts by a dielectric material suitable for use in dam and/or wet locations, depending on the location of the device and its intended usage.

(2) The frames of electrical appliances and equipment shall be grounded to the hull of metallic vessels or to the bonding system of nonmetallic vessels.

(3) Electrical equipment containing potential sources of ignition of flammable vapors installed in machinery spaces or other areas where flammable vapors may be present, shall be so designed, enclosed or protected to prevent ignition of external flammable vapors.

(4) Switches and circuit breakers used in the circuit shall be of an approved type that will simultaneously disconnect both current-carrying conductors, except

that switches which are an integral part of permanently installed cabin lighting fixtures may be of the single pole type.

History: 1954 ACS 59, p. 16, Eff. Aug. 14, 1969.

R 281.2046 Storage batteries.

Rule 46. (1) An electrical storage battery shall not be tapped for voltages other than the total voltage of all the cells comprising the battery.

(2) A battery shall be so located that gas generated in charging will be dissipated by natural or mechanical ventilation.

(3) A battery shall be accessibly located, provided with suitable supports, and secured against shifting with the motion of the vessel.

(4) An acid battery shall be located in a liquid tight tray of adequate capacity to retain normal spillage or boilover of the electrolyte. It shall be constructed of, or lined with, materials resistant to deterioration by the electrolyte.

(5) A nonconductive, perforated cover or suitable means shall be provided to prevent accidental shorting of battery terminals.

History: 1954 ACS 59, p. 17, Eff. Aug. 14, 1969.

R 281.2051 Fire extinguisher systems and pumps.

Rule 51. (1) In a vessel with an installed fixed fire extinguisher system, the cylinders shall be weighed and tagged each year by a qualified firefighting repair service. The system shall be installed in accordance with good marine practice and be in good working condition.

(2) A power driven fire pump shall be installed on a mechanically propelled vessel which is permitted to carry more than 49 passengers. The power driven fire pump shall be self-priming and of such size as to discharge an effective stream from a hose connected to the highest outlet. The power fire pump may be driven off a propulsion engine or other source of power and shall be connected to the fire main. The pump may also be connected to the bilge system so that it can serve as either a fire pump or a bilge pump.

History: 1954 ACS 59, p. 17, Eff. Aug. 14, 1969.

R 281.2052 Fire main systems.

Rule 52. (1) A vessel required to have a power driven fire pump shall also be provided with a fire main system including fire main, hydrants, hose and nozzles.

(2) Fire hydrants shall be of sufficient number and so located that any part of the vessel may be reached with an effective stream of water from a single length of hose.

(3) Piping, valves and fittings shall be provided and installed in accordance with good marine practice and be suitable for the purpose intended.

(4) One length of firehose shall be provided for each fire hydrant. Firehose may be commercial firehose or equivalent of not over 1½-inch diameter or garden hose of not less than ⅝-inch nominal inside diameter. Hose shall be in 1 piece not less than 25 feet nor more than 50 feet long. Garden hose, when used, shall be of a good commercial grade constructed of an inner rubber tube, plies of braided cotton reinforcement and an outer rubber cover or equivalent material, and shall be fitted with a commercial garden hose nozzle of good grade bronze or equivalent metal. A length of firehose shall be attached to each fire hydrant at all times.

History: 1954 ACS 59, p. 17, Eff. Aug. 14, 1969.

R 281.2053 Portable fire extinguishers; classes.

Rule 53. Portable fire extinguishers installed on vessels shall be of the U.S. coast guard approved class B-1 or B-2. Such class extinguishers are of the following content and capacities:

Type	Class B-1	Class B-2
Foam	1¼ gallons	2½ gallons
Carbon dioxide	4 pounds	15 pounds
Dry chemical	2 pounds	10 pounds

History: 1954 ACS 59, p. 17, Eff. Aug. 14, 1969.

R 281.2054 Portable fire extinguishers; number and location.

Rule 54. (1) The minimum number of portable fire extinguishers required on a vessel and the location on the vessel is shown in the following table:

Type-Length	Class	Minimum Number of Extinguishers	Locations
Open Vessels			
Less than 16 feet	B1	1	Helmsman's position
16 feet or over	B1	2	Helmsman's position and passenger's space
Compartmented Vessels			
Less than 26 feet	B1	2	Helmsman's position and cabin
26 feet to less than 40 feet	B1	3	Engine compartment,** helmsman's position and galley
40 feet or over	B1	4*	Engine compartment,** helmsman's position, crew quarters and galley

*Where more than three B-1 units are recommended, the extinguishing capacity may be made up of a smaller number of B-2 units, if each location is protected with a readily accessible extinguisher.

**On a vessel with a fixed fire extinguisher system portable extinguishers may not be required for the engine space.

(2) Portable fire extinguishers in an engine compartment shall be located so as to be convenient to the space protected. Extinguishers recommended for an engine compartment shall not be located inside the compartment but shall be located near an entrance to the compartment unless someone is normally present in the compartment.

(3) A vessel over 16 feet in length shall carry at least 1 bucket with lanyard attached with which to fight fires in ordinary combustible materials such as wood, cloth, and paper.

History: 1954 ACS 59, p. 18, Eff. Aug. 14, 1969.

R 281.2055 Portable fire extinguishers; maintenance.

Rule 55. (1) Fire extinguishers shall be examined at regular intervals to make certain that they have not been tampered with and have not suffered corrosion or damage. Seals shall be inspected to determine that the extinguishers have not been operated since last being charged.

(2) A foam extinguisher shall be discharged, cleaned, inspected for mechanical defects or serious corrosion, and recharged annually.

(3) A dry chemical extinguisher shall be kept full with specified weight of chemical at all times. The cartridge shall be reweighed annually and if found to weigh less than the minimum weight stamped thereon shall be replaced with a full one or recharged. An extinguisher with a gage shall be recharged when the pressure is below prescribed operating limits. The following are special attention items required for proper maintenance of this type extinguisher:

(a) The extinguisher shall be refilled after use even though only partly discharged.

(b) Before recharging, the hose shall be cleaned of all chemical.

(c) The extinguisher shall be manually shaken at least each 6 months to avoid any packing that might develop in it.

(4) A carbon dioxide extinguisher shall be reweighed annually, and a cylinder found lighter than the weight indicated on the name plate shall be recharged.

History: 1954 ACS 59, p. 18, Eff. Aug. 14, 1969.

R 281.2057 Deck rails.

Rule 57. (1) Except as otherwise provided in these rules, rails or equivalent protection shall be installed near the periphery of all weather decks accessible to passengers and crew. However, where space limitations make deck rails impractical, such as at narrow catwalks in way of deckhouse sides, hand grabs may be substituted.

(2) Rails shall consist of evenly spaced courses and the spacing between courses shall not be greater than 12 inches.

(3) The lower rail courses may not be required where the space below the upper rail course is fitted with a bulwark, chain link fencing, wire mesh or the equivalent.

(4) On a passenger deck of a vessel engaged in a ferry or excursion-type operation, rails shall be at least 42 inches high. The space below the rail shall be fitted with bulwarks, chain link fencing, wire mesh or the equivalent.

(5) On the cockpit of a sport fishing vessel where the side height from floor to top of the coaming is less than 26 inches, rails to bring the height to at least 26 inches shall be provided.

(6) Other rails shall be at least 36 inches high.

History: 1954 ACS 59, p. 18, Eff. Aug. 14, 1969.

R 281.2058 Vessels carrying vehicles.

Rule 58. A vessel carrying vehicles shall have suitable chains, cable, or other barriers installed at the ends of the vehicle runways. Suitable gates, rails, or other devices shall also be installed as a continuation of the regularly required rails.

History: 1954 ACS 59, p. 19, Eff. Aug. 14, 1969.

R 281.2061 Whistles and fog bells.

Rule 61. (1) A vessel shall be provided with an efficient whistle or other sound-producing mechanical device as noted in the following table:

Vessel Length	Type of Device
Less than 16 feet	None
16 feet to less than 26 feet	Mouth, hand, or power operated capable of producing a blast of 2 seconds or more duration, and audible for at least ½ mile.

26 feet to less than 40 feet	Hand or power operated, capable of producing a blast of 2 seconds or more duration, and audible for a distance of at least 1 mile.
40 feet or over	Power operated, capable of producing a blast of 2 seconds or more duration, and audible for a distance of at least 1 mile.

(2) A vessel of 26 feet in length and over shall be provided with an efficient fog bell.

History: 1954 ACS 59, p. 19, Eff. Aug. 14, 1969.

R 281.2062 Compasses.

Rule 62. A vessel, except the following, shall be fitted with a suitable compass:

(a) Vessel in river service.

(b) Non self-propelled vessel.

(c) Vessel operating in protected waters with short restricted routes.

History: 1954 ACS 59, p. 19, Eff. Aug. 14, 1969.

R 281.2063 Lights.

Rule 63. (1) A vessel shall be fitted with navigation lights in accordance with applicable state and federal law and rules.

(2) A vessel operating in the night shall be equipped with a suitable number of portable battery lights (flashlights) as determined by the marine inspector.

History: 1954 ACS 59, p. 19, Eff. Aug. 14, 1969.

R 281.2064 Ground tackle and anchors.

Rule 64. (1) A vessel shall be fitted with suitable ground tackle and line as approved by the marine inspector for the size of the vessel and for the waters on which the vessel is certified to operate.

(2) The length of anchor line shall be 7 feet for each foot of depth of water on which the vessel normally operates, within reason but not less than 150 feet.

(3) It is recommended that a passenger fishing vessel operating on the Great Lakes be equipped with a sea anchor of a type approved by the U. S. coast guard and of sufficient size and with a line, having a minimum length of 150 feet, suitable for the size vessel.

History: 1954 ACS 59, p. 20, Eff. Aug. 14, 1969.

R 281.2065 Pyrotechnic distress signals.

Rule 65. (1) A vessel shall carry pyrotechnic distress signals of a type approved by the U. S. coast guard. Pyrotechnic distress signals are not required on a vessel when its operating time away from the dock is limited to approximately 30 minutes.

(2) A vessel required to carry distress signals shall carry 3 hand red flare distress signals and 3 hand orange smoke distress signals or 6 hand combination flare and smoke distress signals. Pistol firing type flares are approved for such use.

(3) Service use of distress signals shall be limited to a period of 3 years from date of manufacture, and replacement shall be made no later than the first inspection for certification or reinspection after the date of expiration.

(4) Distress signals shall be carried in a watertight container in the pilothouse or in another location considered suitable by the marine inspector.

History: 1954 ACS 59, p. 20, Eff. Aug. 14, 1969.

R 281.2067 Fixed seats.

Rule 67. (1) Fixed seats when used shall be installed as follows:

(a) Aisles not over 15 feet long shall be not less than 24 inches wide.

(b) Aisles over 15 feet long shall be not less than 30 inches wide.

(c) Where seats are in rows the distance from seat front to seat front shall be not less than 30 inches.

(d) Seat spacing shall provide for ready escape in case of fire or other emergency. Portable or temporary seats shall be arranged as required for fixed seating.

History: 1954 ACS 59, p. 20, Eff. Aug. 14, 1969.

R 281.2068 Toilet facilities.

Rule 68. (1) A vessel shall be provided with toilets and wash basins in accordance with the following table except that a vessel operating on short runs of approximately 30 minutes or less need not be fitted with toilets or wash basins.

Numbers of Passengers	Toilets	Wash Basins
49 and less	1	0
Over 49 (men and women)	1 for men	1 for men
	1 for women	1 for women
Over 49 (men only)	2	1

(2) A vessel shall be equipped with a toilet effluent treatment device as required by state and federal law and rules.

History: 1954 ACS 59, p. 20, Eff. Aug. 14, 1969.

R 281.2069 Life preservers.

Rule 69. (1) A vessel shall be provided with an adult-type life preserver for each person on board. A number of life preservers suitable for children shall be provided equal to at least 10% of the total number of persons on board.

(2) Life preservers shall be of U.S. coast guard approved type, and marked with a C. G. stamp stating that the life preservers are approved for use on vessels carrying passengers for hire.

(3) Kapok and fibrous glass life preservers which do not have plastic covered pad inserts shall be removed from service. Life preservers found in an unsatisfactory condition by the marine inspector shall be removed from the vessel and destroyed on the spot by the owner or his representative assisting in the inspection.

(4) Life preservers shall be distributed throughout the upper part of the vessel in protected places convenient to the persons on board. Life preservers for children shall be stowed separately.

(5) If practicable, life preserver containers shall be so designed as to allow the life preservers to float free.

History: 1954 ACS 59, p. 20, Eff. Aug. 14, 1969.

R 281.2070 Ring life buoys and water lights.

Rule 70. (1) A vessel shall be equipped with an approved ring life buoy not less than 24 inches in diameter, except that a vessel less than 26 feet in length may use a ring life buoy not less than 20 inches in diameter.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(2) The ring life buoy shall be placed to be readily accessible. It shall be capable of being cast loose, shall not be permanently secured in any way, and shall have attached to it a line at least 60 feet in length.

(3) A vessel not limited to daytime operation shall be provided with an approved water light for night use which shall be stowed close to or attached to the ring buoy.

History: 1954 ACS 59, p. 21, Eff. Aug. 14, 1969.

R 281.2071 Marking of life preservers, life buoys, and containers.

Rule 71. (1) Life preservers and ring life buoys shall be marked with the vessel's name or number in characters and numbers at least 1 inch high and in a color contrasting to the color of the lifesaving device.

(2) When life preservers are stowed so that they are not readily visible to passengers, their containers shall be marked "Life Preservers" and with the number contained therein, in letters and figures at least 1 inch high and in a color contrasting to the color of the container. This legend shall indicate the separate stowage of children's life preservers.

History: 1954 ACS 59, p. 21, Eff. Aug. 14, 1969.

R 281.2072 Lifefloats or buoyant apparatus.

Rule 72. A vessel operating on the Great Lakes more than 10 miles offshore shall carry sufficient lifefloats or buoyant apparatus for not less than 50% of the persons on board.

History: 1954 ACS 59, p. 21, Eff. Aug. 14, 1969.

R 281.2075 Outboard vessels.

Rule 75. (1) An outboard vessel is also subject to the additional requirements set forth in this rule.

(2) An outboard powered vessel shall carry either an operable licensed radiotelephone, or a minimum of 2 outboard motors in good operating condition at all times while carrying passengers.

(3) The operator of an outboard powered vessel shall carry sufficient gasoline on board in approved gas tanks to sustain a full day's operation under normal operating conditions with a reasonable reserve.

(4) Gas tanks shall be properly secured to prevent shifting while underway and evenly distributed on both sides of the vessel. Sufficient lengths of fuel lines shall be provided from the outboard motor to reach the furthest fuel tank without removing the tank from its secured location.

(5) An outboard motor shall be of sufficient size and power to enable the vessel to be operated, fully loaded, in a safe and prudent manner.

History: 1954 ACS 59, p. 21, Eff. Aug. 14, 1969.

R 281.2079 Emergency checkoff lists.

Rule 79. (1) An emergency checkoff list shall be posted aboard a vessel in a conspicuous location visible to passengers and crew.

(2) The checkoff list shall include the items contained in the following list:

EMERGENCY CHECKOFF LIST

A—ROUGH WEATHER AT SEA OR CROSSING HAZARDOUS BARS

1. Close all watertight and weathertight doors, hatches, and airports to prevent taking water aboard.
2. Keep bilges dry to prevent loss of stability due to water in bilges.
3. Keep passengers seated and evenly distributed.
4. Have passengers put on life preservers if the going becomes very rough or you are about to cross a hazardous bar.
5. Never abandon a vessel (particularly a wooden boat) unless actually forced to do so.
6. If assistance is needed use the International Distress call over radiotelephone or call the Coast Guard immediately.
7. Prepare any lifefloats on board for launching.

B—MAN OVERBOARD

1. Throw a ring buoy as close to the person as possible.
2. Post a lookout to keep the person overboard in sight.
3. Maneuver the vessel to pick up the person in the water.
4. Have crew member put on lifejacket, attach a safety line to him and have him stand by to jump into the water to assist the person overboard if necessary.
5. If person is not immediately located notify Coast Guard and other vessels in vicinity by radiotelephone.
6. Continue search until released by the Coast Guard.

C—FIRE AT SEA

1. Cut off air supply to fire—close hatches, ports, doors, and ventilators, etc.
2. Immediately use portable fire extinguishers at base of flames for inflammable liquid or grease fires; or water for fires in ordinary combustible materials.
3. If fire is in machinery space, shut off fuel supply and ventilation and discharge fixed CO_2 if installed.
4. Maneuver vessel to minimize effect of wind on fire.
5. If unable to control fire, immediately notify the Coast Guard and other boats in the vicinity by radiotelephone, etc.
6. Move passengers away from fire, have them put on life preservers and if necessary prepare to abandon ship.

History: 1954 ACS 59, p. 21, Eff. Aug. 14, 1969.

R 281.2081 Public liability insurance.

Rule 81. The owner of a vessel shall carry, or cause to be carried, bodily injury liability insurance covering each passenger aboard. The minimum coverage limits shall be $100,000.00 total per accident.

History: 1954 ACS 59, p. 22, Eff. Aug. 14, 1969.

R 281.2091 Inspectors' authority to waive rules.

Rule 91. A marine inspector may waive any of R 281.2021 to R 281.2079 when, in his judgment, compliance with the rule:

(a) Would place an unreasonable burden upon the vessel owner, and

(b) Because of the nature or type of vessel involved, would not materially enhance the safety of the vessel or its operation.

History: 1954 ACS 59, p. 22, Eff. Aug. 14, 1969.

PART 3. CERTIFICATION OF VESSELS

R 281.2101 Certificates of inspection; navigable waters of the United States.

Rule 101. (1) An application for a certificate of inspection for a vessel carrying more than 6 passengers for hire on navigable waters of the United States shall be made to the United States coast guard.

(2) An application for a certificate of inspection for a vessel to carry 6 or less passengers on a vessel on navigable waters of the United States, except a vessel less than 16 feet in length and carrying 3 passengers or less, shall be made in writing to the commission on forms furnished by the commission. The applicant shall certify to the truth of the statements in the application.

History: 1954 ACS 59, p. 22, Eff. Aug. 14, 1969.

R 281.2102 Certificates of inspection; nonnavigable waters of the United States.

Rule 102. An application for a certificate of inspection for a vessel carrying passengers for hire on nonnavigable waters of the United States, except a vessel less than 16 feet in length and carrying 3 passengers or less, shall be made in writing to the commission on forms furnished by the commission. The applicant shall certify to the truth of the statements in the application.

History: 1954 ACS 59, p. 23, Eff. Aug. 14, 1969.

R 281.2104 Initial inspection; scope.

Rule 104. An initial vessel inspection shall include but not be limited to the following items:

(a) Arrangement, materials and scantlings of the structure.

(b) Piping.

(c) Main and auxiliary machinery.

(d) Electrical installations.

(e) Lifesaving appliances.

(f) Fire extinguishing equipment.

(g) Compliance with all state and federal laws and rules governing equipment and vessel operations on waters of this state.

History: 1954 ACS 59, p. 23, Eff. Aug. 14, 1969.

R 281.2105 Drydocking and hauling out.

Rule 105. (1) A vessel operating exclusively in fresh water shall be drydocked or hauled out at intervals of not to exceed 60 months. The marine inspector shall examine the underwater hull and appendages, propellers, shafting, stern bearings, rudders, through hull fittings, and sea valves and strainers, and determine that these items are in satisfactory condition.

(2) When a vessel is to be drydocked or hauled out to carry out major repairs or alterations affecting its safety or seaworthiness, the person in charge of the vessel, the owner or his agent shall report to the commission the nature of the repairs or alterations contemplated, as far in advance as possible.

History: 1954 ACS 59, p. 23, Eff. Aug. 14, 1969.

R 281.2106 Hull and machinery inspection.

Rule 106. (1) At each initial and subsequent inspection for certification, the marine inspector shall view the vessel afloat.

(2) The inspector shall examine all accessible parts of the exterior and interior of the hull. Where the internals of the vessel are completely concealed, sections of the lining or ceiling may be removed or the parts otherwise probed or exposed so that the inspector may satisfy himself as to the condition of the hull structure.

(3) The inspector shall inspect all railings and bulwarks and their attachment to the hull structure. Special attention shall be paid to insure that guards or rails are provided in all dangerous places.

(4) The inspector shall examine and test run all machinery on board. The marine inspector may require that the main propulsion machinery be operated both ahead and astern.

(5) The inspector shall examine and test the main and auxiliary steering apparatus to the extent necessary to determine that its condition is satisfactory and that it is fit for the service intended.

(6) The inspector shall examine the bilges and other spaces to see that there is no accumulation of oil or other matter which might create a fire hazard.

History: 1954 ACS 59, p. 23, Eff. Aug. 14, 1969.

R 281.2107 Equipment required by other law.

Rule 107. At each initial and subsequent inspection for certification, the marine inspector shall examine and test all items in the vessel's outfit, such as ground tackle, navigation and running lights, and radio communication equipment, which are required to be carried by other state and federal laws and rules. The examination and test shall be to the extent necessary to determine that the condition of the item is satisfactory and that it is fit for the service intended.

History: 1954 ACS 59, p. 23, Eff. Aug. 14, 1969.

R 281.2108 Electrical systems.

Rule 108. At each initial and subsequent inspection for certification, the marine inspector shall examine and test the electrical system to determine that it is in proper operating and safe condition and fit for the service intended.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2109 Sanitary inspection.

Rule 109. At each initial and subsequent inspection for certification, the marine inspector shall examine the passenger and crew quarters, toilets and washing spaces, galleys, serving pantries, and lockers, to determine that they are serviceable and in a sanitary condition.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2110 Correction of hazards.

Rule 110. At each initial and subsequent inspection for certification, and at every other vessel inspection, the marine inspector shall require that all observed unsafe practices and hazardous situations be corrected.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2115 Duration and renewal of certificates.

Rule 115. An issued certificate of inspection is valid for 1 year from the date of issuance unless revoked or surrendered. The certificate of inspection may be renewed annually by applying to the commission for inspection.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2116 Contents of certificates.

Rule 116. A certificate of inspection shall describe the vessel, the route which it may travel, the minimum manning requirements, the lifesaving equipment to be carried, the minimum fire extinguishing equipment to be carried, the maximum number of passengers and the maximum number of persons which may be carried, and the name of the owner or charterer.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2117 Posting of certificates.

Rule 117. A certificate of inspection shall be framed under glass or other transparent material and placed in a conspicuous place on the vessel. Where posting of the certificate is impractical the certificate shall be kept on board to be shown on demand.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2118 Number of passengers.

Rule 118. The maximum number of passengers which may be carried on a vessel may be determined by the marine inspector by applying 1 of the following criteria which results in the allowance of the greatest number of passengers for the vessel:

(a) Length of rail criteria or 1 passenger per 30 inches of rail space available to passengers at the vessel's sides and across the transom.

(b) Deck area criteria of 1 passenger per 10 square feet of deck area available for passenger use. In computing the deck area, the areas occupied by concession stands, toilets and washrooms, companionways, and stairways shall be excluded.

(c) Fixed seating criteria of 1 passenger per 18 inches of width of fixed seating provided.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2119 Suspension and revocation of certificates.

Rule 119. If at any time subsequent to an inspection of a vessel and the issuance of a certificate, changes to the hull or any portion of the vessel including equipment required to be carried on board are found to have occurred so that the vessel no longer meets the minimum standards prescribed therefor, the certificate shall be revoked and immediately surrendered to the commission.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

R 281.2120 Ownership of certificates.

Rule 120. An issued certificate shall remain the property of the commission and shall be surrendered to the inspector or other commission agent upon demand.

History: 1954 ACS 59, p. 24, Eff. Aug. 14, 1969.

PART 4. LICENSING OF OPERATORS

R 281.2121 Applications for licenses.

Rule 121. (1) An application for a license to operate a vessel carrying passengers for hire on navigable waters of the United States shall be made to the United States coast guard.

(2) An application for a license to operate a vessel carrying passengers for hire on nonnavigable waters of the United States shall be made to the commission on

forms furnished by the commission. The applicant shall certify to the truth of the statements in the application.

History: 1954 ACS 59, p. 25, Eff. Aug. 14, 1969.

R 281.2122 Qualifications of applicants.

Rule 122. (1) An applicant for a license from the commission shall establish to the satisfaction of the commission that he possesses the qualifications prescribed by these rules before he is entitled to take the examination for a license.

(2) An applicant for a license shall be at least 18 years of age.

(3) An applicant for a license shall not have been convicted by a court of record of a violation of the narcotic drug laws of the United States, the state of Michigan, or any state or territory of the United States within 10 years before the date of filing his application; or shall not have been the user of or addicted to the use of a narcotic drug, unless he furnished satisfactory evidence that he is cured.

(4) An applicant for a license shall not have been convicted by a court of record of a violation of the marine laws of the United States, the state of Michigan, or any state or territory of the United States within 5 years before the date of filing his application.

(5) An applicant for a license shall have at least 1 year of experience as an operator of the type of vessel for which an operator's license is sought.

History: 1954 ACS 59, p. 25, Eff. Aug. 14, 1969.

R 281.2123 Physical examinations of applicants.

Rule 123. (1) An applicant for an original license shall pass a physical examination given by a licensed physician of this state and present a certificate signed by the physician attesting to the applicant's acuity of vision, color sense, and general physical condition. Epilepsy, insanity, senility, acute general disease or neurosyphilis, badly impaired hearing, or other defect that would render the applicant incompetent to perform the ordinary duties of a licensed operator are causes for denial of the application.

(2) The commission, when there is reason to doubt the operator's physical or visual abilities, may require him at any time to obtain a new physical examination as to his fitness to operate a vessel.

History: 1954 ACS 59, p. 25, Eff. Aug. 14, 1969.

R 281.2124 Vision of applicants.

Rule 124. For an original license as an operator, an applicant shall have, either with or without glasses, at least 20/20 vision in 1 eye and at least 20/100 in the other eye. The color sense shall be tested by means of a pseudoisochromatic plate test.

History: 1954 ACS 59, p. 25, Eff. Aug. 14, 1969.

R 281.2125 Exceptions to physical requirements.

Rule 125. When an applicant is not possessed of the vision, hearing, or general physical condition necessary, the marine inspector, after consultation with the examining physician, may recommend to the commission an exception to the requirements of R 281.2123 and R 281.2124, if in his opinion extenuating circumstances warrant special consideration.

History: 1954 ACS 59, p. 25, Eff. Aug. 14, 1969.

R 281.2126 Examinations for licenses.

Rule 126. A qualified applicant for a license shall take and pass an examination. The examination for an original operator's license shall cover the following subjects:

(a) Duties of an operator.

(b) Rules of the road applicable to the waters over which the applicant intends to operate.

(c) General knowledge and ability to navigate his vessel with safety to life and property.

(d) Proficiency in vessel handling and operation.

(e) Operation of the propelling machinery, particularly the safe and proper handling of fuel.

(f) Proper management of a vessel and crew in case of emergency.

(g) Fire protection and extinguishment of fires.

(h) Lifesaving equipment.

(i) Simple first aid.

History: 1954 ACS 59, p. 25, Eff. Aug. 14, 1969.

R 281.2127 Exhibition of licenses.

Rule 127. A licensed operator, when operating a vessel for hire, shall place his certificate of license framed under glass, in a conspicuous place in the vessel, where it can be seen by passengers and other persons at all times. Where such exhibition is impracticable, the certificate of license shall be carried on board and shown on demand.

History: 1954 ACS 59, p. 26, Eff. Aug. 14, 1969.

R 281.2128 Duration and renewal of licenses.

Rule 128. (1) An operator's license is valid for 1 year from the date of issue.

(2) An operator's license may be renewed by application to the commission. The marine inspector may waive the physical examination requirement and the examination on vessel handling and operation.

History: 1954 ACS 59, p. 26, Eff. Aug. 14, 1969.

R 281.2129 Ownership of licenses.

Rule 129. An issued license shall remain the property of the commission and shall be surrendered to the inspector or other commission agent upon demand.

History: 1954 ACS 59, p. 26, Eff. Aug. 14, 1969.

R 281.2130 Suspension and revocation of licenses.

Rule 130. Negligent or improper operation of a vessel, personal misconduct, physical impairment of the operator, or falsification of information given on a license application are grounds for suspension or revocation of an operator's license.

History: 1954 ACS 59, p. 26, Eff. Aug. 14, 1969.

DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION COMMITTEE

CONDUCT OF REFERENDA AND ELECTIONS

(By authority of Act No. 297 of the Public Acts of 1937, as amended, being §282.1 et seq. of the Michigan Compiled Laws)

R 282.1 Notice of referendum or election.

Rule 1. (1) After the committee has legally made and recorded a determination that there is need for the organization of a district in a particular territory, or for the inclusion of additional territory within an existing district, and has defined the boundaries thereof, it shall set the date for a referendum and directors' election. The notice of the referendum or election shall include the following:

(a) The name of the district, or proposed district.
(b) The date fixed for holding the referendum or election.
(c) The hours of opening and closing the polls.
(d) The place or places at which the polls will be located.
(e) The purpose and object of the referendum or election.
(f) Who is eligible to vote.

Provided, that a notice of referendum upon creation of a proposed district, or inclusion of additional territory within an existing district shall include a description of the boundaries of the territory involved, as defined by the committee in its determination of need; and, provided further, that where more than 1 voting place has been established, the notice shall contain an adequate description of the voting unit to be served by such voting places in order that the eligible voters may determine their respective voting places.

(2) The notice shall also state the name and address of the person appointed as polling superintendent and shall state that eligible voters, who will be absent from their voting unit on the day of the referendum and election, may apply to such superintendent in person, or in writing, for a voter's registration and qualification form and an absentee ballot.

(3) The date fixed for the holding of the referendum, election, or both shall not, in so far as practicable, conflict with that fixed for any public holiday.

(4) Where the notice of referendum is had by publication, as prescribed in section 5 of the soil conservation districts law, the first publication shall be at least 12 days prior to the date fixed for holding the referendum and the final publication shall not be more than 5 days prior thereto. Where the notice of the election is had by publication, as prescribed in section 5 of the soil conservation districts law, the first publication shall be at least 12 days prior to the date fixed for holding the election, and the final publication shall be not more than 5 days prior thereto. In the event that notice is had by posting, as provided in said section 5, such posting shall be made at least 12 days prior thereto.

History: 1944 ACS 8, p. 24; 1954 AC, p. 1401.

R 282.2 Designation of voting place or places.

Rule 2. (1) If the committee shall consider it is necessary or convenient for voting purposes to establish more than 1 voting place, the committee shall enter an order establishing a suitable number of voting places, and defining the area which constitutes the voting division to be served by each such place. If only 1 voting

place is established within the proposed territory, the whole of such territory shall be considered as a voting unit within the meaning of these rules.

(2) In determining the place or places at which the voting place shall be established, due regard shall be given to accessibility and convenience of such place to the eligible voters of the proposed territory, in view of existing highways and modes of transportation, as to give the greatest number the opportunity of voting.

(3) Voting places may be located on lands outside the boundaries of the proposed territory if such locations are more accessible and convenient to the eligible voters within such territory.

(4) At all subsequent referenda and elections held within a district, the same voting places shall be designated unless it appears to the committee that it be necessary or convenient that the voting places be changed for the purpose of giving the greatest number of eligible voters the opportunity of voting. If such voting places be changed, the committee shall enter an order to that effect.

History: 1944 ACS 8, p. 24; 1954 AC, p. 1401.

R 282.3 Appointment of officials for conduct of referendum or election.

Rule 3. (1) At each referendum or election there shall be a polling superintendent who shall supervise the conduct of the referendum or election throughout the district, or proposed district, and shall perform the duties hereinafter provided. There shall also be a polling board for each voting place, consisting of 3 polling officers, who shall be responsible for, and in charge of, the voting at their respective polling place.

(2) The polling officials shall be appointed by the committee at any meeting thereof held prior to the publication or posting of notice of referendum or election for which they are to act. Members of the polling board shall be qualified electors for any general election.

(3) If, during the progress of the referendum or election, any member shall cease to act, the remaining members may appoint some suitable person to act in his stead. In all questions concerning the eligibility of voters, the polling officers shall act as a body and the action of a majority shall be the decision of the board.

(4) The persons appointed as polling officials shall be notified by the committee in writing of their appointment, which notice shall be delivered to the appointees, together with the copy of the oath of office. The oath, after being sworn and subscribed to by the appointee, shall be immediately returned to the committee and filed with the other papers pertaining to the district.

History: 1944 ACS 8, p. 25; 1954 AC, p. 1402.

R 282.4 Eligible voters.

Rule 4. (1) All owners or occupiers of any lands 3 or more acres in extent lying within the boundaries of such proposed district shall be entitled to vote, provided that where the title is held by 2 or more persons jointly, all persons having such a joint interest shall be entitled to vote, and, provided further, that 1 officer or agent of any corporate land owner, or estate, duly authorized in writing, by either general or special power, may cast a vote on behalf of said corporation and when so voting he shall exhibit to the election officers such written instrument of his authority.

(2) All land occupiers of 3 or more acres of land in the district are eligible to vote for directors.

(3) A voter residing within the district shall vote at the voting place in the voting unit in which he resides; and a voter not residing in the district shall vote at

the voting place for the unit which includes his farm headquarters, and if he has more than 1 farm headquarters, in the unit including the greater part of his land.

History: 1944 ACS 8, p. 25; 1954 AC, p. 1402.

R 282.5 Ballots.

Rule 5. (1) Ballots to be used at a referendum upon the creation of a proposed district shall have printed or mimeographed upon them the words "For creation of a soil conservation district of the lands below described and lying in the county (ies) of _____ and _____" and "Against creation of a soil conservation district of the lands below described and lying in the county (ies) of _____ and _____" with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions, as the voter may favor or oppose the creation of such district. The ballot shall set forth the boundaries of such proposed district as determined by the committee.

(2) Ballots to be used at a referendum upon inclusion of additional territory within an existing district shall have printed or mimeographed upon them the words "For inclusion of the lands below described and lying in the county (ies) of _____ and _____ within the _____ soil conservation district" and "Against inclusion of the lands below described and lying in the county (ies) of _____ and _____ within the _____ soil conservation district" with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions, as the voter may favor or oppose the inclusion of the lands within such district. The ballots shall set forth the boundaries of the lands proposed for inclusion as determined by the committee.

(3) Ballots to be used at an election of directors for a district shall have printed or mimeographed upon them the names of all nominees on behalf of whom nominating petitions have been filed within the time prescribed in section 5 of the soil conservation districts law, arranged in the alphabetical order of the surnames, with a square before each name and a direction to insert an X mark in the square before any 3 names to indicate the voter's preference.

(4) In addition to the matter described in the 3 preceding paragraphs, the ballots shall contain the name of the district or proposed district and the date of the referendum or election. The ballots shall bear no other marks.

(5) The committee shall cause to be printed or mimeographed, in accordance with the preceding paragraphs of this section, a supply of ballots sufficient to meet the demands for the particular referendum or election. A sufficient number of the ballots shall be delivered to the polling superintendent for the district, or proposed district, at least 15 days prior to the day of the referendum or election, to enable him to comply with the provisions regarding absentee voting. The remainder of the ballots shall be delivered to the polling superintendent at least 3 days prior to the date of the referendum or election for distribution to the respective polling boards within his district, as hereinafter provided.

History: 1944 ACS 8, p. 25; 1954 AC, p. 1402.

R 282.6 Voting supplies.

Rule 6. (1) The committee shall furnish each polling board with the necessary supplies, consisting of:

(a) Official ballots.
(b) Original and duplicate poll list.
(c) Original and duplicate tally sheet.
(d) Instructions to election officers.
(e) Voter's registration and qualification card.

(2) The supplies shall be delivered to the polling superintendent for the district not later than 3 days prior to the day of the referendum or election. It shall be his duty to distribute the supplies to the various polling boards within the district not later than the day before the referendum or election. He shall also immediately after the referendum or election collect the returns and all unused supplies from the polling boards and forward the same to the state committee, as hereinafter provided.

(3) It shall be the duty of the polling board to provide quarters for balloting where each voter can prepare and cast his ballot, without interference and without anyone seeing how he votes (but it shall not be necessary to provide private booths).

History: 1944 ACS 8, p. 26; 1954 AC, p. 1403.

R 282.7 Opening and closing polls; voting.

Rule 7. (1) On the day fixed for holding the referendum or election, the polls shall be opened and closed in accordance with the hours designated in the notice thereof. Voting may commence as soon as the polls are open and may be continued during all the time the polls remain open. Any eligible voter present at the time the polls are closed shall be permitted to cast his vote.

(2) Every applicant to vote shall satisfy the polling officials as to his eligibility to vote by his certification on the official voter's registration and qualification form, substantially as follows:

VOTER'S REGISTRATION AND QUALIFICATION

I _____ do hereby certify that I am the occupier of three or more acres of land located in _____ township in the _____ soil conservation district and that I have not previously voted in this referendum or election.

Witness _____ Signed _____
(Name) (Name)

The polling officers, after determining that an applicant to vote is eligible and has not previously cast an absentee ballot, will deliver to him an official ballot or ballots and shall proceed at once to enter the eligible voter's name, location, and acreage of land owned or occupied in the proper place on the original and duplicate of the form to be known as the "poll list." Said list shall provide, in addition to the above, a column for "Notation." After the ballot or ballots have been marked by the voter, they shall be folded by him and dropped into the ballot box. Any voter who shall by accident or mistake spoil his ballot may, on returning the spoiled ballot, receive another in place thereof. The spoiled ballot shall be publicly destroyed and the fact of such destruction and reason therefor noted in the poll list in the column marked "Notations." Any voter who has received an absentee ballot may cast his vote in person upon surrendering such ballot to an election officer on the day of the referendum or election. The absentee ballot so surrendered shall be publicly destroyed and the fact of such destruction and reason therefor noted upon the list of absentee voters in the column marked "Notations."

(3) Upon the request of an eligible voter for assistance in marking his ballot, the polling board shall designate 2 disinterested persons to assist him.

(4) Immediately after the name of the last voter has been entered on the poll list, the polling officers shall on the last line of the poll list write the following words: "We certify the referendum (or election) completed with the voting of _____." The poll list will then be signed by all members of the polling board.

R 282.8 Counting votes; certificate of result.

Rule 8. (1) Upon completion of the voting, the polling officers shall open the ballot boxes and commence counting the votes; and in no case shall the ballot boxes be out of the custody of at least 2 polling officers until all the ballots have been counted. The counting of ballots shall in all cases be public. The ballots shall be taken out 1 at a time by a polling officer, who shall open them and read aloud the names of the candidates voted for. The other polling officer shall keep the number of votes by tallies as they are read aloud. The counting of votes shall be continued without adjournment until all have been counted. No ballot shall be rejected because of illegibility if, in the opinion of the majority of the polling board, the intention of the voter can be ascertained therefrom. Tie votes affecting the election results shall be decided by lot in public under the direction of a majority of the polling officials. Whenever such action is necessary, the method for deciding the tie vote and the name of the winning candidate shall be recorded on the certificate of election results.

(2) As soon as all the votes are read off and counted, a certificate shall be drawn upon each of the poll lists and tally sheets stating the number of votes each proposition or candidate has received, which number shall be written in figures and in words at full length. Each certificate shall be signed by all the polling officers. Where directors' election and referendum are held at the same time, separate tally sheets for each proposition shall be prepared.

History: 1944 ACS 8, p. 27; 1944 ACS 11, p. 70; 1954 AC, p. 1404.

R 282.9 Disposition of records; returns to state committee.

Rule 9. (1) The ballots shall be strung upon a cord or thread, by the inspector or judge, during the counting thereof, in the order in which they are entered upon the tally sheets by the other election officers. The counted ballots shall be separately wrapped and sealed, and together with the registration cards, original poll lists, tally sheet, and all unused official ballots securely wrapped and sealed by a polling official in the presence of the other polling officials and endorsed "election (referendum) returns of (Name of district) _____ district, _____ polling place," and be delivered to the polling superintendent in the manner and at the time he shall direct. Since in the organization of a new district, the referendum and the directors' election are held at the same time, the ballots and balloting material for the referendum shall be wrapped in 1 package and the ballots and the balloting material for directors shall be wrapped in another package.

(2) It shall be the duty of the polling superintendent, as soon as practicable, but not more than 5 days after the returns have been completed, to collect from the various polling boards the returns therefrom and immediately deliver such returns and excess supplies to the state committee.

(3) The duplicate poll list, tally sheets, and list of absentee voters shall be retained by the polling superintendent and preserved by him at least 6 months.

History: 1944 ACS 8, p. 27; 1954 AC, p. 1405.

R 282.10 Canvass by state committee.

Rule 10. (1) The original poll list, tally sheet, and list of absentee voters shall be permanently filed in the office of the state committee, together with the other papers pertaining to the district. The ballots and registration cards shall be kept unopened by the committee for at least 6 months after returns have been canvassed and certified by the state committee, after which period they may be destroyed; provided that, if any person be of the opinion that the vote of the

referendum or election has not been correctly counted, or has been conducted in such a manner as to render the referendum or election invalid, he may appear on the day appointed to open and canvass the returns and demand a recount of the vote, or present evidence of such improper conduct. The committee may consider such evidence on that day or fix a time and place at which it will be considered.

(2) The state committee shall canvass the returns of the votes cast thereat within 10 days after each referendum or election. If, at the time of meeting, the returns from each division have not been received, the canvass must be postponed from day to day until all the returns have been received. The canvass must be made in public and by opening the returns and adding the total vote as shown thereon for each proposition or candidate voted for, and declaring the result thereof. The state committee shall, as soon as the result is ascertained, cause notice thereof to be published, and at that meeting of the state committee a statement of the result of the referendum or election shall be entered in the records of the committee.

(3) No poll list, tally sheet, or certificate returned from any referendum shall be set aside or rejected for want of form if it can be satisfactorily understood.

(4) A director's term of office shall begin after he is duly elected and as soon as he shall take and subscribe to the constitutional oath of office, which oath shall be filed with the secretary of the state soil conservation committee.

History: 1944 ACS 8, p. 27; 1944 ACS 11, p. 70; 1954 AC, p. 1405; 1954 ACS 21, p. 5, Eff. Feb. 13, 1960.

R 282.11 Instructions to election officers.

Rule 11. The committee shall cause instructions embodying the pertinent portions of these regulations, and such other instructions as it shall deem necessary, to be printed or otherwise duplicated for the use of the election officials in the conduct of referenda or elections.

History: 1944 ACS 8, p. 28; 1954 AC, p. 1405.

ELECTION OF DIRECTORS AT SOIL CONSERVATION DISTRICT ANNUAL MEETINGS

(By authority of section 7 of Act No. 297 of the Public Acts of 1937, as amended, being §282.7 et seq. of the Michigan Compiled Laws)

R 282.21a Act provisions.

Rule 1a. (1) The soil conservation district act provides that after the first governing body of a district is organized that, "thereafter, all directors shall be elected at an annual meeting of the land occupiers of the district. The annual meeting shall be held within 30 days following the close of the fiscal year of the district. The fiscal year of the district shall be determined by the board of directors of the district."

(2) In accordance with the above stated statute, the state committee has approved the following 3 methods for conducting directors' elections at district annual meetings. A district must use 1 of the following 3 methods.

History: 1944 ACS 8, p. 29; 1954 AC, p. 1406.

R 282.21b Method No. 1. Preparation for election.

Rule 1b. (1) Each district board of directors shall give widespread announcement of the annual meeting and directors' election. This may be done by (a) legal advertising, (b) direct mail, (c) news stories, (d) radio, (e) classified ads, or any

other method or methods that will direct attention of land occupiers to the annual meeting and election.

(2) At least 1 month prior to the annual meeting and directors' election, the district directors shall appoint a nominating committee of 5 men who are cooperators of the district, but none of whom are district directors. This nominating committee shall meet, elect a chairman and nominate at least 2 candidates for each directors' office to be filled. This committee shall then report to the district directors.

(3) The district directors shall prepare ballots for the election. The ballots may be either mimeographed or printed. The candidates' names shall appear on the ballot in alphabetical order by surnames. The ballot shall have the following form:

DIRECTORS' ELECTION

_____ Soil Conservation District

Date _____

Vote for _____ directors
(number)

- ☐ John Doe
- ☐ Richard Roe
- ☐ _____etc.

(4) One or more blank spaces shall be left on each ballot to provide voting space for nominations made at the meeting.

(5) The nominating committee may serve as polling officials and the chairman of the nominating committee may serve as polling superintendent.

(6) At the annual meeting, the polling superintendent as election chairman, or the chairman of the board of directors, shall take charge of the election. Voters' registration cards and a ballot shall be distributed to each land occupier present. The registration card shall follow the form suggested on the attached page.

(7) The election chairman shall ask for and accept additional nominations from the floor. He shall ask for additional nominations before the ballots have been distributed. If additional nominations are made, he shall instruct the voters to add names of such nominees to the ballot.

(8) The polling officials shall collect the completed registration card and the folded completed ballot from each eligible voter wishing to vote. Any voter who shall by accident or mistake spoil his ballot may, on returning the spoiled ballot, receive another in place thereof. The spoiled ballot shall be publicly destroyed. The voter shall fold his completed ballot and place it in a ballot box provided by the district directors.

(9) Upon the request of an eligible voter for assistance in marking his ballot, the polling board shall designate 2 disinterested persons to assist him.

History: 1944 ACS 8, p. 29; 1954 AC, p. 1406.

R 282.22 Method No. 2. Preparation for election.

Rule 2. (1) Each district board of directors shall give widespread announcement of the annual meeting and directors' election. This may be done by (a) legal advertising, (b) direct mail, (c) news stories, (d) radio, (e) classified ads, or any other method or methods that will direct attention of land occupiers to the annual meeting and election.

(2) Each district board of directors shall provide a large blackboard, a supply of pencils, sufficient slips of paper for nominations, ballot boxes, and 2 large manila envelopes in which completed ballots, registration cards, and unused supplies may be placed and sealed.

(3) Each district board of directors shall prepare ballots for the election. The ballots may be printed or mimeographed and shall have the following form:

DIRECTORS' ELECTION

_____ Soil Conservation District
(Name)

Date _____

Vote for _____ directors
(number)

1. _____

2. _____

(etc.)

(4) The district chairman shall take charge of the meeting to obtain nominations for directors.

(5) The chairman shall inform the assembled group as to the directors' offices to be filled and of the nomination and election procedure as determined by the state committee.

(6) The chairman shall appoint 3 or more land occupiers as polling officials, none of whom shall be candidates for office. If 1 or more polling officials are nominated for directors, the district chairman shall immediately appoint replacements.

(7) Every land occupier shall satisfy the election officials as to his eligibility to make nominations and to vote by his certification on the official voter's registration and qualification form, substantially as illustrated on the attached page. A registration card shall be distributed to each land occupier. Sufficient time shall be allotted for each land occupier to fill out card. He shall retain this card until he surrenders it for a final ballot.

(8) The chairman shall call for nominations by slip. Land occupiers who wish to make nominations shall write their nominations on a slip of paper and fold the paper. The slips shall be distributed and collected by the polling officials. Each land occupier shall have the right to make as many nominations as there are directors to be elected.

(9) If more than 10 nominations are made, the 10 names receiving the largest number of nominations shall be the candidates for election. If a tie exists between the tenth and eleventh candidates, both names shall be included in the list of candidates.

(10) Nominations thus made shall be plainly written on a blackboard in alphabetical order by surnames with the township name in which that nominee resides written opposite each name.

(11) This blackboard with nominations shall be placed in a location where it can be seen by all voters.

(12) The polling officers, after determining that an applicant to vote is eligible, shall collect his registration card and deliver to him an official ballot. Any voter who shall by accident or mistake spoil his ballot may, on returning the spoiled ballot, receive another in place thereof. The spoiled ballot shall be publicly destroyed. The voter shall fold his completed ballot and place it in a ballot box provided by the district directors.

(13) Upon the request of an eligible voter for assistance in marking his ballot, the polling board shall designate 2 disinterested persons to assist him.

History: 1944 ACS 8, p. 29; 1954 AC, p. 1407.

R 282.23 Method No. 3. Preparation for election.

Rule 3. (1) Each district board of directors shall give widespread announcement of the annual meeting and directors' election. This may be done by (a) legal

advertising, (b) direct mail, (c) news stories, (d) radio, (e) classified ads, or any other method or methods that will direct attention of land occupiers to the annual meeting and election.

(2) Each district shall provide a large blackboard, a supply of pencils, ballot boxes, and 2 large manila envelopes in which ballots, registration cards, and unused supplies may be placed and sealed.

(3) Each district shall prepare ballots for the election. The ballots, printed or mimeographed, shall have the following form:

DIRECTORS' ELECTION

_____ Soil Conservation District
(Name)

Date _____

Vote for _____ directors
(number)

1. _____

2. _____
(etc.)

(4) The district directors shall take charge of the election procedure.

(5) The district chairman shall inform the meeting as to the nomination and election procedure. Only land occupiers as defined by the districts' law shall be eligible to make nominations and to vote.

(6) Nominations shall be made orally from the floor. However, no motion to close nominations shall be in order until there are at least 2 nominees for each position to be filled.

(7) Each land occupier shall have the right to make as many nominations as there are positions to be filled.

(8) Nominations thus made shall be plainly written on a blackboard with the township name in which that nominee resides.

(9) The blackboard with nominations shall be placed in a location where it can be seen by all voters.

(10) The chairman shall appoint at least 3 polling officials to facilitate distribution, collection, and counting of ballots.

(11) The polling officials shall distribute a registration card and a ballot to each land occupier of 3 or more acres. The ballots shall then be completed, folded, and collected in a ballot box along with the completed registration card. Any voter who shall by accident or mistake spoil his ballot may, on returning the spoiled ballot, receive another in place thereof. The spoiled ballot shall be publicly destroyed.

(12) Upon the request of an eligible voter for assistance in marking his ballot, the polling board shall designate 2 disinterested persons to assist him.

History: 1944 ACS 8, p. 30; 1954 AC, p. 1408.

R 282.24 Procedure.

Rule 4. The following procedure is a part of each of the above 3 methods:

(a) At least 30 days prior to the annual meeting and directors' election, the board of directors of each district shall inform the state committee as to the date, time, and place of its annual meeting and of the method to be used for electing directors.

(b) A "land occupier" or "occupier of land" includes any person, firm, or corporation who shall hold title to, or shall be in possession of, any lands 3 acres or more in extent lying within a district organized under the provisions of the district

act whether as owner, lessee, renter, tenant, or otherwise. This includes the land owner and his wife if property is jointly owned, tenant, and tenant's wife if they are joint tenants or tenants in common, a representative of a firm or corporation providing such representative shall hold authorization in writing of his power to act for such firm or corporation. A son of a father and son partnership may also vote providing he is of legal age.

(c) Upon completion of the voting, the polling officers shall open the ballot boxes and commence counting the votes; and in no case shall the ballot boxes be out of the custody of at least 2 polling officers until all the ballots have been counted. The counting of ballots shall in all cases be public. The ballots shall be taken out 1 at a time by a polling officer, who shall open them and read aloud the names of the candidates voted for. The other polling officer shall keep the number of votes by tallies as they are read aloud. The counting of votes shall be continued without adjournment until all have been counted. No ballot shall be rejected because of illegibility if, in the opinion of the majority of the polling board, the intention of the voter can be ascertained therefrom. The nominee or nominees receiving the most votes shall be declared elected.

(d) As soon as all votes are read off and counted, 2 certificates of results shall be prepared stating the number of votes each candidate received, which number shall be written in figures (10) and in words (ten) at full length. Each certificate shall be signed by all polling officers.

(e) Districts organized prior to September 6, 1945, will have all directors come up for re-election or replacement at their first annual meeting. The 2 nominees receiving the most votes shall be elected for 3 years, the next 2 highest for 2 years, and the fifth one for 1 year. Thereafter, as terms expire and elections are held, successful candidates shall be elected for 3 years.

(f) It shall be the duty of the district chairman, as soon as practicable after the election returns have been completed, to deliver to the state soil conservation committee, 1 completed copy of the certificate of election results.

(g) It shall be the duty of the district chairman, as soon as practicable after the election returns have been completed, to seal the election ballots and the registration cards and to retain them in the district files for at least 6 months, after which they may be destroyed, except that during this 6 months' period, it shall be his duty to surrender the ballots and the registration cards unopened to the state soil conservation committee upon its request.

(h) The duplicate certificate of voting results shall be permanently retained by the district directors in the district files.

(i) The certificate of voting results shall be permanently filed in the office of the state committee, together with the other papers pertaining to the district. If, during a 6 months' period following the directors' election, any person be of the opinion that the vote of the election has not been correctly counted, or has been conducted in such a manner as to render the election invalid, he may appear on the day appointed to canvass the returns and demand a recount of the vote, or present evidence of such improper conduct. The committee may consider such evidence on that day or fix a time and place at which it will be considered.

(j) A statement of the election results shall be entered in the permanent records of the committee.

(k) No certificate returned from any election shall be set aside or rejected for want of form if it can be satisfactorily understood.

(Suggested form for legal advertising if district wishes to use such advertising for annual meeting and directors' election)

Notice of Annual Meeting and Election of Directors

_____ Soil Conservation District

To all occupiers of lands lying within the boundaries of the _____ soil conservation district, notice is hereby given that on the _____ (day) of _____ (month), _____ (year), between the hours of _____ and _____, in the _____ (building) at _____ (town), an annual meeting and a directors' election will be held.

All occupiers of land who hold title to or are in possession of three or more acres of any lands lying within the district are eligible to attend and to participate in the directors' election. A "land occupier" or "occupier of land" includes any person, firm, or corporation who shall hold title to, or shall be in possession of, any lands three acres or more in extent lying within a district organized under the provisions of the districts act whether as owner, lessee, renter, tenant, or otherwise.

_____ (Board of Directors), Chairman

_____ Soil Conservation District

VOTER'S
REGISTRATION AND QUALIFICATION

I _____ do hereby certify that I am the owner or occupier of three or more acres of land located in _____ township in the _____ soil conservation district.

Signed _____ (Name)

Date _____

(Copies of this registration blank may be obtained from the state committee or they may be mimeographed or printed locally).

CERTIFICATE OF DIRECTORS' ELECTION RESULTS

_____ Soil Conservation District

Date _____, 19__

Place of Election _____

Number of Directors to be elected _____

We do hereby certify that the following individuals were nominated for director or directors of the _____ soil conservation district and that each nominee received the indicated number of votes:

Name	Mailing Address	Votes Received
1.		
2.		
3.		
4.		
5.		
6.		
7.		
8.		
9.		
10.

History: 1944 ACS 8, p. 31; 1944 ACS 18, p. 65; 1954 AC, p. 1409; 1954 ACS 21, p. 5. Eff. Feb. 13, 1960.

HEARING SCHEDULE

(By authority of Act No. 197 of the Public Acts of 1952, as amended, and Act No. 297 of the Public Acts of 1937, as amended, being §24.101 et seq. and §282.1 et seq. of the Michigan Compiled Laws)

R 282.51 Notice of hearing.

Rule 1. Notification of any hearing before the Michigan state soil conservation committee will be by notice published in a newspaper or other publication of general circulation within the appropriate area, or if no such publication of general circulation be available, by posting at a reasonable number of conspicuous places within the appropriate area, in accordance with the provisions of Act No. 297 of the Public Acts of 1937, as amended. Such hearings shall be held at a suitable location as may be determined in the wise discretion of the committee.

History: 1954 ACS 25, p. 28, Eff. Feb. 14, 1961.

R 282.52 Appearance.

Rule 2. When an appearance is made at a hearing, it may be made either in person or by a duly authorized representative.

History: 1954 ACS 25, p. 28, Eff. Feb. 14, 1961.

R 282.53 Answer or brief; service.

Rule 3. Any interested party may, at his option, file a written answer or brief with the committee, prior to the date set for hearing, or at the hearing may appear and present an oral statement. When written answers or briefs are presented, a copy shall be served upon the state soil conservation committee through its executive secretary at least 5 days prior to the date set for the hearing.

EXECUTIVE DIVISION

REGULATION NO. 50. WEATHER MODIFICATION CONTROL

(By authority conferred on the department of agriculture by section 4 of Act No. 279 of the Public Acts of 1978, being §295.104 of the Michigan Compiled Laws)

R 285.50.1 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 279 of the Public Acts of 1978, being §295.101 et seq. of the Michigan Compiled Laws and known as the weather modification control act.

Digitized by Google

(b) "Managing agent" means an individual who shall be designated on the application, who shall directly supervise the weather modification activity in Michigan or conduct the weather modification activity in Michigan, or do both, and who shall be contacted in the event of emergency permit modification or suspension. The managing agent may be the applicant.

(c) "Operational area" means a geographic area and the atmosphere above the area in which a person or persons place or attempt to place any substance in the atmosphere or clouds within the atmosphere for the purpose of producing or attempting to produce a certain weather modification, and also means the geographic area and the atmosphere above which the weather is intended to be modified.

(d) "Permit" means an operational permit issued by the director indicating that approval has been given for conducting a specified weather modification operation within the state, subject to the conditions and within the limitations established under the act and these rules.

(e) "Permittee" means a person who holds an operational permit issued under the act and these rules.

(f) "Person" means an individual, corporation, company, association, firm, partnership, society, joint stock company, any state or local government or an agency thereof, or any other organization, whether commercial or nonprofit, who is performing weather modification operations or research and development.

(g) "Project office" means the Michigan office of the person conducting weather modification activities in Michigan.

(h) "Time interval" is that specified in the project description portion of the application, or, if the operation is performed under contract, the effective starting and ending dates of the contract shall apply.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 100, p. 71, Eff. Aug. 17, 1979.

R 285.50.2 Application for permit.

Rule 2. (1) An application for a permit shall be made under oath on forms provided by the department. The application shall contain all of the following:

(a) Name, business address, and phone number of the applicant.

(b) A list of states in which the applicant is currently licensed.

(c) Name, address, and phone number of the applicant's managing agent if this individual is different from the applicant.

(d) If applicable, a list of states in which the managing agent is currently licensed.

(e) Project office address and phone number.

(f) Name and address of the person on whose behalf the operation is to be conducted.

(g) Appropriate documentation to reasonably establish that the managing agent meets at least 1 of the following:

(i) Has had not less than 4 years of professional experience in weather modification field research or activities, and has served for not less than 2 years as a project director of weather modification activities.

(ii) Has obtained a baccalaureate degree from a recognized institution of higher education in engineering, mathematics, or the physical sciences, and has had not less than 2 years of experience in weather modification field research or activities.

(iii) Has obtained a baccalaureate degree from a recognized institution of higher education in engineering, mathematics, or the physical sciences, and has

satisfactorily completed the equivalent of not less than 25 semester hours of meteorological studies at a recognized institution of higher education.

(h) A description of the method to be used in placing any modifying substance or substances into the atmosphere or clouds within the atmosphere.

(i) A demonstration that the managing agent, by his or her knowledge of meteorology, cloud physics, and field experience, has the qualifications to conduct a weather modification operation using the method by which the applicant plans to place the substance or substances into the atmosphere or clouds within the atmosphere.

(j) A complete operational plan for the project, including all of the following:

(i) A specific statement of the nature, object, and probable impact of the operation.

(ii) A map of the proposed operating area that specifies the primary target area and shows the area reasonably expected to be affected.

(iii) A statement of the approximate time in which the operation is to be conducted.

(iv) A list of the materials and methods to be used in conducting the operation.

(v) An emergency shutdown procedure which states conditions under which operations shall be suspended because of possible danger to the public health, safety, welfare, or the environment.

(vi) Other detailed information as may be required to describe the operation.

(k) A list of all pending or closed court or administrative agency adversary proceedings in which the applicant is involved.

(l) Other information deemed necessary and relevant by the director.

(2) An application shall be accompanied by all the following:

(a) A fee of $100.00 or 1% of either the total cost of the weather modification operation or the contracted value, whichever is larger.

(b) A completed form for publication of notice of intent to engage in weather modification activities pursuant to section 12 of the act.

(c) Proof of financial responsibility pursuant to section 18 of the act.

(d) A copy of all contractual agreements, including all financial agreements, relating to the operation.

(e) A statement provided by the applicant describing the potential environmental impacts of the proposed action as required by the state's mandated environmental review process.

History: 1954 ACS 100, p. 71, Eff. Aug. 17, 1979.

R 285.50.3 Public notice.

Rule 3. The applicant shall cause to be published a notice of intent to engage in weather modification activities pursuant to the requirements of section 12 of the act.

History: 1954 ACS 100, p. 72, Eff. Aug. 17, 1979.

R 285.50.4 Permit modifications; project boundary modification.

Rule 4. (1) The director may place or amend conditions and restrictions on any permit at any time if necessary to protect the environment or the public health, welfare, or safety. Any revision in an existing permit shall be made pursuant to sections 6 and 19 of the act and R 285.50.12.

(2) Before a permittee may modify the boundaries of a project for which a permit has previously been obtained, the permittee shall make application to the director and shall meet the requirements set forth in the act and these rules as regards an original permit.

History: 1954 ACS 100, p. 72, Eff. Aug. 17, 1979.

R 285.50.5 Managing agent change; notice; requirements for replacement.

Rule 5. The permittee shall notify the director of a change in the managing agent. The replacement managing agent shall meet the requirements set forth in the act and these rules for a managing agent.

History: 1954 ACS 100, p. 72, Eff. Aug. 17, 1979.

R 285.50.6 Duration of permit; assignment or transfer of permit prohibited.

Rule 6. (1) A permit shall be valid for 1 year from the date of issuance or upon the completion of the contract as filed with the permit application, whichever is earlier.

(2) A permit shall not be assigned or transferred by the holder.

History: 1954 ACS 100, p. 72, Eff. Aug. 17, 1979.

R 285.50.7 Renewal of permit.

Rule 7. A permit shall be renewed by the director if all of the following conditions are met:

(a) Receipt of a request for renewal by the permittee, including any changes from the original permit.

(b) Receipt of the permit fee.

(c) The permittee meets all of the requirements necessary for issuance of an original permit.

(d) A review by the department of the permittee's operational records and reports demonstrates that any previous permits have been adhered to.

(e) The permittee has not violated the act or a rule promulgated under the act.

History: 1954 ACS 100, p. 73, Eff. Aug. 17, 1979.

R 285.50.8 Suspension and revocation of permit.

Rule 8. The director may suspend or revoke a permit in any of the following situations:

(a) The permittee no longer has the qualifications necessary for the issuance of an original permit.

(b) The permittee has failed to comply with R 285.50.12(2)(c).

(c) The permittee has violated the act or any of the rules promulgated under the act.

History: 1954 ACS 100, p. 73, Eff. Aug. 17, 1979.

R 285.50.9 Restoration of permits.

Rule 9. (1) At any time after the suspension or revocation of a permit, the director may restore the permit to the permittee after determining that the requirements for issuance of an original permit have been met and that there is sufficient reason to believe that the requirements shall continue to be met by the permittee.

(2) At any time after the refusal to renew a permit, the director may renew it upon a finding that the requirements for issuance of an original permit have been met and shall continue to be met by the permittee.

History: 1954 ACS 100, p. 73, Eff. Aug. 17, 1979.

R 285.50.10 Refusal to renew or restore permits.

Rule 10. (1) A permit renewal or restoration shall be denied if the department determines that an original permit would not have been issued, taking into account information obtained during the past year. A renewal or restoration may

be denied if the permittee has violated the act or a rule promulgated pursuant to the act.

(2) A permit renewal or restoration may be denied if the department determines that the permittee has shown incompetency, dishonest practice, false or fraudulent representation in obtaining a permit under the act, or has aided other persons to violate the act or the rules of the department promulgated under the act.

History: 1954 ACS 100, p. 73, Eff. Aug. 17, 1979.

R 285.50.11 Reports.

Rule 11. A person engaged in weather modification shall do all of the following:

(a) Maintain at his or her project office a current (within 24 hours) log of all operations. This log shall be available for inspection during normal working hours or at other reasonable hours by persons authorized by the director. The log shall include all of the following information:

(i) Date of the operation.

(ii) Methods and type of equipment employed.

(iii) Location of the operation, including flight tracks if applicable.

(iv) Type, rate, and amount of artificial cloud seeding material used.

(v) Time period during which each weather modification device was activated.

(vi) Total hours of operation of each unit of equipment.

(vii) Criteria used to determine when and where there was modifiable weather.

(viii) The times when there was modifiable weather but the permittee did not operate and the reasons therefor.

(ix) Other information deemed necessary and relevant by the director.

(b) File the following reports with the director:

(i) Monthly reports of weather modification activities. Such reports shall be filed no later than the fifteenth day of the following month and shall contain a tabulation and summary of the daily operational logs for the preceding month.

(ii) Preliminary report within 30 days after the end of each calendar year or within 30 days after the end of an operation, whichever occurs first, and a final report on the operation not later than 90 days thereafter. Such reports shall contain all of the following information:

(A) Name, business address, and phone number of the permittee.

(B) Name, project office address, and phone number of the managing agent if different from the permittee.

(C) Information regarding the managing agent's qualifications for performing the operation.

(D) Scope of the operation as set forth in the permit application and in compliance with R 285.50.2(1)(j).

(E) Name and address of each individual, other than those listed above, who participated or assisted in the operation.

(F) Total number of days on which operations were conducted.

(G) Total number of seeding or weather modification missions attempted and completed.

(H) Total number of hours each type of weather modification equipment operated.

(I) Total amount of each seeding agent used.

(J) Any identifiable environmental or public health, welfare, or safety impact caused by the operation.

(K) The manner in which operations did not conform to the conditions and limits of the permit as originally established or subsequently modified and the reasons therefor.

(L) An evaluation as to the effectiveness of the activities. Pursuant to section 9(2) of the act, an evaluation by an independent research organization is both encouraged and highly recommended. Such an independent evaluation may be used for fulfilling this requirement.

(M) Other information deemed necessary and relevant by the director.

History: 1954 ACS 100, p. 73, Eff. Aug. 17, 1979.

R 285.50.12 Safety standards and emergency shutdown procedures.

Rule 12. (1) To protect the public health, safety, welfare, and the environment, all of the following provisions shall be complied with:

(a) Weather modification operations for precipitation enhancement shall not be conducted during periods when the national weather service has issued a severe storm watch for the operational area.

(b) Severe storm mitigation operations shall be carried out in a safe manner consistent with the state of the weather modification technology.

(c) Weather modification research and development projects shall be conducted according to scientifically and meteorologically sound methods and in operational areas that minimize potential hazards to the public health, safety, welfare, and the environment.

(2) If it appears to the department that an emergency situation exists or is impending which could endanger the public health, safety, welfare, or the environment, the director may, without prior notice or a hearing, immediately modify the conditions and limits of a permit or order temporary suspension of the permit.

(a) The order shall be issued to the managing agent. If the managing agent is other than the permittee, a duplicate copy shall be delivered to the permittee at his official business address stated on the permit application.

(b) The issuance of the order shall include notice of a hearing to be held within 10 days thereafter on the question of permanently modifying the conditions and limits or continuing the suspension of the permit.

(c) Failure to comply with an order temporarily suspending an operation or modifying the conditions and limits of a permit shall be grounds for immediate revocation of the permit of the person controlling the operation.

(3) The permittee shall notify the department of any emergency that can reasonably be foreseen or of any existing emergency situations that may be caused or affected by the operation. Failure by the permittee to notify the department of an existing emergency or an impending emergency which should have been foreseen may be grounds, at the discretion of the director, for revocation of the permit of the person controlling the operation. A wanton or wilful failure to notify the department shall be grounds for revocation of the permit of the person controlling the operation.

REGULATION NO. 100. PAYMENT OF INDEMNITIES

R 285.100.1 Payment of indemnities on purebred cattle slaughtered on account of tuberculosis or brucellosis.

Rule 1. (1) Animals which are 3 years old or more must be registered prior to [illegible] reaction to be appraised as purebred animals, otherwise indemnity will be paid on grade basis. Animals under 3 years of age and eligible to registry which react to the test are entitled to appraisal as purebreds and indemnity will be paid on purebred basis, provided that registration is completed as required by law.

(2) In paying indemnities, only cattle recorded in the following named registry associations will be recognized as registered animals:

American Aberdeen Angus Breeders' Association
American Devon Cattle Club
American Galloway Breeders' Association
American Guernsey Cattle Club
American Hereford Association
American Jersey Cattle Club
American Kerry and Dexter Cattle Club
American Polled Hereford Breeders' Association
American Shorthorn Breeders' Association
Ayrshire Breeders' Association
Brown Swiss Cattle Breeders' Association

REGULATION NO. 101. PREVENTION OF SPREAD OF BOVINE TUBERCULOSIS OR BRUCELLOSIS

R 285.101.1 Preventing spread of bovine tuberculosis or brucellosis.

Rule 1. (1) Cattle which have reacted to the tuberculin test or brucellosis test shall not be shipped or transported in cars or other vehicles containing healthy cattle unless all of the animals are for immediate slaughter, or unless the tuberculous cattle or brucellosis cattle are separated from the other animals by a solid partition which shall be securely affixed to the walls of the car or vehicle.

(2) Cattle arriving at terminal public stockyards in this state in cars or other vehicles containing reacting cattle which are not properly segregated by a partition as above mentioned shall be so handled and yarded as to permit of their disposition for immediate slaughter only.

REGULATION NO. 102. TUBERCULIN TESTING AND CONTROL OF TUBERCULOSIS

R 285.102.1 Tuberculin testing; control of tuberculosis of livestock.

Rule 1. (1) The standard tuberculin test or tests as approved and used under the direction of the state and federal government, and applied by a veterinarian approved by the commissioner of agriculture, shall be the recognized method of diagnosis of tuberculosis of livestock.

(2) Any veterinarian to be approved for tuberculin testing within the state shall have qualified and passed the federal examination as applied to testing under the accredited herd plan and shall conform to the Michigan state law and federal rules and regulations relating to tuberculin testing and handling, marking, and disposition of reactor animals.

(3) Record of a retest on any animal which has reacted to any standard tuberculin test approved by the federal and state authorities will not be accepted or approved.

(4) Payment of state indemnity will be refused on any reactors to the tuberculin test, unless the test shall have been conducted by an approved veterinarian.

(5) Any animal which has reacted to the tuberculin test shall be kept separate from nonreacting animals. Payment of state indemnity will be refused on reactor cattle which are not kept properly segregated from nonreactors.

(6) The milk products of a reactor shall not be sold for human consumption, nor shall the product be fed to animals unless sterilized before feeding. Any animal susceptible to tuberculosis allowed to run in contact with a reactor shall not be sold or disposed of, except for immediate slaughter subject to state or federal inspection at time of slaughter.

REGULATION NO. 107. CONTAGIOUS AND INFECTIOUS DISEASES IN POULTRY

R 285.107.1 Prevention and suppression of contagious and infectious diseases in poultry.

Rule 1. (1) If tuberculous fowl are found in any flock, the entire flock shall be considered as infected.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(2) All owners of tuberculous poultry shall handle and dispose of their flocks in conformity with the regulations or directions of the commissioner of agriculture.

(3) All thin, emaciated fowls showing signs of tuberculosis shall be killed and burned.

(4) When the infection is found in any flock after August 1 and before January 1 of the following year, the remainder of such infected flock may be kept for egg production until August 1 of that year. When the infection is found between January 1 and August 1, only fowls less than 1 year of age may be kept until the following August 1, but must be kept away from all farm animals until marketed for slaughter. No eggs from such flock shall be sold for or used for hatching purposes.

(5) Poultry houses and yards must be thoroughly cleaned and disinfected as soon as the diseased flock is disposed of. A new flock should be reared from young chicks, upon clean ground, each year until it is determined that the flock is free from tubercular infection.

(6) In case of valuable purebred flocks, an arrangement may be made with the commissioner of agriculture for freeing the flock of infection through the use of the tuberculin test. All fowls reacting to the tuberculin test must be slaughtered and disposed of under competent post mortem inspection.

(7) No fowls are to be disposed of from infected flocks except for slaughter.

History: 1944 AC, p. 35; 1954 AC, p. 1503.

REGULATION NO. 108. IMPORTATION OF LIVESTOCK FOR SLAUGHTER

R 285.108 Rescinded.

History: Rescinded 1944 ACS 9, p. 29.

REGULATION NO. 109. INTRASTATE MOVEMENT OF SWINE

R 285.109.1 Intrastate movement of swine.

Rule 1. (1) Classes of swine prohibited intrastate movement:

(a) Any person owning, in charge of, or having in his possession swine affected with hog cholera, or which have been immediately exposed to the disease, shall not sell, move, or allow such infected or exposed swine to drift, or be transported, trailed, driven, or otherwise moved in this state for any purpose.

(b) Public stockyards and slaughter house and garbage feeding premises shall be considered infected premises, and no swine shall be sold, or disposed of, or allowed to move therefrom within this state (intrastate) except for immediate slaughter, except as hereinafter provided and upon a written permit from the state commissioner of agriculture, or his authorized representative.

(2) Swine, to be used for purposes other than immediate slaughter, may be shipped, transported, or otherwise moved in this state from public stockyards where state or federal inspection is regularly maintained, provided the following conditions are complied with and permission has been granted by the state commissioner of agriculture to establish this practice at public stockyards:

(a) It shall be necessary, before exercising the provisions of this rule as hereinafter stated governing the removal of swine from public stockyards for purposes other than immediate slaughter, for those in charge of said yards to make application to the state department of agriculture. Upon receipt of such application, the commissioner will cause an inspection to be made of such stockyards to ascertain whether or not proper facilities can be provided under this regulation, and also to give such instructions as will insure the strict observance of same.

(b) The swine, if found free from cholera or any other contagious, infectious, or communicable disease, shall be treated by a veterinarian authorized by the state commissioner of agriculture in accordance with subrules (3), (4), (5), and (6) in a portion of the stockyard set aside for that purpose, such pen or portion of yard being at all times maintained in a clean and sanitary condition.

(3) Swine may be treated either by the injection of anti-hog cholera serum alone or the simultaneous injection of anti-hog cholera serum and hog cholera virus. After treatment, the swine shall be dipped in or sprayed with a 2% solution of compound cresol U.S.P., or other permitted substitute, under the supervision of the veterinarian who administers the treatment before being removed from the stockyards.

(4) Swine removed from a public stockyard for purposes other than immediate slaughter under the provisions of this rule shall be considered under quarantine for a period of 21 days, during which time they must not be allowed to come in contact with or endanger untreated hogs.

(5) The shipment or movement shall be accompanied by a certificate issued by the veterinarian making the treatment, 1 copy of which shall be forwarded immediately to the state department of agriculture, Lansing, Michigan. This certificate shall show that the provisions of this rule have been complied with, giving date, place of treatment, method used, number of swine treated, and destination of shipment.

(6) Swine removed from public stockyards in compliance with this rule shall be transported in clean and disinfected cars or other vehicles and, after spraying or dipping, must not come in contact with yards, pens, chutes, or ground not known to be free from hog cholera infection.

History: 1944 AC, p. 36; 1954 AC, p. 1503.

REGULATION NO. 110. IMPORTATION OF SWINE

R 285.110.1 Importation of swine into Michigan.

Rule 1. (1) No person, company, association, or agent shall import or move any swine into Michigan except in conformity with the requirements of this rule.

(2) An affidavit executed by the importer or his authorized agent shall be immediately furnished the Michigan bureau of animal industry on each shipment of swine imported into Michigan for immediate slaughter and a copy of such affidavit shall be in possession of the transportation company or the trucker or person in charge of the swine when brought into the state. The affidavit shall state the number of hogs in the shipment and the name and mailing address of the consignor and consignee and the destination of the shipment. Such swine shall be consigned and delivered only to a slaughterhouse where federal inspection is maintained or to a slaughterhouse approved by the Michigan bureau of animal industry to receive livestock for slaughter. Such swine, upon arrival at destination, shall be held at slaughterhouse in isolation from any hogs not used for immediate slaughter and shall be killed within 48 hours after arrival at destination.

(3) Purebred, registered swine shall be accompanied by a health certificate, a copy of which shall be immediately furnished the state veterinarian at Lansing. Such certificate shall be issued by a United States bureau of animal industry veterinary inspector or by a graduate veterinarian approved by the state veterinarian or chief livestock sanitary official at point of origin and shall show that the swine have been vaccinated against hog cholera within 21 days prior to importation by the serum-alone method or more than 21 days prior to importation by the serum-simultaneous method; provided that any swine handled in conformity with

R 285.111 Rescinded.

History: Rescinded 1944 ACS 9, p. 29.

REGULATION NO. 112. IMPORTATION OF DOGS

R 285.112.1 Importation of dogs into Michigan.

Rule 1. (1) Any dog imported into Michigan shall be accompanied by a certificate of health issued by a veterinarian legally qualified to practice in the state or province of origin of said dog, and a legible copy of such certificate, approved by the chief veterinarian of the state or province of origin, shall immediately be furnished the state veterinarian of Michigan. Such certificate must show that said dog is free from rabies or any communicable disease and has not been recently exposed to such disease. Name the breed, sex, and age, and state definitely the point of origin and destination of said dog and the name and post office address of the consignor and consignee, and, if vaccinated, the date on which the vaccine was administered.

(2) Any such dog for importation which originates within a radius of 50 miles of any point where rabies has been known to exist within a period of 6 months prior to shipment shall have been properly vaccinated with a killed antirabic vaccine within 6 months prior to date of importation. Any dog imported into the state which has originated within a radius of 50 miles of any point where rabies has existed within a period of 6 months prior to importation may, at the discretion of the commissioner of agriculture, be subject to quarantine at destination for a period of not less than 60 days following arrival within the state of Michigan.

(3) This rule shall not apply to any dog passing through this state to points beyond, nor to any dog within the state for temporary stay for exhibition purposes, when such dog is kept properly under control of the owner or custodian.

History: 1944 AC, p. 37; 1954 AC, p. 1504.

REGULATION NO. 113. QUARANTINE OF DOGS

R 285.113.1 Establishment, maintenance, and enforcement of quarantine on dogs.

Rule 1. (1) The commissioner of agriculture, or any person by him duly appointed or authorized to enforce the provisions of any quarantine on dogs in any district or portion of the state of Michigan, may in his discretion issue permits

REGULATION NO. 117. PUBLIC EXHIBITION OF LIVESTOCK

R 285.117.1 Public exhibition of livestock.

Rule 1. (1) Seven days prior to the date when livestock are admitted to any building or yarding for exhibition purposes within Michigan, the buildings and yards shall have been thoroughly cleaned and disinfected by removing all manure and litter and all unused hay, straw, and forage from the premises, following which the walls, partitions, floors, mangers, yards, and runways shall be thoroughly sprayed with a 3% cresol solution or an equally efficient approved disinfectant solution. No livestock shall be admitted to the exhibition buildings or yards between the date of disinfection and the date livestock are admitted for exhibition.

(2) Any livestock known to be affected with a communicable disease shall not be offered for exhibition or allowed to mingle with susceptible animals on exhibition premises.

REGULATION NO. 118. REDUCTION PLANTS FOR DISPOSAL OF DEAD ANIMALS

(By authority of Act No. 226 of the Public Acts of 1929, as amended, being §287.231 et. seq. of the Michigan Compiled Laws)

R 285.118.1 Reduction plants for handling and disposal of dead animals or parts thereof.

Rule 1. (1) It is hereby ordered that no person when engaged in the business of collecting dead animals for the purpose of disposal shall enter on the premises where swine affected with hog cholera are kept for the purpose of collecting the bodies of swine which have died of hog cholera, nor shall the carcass of any animal which has died of an infectious disease be moved onto any premises where animals susceptible to such infectious disease are kept. (Note: The law provides that vehicles used for collecting swine shall not leave a public highway to receive or collect any hog carcass and that said carcass shall not be moved from said vehicle except at the place of final disposal.)

(2) All trucks or vehicles used for the handling or hauling of dead animals, or any part thereof, the disposition of which comes within the meaning of the before mentioned act, shall be equipped with bodies made of nonabsorbent material and so constructed as to prevent a leakage or a seepage of any material from the aforesaid truck or vehicle at any time. Three sides of the truck body shall extend upwards not less than 6 inches in height and the tailgate attached to the truck body when closed shall extend upwards not less than 6 inches in height. The rear end of the floor of the truck body shall be flanged upwards to a height of not less than 1 inch. Suitable coverings and tarpaulins must be carried and shall be used to completely cover truck body and load at all times when truck is loaded and in use.

(3) The floor space in connection with the reduction plant where dead animals are skinned and prepared for the reduction tanks shall be thoroughly washed daily. The interior of the plant, including equipment, shall be cleaned at frequent intervals and kept free from accumulations of filth. Sewers and drains shall be flushed and cleaned regularly to insure proper drainage at all times.

(4) All premises, trucks, vehicles, containers, and tarpaulins used in connection with the handling or transportation of dead animals or material for rendering shall be kept cleaned and properly disinfected at frequent intervals; provided that, when the said truck or vehicle has been used to haul or handle any animals or part of an animal which has died, or has been killed, as the result of an infectious or contagious disease, the aforesaid truck or vehicle shall be cleaned and thoroughly disinfected before going on to any highway or premises other than those where the before mentioned animals, or parts of animals, are delivered for reduction purposes.

(5) In the event any reduction plant is unable to connect with a city sewage system, all sewers or drains shall be connected with a suitable catch basin or septic tank that admits proper cleaning, and suitable provision made to avoid stream pollution where this possibility exists.

(6) Section 3 of Act No. 226 of the Public Acts of 1929, as amended, requires that there shall be no escape of odors into the air. All reduction plants shall be properly equipped with condensers, or other satisfactory methods to control odors.

(7) Cracklings, tankage, meat scraps, or any finished product of a reduction plant shall not be stored where they come in contact with any raw material or dead animals utilized in connection with a reduction plant.

(8) No truck or vehicle when loaded with dead animals for delivery to a reduction plant shall be parked or stored on any street of any city or village nor upon any highway or premises where such storing or parking shall constitute a nuisance. Any dead animals when collected for delivery to any disposal plant shall not be unloaded or handled or stored on any premises that cannot be properly cleaned and disinfected or in any place whereby such unloading, handling, or storing may create a nuisance in a community or contribute to the spread of a communicable disease.

History: 1944 AC, p. 39; 1954 AC, p. 1506.

REGULATION NO. 119. LIVESTOCK DISEASES

(By authority conferred on the state commission of agriculture by section 9 of Act No. 284 of the Public Acts of 1937, being §287.129 of the Michigan Compiled Laws)

R 285.119.1 Preventing spread of livestock diseases.

Rule 1. (1) The department may confer with the owner or management of any yarding, premises, or building which is to be used by such owner or management for the purpose of selling, trading, or delivering livestock and define an area surrounding such premises which shall be known as the market zone of said yarding or premises. All livestock brought into such market zone and sold or traded shall be handled and sold through the facilities of the management of the yarding within such zone in compliance with the Michigan state law and regulations of the department.

(2) Licensed livestock yards shall be provided with pens and buildings necessary to reasonably protect any livestock handled from injury and inclement weather. The pens and buildings shall be of such construction as will facilitate cleaning; and shall be regularly cleaned and kept free of mud and accumulations of manure and filth. The following provisions shall be complied with:

(a) Concrete or equally impervious floors shall be installed in all pens and alleys in all licensed livestock yards and in the loading and unloading areas immediately adjacent to the structure except in licensed livestock yards used exclusively for sale of the equine species according to the following schedule: ¼ or more of the nonconcreted or nonimpervious area existing on the effective date of this rule shall be paved during the calendar year 1963 and each succeeding year an additional ¼ or more of the original nonconcreted or nonimpervious area shall be paved until the total area shall have been paved by December 31, 1966, except pens used to house feeder cattle maintained on the premises by the owner for sale shall be exempt from the provision of this section. Any livestock yards licensed for the first time in 1963 or thereafter shall have concrete or equally impervious floors in all areas as provided for in this section.

(b) All pens, alleys, and dock areas shall be so constructed as to facilitate drainage. Water shall not be permitted to accumulate in pens, or alleys, or on the premises, except in approved lagoons.

(c) Manure shall not be allowed to accumulate on the premises of any licensed livestock yard for more than 6 days and shall be disposed of in a manner not dangerous to the health of livestock.

(d) The walls of all pens shall be kept clean and free of accumulations of filth.

(e) The area in front of the unloading dock, for a distance of 15 feet, shall be of concrete or impervious material so as to facilitate the cleaning up of manure and debris from the unloading trucks.

(f) All auction rings, docks, pens, scales, and alleys used for holding livestock shall be thoroughly cleaned after each sale and before again being used to hold or move any livestock. In addition, auction rings and pens used to hold animals with an infectious or contagious disease shall also be thoroughly disinfected after each sale before again being used, with a disinfectant approved by the Michigan department of agriculture.

(g) All pens used to hold livestock for a period of over 16 hours shall have facilities for feeding and watering such livestock.

Cattle under 3 months of age shall be removed from the premises by noon the day following the sale. Responsibility for the removal of such animals shall be on the owner.

(3) Trucks or vehicles used by livestock dealers or brokers for transportation and handling of livestock shall be properly constructed to adequately protect livestock handled from injury and undue exposure to inclement weather and shall be regularly cleaned and disinfected as may be required. Manure and filth shall not be allowed to accumulate in such vehicles from day to day. The compartment of any vehicle used for the transportation of livestock affected with infectious or communicable disease or which has been used for the transportation of swine from a garbage feeding premises or a public livestock yarding shall be cleaned and properly disinfected before again loading such vehicle with livestock for transportation.

(4) Any sick or diseased livestock or livestock originating immediately from a herd any of the animals of which are affected with an infectious disease shall not be sold or disposed of through any yarding facilities as referred to herein or moved from such yarding except upon a permit from the department or unless delivered direct to a rendering establishment and used for rendering purposes. For the purpose of this rule, an animal affected with lump jaw (actinomycosis) or traumatic pericarditis (hardware disease), or which has recently given birth to young and which is carrying a retained afterbirth, shall be construed as sick or diseased. Provided, an animal affected with lump jaw or with traumatic pericarditis may be sold or removed to and sold through a yarding where federal and state inspection is daily maintained or to an officially inspected packing plant for immediate slaughter upon declaration subject to official veterinary inspection. The carcass of such animal shall be handled and disposed of in accordance with United States department of agriculture meat inspection regulations, now in force and effect. All pens used for confinement of brucellosis reactors, cattle from herds under quarantine, or any other animals with a contagious or infectious disease shall be so located that such animals shall travel a minimum of distance to and from the dock and sale ring. Such pens shall be of smooth tight siding construction and of sufficient height that they will not permit the contact of any other livestock. These pens shall be drained in such a manner as to prevent contamination of the alley. Pens used for livestock infected with contagious or infectious diseases shall be properly identified and shall not be used to confine any other livestock.

(5) The owner or management of livestock yardings shall keep a legible record of all sales transactions including the number, identification, and class of animals offered for sale and the purpose for which traded or sold through such yarding, with full name and post office address of the consignor and the name and post office address of the consignee.

(6) Except upon a permit from the department, swine shall not be sold or removed from a public livestock yarding unless immediately slaughtered or unless delivered direct to a yarding where state or federal veterinary inspection is daily maintained. Such swine shall not be allowed to contact any hogs not used for

immediate slaughter or delivery as indicated in this rule. For the purpose of this rule, immediate slaughter shall mean killed or delivered at an inspected yarding as mentioned herein within 72 hours following removal from public sales yarding.

(7) Healthy swine which are not subject to quarantine and which are within the state and handled in compliance with the department rules and Michigan state law may be sold and removed from yardings referred to in this rule for purposes other than immediate slaughter when unloaded from the vehicles in which delivered directly to the vehicles in which the swine are removed from the sales premises.

(8) The director may require that barrows and gilts weighing over 80 pounds, that have not attained slaughter weight acceptable to the buyers of swine for slaughter purposes may be assembled for sale through livestock auctions under any or all of the following conditions, except as provided in subrule (9).

(a) Provide ample penning facilities under roof for protection of pigs from inclement weather.

(b) Each consignment to be separately penned until inspected by a representative of the Michigan department of agriculture. Barrows and gilts not inspected must go for immediate slaughter.

(c) All pens shall have concrete or impervious floors.

(d) All barrows and gilts sold through such sale premises shall:

(i) Not exhibit abnormal temperature or show symptoms of a contagious or infectious disease.

(ii) Be vaccinated immediately for hog cholera in accordance with methods recognized by the Michigan department of agriculture, and identified by a button or tag in the ear and a certificate of vaccination issued showing the type of vaccination used, before removal to farms.

Barrows and gilts offered for sale which are claimed to be immune to hog cholera shall be individually identified by a button or tag and accompanied by a vaccination certificate. Swine not so identified and accompanied by a certificate of vaccination shall be revaccinated in accordance with the provisions as outlined in (b) above.

(iii) Be vaccinated for erysipelas with a vaccine approved by the Michigan department of agriculture before removal to farms.

(e) Vaccination certificates will be retained by purchaser.

(f) Swine shall not emanate from garbage feeding premises.

(g) Swine shall be sprayed with lindane or benzene/hexachloride containing a cresylic compound or some other approved material before being moved to the farm of the purchaser and said spraying shall be the responsibility of the auction sale.

(h) All trucks or other conveyances bringing swine to or removing swine from said sale premises shall be free of any accumulated filth, litter, or manure.

(i) Each such sale premise shall:

(i) Have an adequate supply of available water.

(ii) Have adequate and suitable sewer or drainage to accommodate waste water used to wash and clean pens and alleys.

(j) All such swine sold must be removed within 24 hours after said sale.

(k) Swine sold as prescribed above will be held in quarantine 21 days on the buyer's premises, and shall be held separate and apart from all other swine.

(l) All pens used for barrows and gilts and the sale ring must be thoroughly cleaned and disinfected after each sale.

(m) All premises will be inspected and approved by the director of agriculture or his representative, and a permit issued to sell or remove barrows and gilts in accordance with requirements established in this rule.

(n) The entry for sale and certificate of inspection of such swine shall be made upon blanks prescribed or approved by the department.

(9) The director may issue a permit for swine to be assembled and grouped for sale as feeding or breeding swine when facilities are provided separate and apart from any slaughter hogs, and these facilities and the methods of operation and management practices have been inspected and approved by the director of agriculture or his authorized representatives. The director may subject swine to all or part of subrule (8) when he deems it necessary to prevent the spread of a communicable disease of livestock.

History: 1944 AC, p. 40; 1944 ACS 29, p. 5; 1954 AC, p. 1508; 1954 ACS 17, p. 5, Eff. Feb. 14, 1959; 1954 ACS 19, p. 5, Eff. Aug. 14, 1959; 1954 ACS 23, p. 5, Eff. Aug. 12, 1960; 1954 ACS 34, p. 10, Eff. May 15, 1963; 1954 ACS 44, p. 11, Eff. Nov. 14, 1965.

REGULATION NO. 120. LICENSING OF LIVESTOCK YARDS

(By authority of Act No. 284 of the Public Acts of 1937, being §287.121 et seq. of the Michigan Compiled Laws)

R 285.120.1 Licensing of livestock yards.

Rule 1. Each dealer or broker as defined in the act shall pay the fee provided for in section 3 of said act for each livestock yard, as defined in the section, operated by him.

History: 1944 AC, p. 41; 1954 AC, p. 1508.

REGULATION NO. 121. LIVESTOCK DISEASES

(By authority of Act No. 181 of the Public Acts of 1919, as amended, being §287.2 et seq. of the Michigan Compiled Laws)

R 285.121.1 Preventing spread of infectious and contagious diseases of livestock.

Rule 1. Except upon a permit from the Michigan state commissioner of agriculture, no person shall sell or deliver to other than a veterinarian legally qualified to practice within the state of Michigan any Brucella vaccine (Bang abortion vaccine) or any hog cholera virus; provided producers of Brucella vaccine (Bang abortion vaccine) and hog cholera virus may sell and deliver such vaccine and hog cholera virus to said legally qualified veterinarians or to said producers' bona fide agents or sales representatives if a proper record of such sales is furnished the state department of agriculture as required by Michigan state law. Resale or delivery of Brucella vaccine or hog cholera virus by said agents or representatives shall be made only to said legally qualified veterinarians, and a report of such sale by said agents or representatives shall be furnished the state commissioner of agriculture within 5 days of said sale, furnishing name and mailing address of the person to whom sold or delivered. Provided further, except upon a permit from the state commissioner of agriculture, no person shall administer Brucella vaccine (Bang abortion vaccine) or any product which may cause an animal to react to an officially recognized test for Bang's disease (Brucellosis) to any cattle owned or kept within an area under quarantine in Michigan for the purpose of testing of cattle and control of Bang's disease in said area or to cattle which are under supervision or test for Bang's disease under the authority of the state department of agriculture.

REGULATION NO. 122. USE OF HOG CHOLERA VIRUS AND ANTI-HOG CHOLERA SERUM

R 285.122 Rescinded.

History: 1944 AC, p. 42; 1954 AC, p. 1509; rescinded 1954 ACS 31, p. 6, Eff. Aug. 14, 1962.

REGULATION NO. 123. PREVENTING SPREAD OF BRUCELLOSIS

(By authority conferred on the department of agriculture by section 6 of Act No. 181 of the Public Acts of 1919 and section 2 of Act No. 13 of the Public Acts of 1921, being §§287.6 and 285.2 of the Michigan Compiled Laws)

R 285.123.1 Definition.

Rule 1. As used in these rules, "brucellosis" means the disease of livestock wherein an animal is infected with the brucella organism.

History: 1944 AC, p. 42; 1954 AC, p. 1509; 1954 ACS 6, p. 6, Eff. May 15, 1956; 1954 ACS 25, p. 29, Eff. Feb. 14, 1961; 1954 ACS 91, p. 25, Eff. May 11, 1977.

R 285.123.2 Animals considered infected.

Rule 2. An animal shall be considered infected with brucellosis if it reacts positively to a test, approved by the director of the department of agriculture, for use in the detection of that disease.

History: 1944 AC, p. 42; 1954 AC, p. 1509; 1954 ACS 6, p. 6, Eff. May 15, 1956; 1954 ACS 25, p. 29, Eff. Feb. 14, 1961; 1954 ACS 91, p. 25, Eff. May 11, 1977.

REGULATION NO. 124. TUBERCULIN AND BLOOD TESTING

(By authority of Act No. 181 of the Public Acts of 1919, as amended, being §287.2 et seq. of the Michigan Compiled Laws)

R 285.124.1 Tuberculin testing and blood testing of livestock.

Rule 1. (1) Any person who conducts a tuberculin test or engages in conducting a test for brucellosis upon any livestock except poultry within the state of Michigan shall identify each animal which is tested by a numbered metal tag inserted in the right ear of such animal or by an ear tattoo number or by a registration name and number. Except that where swine are tested the registration number shall not be sufficient and swine shall be identified by ear tag, button, or tattoo.

(2) A complete record of test including individual identification, the species, breed, sex, and age of the animals tested and the name and mailing address of the owner of said animals shall be filed with the livestock disease control division of the Michigan department of agriculture within 5 days following the completion of the test.

REGULATION NO. 127. TUBERCULIN TESTING AND TESTING FOR CONTROL OF BRUCELLOSIS

R 285.127.1 Tuberculin testing; testing for control of brucellosis.

Rule 1. When testing for eradication of tuberculosis and control of brucellosis of livestock is conducted by the state department of agriculture in cooperation with the federal government, it is hereby ordered that all work in connection with such testing shall be conducted upon an agreement signed by the cooperating authorities and that the work shall at all times be under the control of the state department of agriculture.

History: 1944 AC, p. 45; 1954 AC, p. 1512.

REGULATION NO. 129. DOG KENNELS

(By authority of section 10 of Act No. 339 of the Public Acts of 1939, as amended, being §287.270 of the Michigan Compiled Laws)

R 285.129.1 Dog kennels.

Rule 1. (1) The following rule is hereby established to be effective on and after April 22, 1946:

(a) Any dog kennel which under Michigan state law is to be covered by a license shall be of such construction as will adequately and comfortably house any dogs kept therein at any season of the year. The buildings, including walls and floors, shall be of such construction as to be readily cleaned, and kennels and yards connected therewith used to confine kennel dogs shall be kept cleaned and free from accumulation of filth, mud, and debris.

(b) All dogs kept or maintained in connection with such kennels shall be furnished with a clean, fresh water supply and adequate and proper food to maintain such animals in a normal condition of health.

(c) The necessary inspections to be made under this rule to determine whether the same has been complied with shall be made by the dog warden, if there be one, otherwise by such person as may be appointed by the board of supervisors or the legislative body of the government unit involved. If no such appointment is made and in effect in any county, city, or village, then such inspection shall be made on behalf of the commissioner of agriculture by the sheriff or chief of police.

(d) In all cases, upon such inspection being satisfactory, a certificate of inspection shall be signed by such inspector on behalf of the commissioner of agriculture as required by the act.

(2) The provisions of this rule shall not be effective in the counties of this state that are operating under the provisions of section 16 of Act No. 79 of the Public Acts of 1933, being §287.276 of the Michigan Compiled Laws, wherein the board of supervisors have appointed a county dog warden with certain powers and duties, unless such counties by a resolution duly adopted by the board of supervisors accept the provisions of Act No. 245 of the Public Acts of 1945, being §287.261 et seq. of the Michigan Compiled Laws.

REGULATION NO. 133. PUBLIC EXHIBITION OF POULTRY

(By authority of Act No. 181 of the Public Acts of 1919, as amended, being §287.2 et seq. of the Michigan Compiled Laws)

R 285.133.1 Relating to the public exhibition of poultry.

Rule 1. (1) Feed and water containers provided for exhibition coops shall be new or properly cleaned.

(2) Feed or water containers from which birds have eaten or drunk must be refilled so as not to contaminate the common supply of feed or water. Feed or water containers may not be removed from exhibition coops except for the purpose of cleaning.

(3) Exhibition coops must be thoroughly cleaned and disinfected, both prior to and following each exhibition.

(4) Exhibition coops must be so constructed and placed as to provide adequate light for proper inspection of poultry or evidence of transmissible diseases.

(5) Litter for exhibition coops must be of clean material and renewed daily or more often as needed.

(6) Shipping crates used in shipment of birds by common carriers may not be used as exhibition coops. Shipping crates shall be cleaned and disinfected on day of arrival after birds have been removed for exhibition and before being used again. Whenever possible and convenient shipping crates shall not be stored in exhibition room.

(7) No bird shall be handled by anyone other than the attendant and judge after they have been placed in exhibition coops.

REGULATION NO. 135. SERUMS, ANTIGENS, AND VACCINES

R 285.135.1 Importation, distribution, and use of serums, antigens, and vaccines.

Rule 1. (1) Any antigen, serum, or vaccine containing a live virus or live organism of any disease of livestock, imported into this state under a permit issued by the United States bureau of animal industry for experimental purposes, shall be shipped only to licensed veterinarians, federal or state veterinarians, or state institutions, or direct to veterinary supply houses whose main business is selling veterinary supplies to veterinarians, and who have been issued a permit to sell the above products by the Michigan department of agriculture.

(2) A report of each shipment must be made by the person, agency, or company consigning, shipping, or transporting such serum, antigen, or vaccine into Michigan to the Michigan department of agriculture. The report shall state the quantity consigned, shipped, or transported, and the name and address of the recipient of the same. Such report must be made within 5 days of such consignment, shipment, or transporting.

(3) Any veterinarian using such serum, antigen, or vaccine covered by the provisions of this rule must report within 5 days to the Michigan department of agriculture the use made of such serum, antigen, or vaccine, and such other information as may be required, including the number of animals to which it has been administered, on forms furnished by the department.

(4) Written permit from the Michigan department of agriculture must be obtained by any person, agency, or company before any serums, antigens, or vaccines coming under the provisions of this rule may be imported into Michigan. Each veterinary supply house must obtain a permit from the Michigan department of agriculture before receiving such products and must otherwise comply

REGULATION NO. 136. FEEDING GARBAGE TO SWINE

(By authority of Act No. 181 of the Public Acts of 1919, as amended, and Act No. 173 of the Public Acts of 1953, being §287.2 et seq. and §287.401 et seq. of the Michigan Compiled Laws)

R 285.136.1 Garbage feeding lots or premises; garbage containers; heat treatment of garbage; feeding garbage to swine.

Rule 1. (1) A garbage feeding lot or premises as used in this rule means all land area and buildings and equipment used in connection therewith at a given location under the management or control of any person and on which any swine are kept or permitted habitation, on which garbage is received or kept other than the individual owner's own domestic garbage.

(2) Any garbage delivered or received onto a garbage feeding lot or premises shall be in watertight containers of metal or waterproof material which have covers also of waterproof material. The word "container," as used herein, includes a portion of a vehicle. In order to protect against contamination to other areas of the lot or premises from spill of uncooked garbage and liquids therefrom, all containers of garbage shall be delivered onto a floor or platform constructed of cement or other waterproof material from which floor or platform all drainage shall be into a pit, vat or other approved sewerage.

(3) Vats, tanks, or other containers used for heat treatment of garbage shall be located immediately on or adjacent to the floor or platform specified in subrule (2) to permit containers of garbage to be emptied into said heat processing containers direct from said floor or platform. If garbage is heat treated in the container on the vehicle in which it is delivered, said vehicle shall remain on the said floor or platform during the heat treatment procedure.

(4) Any and all garbage delivered or received or present on a garbage feeding lot or premises, or used to feed swine, shall be heat treated at a temperature of 212 degrees Fahrenheit for at least 30 minutes, which heat shall be determined by thermometer readings.

(5) Garbage, on which heat treatment has been completed, shall be removed from the vat, tank, or container in which heat treated, or otherwise completely separated from raw garbage and containers to prevent contamination of heat treated garbage, at a point separated from the floor or platform on which garbage is heat treated and delivered to the feeding area on the garbage feeding lot or premises. Forks, shovels, or any other utensils or equipment used to handle raw garbage shall not be used to handle cooked garbage.

(6) Garbage feeding lots and premises and all facilities related thereto used in handling, processing, and feeding garbage to swine shall at all times be maintained in an approved sanitary condition. In order to maintain approved sanitation the heat treated garbage shall be fed upon a floor or in troughs, and said floor or troughs shall be constructed of cement or other material that will permit collection for removal of all wastes from feeding in a satisfactory manner for approved

disposal. No such wastes shall be transported to any place outside the garbage feeding lot or premises on which it originated.

(7) No swine shall be fed garbage until vaccinated against hog cholera through simultaneous treatment with anti-hog cholera serum and hog cholera virus or other approved material by an approved veterinarian.

(8) Any and all swine sold or removed from any garbage feeding lot or premises shall be accompanied by a certificate of inspection, by an approved veterinarian of the Michigan department of agriculture as a result of inspection of all swine on the garbage feeding lot or premises, showing said swine to be free from any symptoms or other physical evidence of infectious and contagious disease within the 24 hours immediately preceding the removal of the swine from such garbage feeding lot or premises; and any and all swine so certified shall be sent to immediate slaughter except upon permit from the director of agriculture or his authorized representative.

(9) This rule shall not apply to any individual who feeds garbage from only his own domestic household to swine, or to anyone who, under section 2 of this act, has been granted an exemption from the provisions of this act.

REGULATION NO. 137. SWINE FED RAW GARBAGE

R 285.137 Rescinded.

History: 1944 ACS 37, p. 5; 1954 AC, p. 1515; rescinded 1954 ACS 31, p. 6, Eff. Aug. 14, 1962.

REGULATION NO. 138. RECORDS

(By authority of Act No. 181 of the Public Acts of 1919, as amended, being §287.2 et seq. of the Michigan Compiled Laws)

R 285.138.1 Records required of livestock dealers, brokers, or agents.

Rule 1. (1) Each dealer, broker, and agent receiving or disposing of animals must keep adequate and complete records and present them for inspection at any time when so requested by any representative of the Michigan department of agriculture. Said records shall:

(a) Identify all animals acquired or disposed of and dates of such acquisition or disposal. Identification shall be by ear tag, tattoo, brand, or adequate description, including breed, sex, age, weight, etc.

(b) Show the date and source of all animals, including names and addresses of persons from whom obtained.

(c) Record all health tests or treatments required by law on animals acquired or disposed of.

(d) Indicate extent of compliance with any quarantine imposed by the director of agriculture as a disease control measure.

(e) Show date and place of disposition of animals, including the names and addresses of the persons receiving such animals.

(2) Each dealer, broker, and agent conducting livestock auction market or consignment sale shall keep adequate and complete records and present them for inspection at any time when so requested by any representative of the Michigan department of agriculture. Said records shall:

(a) Identify all animals sold, or otherwise disposed of. Identification to be by ear tag, tattoo, brand, or adequate description including breed, sex, age, weight, etc.

(b) Record the name and address of owner or consignor.

REGULATION NO. 139. DOMESTIC MINK FARMS

R 285.139 Rescinded.

History: 1954 ACS 1, p. 9, Eff. Mar. 18, 1955; rescinded 1954 ACS 31, p. 7, Eff. Aug. 14, 1962.

REGULATION NO. 140. BRUCELLOSIS-FREE HERDS

R 285.140.1 Establishment and maintenance of brucellosis-free herds of cattle.

Rule 1. (1) This rule rescinds R 285.125. Herds that are now accredited will be certified at the expiration of the accreditation on the basis of 1 clean blood test.

(2) Herd owners may file an application with the division of livestock disease control, Michigan department of agriculture, to place their herds under supervision of the department of agriculture for the prevention and control of brucellosis. Only official records of milk and tube agglutination blood tests on file in the department of agriculture will be recognized for the purpose of herd certification. The application shall include:

(a) Name and address of owner.

(b) Location of herd.

(c) Description of herd, identifying all cattle included in the herd by ear tag number, tattoo number, or registration name and number, name of breed, age and sex.

(3) Investigation by department of agriculture to determine eligibility of herd for certification: A herd may be placed under supervision for certification as brucellosis-free upon complying with provisions governing the testing requirements of the Michigan department of agriculture. The cost of all tests shall be at the herd owner's expense except such tests as may be coincident with the area testing of the state and federal cooperative program.

(4) Herd certification:

(a) Herd tests shall be made at intervals of not more than 60 days until all evidence of infection has been eliminated. These tests shall include all animals over 6 months of age, except steers, spayed heifers, and officially vaccinated animals not more than 30 months of age. If evidence of infection is found on the first test, a herd may be certified as brucellosis-free only when it has passed at least 3 consecutive tests, with the first clean test and the qualifying test not less than 12 months apart; provided, however, if herd tests for certification purposes reveal suspects only, such animals must be isolated from the herd and retested in not less than 30 days or more than 60 days of the herd test and found to be negative; such herd tests shall be considered negative.

(b) When there is no evidence of infection on the first test, a herd may be certified as brucellosis-free when it has passed 1 additional clean test conducted not earlier than 6 months nor more than 12 months from the date of the first.

(c) When the milk test is employed, herds may be certified as brucellosis-free with a minimum of 3 negative milk tests conducted at not less than 90-day nor more than 360-day intervals and followed by a negative blood test.

(5) Herd recertification:

Digitized by Google

(a) Upon evidence of a negative herd blood test at the end of 1 year, certification of that herd may be extended for another year.

(b) If the retest of a certified herd or of animals from such a herd reveals 1 reactor, the remainder of the herd shall then be subject to further tests. The herd may be recertified on the results of 2 negative tests conducted not less than 60 days apart, with the first at least 30 days after the date of the test on which the reactor was disclosed.

(c) If the retest of a certified herd or of animals from such a herd reveals more than 1 reactor, the herd must requalify for certification as under subrule (4).

(d) When the certified status of a herd has been cancelled only because of the presence of over-age vaccinated animals showing continuing reactions of 1:100 or higher, the status may be restored upon evidence of 1 clean herd retest. It must be applied not earlier than 60 days following removal of such reactors.

(e) If the retest of a certified herd discloses unvaccinated suspects but no reactors only the suspicious animals need be retested. All suspects must be isolated from all other cattle until retested and found negative or until removed from the herd. If all suspects are available for retest and are negative, the herd test may then be considered negative. Unvaccinated suspects that do not pass a negative retest within 60 days following the orginal retest will be removed from the herd and the entire herd must pass a negative blood test conducted not less than 30 days following removal of the suspect or suspects. If the retest does not include all suspicious animals, or if 1 or more reactors result, the herd shall be classed as infected and tested as under subdivisions (b) and (c) of this subrule.

(6) For purposes of this rule, official calfhood vaccination shall mean animals vaccinated between 4 through 8 months of age, inclusive, with an approved vaccine by an accredited veterinarian, record of which shall be filed with the division of livestock disease control, Michigan department of agriculture.

(7) Animals under 30 months of age officially vaccinated as calves shall not be required to be negative to test. Officially calf-vaccinated animals over 30 months of age, showing titer, may be retained in certified herds of a retest of such animals in not less than 30 days or more than 60 days shows the titers to be stabilized or receding at not more than incomplete at 1:100.

(8) Addition to herds.

(a) To certified herds:

(i) Natural increase.

(ii) From herds with equal status.

(iii) From herds that have passed a negative blood test within the past 12 months:

(A) Officially calf-vaccinated animals up to 30 months of age on certificate of vaccination—vaccinated animals over 30 months if negative within 30 days prior to entry, or

(B) Nonvaccinated animals on evidence of negative retest not less than 60 days from date of negative herd test of the herd of origin.

(b) To herds that have passed a negative blood test within the past 12 months:

(i) Natural increase.

(ii) From herds with equal or superior status.

(iii) From other herds, (1) Officially calf-vaccinated animals up to 30 months of age on certificate of vaccination—30 months, if negative to test within 30 days prior to entry; or (2) Nonvaccinated animals if tested negative within 30 days prior to entry, then segregated and retested negative in not less than 60 days from the date of test made prior to entry.

(9) Additions from herds without equal status.

Under qualifying conditions of subrule (8)(a)(ii) and (b)(ii), such animals shall not receive new herd status for sales purpose until they have been members at least 30 days and included in a complete herd retest.

(10) Certified brucellosis-free herd certificates, which shall be valid for 1 year unless revoked, may be issued by the Michigan department of agriculture.

(11) Animals must be confined to the premises if reactors are disclosed by the blood test. Movement from such premises is allowed only under permit until after a clean herd test 30 days following disclosures of reactors. In order to maintain their status of certification, members of any certified herd must be kept separate and apart from any other cattle unless such cattle are from a certified herd.

(12) Premises shall be cleaned and disinfected under state supervision, or proper direction, following removal of reacting animals.

(13) The director of agriculture may cancel any herd certificates, if the owner violates this rule or any other laws of the state of Michigan relative to brucellosis control.

History: 1954 ACS 2, p. 5, Eff. May 13, 1955; 1954 ACS 6, p. 6, Eff. May 15, 1956; 1954 ACS 31, p. 7, Eff. Aug. 14, 1962.

REGULATION NO. 141. APPROVAL OF CALFHOOD VACCINATION

R 285.141.1 Conditions for approval of brucellosis calfhood vaccination.

Rule 1. (1) Desiccated brucella strain 19 vaccine is hereby approved for use for officially vaccinating calves against brucellosis when used in accordance with the provisions of section 21a of Act No. 181 of the Public Acts of 1919, as amended.

(2) The minimum amount of strain 19 vaccine used on any 1 animal shall be 5 cc of reconstituted desiccated vaccine.

(3) The vaccine shall be administered subcutaneously.

(4) Vaccines shall be kept under refrigeration and otherwise handled in accordance with the manufacturer's recommendations.

(5) All calves officially vaccinated in accordance with section 21a(c) of Act No. 181 of the Public Acts of 1919, as amended, shall be tattooed in the right ear at the time of vaccination. The tattoo shall show the quarter of the year and the year in which the calf was vaccinated. The first quarter of the year (January, February, March) shall be designated by the number 1; the second quarter (April, May, June) by the number 2; the third quarter (July, August, September) by the number 3; and the fourth quarter (October, November, December) by the number 4. The year shall be designated by the last digit of the year (the year 1956 will be designated by the number 6). The letter [V] enclosed in a shield (for vaccinate) shall be placed between the numbers or letters designating the quarter of the year and the year in which the calf was vaccinated. Ex:I [V] 6. It shall be unlawful for anyone to tattoo any bovine animal with the above symbol and designations unless it is used in the right ear of an officially vaccinated calf.

(6) After effective date of this rule, only calves vaccinated with strain 19 will be issued certificates of record or vaccination certificates as required in section 21a of Act No. 181 of the Public Acts of 1919, as amended.

either at the farm or the dairy plant or receiving stations where the owner's milk is delivered. Samples will be collected each 6 months or at such time intervals as deemed necessary to control brucellosis, and as funds for such are available.

(2) Animals over 6 months of age in herds showing suspicious reaction to the BRT test will be individually tested by the agglutination blood test, except those exempt by law. All animals over 6 months of age in beef or nonmilk-producing herds, including beef herds on dairy farms, will be blood tested, except those exempt by law.

(3) All animals reacting positively to the agglutination blood test will be permanently identified in accordance with section 21c of Act No. 181 of the Public Acts of 1919, with a "hot iron" brand; provided, however, the owner of any animal or animals reacting to such blood test may within 5 days of being notified that said animal or animals are reactors, request the approval of the director of agriculture to have said animal or animals retested, stating the reasons why he believes it advisable to conduct such retest. If the director of agriculture approves a retest of said animal or animals, it shall be done within the period specified by the director of agriculture at the time he grants approval of said retest. Such animal or animals to be retested must be kept separate and apart from all other cattle until such retest is made. The entire herd of which said animal or animals are a member will be held under quarantine, and it will be unlawful, in accordance with the provisions of section 10 of Act No. 181 of the Public Acts of 1919, for any animal or animals to be moved from the premises on which said herd is located, except when accompanied by permit issued by the director of agriculture.

(4) If said animal or animals or any other animal in said herd are classified as reactors on the retest, they will be forthwith branded.

(5) All animals classified as reactors must be disposed of for slaughter only within 15 days of branding, in accordance with instructions given by the director of agriculture; provided, however, that the director may, by special permit, grant an additional 15 days, but in no case shall the period of time between branding and slaughter exceed 30 days.

History: 1954 ACS 6, p. 8, Eff. May 15, 1956; 1954 ACS 27, p. 5, Eff. Aug. 14, 1961; 1954 ACS 32, p. 5, Eff. Nov. 14, 1962; 1954 ACS 42, p. 16, Eff. May 15, 1965.

REGULATION NO. 144. CLAIMS AGAINST LIVESTOCK AUCTIONS

(By authority of Act No. 284 of the Public Acts of 1937, as amended, being §287.121 et seq. of the Michigan Compiled Laws)

R 285.144.1 Procedure for determining claims against livestock auctions.

Rule 1. (1) A notice, setting forth the date, time, and place of a proposed hearing will be:

(a) Mailed to each known claimant.

(b) Published in a newspaper serving the area where the affected livestock auction is located once each week for 2 consecutive weeks.

(c) Posted at 6 prominent places on the premises of the affected livestock auction.

(2) During the course of the hearing, each claimant shall submit to the director of agriculture his claim in writing on a form as approved by the director and such other proof as may be required of him for the purpose of substantiating said claim against the livestock auction.

(3) In lieu of submitting such claim at the hearing, the claimants may submit their proof of claim by mail, provided said proof of claim shall be postmarked at least 3 days prior to the date set for the hearing.

(4) All claims and other proof as submitted will be reviewed by the director of agriculture and he shall rule upon the validity of each claim; provided, however, he may request additional information of the claimant. Thereafter, the director of agriculture will determine the exact amount to be paid to each claimant.

(5) No new or additional claims will be accepted after the close of the hearing.

(6) After determination of the amount due each claimant, said claimant will be notified, and thereafter the director of agriculture will determine the method or methods by which moneys determined to be due will be distributed to each claimant, and will thereupon proceed to make such distribution.

History: 1954 ACS 14, p. 5, Eff. May 14, 1958.

REGULATION NO. 145. MOVEMENT OF SHEEP

(By authority conferred on the department of agriculture by Act No. 181 of the Public Acts of 1919, as amended, being §287.2 et seq. of the Michigan Compiled Laws)

R 285.145.1 Movement of sheep into scabies-free and eradication areas.

Rule 1. (1) Sheep not known to be infected or exposed to scabies may be moved into a free or eradication area for any purpose after the entire flock from which the sheep to be moved have been inspected by an authorized representative of the director of agriculture or an accredited veterinarian, found to be free from scabies and exposure thereto, and the sheep to be moved have been dipped once in a permitted dip within 10 days prior to date of movement, and are accompanied by a certificate from said inspector or veterinarian stating that such requirements have been fulfilled. A copy of such certificate shall be immediately forwarded to the department of agriculture.

(2) There shall be no restriction under this rule on the movement of sheep not known to be infected or exposed to scabies within a free area or from one free area to another free area or from a free area to areas not so designated.

History: 1954 ACS 34, p. 13, Eff. May 15, 1963.

REGULATION NO. 146. HUMANE SLAUGHTER METHODS

(By authority conferred on the department of agriculture by Act No. 163 of the Public Acts of 1962, being §287.551 et seq. of the Michigan Compiled Laws)

R 285.146.1 Humane slaughter methods.

Rule 1. (1) For the purpose of this rule the following terms shall be construed, respectively, to mean:

(a) "The act." Act No. 163 of the Public Acts of 1962.

(b) "Director." The director of the Michigan department of agriculture.

(c) "Division." Livestock disease control division of the Michigan department of agriculture.

(d) "Inspectors." Inspectors of the division.

(e) "Carbon dioxide." A gaseous form of the chemical formula CO_2.

(f) "Carbon dioxide concentration." Ratio of carbon dioxide gas and atmospheric air.

(g) "Exposure time." The period of time an animal is exposed to an anesthesia-producing carbon dioxide concentration.

(h) "Anesthesia." Loss of sensation or feeling.

(i) "Surgical anesthesia." A state of unconsciousness measured in conformity with accepted surgical practices.

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

(j) "Consciousness." Responsiveness of the brain to the impressions made by the senses.

(k) "Captive bolt." A stunning instrument which when activated drives a bolt out of a barrel for a limited distance.

(2) No person engaged in, or in charge of, slaughter or preparation of animals for slaughter shall obstruct, hinder, or interfere with the director of agriculture or his authorized representatives in performing such inspections as the director of agriculture or his authorized representatives shall deem to be necessary to determine if humane methods of slaughtering and preparation for slaughter are being practiced in any meat processing establishment, slaughterhouse or stockyard. Such inspection may be performed without prior notice to the operator or owner of the establishment.

(3) Designation of methods:

(a) Chemical: Carbon dioxide. The slaughtering of sheep and swine with the use of carbon dioxide gas and the handling in connection therewith, in compliance with the provisions contained in this subrule, are hereby designated and approved as humane methods of slaughtering and handling such animals under the act. The carbon dioxide gas shall be administered in a chamber in accordance with this subrule so as to produce surgical anesthesia in the animals before they are shackled, hoisted, thrown, cast, or cut. The animals shall be exposed to the carbon dioxide gas in a way that will accomplish the anesthesia quickly and calmly, with a minimum of excitement and discomfort to the animals.

(b) Mechanical:

(i) Captive bolt. The slaughtering of sheep, swine, goats, calves, cattle, horses, and mules by using captive bolt stunners and the handling in connection therewith, in compliance with the provisions contained in this subrule, are hereby designated and approved as humane methods of slaughtering and handling of such animals under the act. The captive bolt stunners shall be applied to the livestock in accordance with this section so as to produce immediate unconsciousness in the animals before they are shackled, hoisted, thrown, cast, or cut. The animals shall be stunned in such a manner that they will be rendered unconscious with a minimum of excitement and discomfort. Immediately after the stunning blow is delivered, the animals shall be in a state of complete unconsciousness and remain in this condition throughout shackling, sticking, and bleeding.

(ii) Gunshot. The slaughtering of cattle, calves, sheep, swine, goats, horses, and mules by shooting with firearm is hereby designated and approved as humane method of slaughter. The firearm shall be employed in the delivery of a bullet or a projectile from a barrel containing rifling into the animal so as to produce immediate unconsciousness in the animal by a single shot before it is shackled, hoisted, thrown, cast, or cut. The caliber and choice of firearm shall be such as to render the animal unconscious with a single shot, but caliber shall not exceed .25 caliber.

(c) Electrical. Stunning with electric current. The slaughtering of swine, sheep, calves, and cattle with the use of electric current and the handling in connection therewith, in compliance with the provisions contained in this subrule, are hereby designated and approved as humane methods of slaughtering and handling of such animals under the act.

(i) The electric current shall be administered so as to produce surgical anesthesia in the animals before they are shackled, hoisted, thrown, cast, or cut. The animals shall be exposed to the electric current in a way that will accomplish the anesthesia quickly and calmly, with a minimum of excitement and discomfort to the animals.

REGULATION NO. 147. STARTED PULLETS

(By authority conferred on the department of agriculture by Act No. 213 of the Public Acts of 1962, being §287.171 et seq. of the Michigan Compiled Laws)

R 285.147.1 Started pullets.

Rule 1. (1) In accordance with provisions of Act No. 213 of the Public Acts of 1962, persons offering started pullets for sale may request the director to certify as to age, condition, and state of health of started pullets.

(2) Qualifications for certification shall consist of:

(a) Certification shall be accomplished by an inspection of the pullets, within 10 days of sale or movement, on the premises where raised by a veterinarian or his alternate veterinarian designated by the applicant, both veterinarians having been approved by the director of agriculture.

(b) The inspection shall include an observation of the environment to determine that the pullets have been raised under good husbandry practices.

(c) The inspector shall be satisfied that the pullets are of the age, growth, and condition as represented. The inspector shall be furnished records showing hatching date, health, and vaccination history of the pullets to be certified.

(d) The pullets must be in good physical health. If the inspector deems it necessary, he may submit birds to a laboratory for examination prior to certifying as to the health of the pullets.

(e) A certificate of certification as to the age, condition, and health of the pullets shall be issued on behalf of the director of agriculture by the inspecting veterinarian when he shall be satisfied that the birds are as represented as to age and condition and are clinically healthy on forms furnished by the state department of agriculture.

(f) The cost of the professional services for inspections and certifications of started pullets shall be paid by the applicant.

(g) The inspecting veterinarian shall forward a copy of the certificate of certification to the livestock disease control division of the Michigan department of agriculture, Lansing, Michigan, within 5 days following the certification.

REGULATION NO. 148. STATEWIDE MEAT INSPECTION

(By authority conferred on the director of agriculture by section 2 of Act No. 280 of the Publc Acts of 1965, being §287.572 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 285.148.001 Definitions.

Rule 1. In addition to the definitions in the meat inspection law, Act No. 280 of the Public Acts of 1965, being §§287.571 to 287.582 of the Michigan Compiled Laws, as used in these rules:

(a) "An approved meat inspection program" means a district, county, city, township, or village meat inspection program that has been evaluated and approved by the director of agriculture.

Digitized by Google

(b) "Truck" means any vehicle used to transport meat or meat products.

(c) "Carcass" means all parts including viscera of a slaughtered animal that are capable of being used for human food.

(d) "Inspector" means a person authorized by the director of agriculture to perform under the supervision of a veterinarian ante-mortem inspection and post-mortem inspection of meat animals and other duties including enforcement of sanitary measures to insure wholesomeness of meat or meat products.

(e) "Department employees" means inspectors and all other individuals employed by the department who are authorized by the director of agriculture to do any work or perform any duty in connection with meat inspection.

(f) "Veterinary inspector" means a veterinarian who shall be a graduate of an accredited school of veterinary medicine and employed by the department of agriculture or by an approved district, county, city, township, or village meat inspection program to perform or supervise meat inspection duties. Those veterinarians who are not licensed to practice veterinary medicine by the state of Michigan at the time of the passage of Act No. 280 of the Public Acts of 1965 and are employed by the department of agriculture or by an approved district, county, city, township, or village may continue as veterinary inspectors. All veterinary inspectors employed after the effective date of Act No. 280 of the Public Acts of 1965 must have a license to practice veterinary medicine in the state of Michigan.

(g) "Official establishment" means any slaughterhouse or edible rendering establishment or similar establishment at which inspection is required pursuant to Act No. 280 of the Public Acts of 1965.

(h) "Division" means livestock disease control division of the Michigan department of agriculture.

(i) "Meat inspection law" means Act No. 280 of the Public Acts of 1965.

(j) "Inspected and passed," "MDA inspected," or " Michigan inspected and passed by the department of agriculture" or any authorized abbreviations thereof means the meat, meat by-products or meat food products so marked have been inspected and passed under this regulation and at the time they were inspected, passed and so marked they were found to be sound, healthful, wholesome, and fit for human food.

(k) "MDA passed for cooking" means the meat and meat by-products so marked have been inspected and passed on condition that they be rendered into lard, rendered pork fat or tallow as prescribed in these rules or otherwise cooked by a method approved by the director of agriculture.

(l) "MDA passed for refrigeration" means the meat and meat by-product so identified have been inspected and passed on condition that they be refrigerated or otherwise handled as prescribed in these rules or by a method approved by the director of agriculture.

(m) "MDA inspected and condemned" or any authorized abbreviation thereof means the carcass, viscera, parts of carcass, meat, meat by-product or meat food products so marked or so identified as unsound, unhealthful, unwholesome, or otherwise unfit for human food.

(n) "MDA-retained" means the carcass, viscera, part of carcass, meat, meat by-product, meat food product, or other article so marked or identified is held for further examination by a veterinary inspector to determine its disposal.

(o) "MDA suspect" means the animal so marked is suspected of being affected with a disease or condition which may require its condemnation in whole or in part when slaughtered and is subject to further examination by an inspector to determine its disposal.

(p) "MDA condemned" means the animal so marked has been inspected and found to be in a dying condition or to be affected with any other condition or disease that would require condemnation of its carcass.

(q) "Inspection legend" means a mark or a statement authorized by Act No. 280 of the Public Acts of 1965 on a product or on the container of a product indicating that the product has been inspected and passed for food by an inspector.

(r) "Meat by-product" means any edible part other than meat which has been derived from 1 or more cattle, calves, sheep, lambs, goats, swine, or solipeds.

(s) "Meat food product" means any article of food or any article which enters into the preparation of food for human consumption which is derived or prepared in whole or in part from any portion of the carcass of any cattle, calves, sheep, lambs, goats, swine, or horses, except such articles as organo-therapeutic substances, meat juice, meat extract, and the like which are only for medicinal purposes and are advertised only to the medical profession.

(t) "Product" means any part or all of meat, meat by-product, or meat food product.

(u) "Immediate container" or "true container" means the unit can, pot, tin, canvas, or other receptacle or covering in which any product is customarily shipped.

(v) "Shipping container" or "outside container" means the box, bag, barrel, crate, or other receptacle or covering enclosing any product packed in 1 or more immediate or true containers.

(w) "MDA" means Michigan department of agriculture.

(x) "Unofficial establishment" means an establishment not licensed under Act No. 280 of the Public Acts of 1965.

(y) "Premises" means all land area directly adjacent to and including the establishment which is actually physically used in the operation of the business including parking and storage areas and the waste disposal system.

History: 1954 ACS 46, p. 6, Eff. May 14, 1966.

R 285.148.002 Scope of inspection.

Rule 2. (1) Every establishment in which cattle, calves, sheep, lambs, goats, swine, or horses are slaughtered for transportation or sale as articles of commerce or in which meat, meat by-products, or meat food products of or derived from cattle, calves, sheep, lambs, goats, swine, or horses wholly or in part which are capable of being used as food for man shall have inspections under these rules in accordance with Act No. 280 of the Public Acts of 1965, except as expressly exempted by Act No. 280 of the Public Acts of 1965.

(2) All cattle, calves, sheep, lambs, goats, swine, or horses entering an establishment at which inspection is required by Act No. 280 of the Public Acts of 1965 and all product prepared in whole or in part therein shall be inspected, handled and prepared, marked, and labeled as required by these rules.

(3) Horses and other solipeds may not be slaughtered in the same establishment in which cattle, calves, sheep, lambs, goats, and swine are slaughtered.

(4) Every establishment in which horses and other solipeds are slaughtered or in which carcasses, parts of carcasses, meat, meat by-products, or meat food products of or derived from horses or other solipeds are wholly or in part prepared for transportation or sale which are capable of being used as food for man shall have inspection in accordance with these rules.

R 285.148.003 Application for license.

Rule 3. (1) The proprietor or operator of each slaughterhouse or edible rendering establishment, except plants licensed under Act No. 226 of the Public Acts of 1929, as amended, and operations licensed under Act No. 228 of the Public Acts of 1952, as amended, shall make application for license as provided by Act No. 280 of the Public Acts of 1965. Every application under this rule shall be made on a form furnished by the Michigan department of agriculture. In the cases of change of ownership or change of location a new application shall be made.

(2) The proprietor or operator of each slaughterhouse or edible rendering establishment required to be licensed under Act No. 280 of the Public Acts of 1965 shall make application to the director of agriculture for a license for each truck operated to transport meat or meat products. The application for license shall be on a form furnished by the Michigan department of agriculture.

(3) The applications provided for under subrules (1) and (2) shall be accompanied by a statutory fee for such license.

(4) The first time that application for license is made for new plants constructed or completed after January 1, 1966, the application shall be accompanied by triplicate copies of complete drawings consisting of floor plans showing location of principal pieces of equipment, floor drains, principal drainage lines, hand basins, and hose connections for clean-up purposes; and a plot plan showing limits of plant's premises, and the cardinal points of the compass, and roadways and railroad sidings serving the plant shall accompany the applications for license. This requirement applies only to plants constructed after January 1, 1966.

(5) Plans for proposed construction changes in existing plants shall be submitted to the director of agriculture prior to initiation of construction.

(6) Plans for construction of new plants requiring inspection under Act No. 280 of the Public Acts of 1965 shall be submitted to the director of agriculture prior to initiation of construction.

History: 1954 ACS 46, p. 8, Eff. May 14, 1966.

R 285.148.004 Exemptions.

Rule 4. (1) Plants licensed under Act No. 226 of the Public Acts of 1929, as amended, and operations licensed under Act No. 228 of the Public Acts of 1952, as amended, are exempted from these rules.

(2) Any product transported within the state of Michigan under an exemption certificate granted by the United States department of agriculture pursuant to section 4.3 of the regulations governing meat inspection of the United States department of agriculture is exempt from these rules.

(3) (a) Carcasses, and parts of carcasses, and products assumed to be sound, healthy, and wholesome slaughtered on his own farm may be transported by a farmer for processing for his own use provided such carcasses or products are accompanied by a written or printed statement containing the following information:

(i) Date.

(ii) Name and address of the farmer.

(iii) Kind and amount transported.

(iv) Date of slaughter.

(v) Destination.

(b) Each statement shall be numbered and filed for at least 1 year at the establishment processing the meat or meat products.

(c) On arrival at the establishment, each carcass, part carcass, and meat product shall be legibly stamped with edible ink or tagged or labeled for identification. The stamp, tag, or label shall contain the following information:

(i) Farm dressed, not for sale.
(ii) Establishment number.
(iii) Corresponding number of farmer's statement on file.

(d) The stamp, tag, or label shall be affixed immediately to the carcass, part carcass, or meat product on arrival at the establishment and before it is placed in storage area with other product.

(e) Meat or meat products stamped, tagged, or labeled in accordance with subrule (3) shall not be sold, offered, or exposed to sale.

History: 1954 ACS 46, p. 9, Eff. May 14, 1966.

R 285.148.005 Custom slaughtered meat.

Rule 5. Meats, meat by-products, and meat food products slaughtered and processed as custom slaughtered meat at licensed establishments are subject to all requirements of these rules.

History: 1954 ACS 46, p. 9, Eff. May 14, 1966.

R 285.148.006 Official numbers; subsidiary establishments.

Rule 6. (1) To each establishment granted inspection, an official number shall be assigned. The number shall be used to identify all inspected and passed products prepared in the establishment. Only 1 number shall be assigned to an establishment.

(2) Two or more official establishments under the same ownership or control may be granted the same official number, provided a serial letter is added in each case to identify each establishment and the products of each establishment.

(3) Inspection may be granted to 1 or more persons operating establishments at the same premises. Where multiple inspection is granted to establishments at the same premises, all are jointly and severally responsible for construction, maintenance, and sanitation, and each is responsible for compliance with all the other provisions of these rules.

History: 1954 ACS 46, p. 9, Eff. May 14, 1966.

R 285.148.007 Separation of official from unofficial establishment.

Rule 7. Each official establishment shall be separate and distinct from any other official establishment, from any unofficial establishment in which any product is handled, and from any other unofficial establishment.

History: 1954 ACS 46, p. 9, Eff. May 14, 1966.

R 285.148.008 Living quarters on premises.

Rule 8. Inspections shall not be inaugurated in any building any part of which is used as living quarters unless the part for which inspection is requested is separated from such quarters by floors, walls, and ceilings of solid concrete, brick, or similar material and the floors, walls, and ceilings are without opening that directly or indirectly communicates with any part of the building used as living quarters.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.009 Sanitation and adequate facilities.

Rule 9. Inspection shall not be begun if an establishment is not in a sanitary condition nor unless the establishment agrees to maintain such conditions and provides adequate facilities for conducting such inspection.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.010 Inauguration of inspection.

Rule 10. When an application for inspection is granted the director shall at or prior to the inauguration of inspection inform the proprietor or operator of the establishment of the requirements of these rules. If the establishment at the time the inspection is inaugurated contains any product which has not previously been inspected, passed and marked in compliance with these rules the identity of the product shall be maintained and it shall not be transported, sold, or offered for sale or otherwise dealt with as inspected and passed under these rules. The establishment shall adopt and enforce all necessary measures and shall comply with all directions as the director may prescribe for carrying out the purposes of this rule.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.011 Withdrawal of inspection for violation of rules.

Rule 11. The director is hereby authorized to withdraw inspection from all official establishments operating within the same premises when requirements for construction and sanitation provided by these rules are not maintained.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.012 Reports of violations of rules.

Rule 12. Inspectors and other department employees shall report to the director and to the administrator of the local meat inspection program all violations and failures under R 285.148.011 of which they have knowledge.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.013 Designation of inspector in charge and assistants.

Rule 13. The director shall designate an inspector in charge of the inspection at each establishment, and assign to the inspector such assistants as may be necessary.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.014 Access to establishments.

Rule 14. For the purpose of any examination or inspection necessary to enforce any of the provisions of these rules, department employees shall have access at all times by day or night whether the establishment is operated or not, to every part of any official establishment to which they are assigned.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.015 Official identification card of inspectors.

Rule 15. Each department employee will be furnished with an official identification card which shall remain in his possession at all times and which he shall wear in such manner and at such times as the director may prescribe. An inspector shall be entitled to admittance at all regular entrances and to all parts of the establishment and premises to which he is assigned upon disclosing only his official identification card for identification.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.016 Assignment of inspectors where members of family employed; soliciting employment.

Rule 16. Except as specifically authorized by the director, no department employee shall be detailed for duty at an establishment where any member of his family is employed by the establishment, nor shall any inspector in charge or other

employee acting in a supervisory capacity be continued on duty at an official jurisdiction where any member of his family is employed by an establishment under his jurisdiction. Department employees shall not solicit, for any person, employment at any official establishment, or by an officer, manager or employee thereof.

History: 1954 ACS 46, p. 10, Eff. May 14, 1966.

R 285.148.017 Facilities for department employees.

Rule 17. Furnished office room, including light, heat and janitor service, shall be provided by official establishments, rent free, for the use for official purposes of the inspector and other department employees assigned to the establishment. The room or rooms set apart for this purpose shall be approved by the director and shall be conveniently located, properly ventilated, and provided with lockers suitable for the protection and storage of department supplies and with facilities suitable for department employees to change clothing.

History: 1954 ACS 46, p. 11, Eff. May 14, 1966.

R 285.148.018 Hours of operation of official establishments.

Rule 18. Each official establishment shall inform the inspector in charge, or his assistant, when work in each division has been concluded for the day, and of the day and the hour when work will be resumed. Whenever any product is to be rehandled or otherwise handled in an official establishment during unusual hours, the establishment shall, a reasonable time in advance, notify the inspector in charge, or his assistant, of the day and hour when the work will be commenced, and such articles shall not be so handled except after notice has been given. No division of an official establishment shall be operated except after reasonable notice has been given to the inspector in charge. All slaughtering of animals and preparation of products shall be done within reasonable hours, and with reasonable speed, the facilities of the establishment being considered. No shipment of any product shall be made from an official establishment until after due notice has been given to the inspector in charge or his assistant.

History: 1954 ACS 46, p. 11, Eff. May 14, 1966.

R 285.148.019 Designation by inspector in charge of time of operation.

Rule 19. When 1 inspector is detailed to conduct the work at 2 or more official establishments where few animals are slaughtered or where a small quantity of any product is prepared, the director may designate the hours of the day and the days of the week during which such establishments may be operated.

History: 1954 ACS 46, p. 11, Eff. May 14, 1966.

R 285.148.020 Facilities and conditions to be provided by establishment.

Rule 20. When required by the director of agriculture or the inspector in charge, the following facilities and conditions, and such others as may be essential to efficient conduct of inspection and maintenance of sanitary conditions, shall be provided by each official establishment:

(a) Satisfactory pens, equipment, and assistants for conducting ante-mortem inspection and for separating, marking, and holding apart from passed animals those marked "MDA suspect" and those marked "MDA condemned." Pens, alleys, and runways shall be paved, drained, and supplied with adequate hose connections for clean-up purposes. Sufficient light shall be provided for inspection.

(b) Sufficient natural light and abundant artificial light at all places and such times of the day when natural light may not be adequate for proper conduct of

inspection. Rooms shall be kept sufficiently free of steam and vapors for inspections to be properly made. Equipment or substances which generate gases or odors shall not be used except when specifically permitted by the director of agriculture.

(c) Racks, receptacles, or other suitable devices for retaining such parts as the head, tongue, tail, thymus gland, and viscera, and all parts and blood to be used in the preparation of meat food products or medicinal products, until after the post-mortem examination is completed, in order that they may be identified in case of condemnation of the carcass; equipment, trucks, and receptacles for the handling of viscera of slaughterd animals so as to prevent contact with the floor; and trucks, racks, marked receptacles, tables, or other necessary equipment for the separate and sanitary handling of carcasses or parts passed for cooking.

(d) Tables, benches, and other equipment on which inspection is performed, of such design, material, and construction as to enable department employees to conduct their inspection in a ready, efficient and clean manner.

(e) Watertight metal trucks or receptacles for holding and handling diseased carcasses and parts, so constructed as to be readily cleaned; such trucks or receptacles to be marked in a conspicuous manner with the phrase "MDA condemned" in letters not less than 2 inches high, and, when required by the inspector in charge, to be equipped with facilities for locking or sealing.

(f) Adequate arrangements, including liquid soap and cleansers, for cleansing and disinfecting hands, for sterilizing all implements used in dressing diseased carcasses, floors, and such other articles and places as may be contaminated by diseased carcasses or otherwise.

(g) In establishments in which slaughtering is done, rooms, compartments, or specially prepared open places, to be known as "final inspection places," at which the final inspection of retained carcasses may be conducted. Competent assistants for handling retained carcasses and parts shall be provided by the establishment. Final inspection places shall be adequate in size and their rail arrangement and other equipment shall be sufficient to prevent carcasses and parts, passed for food or cooking, from being contaminated by contact with condemned carcasses or parts. They shall be equipped with hot water, lavatory, sterilizer, tables and other equipment required for ready, efficient, and sanitary conduct of the inspection. The floors shall be of such construction as to facilitate the maintenance of sanitary conditions and shall have proper drainage connections, and when the final inspection place is part of a larger floor, it shall be separated by a curb, railing, or otherwise.

(h) Rooms, compartments, and receptacles in which carcasses and products may be held for further inspection. These shall be in such number and in such locations as the needs of the inspection in the establishment may require. They shall be equipped for secure locking and shall be held under locks furnished by the department, the keys of which shall not leave the custody of department employees. Every such room, compartment, or receptacle shall be marked conspicuously with the phrase "MDA retained" in letters not less than 2 inches high. Rooms or compartments for these purposes shall be secure and susceptible of being kept clean, including a sanitary disposal of the floor liquids.

(i) Adequate facilities, including denaturing materials, for the proper disposal of condemned articles in accordance with these rules. Tanks or other rendering equipment which, under these rules, must be sealed, shall be properly equipped for sealing as may be specified by the director of agriculture.

(j) Docks and receiving rooms, to be designated by the establishment, with the approval of the director, for receipt and inspection of all products as provided in these rules.

(k) Suitable lockers in which brands bearing the inspection legend shall be kept when not in use. All such lockers shall be equipped for locking with locks to be supplied by the department, the keys of which shall not leave the custody of department employees.

History: 1954 ACS 46, p. 11, Eff. May 14, 1966.

R 285.148.021 Work clothing, implements, and hands.

Rule 21. Inspectors shall furnish their own work clothing and implements, such as knives, steels, flashlights, and triers, for conducting inspection and shall cleanse their hands and implements as prescribed by R 285.148.212.

History: 1954 ACS 46, p. 12, Eff. May 14, 1966.

PART 2. CONSTRUCTION, EQUIPMENT, AND SANITATION

R 285.148.101 Construction; compliance; waiver.

Rule 101. (1) Prior to inauguration of inspection, the director must be satisfied that requirements as to construction and sanitation established by this part are complied with and may order an examination of the premises, equipment and facilities. Complete drawings and specifications for new construction and major alterations of existing premises shall be submitted to the director for approval before construction is begun. Three copies of complete drawings, with specifications, consisting of floor plans showing locations of principal pieces of equipment, floor drains, principal drainage lines, hand-washing basins, and hose connections for clean-up purposes; roof plans; elevations; cross and longitudinal sections of buildings showing principal pieces of equipment, ceiling heights, conveyor rails, character of floors and ceilings; and a plot showing limits of plant's premises, locations in outline of buildings on premises, cardinal points of compass, roadways and railroads serving plant, properly drawn to scale, shall accompany applications for inspection. Applicants may request information from the director concerning requirements before submitting plans.

(2) The director may waive strict compliance with these rules if the cleanliness of the premises and the wholesomeness of the products produced are not adversely affected.

History: 1954 ACS 46, p. 12, Eff. May 14, 1966.

R 285.148.102 Sanitation.

Rule 102. Rooms, compartments, places, equipment, and utensils used for preparing, processing, storing, or otherwise handling any product, and all other parts of the establishment shall be kept in a clean and sanitary condition.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.103 Objectionable materials.

Rule 103. There shall be no handling or storing of materials which create an objectionable condition in the premises.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.104 Light and ventilation.

Rule 104. There shall be abundant light, both natural and artificial, of good quality and well distributed, and sufficient ventilation for all rooms and compartments to insure sanitary conditions.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.105 Drainage and plumbing.

Rule 105. There shall be an efficient drainage and plumbing system for the establishment and premises. All drains and gutters shall be properly installed with approved traps and vents in accordance with acceptable construction codes, or any local construction or sanitary code, and shall be connected to a sanitary sewer or acceptable disposal system. This discharge of water and waste must conform to the requirements of state law and local ordinance and shall not create a nuisance or be a hazard to public health.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.106 Water supply.

Rule 106. An adequate potable water supply, both hot and cold, delivered under pressure to sufficient convenient outlets for washing carcasses and parts, walls, floors, and equipment shall be available at all times during operation.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.107 Hot water for cleaning certain areas.

Rule 107. An ample supply of water at not less than 180 degrees Fahrenheit shall be furnished and used for the cleaning of equipment, floors, walls, and the like which are subject to contamination in the dressing or handling of diseased carcasses, their viscera and parts.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.108 Hot water for cleaning other areas.

Rule 108. Hot water for cleaning rooms and equipment other than those mentioned in R 285.148.107 shall be delivered under pressure to sufficient convenient outlets and shall be of such temperature as to accomplish a thorough clean-up.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.109 Water pressure.

Rule 109. Water shall be delivered at a minimum pressure of 30 pounds per square inch.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.110 Construction to facilitate cleaning.

Rule 110. The doors, walls, ceilings, partitions, posts, and other parts of structures shall be of such materials, construction, repair, and finish as will make them susceptible of being readily and thoroughly cleaned.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.111 Floors.

Rule 111. Floors shall be watertight and of impervious materials and sloped to drain efficiently.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.112 Window sills.

Rule 112. Window sills shall be sloped to facilitate drainage.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.113 Rodents, flies, and vermin.

Rule 113. Construction shall render the establishment resistant to the entrance of rodents, flies, and other vermin. The use of poisons for any purpose in rooms or compartments where any unpacked product is stored or handled is forbidden, except under such restrictions and precautions as the director may prescribe. So-called rat viruses shall not be used in any part of an establishment or on the premises.

History: 1954 ACS 46, p. 13, Eff. May 14, 1966.

R 285.148.114 Coved junction floor to wall.

Rule 114. The junction of floors and walls shall be coved to facilitate cleaning and to prevent the accumulation of objectionable material and filth.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.115 Rail height.

Rule 115. Rail height shall be as follows:

(a) Cattle:

(i) Bleeding rail at least 16 feet above the floor.

(ii) Dressing rails at least 11 feet above the floor. When moving-top viscera inspection tables are used, dressing rails must be at least 12 feet 3 inches high.

(b) Hogs, sheep, calves:

(i) Bleeding rails, the top of rail to be at least 11 feet above the floor. If only sheep are handled the bleeding rail may be 9 feet in height.

(ii) Dressing rails shall be of such height so that gambrels or leg hooks are 7½ feet above the floor.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.116 Hand washing facilities.

Rule 116. All slaughtering and processing rooms shall have sufficient conveniently located hand washing facilities of knee-pedal operation or equivalent devices and supplied with hot and cold running water, powdered or liquid soap dispensed from a sanitary container and individual towels.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.117 Dogs and cats.

Rule 117. Dogs and cats shall be excluded from establishments.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.118 Operating and storage rooms; outer premises; nuisances.

Rule 118. All operating and storage rooms and divisions of official establishments used for inedible materials shall be maintained in acceptably clean condition. The outer premises of every official establishment, embracing docks and areas where cars and vehicles are loaded, and the driveways, approaches, yards, pens, and alleys shall be properly paved and drained and kept in clean and orderly condition. All catchbasins on the premises shall be of such construction and location and shall be given such attention as will insure their being kept in acceptable condition as regards odors and cleanliness. Catchbasins shall not be located in divisions where product is prepared, handled, or stored. The accumulation on the premises of establishments of any material in which flies may breed, such as hog hair, bones, paunch contents, or manure, is forbidden. No nuisance shall be allowed in any establishment or on its premises.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.119 Sanitary facilities and accommodations.

Rule 119. (1) One or more dressing rooms and toilet rooms shall be provided, which shall be conveniently located, have self-closing doors and be properly ventilated and lighted. They shall be separate from the rooms and compartments in which products are prepared, stored, or handled. Where both sexes are employed, separate facilities shall be provided.

(2) Handwashing facilities, including running hot and cold water, liquid or powdered soap dispensed from sanitary containers, and individual towels, shall be placed in or near toilet rooms.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.120 Toilet soil lines.

Rule 120. Establishment toilet soil lines shall be separated from house drainage lines to a point outside the building and drainage from toilet bowls and urinals shall not be discharged into a grease catchbasin.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.121 Storage below sewer lines.

Rule 121. Products shall not be processed, prepared, or stored directly beneath sewer lines, drain pipes, or other system carrying sewage or waste unless such pipelines are leak proof or properly protected by insulating materials or other means.

History: 1954 ACS 46, p. 14, Eff. May 14, 1966.

R 285.148.122 Equipment, construction, and marking.

Rule 122. Equipment must be so constructed as to be easily cleaned, and equipment used for inedible products must be marked.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.123 Tools, equipment, and utensils for handling any product.

Rule 123. Tools, equipment, and utensils used for preparing, processing, and otherwise handling any product shall be of such material and construction as will make them susceptible of being readily and thoroughly cleaned and such as will insure strict cleanliness in the preparation and handling of all products. So far as is practicable, such equipment shall be made of metal or other impervious material. Trucks and receptacles used for inedible material shall be of similar construction and shall bear some conspicuous and distinctive mark, and shall not be used for handling edible products.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.124 Tools, equipment, and utensils; construction; cleaning; storing.

Rule 124. Tools, equipment, and utensils shall be made of nontoxic material, shall be thoroughly cleaned immediately after each day's work, shall be properly stored and protected when not in use, and shall be clean at the time of use. All shroud cloths shall be acceptably clean at time of use.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.125 Scabbards.

Rule 125. Scabbards and similar devices for the temporary retention of knives, steels, and triers by workers and others at inspection establishments shall be

constructed of rust-resisting metal or other impervious material, shall be of a type that may be readily cleaned, and shall be kept clean.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

PART 3. PROTECTION OF PRODUCT

R 285.148.201 Protection from contamination.

Rule 201. Products shall be protected from contamination at all times during production, preparation, storage, and transportation.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.202 Refrigerated storage temperatures.

Rule 202. Refrigerated storage of adequate capacity shall be provided and maintained at temperatures not to exceed 40 degrees Fahrenheit for fresh meats, carcasses, and parts thereof, and not to exceed 50 degrees Fahrenheit for processed meats, meat by-products, and meat food products.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.203 Vehicles; sanitation.

Rule 203. Vehicles in which products are transported shall be so constructed as to prevent dust, dirt, flies, insects, and other contamination from coming in contact with products and shall be maintained in a clean and sanitary manner. Refrigeration and satisfactory protective coverings for products shall be provided when necessary.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.204 Used tubs, barrels, and boxes.

Rule 204. All used tubs, barrels, and boxes used as containers of products shall be thoroughly cleaned and sanitized before re-use. They shall be of such construction and material as to protect products adequately from dust, dirt, flies, insects, and other contamination, and a satisfactory sanitary liner shall be provided for such used containers where necessary.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.205 Washing before evisceration.

Rule 205. Animals dressed with hides on shall be thoroughly washed and cleaned before evisceration. Washing equipment of an approved type to thoroughly and efficiently wash carcasses inside and out shall be provided.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.206 Storing of hides.

Rule 206. Hides shall not be stored on the killing floor nor stored exposed in rooms or compartments used for edible products.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.207 Storing of carcasses with hides.

Rule 207. Carcasses with hides on shall not be stored in contact with skinned and dressed carcasses or parts thereof or other edible products.

History: 1954 ACS 46, p. 15, Eff. May 14, 1966.

R 285.148.208 Waste and offensive refuse.

Rule 208. All waste and offensive refuse shall be removed from the premises at least every 24 hours if the establishment is operated continuously or within 24 hours after use if the establishment is used only occasionally. In hot weather the inspector may require removal of waste at more frequent intervals of time. Manure shall not be allowed to accumulate on the premises.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.209 Inedible waste room.

Rule 209. A separate inedible waste room shall be provided for handling and storage of waste containers and covers, waste materials, inedible material, and condemned products. This room shall be so located as to insure no contamination to edible products or congestion in the establishment. Hot and cold running water, proper drainage, and facilities for cleaning the area shall be provided and the area shall be maintained in a clean and sanitary condition. Where necessary it shall be separated from any area in which edible products are handled.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.210 Sanitary operations and procedures.

Rule 210. Operations and procedures involving the preparation, storing, or handling of any product, and all parts of the establishment, shall be kept clean and in sanitary condition. There shall be no handling or storing of materials which create an objectionable condition in rooms, compartments, or places where products are prepared, stored, or otherwise handled.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.211 Slaughter, processing, and storage rooms and compartments.

Rule 211. Rooms and compartments in which animals are slaughtered or any product is processed or prepared shall be kept reasonably free of steam and vapors to enable proper inspections and to insure clean operations. The walls, ceilings, and overhead structures of rooms and compartments in which products are being prepared, handled, or stored shall be kept reasonably free of moisture.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.212 Employees and implements; cleanliness.

Rule 212. Butchers and others who dress or handle diseased carcasses or parts shall cleanse their hands with soap and hot water, rinse them in clean water. Implements used in dressing diseased carcasses shall be thoroughly cleansed in boiling water, or in an approved disinfectant, followed by rinsing in clean water. Employees who handle any product shall keep their hands clean and in all cases, after visiting the toilet rooms or urinals, shall wash their hands before handling any product or the implements used in the preparation of products.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.213 Aprons, frocks, and outer clothing; cleanliness.

Rule 213. Aprons, frocks, and other outer clothing worn by persons who handle any product shall be of material that is readily cleaned and only clean garments shall be worn. Care shall be taken to prevent the contamination of products with perspiration, hair, cosmetics, medicaments, and the like.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.214 Unsanitary testing and other practices.

Rule 214. Spitting on whetstones, spitting on the floor, placing skewers, tags or knives in the mouth, inflating lungs or casings, or testing with air from the mouth such receptacles as tierces, kegs, casks, and the like containing any product or intended as containers of any product, are prohibited. Only mechanical means may be used for testing.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.215 Smoking or chewing tobacco.

Rule 215. Smoking or chewing of tobacco shall not be permitted in areas where edible products are handled or processed. Signs prohibiting tobacco use shall be conspicuously posted in such areas.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.216 Employment of persons with communicable disease.

Rule 216. No person affected with tuberculosis or other communicable disease in a transmissible stage shall be employed in any division where any product is handled or prepared. The director may require a medical examination of any person handling edible products and a certificate of a duly licensed physician showing the absence of such disease as a condition precedent to such continued employment.

History: 1954 ACS 46, p. 16, Eff. May 14, 1966.

R 285.148.217 Horsemeat.

Rule 217. Horses and other solipeds shall not be slaughtered and horsemeat and meat of other solipeds shall not be processed in establishments in which cattle, calves, sheep, lambs, swine, and goats are slaughtered or processed for human consumption.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

R 285.148.218 Tagging improper facilities and equipment.

Rule 218. Any room, compartment, equipment, or utensils, found by the inspector to be improper, unclean, or insanitary, shall be tagged with a rejection notice. No rejected facility or equipment shall be used until the condition requiring its rejection shall have been corrected. Such a rejection tag shall not be removed by any person other than the director or his duly authorized representative.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

PART 4. ANTE-MORTEM AND POST-MORTEM INSPECTIONS

R 285.148.301 Ante-mortem inspection; pens in public stockyards.

Rule 301. An ante-mortem examination and inspection shall be made of all cattle, calves, sheep, lambs, swine, and goats about to be slaughtered in an official establishment before their slaughter shall be allowed. Inspection shall be made on the day of slaughter. When the holding pens of an official establishment are located in a public stockyard and are reserved for the exclusive use of the establishment, pens shall be regarded as part of the premises of that establishment and the establishment shall be responsible therein for all requirements of these rules.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

R 285.148.302 Suspect animals; separation and slaughter.

Rule 302. Every animal required to be marked as a suspect on ante-mortem inspection in the pens of an official establishment shall be set apart, and, except as hereinafter provided, shall be slaughtered separately from other animals at that establishment unless disposed of as otherwise provided in these rules.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

R 285.148.303 Animals suspected on ante-mortem inspections.

Rule 303. Any animal which, on ante-mortem inspection, does not plainly show, but is suspected of being affected with, any disease or condition that, under these rules, may cause condemnation of the carcass on post-mortem inspection, and any animal which shows, on ante-mortem inspection, any disease or condition that, under these rules, would cause condemnation of only part of the carcass on post-mortem inspection, shall be so marked as to retain its identity as a suspect until final post-mortem inspection, when the carcass shall be marked and disposed of as provided in these rules.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

R 285.148.304 Marking of suspects.

Rule 304. All animals required by these rules to be treated as suspects, or to be marked as suspects, or to be marked so as to retain their identity as suspects, shall be marked by or under the supervision of a department employee "MDA suspect," or with other distinctive mark or marks to indicate that they are suspects as the director may adopt, such as provided under R 285.148.334. No such mark shall be removed except by a department employee.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

R 285.148.305 Treatment of suspects.

Rule 305. Each animal marked "MDA suspect" on ante-mortem inspection, and animals treated as suspects, as provided under R 285.148.334, when presented for slaughter shall be accompanied with a form approved by the director on which shall be recorded the suspect tag number and any other identifying tag numbers present and a brief description of the animal and of the disease or condition for which the animals was classed as a suspect, including its temperature when the temperature of such animal might have a bearing on the disposition of the carcass on post-mortem inspection.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

R 285.148.306 Animals with high temperatures.

Rule 306. Any swine having a temperature of 106 degrees Fahrenheit or higher and any cattle, calves, sheep, lambs, or goats having a temperature of 105 degrees Fahrenheit or higher shall be marked "MDA condemned." In case of doubt as to the cause of the high temperature, or when for other reasons such action appears warranted, any such animals may be held for a reasonable time, under the supervision of a department employee, for further observation and taking of temperature before final disposition of such animals is determined.

History: 1954 ACS 46, p. 17, Eff. May 14, 1966.

R 285.148.307 Release of suspects.

Rule 307. When any animal tagged "MDA suspect" is released for any purpose or reason, as provided in this part, the tag shall be removed by a department employee.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.308 Animals with disease or condition requiring condemnation.

Rule 308. All animals plainly showing on ante-mortem inspection any disease or condition that these rules would cause condemnation of their carcasses on post-mortem inspection shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.309 Animals in dying condition.

Rule 309. Animals received for slaughter and found in a dying condition on premises of an official establishment shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.310 Reactors to tuberculin test.

Rule 310. Reactors to the tuberculin test, required by these rules to be condemned, shall be autopsied and the findings made the subject of a special report.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.311 Other conditions.

Rule 311. Any animal found in a comatose or semi-comatose condition or affected with any condition not otherwise covered in this part, which would not warrant release of the animal for slaughter for food shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341 except that such animal may be set apart and held for further observation or treatment under department or other responsible official supervision.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.312 Cripples and downers.

Rule 312. All seriously crippled animals and animals commonly termed "downers," if not marked "MDA condemned" as required elsewhere in these rules shall be marked and treated as suspects in accordance with R 285.148.303 to R 285.148.307.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.313 Immature animals.

Rule 313. Animals which are offered for ante-mortem inspection under this part, and which are regarded as immature, shall be marked "MDA suspect," and, if slaughtered, the disposition of their carcasses shall be determined by the post-mortem findings in connection with the ante-mortem conditions. If not slaughtered as suspects, such animals shall be held under department or other responsible official supervision, and after sufficient development may be released for slaughter.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.314 Animals showing symptoms of certain conditions.

Rule 314. All animals showing on ante-mortem inspection symptoms of anaplasmosis, leptospirosis, listerellosis, parturient paresis, rabies, railroad sickness, or tetanus shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341, except that cattle showing symptoms of anaplasmosis, leptospirosis, listerellosis, parturient paresis, or railroad sickness may be set apart

and held for treatment under department or other responsible official supervision. If at the expiration of the treatment period, animals upon examination are found to be free from disease, they may be released for slaughter at the official establishment, and shall be marked "MDA suspect."

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.315 Animals reacting to leptospirosis test.

Rule 315. Animals which have reacted to a test for leptospirosis, but which show no symptoms of the disease, shall be marked "MDA suspect."

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.316 Hog affected with cholera.

Rule 316. All hogs plainly showing on ante-mortem inspection that they are affected with hog cholera shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341.

History: 1954 ACS 46, p. 18, Eff. May 14, 1966.

R 285.148.317 Hogs with cholera symptoms.

Rule 317. If a hog has a temperature of 106 degrees Fahrenheit or higher, and is of a lot in which there are symptoms of hog cholera, in case of doubt as to the cause of the high temperature, after being marked for identification, it may be held for a reasonable time, under the supervision of a department employee for further observation and taking of temperature. Any hog so held shall be reinspected on the day it is slaughtered. If, upon such reinspection, or, when not held for further observation and taking of temperature, then on the original inspection, the hog has a temperature of 106 degrees Fahrenheit or higher, it shall be condemned and disposed of in accordance with R 285.148.341.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.318 Hogs in lots with cholera suspects.

Rule 318. All hogs, even though not themselves marked as suspects, which are of lots 1 or more of which have been condemned, or marked as suspects for hog cholera, shall, so far as possible, be slaughtered separately and apart from all other animals passed on ante-mortem inspection.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.319 Hog cholera suspects.

Rule 319. A hog suspected of being affected with hog cholera, if not marked "MDA condemned" shall be marked "MDA suspect" and be released for slaughter.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.320 Swine injected with cholera virus within 28 days.

Rule 320. Swine, other than hyperimmune swine, shall be condemned on ante-mortem inspection if offered for slaughter within 28 days after injection with hog cholera virus.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.321 Swine injected with cholera virus over 28 days.

Rule 321. Swine, other than hyperimmune swine, offered for slaughter after 28 days following injection with hog cholera virus shall be given ante-mortem inspection in conformity with these rules without reference to the injected virus.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.322 Swine within 10 days of hyperimmunization.

Rule 322. Hyperimmune swine shall be condemned on ante-mortem inspection if offered for slaughter within 10 days after hyperimmunization.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.323 Swine after 10 days of hyperimmunization.

Rule 323. Hyperimmune swine offered for slaughter after 10 days following hyperimmunization shall be given ante-mortem inspection in conformity with these rules without reference to the injected virus.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.324 Epithelioma of the eye of cattle.

Rule 324. Any animal found on ante-mortem inspection to be affected with epithelioma of the eye and of the orbital region in which the eye has been destroyed or obscured by neoplastic tissue and which shows extensive infection, suppuration, and necrosis, usually accompanied with foul odor, or any animal affected with epithelioma of the eye or of the orbital region which, regardless of extent, is accompanied with cachexia shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.325 Suspect of epithelioma of the eye of cattle.

Rule 325. Any animal found on ante-mortem inspection to be affected with epithelioma of the eye or of the orbital region to a lesser extent than in R 285.148.324 shall be marked "MDA suspect" and disposed of as provided in these rules.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.326 Animals affected with anthrax; marking and disposition.

Rule 326. Any animal found on ante-mortem inspection to be affected with anthrax shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.327 Animals in lots infected with anthrax.

Rule 327. No animal of a lot in which anthrax is found on ante-mortem inspection shall be presented for post-mortem inspection until it has been determined by a careful ante-mortem inspection that no infected animal remains in the lot. Apparently healthy animals other than hogs shall be held as provided for in R 285.148.328. If desired, all apparently healthy animals of the lot may be segregated and held for treatment by a competent veterinarian under department or other responsible official supervision. No anthrax vaccine (live organisms) shall be used on the premises of an official establishment.

History: 1954 ACS 46, p. 19, Eff. May 14, 1966.

R 285.148.328 Anthrax; apparently healthy animals; treated animals.

Rule 328. Apparently healthy animals of a lot of cattle, calves, sheep, lambs, or goats in which anthrax is detected, and animals which have been treated with anthrax biologicals which do not contain living anthrax organisms, shall not be presented for post-mortem inspection in less than 21 days following the last treatment or the last death. Treatment with anthrax vaccine (live organisms) must

be elsewhere than on the official premises and subject to the conditions stated in R 285.148.329.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.329 Treatment of animals reacting to anthrax vaccine.

Rule 329. Animals which have been injected with anthrax vaccines (live organisms) within 6 weeks, and those bearing evidence of reaction to such treatment, such as inflammation, tumefaction, or edema at the site of the injection, shall be condemned on ante-mortem inspection, or such animals may be held under department or other responsible official supervision until the expiration of the 6-week period and the disappearance of any reaction to the treatment.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.330 Anthrax; disinfection when found.

Rule 330. When animals are found on ante-mortem inspection to be affected with anthrax, the cleaning and disinfection of exposed livestock pens and driveways of the official establishment shall consist of promptly and thoroughly removing and burning all straw, litter, and manure. This shall be followed immediately by a thorough disinfection of the exposed premises by soaking the ground, fences, gates, and all exposed material with a 5% solution of sodium hydroxide or commercial lye prepared as outlined in R 285.148.372, or other disinfectant approved by the director specifically for this purpose.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.331 Cattle affected with advanced anasarca or generalized edema.

Rule 331. All cattle found on ante-mortem inspection to be affected with anasarca in advanced stages and characterized by an extensive and generalized edema shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.332 Cattle affected with slight anasarca.

Rule 332. Cattle found on ante-mortem inspection to be affected with anasarca to a lesser extent than in R 285.148.331 shall be marked "MDA suspect" and disposed of as provided in these rules.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.333 Anasarca suspected.

Rule 333. An animal suspected of being affected with anasarca may be set apart and held for treatment under department or other responsible official supervision. If at the expiration of the treatment period the animal upon examination is found to be free from disease, it may be released for slaughter.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.334 Tuberculin test reactors.

Rule 334. Animals which are known to have reacted to the tuberculin test and which are to be slaughtered at an official establishment shall be marked and treated as suspects in accordance with R 285.148.303 to R 285.148.307, except that animals bearing an official "USADE Reactor" or similar state reactor tag should not be tagged "MDA suspect."

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.335 Swine with acute erysipelas.

Rule 335. All hogs plainly showing on ante-mortem inspection that they are affected with acute swine erysipelas shall be marked "MDA condemned" and disposed of in accordance with these rules.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.336 Swine suspected of erysipelas.

Rule 336. All hogs suspected on ante-mortem inspection of being affected with swine erysipelas shall be marked and treated as suspects and disposed of in accordance with these rules.

History: 1954 ACS 46, p. 20, Eff. May 14, 1966.

R 285.148.337 Swine suspected of erysipelas; treatment.

Rule 337. A hog suspected of being affected with swine erysipelas may be set apart and held under department or other responsible official supervision for treatment. If at the expiration of the treatment period the animal upon examination is found to be free from disease, it may be released for slaughter.

History: 1954 ACS 46, p. 21, Eff. May 14, 1966.

R 285.148.338 Pregnancy or recent parturition.

Rule 338. Any animal showing signs of the onset of parturition shall be withheld from slaughter until after parturition and passage of placenta. Slaughter may then be permitted if the animal is otherwise acceptable.

History: 1954 ACS 46, p. 21, Eff. May 14, 1966.

R 285.148.339 Vaccine animals.

Rule 339. Vaccine animals with unhealed lesions of vaccinia, accompanied with fever, which have not been exposed to any other infectious or contagious disease, are not required to be slaughtered and may be marked "MDA suspect" and held until released for slaughter.

History: 1954 ACS 46, p. 21, Eff. May 14, 1966.

R 285.148.340 Emergency slaughter; prior inspection.

Rule 340. In all cases of emergency slaughter, except as provided in R 285.148.429, the animals shall be inspected immediately before slaughter, whether theretofore inspected or not. When the necessity for emergency slaughter exists, the establishment shall notify the inspector in charge so that such inspection may be made.

History: 1954 ACS 46, p. 21, Eff. May 14, 1966.

R 285.148.341 Disposition of condemned animals.

Rule 341. Except as otherwise provided in this rule, animals marked "MDA condemned" on ante-mortem inspection shall be killed by the official establishment, if not already dead. Such animals shall not be taken into an establishment to be slaughtered or dressed; nor shall they be conveyed into any department of the establishment used for edible products; but they shall be disposed of and tanked in the manner provided for condemned carcasses in R 285.148.506. The "MDA condemned" tag shall not be removed from, but shall remain on, the carcass until it goes into the tank, at which time the tag may be removed by the inspector in charge. The number of such tag shall be reported to the director.

History: 1954 ACS 46, p. 21, Eff. May 14, 1966.

R 285.148.342 Brucellosis-reactor goats.

Rule 342. Goats which have reacted to a test for brucellosis shall not be slaughtered in an official establishment.

History: 1954 ACS 46, p. 21, Eff. May 14, 1966.

R 285.148.343 Vesicular diseases.

Rule 343. (1) Immediate notification shall be given to the local state and federal livestock sanitary officials having jurisdiction when an animal is found to be affected with a vesicular disease.

(2) No animal under quarantine by state or federal livestock sanitary officials on account of a vesicular disease will be given ante-mortem inspection.

(3) If no quarantine is invoked, or if a quarantine is invoked and later lifted, ante-mortem inspection shall be as follows:

(a) Any animal affected with vesicular exanthema or vesicular stomatitis in the acute stages, as evidence by acute and active lesions or an elevated temperature, shall be marked "MDA condemned" and disposed of in accordance with R 285.148.341.

(b) Any animal affected with vesicular exanthema, or vesicular stomatitis, but which has recovered to the extent that the lesions are in process of healing, the temperature is within normal range, and the animal shows a return to normal appetite and activity, shall be marked "MDA suspect" and disposed of in accordance with R 285.148.303 to R 285.148.307, except that if desired, such animal may be set apart and held under department or other responsible official supervision for treatment. If the animal is set aside for treatment, the "MDA suspect" tag will be removed by a department employee, either when the animal is released for treatment to a responsible official, or, following treatment while under the custody of a department employee if the animal is found to be free from disease. Such animal found to be free from disease may be released for slaughter.

History: 1954 ACS 46, p. 21, Eff. May 14, 1966.

R 285.148.360 Extent and time of port-mortem inspection.

Rule 360. A careful post-mortem examination and inspection shall be made of the carcasses and parts thereof of all cattle, calves, sheep, lambs, swine, and goats slaughtered at official establishments. Inspection and examination shall be made at the time of slaughter, except in cases of emergencies provided for in R 285.148.429.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.361 Organs and parts to be held pending final inspection of carcasses.

Rule 361. The head, tongue, tail, thymus gland, and all viscera, and all parts and blood to be used in the preparation of meat food products or medical products, shall be held in such manner as to preserve their identity until after post-mortem examination has been completed, in order that they may be identified in case the carcass is condemned, passed for cooking, or held for refrigeration.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.362 Carcasses and parts in certain instances to be retained.

Rule 362. Each carcass, including all detached parts and organs, in which any lesion or other condition is found that might render the meat or any part or organ

unfit for food purposes, and which for that reason would require a subsequent inspection, shall be retained by the inspector at the time of inspection. The identity of every such retained carcass, detached part, and organ thereof shall be maintained until the final inspection has been completed. Retained carcasses shall not be washed or trimmed unless authorized by the inspector.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.363 Identification of carcasses and parts; tagging.

Rule 363. Such devices and methods as may be approved by the director may be used for the temporary identification of retained carcasses, parts, or organs. In all cases the identification shall be further established by affixing "MDA retained" tags as soon as practicable and before final inspection. These tags shall not be removed except by a department employee.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.364 Condemned carcasses and parts; marking; tanking.

Rule 364. Each carcass or part which is found on final inspection to be unsound, unhealthful, unwholesome, or otherwise unfit for human food shall be conspicuously marked on the surface tissues of all wholesale cuts by a department employee at the time of inspection "MDA inspected and condemned." Condemned detached parts and organs of such character that they cannot be so marked shall be placed immediately in trucks or receptacles which shall be kept plainly marked "MDA inspected and condemned," in letters not less than 2 inches high. All condemned carcasses, parts, and organs shall remain in the custody of a department employee, and shall be tanked as required in these rules at or before the close of the day on which they are condemned.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.365 Carcasses and parts passed for cooking.

Rule 365. Carcasses and parts passed for cooking shall be marked conspicuously on the surface tissues thereof by a department employee at the time of inspection "MDA passed for cooking." All such carcasses and parts shall be cooked in accordance with R 285.148.511 to R 285.148.513 and until so cooked shall remain in the custody of a department employee.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.366 Localized lesions; spermatic cords and pizzles.

Rule 366. (1) In all cases where carcasses showing localized lesions are passed for food or for cooking, the diseased parts shall be removed before the "MDA retained" tag is taken from the carcass, and such parts shall be condemned.

(2) Spermatic cords shall be removed from hog carcasses, and pizzles from all carcasses.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.367 Passing and marking of carcasses and parts.

Rule 367. Carcasses and parts found to be sound, healthful, wholesome, and fit for human food shall be passed and marked as provided in these rules.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.368 Anthrax carcasses not to be eviscerated.

Rule 368. Carcasses found before evisceration to be affected with anthrax shall not be eviscerated but shall be retained, condemned, and immediately tanked or otherwise disposed of as provided in R 285.148.506.

History: 1954 ACS 46, p. 22, Eff. May 14, 1966.

R 285.148.369 Anthrax carcasses and all parts to be condemned.

Rule 369. All carcasses and all parts, including hides, hoofs, horns, hair, viscera and contents, blood and fat, found to be affected with anthrax shall be condemned and immediately disposed of as provided in R 285.148.506, except that the blood may be handled through the usual blood cooking and drying equipment.

History: 1954 ACS 46, p. 23, Eff. May 14, 1966.

R 285.148.370 Carcass parts contaminated with anthrax to be condemned.

Rule 370. The part of any carcass contaminated with anthrax-infected material through contact with soiled instruments or otherwise shall be immediately condemned and disposed of as provided in R 285.148.506.

History: 1954 ACS 46, p. 23, Eff. May 14, 1966.

R 285.148.371 Anthrax; scalding water and vats.

Rule 371. The scalding vat water through which hog carcasses affected with anthrax have passed shall be immediately drained into the sewer and all parts of the scalding vat shall be cleaned and disinfected as provided in R 285.148.372.

History: 1954 ACS 46, p. 23, Eff. May 14, 1966.

R 285.148.372 Slaughtering department; cleaning and disinfecting when anthrax found.

Rule 372. (1) That portion of the slaughtering division (bleeding area, scalding vat, gambrelling bench, floors, walls, posts, platforms, saws, cleavers, knives, hooks, and the like), as well as employees' boots and aprons contaminated through contact with anthrax-infected material, shall, except as provided in subrule (2), be cleaned immediately and disinfected with 1 of the following disinfectants or other disinfectant approved specifically for this purpose by the director:

(a) A 5% solution of sodium hydroxide or commercial lye containing at least 94% of sodium hydroxide. The solution should be prepared freshly immediately before use by dissolving 2½ pounds of sodium hydroxide or lye in 5½ gallons of hot water and shall be applied as near scalding hot as possible.

(b) A solution of sodium hypochlorite containing approximately ½% of 1% (5,000 parts per million) of available chlorine. The solution shall be freshly prepared.

(c) When a disinfectant solution has been applied to equipment which will afterwards contact meat, the equipment shall be rinsed with clean water before again being used.

(2) In case anthrax infection is found in the hog slaughtering department, an immediate preliminary disinfection shall extend from the head dropper's station to the point where the disease is detected and the affected carcasses shall be cut down and removed from the room. Upon completion of the slaughtering of the lot of hogs of which the anthrax-infected animals were a part, slaughtering operations shall cease, and a thorough cleanup and disinfection shall be made, as provided in subrule (1). If the slaughter of the lot has not been completed by the

close of the day, the cleanup and disinfection shall not be deferred beyond the close of the day on which anthrax was detected.

(3) Persons who have handled anthrax material shall thoroughly cleanse the hands and arms with liquid soap and running hot water. This step shall be taken immediately after exposure, before vegetative anthrax organisms have had time to form spores. In the cleansing, a brush or other appropriate appliance shall be used to insure the removal of all contaminating material from under and about the fingernails. This process of cleansing shall be performed in repeated cycles of lathering and rinsing. After the hands have been cleansed thoroughly and rinsed free of soap, the inspector may require that the hands be immersed for about 1 minute in a 1:1,000 solution of bichloride of mercury, followed by a thorough rinsing in clean running water. Supplies of bichloride of mercury for this purpose shall be held in the custody of the inspector in charge. As a precautionary measure, all persons exposed to anthrax infection shall report promptly any suspicious condition (sore or carbuncle) or symptom to a physician, in order that anti-anthrax serum or other treatment may be administered as indicated.

History: 1954 ACS 46, p. 23, Eff. May 14, 1966.

R 285.148.373 Skin or hide on carcasses; cleaning; removal.

Rule 373. When a carcass is to be dressed with the skin or hide left on, the skin or hide shall be thoroughly washed and cleaned before any incision is made for the purpose of removing any part thereof or evisceration, except that where calves are slaughtered by the kosher method, the heads shall be removed from the carcasses before washing of the carcasses. The skin shall be removed at the time of post-mortem inspection from any calf carcass infested with the larvae of the "ox-warble" fly (hypoderma lineata and hypoderma bovis).

History: 1954 ACS 46, p. 23, Eff. May 14, 1966.

R 285.148.374 Cleaning of hog carcasses before incising.

Rule 374. All hair, scurf, and dirt, including all hoofs and claws, shall be removed from hog carcasses, and the carcasses thoroughly washed and cleaned before any incision is made for inspection or evisceration.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.375 Sternum; splitting; abdominal and thoracic viscera removal.

Rule 375. The sternum of each carcass shall be split and the abdominal and thoracic viscera removed at the time of slaughter in order to allow proper inspection.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.376 Carcasses not to be inflated; transferring caul or other fat.

Rule 376. Carcasses or parts of carcasses shall not be inflated with air. Transferring the caul or other fat from a fat to a lean carcass is prohibited.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.377 Handling of bruised portions of carcasses.

Rule 377. When only a portion of a carcass is to be condemned on account of slight bruises, either the bruised portion shall be removed immediately and disposed of in accordance with R 285.148.506, or the carcass shall be promptly placed in a retaining room and kept until chilled and the bruised portion then removed and disposed of as provided in these rules.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.378 Skins from diseased swine; removal; disinfection.

Rule 378. The skins from swine condemned for tuberculosis or any disease communicable to man or other animal may be removed from the establishment, except as provided in R 285.148.368 to R 285.148.372, for tanning or other industrial use; but they shall be removed for these uses only after they have been disinfected. Each skin shall be immersed for not less than 5 minutes in a 5% solution of liquor cresolis compositus, or in a 5% solution of carbolic acid, or shall be otherwise treated as prescribed by the director. The process of skinning and disinfecting shall be conducted in a specially prepared place approved by the inspector in charge, and under the supervision of a department employee.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.379 Hyperimmune swine bled before entering establishments.

Rule 379. Carcasses of hyperimmune swine which have been given the final bleeding at a serum plant under supervision of animal inspection and quarantine division of the United States department of agriculture may be transferred to an official establishment for dressing and post-mortem inspection in accordance with the provisions of this part when authorized by the director. The transfer of such carcasses to the official establishment shall be made as promptly as possible and their delivery to the scalding vat shall be accomplished within 1 hour from the time bleeding is completed. The identity of the carcasses of hyperimmune swine shall be maintained in such manner as to positively identify them and to indicate the time of final bleeding. Procedures for maintaining this identity shall be such as will serve the purposes of the animal inspection and quarantine division and the meat inspection division of the United States department of agriculture. Each day that hyperimmune swine are presented for post-mortem inspection an ante-mortem report form covering such swine shall be rendered by the inspector at the serum plant and furnished the inspector in charge of meat inspection.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.380 Cattle, calf, and sheep lungs.

Rule 380. All cattle, calf, and sheep lungs intended for food purposes shall be inspected to determine whether foreign matter is present in their air passages. The main bronchi and branches shall be slit by employees of the establishment as required by the inspector, and, if ingesta or other objectionable foreign matter has entered these passages, the lungs shall be condemned.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.381 Hog lungs not to be saved as edible.

Rule 381. Hog lungs shall not be saved as edible products.

History: 1954 ACS 46, p. 24, Eff. May 14, 1966.

R 285.148.382 Mammary glands.

Rule 382. Lactating mammary glands and diseased mammary glands of cattle, calves, sheep, lambs, swine, and goats shall be removed without opening the milk ducts or sinuses. If pus or other objectionable material is permitted to come in contact with the carcass, the parts of the carcass thus contaminated shall be removed and condemned.

History: 1954 ACS 46, p. 25, Eff. May 14, 1966.

R 285.148.383 Cow udders.

Rule 383. Cow udders may be saved for food purposes, provided suitable facilities for handling and inspecting them are provided.

History: 1954 ACS 46, p. 25, Eff. May 14, 1966.

R 285.148.384 Cow udders; inspection.

Rule 384. The inspection of udders from cows which have been kept for breeding purposes only shall consist of examination by palpation and when necessary by incision. The inspection of udders from cows which have been used for dairy purposes shall include slicing in sections about 2 inches in thickness. This slicing shall be done by establishment employees. The udders in the sliced condition shall be given a careful examination by department employees. The inspector will designate the udders which are to be sliced. When there is any doubt as to whether the udder is from a cow which has been used for breeding purposes only, then the udder shall be sliced and inspected as provided for udders from cows used for dairy purposes. Each udder shall be properly identified with its respective carcass and kept separate and apart from other udders until its disposal has been determined, when it may be further handled as the conditions warrant.

History: 1954 ACS 46, p. 25, Eff. May 14, 1966.

R 285.148.385 Cow udders from brucellosis disease reactors.

Rule 385. The udders from cows officially designated as "brucellosis disease reactors" or as "mastitis elimination cows" shall not be utilized for edible purposes.

History: 1954 ACS 46, p. 25, Eff. May 14, 1966.

R 285.148.386 Mammary glands of swine.

Rule 386. Lactating mammary glands of swine intended for edible purposes shall be handled and inspected in the same manner as provided in R 285.148.384 for the udders of cows used for dairy purposes, except that the sliced sections shall be about 1 inch in thickness. Glands that are passed may be distributed as such but their use in meat food products is limited to the preparation of rendered pork fat.

History: 1954 ACS 46, p. 25, Eff. May 14, 1966.

R 285.148.387 Radioactive isotopes; meat from animals treated with.

Rule 387. (1) Meat from animals which have been treated with radioactive isotopes for experimental purposes shall be considered wholesome and eligible to receive the marks of inspection, if otherwise acceptable, under the following conditions.

(2) If the radioactive material is not retained in the treated animal; or in the case of retained material, when decay of radioactivity of the residue has reduced the level of radiation to essentially that of normal background. The determination that essentially background radioactivity has been reached shall be made by a count on an ashed sample using an instrument capable of detecting activity 10% above the background of a similar sample from a control animal, to be measured in the same manner. Each organ and tissue such as muscle and bone intended to be used for food shall be separately tested in a like manner.

(3) The agency which conducts the experimentation shall be equipped to conduct the tests. Certification concerning the results of the tests shall be made by the agency to the appropriate inspector in charge of meat inspection. In any case,

the inspector in charge shall report in detail to the livestock disease control division, department of agriculture, Lansing, Michigan.

History: 1954 ACS 46, p. 25, Eff. May 14, 1966.

PART 5. DISPOSAL OF DISEASED CARCASSES AND PARTS

R 285.148.401 General provision and doubtful cases.

Rule 401. (1) The carcasses or parts of carcasses of all animals slaughtered at an official establishment and found at the time of slaughter or at any subsequent inspection to be affected with any of the diseases or conditions named in this part shall be disposed of according to the rule pertaining to the disease or condition. The decision as to the disposal of all carcasses, parts, or organs not specifically covered in these rules shall be left to the inspector in charge.

(2) In cases of doubt as to a condition, a disease, or the cause of a condition, or to confirm a diagnosis, representative specimens of the affected tissues properly prepared and packaged should be sent for examination to the laboratory designated by the director.

History: 1954 ACS 46, p. 25, Eff. May 14, 1966.

R 285.148.402 Tuberculosis; principles used in passing on carcasses.

Rule 402. The following principles shall be used in passing on carcasses affected with tuberculosis:

(a) No meat should be passed for food if it contains tubercle bacilli, or if there is a reasonable possibility that it may contain tubercle bacilli, or if it is impregnated with toxic substances of tuberculosis or associated septic infections.

(b) Meat should not be destroyed if the lesions are localized and not numerous, if there is no evidence of distribution of tubercle bacilli through the blood or by other means to the muscles or to parts that may be eaten with the muscles, and if the animal is well nourished and in good condition, since in this case there is no proof, or even reason to suspect, that the flesh is unwholesome.

(c) Evidences of generalized tuberculosis are to be sought in such distribution and number of tuberculosis lesions as can be explained only upon the supposition of the entrance of tubercle bacilli in considerable number into the systemic circulation. Significant of such generalization is the presence of numerous uniformly distributed tubercles throughout both lungs, also tubercles in the spleen, kidneys, bones, joints, and sexual glands, and in the lymph nodes connected with these organs and parts, or in the spleenic, renal, prescapular, popliteal, and inguinal nodes, when several of these organs and parts are coincidentally affected.

(d) Localized tuberculosis is tuberculosis limited to a single or several parts or organs of the body without evidence of recent invasion of numerous bacilli into the systemic circulation.

History: 1954 ACS 46, p. 26, Eff. May 14, 1966.

R 285.148.403 Tuberculosis; disposal of carcasses or parts.

Rule 403. The carcasses of animals affected with tuberculosis shall be disposed of as follows:

(a) The entire carcass shall be condemned if any of the following conditions occur:

(i) When it was observed before the animal was killed that it was suffering with fever.

(ii) When there is a tuberculous or other cachexia.

(iii) When the lesions of tuberculosis are generalized, as shown by their presence not only at the usual seats of primary infection but also in parts of the

carcass or in the organs that may be reached by the bacilli of tuberculosis only when they are carried in the systemic circulation. Tuberculosis lesions in any 2 of the following-mentioned organs are to be accepted as evidence of generalization when they occur in addition to local tuberculous lesions in the digestive or respiratory tracts, including the connecting lymph glands: spleen, kidney, uterus, udder, ovary, testicle, adrenal gland, and brain or spinal cord of their membranes. Numerous tubercles uniformly distributed throughout both lungs also afford evidence of generalization.

(iv) When the lesions of tuberculosis are found in the muscles or intermuscular tissue or bones or joints, or in the body lymph glands as a result of draining the muscles, bones, or joints.

(v) When the lesions are extensive in 1 or both body cavities.

(vi) When the lesions are multiple, acute, and actively progressive. Evidence of active progress shall be signs of acute inflammation about the lesions or liquefaction necrosis, or the presence of young tubercles.

(b) An organ or a part of a carcass shall be condemned under any of the following conditions:

(i) When it contains lesions of tuberculosis.

(ii) When the lesion is localized but immediately adjacent to the flesh, as in the case of tuberculosis of the parietal pleura or peritoneum. In this case not only the membrane or part affected but also the adjacent thoracic or abdominal wall is to be condemned.

(iii) When it has been contaminated by tuberculosis material through contact with the floor or a soiled knife or otherwise.

(iv) Heads showing lesions of tuberculosis shall be condemned, except that when a head is from a carcass passed for food or for cooking and the lesions are slight, or calcified, or encapsulated, and are confined to lymph glands in which not more than 2 glands are involved, the head may be passed for cooking after the diseased tissues have been removed and condemned.

(v) An organ shall be condemned when the corresponding lymph gland is tuberculous.

(vi) Intestines and mesenteries showing lesions of tuberculosis shall be condemned, but when the lesions are slight and confined to the lymph glands and the carcass is passed without restriction, the intestines may be passed for use as casings and the fat passed for rendering after the corresponding lymph glands have been removed and condemned if the fat and intestines have not been contaminated with tuberculous material.

(c) Carcasses showing lesions of tuberculosis shall be passed for food when the lesions are slight, localized, and calcified or encapsulated, or are limited to a single or several parts or organs of the body, except as noted in subdivision (b), and there is no evidence of recent invasion of tubercle bacilli into the systemic circulation. Carcasses showing such lesions as the following examples may be passed, after the parts containing the lesions are removed and condemned in accordance with subdivision (b):

(i) In the cervical lymph glands and 2 groups if visceral lymph glands in a single body cavity, such as the cervical, bronchial, and mediastinal glands, or the cervical, hepatic, and mesenteric glands.

(ii) In the cervical lymph glands and 1 group of visceral lymph glands and 1 organ in a single body cavity, such as the cervical and bronchial glands and lungs, or the cervical and hepatic glands and the liver.

(iii) In 2 groups of visceral lymph glands and 1 organ in a single body cavity, such as the bronchial and mediastinal glands and the lungs, or the hepatic and mesenteric glands and the liver.

(iv) In 2 groups of visceral lymph glands in the thoracic cavity and 1 group in the abdominal cavity, or in 1 group of visceral lymph glands in the thoracic cavity and 2 groups in the abdominal cavity, such as the bronchial, mediastinal, and hepatic glands, or the bronchial, hepatic, and mesenteric glands.

(v) In the cervical lymph glands and 1 group of visceral lymph glands in each body cavity, such as the cervical, bronchial, and hepatic glands.

(vi) In the cervical lymph glands and 1 group of visceral lymph glands in each body cavity, together with the liver when the latter contains but few localized foci. In this class of carcasses, which will be chiefly those of hogs, the lesions of the liver are considered to be primary, as the disease is practically always of alimentary origin.

(vii) Carcasses which reveal lesions more severe or more numerous than those described for carcasses to be passed under subdivision (c), but not so severe nor so numerous as the lesions described for carcasses to be condemned under subdivision (a), may be rendered into lard, rendered pork fat, or tallow, or otherwise cooked in accordance with R 285.148.511 to R 285.148.513, if the distribution of the lesions is such that all parts containing tuberculous lesions can be removed.

History: 1954 ACS 46, p. 26, Eff. May 14, 1966.

R 285.148.404 Hog cholera; disposition of carcasses.

Rule 404. (1) The carcasses of all hogs affected with acute hog cholera shall be condemned.

(2) Inconclusive but suspicious symptoms of hog cholera observed during the ante-mortem inspection shall be duly considered in connection with post-mortem findings and when the carcass of such a "suspect" shows lesions in the kidneys and the lymph glands which resemble lesions of hog cholera, they shall be regarded as those of hog cholera and the carcass shall be condemned.

(3) Inasmuch as lesions resembling lesions of hog cholera occur in the kidneys and lymph glands of hogs not affected with hog cholera, carcasses of hogs in the kidneys or lymph glands of which appear any lesions resembling lesions of hog cholera shall be carefully further inspected for corroborative lesions. If on such further inspection the carcass shows such lesions in the kidneys or in the lymph glands or in both, accompanied by characteristic lesions in some organ or tissue, then all lesions shall be regarded as those of hog cholera and the carcass shall be condemned.

History: 1954 ACS 46, p. 27, Eff. May 14, 1966.

R 285.148.405 Carcasses of swine injected with hog cholera virus.

Rule 405. (1) Carcasses of swine, other than hyperimmune swine, if presented for inspection after 28 days following injection with hog cholera virus, shall be given post-mortem inspection in conformity with this part without reference to the injected virus.

(2) Carcasses of hyperimmune swine if presented for inspection after 10 days following hyperimmunization shall be given post-mortem inspection in conformity with this part without reference to the injected virus.

History: 1954 ACS 46, p. 28, Eff. May 14, 1966.

R 285.148.406 Swine erysipelas.

Rule 406. Carcasses affected with swine erysipelas which is acute or generalized, or which show systemic change, shall be condemned.

History: 1954 ACS 46, p. 28, Eff. May 14, 1966.

R 285.148.407 Diamond-skin disease.

Rule 407. Carcasses of hogs affected with diamond-skin disease when localized and not associated with systemic change may be passed for food after removal and condemnation of the affected parts, provided such carcasses are otherwise in good condition.

History: 1954 ACS 46, p. 28, Eff. May 14, 1966.

R 285.148.408 Arthritis and polyarthritis.

Rule 408. (1) Carcasses affected with arthritis or polyarthritis when localized and not associated with systemic change may be passed for food after removal and condemnation of all affected parts, provided the carcasses are otherwise in good condition. Affected joints with corresponding lymph glands shall be removed and condemned. In order to avoid contamination of the meat which is passed, a joint capsule shall not be opened until after the affected joint is removed.

(2) Carcasses affected with arthritis or polyarthritis characterized by the presence of periarticular abscesses which may or may not be connected with similar suppurative foci within the epiphyses of the bone shall be condemned in cases manifesting suppurative lesions in more than 1 joint. Otherwise, the condemnation shall be restricted to the affected parts if such carcasses are otherwise in good condition.

History: 1954 ACS 46, p. 28, Eff. May 14, 1966.

R 285.148.409 Cattle carcasses with anasarca or generalized edema.

Rule 409. (1) Carcasses of cattle found on post-mortem inspection to be affected with anasarca in advance stages and characterized by an extensive or well-marked generalized edema shall be condemned.

(2) Carcasses of cattle, including their detached parts and organs, found on post-mortem inspection to be affected with anasarca to a lesser extent than in subrule (1) of this rule may be passed for food after removal and condemnation of the affected tissues, provided the lesion is localized.

History: 1954 ACS 46, p. 28, Eff. May 14, 1966.

R 285.148.410 Actinomycosis and actinobacillosis.

Rule 410. (1) The definition of generalization as outlined for tuberculosis in R 285.148.403(1) shall apply for actinomycosis and actinobacillosis, and carcasses of animals so affected shall be condemned.

(2) Carcasses of animals in a well-nourished condition showing uncomplicated localized lesions of actinomycosis or actinobacillosis may be passed after the infected organs or parts have been removed and condemned, except as provided in subrules (3) and (4).

(3) Heads affected with actinomycosis or actinobacillosis, including the tongue, shall be condemned, except that when the disease of the jaw is slight, strictly localized, and without suppuration, fistulous tracts, or lymph gland involvement, the tongue, if free from disease may be passed, or, when the disease is slight and confined to the lymph glands, the head, including the tongue, may be passed after the affected glands have been removed and condemned.

(4) When the disease is slight and confined to the tongue, with or without involvement of the corresponding lymph glands, the head may be passed after removal and condemnation of the tongue and corresponding lymph glands.

History: 1954 ACS 46, p. 28, Eff. May 14, 1966.

R 285.148.411 Carcasses with certain diseases or conditions.

Rule 411. Carcasses of animals affected with or showing lesions of any of the following-named diseases or conditions shall be condemned:

(a) Anthrax.
(b) Bacillary hemoglobinuria in cattle.
(c) Blackleg.
(d) Hemorrhagic septicemia.
(e) Icterohematuria in sheep.
(f) Malignant epizootic catarrh.
(g) Piroplasmosis.
(h) Pyemia.
(i) Septicemia.
(j) Unhealed vaccine lesions (vaccinia).

History: 1954 ACS 46, p. 29, Eff. May 14, 1966.

R 285.148.412 Malignant neoplasms and metastasis.

Rule 412. Any individual organ or part of a carcass affected with a malignant neoplasm shall be condemned. In case the malignant neoplasm involves any internal organ to a marked extent, or affects the muscles, skeleton, or body lymph glands, even primarily, the carcass shall be condemned, except as provided in R 285.148.413. In case of metastasis to any other organ or part of a carcass, or if metastasis has not occurred but there are present secondary changes in the muscles (serious infiltration, flabbiness, or the like), the carcass shall be condemned. Carcasses of cattle affected with epithelioma of the eye shall be disposed of according to R 285.148.413.

History: 1954 ACS 46, p. 29, Eff. May 14, 1966.

R 285.148.413 Epithelioma of the eye.

Rule 413. (1) Carcasses of animals affected with epithelioma of the eye, of the orbital region, and of the corresponding parotid lymph gland or both shall be condemned in their entirety if 1 of the following 3 conditions exists:

(a) The affection has involved the osseous structures of the head with extensive infection, suppuration, and necrosis;

(b) There is metastasis from the eye, the orbital region, or the corresponding parotid lymph gland to other lymph glands, internal organs, muscles, skeleton, or other structures, regardless of the extent of the primary tumor; or

(c) The affection, regardless of extent, is associated with cachexia or evidence of absorption or secondary changes.

(2) Carcasses of animals affected with epithelioma of the eye, of the orbital region, or of the corresponding parotid lymph gland to a lesser extent than in subrule (1) may be passed for food after removal and condemnation of the head, including the tongue, provided the carcass is otherwise in good condition.

History: 1954 ACS 46, p. 29, Eff. May 14, 1966.

R 285.148.414 Carcasses showing diseases affecting animals' systems.

Rule 414. Carcasses of animals showing any disease such as generalized melanosis, leukemia, pseudo-leukemia, lymphoma, and the like, which affects the system of the animal, shall be condemned.

History: 1954 ACS 46, p. 29, Eff. May 14, 1966.

R 285.148.415 Abrasions, bruises, tumors, and lesions.

Rule 415. All slight, well-limited abrasions on the tongue and inner surface of the lips and mouth, when without lymph gland involvement, shall be carefully excised, leaving only sound, normal tissue, which may be passed. Any organ or part of a carcass which is badly bruised or which is affected by a tumor, an abscess, or a suppurating sore, shall be condemned; and when the lesions are of such character or extent as to affect the whole carcass, the whole carcass shall be condemned. Parts of carcasses which are contaminated by pus shall be condemned.

History: 1954 ACS 46, p. 29, Eff. May 14, 1966.

R 285.148.416 Localized brucellosis.

Rule 416. Carcasses affected with localized lesions of brucellosis may be passed for food after the affected parts are removed and condemned.

History: 1954 ACS 46, p. 30, Eff. May 14, 1966.

R 285.148.417 Carcasses so infected that consumption may cause food poisoning.

Rule 417. (1) All carcasses of animals so infected that consumption of the products thereof may give rise to food poisoning shall be condemned. This includes all carcasses showing signs of:

(a) Acute inflammation of the lung, pleura, pericardium, peritoneum, or meninges.

(b) Septicemia or pyemia, whether puerperal, traumatic, or without any evident cause.

(c) Gangrenous or severe hemorrhagic enteritis or gastritis.

(d) Acute diffuse metritis or mammitis.

(e) Phlebitis of the umbilical veins.

(f) Septic or purulent traumatic pericarditis.

(g) Any acute inflammation, abscess, or suppurating sore, if associated with acute nephritis, fatty and degenerated liver, swollen soft spleen, marked pulmonary hyperemia, general swelling of lymph glands, diffuse redness of the skin, cachexia, icteric discoloration of the carcass, or the like, either singly or in combination.

(2) Implements contaminated by contact with carcasses affected with any of the diseased conditions mentioned in this rule shall be thoroughly cleaned and disinfected as prescribed elsewhere in these rules. The equipment used in the dressing of such carcasses, such as viscera trucks, inspection tables, and the like, shall be disinfected with hot water having a minimum temperature of 180 degrees Fahrenheit. Carcasses or parts of carcasses contaminated by contact with such diseased carcasses shall be condemned unless all contaminated tissues are removed within 2 hours.

History: 1954 ACS 46, p. 30, Eff. May 14, 1966.

R 285.148.418 Necrobacillosis; pyemia; septicemia.

Rule 418. Necrobacillosis may be regarded as a local affection at the beginning, and carcasses in which the lesions are so localized may be passed for food if in a good state of nutrition, after removing and condemning those portions affected with necrotic lesions. When emaciation, cloudy swelling of the glandular organs, or enlargement and discoloration of the lymph glands are associated with the affection, the entire carcass shall be condemned as both innutritious and noxious. Pyemia or septicemia may intervene as a complication of the local

necrosis, and when present the carcass shall be condemned in accordance with R 285.148.417.

History: 1954 ACS 46, p. 30, Eff. May 14, 1966.

R 285.148.419 Caseous lymphadenitis.

Rule 419. (1) A thin carcass showing well-marked lesions in the viscera and the skeletal lymph glands, or such a carcass showing extensive lesions in any part shall be condemned.

(2) A thin carcass showing well-marked lesions in the viscera with only slight lesions elsewhere or showing well-marked lesions in the skeletal lymph glands with only slight lesions elsewhere may be passed for cooking.

(3) A thin carcass showing only slight lesions in the skeletal lymph glands and in the viscera may be passed without restriction.

(4) A well-nourished carcass showing well-marked lesions in the viscera and with only slight lesions elsewhere or showing well-marked lesions confined to the skeletal lymph glands with only slight lesions elsewhere may be passed without restriction.

(5) A well-nourished carcass showing well-marked lesions in the viscera and the skeletal lymph glands may be passed for cooking; but where the lesions in a well-nourished carcass are both numerous and extensive, it shall be condemned.

(6) All affected organs and glands of carcasses passed without restriction or passed for cooking shall be removed and condemned. The term "thin" as used in this section shall not be held applicable to a carcass which is anemic or emaciated.

History: 1954 ACS 46, p. 30, Eff. May 14, 1966.

R 285.148.420 Icterus.

Rule 420. Carcasses showing any degree of icterus with a parenchymatous degeneration of organs, the result of infection or intoxication, and those which show an intense yellow or greenish-yellow discoloration without evidence of infection or intoxication, shall be condemned. Carcasses affected with icteric-like discoloration, the result of conditions other than those before stated in this rule, but which lose such discoloration on chilling, shall be passed for food, while those which do not lose such discoloration may be passed for cooking. No carcass retained under this rule may be passed for food unless the final inspection is completed under natural light. Carcasses passed for cooking under this rule shall not be processed other than by rendering.

History: 1954 ACS 46, p. 30, Eff. May 14, 1966.

R 285.148.421 Urine or sexual odor.

Rule 421. Carcasses which give off the odor of urine or a sexual odor shall be condemned. When the final inspection of such carcasses is deferred until they have been chilled, the disposal shall be determined by the heating test.

History: 1954 ACS 46, p. 31, Eff. May 14, 1966.

R 285.148.422 Mange or scab.

Rule 422. Carcasses of animals affected with mange or scab in advance stages, showing cachexia or extensive inflammation of the flesh, shall be condemned. When the disease is slight, the carcass may be passed after removal of the affected portion.

History: 1954 ACS 46, p. 31, Eff. May 14, 1966.

R 285.148.423 Hogs affected with certain conditions.

Rule 423. Carcasses of hogs affected with urticaria (nettle rash), tinea tonsurans, demodex folliculorum, or erythema may be passed after detaching and condemning the affected skin, if the carcass is otherwise fit for food.

History: 1954 ACS 46, p. 31, Eff. May 14, 1966.

R 285.148.424 Inspection of heads and hearts and final carcass inspection; cattle with tapeworm cysts.

Rule 424. (1) Prior to inspection the tongue shall be detached sufficiently from the head bones, by an employee of the establishment, to allow a proper inspection to be made of the internal muscles of mastication. These muscles shall be inspected after incising them in such manner as to split the muscles in a plane parallel with the lower jawbone. The masseter muscles also shall be incised, splitting the entire external layer between the outer and intermediate fasciae.

(2) The preparation and inspection of hearts shall conform to 1 of the following methods:

(a) The surface of the heart shall be examined, and a longitudinal incision made extending from base to apex through the wall of the left ventricle and the interventricular septum, after which the cut surfaces and the inner surfaces of the ventricles shall be examined.

(b) After the external surface of the heart has been inspected the organ shall be prepared for further inspection by an establishment employee severing its attachments and cutting through the interventricular septum and such other tissues as will permit him to evert the organ completely. The inspector shall then examine the interior surfaces and make not more than 4 deep, lengthwise incisions into the muscles of the septum and left ventricular wall, unless the presence of cysts is suspected, when more incisions shall be made. Under this method care shall be taken not to cut completely through the walls of hearts to be passed without restriction. If necessary to maintain the identity of hearts, the establishment shall provide consecutively numbered tags and appropriately mark the carcasses and hearts.

(3) On final inspection of retained carcasses, the external and internal muscles of mastication, the heart, and the muscular portion of the diaphragm including its pillars, should be carefully and thoroughly sliced to insure the finding of all cysts. Prior to the inspection of the diaphragm its peritoneum shall be removed. The tongue shall be carefully inspected by palpation, and if the presence of cysts in the muscles of this organ is suspected, the tongue shall be thoroughly sliced and all parts closely examined for cysts. In addition to the foregoing, the muscles of the oesophagus, the exposed muscles and cut muscular surfaces of the split carcasses shall be examined. Incisions may be made to expose additional surfaces for examination, but unnecessary mutilation of carcasses which may be passed shall be avoided.

(4) Carcasses of cattle, including the viscera, infested with tapeworm cysts known as cysticercus bovis shall be condemned if the infestation is excessive or if the meat is watery or discolored. Carcasses shall be considered excessively infested if incisions in various parts of the musculature expose on the cut surfaces 2 or more cysts within an area the size of the palm of the hand.

(5) A carcass in which infestation with cysticercus bovis is limited to 1 dead and degenerated cyst may be passed for food after removal and condemnation of the cyst.

(6) Carcasses of cattle showing a slight or moderate infestation other than that indicated in subrule (5) but not so extensive as indicated in subrule (4), as

determined by a careful examination of the heart, muscles of mastication, diaphragm and its pillars, tongue, and of portions of the carcass rendered visible by the process of dressing, may be passed for food after removal and condemnation of the cysts, with the surrounding tissues if the carcasses and parts, appropriately identified by retained tags, are held in cold storage at a temperature not higher than 15 degrees Fahrenheit continuously for a period of not less than 10 days and if the boned meat from such carcasses when in boxes, tierces, or like containers, appropriately identified by retained tags, is held at a temperature of not higher than 15 degrees Fahrenheit continuously for a period of not less than 20 days. As an alternative to retention in cold storage as provided, such carcasses and parts may be heated throughout to a temperature of at least 140 degrees Fahrenheit.

(7) The edible viscera, (except the lungs, fat and muscles of the oesophagus, and heart, which shall take the same disposition as the carcasses), of carcasses passed for food or for refrigeration under the provisions of subrule (6) may be passed for food without refrigerating or heating, if they are found to be free from infestation upon final inspection. The intestines, weasands, and bladders from beef carcasses affected with cysticercus bovis, which have been passed for food or for refrigeration, may be used for casings after they have been subjected to the usual methods of preparation and may be passed for such purpose upon completion of the final inspection.

(8) The inspection for cysticercus bovis may be omitted in the case of calves under 6 weeks old. The routine inspection of calves over 6 weeks old for cysticercus bovis may be limited to a careful examination of the surface of the heart and such other surfaces as are rendered visible by the process of dressing.

History: 1954 ACS 46, p. 31, Eff. May 14, 1966.

R 285.148.425 Hogs affected with tapeworm cysts.

Rule 425. Carcasses of hogs affected with tapeworm cysts (cysticercus cellulosae) may be passed for cooking, but if the infestation is excessive the carcass shall be condemned.

History: 1954 ACS 46, p. 32, Eff. May 14, 1966.

R 285.148.426 Carcasses with parasites not transmissible to man; sheep carcasses with tapeworm cysts; carcasses with gid bladder worms; organs and parts with hydatid cysts; liver with flukes or tapeworms.

Rule 426. (1) In the disposal of carcasses, edible organs, and parts of carcasses showing evidence of infestation with parasites not transmissible to man, the following general rules shall govern: If the lesions are localized in such manner and are of such character that the parasites and the lesions caused by them may be radically removed, the non-affected portion of the carcass, organ, or part of the carcass may be passed for food after the removal and condemnation of the affected portions. If an organ or a part of a carcass shows numerous lesions caused by parasites, or if the character of the infestation is such that complete extirpation of the parasites and lesions is difficult and uncertainly accomplished, or if the parasitic infestation or invasion renders the organ or part in any way unfit for food, the affected organ or part shall be condemned. If parasites are found to be distributed in a carcass in such a manner or to be of such a character that their removal and the removal of the lesions caused by them is impracticable, no part of the carcass shall be passed for food. If the infestation is excessive the carcass shall be condemned. If the infestation is moderate the carcass may be passed for cooking, but in case such carcass is not cooked as required by R 285.148.511 to R 285.148.513, it shall be condemned.

(2) In the case of sheep carcasses affected with tapeworm cysts located in the muscles (cysticercus ovis, so-called sheep measles, not transmissible to man), the carcass may be passed after the removal and condemnation of the affected portions if upon the final inspection of sheep carcasses retained on account of measles the total number of cysts found embedded in muscle or in immediate relation with muscular tissue, including the heart, exceeds 5, this shall be taken to indicate that the cysts are so generally distributed and so numerous that their removal would be impracticable, and the entire carcass shall be condemned or passed for cooking, according to the degree of infestation. If not to exceed 5 cysts are found upon final inspection, the carcass may be passed after the removal and condemnation of the affected portions. In cases where sheep pancreatic glands are to be used for edible purposes, the inspectors should adjust their inspection procedures to assure that no tapeworm infested glands are used. Tapeworms in bile duct indicate possible presence of infested glands. These instructions do not apply to pancreatic glands used for pharmaceutical purposes.

(3) Carcasses of animals found infested with gid bladder worms (coenurus cerebralis, multiceps multiceps) may be passed after condemnation of the affected organ (brain or spinal cord).

(4) Organs or parts of carcasses infested with hydatid cysts (echinococcus) shall be condemned.

(5) Livers infested with flukes or fringed tapeworms shall be condemned.

History: 1954 ACS 46, p. 32, Eff. May 14, 1966.

R 285.148.427 Carcasses; emaciated, anemic, with slimy fat degeneration or serous muscular infiltration.

Rule 427. Carcasses of animals too emaciated or anemic to produce wholesome meat, and carcasses which show a slimy degeneration of the fat or a serous infiltration of the muscles, shall be condemned. Mere leanness should not be classed as emaciation.

History: 1954 ACS 46, p. 33, Eff. May 14, 1966.

R 285.148.429 Slaughter of injured animals at unusual hours.

Rule 429. When it is necessary for humane reasons to slaughter an injured animal at night or on Sunday or a holiday when the inspector cannot be obtained, the carcass and all parts shall be kept for inspection, with the head and all viscera except the stomach, bladder, and intestines held by the natural attachments. If all parts are not so kept for inspection, the carcass shall be condemned. If on inspection of a carcass slaughtered in the absence of an inspector any lesion or condition is found indicating that the animal was sick or diseased, or if there is lacking evidence of the condition which rendered emergency slaughter necessary, the carcass shall be condemned.

History: 1954 ACS 46, p. 33, Eff. May 14, 1966.

R 285.148.430 Carcasses of young animals.

Rule 430. Carcasses of young calves, pigs, kids, and lambs are unwholesome and shall be condemned if (a) the meat had the appearance of being water-soaked, is loose and flabby, tears easily, and can be perforated with the fingers; or (b) its color is grayish-red; or (c) good muscular development as a whole is lacking, especially noticeable on the upper shank of the leg, where small amounts of serous infiltrates or small edematous patches are sometimes present between

the muscles; or (d) the tissue which later develops as the fat capsule of the kidneys is edematous, dirty yellow, or grayish-red, tough and intermixed with islands of fat.

History: 1954 ACS 46, p. 33, Eff. May 14, 1966.

R 285.148.431 Unborn and stillborn animals.

Rule 431. All unborn and stillborn animals shall be condemned and no hide or skin thereof shall be removed from the carcass within a room in which edible products are handled.

History: 1954 ACS 46, p. 33, Eff. May 14, 1966.

R 285.148.432 Animals suffocated and hogs scalded alive.

Rule 432. All animals which have been suffocated in any way and hogs which have entered the scalding vat alive shall be condemned.

History: 1954 ACS 46, p. 33, Eff. May 14, 1966.

R 285.148.433 Livers affected with certain conditions; disposal.

Rule 433. (1) Livers affected with carotenosis shall be condemned.

(2) Cattle livers and calf livers showing the conditions sometimes designated as "telangiectatic," "sawdust," or "spotted," shall be disposed of as follows:

(a) When any or all of the conditions are extensive and involve ½ or more of an organ, the whole organ shall be condemned.

(b) When any or all of the conditions are slight in an organ, the whole organ shall be passed without restriction.

(c) When any or all of the conditions involved the whole organ and are less severe than extensive, but more severe than slight, the whole organ shall be cooked.

(d) When any or all of the conditions are less severe than extensive, but more severe than slight in a portion of an organ, while in the remainder of the organ the conditions are slight, the remainder shall be passed without restriction and the other portion shall be cooked.

(e) When any or all of the conditions are extensive and involve less than ½ of the organ, while in the remainder of the organ the conditions are slight, the remainder shall be passed without restriction and the other portion shall be condemned.

(f) When any or all of the conditions are extensive and involve less than ½ of the organ, while in any or all of the remainder of the organ, the conditions are more severe than slight, yet less severe than extensive, all of the remainder shall be cooked and the extensively involved portion shall be condemned.

(g) The division of an organ into but 2 parts as contemplated in this subrule for disposition, shall be accomplished by one cut through the organ but incisions may be made when necessary for inspection.

(3) Livers and parts of livers which are required to be cooked shall be held and cooked in the establishment where produced. They shall be cooked sufficiently to impart a cooked appearance throughout the liver. After cooking, the liver may be released for any purpose.

History: 1954 ACS 46, p. 33, Eff. May 14, 1966.

R 285.148.434 Vesicular exanthema and vesicular stomatitis.

Rule 434. (1) Any carcass affected with vesicular exanthema or vesicular stomatitis shall be condemned if the condition is acute or if the extent of the condition is such that it affects the entire carcass or there is evidence of absorption or secondary change.

(2) Any carcass affected with vesicular exanthema or vesicular stomatitis to a lesser extent than in subrule (1) may be passed after removal and condemnation of affected parts, if the carcass is otherwise in good condition.

History: 1954 ACS 46, p. 34, Eff. May 14, 1966.

R 285.148.435 Anaplasmosis of cattle and calves.

Rule 435. (1) Carcasses of cattle and calves found on post-mortem inspection to be affected with anaplasmosis shall be condemned.

(2) Carcasses of cattle and calves which are classed as recovered cases of anaplasmosis evidenced by the absence of abnormal symptoms on ante-mortem inspection but which show slight yellow coloration of tissues on post-mortem examination shall be passed for food provided the yellow coloration disappears on chilling. Those carcasses which do not lose such yellow coloration on chilling shall be condemned.

History: 1954 ACS 46, p. 34, Eff. May 14, 1966.

R 285.148.436 Listerellosis.

Rule 436. Carcasses of animals marked "MDA suspect" because of a history of listerellosis shall be passed for food after condemnation of the head if the carcass is otherwise in good condition.

History: 1954 ACS 46, p. 34, Eff. May 14, 1966.

R 285.148.437 Leptospirosis.

Rule 437. (1) Carcasses of animals affected with leptospirosis shall be condemned.

(2) Carcasses of animals which have reacted to a test for leptospirosis and have been marked "MDA suspect" on ante-mortem inspection shall be passed for food when no evidence of the disease is found on post-mortem examination provided the carcasses are otherwise in good condition.

History: 1954 ACS 46, p. 34, Eff. May 14, 1966.

R 285.148.438 Animals slaughtered without ante-mortem inspection.

Rule 438. No carcass of an animal slaughtered in this state which has not had ante-mortem inspection by a department employee shall be brought into an official establishment, except as provided in R 285.148.004(3) and R 285.148.914.

History: 1954 ACS 46, p. 34, Eff. May 14, 1966.

PART 6. TANKING AND RENDERING

R 285.148.501 Tanks; equipment and space used for inedible products; separation from those used for edible products.

Rule 501. All tanks and equipment used for rendering, preparing, or storing inedible products shall be in rooms or compartments separate from those used for rendering, preparing, or storing edible products. There shall be no connection between rooms or compartments containing inedible products and those containing edible products, exept that there may be one connecting doorway between the slaughtering or viscera separating department and the tank charging room of the inedible products rendering department. Pipes and chutes installed in accordance with the requirements of the director may be used to convey inedible and condemned material from edible product departments to inedible product departments.

History: 1954 ACS 46, p. 34, Eff. May 14, 1966.

R 285.148.502 Suppression of odors in preparing inedible product.

Rule 502. Tanks, fertilizer driers, and other equipment used in the preparation of inedible product shall be properly equipped with condensers and other appliances which will acceptably suppress odors incident to the preparation.

History: 1954 ACS 46, p. 35, Eff. May 14, 1966.

R 285.148.503 Animals condemned on ante-mortem inspection.

Rule 503. In conveying to the inedible product tank carcasses of animals which have been condemned on ante-mortem inspection, they shall not be taken through rooms or compartments in which product is prepared, handled, or stored.

History: 1954 ACS 46, p. 35, Eff. May 14, 1966.

R 285.148.504 Dead-animal carcasses.

Rule 504. (1) With the exception of dead animals which have died en route and are received with animals for slaughter at an establishment, no dead animal may be brought on the premises of an establishment unless advance permission is obtained from the director.

(2) Under no circumstances shall the carcass of any animal which has died otherwise than by slaughter be brought into any room or compartment in which any product is prepared, handled, or stored.

History: 1954 ACS 46, p. 35, Eff. May 14, 1966.

R 285.148.505 Inedible fats from outside of establishments.

Rule 505. Inedible fats from outside the premises of an official establishment shall not be received except into the tank room provided for inedible products, and then only when their receipt into the tank room produces no insanitary condition on the premises, nor shall such fats be received in such volume as interferes with prompt disposal of inedible or condemned material produced at the establishment. When received, they shall not enter any room or compartment used for edible products.

History: 1954 ACS 46, p. 35, Eff. May 14, 1966.

R 285.148.506 Condemned carcasses and product; disposal by tanking; denaturing of product.

Rule 506. (1) Condemned carcasses and product at official establishments having facilities for tanking shall be disposed of by tanking as follows:

(a) The lower opening of the tank shall first be sealed securely by a department employee except when permanently connected with a blow line, then the condemned carcasses and product shall be placed in the tank in his presence, after which the upper opening shall also be sealed securely by such employee, who shall then see that the contents of the tank are subjected to sufficient heating for sufficient time to effectively destroy the contents for food purposes.

(b) The use of equipment such as crushers or hashers for pre-tanking preparation of condemned carcasses and product in the inedible products department has been found to give inedible character and appearance to the material. Accordingly, if condemned carcasses and product are so crushed or hashed, conveying systems, rendering tanks, and other equipment used in the further handling of the crushed or hashed material need not be locked or sealed during the tanking operation. If the rendering tanks or other equipment contain condemned material not so crushed or hashed, the equipment shall be sealed as prescribed in subdivision (a). If the crushed or hashed material is not rendered in the

establishment where produced it shall be denatured as provided for in R 285.148.508.

(2) The seals of tanks shall be broken only by a department employee after the contents of the tanks have been treated as provided in subrule (1). The rendered fat derived from condemned material shall be held until a department employee shall have had an opportunity to determine whether it conforms with the requirements of this section. Samples shall be taken by department employees as often as is necessary to determine whether the rendered fat is effectually denatured.

History: 1954 ACS 46, p. 35, Eff. May 14, 1968.

R 285.148.507 Inedible rendered fats.

Rule 507. Rendered animal fat derived from inedible or condemned materials and possessing the physical characteristics of color, odor, and taste of an edible product shall be denatured to effectually distinguish it from an edible product either with low grade offal during the rendering or by adding to, and mixing thoroughly with, such fat denaturing oil, number 2 fuel oil, or brucine dissolved in a mixture of alcohol and pine oil or oil of rosemary.

History: 1954 ACS 46, p. 36, Eff. May 14, 1968.

R 285.148.508 Condemned carcasses and product; disposal if no tanking facilities.

Rule 508. (1) Any carcass or product condemned at an official establishment which has no facilities for tanking shall be denatured with crude carbolic acid, cresylic disinfectant, or other prescribed agent, or be destroyed by incineration, under the supervision of a department employee. When such carcass or product is not incinerated, it shall be slashed freely with a knife before the denaturing agent is applied.

(2) Carcasses and products condemned on account of anthrax, and the materials identified in R 285.148.368 to R 285.148.372 which are derived therefrom at establishments which are not equipped with tanking facilities shall be disposed of by (a) complete incineration, or (b) by thorough denaturing with a prescribed denaturant, and then disposed of in accordance with the requirements of the state or municipal authorities, who shall be notified immediately by the inspector in charge.

History: 1954 ACS 46, p. 36, Eff. May 14, 1968.

R 285.148.509 Specimens for educational, research, and non-food purposes.

Rule 509. (1) Specimens of diseased, condemned, or inedible materials, including embryos and specimens of animal parasites, may be released for educational, research, or other non-food purposes under permit issued by the inspector in charge if the person desiring such specimens makes a written application to such inspector for such permit on an appropriate form and arranges with and receives permission from the official establishment to obtain the specimens. Permits shall be issued for a period not longer than 1 year. The permit may be revoked by the inspector in charge if the specimens are not used as stated in the application, or if the collection or handling of the specimens interferes with inspection or the maintenance of sanitary conditions in the establishment.

(2) The collection and handling of the specimens referred to in subrule (1) shall be at such time and place and in such a manner as not to interfere with the inspection or to cause any objectionable condition.

History: 1954 ACS 46, p. 36, Eff. May 14, 1968.

R 285.148.510 Livers condemned for certain conditions; disposal as fish feed.

Rule 510. (1) Livers condemned on account of fluke infestation may be forwarded as fish feed if they are first freely slashed, then denatured, and then frozen. The denaturing shall be accomplished by dipping the slashed livers in a hot solution composed of 1 part of FD&C green #3 or methyl violet to 5,000 parts of water, followed by washing in fresh water until the washings are no longer colored, or by the application of finely powdered charcoal. Freezing shall be preceded by chilling the livers to a temperature not above 40 degrees Fahrenheit. Livers packed in containers not more than 7 inches thick shall then be held for a period of not less than 10 days at a temperature not higher than 15 degrees Fahrenheit or for a period of not less than 5 days at a temperature not higher than 10 degrees Fahrenheit. Livers packed in containers over 7 inches but less than 27 inches thick shall be held not less than 20 days at a temperature not higher than 15 degrees Fahrenheit, or for not less than 10 days at a temperature not higher than 10 degrees Fahrenheit. In lieu of freezing, the livers may be thoroughly cooked and then slashed and denatured in the manner indicated above. Livers shall be sufficiently denatured through discoloration by the dye or charcoal to preclude their use as human food. Freezing may be accomplished in the regular freezer in a properly separated compartment or receptacle held under department lock.

(2) Livers condemned on account of hydatids or fringed tapeworms may not be forwarded as fish feed unless thoroughly cooked, slashed, and denatured as indicated in subrule (1).

(3) Livers condemned on account of parasites other than flukes, hydatids, or fringed tapeworms may be forwarded as fish feed without refrigeration or cooking after slashing and denaturing as indicated in subrule (1).

(4) Livers condemned for telangiectasis, angioma, "sawdust" condition, cirrhosis, or other nonmalignant change, benign abscesses, or contamination, when these conditions are not associated with infectious diseases in the carcasses, may be forwarded as fish feed without refrigeration or cooking if all tissue affected with abscesses is removed and destroyed within the establishment and if all livers are slashed and denatured as indicated in subrule (1).

(5) Livers treated in accordance with this rule shall be placed in containers plainly marked "fish feed—inedible" and may be removed from the establishment only under conditions prescribed by the director.

History: 1954 ACS 46, p. 36, Eff. May 14, 1966.

R 285.148.511 Carcasses passed for cooking; rendering.

Rule 511. Carcasses and parts passed for cooking may be rendered into lard or rendered pork fat or rendered into tallow, if the rendering is done in the following manner:

(a) When closed rendering equipment is used, the lower opening, except when permanently connected with a blow line, shall first be sealed securely by a department employee, then the carcasses or parts shall be placed in such equipment in his presence after which the upper opening will be securely sealed by such employee. When the product passed for cooking in the tank does not consist of a carcass or whole primal part, the requirements for sealing shall be at the discretion of the inspector in charge. Carcasses and parts shall be cooked for a time sufficient to render them effectually into lard, rendered pork fat, or tallow, if all parts of the product are heated to a temperature not lower than 170 degrees Fahrenheit for a period of not less than 30 minutes.

(b) Establishments not equipped with closed rendering equipment for rendering carcasses and parts passed for cooking into lard, rendered pork fat, and

tallow may render such carcasses or parts in open kettles under the direct supervision of a department employee. Rendering shall be done during regular hours of work and in compliance with the requirements as to temperature and time specified in subdivision (a).

History: 1954 ACS 46, p. 37, Eff. May 14, 1966.

R 285.148.512 Carcasses passed for cooking but not rendered; use for food after cooking.

Rule 512. (1) Carcasses and parts passed for cooking, except as specified in R 285.148.420 may be used for the preparation of such products as canned meat, sausage, cooked or boiled meat, meat loaves, and similar products, if all parts of such carcasses and parts which are so used are heated to a temperature not lower than 170 degrees Fahrenheit for a period of not less than 30 minutes, either before being used in or during the preparation of the finished product.

(2) When product passed for cooking is used as an ingredient of a meat food product as contemplated in subrule (1), at least 50% of the meat and meat byproduct ingredient shall consist of product passed for cooking. This requirement shall not apply when the product passed for cooking has been previously cooked as specified in subrule (1) before being used as an ingredient of a meat food product.

History: 1954 ACS 46, p. 37, Eff. May 14, 1966.

R 285.148.513 Product passed for cooking but not handled under R 285.148.511 or R 285.148.512.

Rule 513. Product passed for cooking if not handled and processed under the provisions of R 285.148.511 or R 285.148.512 shall be disposed of in accordance with R 285.148.506 to R 285.148.510.

History: 1954 ACS 46, p. 37, Eff. May 14, 1966.

PART 7. MARKING, BRANDING, AND IDENTIFYING

R 285.148.601 Abbreviations of marks of inspection.

Rule 601. The director may approve and authorize the use of abbreviations of marks of inspection under these rules. Abbreviations shall have the same force and effect as the respective marks for which they are authorized abbreviations.

History: 1954 ACS 46, p. 37, Eff. May 14, 1966.

R 285.148.602 Preparation of marking devices bearing inspection legend.

Rule 602. Except for the purpose of submitting a sample or samples of the same to the director for approval, no person shall procure, make, or prepare, or cause to be procured, made, or prepared, labels, brands, or other marking devices bearing the inspection legend or any abbreviations, copy or representation, for use on any product without the written authority of the director. However, when any sample label, brand, or other marking device is approved by the director, new supplies of such labels and new brands and other marking devices of a character exactly similar to such approved sample may be procured, made, or prepared, for use in accordance with these rules without further approval by the director.

History: 1954 ACS 46, p. 37, Eff. May 14, 1966.

R 285.148.603 Use of inspection legend prohibited except under supervision.

Rule 603. (1) No person shall affix or place, or cause to be affixed or placed, the inspection legend, or any abbreviation, copy, or representation thereof, to or

on any product, or container except under the supervision of a department employee.

(2) No person shall fill, or cause to be filled, in whole or in part, with any product, any container bearing or intended to bear, the inspection legend, or any abbreviation, copy, or representation thereof, except under the supervision of a department employee.

History: 1954 ACS 46, p. 37, Eff. May 14, 1966.

R 285.148.604 Marking devices; approval; form; control.

Rule 604. (1) Official establishments shall furnish such ink brands, burning brands, and like devices for marking products as the director of the department may require. The mark of inspection on such a device shall be in the following form, as a facsimile of 1 of the official brands, using the size best suited for the purpose intended:

(2) Every such brand and device which bears the inspection legend shall be delivered into the custody of the inspector in charge of the establishment, and shall be used only under the supervision of a department employee. When not in use for marking inspected and passed product, all brands and devices bearing the inspection legend shall be kept locked in properly equipped lockers or compartments, the keys of which shall not leave the possession of a department employee.

History: 1954 ACS 46, p. 38, Eff. May 14, 1966.

R 285.148.605 Unmarked articles not to be removed from establishments.

Rule 605. No person shall remove or cause to be removed from an official establishment any article which these rules require to be marked in any way unless the same is clearly and legibly marked in compliance with these rules.

History: 1954 ACS 46, p. 38, Eff. May 14, 1966.

R 285.148.606 Marks of inspection to be carefully applied.

Rule 606. All marks of inspection shall be carefully applied and securely affixed.

History: 1954 ACS 46, p. 38, Eff. May 14, 1966.

R 285.148.607 Branding ink; furnishing by establishment; approval; color.

Rule 607. (1) Official establishment shall furnish all ink for marking product. Such ink must be made with harmless ingredients that are approved for the

purpose by the department. Samples of ink shall be submitted to the meat inspection laboratory from time to time as may be deemed necessary by the inspector in charge.

(2) Only purple ink approved for the purpose shall be used to apply ink brands bearing the marks of inspection to carcasses and fresh meat cuts.

History: 1954 ACS 46, p. 39, Eff. May 14, 1966.

R 285.148.608 Control and use of brands and marking devices.

Rule 608. All brands and devices furnished by the establishment for marking articles with the inspection legend, including self-locking seals, shall be used only under the supervision of a department employee, and, when not in use for marking, shall be kept locked in properly equipped lockers or compartments, the keys of which shall not leave the possession of a department employee.

History: 1954 ACS 46, p. 39, Eff. May 14, 1966.

R 285.148.609 Brands and marking devices not to be false or misleading; lettering.

Rule 609. No brand or device shall be false or misleading. The letters and figures shall be of such style and type as will make a clear and legible impression.

History: 1954 ACS 46, p. 39, Eff. May 14, 1966.

R 285.148.610 Carcasses; parts and products; marking.

Rule 610. (1) Each carcass which has been inspected and passed in an official establishment shall be marked at the time of inspection with the inspection legend and with the number of the establishment.

(2) Except as provided otherwise in this subrule, each primal part of a carcass, the beef cod fat and beef kidney fat, and each liver, beef tongue, and beef heart which has been inspected and passed shall be marked with the inspection legend and the number of the establishment before it leaves the establishment in which it is first inspected and passed, and each inspected and passed product susceptible of being marked shall be marked with the inspection legend and the number of the establishment where it was last processed but if skinned bacon intended for slicing need not be so marked if packed in properly marked containers. Additional marks of inspection may be applied as desired to meet local conditions.

(3) Beef livers shall be marked with the inspection legend and the establishment number on the convex surface of the thickest portion of the organ.

(4) Burning brands shall be used to mark offal with the inspection legend.

History: 1954 ACS 46, p. 39, Eff. May 14, 1966.

R 285.148.611 Moving of primal parts between establishments.

Rule 611. Primal parts of carcasses which have been inspected and passed but do not bear the inspection legend may be transported from 1 official establishment to another official establishment, for further processing, in a car, truck, or other closed container, if the car, truck, or container be sealed with a department seal bearing the inspection legend in compliance with these rules.

History: 1954 ACS 46, p. 39, Eff. May 14, 1966.

R 285.148.612 Handling of products unmarkable with brand.

Rule 612. Any product of such character or so small that it cannot be marked with a brand, and which has been inspected and passed but does not bear the

inspection legend, may be removed from an official establishment for local or intrastate transportation in closed containers bearing the inspection legend and such other marks as are required by these rules, or in open containers bearing the inspection legend applied by means of a domestic meat label or trade label. When upon removal from such closed or open containers the product may not be further transported in intrastate commerce unless reinspected by a department employee and packed under his supervision in a container or containers bearing the inspection legend and such other marks as are required by these rules. Unmarked product shall not be brought into an official establishment in an open container, except that which is returned to the establishment, and this must be held separate from other product pending removal from the establishment.

History: 1954 ACS 46, p. 39, Eff. May 14, 1966.

R 285.148.613 Marking of shipping containers; MDA meat label.

Rule 613. (1) Except as provided in this part, when any inspected and passed product for commerce is moved from an official establishment, the shipping container shall bear an approved mark of inspection, an MDA meat label. MDA meat label shall be 2¾ x 4 inches in size and shall be in form and substance as illustrated herein except that the name and address of the establishment, or the name only, may be printed on the label, at the bottom.

MDA MEAT LABEL

The MDA meat label shall be printed with black ink on white paper of good quality, except that in the case of fiberboard shipping containers it may be printed directly on such containers in black ink on any color background, except green, which offers sufficient contrast so that it is prominently and informatively displayed.

(2) When any product prepared in an official establishment for commerce has been inspected and passed and is enclosed in a cloth wrapping, the MDA meat label may be omitted in those cases in which an inspection legend and establishment number on the articles themselves are clearly legible through the wrapping.

Plain unprinted wrappings such as stockinettes, cheese cloth, paper and crinkled paper bags for properly marked fresh meat, including carcasses and primal parts thereof which are used solely to protect the product against soiling or excessive drying during transportion or storage, need not bear the marks of inspection.

History: 1954 ACS 46, p. 40, Eff. May 14, 1966.

R 285.148.614 Tank cars and tank trucks of edible product.

Rule 614. Each tank car and each tank truck carrying inspected and passed product from an official establishment shall bear a label containing the true names of the product, the inspection legend, the establishment number, and the words, "date of loading," followed by a suitable space for the insertion of the date. The label shall be located conspicuously and shall be printed on material of such character and so affixed as to preclude detachment or effacement upon exposure to the weather. Before the car or truck is removed from the place where it is unloaded, the carrier shall remove or obliterate such label.

History: 1954 ACS 46, p. 40, Eff. May 14, 1966.

R 285.148.615 Treatment and working of inedible fat.

Rule 615. (1) Inedible grease, inedible tallow, or other inedible animal fat, or mixture containing such fat, having the physical characteristics of an edible product shall be denatured or otherwise destroyed for food purposes. Containers of such inedible grease, inedible tallow, or other inedible fat shall be marked conspicuously with the word "inedible." Such containers such as tierces, barrels, and half barrels shall have both ends painted white with durable paint, if necessary, to provide a contrasting background, and the word "inedible" marked thereon in letters not less than 2 inches high, while on tank cars the letters shall be not less than 4 inches high.

(2) Inspected rendered animal fat which for any reason it is desired to classify as inedible may be shipped if handled as provided in subrule (1) for inedible fat having the physical characteristics of an edible product.

(3) Uninspected non-exempt rendered animal fat, or mixtures containing such fat, having the physical characteristics of an edible product, may be shipped if handled as provided in subrule (1) for inedible fat having the physical characteristics of an edible product.

History: 1954 ACS 46, p. 40, Eff. May 14, 1966.

PART 10. MISCELLANEOUS

R 285.148.901 Inspection reports.

Rule 901. Reports of the work of inspection carried on in every official establishment shall be made by the resident department employee to the inspector in charge, and by the inspector in charge to the director or to the person designated by him. Reports will be accomplished on such forms and in such manner as may be specified by the director.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.902 Daily reports.

Rule 902. Department employees shall make daily reports of the amounts of articles handled or prepared in the subdivision of the establishments to which they are assigned and of such other things as the director or inspector in charge may require.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.903 Retention of records and information for reports.

Rule 903. Each official establishment shall maintain records for a minimum of 2 years and shall furnish to department employees accurate information as to all matters needed by them for making their reports pursuant to R 285.148.902.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.904 Reports on sanitation.

Rule 904. Reports on sanitation shall be made by the resident department employee to the inspector in charge, and by the inspector in charge to the director or to the person designated by him.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.905 Appeals from meat inspection actions.

Rule 905. Any appeal from a decision of an employee of the department shall be made to his immediate superior having jurisdiction over the subject matter of the appeal.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.906 Inspectors in charge; cooperation with other authorities.

Rule 906. Inspectors in charge shall confer with federal, state, municipal, and other local officials at their stations, and inform them of the services under the meat inspection law, what the department is accomplishing in that particular locality, and, in turn, ascertain what is being done by the local officials.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.907 Cooperative arrangements; approval by department.

Rule 907. If it be proposed to adopt a definite cooperative arrangement, the details shall be submitted to and approved by the director before it is put into effect.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.908 Horse slaughtering establishments; inspection.

Rule 908. Every establishment in Michigan, in which horses are slaughtered, for transportation or sale as articles of commerce, or in which carcasses, parts of carcasses, meat, or meat food products of, or derived from, horses are, wholly or in part, canned, cured, smoked, salted, packed, rendered, or otherwise prepared for transportation or sale as articles of commerce which are capable of being used as food for man, shall have inspection under the provisions of these rules.

History: 1954 ACS 46, p. 41, Eff. May 14, 1966.

R 285.148.909 Horse slaughter and preparation of meat; separate establishments.

Rule 909. The slaughter of horses and the preparation and handling of the meat and meat food products shall be conducted in establishments separate and apart from any establishment in which cattle, calves, sheep, lambs, swine, or goats are slaughtered, or the meat or meat food products thereof are prepared or handled.

History: 1954 ACS 46, p. 42, Eff. May 14, 1966.

R 285.148.910 Horses with certain conditions.

Rule 910. (1) All horses found upon either ante-mortem or post-mortem inspection or examination to be affected with strangles, purpura hemorrhagica, azoturia, infectious equine encephalomyelitis, toxic encephalomyelitis (forage poisoning), infectious anemia (swamp fever), dourine, acute influenza, general-

R 285.148.913 Horse meat and products; applicability of inspection rules.

Rule 913. All of the provisions of these rules, unless specifically inapplicable, are hereby made applicable to establishments required to have inspection under R 285.148.908, to such inspection service, and to the transportation within this state, of horse meat and horse meat food products, capable of being used as food for man.

History: 1954 ACS 46, p. 42, Eff. May 14, 1966.

R 285.148.914 Other large animals.

Rule 914. Establishments subject to these rules that slaughter or process other large domestic animals or wild game animals that may be used for human food shall do so at a time other than during their regular slaughtering or processing of cattle, calves, sheep, lambs, goats, swine, or horses and other solipeds with the permission of the inspector in charge of the establishment and subject to his requirements. These animals must be skinned before placed in the cooler.

History: 1954 ACS 46, p. 43, Eff. May 14, 1966.

REGULATION NO. 149. APPROVAL OF LOCAL MEAT INSPECTION PROGRAMS

(By authority conferred on the director of agriculture by section 2 of Act No. 280 of the Public Acts of 1965, being §287.572 of the Michigan Compiled Laws)

R 285.149.1 Applications.

Rule 1. (1) Local jurisdictions may apply in writing to the director of agriculture for approval of a local meat inspection program operated under a local ordinance.

(2) The application for approval shall be accompanied by a copy of the ordinance under which the local meat inspection program is promulgated, and such other information as shall be required by the director.

History: 1954 ACS 46, p. 43, Eff. May 14, 1966.

R 285.149.2 Local ordinances.

Rule 2. The requirements of the meat inspection program provided for by such local ordinance shall not be less than the requirements provided by the state meat inspection program.

History: 1954 ACS 46, p. 43, Eff. May 14, 1966.

R 285.149.3 Approval of local programs.

Rule 3. The decision of the director to approve or disapprove a local meat inspection program shall be final, except that if a local meat inspection program is approved initially by the director and the director subsequently finds that the program operated by the local jurisdiction is not carried on in conformity with the requirements of the state meat inspection program, the director may withdraw his approval of such program and cause the state meat inspection program to be initiated in lieu of the local program.

History: 1954 ACS 46, p. 43, Eff. May 14, 1966.

R 285.149.4 Bases for decisions.

Rule 4. The director shall be guided by the following considerations in making his decision to approve or disapprove a local program:

(a) That the local program complies with all the requirements of the state meat inspection program.

(b) The director may require that an audit be made of the local meat inspection program to determine the actual cost of ante-mortem and post-mortem inspections performed including administrative costs.

REGULATION NO. 150. DOGS AND CATS FOR RESEARCH

(By authority conferred on the director of agriculture by section 5 of Act No. 224 of the Public Acts of 1969, being §287.385 of the Michigan Compiled Laws)

PART 1. DEFINITIONS

R 285.150.1 Definitions; A to E.

Rule 1. (1) The definitions in the act are applicable to these rules.

(2) "Act" means Act No. 224 of the Public Acts of 1969, being §§287.381 to 287.395 of the Michigan Compiled Laws.

(3) "Ambient temperature" means the temperature surrounding an animal.

(4) "Dealer" does not include a common carrier transporting dogs and cats for sale to a research facility.

(5) "Division" means the animal health division of the department of agriculture.

(6) "Division representative" means an inspector of the division.

(7) "Euthanasia" means the humane destruction of an animal accomplished by a method involving instantaneous unconsciousness and immediate death or by a method involving anesthesia produced by an agent which causes painless loss of consciousness and death during such loss of consciousness.

History: 1954 ACS 67, p. 10, Eff. Mar. 8, 1971.

R 285.150.3 Definitions; G to P.

Rule 3. (1) "Good moral character" means not having been convicted of a crime other than a minor traffic violation.

(2) "Housing facility" means a room, building, or area used to contain a primary enclosure or enclosures.

(3) "Incompetence" means a demonstrated incapability of a person to understand the requirements of these rules by failure or refusal to conform to such requirements for the care and handling of dogs and cats.

(4) "Licensee" means a person licensed as a dealer pursuant to the act.

(5) "Nonconditioned dogs or cats" means dogs or cats which have not been subjected to special care and treatment for sufficient time to stabilize and, where necessary, to improve their health to make them suitable for research purposes.

(6) "Primary enclosure" means a structure used to immediately restrict 1 or more animals to a limited amount of space, such as a room, pen, run, cage, or compartment.

History: 1954 ACS 67, p. 10, Eff. Mar. 8, 1971.

R 285.150.5 Definitions; R to U.

Rule 5. (1) "Registrant" means a research facility registered pursuant to the act and these rules.

(2) "Sanitize" means to make physically clean and to remove and destroy to a practical minimum agents injurious to health.

(3) "Standards" means the requirements with respect to the humane handling, care, treatment, and transportation of animals by dealers and research facilities as set forth in these rules.

(4) "State veterinarian" means the chief of the division.

(5) "Untrustworthiness" means that a licensee has failed to meet the requirements for humane care and handling of dogs and cats as set forth herein after having signed the acknowledgement of standards or fails to correct any condition within a reasonable time mutually agreed upon by the director or his representative and the licensee after the need for such correction has been brought to the attention of the licensee in writing.

History: 1954 ACS 67, p. 11, Eff. Mar. 8, 1971.

PART 2. LICENSING, REGISTRATION, ANIMAL TAGS, AND RECORDS

R 285.150.21 Dealers' licenses; applications.

Rule 21. (1) A person operating or desiring to operate as a dealer shall apply for a license on a form furnished upon request by the state veterinarian's office. The completed application form shall be filed with the state veterinarian's office.

(2) A copy of the applicable standards will be supplied with each application for a license and the applicant shall acknowledge receipt of the standards and agree to comply with them by signing a form provided for by the division. The form shall be filed with the application for a license.

(3) An applicant shall demonstrate that his facilities comply with the standards required by these rules. The applicant shall make his facilities available at times mutually agreeable to the applicant and the division for inspection by a division representative for the purpose of ascertaining compliance with the standards. If the applicant's facilities do not comply with the standards, the applicant will be advised of deficiencies and the corrective measures that shall be taken before the facilities will be in compliance with the standards.

History: 1954 ACS 67, p. 11, Eff. Mar. 8, 1971.

R 285.150.22 Notice of changes; effect of suspension or revocation.

Rule 22. (1) A licensee shall notify the state veterinarian promptly of any change in name, address, management, or substantial control or ownership of his business or operation.

(2) A person who has been or is an officer, agent, or employee of a licensee whose license has been suspended or revoked and who was responsible for or participated in the violation upon which the order of suspension or revocation was based, shall not be licensed during the period in which the order of suspension or revocation is in effect.

(3) A person whose license has been suspended or revoked shall not again be licensed in his own name or in any other manner during the period in which the order of suspension or revocation is in effect and a partnership, firm, or corporation in which such a person has a substantial financial interest shall not be licensed during such period.

History: 1954 ACS 67, p. 11, Eff. Mar. 8, 1971.

R 285.150.23 Research facilities registration.

Rule 23. (1) A research facility shall register by completing and filing a properly executed form furnished upon request by the state veterinarian. The registration form shall be filed in the office of the state veterinarian. If a school or department of a university or college uses or intends to use dogs or cats for research, tests, or experiments, the university or the college is considered the research facility and shall register. If a school or department is a separate legal entity and its operation and administration are independent of those of the university or college, upon a proper showing thereof to the director, the school or department shall be registered rather than the university or college. A subsidiary

of a business corporation rather than the parent corporation shall be registered as a research facility unless the subsidiary is under such direct control of the parent corporation that to effectuate the purposes of the act the director determines that it is necessary that the parent corporation be registered.

(2) A copy of the applicable standards shall be supplied with each registration form and the registrant shall acknowledge their receipt and agree to comply with them by signing a form provided by the division. The form shall be filed in the office of the state veterinarian.

(3) A registrant shall notify the state veterinarian promptly of any change in his name or address or any change in his operation which would affect his status as a research facility.

History: 1954 ACS 67, p. 11, Eff. Mar. 8, 1971.

R 285.150.24 Official tags for dogs and cats.

Rule 24. (1) Except as otherwise provided in this rule, when a dealer purchases or otherwise acquires a dog or cat, he shall affix immediately to the animal's neck an official tag of a type approved by the director by means of a collar made of material generally considered acceptable to pet owners as a means of identifying their pet dogs or cats. An official tag need not be affixed to any dog or cat identified by means of a distinctive and legible tattoo marking acceptable to the director, but if such dog or cat is already identified with an official tag affixed by a previous dealer the purchasing dealer shall not remove the previously attached tag but shall treat it as if he had affixed it himself. Official tags shall be affixed in as near consecutive numerical order as possible. A tag shall not be used to identify more than 1 animal.

(2) When a dealer has been unable, after a reasonable effort, to affix an official tag to an adult cat as set forth in subrule (1) or when the cat exhibits extreme distress from the attachment of a collar and tag, the dealer shall attach the collar and tag to the door of the primary enclosure containing the cat and take proper measures to maintain the identity of the cat in relation to the tag.

(3) An unweaned puppy or kitten need not be individually identified as required in subrule (1) while it is maintained as part of a litter with its dam if she has been so identified.

(4) The official tag shall be made of a durable alloy, such as bronze, brass, or steel, or of a durable plastic. The tag shall be circular in shape and not less than 1¼ inches in diameter. A tag shall be embossed or stamped with "Mich." to identify this state and a number to identify the dealer and a number to identify the animal as set forth in figure 1. The tag shall be serially numbered and a duplication of numbers by any 1 dealer is not permissible within a period of 3 years.

FIGURE 1

(5) A dealer may obtain at his own expense official tags from a commercial tag manufacturer. When a dealer is issued a license by the director, he will be assigned a dealer identification number to be used on his official tags.

(6) If a dealer is required to be licensed under the federal laboratory animal welfare act, Public Law 89-544, dated August 24, 1966, the use of the official tag prescribed for use by dealers under the federal act is in compliance with these rules for purposes of identification of dogs and cats.

(7) A dealer shall account for all official tags that he acquires. If an official tag is lost from the neck of a dog or cat while in possession of a dealer, a diligent effort shall be made to locate and reapply the tag to the proper animal. If the lost tag is not located, the dealer shall affix another official tag to the animal as prescribed in subrule (1).

(8) When a dog or cat wearing or identified by an official tag arrives at a research facility, the tag shall be removed and retained by the research facility. However, in the discretion of the research facility the tag may be used to continue the identification of such dog or cat.

(9) If a dealer or research facility finds it necessary to dispose humanely of a dog or cat to which is affixed or which is identified by an official tag or upon the death of such a dog or cat from other causes, the dealer or research facility shall remove and retain the tag.

(10) An official tag removed and retained by a dealer or research facility shall be held until called for by a division representative or for a period not to exceed 1 year, whichever is sooner.

History: 1954 ACS 67, p. 12, Eff. Mar. 8, 1971.

R 285.150.25 Dealers' records.

Rule 25. (1) For each dog and cat purchased or otherwise acquired, held, transported, sold, or otherwise disposed of, a dealer shall keep and maintain the following information on the form supplied and in the manner prescribed by the division:

(a) Name and address of the person from whom the animal was acquired and the person to whom it was sold or otherwise disposed of and his license number if licensed as a dealer.

(b) Date of acquisition.

(c) Description and identification of the animal, including the official affixed tag number or tattoo number.

(d) When a dog or cat is sold by a dealer, the method of transportation of the animal, the name of the common carrier, the license number or other identification of the means of conveyance, and the name and address of the driver of the means of conveyance.

(e) Date, nature, and method of disposition; for example, sale, death, euthanasia, or donation.

(2) A dealer shall maintain such records for 2 years and they shall be made available to the director or his representative when deemed necessary by the director.

History: 1954 ACS 67, p. 13, Eff. Mar. 8, 1971.

R 285.150.26 Research facilities' records.

Rule 26. (1) For each dog and cat purchased or otherwise acquired, a research facility shall keep and maintain the following information in the manner prescribed by the division:

(a) Name and address of the person from whom the animal was purchased or acquired and his license number if licensed as a dealer.

(b) Date of acquisition.

(c) Description and identification of the animal, including the official tag number or tattoo number as affixed and any identification number or letter assigned to the animal by the research facility.

(2) For each dog and cat transported, sold, or otherwise disposed of by a research facility to another person, the research facility shall keep and maintain the following information in the manner prescribed by the division:

(a) Name and address of the person to whom the animal is transported, sold, or otherwise disposed of.

(b) Date of sale or other disposition.

(c) Method of transportation.

(d) Name of the common carrier or the identification of the means of conveyance and the name and address of the driver of the means of conveyance.

(3) A research facility shall maintain its records for 2 years and they shall be made available to the director or his representative when deemed necessary by the director.

History: 1954 ACS 67, p. 13, Eff. Mar. 8, 1971.

R 285.150.27 Retention of records upon notice from director.

Rule 27. When the director notifies a dealer or research facility in writing that specified records shall be retained pending completion of an investigation or proceeding under the act, the dealer or research facility shall hold the records until the director authorizes their disposition.

History: 1954 ACS 67, p. 13, Eff. Mar. 8, 1971.

R 285.150.28 Information; examination of records; inspection of premises.

Rule 28. (1) A dealer or research facility shall furnish to division representatives information concerning the business of the dealer or research facility which may be requested by them in connection with the enforcement of the act and these rules within such reasonable time as specified in the request for information.

(2) A dealer or research facility, upon request during ordinary business hours, shall permit division representatives to enter his place of business, to examine his records required to be kept by the act and these rules, to make copies of such records and to inspect such property and animals as such representatives consider necessary to enforce the provisions of the act and these rules. A room, table, or other facility necessary for the proper examination of such records and inspection of such property or animals shall be furnished to the authorized representatives by the dealer or research facility, his agents, and employees.

(3) A dealer or research facility, upon request during ordinary business hours, shall permit police or law officers of legally constituted law enforcement agencies with general law enforcement authority to enter the place of business of the dealer or research facility to inspect animals and records for the purpose of seeking a missing animal. The police or law officers shall furnish to the dealer or research facility a written description of the missing animal and the name and address of its owner. The police or law officers shall abide by all security measures required by the dealer or research facility to prevent the spread of disease, including the use of sterile clothing, footwear, and masks. The inspection shall not extend to animals undergoing actual research or experimentation, as determined by the research facility.

History: 1954 ACS 67, p. 14, Eff. Mar. 8, 1971.

R 285.150.29 Compliance with standards and holding periods.

Rule 29. (1) A dealer or research facility shall comply with all standards set forth in parts 3, 4, and 5 for humane handling, care, treatment, and transportation of animals.

(2) When a dealer determines that dogs and cats acquired by him are suffering from disease, emaciation, or injury, he may cause such animals to be destroyed by euthanasia prior to expiration of the 5-day holding period prescribed in the act. If the dealer obtains prior approval of the state veterinarian he may arrange to have another person hold such animals for him for the 5-day period. The other person shall agree in writing to comply with standards in parts 3, 4, and 5 and to allow inspection by division representative of his premises. The dogs and cats shall remain under control of the dealer.

History: 1954 ACS 67, p. 14, Eff. Mar. 8, 1971.

PART 3. FACILITIES AND OPERATIONS

R 285.150.31 Condition and utilities.

Rule 31. (1) A housing facility for dogs or cats shall be structurally sound and be maintained in good repair to protect the animals from injury, to contain the animals, and to restrict the entrance of other animals.

(2) Reliable and adequate electric power shall be available when required to comply with other provisions of these rules.

(3) Adequate potable water shall be available.

History: 1954 ACS 67, p. 14, Eff. Mar. 8, 1971.

R 285.150.32 Sanitation.

Rule 32. (1) Supplies of food and bedding shall be stored in facilities which adequately protect them against infestation or contamination by vermin. Refrigeration shall be provided for supplies of perishable food.

(2) Provisions shall be made for the removal and disposal of animal and food wastes, bedding, dead animals, and debris. Disposal facilities shall be so provided and operated as to minimize vermin infestation, odors and disease hazards.

(3) Washrooms, basins, or sinks shall be provided to maintain cleanliness of the animal caretakers.

(4) The interior building surfaces of an indoor housing facility shall be constructed and maintained so that they are substantially impervious to moisture and may be readily sanitized.

(5) A suitable method shall be provided to eliminate rapidly excess water from an indoor housing facility. Drains when used shall be properly constructed and kept in good repair to avoid foul odors therefrom. Closed drainage systems when used shall be equipped with traps and so installed as to prevent any backup of sewerage on the floor of the room.

History: 1954 ACS 67, p. 14, Eff. Mar. 8, 1971.

R 285.150.33 Heating, ventilating, and lighting of indoor facilities.

Rule 33. (1) An indoor housing facility for dogs and cats shall be sufficiently heated when necessary to protect the dogs or cats from cold and to provide for their health and comfort. The ambient temperature shall not be allowed to fall below 50 degrees Fahrenheit for dogs and cats not acclimated to lower temperatures.

(2) An indoor housing facility for dogs or cats shall be adequately ventilated to provide for the health and comfort of the animals at all times. The facility shall be

provided with fresh air either by means of windows, doors, vents, or air conditioning and shall be ventilated so as to minimize drafts, odors, and moisture condensation. Auxiliary ventilation such as exhaust fans and vents or air conditioning shall be provided when the ambient temperature is 85 degrees Fahrenheit or higher.

(3) An indoor housing facility for dogs or cats shall have ample light of good quality by natural or artificial means or both. The lighting shall provide uniformly distributed illumination of sufficient light intensity to permit routine inspection and cleaning during the entire working period. Primary enclosures shall be so placed as to protect the dogs or cats from excessive illumination.

History: 1954 ACS 67, p. 15, Eff. Mar. 8, 1971.

R 285.150.34 Shelter provided by outdoor facilities.

Rule 34. (1) When sunlight is likely to cause overheating or discomfort, sufficient shade shall be provided to allow dogs and cats kept out of doors to protect themselves from the direct rays of the sun.

(2) An access to shelter shall be provided for dogs and cats kept out of doors to allow them to remain dry during rain or snow.

(3) Shelter shall be provided for dogs and cats kept out of doors when the atmospheric temperature falls below 50 degrees Fahrenheit. Sufficient clean bedding material or other means of protection from the weather elements shall be provided when the ambient temperature falls below that temperature to which the dog or cat is acclimated.

History: 1954 ACS 67, p. 15, Eff. Mar. 8, 1971.

R 285.150.35 Drainage of outdoor facilities.

Rule 35. A suitable method shall be provided to rapidly eliminate excess water from the area where dogs and cats are kept in an outdoor facility.

History: 1954 ACS 67, p. 15, Eff. Mar. 8, 1971.

R 285.150.36 Primary enclosures.

Rule 36. (1) A primary enclosure shall be structurally sound and maintained in good repair to protect the dogs and cats from injury, to contain them and to keep predators out and shall be constructed and maintained so as to enable the dogs and cats to remain dry and clean.

(2) A primary enclosure shall be constructed and maintained so as to provide sufficient space to allow each dog and cat to turn about freely and to easily stand, sit, and lie in a comfortable normal position.

(3) A primary enclosure shall be constructed and maintained so that dogs and cats kept therein have convenient access to clean food and water.

(4) The floors of a primary enclosure shall be constructed so as to protect the dogs' and cats' feet and legs from injury.

History: 1954 ACS 67, p. 15, Eff. Mar. 8, 1971.

R 285.150.37 Dog space and capacity.

Rule 37. (1) A dog housed in a primary enclosure shall be provided a minimum square footage of floor space equal to the mathematical square of the sum of the length of the dog in inches as measured from the tip of its nose to the base of its tail plus 6 inches expressed in square feet.

(2) Not more than 12 adult nonconditioned dogs shall be housed in the same primary enclosure.

History: 1954 ACS 67, p. 15, Eff. Mar. 8, 1971.

R 285.150.38 Dog houses with chains.

Rule 38. If dog houses with chains are used as primary enclosures for dogs kept out of doors, the chains shall be so placed or attached that they cannot become entangled with the chains of other dogs, or any other objects. A chain shall be of a type commonly used for the size dog involved and shall be attached to the dog by a well-fitted collar. A chain shall be at least 3 times the length of the dog measured from the tip of its nose to the base of its tail and shall allow the dog convenient access to the dog house.

History: 1954 ACS 67, p. 15, Eff. Mar. 8, 1971.

R 285.150.39 Cats; special provisions.

Rule 39. (1) In an enclosure having a solid floor, a receptacle containing sufficient clean litter shall be provided to contain excreta where cats are housed.

(2) A primary enclosure for cats shall be provided with a solid resting surface or surfaces which, in the aggregate, shall be of adequate size to comfortably hold all occupants of the primary enclosure at the same time. Such resting surface or surfaces shall be elevated in primary enclosures housing 2 or more cats.

(3) An adult cat kept in a primary enclosure shall be provided a minimum of 2½ square feet of floor space.

(4) Not more than 12 adult nonconditioned cats shall be kept in the same primary enclosure.

History: 1954 ACS 67, p. 16, Eff. Mar. 8, 1971.

PART 4. ANIMAL HEALTH AND HUSBANDRY

R 285.150.41 Feeding.

Rule 41. (1) Dogs and cats shall be fed at least once each day except as otherwise required to provide adequate veterinary care. The food shall be free from contamination and shall be wholesome, palatable, and of sufficient quantity and nutritive value to meet the normal daily requirements for condition and size of the animal.

(2) Food receptacles shall be accessible to all dogs or cats and shall be located to minimize contamination by excreta. Feeding pans shall be durable and kept clean. Food receptacles shall be sanitized at least once every 2 weeks. Disposable food receptacles may be used but shall be discarded after each feeding. Self-feeders may be used for the feeding of dry food and shall be sanitized regularly to prevent molding, deterioration, or caking of feed.

History: 1954 ACS 67, p. 16, Eff. Mar. 8, 1971.

R 285.150.42 Watering.

Rule 42. If potable water is not accessible to the dogs and cats at all times, potable liquids shall be offered to them at least twice daily for periods of not less than 1 hour except as otherwise required to provide adequate veterinary care. Watering receptacles shall be kept clean and shall be sanitized at least once every 2 weeks.

History: 1954 ACS 67, p. 16, Eff. Mar. 8, 1971.

R 285.150.43 Cleaning of primary enclosures.

Rule 43. Excreta shall be removed from a primary enclosure as often as necessary to prevent contamination of the dogs or cats kept therein and to reduce disease hazards and odors. When a hosing or flushing method is used for cleaning a primary enclosure, commonly known as a cage, any dog contained therein shall

be removed from the enclosure during the cleaning process and adequate measures shall be taken to protect the animals in other such enclosures from being contaminated with water and other wastes.

History: 1954 ACS 67, p. 16, Eff. Mar. 8, 1971.

R 285.150.44 Sanitization.

Rule 44. (1) Prior to introduction of nonconditioned dogs or cats into an empty primary enclosure previously occupied, the enclosure shall be sanitized as provided in subrule (3).

(2) A primary enclosure for dogs or cats shall be sanitized often enough to prevent an accumulation of debris or excreta or a disease hazard, but not less than once every 2 weeks as provided in subrule (3).

(3) Cages, rooms, and hard surfaced pens or runs shall be sanitized by washing them with hot water at 180 degrees Fahrenheit and soap or detergent as in a mechanical cage washer or by washing all solid surfaces with a detergent solution followed by a safe and efficient disinfectant or by cleaning all solid surfaces with live steam. Pens or runs using gravel, sand, or dirt shall be sanitized by removing the solid gravel, sand, or dirt and replacing it as necessary.

History: 1954 ACS 67, p. 16, Eff. Mar. 8, 1971.

R 285.150.45 Housekeeping.

Rule 45. (1) All buildings and grounds included in the premises shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in these rules. The premises shall remain free of an accumulation of trash.

(2) An effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained.

History: 1954 ACS 67, p. 16, Eff. Mar. 8, 1971.

R 285.150.46 Employees.

Rule 46. A sufficient number of employees shall be used to maintain the prescribed level of husbandry practices set forth in these rules. Such practices shall be under the supervision of an animal caretaker who has a background in animal husbandry or care.

History: 1954 ACS 67, p. 17, Eff. Mar. 8, 1971.

R 285.150.47 Compatible animal groups.

Rule 47. (1) Animals housed in the same primary enclosure shall be maintained in compatible groups.

(2) Females in estrus shall not be housed in the same primary enclosure with males except for breeding purposes.

(3) A dog or cat exhibiting a vicious disposition shall be housed individually in a primary enclosure.

(4) Puppies and kittens shall not be housed in the same primary enclosure with adult dogs or cats other than their dams except when permanently maintained in breeding colonies.

(5) Dogs shall not be housed in the same primary enclosure with cats, nor shall dogs or cats be housed in the same primary enclosure with any other species of animals.

(6) Dogs or cats under quarantine or treatment for a communicable disease shall be separated from other dogs or cats and other susceptible species of animals in such a manner as to minimize dissemination of such disease.

History: 1954 ACS 67, p. 17, Eff. Mar. 8, 1971.

R 285.150.48 Veterinary care.

Rule 48. Programs of disease control and prevention, euthanasia, and adequate veterinary care shall be established and maintained under the supervision and assistance of a doctor of veterinary medicine.

History: 1954 ACS 67, p. 17, Eff. Mar. 8, 1971.

R 285.150.49 Daily observation.

Rule 49. Each dog and cat shall be observed daily by the animal caretaker in charge or by someone under his direct supervision. Sick, diseased, injured, lame, or blind dogs or cats shall be provided with veterinary care or humanely disposed of unless such action is inconsistent with the research purposes for which the animal was obtained and is being kept. This rule does not interfere with compliance with a law or ordinance requiring the holding of animals for a specified period when suspected of being infected with a disease.

History: 1954 ACS 67, p. 17, Eff. Mar. 8, 1971.

R 285.150.50 Confiscation and destruction of animals.

Rule 50. If an animal held by a dealer, or an animal held by a research facility which is no longer required by the facility to carry out the research test or experiment for which it has been used, is found by a division representative to be suffering as a result of failure of the dealer or research facility to comply with any provision of the act or these rules, the division representative shall notify the dealer or research facility of the condition of the animal and request that the condition be corrected and that adequate veterinary care be given when necessary to alleviate the animal's suffering or request that it be destroyed by euthanasia. If the dealer or research facility refuses to comply with the request, the division representative, on order of the director, may confiscate and destroy the animal by euthanasia, if the director determines that the circumstances warrant such action.

History: 1954 ACS 67, p. 17, Eff. Mar. 8, 1971.

PART 5. TRANSPORTATION

R 285.150.51 Vehicles.

Rule 51. (1) A vehicle used in transporting dogs or cats shall be mechanically sound and equipped to provide fresh air to all animals being transported without injurious drafts.

(2) The animal cargo space shall be so constructed and maintained as to prevent the entry of exhaust gases from the vehicle's engine.

(3) The interior of the animal cargo space shall be kept clean.

History: 1954 ACS 67, p. 17, Eff. Mar. 8, 1971.

R 285.150.52 Structure and ventilation of primary enclosures.

Rule 52. A primary enclosure, such as a compartment, transport cage, carton, or crate, used to transport dogs or cats shall be well constructed, and well ventilated and designed to protect the health and insure the safety of the animals. The enclosure shall be constructed or positioned in the vehicle so that the animals in the vehicle have access to sufficient air for normal breathing and the openings of such enclosures are easily accessible at all times for emergency removal of the animals.

History: 1954 ACS 67, p. 18, Eff. Mar. 8, 1971.

R 285.150.53 Protection from elements and temperature.

Rule 53. Animals transported in a primary enclosure shall be afforded adequate protection from the elements. The temperature within the enclosure shall not be allowed to exceed the atmospheric temperature. However, the ambient temperature shall not be allowed to exceed 95 degrees Fahrenheit at any time or to exceed 85 degrees Fahrenheit for a period of more than 4 hours nor be allowed at any time to fall below 45 degrees Fahrenheit unless the animals are acclimated to lower temperatures.

History: 1954 ACS 67, p. 18, Eff. Mar. 8, 1971.

R 285.150.54 Compatible animal groups.

Rule 54. Animals transported in the same primary enclosure shall be of the same species and maintained in compatible groups. Puppies or kittens shall not be transported in the same primary enclosure with adult dogs or cats other than their dams. A dog or cat exhibiting a vicious disposition shall be transported individually in a primary enclosure. A female dog or cat in season or estrus shall not be transported in the same primary enclosure with a male.

History: 1954 ACS 67, p. 18, Eff. Mar. 8, 1971.

R 285.150.55 Space and loading.

Rule 55. (1) A primary enclosure used to transport dogs or cats shall be large enough to insure that each animal kept therein has sufficient space to turn about freely, to stand erect, and to lie in a natural position.

(2) An animal shall not be placed in a primary enclosure over other animals in transit unless the enclosure is fitted with a floor of a material which prevents animal excreta from entering a lower enclosure.

History: 1954 ACS 67, p. 18, Eff. Mar. 8, 1971.

R 285.150.56 Cleaning between shipments.

Rule 56. A primary enclosure used to transport dogs or cats shall be cleaned and sanitized between shipments. Litter in the vehicle shall be cleaned at the beginning of each trip.

History: 1954 ACS 67, p. 18, Eff. Mar. 8, 1971.

R 285.150.57 Stopping, watering, and feeding.

Rule 57. (1) If dogs or cats are transported for a period of more than 12 hours, the vehicle shall stop at least once every 12 hours and remain stopped for a period of at least 1 hour, during which time potable water shall be continuously provided for the dogs and cats.

(2) An adult dog and cat shall be fed at least once in each 24-hour period. Puppies and kittens shall have food made available to them every 6 hours.

(3) A dog shall be removed from the vehicle and given fresh water and an opportunity for exercise if it has been confined in the vehicle for a period of 36 hours.

History: 1954 ACS 67, p. 18, Eff. Mar. 8, 1971.

R 285.150.58 Inspection and veterinary care.

Rule 58. The attendant or driver shall inspect the animals frequently to determine whether they need emergency veterinary care and if so he shall obtain such care at the earliest opportunity.

History: 1954 ACS 67, p. 18, Eff. Mar. 8, 1971.

REGULATION NO. 151. PET SHOPS, DOG POUNDS, AND ANIMAL SHELTERS

(By authority conferred on the director of agriculture by section 2 of Act No. 287 of the Public Acts of 1969, being §287.332 of the Michigan Compiled Laws)

PART 1. DEFINITIONS AND SCOPE

R 285.151.1 Definitions.

Rule 1. In addition to the definitions in Act No. 287 of the Public Acts of 1969, as used in these rules:

(a) "Act" means Act No. 287 of the Public Acts of 1969, being §287.331 et seq. of the Michigan Compiled Laws.

(b) "Ambient temperature" means the temperature surrounding an animal.

(c) "Department" means the department of agriculture.

(d) "Director" means the director of the department or his authorized representative.

(e) "Euthanasia" means the humane destruction of an animal accomplished by a method involving instantaneous unconsciousness and immediate death, or by a method involving anesthesia produced by an agent which causes painless loss of consciousness and death during such loss of consciousness.

(f) "Housing facility" means a room, building, or area used to contain a primary enclosure or enclosures.

(g) "Incompetence" means the demonstrated incapability of a person to understand the requirements of these rules by failure or refusal to conform to such requirements for the care and handling of dogs and cats.

(h) "Licensee" means a person, corporation, or company licensed as a pet shop pursuant to the act.

(i) "Primary enclosure" means a structure used to immediately restrict 1 or more animals to a limited amount of space, such as a room, pen, run, cage, or compartment.

(j) "Registrant" means a dog pound or animal shelter registered pursuant to the act and these rules.

(k) "Sanitize" means to make physically clean and to remove and destroy to a practical minimum agents injurious to health.

(l) "Standards" means the requirements with respect to the humane handling, care, treatment, and transportation of animals by the licensee and registrant.

History: 1954 ACS 67, p. 19, Eff. Mar. 8, 1971.

R 285.151.2 Scope.

Rule 2. The department may confer with the owner or operator of any pet shop, dog pound, or animal shelter which is licensed under the act at any time necessary in the administration of the act or these rules.

History: 1954 ACS 67, p. 19, Eff. Mar. 8, 1971.

PART 2. LICENSING, REGISTRATION, ANIMAL TAGS, AND RECORDS

R 285.151.11 Pet shop licenses.

Rule 11. (1) A person operating or desiring to operate a pet shop shall apply for a license on a form furnished upon request by the department. The completed application form shall be filed with the department. The license is not transferable.

(2) A copy of the applicable standards shall be furnished with each application for license and the applicant shall acknowledge receipt of the standards and agree to comply with them by signing a form provided for such purpose. The form shall be filed with the application for license.

(3) An applicant shall demonstrate that his facilities comply with the standards required in these rules. If the applicant's facilities do not comply with the standards, the applicant shall be advised in writing of deficiencies and the corrective measures that shall be taken before facilities will be in compliance with the standards. After January 1, 1971, if the applicant has an existing business and his facilities do not comply with the standards and the applicant has been duly notified as to the corrective measures necessary to comply with the standards, the director may issue a temporary permit to operate such facility for a period of time, to be agreed upon in writing by both parties for the purpose of bringing the facility into compliance. All rules of sanitation shall be complied with as set forth in these rules.

(4) A licensee shall notify the department promptly of any change in name, address, management, or substantial control or ownership of his business or operation.

(5) A person who has been an officer, agent, or employee of the licensee whose license has been suspended or revoked, and who was responsible for, or participated in, the violation upon which the order of suspension or revocation was based, will not be licensed during the period in which the order of suspension or revocation is in effect.

(6) A person whose license has been suspended or revoked shall not again be licensed in his own name or in any other manner during the period in which the order of suspension or revocation is in effect and a partnership, firm, or corporation in which such a person has a substantial financial interest shall not be licensed during such period.

History: 1954 ACS 67, p. 19, Eff. Mar. 8, 1971.

R 285.151.12 Dog pound and animal shelter registrations.

Rule 12. (1) A dog pound or animal shelter shall register with the department by completing and filing a properly executed form furnished by the department upon request. The registration form shall be filed with the department.

(2) A copy of the standards set forth in these rules shall be furnished with each registration form and the registrant shall acknowledge his receipt and agree to comply with them by signing a form provided by the department. The form shall be signed by the chairman of the board of commissioners, city manager, or mayor in the case of a dog pound or by the president of the animal welfare society in the case of an animal shelter.

(3) A registrant shall demonstrate that his facilities comply with the standards required in these rules. If the registrant's facilities do not comply with the standards, the registrant will be advised in writing of deficiencies and the corrective measures that shall be taken before the facilities are in compliance with the standards. After January 1, 1971, if the registrant and his existing facilities do not comply with the standards and the registrant has been duly notified as to the corrective measures necessary to comply with the standards, the director may issue a temporary permit to operate such facility for a period of time, to be agreed upon in writing by both parties for the purpose of bringing the facility into compliance. All rules of sanitation shall be complied with as set forth in these rules.

History: 1954 ACS 67, p. 20, Eff. Mar. 8, 1971.

R 285.151.13 Pet shop, dog pound, and animal shelter records.

Rule 13. (1) For each dog and cat purchased or otherwise acquired, held, transported, sold, or otherwise disposed of, the management shall keep and maintain the following information in a manner prescribed by the department:

(a) Name and address of the person from whom the animal was acquired and the name and address of the person to whom it was sold or otherwise disposed of.

(b) Date of acquisition.

(c) Description and identification of the animal, including the breed, sex, color, and approximate weight.

(d) Date, nature, and method of disposition; for example, sale, death, euthanasia, or donation.

(2) A pet shop, dog pound, or animal shelter shall maintain such records for 2 years, and they shall be made available to the director or his authorized representative when deemed necessary by the director.

History: 1954 ACS 67, p. 20, Eff. Mar. 8, 1971.

PART 3. FACILITIES AND OPERATIONS

R 285.151.21 Facilities.

Rule 21. (1) A housing facility for dogs or cats shall be structurally sound and maintained in good repair to protect the animals from injury, to contain the animals, and to restrict the entrance of other animals.

(2) Adequate potable water shall be available.

History: 1954 ACS 67, p. 20, Eff. Mar. 8, 1971.

R 285.151.22 Sanitation.

Rule 22. (1) Supplies of food and bedding shall be stored in facilities which adequately protect them against infestation or contamination by vermin. Refrigeration shall be provided for supplies of perishable food.

(2) Provisions shall be made for the removal and disposal of animal and food wastes, bedding, dead animals, and debris. Disposal facilities shall be so provided and operated as to minimize vermin infestation, odors, and disease hazards.

(3) Washrooms, basins, or sinks shall be provided to maintain cleanliness of the animal caretakers.

(4) The interior building surfaces of an indoor housing facility shall be constructed of a nonabsorbent material that may be readily sanitized.

(5) A suitable method shall be provided to eliminate excess water from an indoor housing facility. Drains shall be properly constructed and kept in good repair to avoid foul odors therefrom. Closed drainage systems shall be equipped with traps and so installed as to prevent any backup on the floor of the room.

History: 1954 ACS 67, p. 21, Eff. Mar. 8, 1971.

R 285.151.23 Heating, ventilating, and lighting of indoor facilities.

Rule 23. (1) An indoor housing facility for dogs and cats shall be sufficiently heated to protect the dogs and cats from cold and to provide for their health and comfort. The ambient temperature shall not be allowed to fall below 50 degrees Fahrenheit for dogs and cats.

(2) An indoor housing facility for dogs and cats shall be adequately ventilated to provide for the health and comfort of the animals at all times. The facility shall be provided with fresh air, either by means of windows, doors, vents, or air conditioning, and shall be ventilated so as to minimize drafts, odors, and moisture condensation.

(3) An indoor housing facility for dogs and cats shall have ample light of good quality by natural or artificial means or both. The lighting shall provide uniformly distributed illumination of sufficient intensity to permit routine inspection and

cleaning during the entire working period. Primary enclosures shall be so placed as to protect the dogs or cats from excessive illumination.

History: 1954 ACS 67, p. 21, Eff. Mar. 8, 1971.

R 285.151.24 Shelter provided by outdoor facilities.

Rule 24. (1) When sunlight is likely to cause overheating or discomfort, sufficient shade shall be provided to allow dogs and cats to protect themselves from the direct rays of the sun.

(2) An access to shelter shall be provided for dogs and cats to allow them to remain dry during rain or snow.

(3) Outside shelters shall be located in an area which has suitable drainage.

History: 1954 ACS 67, p. 21, Eff. Mar. 8, 1971.

R 285.151.25 Primary enclosures.

Rule 25. (1) A primary enclosure shall be structurally sound and maintained in good repair to protect the dogs and cats from injury, to contain them, to keep predators out and enable dogs and cats to remain dry and clean.

(2) A primary enclosure shall provide sufficient space to allow each dog and cat to turn about freely and to easily stand, sit and lie in a comfortable normal position. Where the primary enclosure is used for more than 1 animal, a resting perch for each cat shall be provided.

(3) A primary enclosure shall be constructed and maintained so that dogs and cats kept therein have convenient access to clean food and water.

(4) The floors of a primary enclosure shall be constructed so as to protect the feet and legs of the dogs and cats from injury.

(5) Adequate litter shall be provided for cats.

(6) The number of dogs or cats in a primary enclosure shall not exceed a number which would prevent proper ventilation and sanitation.

(7) Female animals in estrus shall not be housed in the same primary enclosure as male animals.

History: 1954 ACS 67, p. 21, Eff. Mar. 8, 1971.

R 285.151.26 Dog houses with chains.

Rule 26. (1) If dog houses with chains are used as primary enclosures for dogs kept out of doors, the chains shall be so placed or attached that they cannot become entangled with the chains of other dogs, or any other objects. A chain shall be of a type commonly used for the size dog involved and shall be attached to the dog by a well-fitted collar. A chain shall be of such length as to allow exercise and convenient access to the dog house.

(2) Outdoor facilities shall be fenced around the perimeter so that animals cannot escape or other animals gain entrance.

History: 1954 ACS 67, p. 21, Eff. Mar. 8, 1971.

PART 4. ANIMAL HEALTH AND HUSBANDRY

R 285.151.31 Feeding and water.

Rule 31. (1) Dogs and cats shall be fed at least once each day except as otherwise required. The food shall be free from contamination and shall be wholesome, palatable, and of sufficient quantity and nutritive value to meet the normal daily requirements for condition and size of the animal.

(2) Food receptacles shall be accessible to all dogs and cats and shall be located to minimize contamination by excreta. Feeding pans shall be durable and kept

clean. Disposable food receptacles may be used but shall be discarded after each feeding. Self-feeders may be used for the feeding of dry food and shall be sanitized regularly to prevent molding, deterioration, or caking of food.

(3) If potable water is not accessible to the dogs and cats at all times, potable liquids shall be offered to them at least twice daily for periods of not less than 1 hour except as otherwise required. Watering receptacles shall be kept clean.

History: 1954 ACS 67, p. 22, Eff. Mar. 8, 1971.

R 285.151.32 Cleaning of primary enclosures.

Rule 32. Excreta shall be removed from a primary enclosure as often as necessary to prevent contamination of the dogs or cats kept therein and to reduce disease hazards and odors. When a hosing or flushing method is used for cleaning a primary enclosure, any dog contained therein shall be removed during the cleaning process and adequate measures shall be taken to protect the animals in other enclosures from being contaminated with water and other wastes.

History: 1954 ACS 67, p. 22, Eff. Mar. 8, 1971.

R 285.151.33 Housekeeping.

Rule 33. (1) A primary enclosure for dogs and cats shall be sanitized often enough to prevent an accumulation of debris or excreta or a disease hazard.

(2) All buildings and grounds included in the premises shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in these rules. The premises shall remain free of an accumulation of debris.

(3) An effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained.

History: 1954 ACS 67, p. 22, Eff. Mar. 8, 1971.

R 285.151.34 Compatible animal groups.

Rule 34. (1) Animals housed in the same primary enclosure shall be maintained in compatible groups.

(2) A dog or cat exhibiting a vicious disposition shall be housed individually in a primary enclosure.

(3) Puppies and kittens shall not be housed in the same primary enclosure with adult dogs and cats other than their dams.

(4) No 2 species of animals shall be housed in the same primary enclosure.

(5) Dogs and cats exhibiting symptoms of communicable disease shall be separated from all other susceptible species of animals in such a manner as to prevent spread of such disease.

History: 1954 ACS 67, p. 22, Eff. Mar. 8, 1971.

R 285.151.35 Employees.

Rule 35. A sufficient number of employees shall be used to maintain the prescribed level of husbandry practices set forth in these rules.

History: 1954 ACS 67, p. 22, Eff. Mar. 8, 1971.

R 285.151.36 Veterinary services.

Rule 36. (1) The services of a licensed veterinarian shall be available, and his name shall appear on the application for license or registration. The director shall be promptly notified of any change of veterinary service.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(2) The licensee or registrant shall seek the services of this veterinarian whenever a health hazard arises.

History: 1954 ACS 67, p. 22, Eff. Mar. 8, 1971.

R 285.151.37 Confiscation and destruction of animals.

Rule 37. If an animal held by a dog pound, animal shelter, or pet shop is found by the director to be suffering as a result of failure to provide proper food and water or inhumane treatment by the management of the dog pound, animal shelter, or pet shop, the director may order the animal confiscated or destroyed in a humane manner, if he determines the circumstances warrant such action.

History: 1954 ACS 67, p. 23, Eff. Mar. 8, 1971.

PART 5. TRANSPORTATION

R 285.151.41 Vehicles.

Rule 41. (1) A vehicle used in transporting dogs and cats shall be mechanically sound and equipped to provide fresh air to all animals being transported without injurious drafts or undue exposure to the elements.

(2) The interior of the animal cargo space shall be kept clean.

(3) The vehicle shall not be overcrowded to the extent that it will cause injury to the animals being transported.

(4) Animals transported in the same primary enclosure shall be of the same species and maintained in compatible groups.

(5) Puppies or kittens shall not be transported with adult dogs or cats other than their dams.

(6) A dog or cat exhibiting a vicious disposition shall be transported individually.

(7) A female dog or cat in season or estrus shall not be transported in the same primary enclosure with a male.

History: 1954 ACS 67, p. 23, Eff. Mar. 8, 1971.

REGULATION NO. 152. FEEDLOTS

(By authority conferred on the department of agriculture and the director of the department by section 21a of Act No. 181 of the Public Acts of 1919, as amended, being §287.21a of the Michigan Compiled Laws)

R 285.152.1 Definitions.

Rule 1. (1) "Approved feedlot" means a confined area or enclosure approved by the department and maintained exclusively for the feeding of cattle over 18 months of age under permit as prescribed in section 21a of Act No. 181 of the Public Acts of 1919, as amended, being §287.21a of the Michigan Compiled Laws.

(2) "Department" means the department of agriculture.

(3) "Permit" means the authority to establish an approved feedlot.

(4) "Person" means an individual, partnership, association, or corporation.

History: 1954 ACS 71, p. 18, Eff. May 2, 1972.

R 285.152.2 Permits.

Rule 2. (1) An application for an approved feedlot shall be made in writing to the department and shall contain a description of the premises by county, township, and section number.

(2) A feedlot will not be approved until it has been inspected by the department and found to meet the requirements of Act No. 181 of the Public Acts

Digitized by Google

of 1919, as amended, being §§287.2 to 287.24 of the Michigan Compiled Laws, and these rules.

(3) A permit continues in effect until terminated by either party by 15 days' written notice.

History: 1954 ACS 71, p. 18, Eff. May 2, 1972.

R 285.152.3 Buildings and fences.

Rule 3. (1) A building on an approved feedlot shall not have an opening or a connection with another building that would permit contact with other livestock.

(2) If cattle are kept on adjoining premises, the feedlot shall be enclosed by a solid fence such as stone, cement, wood, metal, or other suitable material, at least 5 feet high, or by 2 parallel fences, 1 of which shall be 47 inches high of woven wire with 6-inch stay wires and a barbed wire 6 inches above the woven wire. The second fence shall be at least 6 feet outside the woven wire and may be constructed of 4 strands of barbed wire or wire cable uniformly spaced, or an enclosure approved by the department. The fence shall be adequate to prevent contact or commingling of feeder cattle with other livestock. The fence shall be maintained in good repair at all times.

History: 1954 ACS 71, p. 18, Eff. May 2, 1972.

R 285.152.4 Sanitation and drainage.

Rule 4. (1) An approved feedlot shall be maintained in a reasonably sanitary condition free from accumulation of manure or waste materials. Other livestock shall not have access to manure or other waste materials removed from the feedlot.

(2) Drainage from a feedlot shall not be permitted to flow into pastures, streams, lakes, other bodies of water, or areas to which other livestock have access.

History: 1954 ACS 71, p. 18, Eff. May 2, 1972.

R 285.152.5 Animals permitted on feedlots.

Rule 5. (1) A feedlot shall be maintained exclusively for the feeding of cattle quarantined to the premises. Offspring of feeding cattle shall be under quarantine the same as the parent cattle and be identified the same as the parent cattle.

(2) A feedlot shall not contain dairy or breeding cattle on the same premises.

History: 1954 ACS 71, p. 18, Eff. May 2, 1972.

R 285.152.6 Identification of animals.

Rule 6. Cattle maintained in an approved feedlot shall be identified with a red plastic tag with consecutive numbers on the top and the word "feeder" on the bottom and a notch in the lower part of the right ear. Identification shall be made before cattle are commingled with other feeder cattle in the approved feedlot.

History: 1954 ACS 71, p. 18, Eff. May 2, 1972.

R 285.152.7 Period of confinement of animals.

Rule 7. An animal shall not stay in an approved feedlot for more than 6 months.

History: 1954 ACS 71, p. 19, Eff. May 2, 1972.

R 285.152.8 Sale of cattle.

Rule 8. (1) Cattle from an approved feedlot shall be sold for slaughter or to another feedlot.

(2) Cattle from a feedlot may be sold through a livestock auction when sold for slaughter only.

(3) Cattle from a feedlot may be sold to another approved feedlot under special permit approved and issued by the department.

History: 1954 ACS 71, p. 19, Eff. May 2, 1972.

R 285.152.9 Death of animals.

Rule 9. If an animal dies in an approved feedlot, the operator shall remove the ear which contains the tag number and keep it refrigerated until the lot is inspected by the department and the death of the animal is verified.

History: 1954 ACS 71, p. 19, Eff. May 2, 1972.

R 285.152.10 Records.

Rule 10. An operator of an approved feedlot shall keep records for 2 years which shall contain:

(a) The tag number of each animal and the dates it was purchased and sold.

(b) The name and address of the person from whom the animal was purchased.

(c) The name and address of the person to whom the animal was sold.

History: 1954 ACS 71, p. 19, Eff. May 2, 1972.

REGULATION NO. 154. RIDING STABLES AND SALES BARNS

(By authority conferred on the director of agriculture by section 2 of Act No. 93 of the Public Acts of 1974, being §287.112 of the Michigan Compiled Laws)

R 285.154.1 Definitions.

Rule 1. (1) The terms defined in the act have the same meanings when used in these rules.

(2) "Act" means Act No. 93 of the Public Acts of 1974, being §287.111 et seq. of the Michigan Compiled Laws.

(3) "Director" means the director of the department of agriculture or his authorized representative.

(4) "Facility" means a riding stable or a sales barn, or both.

(5) "Licensee" means a person, firm, or corporation licensed as a riding stable or sales barn.

(6) "Standards" means the requirements as set forth in the act and these rules.

History: 1954 ACS 87, p. 11, Eff. May 25, 1976.

R 285.154.2 Scope.

Rule 2. Except as limited by section 5 of the act, the department may confer with the owner or operator of a riding stable or sales barn at any time to further the administration of the act or these rules.

History: 1954 ACS 87, p. 11, Eff. May 25, 1976.

R 285.154.3 Licensing.

Rule 3. (1) A person, firm, or corporation operating, or desiring to operate, a riding stable or sales barn shall apply for a license on an application form secured from the department. The completed application shall be filed with the department.

(2) A copy of these rules shall be attached to each application for a license. The applicant shall acknowledge receipt of the rules and agree to comply with them by signing a form provided for that purpose. The signed form shall accompany the application for a license.

(3) Before a license is issued, an applicant shall demonstrate that his facility complies with the standards set forth in these rules. If the applicant's facility does not comply with the standards, the applicant shall be advised in writing of the deficiencies which exist and the corrective measures which shall be completed before a license is issued. When an existing facility does not comply with the standards, the director may issue a temporary permit to operate the facility for a specified period of time. This period of time shall not exceed 90 days for the facility to be brought into compliance with the standards. While operating under a temporary permit, the rules of sanitation and humane treatment of the animals set forth in these rules shall be complied with.

(4) A licensee shall notify the department promptly of changes in name, address, management, or substantial control of ownership of his business or operation.

(5) A person whose license has been suspended or revoked shall not be licensed in any manner during the period in which the order of suspension or revocation is in effect. A partnership, firm, or corporation in which such a person has a substantial financial interest shall not be licensed during that period. A person who has been an officer, agent, or employee of the licensee whose license has been revoked, and who was responsible for, or participated in, the violation upon which the order of suspension or revocation was based, shall not be licensed during the period in which the order of suspension or revocation is in effect.

History: 1954 ACS 87, p. 11, Eff. May 25, 1976.

R 285.154.4 Records.

Rule 4. Records shall be maintained pursuant to section 5 of the act.

History: 1954 ACS 87, p. 11, Eff. May 25, 1976.

R 285.154.5 Shelter; box stalls and pens; slip stall or tie areas.

Rule 5. (1) A facility shall provide a shelter or barn which is large enough to comfortably accommodate all animals during inclement weather. This shelter shall be structurally sound and maintained in good repair to protect an animal from injury. The construction of the shelter shall provide for proper drainage so that the floor can be maintained in a dry condition.

(2) Box stalls and pens shall be of adequate size and height to allow animals to move about in a normal manner and to lie down comfortably.

(3) Slip stalls or tie areas shall provide adequate room for an animal to stand normally and to lie down comfortably.

History: 1954 ACS 87, p. 11, Eff. May 25, 1976.

R 285.154.6 Tack.

Rule 6. (1) Equipment shall be kept in satisfactory repair and condition so that it will not cause undue stress, pain, or injury when used on the animals.

(2) Tack shall be kept clean to prevent the spread of disease or ectoparasites.

(3) The storage area for tack shall be kept clean and be so constructed that it can be maintained properly. Debris shall not be allowed to accumulate in this area.

History: 1954 ACS 87, p. 12, Eff. May 25, 1976.

R 285.154.7 Sanitation.

Rule 7. (1) An effective program for the control of insects, ectoparasites, and vermin shall be established and maintained.

(2) Provision shall be made for the removal and proper disposal of animal wastes and debris. Dead animals shall be immediately removed and properly disposed of.

(3) The floor of the shelter or barn shall be kept dry, clean, and bedded to provide comfort to the animals.

(4) Buildings housing animals shall be properly ventilated to prevent the harmful accumulation of ammonia and condensation of moisture.

(5) Manure piles shall not be allowed to accumulate to the point where they create an insect or vermin problem.

(6) A sales barn shall be completely cleaned of manure and debris between each sales day. An approved method of disinfection shall be conducted between each sales day.

(7) Buildings and grounds included in the premises shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in these rules. The premises shall remain free of accumulated debris.

History: 1954 ACS 87, p. 12, Eff. May 25, 1976.

R 285.154.8 Animals to be kept in compatible groups.

Rule 8. (1) Animals shall be kept in compatible groups so that undue injury is not inflicted upon animals by other animals. Animals shall not be kept from their share of feed and water by boss or dominant animals.

(2) Stallions shall be confined in enclosures which are structurally sound so that the animal is kept separate from other animals under all conditions except for breeding and riding purposes at which times the stallion shall be under the control of the handler or rider.

History: 1954 ACS 87, p. 12, Eff. May 25, 1976.

R 285.154.9 Employees.

Rule 9. A sufficient number of employees shall be used to maintain the prescribed level of husbandry practices set forth in these rules.

History: 1954 ACS 87, p. 12, Eff. May 25, 1976.

R 285.154.10 Feed and water.

Rule 10. (1) An animal shall be supplied daily with feed of sufficient quantity and nutritive value to meet the normal maintenance requirements for that animal. When animals are kept in groups, care shall be taken to provide adequate space and accessibility so that each animal receives his share of the feed and is not deprived of that share by boss or dominant animals.

(2) An animal shall be provided with an adequate amount of clean water daily. A watering receptacle shall be so constructed that an animal can drink freely. The receptacle shall be maintained in a sanitary condition.

(3) A feed receptacle shall be easily accessible for an animal. A feed receptacle shall be maintained in a sanitary condition and in good repair to prevent injury to animals. Grain shall be fed only in a feed receptacle.

History: 1954 ACS 87, p. 12, Eff. May 25, 1976.

R 285.154.11 Exercise.

Rule 11. An animal shall be provided adequate exercise daily.

History: 1954 ACS 87, p. 12, Eff. May 25, 1976.

R 285.154.12 Disease or injury.

Rule 12. (1) Approved practices of disease control shall be followed. An animal, exhibiting symptoms, or known to be a carrier of a communicable disease, shall be separated from susceptible animals in an approved manner so as to prevent the spread of the disease.

(2) An animal that has an injury, disease, or other infirmity shall not be ridden or driven if doing so could cause it undue pain, suffering, or discomfort.

(3) Proper medical attention shall be given to an animal suffering from injury or disease.

(4) An animal suffering from a terminal condition shall be humanely destroyed by accepted methods.

History: 1954 ACS 87, p. 13, Eff. May 25, 1976.

R 285.154.13 Veterinary service.

Rule 13. The services of a licensed veterinarian shall be available to the licensee and the name of the veterinarian shall appear on the application for license.

History: 1954 ACS 87, p. 13, Eff. May 25, 1976.

REGULATION NO. 156. DISPOSITION OF ANIMALS EXPOSED TO BRUCELLOSIS

(By authority conferred on the department of agriculture by section 6 of Act No. 181 of the Public Acts of 1919 and section 2 of Act No. 13 of the Public Acts of 1921, being §§287.6 and 285.2 of the Michigan Compiled Laws)

R 285.156.1 Branding and disposition of exposed animals.

Rule 1. An exposed animal in a brucellosis-infected and quarantined herd shall be branded on the left jaw with the letter "S" before a permit is issued to dispose of the animal for slaughter.

History: 1954 ACS 91, p. 28, Eff. May 11, 1977.

CHEMICAL LABORATORIES DIVISION

REGULATION NO. 200. COMMERCIAL FERTILIZERS

R 285.200 Rescinded.

History: 1944 AC, p. 28; 1954 AC, p. 1516; 1954 ACS 2, p. 7, Eff. May 13, 1955; 1954 ACS 42, p. 16, Eff. May 15, 1965; rescinded 1954 ACS 87, p. 14, Eff. May 5, 1976.

REGULATION NO. 201. COMMERCIAL FEEDING STUFFS

R 285.201 Rescinded.

History: 1944 AC, p. 29; 1954 AC, p. 1518; rescinded 1954 ACS 23, p. 6, Eff. Aug. 12, 1960.

REGULATION NO. 202. FRESH FRUITS AND VEGETABLES CONTAINING POISONOUS SPRAY RESIDUE

(By authority of Act No. 137 of the Public Acts of 1935, being §286.341 et seq. of the Michigan Compiled Laws)

R 285.202.1 Transportation and handling of fresh fruits and vegetables containing excessive quantities of poisonous spray residue; offering or exposing for sale.

Rule 1. (1) No person, firm, or corporation, by themselves or their agents or servants shall, within this state, have in their possession with intent to sell, or offer or expose for sale, or sell any article of food which is adulterated or misbranded.

(2) The transportation, handling, offering, or exposing for sale or selling fruit or vegetables containing added excessive quantities of dangerous poisonous spray residue constitutes adulteration, and violators are subject to the penalties of the laws governing.

(3) The maximum tolerances for lead and arsenic that may be present as spray residue on fruit and vegetables offered for sale or sold in Michigan are declared to be the latest tolerances allowed therefor by the secretary of agriculture of the United States which are as follows: .050 grains of lead per pound of fruit and .025 grains of arsenic, (expressed as arsenic trioxide), per pound of fruit.

History: 1944 AC, p. 32; 1954 AC, p. 1521.

REGULATION NO. 203. DEFINITIONS

(By authority of Act No. 134 of the Public Acts of 1929, as amended, being §287.141 et seq. of the Michigan Compiled Laws)

R 285.203.1 "Internally" defined.

Rule 1. The term "internally" is understood and declared to mean the introduction, naturally or artificially, of any livestock or poultry remedy as defined by Act No. 134 of the Public Acts of 1929, as amended, by or through natural openings in the anatomy of any animal other than man or by inhalation, injection, transfusion, or application to the mucosa.

History: 1944 ACS 22, p. 5; 1954 AC, p. 1521.

MARKETING DIVISION

REGULATION NO. 301. GENERAL MARKETING PROGRAM

(By authority conferred on the director of the department of agriculture by section 18 of Act No. 232 of the Public Acts of 1965, being §290.668 of the Michigan Compiled Laws)

R 285.301.1 Definitions.

Rule 1. As used in these rules:

(a) Words and phrases have the same meanings as given them in the act.

(b) "Act" means Act No. 232 of the Public Acts of 1965, as amended, being §290.651 et seq. of the Michigan Compiled Laws.

(c) "Certificate of privilege" means a written notification issued by a marketing program committee suspending, altering, or exempting any person or area from the marketing program.

(d) "Commodity" means an agricultural commodity as defined in the act.

(e) "Container" means a box, bag, crate, hamper, basket, package, or other receptacle used in packaging, transporting, sale, shipment, or other handling of a commodity.

(f) "District" means a geographic division of a production area as provided in a marketing program.

(g) "Grading" and "preparation for market" means the sorting or separation of a commodity into grades, sizes, and packs for market purposes.

(h) "Pack" means a quantity of a commodity specified by weight, grade, size, numerical count, or type or condition of container, or any combination of these, recommended by a marketing program committee and approved by the director.

(i) "Processing" means the alteration, change, or modification of a commodity so that it loses its original form or appearance.

(j) "Retailer" means a person who purchases or acquires a commodity for resale at retail to the general public, and who does not engage in the business of a distributor.

History: 1954 ACS 50, p. 13, Eff. May 15, 1967.

R 285.301.2 Purposes.

Rule 2. The purpose of this general marketing program is to furnish general provisions which with necessary adaptations shall be incorporated into any specific marketing program which comes into existence under the act. A program for any commodity, including these general provisions, is developed for the purpose of improving the economic position of Michigan commodity producers by providing better marketing methods for their products. This shall be accomplished by improving the quality, demand, available market information and marketing methods, and by enhancing markets for Michigan products.

History: 1954 ACS 50, p. 14, Eff. May 15, 1967.

R 285.301.3 Scope.

Rule 3. (1) This general marketing program applies only to commodities for which producers have petitioned the director in accordance with subsection (a) of section 10 of the act.

(2) A commodity produced for sale under the act shall be cut, gathered, or otherwise harvested for commercial purposes in accordance with the rules established hereunder, and the specific marketing program for that commodity. A commodity produced in Michigan for sale shall not be handled or distributed in the primary channel of trade except as provided in these rules.

(3) A handler, distributor, processor, or producer of a commodity under the act shall market it in accordance with the specific marketing program for that commodity and the rules established hereunder.

History: 1954 ACS 50, p. 14, Eff. May 15, 1967.

R 285.301.11 Commodity committee; establishment and terms of office.

Rule 11. (1) When a marketing program has been approved in referendum for a commodity, a Michigan commodity committee shall be established to perform the function of administering the marketing program approved for that commodity. The committee shall consist of an odd number of members of not less than 5 nor more than 15. The director or his representative shall serve as an ex-officio member without vote. Additional ex-officio members, without vote, may serve if provided for in a specific marketing program.

(2) The term of office of a committee member shall be as provided in a specific marketing program. A committee member shall not serve continuously for more than 3 consecutive terms.

History: 1954 ACS 50, p. 14, Eff. May 15, 1967.

R 285.301.12 Commodity committee districts.

Rule 12. (1) To provide a system for selecting committee members on an equitable and representative basis, districts of the commodity production area shall be established in a marketing program. When, in the opinion of the director, production and marketing practices of a commodity make it impractical to establish geographic divisions of the state as districts, the members of the commodity committee may be designated on other than a geographic basis and the basis for the selection of commodity committeemen shall be included in the

proposed program at the time of the hearing and shall be part of the program voted upon in the referendum.

(2) If provided in the program, a committee may recommend for approval by the director the reestablishment of districts within the commodity production area or the reapportionment of members among districts. In recommending the change, the committee shall give consideration to:

(a) Shifts in commodity acreage or production within the districts and within the production area during recent years.

(b) The importance of new production in its relation to existing districts.

(c) The equitable relationship of committee membership and districts.

(d) Economies to result for producers from promoting efficient administration.

(e) Other relevant factors.

(3) A recommendation for redistricting or reapportionment of members shall be made not less than 6 months prior to the date on which the terms of office of affected committeemen begin. A change in districting or in reapportionment of members for any year shall become effective not less than 30 days prior to the date on which the terms of office of affected committeemen begin.

History: 1954 ACS 50, p. 14, Eff. May 15, 1967; 1954 ACS 54, p. 32, Eff. May 15, 1968.

R 285.301.13 Nomination and appointment of members.

Rule 13. (1) The governor shall appoint the members of a committee from districts and from persons nominated as provided in a specific marketing program.

(2) If nominations are not made as provided in this rule, the governor may appoint the committee members on the basis of representation provided for in the marketing program.

History: 1954 ACS 50, p. 15, Eff. May 15, 1967.

R 285.301.14 Qualification and vacancies.

Rule 14. (1) A person appointed as a committee member shall qualify by filing a written acceptance and oath of office within 10 days after being notified of his appointment.

(2) To fill the unexpired term of a committee member whose office is vacant, the governor shall appoint a member from unselected nominees on the current nominee list from the district involved, or from additional nominations made as provided in R 285.301.13 when requested by the governor and such additional nominations shall be made within 30 days after such request.

(3) A committee member whose term of office has expired may serve until his successor is appointed.

History: 1954 ACS 50, p. 15, Eff. May 15, 1967.

R 285.301.15 Disqualification of members.

Rule 15. Disqualification of a committee member may be made for any of the following reasons:

(a) He ceases to be a producer or handler.

(b) Executive disqualification by the governor on recommendation of the committee and the director when a member's conduct is deemed prejudicial to the industry and the commodity marketing program. The member against whom charges are made shall have a proper hearing before the committee, with the assistance of counsel if he desires.

History: 1954 ACS 50, p. 15, Eff. May 15, 1967.

R 285.301.16 Method of action; records and reports.

Rule 16. A committee may act by telephone, telegraph, or other means of communication and a vote by such a method shall be promptly confirmed by the member in writing. The committee shall keep minutes, books, and records which clearly reflect all its acts and transactions. The minutes, books, and records are subject to examination at any time by the director or his authorized agent or representative. Minutes of a committee meeting shall be reported promptly to the director. At the end of a marketing season, the committee shall furnish to the director a statistical and historical annual report of its operations.

History: 1954 ACS 50, p. 15, Eff. May 15, 1967.

R 285.301.17 Compensation, expenses, and fiscal year.

Rule 17. (1) Committee members when acting on authorized committee business shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their functions under the marketing program. In addition, they may receive compensation at a rate to be determined by the committee, not to exceed $20.00 for each day, or portion of a day, spent in performing committee business.

(2) A committee may incur reasonable expenses for its maintenance and functioning, and for the purposes that the director, pursuant to the program, deems appropriate.

(3) The fiscal year of a committee shall begin and end on an annual basis, the dates of which shall be established by the committee with approval of the director.

History: 1954 ACS 50, p. 15, Eff. May 15, 1967.

R 285.301.21 Responsibilities of committee.

Rule 21. A committee has the responsibility to:

(a) Develop administrative procedures of the marketing program in accordance with its terms and provisions.

(b) Receive, investigate, and report to the director complaints of a violation of the provisions of the marketing program.

(c) Recommend to the director amendments to the marketing program.

History: 1954 ACS 50, p. 15, Eff. May 15, 1967.

R 285.301.22 Duties of committee.

Rule 22. A committee shall:

(a) As soon as practicable after the appointment of members for full terms of office, meet and organize, select a chairman and other officers deemed necessary, select subcommittees of committee members, and adopt rules and regulations deemed advisable for the conduct of its business.

(b) Appoint employees, agents, and representatives deemed necessary and determine their salaries and define their duties and protect the handling of committee funds.

(c) Furnish the director such available information as he may request.

(d) Prepare a marketing policy within the scope of the program.

(e) Act as intermediary between the director and any producer or handler.

(f) Recommend to the director rules and regulations to effectuate the terms and provisions of the marketing program.

(g) Recommend to the director rules and procedures for issuance of certificates of privilege, and make determinations in connection with issuance of certificates of privilege if provided for in the program.

(h) Establish appeal procedure when a certificate of privilege is denied.

(i) Cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at other times deemed necessary by the committee or as the director may request. The audit report shall show the receipt and expenditure of funds handled during the fiscal period. A copy of each report shall be made available at the principal office of the committee for inspection by producers and handlers, and a copy of each report shall be furnished to the director.

(j) Publish annually a written activity and financial report and make it available to interested parties.

History: 1954 ACS 50, p. 16, Eff. May 15, 1967.

R 285.301.23 Budgets and assessments.

Rule 23. (1) As soon as practicable after the beginning of each fiscal period and when necessary thereafter, a committee shall prepare an estimated budget of income and expenditures necessary for the administration and operation of the marketing program. The committee shall recommend a rate of assessment not in excess of that rate specified in the program, calculated to provide adequate funds to defray its proposed expenditures. The committee shall present the budget to the director with an accompanying report showing the basis for its calculations.

(2) Assessments for a fiscal period shall be fixed at rates sufficient to cover committee expenses during the period and to accumulate and maintain reserve funds. Rates may be established upon the basis of a committee's recommendations and other available information. Rates may be applied to specified production units used in the production areas as defined in the program.

(3) The director shall, upon recommendation of the committee, direct the handlers or distributors of the commodity as to the collection and remittance of the producer assessments to the committee account. A handler or distributor may deduct assessments from amounts owned to a producer.

(4) At any time during, or subsequent to, a fiscal period, a committee may recommend approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the director may approve an amended budget and an increase in the rate of assessment if it is not in excess of the rate specified by the program. The increase shall apply to any commodity covered by the program during such fiscal period.

(5) Payment of assessments for the maintenance and functioning of a committee may be required under a marketing program throughout the fiscal period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

History: 1954 ACS 50, p. 16, Eff. May 15, 1967.

R 285.301.24 Excess funds.

Rule 24. (1) If, at the end of a fiscal period, the assessments collected exceed expenses incurred, the excess shall be used in accordance with either of the following:

(a) A committee, with the approval of the director, may establish and maintain a reserve fund equal to approximately a single fiscal period's expenses. A reserve fund may be used for all authorized expenses.

(b) If the excess is not maintained in a reserve, as provided in subdivision (a), it shall be refunded proportionately to the producers from whom it was collected.

History: 1954 ACS 50, p. 16, Eff. May 15, 1967.

R 285.301.25 Funds; use and accounting.

Rule 25. (1) Funds received by a committee shall be used solely for the purpose specified and accounted for as provided in the marketing program. The director at any time may require a committee and its members to account for all receipts and disbursements.

(2) Upon the removal, or expiration of the term of office, of a committee member, he shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee. He shall execute assignments and other instruments necessary or appropriate to vest in the committee full title to all of the property, funds and claims vested in him pursuant to the marketing program.

(3) A committee may recommend to the director that 1 or more of the committee members, or any other person or organization, act as trustee for holding records, funds, or other committee property during any period when the marketing program is temporarily suspended. The director may direct that such person or organization act as trustee for the committee when he deems it appropriate.

History: 1954 ACS 50, p. 17, Eff. May 15, 1967.

R 285.301.31 Commodity standards.

Rule 31. (1) On the basis of information available to it a committee may recommend to the director the establishment of minimum standards for quality, packs, sizes, grades, or condition of a commodity which is sold and the director may establish such standards. The standards may:

(a) Limit in any portion of the production area the handling of particular grades, sizes, quantities, qualities, condition, or packs, or any combination thereof, during any period.

(b) Limit the handling of particular grades, sizes, quantities, qualities, condition, or packs of the commodity differently for different portions of the production area, for different markets, for different containers, or any combination thereof, during any period.

(c) Fix the size, capacity, weight, dimension, or condition of any container used in handling the commodity.

(2) The standards may be amended, modified, suspended, or terminated by the committee for an area, individual producer or handler, or defined market by issuance of certificates of privilege when it is deemed advisable by the committee following guidelines and procedures recommended to and approved by the director:

(a) That such action is essential to provide relief from inspection, assessment, or regulation.

(b) That the standard no longer tends to effectuate the declared policy of the marketing program.

(c) That the handling of the commodity for relief, charity, export, experimental, and other purposes which may be recommended by the committee, will be facilitated.

(3) The amendment, modification, suspension, or termination, granted by a certificate of privilege, may be rescinded by the committee when conditions so warrant, following guidelines and procedures recommended to and approved by the director.

(4) The committee shall adopt procedures necessary to establish that shipments made pursuant to this rule were handled and used in a manner and for the purpose stated.

R 285.301.32 Research programs.

Rule 32. A committee may develop research programs designed to improve the market acceptability and to contribute to the effectiveness of the commodity marketing program and secure the cooperation of the dean of agriculture of Michigan state university or his representative in selecting and planning of any research program.

History: 1954 ACS 50, p. 17, Eff. May 15, 1967.

R 285.301.33 Advertising and sales promotion programs.

Rule 33. (1) A committee may recommend to the director for approval the establishment of plans and programs for advertising and sales promotion to maintain or create new or larger markets for the commodity.

(2) A committee may employ or discharge an advertising manager, agent, agency or professional or technical services deemed necessary for proper implementation of the plans or programs. The committee may employ persons to visit buyers and potential buyers or other interested persons and disseminate promotional materials, information, and facts which will tend to increase knowledge of, and demand for, the commodity.

(3) A committee may hold clinics or meetings for dissemination of market information to buyers or potential buyers of the commodity and to improve trade relations.

(4) A committee may be responsible for preparing and gathering market information and reports necessary for the proper operation of its programs including data on current commodity supplies, prices, condition, movement, sizes, packs, and other information needed to plan an effective commodity program.

(5) A committee may cooperate with other agencies, commodity committees, units of government, persons, and organizations when cooperation will make the programs of the committee more efficient or effective and tend to effect the purposes of the marketing program. Cooperation may include sharing of expenses.

History: 1954 ACS 50, p. 17, Eff. May 15, 1967.

R 285.301.34 Limitation on committee recommendations.

Rule 34. A committee shall not make a recommendation to the director under R 285.301.31 to R 285.301.33 unless the subject of the recommendation is a part of the marketing program.

History: 1954 ACS 50, p. 18, Eff. May 15, 1967.

R 285.301.35 Marketing policy statements.

Rule 35. (1) Because of annual changes in market conditions, a committee shall prepare a marketing policy statement consistent with the provisions of the specific program prior to the beginning of each marketing season. Based upon information and data available to the committee, recommendations shall be made to the director as to rules and regulations for the ensuing season. Notice of marketing rules and regulations shall be sent to all handlers, distributors, producers, and other interested parties.

(2) The committee shall distribute the proposed policy statement and recommendations to all known producers and handlers, by United States mail to their last post office addresses of record, at least 10 days prior to their proposed effective date to allow for comment or protest from interested parties.

(3) A suggested change in, or protest of, the recommended rules or regulations shall be filed with the secretary of the committee in writing at least 6 days prior to their effective date. The committee shall review properly submitted suggested changes or protests and may recommend amendment or change to the director prior to the issuance of the rules or regulations.

(4) Upon compliance with this rule, the director, when he finds that the rules and regulations would tend to effectuate the purpose of the program, shall issue the rules and regulations for the current marketing season.

History: 1954 ACS 50, p. 18, Eff. May 15, 1967.

R 285.301.36 Inspection and certification.

Rule 36. (1) When a marketing program requires inspection and when the handling of a commodity is regulated and not exempt by a certificate of privilege which may be issued by a committee, a handler shall not handle the product unless it is inspected under the supervision of competently trained inspectors approved by the director, or by inspectors supplied under cooperative agreement between the department and the United States department of agriculture.

(2) Inspection shall be by federal-state qualified inspectors unless unavailable in a production area in which case competently trained inspectors may be used under the supervision of the department.

(3) A certificate showing that each lot of such commodity has been inspected shall be issued in all cases. Inspection may be made and the certificate issued either on receipt of the commodity from the producer by the handler or processor, or when shipped by the handler to the buyer. A copy of all inspection certificates shall be made available to the committee.

(4) The committee, with the director's approval, may determine when the requirements of this rule are met.

History: 1954 ACS 50, p. 18, Eff. May 15, 1967.

R 285.301.37 Reports and information.

Rule 37. (1) Upon request of a committee, with approval of the director, producers, processors, handlers, and distributors shall furnish to the committee in the manner and at the time prescribed by the committee, reports and other information necessary for the committee to perform properly and effectively its duties under the marketing program.

(2) Reports shall be confidential and kept in the custody of the committee, or its duly appointed representatives or agents. The committee may compile general public reports from information submitted, if no disclosure of an individual's identity or operations is made.

(3) Records and data required by a committee to be kept by a producer, handler, processor, or distributor shall be maintained for 2 years.

History: 1954 ACS 50, p. 18, Eff. May 15, 1967.

R 285.301.40 Resubmission.

Rule 40. A specific marketing program shall be resubmitted to a referendum of the producers as provided by the act.

History: 1954 ACS 50, p. 19, Eff. May 15, 1967.

CHERRY COMMISSION

REGULATION NO. 311. CHERRY ASSESSMENTS

(By authority conferred on the cherry commission by section 8 of Act No. 228 of the Public Acts of 1947, being §290.508 of the Michigan Compiled Laws)

Digitized by Google

R 285.311.1 Processors' reports.

Rule 1. A processor of cherries shall file with the secretary of the Michigan cherry commission, not later than October 15 of each year, a complete list of all growers from whom he received cherries, their addresses, and their individual tonnages delivered. The list shall include growers for whom cherries were custom processed or processed under contract.

History: 1954 ACS 68, p. 10, Eff. Aug. 5, 1971.

R 285.311.2 Assessments.

Rule 2. (1) A processor shall forward to the secretary of the Michigan cherry commission the assessment levied under the act on all cherries which he receives and processes and not only on those which he purchases. The assessment shall be forwarded on all cherries which are processed after purchase, custom processed, processed under contract, or processed under any other arrangement.

(2) Assessments deducted and collected under the act are payable to the secretary of the commission not later than October 15 of the year in which the assessment is levied.

History: 1954 ACS 68, p. 10, Eff. Aug. 5, 1971.

R 285.311.3 Volume and weight conversion factors.

Rule 3. (1) When tart cherries are received for processing by volume measurement rather than by weight, the commission shall accept a conversion factor of 47.45 pounds per cubic foot of cherries suspended in water.

(2) When tart cherries are processed in a frozen form without being weighed or measured, the commission shall accept a conversion factor of 30 pounds of raw product to each 30 pounds of processed product.

History: 1954 ACS 68, p. 10, Eff. Aug. 5, 1971.

R 285.311.4 Exemption certificates.

Rule 4. A grower filing for an exemption from the cherry assessment in any calendar year shall comply with the following:

(a) A request shall be individually signed by the grower or his agent.

(b) A request shall be forwarded by certified mail.

(c) A request shall not be received by the secretary of the commission before January 1 of the year in which the exemption is to apply nor later than May 1 of that year.

(d) An exemption certificate shall be presented to processors not later than September 1 of the year of application in order to be valid.

History: 1954 ACS 68, p. 10, Eff. Aug. 5, 1971.

DAIRY DIVISION

REGULATION NO. 400. ICE CREAM

(By authority of section 11 of Act No. 222 of the Public Acts of 1931, as amended, being §288.311 of the Michigan Compiled Laws)

R 285.400.1 Ice cream standards.

Rule 1. (1) For the purpose of the standards prescribed in section 2 of Act No. 222 of the Public Acts of 1931, as amended, stabilizers used in the manufacture of ice cream and ices shall contain no neutralizer, no ingredients harmful or

deleterious to health, no fat, other than milk fat, and no artificial coloring that may increase the color of the ice cream. All stabilizers shall be plainly labeled as to their ingredients, and shall be registered with the department of agriculture as to their brand name and ingredients. All harmless stabilizers complying with the foregoing requirements are hereby approved.

(2) For the purposes of section 2(b), the equivalent of sound fruit or the juice thereof shall be deemed to be fruit that has been concentrated or dehydrated when used in amounts of not less than the ratio of concentration to the weight percent prescribed in section 2(b).

(3) In the manufacture for sale of ice cream labeled or represented as vanilla ice cream, or vanilla flavored ice cream, a true, pure vanilla flavor or vanilla extract manufactured in accordance with the latest standards of purity established by the secretary of the United States department of agriculture must be used. The use of any compound, preparation, imitation or artificial product producing a vanilla-like flavor that may deceive the consumer as to the content, richness, character, or quality of any such ice cream is prohibited. Artificial coloring and artificial flavoring shall be deemed to be used in violation of this rule when used so as to enhance the natural color or flavor of any ice cream or imitation ice cream or when the artificial coloring or artificial flavoring imparts a color or flavor that causes the product to appear richer or of greater value than it really is. Any artificial color used in red raspberry, strawberry, cherry, or wintergreen flavored ice cream or imitation ice cream which imparts a red color darker than that of the natural fruit added; or any artificial color used in lemon, pineapple, or banana flavored ice cream or imitation ice cream which imparts a yellow color darker than that of the natural fruit added; any artificial yellow color used in vanilla flavored ice cream, imitation ice cream, or custard ice cream; or any artificial brown color used in any chocolate flavored ice cream or imitation ice cream; shall be deemed to be a violation of these rules.

(4) Signs to be displayed in accordance with section 7(d) of said act shall be of a black on white design 11½ inches in length and 10 inches in width and prepared in a form substantially as follows:

11½ in.

ICE CREAM, SHERBETS, and ICES

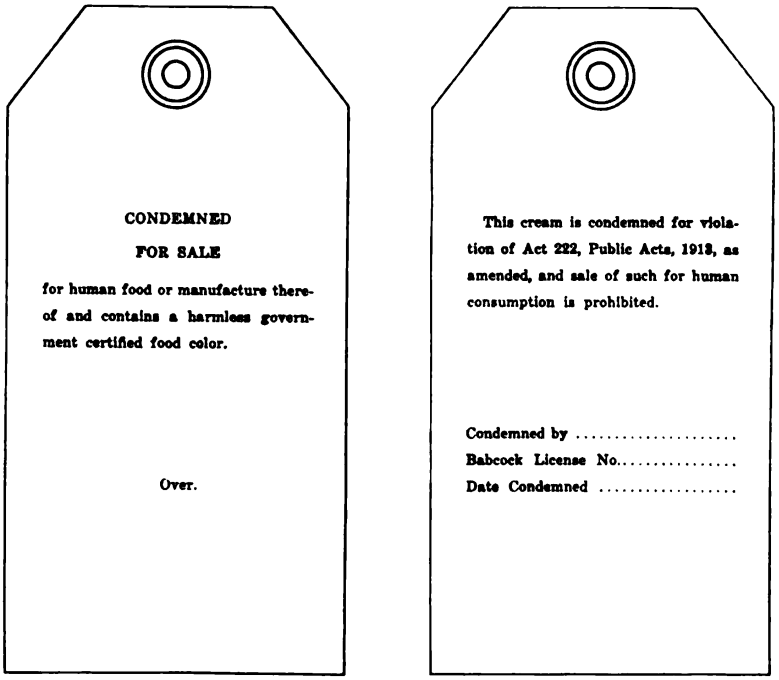
REGULATION NO. 401. SEDIMENT TESTS



(By authority conferred on the commissioner of agriculture by Act No. 344 of the Public Acts of 1917 and Act No. 13 of the Public Acts of 1921, being §289.201 et seq. and §285.1 et seq. of the Michigan Compiled Laws)

R 285.401.1 Sediment tests of cream; condemnation of cream.

Rule 1. (1) A sediment test must be run on the first can of cream offered for sale by a new patron before the sale can be consummated.

(2) In case of route or direct shipments of cream, all sediment discs used in making sediment tests, after such test shall have been made, must be preserved for 24 hours, then sent to the patron (a) by the hauler on his next trip after completion of the test, or (b) accompany the next cream check to the patron after completion of the test.

(3) Tags that cream buyers affix to containers of condemned cream shall be made of a deep yellow, medium weight cardboard, size 6¼ x 3⅛ inches, with black letters. The following form shows each side of condemnation tag:

Each cream buyer must sign each condemnation tag when affixing same to container of condemned cream, along with his Babcock license number and date of condemnation.

(4) A permanent, pronounced red color, certified by the bureau of chemistry, United States department of agriculture, as a harmless food color, is the color approved by the commissioner of agriculture for mixing with the condemned cream.

(5) For the purpose of section 12 of Act No. 222 of the Public Acts of 1913, each licensed cream buyer shall report to the commissioner of agriculture, not later than the following day, all cream condemned by him, in the following form:

Condemned by _____
Babcock License No. _____

History: 1944 AC, p. 47; 1954 AC, p. 1522.

REGULATION NO. 402. LICENSING OF TEST OPERATORS AND USE OF "BABCOCK" TEST

(By authority of Act No. 212 of the Public Acts of 1935, being §288.51 et seq. of the Michigan Compiled Laws)

R 285.402.1 Licensing "Babcock" test operators; sampling and testing milk and cream; use of "Babcock" test.

Rule 1. (1) Applicants for licenses, as provided in section 1 of Act No. 212 of the Public Acts of 1935, shall present themselves for examination at such points and on such dates as the director of the bureau of dairying, or other authorized examiner may designate.

(2) The granting of licenses, as provided in section 2 of Act No. 212 of the Public Acts of 1935, shall be governed by compliance with said act and the receiving, by applicant upon examination, of at least 70 points of a possible 100 based on the following credits:

(a) Subjects, written examination 75%
(b) Practical demonstration 25%

(3) For the purpose of section 6 of Act No. 212 of the Public Acts of 1935, the true measurement or weight shall be 17.6 cubic centimeters for milk and 9 grams for cream and in all tests the cream shall be weighed into the test bottles. To bring the test to the proper temperature for reading, bottles shall be left in water bath at a temperature between 135 and 140 degrees Fahrenheit, for at least 3 minutes.

(4) Glymol: In reading cream tests, the upper meniscus shall be removed by the addition of a few drops of glymol when the test bottles are taken from the water bath. In the case of milk tests, no glymol shall be used, and the meniscus shall be included in the reading.

(5) Saving samples: Samples of milk and cream that are tested for the purpose of determining the percentage of butterfat contained therein and which tests are used as a basis for payment for such milk and cream, shall be saved until 4 p.m. of the business day following the day on which samples were tested. Such samples of milk and cream so tested and preserved shall be appropriately dated and

identified by test numbers or patron's names and shall be properly covered and sealed to prevent any changes in composition or deterioration of the samples. A sufficient number of such samples shall be tested on each and every visit of authorized inspectors or agents of the commissioner of agriculture to determine the accuracy of the testing being done. Complete results of samples tested shall be shown on each inspector's report and a copy shall be forwarded to the creamery receiving the milk or cream.

(6) For the purpose of section 7 of Act No. 212 of the Public Acts of 1935, the certificate of the commissioner of agriculture designating "standard Babcock testing glassware" shall be in the form of the letters S G M which letters shall be blown or marked on the side of each piece of such glassware.

History: 1944 AC, p. 48; 1954 AC, p. 1524.

REGULATION NO. 403. MILK AND CREAM SOLD FOR DIRECT CONSUMPTION

(By authority of Act No. 169 of the Public Acts of 1929, as amended, being §288.1 et seq. of the Michigan Compiled Laws)

R 285.403.1 Production, handling, sale, and disposition of milk and cream for direct consumption.

Rule 1. (1) Only sanitary piping of noncorrodible material and of a type which can be easily inspected, disassembled, and cleaned with a brush shall be used. All milk pumps shall be of sanitary construction with noncorrodible material for surfaces coming in contact with milk and shall be so constructed as to be easily taken apart and cleaned with a brush.

(2) All bottles, cans, pails, vats, pipes, coolers, milking machines, tanks and other equipment used for holding, conveying, processing, or transporting milk or cream shall be thoroughly cleaned immediately after each day's run and shall be disassembled, if necessary, to give access to all parts coming in contact with milk or cream.

(3) All bottles and equipment before being used, shall be treated by 1 or more of the following methods: (a) Exposed to hot water at a temperature of not less than 180 degrees Fahrenheit for a period of at least 1 minute; (b) Exposed to moist steam for not less than 15 seconds; (c) Immersed for at least 7 minutes in a hot caustic solution at a temperature of not less than 120 degrees Fahrenheit and containing not less than 3% caustic alkali expressed in terms of sodium hydrate, and then thoroughly rinsed with clean water; (d) Rinsed thoroughly with a chlorine solution containing not less than 35 parts per million of free or available chlorine or sprayed with a solution containing not less than 100 parts per million of free or available chlorine; (e) Rinsed thoroughly in a solution composed of such other sanitizing chemical as may have been registered with the department of agriculture as an approved dairy sanitizing agent.

The bacterial contamination of milk bottles after treatment shall not show a count greater than 250 per bottle as determined by the standard agar plate method.

(4) All containers and equipment after being treated, as required by subrule (3), shall be maintained in a dry condition until used unless so treated immediately prior to such use, except that nothing in this rule shall prevent the rinsing of milk cans immediately before using.

(5) Every owner or operator of a dairy plant desiring to pasteurize milk by the short time method shall make application to the department of agriculture for approval of the installation and operation of the necessary equipment. Application shall be made on forms furnished by the department of agriculture and shall give

the name and location of the plant, the approximate amount of milk to be processed daily, the inspection maintained over such milk supplies. Application shall be accompanied by accurate diagrams of all equipment and controls and shall indicate the milk flow. The department of agriculture shall, upon receipt of such an application, make inspection of the plant, checking all equipment and its operation. The installation and operation of equipment for the short time method of pasteurization shall be approved by the department of agriculture when, after inspection and testing of all equipment, it is determined that all laws and rules pertaining thereto are complied with. Approval of the installation or operation of any equipment for the short time method of pasteurization shall be denied or revoked whenever it is determined by the department of agriculture that any piece of such equipment is not installed, operated, or maintained in accordance with the provisions of Act No. 169 of the Public Acts of 1929, as amended, or the rules pertaining thereto. The installation and operation of such equipment shall in addition comply with the following requirements:

(a) The outlet of each holding section shall be provided with an accurate indicating thermometer etched at 160 degrees Fahrenheit.

(b) The chart of the recording thermometer shall show the time and temperature that flow diversion is actuated.

(c) Each installation shall be provided with all necessary attachments for the testing of all operations.

(d) The holding section of the pasteurization equipment shall have an upward slope in the forward milk-flow direction of at least $\frac{1}{16}$ inch per foot, and such holding section shall be mounted on fixed supports.

(6) The director of the department of agriculture and the commission of agriculture hereby approve the addition of the following amounts and combinations of vitamins, minerals, nonfat milk solids per quart of milk, skimmed milk and low fat milk.

(a) Fortified milk		
Vitamin D	400	United States Pharmacopoeia units
(b) Fortified milk		
Vitamin A	2500	United States Pharmacopoeia units
Vitamin B_1	.6	Milligram
Vitamin B_2	.3	Milligram
Vitamin D	400	United States Pharmacopoeia units
Niacin	10	Milligrams
Iron	10	Milligrams
(c) Fortified skimmed milk		
Vitamin A	2000	United States Pharmocopoeia units
Vitamin D	400	United States Pharmocopoeia units
Nonfat milk solids	.7	Ounce
(d) Fortified skimmed milk		
Vitamin A	4000	United States Pharmacopoeia units
Vitamin B_1	.6	Milligram
Vitamin B_2	.3	Milligram
Vitamin D	400	United States Pharmacopoeia units
Niacin	10	Milligrams
Iron	10	Milligrams
Nonfat milk solids	.7	Ounce
(e) Low fat milk		
Vitamin D	400	United States Pharmacopoeia units

No milk, skimmed milk, or low fat milk shall have vitamins, minerals, or nonfat milk solids added thereto other than as approved by this rule or in different combinations or amounts than are approved herein. All fortified milk, fortified skimmed milk, and low fat milk shall be pasteurized after the addition of vitamins, minerals, or nonfat milk solids. The label on each container of fortified milk, fortified skimmed milk, and low fat milk shall bear a statement of the amount of vitamins, minerals, or nonfat milk solids added per quart.

(7) All bulk milk dispensers, cans, and appurtenances used in the dispensing of milk therefrom shall be constructed and maintained in such a manner as to be sanitary and prevent contamination of the milk to be dispensed and in addition thereto shall meet the following specific requirements:

(a) Each of said cans shall be smooth, be free of rust, and have no open seams on any inside surfaces; shall have a top opening of not less than 6 inches in diameter and a dispensing outlet of not less than $\frac{5}{16}$ inch in diameter; provided that, after January 1, 1957, such cans shall be made of stainless steel and shall be as smooth as No. 4 mill finish properly applied to stainless steel or made from material with equal noncorrodible properties.

(b) Each of said cans shall have an umbrella-type cover which is securely fastened at the dairy plant with 2 car-type seals placed at opposite sides of the cover and so locked as to prevent lifting or removing the cover without breaking the seal.

(c) Each of said cans shall bear a tag or label secured by the seal stating the name of the dairy processing the milk, the kind of milk, and the date of pasteurization.

(d) Each of said dispensers shall be permanently and conspicuously marked in letters of not less than $\frac{3}{4}$ inch in height with the name of the dairy and the kind of milk being dispensed. In the case of fortified milk such sign shall bear the statement "fortified milk."

(e) Each of said cans which has a dispensing outlet at the bottom shall have that outlet through the side of the bottom rim and each dispensing hose attached thereto shall have a cup-type hose enclosure with a cover at the outlet.

(f) All tubing used for dispensing from said cans shall be constructed of noncorrodible material.

(g) All hose used for the dispensing of milk shall be single service and shall be constructed of a resilient nontoxic rubber type of material, shall be bactericidally treated and immediately sealed at one end or both ends and enclosed in an individual sanitary protective covering from which it shall not be removed until one end of said hose is connected to said can.

(h) Single service sealed containers of polyethylene are hereby approved for containing milk in bulk milk dispensers. All appurtenances shall be connected by proper sanitary seal and shall permit the filling and dispensing in a sanitary method. Such containers shall be filled by the use of approved mechanical filling equipment complying with all of the sanitary standards for such equipment. When filled such containers shall be contained and supported by substantial single service cardboard walls. All single service containers shall bear the name of the product, the name of the processor, and the date of pasteurization.

R 285.404.1 Grading of butter; approval and licensing of butter graders; labeling requirements for undergrade butter.

Rule 1. The following standards are adopted for the grading of butter:

(a) Any butter having defects listed below shall have a flavor and/or aroma score or grade of less than 90:

Definitely scorched - neutralizer
Definitely sour
Definitely fruity
Definitely yeasty
Definitely proteolytic - limburger cheese flavor
Definitely alkaline
Definitely oily
Definitely metallic
Definitely cabbage, rape, turnip, potato
Definitely musty
Definitely stale
Definitely barny
Definitely fishy
Definitely weedy
Slightly garlic or onion
Cheesy
Chemical
Rancid
Surface taint
Tallowy

(b) Any butter having a score of 90 on flavor or aroma, but possessing any of the following body or texture defects, shall be scored or graded as less than 90:

Slightly or definitely crumbly
Slightly or definitely gummy
Slightly or definitely leaky
Very slightly, slightly or definitely mealy
Slightly or definitely ragged, boring
Slightly or definitely spongy or weak

(c) Any butter having a score of 90 on flavor or aroma and body and texture, but possessing any of the following color defects, shall be scored or graded as less than 90:

Slightly to definitely color specks
Definitely high, unnatural
Slightly to definitely mottled
Slightly to definitely streaked
Slightly to definitely wavy

(d) Any butter having a score of 90 on flavor or aroma, body and texture and color, but possessing any of the following salt defects, shall be scored or graded as less than 90:

Slightly to definitely gritty
Slightly to definitely sharp

(e) Any butter having a score of 90 on flavor or aroma, body and texture, color and salt, but possessing the following package defects, shall be scored or graded as less than 90:

Slightly to definitely soiled

GRADE LABELING

Before being offered for sale to the consuming public by retailers in this state any and all butter scored or graded below 90 shall be labeled as undergrade and the word "undergrade" shall appear prominently on that part or panel of the label which is presented or displayed under ordinary conditions of purchase. The letters comprising the word "undergrade" shall be ⅜ inch or larger in plain, block letters on strongly contrasting background.

BUTTER RETAILERS

The term "retailers" as used in the act is deemed to mean any person, firm, association, or corporation selling butter for consumption or use for any purpose other than resale and shall include selling to persons who sell or serve meals or lunches.

APPROVAL AND LICENSING OF GRADERS

No person shall certify or attempt to certify as to score or grade of butter without first being approved and obtaining a license from the department of agriculture. The issuance of such licenses shall be conditioned upon the passing by the applicant of an examination conducted by the department of agriculture. Such licenses issued shall run for a period of 1 year from the date of issuance and shall be renewed annually by filing the proper application. The licenses issued shall remain in effect for the time specified on the license, unless revoked by the director of agriculture.

REVOCATION OF LICENSE

The director of agriculture may revoke or refuse to renew any license issued under the provisions of these rules whenever it is determined by him that the applicant or licensee has failed to properly grade or score butter as required.

History: 1954 ACS 6, p. 10, Eff. May 15, 1956.

REGULATION NO. 405. FROZEN DESSERTS

(By authority conferred on the commission of agriculture by section 11 of Act No. 298 of the Public Acts of 1968, being §288.331 of the Michigan Compiled Laws)

R 285.405.1 Definitions; A to F.

Rule 1. (1) The definitions of terms in the act are applicable to these rules.

(2) "Act" means Act No. 298 of the Public Acts of 1968, being §288.321 et seq. of the Michigan Compiled Laws.

(3) "Department" means the state department of agriculture.

(4) "Freezer" means mechanical equipment used to lower the temperature of a mix, while at the same time incorporating air into the mix.

History: 1954 ACS 59, p. 26, Eff. Aug. 14, 1969.

R 285.405.2 Definitions; M to T.

Rule 2. (1) "Manufacturing or processing" means the act of assembling ingredients into a complete mix including the pasteurization, homogenization, and cooling of the mix or the act of further lowering the temperature of a mix by the use of a mechanical freezer or cooling bath surrounding a mold, while at the same time air may or may not be incorporated into the mix.

(2) "Mix" means ice cream mix, ice milk mix, sherbet mix, and any other unfrozen pasteurized liquid mixture which is to be manufactured into a frozen

dessert, including a liquid mixture intended for processing into quiescently frozen confections.

(3) "Rerun" means a frozen dessert that is not placed in its final container immediately after passing through the freezing process and is intended to be melted and reprocessed or refrozen.

(4) "Sanitization" means the application of an effective method or substance to a clean surface for the destruction of organisms as far as is practicable, which treatment does not adversely affect the equipment, the frozen dessert or the health of consumers, and is acceptable to the department.

(5) "3-A sanitary standards and accepted practices" means the standards for dairy equipment and accepted practices formulated by the 3-A sanitary standards committees representing the international association of milk, food and environmental sanitarians, the United States public health service, and the dairy industry committee, and which are published by such International Association, Box 437, Shelbyville, Indiana. These rules include only those standards published prior to May 1, 1969.

History: 1954 ACS 59, p. 26, Eff. Aug. 14, 1969.

R 285.405.5 Separate rooms and no smoking.

Rule 5. Rooms for receiving canned milk shall be separated from the processing area by a partition or suitable arrangement of equipment or facilities to avoid contamination of milk or dairy products. Toilet and locker rooms, boiler and tool rooms shall be separated from other rooms. Smoking in the processing room is prohibited.

History: 1954 ACS 59, p. 27, Eff. Aug. 14, 1969.

R 285.405.6 Floors, walls, and ceilings.

Rule 6. (1) The floor of a room in an ice cream plant in which mix, frozen desserts, or their ingredients are manufactured, processed, or frozen, or in which containers and utensils are washed, shall be constructed of concrete or other equally impervious and easily cleanable material; and shall be smooth, properly sloped, provided with trapped drains, and kept clean and in good repair. Cold storage rooms used for storing frozen desserts and ingredients need not be provided with floor drains, but the floor shall be sloped to drain to 1 or more exits and shall be kept clean. Dry storage rooms need not be drained and tight wooden floor construction is optional. Where a freezer is located in a restaurant or similar establishment, a floor covered with a durable grade of linoleum, plastic, or other smooth nonabsorbent, easily cleanable material will be permitted. Floor drains are not required under these circumstances.

(2) The walls and ceilings of a room in an ice cream plant in which mix, frozen desserts or their ingredients are manufactured, processed, or frozen, or in which containers or utensils are washed, shall have a reasonably smooth, cleanable surface that is substantially impervious to moisture and in good repair.

History: 1954 ACS 59, p. 27, Eff. Aug. 14, 1969.

R 285.405.7 Ventilation and lighting.

Rule 7. (1) Rooms and compartments in an ice cream plant, including storage space, toilet, and dressing rooms, shall be ventilated to maintain sanitary conditions, prevent undue condensation of water vapor, and minimize or eliminate objectionable odors.

(2) Lighting, whether natural or artificial, shall be adequate and well distributed in all rooms and compartments in accordance with the use made of each

room. Light bulbs, tubes, and fixtures shall be protected to prevent glass entering the product if breakage occurs.

History: 1954 ACS 59, p. 27, Eff. Aug. 14, 1969.

R 285.405.8 Water and steam.

Rule 8. Hot and cold water of a safe and sanitary quality shall be available in sufficient quantity for ice cream plant operations and facilities, and shall comply with the recommendations of the state department of public health. Water from other lines, when approved, may be used for boiler feed water and condenser water, if such lines are completely separated from the water lines carrying the sanitary water supply, and the equipment is so constructed and controlled as to preclude contamination of any product or product contact surface. There shall be no cross connection between the safe water supply and an unsafe or questionable water supply or any source of pollution. Steam that may come into direct contact with milk or dairy products, shall be culinary steam. Culinary steam shall comply with the recommended practices for "the production of steam of culinary quality" as published in 3-A sanitary standards and accepted practices. Only potable water shall be used to make culinary steam.

History: 1954 ACS 59, p. 27, Eff. Aug. 14, 1969.

R 285.405.9 Toilet facilities.

Rule 9. (1) Doors of a toilet room in an ice cream plant shall be self-closing. A sign directing employees to wash their hands before returning to work, shall be posted in a toilet room used by employees. A toilet room and facility shall be kept in a clean condition and in good repair.

(2) Convenient and clean handwashing facilities shall be provided for employees, including hot and cold running water or warm running water, soap, and approved sanitary towels. The use of a common towel is prohibited.

History: 1954 ACS 59, p. 28, Eff. Aug. 14, 1969.

R 285.405.10 Waste disposal; insects and rodents.

Rule 10. (1) An ice cream plant sewage system shall have sufficient slope and capacity to remove readily all waste from processing operations. Where a public sewer is not available, wastes, including those from mobile ice cream plants, shall be disposed of by methods approved by the department. Containers for the collection and holding of wastes, other than dry wastepaper, shall be constructed of metal or equally impervious material, kept covered with tight fitting lids, and placed outside the plant on a concrete slab or on a raised rack; however, waste containers may be kept inside a suitable enclosed, clean room. Solid wastes shall be disposed of regularly and the containers kept clean.

(2) Effective means shall be provided to prevent the access of insects and rodents into the plant. Only pesticides approved and registered with the department shall be used for insect and rodent control. Pesticides shall be used only in accordance with the manufacturer's directions and shall be used, handled, and stored in such a manner as to preclude the contamination of frozen desserts, their ingredients, containers, and equipment.

History: 1954 ACS 59, p. 28, Eff. Aug. 14, 1969.

R 285.405.11 Equipment and piping; general provisions.

Rule 11. (1) Equipment and piping in an ice cream plant shall be so designed and installed as to be easily accessible for cleaning and shall be kept in good repair and free from cracks and corroded surfaces. Milk pumps shall be of a sanitary type and easily dismantled for cleaning or shall be of specifically approved construction to allow cleaning in place. New or rearranged equipment shall be set

away from any wall or spaced to facilitate proper cleaning and to maintain good housekeeping. Parts, interior surfaces, equipment, pipes (except certain piping approved to be cleaned in place), fittings, including valves and connections, shall be accessible for inspection. Cleaned-in-place sanitary piping and welded sanitary pipeline systems, when used, will be acceptable if properly engineered and installed according to 3-A accepted practices for permanently installed sanitary product—pipelines and cleaning systems.

(2) The packing glands on all agitators, pumps, and vats shall be inspected at regular intervals and kept clean.

(3) Pasteurization equipment shall be in accordance with 3-A accepted practices for sanitary construction, installation, testing, and operation of high-temperature short-time pasteurizers and 3-A sanitary standards for noncoil-type batch pasteurizers.

History: 1954 ACS 59, p. 28, Eff. Aug. 14, 1969.

R 285.405.12 Equipment and utensils; sanitary standards and construction materials.

Rule 12. New equipment in an ice cream plant shall meet applicable 3-A sanitary standards. Equipment and utensils coming in contact with milk, dairy products, mix or frozen desserts, including sanitary pumps, piping, fittings, and connections, shall be constructed of stainless steel or other equally corrosion-resistant material, except where the use of stainless steel is not practicable, or in old equipment, other metals properly coated or plated will be approved. Nonmetallic parts having product contact surfaces shall be of material that meets 3-A sanitary standards for plastic or rubber and rubber-like materials.

History: 1954 ACS 59, p. 28, Eff. Aug. 14, 1969.

R 285.405.13 Liquid sweetener containers.

Rule 13. Bulk storage and distribution equipment in an ice cream plant for handling liquid sweetening agents shall consist of suitable metals, alloys, or other materials which will withstand corrosive action by the ingredient; and the equipment and ingredients shall be protected from contamination. Pipelines containing liquid sweetening agents and liquid chocolate shall remain flooded with the ingredient to prevent mold growth, or they may be disassembled and washed.

History: 1954 ACS 59, p. 28, Eff. Aug. 14, 1969.

R 285.405.14 Cleaning of equipment.

Rule 14. (1) Immediately before use, equipment in an ice cream plant coming in contact with milk, dairy products, mix or frozen desserts shall have an effective sanitizing treatment.

(2) After each use, equipment not designed for cleaning in place, shall be disassembled and thoroughly cleaned. Dairy cleaners, wetting agents, detergents, sanitizing agents, or other similar material may be used that will not contaminate or adversely affect dairy products. Steel wool or metal sponges shall not be used in cleaning dairy equipment or utensils.

(3) Circulating-in-place cleaning shall be used only on equipment and pipeline systems designed and engineered for that purpose. Installation and cleaning procedures shall be in accordance with 3-A accepted practices for permanently installed sanitary product pipelines and cleaning systems, and be approved by the department. An outline of the cleaning procedures to be followed should be posted near the C.I.P. equipment.

History: 1954 ACS 59, p. 29, Eff. Aug. 14, 1969.

R 285.405.15 Storage of equipment and supplies.

Rule 15. After cleaning, multi-use utensils, containers, and equipment in an ice cream plant shall be stored to drain dry, and in such a manner as not to be contaminated before usage. Equipment stored in sanitizing solution is permissible. Caps, parchment paper, wrappers, liners, gaskets, and single service sticks, spoons, covers and containers for frozen desserts, mix or their ingredients, shall be purchased and stored only in sanitary tubes, wrappings, or cartons; shall be kept therein in a clean, dry place until used; and shall be handled in a sanitary manner.

History: 1954 ACS 59, p. 29, Eff. Aug. 14, 1969.

R 285.405.16 Handling of ingredients, mix, and frozen desserts.

Rule 16. (1) Milk, cream, and milk products in fluid form received at an ice cream plant for use in mixes, shall immediately be cooled to a temperature of 50 degrees Fahrenheit or less and maintained at that temperature until pasteurized. Mixes shall be assembled and pasteurized in an ice cream plant. Mix which is not frozen at the plant in which it was pasteurized shall be transported to the place of freezing in properly covered and protected containers.

(2) Spilled frozen desserts and ingredients shall be discarded. Rerun shall be handled in sanitary containers properly covered and stored, or shall be piped directly back to vats. Rerun which has been strained to remove nuts, fruits, or other ingredients, should be repasteurized. Partially full containers, if not damaged, broken, or contaminated, may be returned to the manufacturer for repasteurization and processing. After opening, it is recommended that all syrups used for flavoring or topping be refrigerated at all times. Flavoring ingredients may be added to mix after pasteurization.

(3) Frozen desserts and mix shall be packaged in commercially acceptable containers and packaging material that will protect the quality of the contents in regular channels of trade. The packaging, cutting, molding, dispensing, and other handling or preparation of mix or frozen desserts and their ingredients shall be done in a sanitary manner. Plastic or rubber gloves should be worn when handling frozen desserts for molding, cutting, or similar hand contact work.

(4) When an ice cream plant is identified by code number on containers of frozen desserts, the distributor's name and address or the retailer's name and address shall be shown on the container label.

History: 1954 ACS 59, p. 29, Eff. Aug. 14, 1969.

R 285.405.17 Standards for mix, ingredients, and frozen desserts.

Rule 17. (1) Pasteurized mix, pasteurized dairy ingredients, and frozen desserts shall comply with the following standards:

	Bacteria Count—standard plate count not more than*	Coliform Determination not more than*	Storage Temperature
Milk	50,000/ml.	10/ml.	50° F.
Cream	50,000/ml.	10/ml.	50° F.
Fluid dairy products	50,000/ml.	10/ml.	50° F.
Mix	50,000/gr.	10/gr.	45° F.**
Frozen desserts	50,000/gr.	10/gr.***	

*In 3 out of the last 5 consecutive samples taken by the department of agriculture.

**Sterile mix is not required to be stored at this temperature.

***20/gr. for chocolate, fruit, nuts, or other bulky flavored frozen desserts.

(2) When 2 of the last 4 consecutive bacteria counts, coliform determinations, or temperatures taken on separate days, exceed the limit of the standard established in subrule (1), the department shall send a written notice thereof to the person concerned. This notice shall be in effect so long as 2 of the last 4 consecutive samples exceed the limit of the standard and shall inform the person that an additional sample will be taken within 14 days of the receipt of such notice, but not before the lapse of 3 days. It shall further state that when the standard is violated by 3 of the last 5 bacteria counts, coliform determinations, or cooling temperatures, the plant shall discontinue manufacturing the specific product involved until the cause of the violation is corrected. Court action may be instituted also.

History: 1954 ACS 59, p. 29, Eff. Aug. 14, 1969.

R 285.405.18 New frozen desserts.

Rule 18. The development of new frozen desserts is encouraged. New frozen desserts not conforming to existing standards, shall be manufactured in accordance with sanitation standards established in the act and these rules. They shall also comply with the bacteria count standards, coliform determinations, and storage temperatures where applicable, set forth in R 285.405.17. A person, firm, or corporation, prior to manufacturing and marketing any frozen dessert or mix, which varies from the standards set forth in the act or these rules, shall notify the department of its intent and shall submit for review and approval, a proposed copy of the label for such new frozen dessert or mix. Standards of identity for such new products may be included in these rules when it is determined that it is in the public interest to continue manufacturing and marketing the new frozen dessert or mix.

History: 1954 ACS 59, p. 30, Eff. Aug. 14, 1969.

R 285.405.19 Optional ingredients, sherbets, and ices.

Rule 19. (1) Optional ingredients permitted in a frozen dessert, including coloring material, are limited to those approved by the federal food and drug administration.

(2) Nonfruit sherbet shall conform to the definition of "sherbet" or "fruit sherbet," except that it shall not contain fruit ingredients or have a titratable acidity of 0.35% by weight calculated as lactic acid.

(3) Nonfruit water ice shall conform to the definition of ice, except that it shall not contain fruit ingredients or have a titratable acidity of 0.35% by weight calculated as lactic acid.

History: 1954 ACS 59, p. 30, Eff. Aug. 14, 1969.

R 285.405.21 Personnel health.

Rule 21. The plant management shall take all reasonable measures and precautions to assure the following:

(a) No person affected with a communicable disease or while a carrier of such disease shall work at an ice cream plant in a capacity which brings him in contact with the processing, handling, or storage of frozen desserts, or the containers, equipment and utensils.

(b) No person shall be employed in an ice cream plant who is suspected of having any diseases in a communicable form or of being a carrier of such disease.

History: 1954 ACS 59, p. 30, Eff. Aug. 14, 1969.

R 285.405.23 Vehicles.

Rule 23. A vehicle, including a mobile ice cream plant used for transportation of mix, frozen desserts, and their ingredients, shall be constructed and operated so as to protect its contents from heat, sun, and contamination. The vehicle shall be kept clean, and no substance capable of contaminating mix, frozen desserts, and their ingredients shall be transported therein. Where applicable, an ice cream plant shall provide an area for unloading vehicles that can be maintained in a sanitary condition. This area should be surfaced with concrete or blacktop.

History: 1954 ACS 59, p. 30, Eff. Aug. 14, 1969.

R 285.405.24 Mobile ice cream plants.

Rule 24. (1) A mobile ice cream plant shall meet all requirements of the act and these rules exclusive of toilet facilities.

(2) A mobile ice cream plant shall have a potable water supply tank, of sufficient capacity, tilted toward a capped drain cock. The water inlet pipes shall be of removable flexible copper or other approved tubing with the nozzle for the hose connection capped and fully protected when not being used. A hose for connection to a potable water supply shall be provided and used exclusively for that purpose.

(3) A mobile ice cream plant shall have a suitable waste tank with a capacity at least equal to the water supply tank which shall be tilted toward a drain cock with an adequate method of gauging the contents. It shall be emptied and flushed as often as necessary at an approved location, in order to maintain sanitary conditions.

(4) A mobile ice cream plant shall have a refrigerated box of ample capacity for storage of the various ingredients carried, that need refrigeration, constructed of noncorrosive material, the floor of which is pitched toward a drain. Temperature shall be maintained at 45 degrees Fahrenheit or lower and it shall be equipped with an indicating thermometer.

(5) Mix to be frozen in a mobile ice cream plant should be packaged in a single-service container at the place of manufacture.

(6) A mobile ice cream plant shall have a refrigerated syrup rail with a holding plate to maintain temperatures of 50 degrees Fahrenheit or below.

(7) A mobile ice cream plant shall have a refuse can located within the mobile plant and a waste can or container for deposit of cups, papers, and other refuse by customers outside the mobile plant. Both shall be kept clean and so located as not to create a nuisance.

History: 1954 ACS 59, p. 31, Eff. Aug. 14, 1969.

R 285.405.25 Depots for mobile ice cream plants.

Rule 25. (1) Utensils, equipment, and multi-use containers in a mobile ice cream plant shall be washed and sanitized at an approved depot or in the mobile plant after each day's use.

(2) A depot shall be maintained in a sanitary condition, have a sufficient supply of hot and cold running water, and adequate facilities for the cleaning and sanitizing of equipment when used for such purposes. A depot shall provide a hose and hose connection for filling water tanks on the mobile plants and a method of hanging the hoses for draining to prevent contamination.

History: 1954 ACS 59, p. 31, Eff. Aug. 14, 1969.

R 285.405.27 Reports.

Rule 27. A person, firm, or corporation required to be licensed under the act shall, upon request, report to the department at least once each calendar year, or as often as may be required the amount of mix and frozen desserts manufactured or processed. This does not include malts or shakes made from dipped frozen desserts, but does include those drawn direct from a freezer.

History: 1954 ACS 59, p. 31, Eff. Aug. 14, 1969.

R 285.405.29 Local zoning ordinances not superseded.

Rule 29. Nothing in these rules shall be construed to supersede existing county, city, village, or township zoning ordinances.

History: 1954 ACS 59, p. 31, Eff. Aug. 14, 1969.

REGULATION NO. 406. COTTAGE CHEESE

(By authority conferred on the commission of agriculture by section 3g of Act No. 222 of the Public Acts of 1913 and section 1 of Act No. 233 of the Public Acts of 1965, being §§288.103g and 288.21 of the Michigan Compiled Laws)

R 285.406.1 Standards and labels.

Rule 1. The standards and labeling requirements for cottage cheese, lowfat cottage cheese, and cottage cheese dry curd shall be as provided by the definitions and standards contained in the 21 C.F.R. §§19.525, 19.530, and 19.531, which is incorporated herein by reference and is available at the price of $1.75 from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, or the Michigan Department of Agriculture, Lewis Cass Building, Lansing, Michigan 48913.

History: 1954 ACS 80, p. 9, Eff. Sept. 17, 1974.

R 285.406.2 Present terms; use.

Rule 2. The terms creamed cottage cheese, lowfat creamed cottage cheese, and cottage cheese which are presently used in this state are legal until July 1, 1975, or until 6 months after the final effective date of the federal standards adopted in R 285.406.1, whichever date first occurs.

History: 1954 ACS 80, p. 10, Eff. Sept. 17, 1974.

REGULATION NO. 407. MILK MANUFACTURE

(By authority conferred on the department of agriculture by section 1 of Act No. 233 of the Public Acts of 1965, as amended, and section 17 of Act No. 222 of the Public Acts of 1913, being §§288.21 and 288.117 of the Michigan Compiled Laws)

R 285.407.1 Definitions.

Rule 1. As used in these rules:

(a) "Approved sample container" means and includes:

(i) A multiple-use container holding a minimum of 15 ml., but of sufficient capacity to permit mixing. Such container shall be sterilized by dry heat or steam and shall have a leakproof closure that is nontoxic; the container and closure shall be phenol free.

(ii) Sterile, evacuated sampling equipment of 10 ml. or more.

(iii) Pre-sterilized polyethylene or other suitable nontoxic containers of adequate size, or other containers which are approved by the department.

(b) "Department" means the department of agriculture.

(c) "Farm tank" means the farm bulk milk tank used for the cooling and storage of milk prior to pickup.

(d) "Hauler" means a licensed farm pickup milk tank operator, regardless of whether the milk is picked up for grade A or manufacturing purposes.

(e) "Milk buyer" means a person, firm, association, or corporation that pays the producer for the milk.

(f) "Over-the-road milk transport tank" means a milk tank truck used for the transportation of milk and milk products. An over-the-road milk transport tank shall not be used for picking up milk at a farm.

(g) "Pickup tank" means the farm pickup milk tank used by the hauler to pick up milk at the farm and transport it to a transfer station, receiving station, milk plant, or milk manufacturing plant.

(h) "Producer" means a person who operates a dairy farm and who provides, sells, or offers milk for sale to a transfer station, receiving station, milk plant, or manufacturing milk plant.

(i) "Transfer instrument" means individually wrapped, sterile, single-service sampling tubes; stainless steel metal dippers, with long handles having capacities of 10 ml. or greater; or other transfer instruments or sampling devices approved by the department.

History: 1954 ACS 90, p. 6, Eff. Jan. 15, 1977.

R 285.407.2 Haulers; duties; prohibitions.

Rule 2. (1) A hauler shall not take milk from a farm tank without first determining that the farmer has a valid permit, where such permit is required.

(2) A hauler shall pick up only milk which appears to be normal and does not contain off odors, or visible foreign material.

(3) A hauler shall not record or report inaccurately a milk measurement taken in the farm tank. A measurement shall be made with a measuring gauge which is clean and wiped dry with a sanitary towel.

(4) After measuring the milk in the farm tank, the hauler shall promptly, accurately, and legibly record the following information on the pickup record:

(a) The gauge or stick reading.

(b) The converted gauge or stick reading in pounds.

(c) The date and time of pickup.

(d) The milk producer's name and permit number.

(e) The temperature of the milk from an accurate thermometer.

(f) The hauler's identification, including the hauler's name or initials.

(5) A hauler shall provide the original copy of the pickup record to the milk buyer and a carbon to the milk producer.

(6) During a pickup, a hauler shall take an aseptic, representative sample from each farm tank after the tank is agitated for not less than 4 minutes or for such additional time as may be necessary to obtain a representative sample.

(7) A sample dipper shall be rinsed by the hauler at least twice in the milk prior to transferring the sample to the sample container.

(8) Sample transfer instruments shall be used by haulers which are of sanitary construction, clean, and sterile, or which are sanitized with approved sanitizers and protected from contamination prior to each use.

(9) A hauler shall take a temperature control sample of the milk at the hauler's first sampling point, and shall place it in the refrigerated, insulated transport case with the first official sample.

(10) The hauler shall identify the temperature control sample with the route number and letters "T.C."

(11) A hauler shall not sample milk in the farm tank during emptying.

(12) A hauler shall not sample milk in the farm tank with a sample container or any other unapproved transfer instrument or sampling device.

(13) A hauler shall place producer milk samples into approved sample containers only.

(14) A hauler shall place milk in sample containers only, legibly marked with:

(a) The milk producer permit number.

(b) The date of pickup.

(c) The route number.

(15) The hauler shall place milk samples in a refrigerated, insulated transport case which is kept tightly covered until the samples are delivered to the transfer point, laboratory, or other destination.

(16) The hauler shall maintain milk samples in a temperature range of 32 degrees Fahrenheit to 40 degrees Fahrenheit.

(17) A hauler shall not adulterate milk in the farm tank or the pickup tank.

(18) The farm tank shall be completely emptied by the hauler each time the unloading hose is hooked up, unless the hauler discovers that the milk does not meet legal requirements or that the pickup tank will overflow or be overloaded during periods of weight restrictions on roads.

(19) A hauler shall carry an accurate, dial-type thermometer with him on the route, and shall not pick up milk from a farm tank which exceeds the maximum temperature allowed by law.

(20) A hauler shall keep his sample transfer instrument and sample transport case clean and in good repair.

(21) A hauler shall use the hose port provided for him in the milkroom for accommodation of the pickup milk hose.

History: 1954 ACS 90, p. 7, Eff. Jan. 15, 1977.

R 285.407.3 Cleaning and sanitizing pickup tanks and milk transport tanks; records; samples.

Rule 3. (1) The owner or lessee of a pickup tank or over-the-road milk transport tank, or the agent of such owner or lessee, shall be responsible for maintaining the tank and milk contact surfaces clean and in good repair. Milk or milk products shall not be placed in such tanks unless the tanks have been properly cleaned and sanitized.

(2) Suitable facilities for cleaning and sanitizing pickup tanks and over-the-road milk transport tanks shall be provided, and the washing and sanitizing of the tanks shall be carried out by the receiving milk plant, transfer station, or receiving station, unless other mutual agreements, approved by the department, are made to have the tanks washed and sanitized. The owner, lessee, or the agent of the owner or lessee shall be responsible for cleaning the hose, pump, and valves. After the cleaning and sanitizing operation is completed, a suitable record shall be made showing who did the work, the date, and the location of the operation. The owner, lessee, or the agent of the owner or lessee, after inspection of the tank, shall indicate on the record that the tank has been cleaned to that person's satisfaction. A copy of this record shall be kept with the vehicle until it is washed and sanitized again.

(3) A hauler operating a pickup tank may make more than 1 trip daily without cleaning and sanitizing the pickup tank if the time interval between unloading and

picking up milk again is less than 1 hour. The pickup tank shall be cleaned and sanitized after the final trip of the day.

(4) An over-the-road milk transport tank shall be cleaned and sanitized each time the tank is emptied.

(5) Milk may be picked up in the pickup tank on the return trip to the hauler's home if the pickup tank is cool enough to maintain the milk placed in it at or below the legal storage temperature, and if the pickup hose and pump are washed and sanitized, if the delay in picking up additional milk is more than 1 hour.

(6) A pickup tank or an over-the-road milk transport tank may be used to haul potable water, or other wholesome liquid food products, if the milk contact surfaces are properly cleaned and sanitized prior to picking up milk.

(7) A milk transfer station or receiving station shall keep daily records identifying which farm loads of milk have been commingled in each over-the-road milk transport tank. These records shall be kept at the transfer station or receiving station for not less than 30 days.

(8) Producer samples shall accompany the transport tank holding the largest amount of the farm pickup truck's milk, unless the samples are transferred or held for testing at other locations.

History: 1954 ACS 90, p. 8, Eff. Jan. 15, 1977.

R 285.407.4 Qualifications of grade A plant for reduced licensing fee; milk quality tests and records; determining sediment content; acceptance or rejection of milk.

Rule 4. (1) Grade A milk plants, receiving stations, and transfer stations that are first receiving points of dairy farm milk may qualify for a reduced license fee by carrying out a farm supervision program with certified personnel, as referred to in section 2(1)(a) of Act No. 233 of the Public Acts of 1965, as amended, being §288.22(1)(a) of the Michigan Compiled Laws. For this purpose, a farm supervision program is interpreted to include:

(a) A farm inspection of all milk producers having the first routine count exceeding legal standards for bacteria or somatic cells, or both.

(b) One routine inspection per year of all milk producers, with a copy of each required inspection forwarded to the local area dairy inspector.

(2) A purchaser of grade A or manufacturing raw milk or both, shall be responsible for making the quality tests on raw milk, at the producer level, that are required by law. The test results shall be reported to the department as requested. Records of the quality test results on manufacturing milk shall remain on file with the purchaser for a period of 1 year.

(3) Methods for determining the sediment content of milk shall be those described in the latest edition of standard methods for the examination of dairy products, a publication of the American Public Health Association, 1790 Broadway, New York, New York. Sediment content shall be based on comparison with official United States department of agriculture sediment standards, 7 C.F.R. §§58.2726 to 58.2731.

(4) If the sediment disc is classified as no. 1, no. 2, or no. 3, the producer's milk may be accepted. If the milk contains more sediment than a no. 3, it is considered rejectable.

History: 1954 ACS 90, p. 8, Eff. Jan. 15, 1977.

R 285.407.5 Dairy farm; requirements as to farm tanks, facilities, milk production, and conversion chart.

Rule 5. (1) A farm tank on a dairy farm shall be installed so as to remain level at all times.

(2) A farm tank shall have an indicating thermometer.

(3) A farm tank shall have an accurate, legible, volume to weight conversion chart, unless the farm tank is mounted on an accurate scale. Other measuring devices may be used when such devices are approved by the department.

(4) A conversion chart shall bear the same serial number as that found on the farm tank and measuring rod.

(5) The producer is responsible for recalibrating a farm tank that does not have an accurate conversion chart. A recalibration shall be in accordance with methods and procedures approved by the department. A person shall not adjust, alter, or change a conversion chart unless the change, alteration, or adjustment is made strictly according to methods and procedures approved by the department.

(6) A farm tank shall not be filled to a capacity which exceeds the calibrated limits as indicated by the conversion chart. If the producer wishes to fill the tank nearer to the top, the tank shall be calibrated to an additional height which still permits proper agitation without spillage.

(7) Milk to be offered for sale shall be cooled and stored in the farm tank. Other cooling and storage facilities may be used when approved by the department.

(8) Milk production shall be of sufficient quantity so that it can be properly agitated not later than at the completion of the first milking into the farm tank.

(9) Facilities for effectively sanitizing farm tanks shall be provided by the producer.

(10) A farm tank, when used for the cooling and storage of raw milk on the farm where the raw milk is intended for manufacturing purposes, shall be located in a suitable milkroom. Suitable milkroom facilities shall include the following:

(a) Milkroom floors which are impervious and properly sloped to drain. Floor drains shall be located so as to be accessible for cleaning, and shall be of such size as to allow for proper draining.

(b) Walls and ceilings which are substantially impervious to moisture, clean, tight, and kept in good repair. Exposed studding and rafters are acceptable. Doors and windows, if provided, shall be kept clean and in good repair. An access door shall be provided to enter the milkroom and shall be tight-fitting and self-closing. If doors and windows are to be left open during fly season, screens shall be provided.

(c) Adequate and suitable facilities for the cleaning and sanitizing of containers, equipment, utensils, and the farm tank with hot and cold water under pressure.

(d) Adequate artificial lighting and ventilation. A ventilator or electric light shall not be located directly over farm tank openings. A water line shall not be installed directly over farm tank openings.

(e) An opening in the wall to accommodate the connection of the pickup tank hose without leaving the milkroom door open.

(f) An electrical outlet that permits connecting the pickup tank pump without leaving the milkroom door open.

(g) A farm tank and milkroom shall be used for milk handling purposes only, and shall be maintained in a clean, sanitary condition.

History: 1954 ACS 90, p. 9, Eff. Jan. 15, 1977.

R 285.407.6 Responsibility of person possessing milk sample; record.

Rule 6. A person involved in the chain of possession during delivery of milk samples to a laboratory is responsible for the proper handling and preservation of the samples while in his possession. A record of the control sample temperature,

time, date, and the condition of the samples shall be recorded at each sample transfer point where samples are removed from the transport case and placed in another cold storage box, cabinet, or chest. This record shall accompany the samples and control samples to the laboratory, and shall be kept at the laboratory for a period of 3 months. The sample transfer record form to be used shall be approved by the department.

REGULATION NO. 408. FLUID MILK AND MILK PRODUCTS

(By authority conferred on the department of agriculture by section 1 of Act No. 233 of the Public Acts of 1965, as amended, being §288.21 of the Michigan Compiled Laws)

R 285.408.1 Definitions.

Rule 1. (1) "Container" includes the closure.

(2) "Department" means the department of agriculture.

(3) "Date" means the recommended last day of sale.

(4) "Milk and milk products" means and includes cream, light cream, coffee cream, table cream, whipping cream, heavy cream, heavy whipping cream, whipped cream, whipped light cream, whipped coffee cream, whipped table cream, sour cream, cultured sour cream, half-and-half, cultured half-and-half, reconstituted or recombined milk and milk products, concentrated milk and milk products, skim milk, skimmed milk, nonfat milk, lowfat milk, fortified milk and milk products, vitamin D milk and milk products, homogenized milk, flavored milk and milk products, buttermilk, cultured buttermilk, cultured milk, cultured whole milk buttermilk, yogurt, lowfat yogurt, acidified milk and milk products, grade A cottage cheese, grade A lowfat cottage cheese, grade A dry curd cottage cheese, grade A egg nog, and other milk products which may be defined in the future under Act No. 233 of the Public Acts of 1965, as amended, being §288.21 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 89, p. 8, Eff. Oct. 21, 1976.

R 285.408.2 Last day of sale.

Rule 2. (1) Each processor and manufacturer of milk and milk products sold in this state shall place on each container of milk and milk products a recommended last day of sale by month and day.

(2) The date shall be expressed by the first 3 letters of the month followed by the numeral designating the appropriate calendar day, or by expressing the calendar month numerically followed by a numeral designating the calendar day. For example, September 9 may be expressed as "Sep.09" or "9.09." When the numerical expression is used, a day numbering less than 10 shall be shown with a zero as the first digit; for example, 01 or 03.

(3) The date shall appear on that part of the container that is most likely to be displayed, presented, or shown under customary display conditions of sale. However, a cup container may have the date placed on the bottom.

(4) The date on the container shall be legible and shall not interfere with the legibility of other information required to be on the product.

History: 1954 ACS 89, p. 8, Eff. Oct. 21, 1976.

R 285.408.3 Time interval of date.

Rule 3. Processors and manufacturers of milk and milk products shall register the following information with the department on forms provided by the department:

(a) The assigned date of each milk and milk product processed and the length of time between production and the date. This length of time shall be substantiated by plant records of a testing program conducted by the processor or manufacturer.

(b) The method of application, and location of the date, for each size and style of container.

(c) Changes in the time interval of the date prior to the effective day of the change.

History: 1954 ACS 89, p. 9, Eff. Oct. 21, 1976.

R 285.408.4 Flavor.

Rule 4. (1) Milk and milk products shall maintain nutritional levels and shall not have a flavor change before the date.

(2) The department shall periodically sample and analyze milk and milk products to determine if the flavor has changed by the date. Milk and milk products obtained for analysis by the department prior to the date shall be stored at a temperature of 44 degrees Fahrenheit, plus or minus 1 degree, until analyzed.

(3) The processor or manufacturer of milk or milk products which do not maintain their flavor until the date shall, upon receipt of written or verbal notice from the department, make the changes necessary to improve product quality or alter the date so as to comply with these rules. The processor or manufacturer is not responsible for milk and milk products when the nutritive value loss or flavor deterioration of those products can be determined to be caused by mishandling, improper storage, or lack of refrigeration at points beyond his control.

History: 1954 ACS 89, p. 9, Eff. Oct. 21, 1976.

R 285.408.5 Sale after date.

Rule 5. (1) Milk and milk products shall not be offered for sale after the date, unless they are advertised to the final consumer in a prominent manner as being beyond the recommended last day of sale.

(2) The final seller is fully responsible for the proper advertisement of milk and milk products sold beyond the date.

History: 1954 ACS 89, p. 9, Eff. Oct. 21, 1976.

FOOD INSPECTION DIVISION

REGULATION NO. 502. GRADING, LABELING, AND MARKETING OF TOMATOES

(By authority of Act No. 91 of the Public Acts of 1915, as amended, being §285.31 et seq. of the Michigan Compiled Laws)

R 285.502.1 Grading, labeling, and marketing of tomatoes.

Rule 1. (1) Because the tomatoes grown in Michigan comprise one of our major agricultural crops and the business of selling and distributing depends on quality pack, it is deemed necessary to promulgate Michigan grades for the successful continuance of the Michigan tomato industry. Such grades may be used in lieu of U.S. grades.

(2) Michigan No. 1:

Shall consist of tomatoes of similar varietal characteristics which are mature but not overripe or soft; which are fairly well formed, free from decay, freezing injury, and from damage caused by dirt, bruises, cuts, sunscald, sunburn, puffiness, scars, catfaces, growth cracks, insects, hail, and free from visible disease at shipping point. In order to allow for variations incident to proper grading and handling, not more than 10%, by count, of the tomatoes in any lot may be below the requirements of this grade but not more than 1/10 of this amount, or 1%, shall be allowed for soft ripe tomatoes or tomatoes affected by decay. However, when a tolerance of 10% is provided, individual containers in the lot cannot exceed 1½ times the tolerance, and when a tolerance of less than 10% is provided, individual containers shall not contain more than double the tolerance.

(3) Michigan No. 2:

Shall consist of tomatoes of similar varietal characteristics which are mature but not overripe or soft; not badly misshapen; free from decay, unhealed cuts, freezing injury, and from serious damage caused by bruises, sunscald, sunburn, catfaces, growth cracks, scars, disease, hail, or mechanical or other means; puffiness; insects. In order to allow for variations other than size incident to proper grading and handling, not more than a total of 10% by count, of the tomatoes in any lot may be below the requirements of this grade but not more than 1/10 of this amount, or 1%, shall be allowed for soft ripe tomatoes or tomatoes affected by decay.

(4) Unclassified:

Tomatoes not meeting the foregoing grades or any of the U.S. grades shall be marked "Unclassified."

(5) Grade marks:

The name and address of packer with grade declared must be legibly and conspicuously printed or stamped on ends of containers in letters not less than ¼ inch in height. Only Michigan grown and packed tomatoes may carry Michigan grades. No person, firm, association, or corporation shall sell or have in possession with intent to sell any tomatoes not graded and labeled as set forth in this rule and in section 283 of Act No. 328 of the Public Acts of 1931, being §750.283 of the Michigan Compiled Laws.

(6) Definitions of terms as used in these grades:

(a) "Similar varietal characteristics" means that the tomatoes are alike as to firmness of flesh and shade of color, i.e., that soft-fleshed early maturing varieties are not mixed with firm-fleshed mid-season or late varieties, or bright red varieties mixed with varieties having a purplish tinge.

(b) "Mature" means that the contents of the seed cavities have begun to develop a jelly or glue-like consistency and the seeds are well developed.

(c) "Fairly well formed" means that the tomato is not decidedly kidney shaped, lopsided, elongated, angular, or otherwise deformed.

(d) "Damage" means any injury which materially affects the appearance or the edible or shipping quality. The following shall be considered as damage:

(i) Cuts which are not shallow, not well healed, or more than ½ inch in length.

(ii) Puffy tomatoes. These tomatoes are usually angular and flat-sided. They are damaged if open space in 1 or more locules materially affects the appearance when the tomato is cut through the center at right angles to a line running from the stem to the blossom end.

(iii) Scars (except catfaces) when aggregating more than ¾ inch in diameter.

(iv) Catfaces when scars are rough or deep, when channels are very deep or wide, of if catface is fairly smooth with an area greater than that of a circle ¾ inch in diameter.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261
Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-google

(v) Growth cracks (radiating from or concentric to stem scar) when not well healed, or when individual radial cracks are more than ⅛ inch in length not to exceed an aggregate length of all radial cracks of 1⅛ inch, measured from the stem scar. Concentric cracks permitted which do not affect the appearance of the tomato to a greater extent than the maximum radial cracks permitted.

(e) "Badly misshapen" means that the tomato is so badly deformed that its appearance is seriously affected.

(f) "Serious damage" means any injury which seriously affects the appearance, edible or shipping quality, or which cannot be removed in the ordinary process of trimming without a loss of more than 20%, by weight, of the tomato in excess of that which would occur if the tomato were perfect. The following shall be considered as "serious damage":

(i) Soft ripe tomatoes or tomatoes affected by decay.

(ii) Fresh holes, or cuts through the tomato wall.

(iii) Tomatoes showing any effects of freezing.

(iv) Puffiness which causes the tomato to be distinctly light in weight.

(v) Tomatoes actually infested with worms.

(vi) Catfaces: These are irregular, dark leathery scars at the blossom end of the tomato. Such scars seriously damage the tomato when they are fairly smooth and greater in area than a circle 1 inch in diameter, or when rough or deep, or when channels extend deeply into the tomato.

(vii) Growth cracks: These are ruptures or cracks radiating from the stem scar, or cracks concentric to the stem scar. They seriously damage the tomato when not well healed, or when more than 1 inch in length, not to exceed 3 cracks to the tomato, except that a very narrow well healed crack concentric to the stem scar shall not be considered as serious damage unless they are so numerous as to seriously damage the appearance of the tomato.

REGULATION NO. 505. HONEY

(By authority of Act No. 91 of the Public Acts of 1915, being §287.181 et seq. of the Michigan Compiled Laws)

R 285.505.1 Sale of honey.

Rule 1. (1) No person shall offer or expose for sale, have in possession with intent to sell, or sell, extracted honey in retail packages that does not conform to the standards of the United States department of agriculture for U.S. grade fancy.

(2) In addition, the package must be clearly labeled "white," "amber," or "dark" according to the color of the honey contained therein compared to the standard scale of the Pfund honey grader.

(3) No person shall offer or expose for sale, have in possession with intent to sell, or sell, comb honey that does not conform to the standards of the United States department of agriculture for U.S. grade No. 2, or better, unless each

package be clearly marked on the outside "cull." Each package must be marked with the minimum net weight of the honey it contains.

(4) This rule shall not apply to the beekeeper when offering honey produced by himself direct to the consumer.

(5) A certificate of grade will be issued to any person or firm packing honey in the state of Michigan who submits a sample for inspection to the bureau of foods and standards, department of agriculture, Lansing, Michigan. The packer will be authorized to reproduce this certificate on any package containing honey having the same characteristics as the sample, within prescribed limits.

(6) The services of the state inspector will be available to grade bulk packages (cases of comb honey or 60-pound cans of extracted honey). Application for such inspection may be made by any producer, shipper, buyer, or prospective buyer of honey. The applicant shall provide the labor incident to handling the honey for the purpose of taking samples, and will be charged a fee of 1¢ per case of comb honey and 1½¢ per 60-pound can of extracted honey inspected.

REGULATION NO. 514. FOODS AND BEVERAGES OFFERED FOR SALE

(By authority of Act No. 344 of the Public Acts of 1917, being §289.201 et seq. of the Michigan Compiled Laws)

R 285.514.1 Foods and beverages offered for sale at fairgrounds, circus grounds, carnivals, parks, resorts, and roadside stands.

Rule 1. (1) All stands where food is served to the public shall be constructed of substantial materials and provided with durable roofs.

(2) All concessions serving food or drink must have all cooking, processing, or preparation areas properly covered so that food will be protected at all times from dust, dirt, insects, rodents, and other contamination. All such concessions must be provided with a plentiful supply of hot water for washing dishes and other utensils.

(3) Equipment used in the cooking of "hot dogs," "hamburgers," steaks, or other foods or in the preparation of other foods, such as candy and candy-coated apples, must be enclosed on at least 3 sides with covers extending entirely over such equipment.

(4) All foods must be kept covered and protected from dust, dirt, and insects at all times. Soda straws must be individually wrapped, sugar bowls and condiment containers properly covered. This rule shall not prohibit the use of individually wrapped or packaged portions of such items.

(5) Cooking of foods in the open will not be permitted. No food or drink concession may be operated within 50 feet of a stable, refuse pile, or outside toilet not connected to a sewer or septic tank.

(6) All garbage must be kept covered in fly-tight, durable containers and removed daily.

(7) Beverages and all other drinks, except tea and coffee, must be served in sanitary individual cups or closed individual containers. A new cup must be used for each person served. Such beverages must be drawn or served from cooler bottles or closed containers. No dipping of such products will be permitted.

(8) All water and ice must be from a tested and approved source of supply. All mills and juice presses shall, while in operation, be covered and protected from dust, dirt, rodents, insects, or other possible contamination.

(9) All forms of ice, used as part of any food or drink in its preparation, must be clean and free from any foreign material or contamination. Supplies of such ice must arrive at any fairgrounds, carnival or circus grounds, parks, resorts, or roadside stands in clean, closed bags, packages, or containers as prepared at the point of manufacture.

(10) No cold beverages, other than orangeade and lemonade, shall be made on any fairgrounds, carnivals, parks, resorts, or roadside stands, unless made from syrup which has been registered with the Michigan department of agriculture. (§289.403 of the Michigan Compiled Laws)

(11) All such drinks and any other nonalcoholic beverages that contain "artificial color" must be so labeled. Any such drink containing "artificial flavor" of any character shall be labeled "imitation," said labels to be prominently displayed to the public on all dispenser containers. "Artificial color," "artificial flavor," or "imitation," whenever applicable, shall precede and be in equal size type with the name of the imitated fruit juice following. All display signs must conform to the aforementioned requirements. (§289.409 of the Michigan Compiled Laws)

(12) All concessions dispensing food or drink must be equipped with available handwashing facilities on the immediate premises. Individual towels and plenty of soap shall be provided at all times.

(13) Adequate refrigeration for perishable foods must be maintained and readily available.

(14) All cooked, partially cooked, baked, or fried foods must be kept hot (at least 130 degrees Fahrenheit) or cold (50 degrees Fahrenheit or less) and may not be displayed openly unless such requirements are maintained, except those products which do not, under good commercial practices, require refrigeration or heating to safeguard their quality.

(15) All prepared foods and drinks must be packaged, wrapped, or completely protected from contamination when offered for sale, delivered to, or sold within the lot or grounds at locations other than where prepared.

(16) The provisions of this rule requiring the covering and enclosure of cooking areas shall not apply to open pit barbeques when such installations are approved by the department of agriculture.

R 285.520.1 Marking and designation of tomatoes not ripened on vine.

Rule 1. (1) The obvious intention of Act No. 113 of the Public Acts of 1939, having been to prohibit the retail sale of tomatoes that were not "vine ripened" as "vine ripened" tomatoes, and it appearing that for the best interest of all concerned, including the producer, seller and purchaser, that only such marking as will properly and thoroughly apprise the purchaser of the kind of article he is buying is necessary.

(2) It is hereby ordered that a seller who conspicuously marks by a placard placed in or upon the container from which tomatoes not ripened on the vine are sold that such tomatoes are not "vine ripened" shall be sufficient to comply with the intention of Act No. 113 of the Public Acts of 1939. The following wording shall be used "not vine ripened."

REGULATION NO. 523. DRY EDIBLE BEANS

(By authority of Act No. 191 of the Public Acts of 1915, as amended, being §285.51 et seq. of the Michigan Compiled Laws)

R 285.523.1 Michigan standards for dry edible beans.

Rule 1. (1) Michigan standards for dry edible beans are as follows:

HANDPICKED BEANS

Grade Requirements

Grade	Maximum limits of—					
	Defects consisting of splits, damaged beans, contrasting classes and foreign material				Other Classes that Blend[2]	Average Color of Crop Year
	Total Defects[4/5]	Badly Damaged	Contrasting Classes	Foreign Material		
	Percent	Percent	Percent	Percent	Percent	
Michigan Choice Handpicked	1.5	0.3	.01	.01	5.0	Good
Michigan Prime Handpicked	3.0	0.3	.01	.01	5.0	Fair

SCREENED BEANS

Grade Requirements

Grade	Maximum limits of—					
	Defects consisting of splits, damaged beans, contrasting classes and foreign material				Other Classes that Blend[1/2/3]	Average Color of Crop Year
	Total Defects[4/5]	Contrasting Classes	Foreign Materials			
			Total	Stones		
	Percent	Percent	Percent	Percent	Percent	
Michigan No. 1	2.0	0.5	0.4	0.2	5.0	Good
Michigan No. 2	3.0	1.0	0.8	0.4	10.0	Fair

[1]The beans of the class of yelloweye in any established grade may contain not over 12% of white beans similar to yelloweye in size and shape.

[2]The beans in the class of red kidney may contain sports, faders, and blue beans in amounts not to exceed 3% in Michigan choice handpicked, Michigan prime handpicked, or Michigan no. 1, and 5% in Michigan no. 2 grade.

[3]The beans in the classes of cranberry and pinto may contain faintly or indistinctly mottled beans of the same type not to exceed 3% in Michigan no. 1, and 4% in Michigan no. 2 grade.

[4]The beans in the classes of cranberry, pinto, marrowfat, and yelloweye may contain an additional 2% split, but otherwise sound, beans of the same class in any of the established grades.

[5]The total maximum tolerance for defects in kidney beans shall be 2% in Michigan choice handpicked and Michigan no. 1, and 4% in Michigan prime handpicked and Michigan no. 2 grades. Other specifications shall conform with the preceding table.

(2) All graded beans shall be dry and well screened, show evidence of being well processed and graded, and shall possess a clean natural odor, and shall be free from highly objectionable foreign material.

SPECIAL GRADES

Requirements

(3) Split Michigan beans shall be beans of any class which have been split or broken and may contain not to exceed 5% of otherwise damaged beans, 1% of foreign material and 2% of contrasting classes; the sample shall be reasonably free from chaff, dust, and loose skins or seed coats.

(4) Mixed split Michigan beans shall be a mixture of 2 or more classes of split and broken beans and may contain not to exceed 5% of otherwise damaged beans, 1% of foreign material and the sample shall be reasonably free from chaff, dust, and loose skins or seed coats.

History: 1954 ACS 18, p. 28, Eff. May 15, 1959.
Editor's note: For text and history of prior provisions of R 285.523, see 1954 AC, p. 1540.

R 285.523.2 Definitions.

Rule 2. (1) "Percentages," except in the case of moisture, shall be percentages ascertained by weight.

(2) "Percentage of moisture" shall be that ascertained by the water oven or air oven and the method of use thereof described in service and regulatory announcement no. 147 of the agricultural marketing service of the United States department of agriculture, or that ascertained by any device and method which gives equivalent results. Moisture content shall be designated in units of half percent

and whole percent. A fraction of a percent when equal to or greater than ½ shall be stated as ½ and when less than ½ shall be disregarded.

(3) "Sound beans" shall be beans which have a natural odor, and are free from must, mold, damage, and other defects.

(4) "Peewee or small beans." All sound navy or peabeans which screen out by using a 13/64 x ¾ inches slotted bottom screen but will ride over a 9/64 x ¾ inches shall be known as "Peewee" and the regular grade requirements for dry beans shall apply in the grading thereof. The inspection certificate shall bear the "Peewee" designation and the labeling on the package shall also include this designation.

(5) "Mixed beans" shall be defined as any lot of dry edible beans being composed of 2 or more classes mixed together, the mixture en masse shall meet the regular grade requirements for the predominating class in the sample in all respects except for the presence of sound split beans of any class, sound sports or faders, and other classes.

(6) "Defects" shall include splits, damaged beans, contrasting classes, and foreign material.

(7) "Splits" shall be pieces of beans which are not damaged and which consist of three-fourths or less of the whole bean and shall include beans the halves of which are held together loosely, but shall not include beans with only cracked or checked skins.

(8) "Damaged beans" shall be beans and pieces of beans which are injured or discolored by frost, weather, diseases, insects, or other causes so as to affect the appearance and quality of the sample.

(9) "Badly damaged beans" shall be beans and pieces of beans which are seriously injured or discolored by frost, weather, diseases, insects, or other causes as to seriously affect the appearance and quality of the sample.

(10) "Foreign material" shall include stones, dirt, weed seeds, cereal grains including corn, soy beans, and all matter other than dry edible beans.

(11) "Stones" shall be rocks, stones, pebbles, shale, other concreted earthly matter, or other substances of similar composition and hardness that do not readily disintegrate in water.

(12) "Contrasting classes" shall be beans of other classes which are of a contrasting color, size, or shape to the beans of the class designated.

(13) "Other classes that blend" shall be sound beans of other classes which are similar in color, size, and shape to the beans of the class designated, and shall not include sports in the classes of light red kidney, dark red kidney, and western red kidney.

(14) "Weevily beans" shall be beans which are infested with weevils or other insects injurious to stored beans or which contain beans that have been damaged by such weevil or insects.

(15) "Well screened," as applied to the general appearance of beans, shall mean that the beans are practically free from such small, shriveled, undeveloped, split, and broken beans, large beans, and foreign material, as can be readily removed by the ordinary process of milling and screening through the proper use of top and bottom mill screens, as are generally recognized by the bean industry. The recognized top and bottom screen sizes to be used in combination on navy or pea beans are as follows:

Minimum Bottom	Maximum Top
13/64" x ¾" slotted with	No. 20 or 29/64" diameter perforation
11/64" x ¾" slotted with	No. 21 or 21/64" diameter perforation
13/64" x ¾" slotted with	No. 22 or 23/64" diameter perforation

Recommended minimum bottom and maximum top screen sizes for use in screening colored beans are as follows:

Cranberry		Yelloweye		Kidney	
Top range	Bottom	Top range	Bottom	Top range	Bottom
26 - 28	13/64" x 3/4"	24 - 26	13/64" x 3/4"	26 - 30	13/64" x 3/4"

(16) "Handpicked" shall be a qualitative descriptive term for beans which have been actually handpicked or otherwise processed in order to meet all specifications and requirements for handpicked grades as established and shall not apply to numerical grades, or "off-color" beans.

(17) "Graded beans" shall be dry, edible beans, the quality and condition of which meet the requirements of any one of the specific handpicked and numerical grades as promulgated.

(18) "Picking stock" beans also known as beans of "no established grade" shall be dry beans of any class which fail to qualify for at least one grade of either the "handpicked" or "screened" grades because of condition, excessive total defects, other disqualifying factors, or which have not been well screened or well processed.

(19) "Off-color beans" shall be beans of any class that en masse after removal of defects, will not qualify for good or fair color under the standards but are distinctly below normal color standards, due to age, slight immaturity, slight frost and sunburn or bleach, slight pod stain, or any other natural cause, but which are not materially weathered and are otherwise sound. Off-color beans shall be graded and designated according to the grade requirements of the standards applicable to such beans if they were not off-color but shall not apply to "Handpicked and No. 1 grades" and there shall be added to and made a part of the grade designation following the name of the class, the word "Off-color."

History: 1954 ACS 18, p. 27, Eff. May 15, 1959.

R 285.523.3 General regulations and requirements.

Rule 3. (1) All dry edible beans grown in Michigan and placed in consuming trade channels shall be graded and meet the requirements and specifications of the official Michigan grades for dry beans before being offered for sale, sold, or purchased, except as provided in subrule (5).

(2) The person, firm, association, or corporation responsible for placing such beans into consuming trade channels, or placing same on the market for resale or consumption, shall be responsible for the grading, labeling, packing, and inspection thereof.

(3) Grading, labeling, and official inspection shall be mandatory at point of origin on the lot or shipment as follows:

(a) All containers (100# or less) shall be conspicuously and legibly labeled on the face thereof showing:

(i) The net weight of the contents.

(ii) The name of the product, including the name of Michigan when produced in this state.

(iii) The official state grade into which the contents classify.

(iv) The name and address of the person or firm responsible for placing the product on the market.

(b) On 100# bags or containers for shipment to canners, packagers, and processors and when there is positive assurance that the beans will not be displayed to the consuming public in the original shipping container, the grade

labeling may be shown as in subdivision (a) or the shipper may declare the grade by use of a placard as described in R 285.523.4(5), under the heading "regulations governing grading, labeling, and inspection." All other labeling as required in subdivision (a) shall appear in its entirety. The shipper and/or packer whose name must appear on the bag or container will be held fully responsible for any diversion of shipments not bearing the grade label on the individual bag or container.

(c) Every lot or shipment shall be graded and inspected by a licensed bean inspector who shall issue an official grading and inspection certificate thereon before the lot may be transported or shipped for consuming purposes.

(4) Graded beans may be shipped in bulk only to canners, packagers, and processors, subject to the compulsory inspection requirements of these rules and including the following special requirements:

(a) All conveying vehicles must meet the required specifications as follows:

(i) The floors, walls, and ceilings must be thoroughly cleaned and tightly fitted to protect the load from the weather, contamination, and extraneous matter. Said vehicles must also be free from objectionable foreign odors.

(ii) Must allow for adequate space above the loaded mass to permit thorough sampling throughout the length and depth of the load and also to provide for circulating air space between the top of load and the roof of vehicle.

(iii) Type and construction of any conveyance which might be considered hazardous to the inspector or prevent the performance of his duties as prescribed for adequate and thorough sampling and inspection shall be considered as inadequate and unsatisfactory.

(5) Picking stock or ungraded beans may be transported within the state for the purpose of storage or processing to grade only.

(6) Transporting agents must have credentials in their possession, when transporting picking stock beans, to prove beyond a doubt that the load is being legitimately and legally transported and delivered.

(7) The standard moisture content of beans defined in the above grades shall be not in excess of 18% moisture and within the limits of the tolerance as defined. High moisture beans shall be graded and designated according to the grade requirements of the standards otherwise applicable; and there shall be added to and made a part of the grade designation, in every case of high moisture content, following the name of the class, the words, "except moisture," followed by a statement of the percentage thereof in terms of whole percent and half percent, and such statement must appear on the inspection certificate to establish and protect the grade.

(8) Official bean inspection certificates declaring an established grade may not be issued by any authorized inspector until and unless all the containers and conveyances conform to all labeling and condition requirements.

History: 1954 ACS 18, p. 29. Eff. May 15, 1959.

R 285.523.4 Regulations governing grading, labeling, and inspection.

Rule 4. (1) All dry edible beans, before being placed into any trade channels, for human consumption, precooking, manufacturing, or canning, through purchase, sale or by transportation, shall be graded, labeled, or placarded, and officially inspected by an inspector duly licensed by the Michigan department of agriculture.

(2) All bags or containers used in packing and shipping graded beans shall be standard, sound, clean, free from holes, neatly and legibly printed or stenciled.

(3) The name of the product, including the word "Michigan" when grown in Michigan, the official state grade of the beans, the net weight, and the name and address of the person or firm responsible for placing the product on the market, must appear on the face of the bag, carton, parcel, or package, or on a tag affixed to such bag, carton, parcel, or package. The labeling shall be legible, conspicuous, neatly and uniformly applied, and subject to the following specifications and requirements.

(a) Unless the word "Michigan," the varietal name, and the word "beans" appear on the container as a part of the trademark or identification they must appear in the declaration of the grade in the following order and form: "Michigan Choice Handpicked Navy Beans," or "Michigan No. 1 Light Red Kidney Beans."

(b) On containers holding 25 pounds or more the letters and figures used in the labeling shall be not less than 1½ inches in height, and on smaller containers shall be appropriate for, and consistent with, the size of containers used, but at no time shall the lettering be less than ¼ inch in height; except that, when bags or packages holding 25 pounds or more are rebranded by stenciling, the maximum size of the letters or figures made by using a standard stencil cutting machine shall be recognized and accepted.

(c) When the shipper so desires, all the required labeling may appear on a tag made from cloth or tough paper. This tag may not be less than 2½ x 5 inches in size and shall be furnished by the shipper and securely attached to the top and outside of the package. When all but the proper grade labeling, the name and address of the packer or distributor and/or the net weight appears on the container, then this information may appear alone on the tag.

(d) A shipper may not use containers bearing the names of other shippers without having in his possession a signed authorization from such other shippers to use the containers so labeled.

(e) Containers bearing grade labels not conforming to the grade of beans being packaged therein shall be rebranded or stenciled in a neat and legible manner, and any improper labeling shall be completely obliterated. In cases where rebranding is necessary, and the shipper elects to use the tag labeling, the bags may be turned with the plain side out, if, in the judgment of the shipper, this procedure would improve the general appearance of the package.

(4) Each and every lot or shipment of dry beans being transported and moving into trade channels, as described in subrule (1), shall be accompanied by a true copy of the official inspection certificate, or, in lieu thereof, in the case of warehouse inspected lots, the driver of the vehicle or the transporting agent shall have in his possession documentary evidence giving all pertinent information regarding the grading of the lot and the identification thereof. In case of carload shipments the transport copy of inspection certificate shall be fastened to inside of car by the inspector.

(5) On all shipments of graded beans loaded in bulk and/or packed in 100 pound bags or containers on which the grade label does not appear the correct grade and other required information shall appear on a placard supplied by the shipper or applicant and posted in a conspicuous place on the inside of the conveying vehicle by said shipper or applicant. The placard shall be not less than 6 inches x 12 inches in size, the grade shall appear on a separate line in letters or figures of ½ inch minimum size and in form and wording used in the standards and shall agree in every detail with the grade as stated on the transport copy of the inspection certificate which shall also be conspicuously posted near the shipper's "placard"on the inside of the railroad vehicle. In order to achieve uniformity and to be consistent the following form is required for the "Placard":

R 285.523.5 Sales to federal agencies.

Rule 5. (1) To facilitate the movement of dry edible beans to agencies of the federal government, under any purchase and sale program of any federal agencies requiring the use of United States grade standards, the use of Michigan official grade standards is hereby waived to the following extent:

(a) Permission is granted any seller of beans to use the United States grade designation only for the grade involved; and

(b) To use the United States grade specifications of tolerance and allowances in determining grade; and

(c) To use only the requirements of any federal agency or federal regulation relating to branding or identifying the beans contained in any size container.

(2) The inspection to determine the grade of any lot of beans, sold to any agency of the federal government, and its certification as to grade by an authorized inspector of the Michigan department of agriculture, shall be in accordance with the interpretation of the said federal grades by the federal agency establishing such grades and requirements for certification thereof; provided, however, that no sale may be made by any person in Michigan to any federal agency without receiving inspection and certification as to grade by an authorized inspector of the Michigan department of agriculture.

(3) The use of federal grade standards on beans within the state of Michigan shall be limited to those grades designated as U.S. choice handpicked, U.S. no. 1 handpicked, U.S. no. 1, U.S. no. 2 handpicked, and U.S. no. 2, as applicable to variety or class.

(4) This ruling shall be effective only during such time as there exists a cooperative agreement between the Michigan department of agriculture and the United States department of agriculture and such other agencies as may, by mutual consent, be a party to such cooperative agreement, governing the

determination of grade and certification of such grade on dry edible beans, which in effect, maintains to the Michigan bean industry satisfactory compulsory grades and inspection of beans.

(5) No regulation governing the compulsory inspection and grading of beans in Michigan is waived that in any manner prohibits or weakens the mechanics necessary to the maintenance of compulsory bean grading, inspection, and certification of any bean sales in Michigan.

(6) In case of the use of both federal grade designation and Michigan official grade designation on any lot of beans offered for sale, the Michigan official grade designation shall govern as to branding, and the interpretation of the grade by inspectors for certification shall be that used for Michigan official grades.

History: 1954 ACS 18, p. 31, Eff. May 15, 1959.

R 285.523.6 Inspection procedures.

Rule 6. (1) Shippers or others requesting inspection on any lot of beans shall give the inspector ample advance notice of desired inspection service.

(2) All shipments must be completely loaded before official inspection is made and beans must not be loaded to a depth which would hinder or prevent thorough sampling of the load throughout the length and depth thereof. Sampling of beans in the loading bins will not be recognized for "official inspection" use.

(3) Shippers shall furnish help to the inspector to provide for thorough sampling or to gain access to all parts of any specific lot on which inspection is desired.

(4) Inspectors shall thoroughly sample at least 10% of all 100 pound bags in the lot and at least 10 packages from every 10,000 pounds represented if containers hold less than 100 pounds each. No less than 5 packages shall be selected for sampling of any sized lot. In case the small packages become mutilated through sampling, similar packages containing beans of equivalent quality may be substituted for the ones selected for sampling:

(a) At all times extreme care shall be exercised by the inspector when sampling so as not to unnecessarily damage the containers.

(b) Samples shall be taken from all parts of the lots at random and the inspector shall be personally responsible for and vouch that all samples drawn are truly representative to the best of his knowledge and belief.

(c) Sufficiently large samples shall be drawn by the sampler or inspector in order that at least a 1-pound portion may be filed with the inspection laboratory and an equal portion or more must be kept on file by the inspector for at least 30 days.

(d) Bulk sampling methods and procedures shall be uniform for all inspectors and in accordance with instructions which shall be issued in writing to all inspectors from time to time as required. An inspection certificate for an established grade shall not be issued when there is an apparent wide variation of quality, but picking stock regulations shall then govern inspection and disposition of the load.

(e) Inspectors must at all times be in a position to furnish sworn affidavits on any sample to substantiate and verify the origin and identity of such samples, and such affidavits shall also specify that said sample was personally taken by him strictly in accordance with instructions as provided in subdivision (d).

(f) Entire composite samples of all bulk loads inspected shall be kept intact, in approved sample bags, and filed by the inspector for at least 30 days.

(5) Inspectors shall seal all trucks, cars and other vehicles with official seals of the department of agriculture. Warehouse lots shall be sealed and identified in accordance with specifications under R 285.523.7.

History: 1954 ACS 18, p. 32, Eff. May 15, 1959.

R 285.523.7 Warehouse inspections.

Rule 7. (1) Warehouse inspection service may be granted to dealers who comply with the following requirements:

(a) Warehouse lots shall be positively and adequately identified by warehouseman or shipper, prior to sampling and inspection.

(b) The shipper or warehouseman shall furnish help to the inspector, enabling thorough sampling, identifying, and sealing of all warehouse inspected lots.

(2) Warehouse inspection may be refused by the department of agriculture for noncompliance with required procedures set forth in these rules.

(3) The transport copy of inspection certificate or other positive and adequate evidence of inspection shall be supplied to transporting agent by shipper.

History: 1954 ACS 18, p. 33, Eff. May 15, 1959.

R 285.523.8 Issuance and use of official grading and inspection certificates.

Rule 8. (1) The official bean grading and inspection certificates of the Michigan department of agriculture shall consist of a form and words mutually agreed upon and approved by the department and the Michigan bean shippers association, and shall carry the official state seal.

(2) Throughout the duration of the cooperative agreement between the Michigan department of agriculture and the Michigan bean shippers association, the chief bean inspector of the Michigan bean shippers association shall be the official grading authority for the determination of conformance of any lot of beans to the official state grade.

(3) Each inspection certificate shall have recorded thereon the key identification number of the shipper, as furnished by the Michigan department of agriculture.

(4) An inspection certificate shall not be valid if the beans are not shipped within 15 days of the date thereon.

(5) Each car lot and truck lot of beans inspected shall be sealed with the official seal of the Michigan department of agriculture, and seal numbers shall be recorded on the inspection certificate. Lot numbers or symbols of identification of warehouse lots shall appear on the inspection certificate.

(6) The original inspection certificate or suitable manifests shall in all cases be delivered to the buyer with the invoice or other documents covering the shipment.

History: 1954 ACS 18, p. 33, Eff. May 15, 1959.

R 285.523.9 Reinspection.

Rule 9. Any shipper, owner, or seller of any lot of beans may have the privilege of asking for reinspection at point of origin if he has sufficient grounds to differ with the grading of the lot by the inspector making the original sampling and inspection. The request for a reinspection shall be filed with the chief inspector and he shall supervise or direct the resampling, if he deems it necessary, or he may use the inspector's sample for analysis by him. If the chief inspector's grading differs from the original inspector's grading, then all copies of the certificate covering the first inspection shall be surrendered and a new certificate shall be issued by the chief inspector. In cases where the grading of the first inspector is

confirmed, the applicant for a reinspection shall bear all additional costs incurred in connection with the reinspection.

History: 1954 ACS 18, p. 33, Eff. May 15, 1959.

R 285.523.10 Appeal inspections.

Rule 10. (1) Any financially interested party may appeal the grading of any lot or shipment of beans if the quality and condition of the lot, upon arrival at destination, does not conform in his judgment to the grade and condition as shown on the official bean inspection certificate. The request for an appeal inspection must be filed with the chief inspector within 3 full business days after arrival of the shipment and before the shipment is unloaded and loses its identity. The chief inspector shall supervise and direct the sampling and the grade shall be determined by the director of agriculture on the basis of the sample submitted to him by the chief inspector. An advisory board shall be established for the purpose of advising the director of agriculture and shall consist of the chief inspector, the state supervisor, and one disinterested licensed bean inspector.

(2) In the event the original grading is reversed, the outstanding certificate shall be recalled, and a certificate giving the correct grading shall be issued by the director of agriculture. The decision of the director of agriculture shall be final and the loser in the appeal shall bear the cost incurred in connection with the appeal.

History: 1954 ACS 18, p. 33, Eff. May 15, 1959.

R 285.523.11 Sales by original producers.

Rule 11. Dry edible beans sold direct to the consumer by the original producer are exempt from these provisions. Evidence of qualifying for this exemption by means of sworn affidavits must be supplied by the producer upon the request of the director of the Michigan department of agriculture.

History: 1954 ACS 18, p. 34, Eff. May 15, 1959.

R 285.523.12 Interpretation and amendment.

Rule 12. (1) The director of the Michigan department of agriculture which is charged with the responsibility of the administration of these rules is authorized to interpret their provisions and set up procedures which he deems necessary in order to carry out the intent and purposes of the rules.

(2) These rules may be altered or amended at any time throughout the year by the commission of agriculture upon agreement between the parties of the latest cooperative contract between the Michigan department of agriculture and the Michigan bean shippers association by means of a special committee, the members of which are appointed by the Michigan bean shippers association to represent their interests in the contract, and the director of agriculture representing the commission of agriculture to represent the department's interest in the contract, to be made effective pursuant to Act No. 88 of the Public Acts of 1943, as amended, being §24.71 et seq. of the Michigan Compiled Laws.

REGULATION NO. 530. CONTROLLED ATMOSPHERE STORAGE FOR APPLES

(By authority conferred on the director of agriculture by Act No. 228 of the Public Acts of 1959, being §286.411 et seq. of the Michigan Compiled Laws)

R 285.530.1 Definitions.

Rule 1. (1) The term "apples" as used in these rules shall mean all varieties of the fruit commonly known as apple.

(2) The term "sealed storage room," "sealed storage space," or "sealed storage building," as used in these rules, shall apply to all sealed storages in which controlled atmosphere is maintained, inferred, advertised, or represented as such.

History: 1954 ACS 23, p. 7, Eff. Aug. 12, 1960.

R 285.530.2 Construction.

Rule 2. (1) Each sealed storage room, space, or building used as a controlled atmosphere storage facility for apples shall be constructed of materials that will permit adequate tightness for establishing and maintaining the necessary levels of carbon dioxide and oxygen gases.

(2) Each sealed storage room, space, or building shall have a Fahrenheit thermometer properly installed and maintained. An approved gas analyzer for the measurement of carbon dioxide and oxygen gases shall be readily accessible to all sealed storage rooms or units.

History: 1954 ACS 23, p. 7, Eff. Aug. 12, 1960.

R 285.530.3 Atmospheric controls and records.

Rule 3. (1) The director of agriculture shall be notified of the date of sealing of a controlled-atmosphere room within 5 days of the sealing operation.

Digitized by Google

(2) The oxygen content within the sealed storage shall be 5% or lower within 30 days after the storage is sealed by the operator. A record of the temperature of the rooms to be loaded must be kept and available for inspection.

(3) The fruit shall be stored in a continuously sealed storage, with not more than 5% oxygen for a minimum period of 90 days—except Jonathan variety which may be removed from such storage in not less than 60 days and except as provided in the following subdivisions (a), (b), and (c):

(a) The oxygen level in any sealed controlled storage may exceed 5% for an accumulated time not to exceed 10 days (240 hours) during the storage period. The storage period shall be increased to 100 days for all fruit except Jonathans, which is 70 days when the atmospheric conditions have been interrupted.

(b) All controlled atmosphere storage rooms shall be sealed by a department of agriculture seal, affixed by an authorized representative of the department. All storages to qualify for C.A. must have been sealed by a department representative on or before November 15 of the storage year. No seal shall be broken nor any such room be entered during the 60 or 90 day required period except as provided in subdivision (a) of this subrule. Whenever such interruptions occur, the foods and standards division of the department of agriculture must be notified within 48 hours after the opening of such rooms. Such entered rooms shall thereafter be resealed by an authorized representative of the department of agriculture.

(c) The air temperature of any storage room shall not exceed 37 degrees Fahrenheit for Jonathan, Rome Beauty, Delicious (all), and Stayman varieties nor shall the temperature exceed 43 degrees Fahrenheit for all other varieties during the interruption period.

(4) Daily records shall be maintained on the atmospheric conditions in each sealed storge room from the date of sealing to the date it is opened. This record shall indicate the time of the recording, the temperatures in degrees Fahrenheit, the percent of carbon dioxide, and the percent of oxygen.

agriculture and at a cost as set forth in the established schedule of fees. The use of the Michigan seal of quality is available to any person, firm, or corporation for use in marketing celery who complies with these rules and any instructions issued therewith.

History: 1954 ACS 44, p. 13, Eff. Nov. 14, 1965.

R 285.531.4 Agreement and permit.

Rule 4. No person, firm, or corporation shall use the Michigan seal of quality in connection with the grading and labeling of celery unless there is in force an official written agreement between the applicant and the department of agriculture. The director shall issue a permit to make an imprint on tags, labels, and other devices of the Michigan seal of quality emblem for celery to manufacturers who sign an official agreement with the department of agriculture. Agreements and permits shall expire 1 year after date of issuance. Agreements or permits shall be renewed annually upon request prior to date of expiration and shall be in effect unless the holders are otherwise notified by the director.

History: 1954 ACS 44, p. 13, Eff. Nov. 14, 1965.

R 285.531.5 Penalties.

Rule 5. A violation of any of the applicable laws and rules shall be grounds for revocation of the permit to use the Michigan seal of quality and subject the violator to other penalties as prescribed by law.

History: 1954 ACS 44, p. 13, Eff. Nov. 14, 1965.

R 285.531.6 Standards of quality.

Rule 6. The grade for celery shall be Michigan seal of quality and the standards for such grade to which the seal can be affixed are as follows:

(a) Individual celery stalks shall:

(i) Be fairly well developed, well formed.

(ii) Have good heart formation.

(iii) Be green unless specified as fairly well blanched or mixed blanch.

(iv) Have tops generally green or light green in color.

(v) Be fresh and crisp.

(vi) Be well trimmed, fairly compact, clean.

(vii) Have an average midrib length of the outer whorl of branches not less than 8 inches, excepting packages of 2-4 stalks which are clipped to 12 inches or shorter shall have an average midrib length of not less than 6 inches.

(viii) Not be longer than container length or shorter than 1½ inches of container length.

(ix) Be free from black heart, brown stem, soft rot, pink rot, blue stem, virus disease, doubles.

(x) Be free from damage caused by freezing, growth cracks, horizontal cracks, pithy branches, seedstems, suckers, wilting, blight, other diseases, insect or mechanical or other means.

(b) All celery stalks in each package shall have similar varietal characteristics and meet all of the standards of quality for individual celery stalks.

(c) Each lot in containers of approximately 9¾ x 16 x 20⅛ inches inside dimensions shall average not less than 65 pounds gross weight or 58 pounds net weight when packed; other size containers shall be of equivalent weight.

(d) Celery shall be considered as out-of-grade and cannot be sold under the Michigan seal of quality if upon examination:

(i) More than 10% of the individual stalks, by count, in any lot fail to meet the grade requirements for individual celery stalks, including therein not more than 2% for soft rot.

(ii) More than 10% of the individual stalks, by count, fail to meet the length required or specified.

(iii) More than 5% of the individual stalks by count, fail to meet the requirements as to average midrib length.

History: 1954 ACS 44, p. 13, Eff. Nov. 14, 1965; 1954 ACS 48, p. 8, Eff. Nov. 14, 1966.

R 285.531.7 Shipping containers.

Rule 7. Shipping containers intended for use in connection with the distribution of celery packed under the Michigan seal of quality shall meet the following requirements:

(a) Shall be new, clean, and of a type recognized as a suitable shipping container for celery.

(b) Shall be lined with full-length container liners of a suitable type of liner paper recognized for use with celery if recognized as a type of container requiring a liner.

(c) Shall bear in plain sight and in plain letters on 1 end or side, the name of the person who first packed or authorized the packing of the celery or the name under which the packer is engaged in business, together with a sufficiently explicit address to permit ready location of the packer, and in figures not less than ¼ of an inch in height, the number of stalks in the container expressed in numerical count, or in dozens and half dozens followed by the term "doz." or "dozen" in like size letters or type.

(d) Unless otherwise specified in connection with the grade, stalks shall be not longer than the distance from 1 side, end, or bottom of the container to the corresponding opposite side, end, or top of the container, and stalks shall not be shorter than 1½ inches from the corresponding opposite side, end, or top of container. Such measurement shall not include the bulge. (Example: Celery stalks packed in 16-inch containers shall be not longer than 16 inches and not shorter than 14½ inches.) In any container when stalk length is specified, it shall be the minimum length expressed in even-numbered whole inches.

(e) The number of stalks of celery in the container may be specified by numerical count or in terms of dozens of half dozens. Permitted variations from the number specified in dozens shall be over only as follows:

(i) 3 dozen stalks or less: 1 stalk over.

(ii) 4 dozen stalks: 2 stalks over.

(iii) More than 4 dozen stalks: 4 stalks over.

When containers are marked with a numerical count, not more than 5% of the containers in any lot may vary more than 1 stalk, providing the average for the lot is not less than the number specified.

History: 1954 ACS 44, p. 14, Eff. Nov. 14, 1965; 1954 ACS 48, p. 8, Eff. Nov. 14, 1966.

R 285.531.8 Consumer packages.

Rule 8. Consumer packages shall be new, clean, and of a type recognized as a consumer package for celery; and bear upon them in plain sight, and in plain letters not less than ⅛ inch in height the name of the person who first packed or authorized the packing of the celery, or the name under which the packer is engaged in business, and a sufficiently explicit address to permit ready location of the packer.

History: 1954 ACS 44, p. 14, Eff. Nov. 14, 1965.

R 285.531.9 Application of tolerances.

Rule 9. The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations if the averages for the entire lot are within the tolerances specified:

(a) For packages which contain 20 stalks or more and a tolerance of 10% or more is provided, individual packages in any lot may contain not more than 1½ times the tolerance specified.

(b) For packages which contain 20 stalks or more and a tolerance of less than 10% is provided, individual packages may contain not more than double the tolerance specified except that at least 1 defective and 1 off-size stalk may be permitted in any package.

(c) For packages which contain less than 20 stalks individual packages in any lot may contain not more than double the tolerance specified, except that at least 1 defective and 1 off-size stalk may be permitted in any package; provided that, for packages which contain 6 stalks or less, individual packages in any lot are not restricted as to the percentage of defects.

History: 1954 ACS 44, p. 15, Eff. Nov. 14, 1965.

R 285.531.10 Practices and facilities.

Rule 10. Coolers, holding rooms, and any other facility in which celery is held, stored, or in any manner maintained for periods longer than required for normal movement of fresh celery shall:

(a) Be constructed, maintained, and operated in compliance with Michigan laws and rules governing food establishments, food handling, and sanitation.

(b) Not be used for commodities or products not compatible with food products.

(c) Be free from objectionable odors and from molds.

(d) Be maintained in a sanitary condition.

History: 1954 ACS 44, p. 15, Eff. Nov. 14, 1965.

R 285.531.11 Definitions.

Rule 11. As used in these rules:

(a) "Stalk" means an individual plant.

(b) "Similar varietal characteristics" means that the stalks in any package have the same general appearance and character of growth.

(c) "Fairly well developed" means that the branches are of fairly good width and thickness in relation to the length of midribs and type of celery and that there is not excessive open space in the center of the stalk.

(d) "Well formed" means that the branches are fairly straight and not more than slightly curved or twisted.

(e) "Clean" means that the stalk is practically free from dirt or other foreign material. Stalks may have a small amount of dirt on the inside of the branches or in the heart branches which cannot be removed by good commercial methods of washing.

(f) "Well trimmed" means that not more than 1 relatively thin, short or spindly, or coarse and fibrous outer branch remains; that the main root has been cut off so as not to extend more than 1½ inches below the point of attachment of the lowest outer branches; that secondary rootlets are not of such number or length as to materially affect the appearance of the stalk; and that the appearance is not materially affected by the presence of discolored leaves or by excessive removal of leaves or portions of leaves.

(g) "Fairly compact" means that the branches on the stalk are reasonably close together throughout most of their length.

(h) "Damage," unless otherwise specifically defined in this section, means any defect which materially affects the appearance or the edible or shipping quality of the celery stalk or the general appearance of the stalks in the container. Any 1 of the following defects or any combination of defects, the seriousness of which exceeds the maximum allowed for any 1 defect, shall be considered as damage:

(i) Growth cracks; when more than 2 branches are affected by growth cracks which are over ⅛ inch in length, or when more than 4 branches have growth cracks.

(ii) Horizontal cracks; when more than 3 branches have horizontal cracks which are over ⅛ inch in length or when more than 6 branches have horizontal cracks.

(iii) Pithy branches; when more than 2 are pithy in that portion of the midrib between a point 1⅛ inches above the point of attachment to the base and the first node, or between a point 1⅛ inches below the first node and the point of attachment to the base, or when pith occurs at both ends of the midrib and more than a total of 1⅛ inches is affected. Stalks having 6 outer branches or less shall have not more than ⅓ of the outer branches affected by pith as described above.

(iv) Seedstems; when the length of seedstem exceeds 1⅛ the diameter of the stalk or 6 inches in length.

(v) Dirt; when there is caked dirt on the stalk or when dirt is present between the branches to the extent that the appearance is materially affected.

(vi) Doubles; when not separated and when separated and either of the stalks is not fairly straight.

(vii) Disease:

(A) Brown stem, cracked stem, and crater blotch when materially affecting more than 2 branches or when the aggregate area exceeds ⅜ of a square inch on the branches.

(B) Discoloration when each of more than 2 branches or ¼ of the branches of the stalk, whichever is less, has more than 3 distinct hair-like lines more than 3 inches long occurring on the outer side of the branch or an aggregate area of more than ¼ inch by 1 inch of blotch or solid type discoloration occurring on the inner side.

(viii) Insects; when worms are present, or when insect injury occurs on heart branches, or when insect injury affects the midrib portion of more than 2 branches, or when injury on other portions materially affects the appearance of the stalk.

(ix) Mechanical injury; when the root has been cut off too closely leaving the branches without support, when more than 2 branches are materially scuffed or bruised, when the branches have been broken above the first node to an extent which materially affects the appearance, or when more than 2 branches are broken below the first node except that all branches may be cut below the first node if the stalk is of the length specified.

(i) "Green" means that the midrib portions of the outer branches on the stalk are generally green to light green color.

(j) "Fairly well blanched" means that the midrib portions of the outer branches on the stalk are generally of a creamy white to pale green color.

(k) "Mixed blanch" consists of green and fairly well blanched stalks of celery in the same container.

(l) "Average midrib length" means the average length of all the branches in the outer whorl measured from the point of attachment at the base to the first node.

(m) "Branch" means the leaf of a stalk and consists of the edible stem-like portion and the tops or leaf blades.

(n) "Length of stalk" means the distance from where the root is cut off to a point which represents the average length of the longest branches.

(o) "Diameter" means the greatest dimension of the stalk measured at a point 2 inches above the point of attachment of the lowest outer branch to the base.

(p) "Length of seedstem" means the distance from the base of the outer branches of the stalk to the top of the actual seedstem, exclusive of any leaves or leafstems attached to the top of the seedstem.

REGULATION NO. 532. SHELL EGGS FOR SALE UNDER SEAL OF QUALITY

(By authority conferred on the commission of agriculture by sections 5 and 14 of Act No. 70 of the Public Acts of 1961, and sections 9 and 177 of Act No. 380 of the Public Acts of 1965, being §§289.635, 289.644, 16.109, and 16.277 of the Michigan Compiled Laws)

R 285.532.1 Source of eggs.

Rule 1. Only "eggs of current production," produced, packed, and processed within the state, may be identified with "Michigan seal of quality."

History: 1954 ACS 33, p. 6, Eff. Feb. 14, 1963.

R 285.532.2 Grade of eggs.

Rule 2. Grade shall be "Michigan seal of quality" and eggs so identified shall be produced, packed, processed, and handled in accordance with the standards, requirements, and instructions as set forth in these rules.

History: 1954 ACS 33, p. 6, Eff. Feb. 14, 1963.

R 285.532.3 Seals, labels, and tags; sources.

Rule 3. "Michigan seal of quality" labels, tags, or other devices bearing the official emblem shall be obtained only at sources approved by the Michigan department of agriculture.

History: 1954 ACS 33, p. 6, Eff. Feb. 14, 1963.

R 285.532.4 Use of seals.

Rule 4. "Michigan seal of quality" is available to any person for use in marketing eggs who shall comply with these rules and any instructions issued therewith.

History: 1954 ACS 33, p. 6, Eff. Feb. 14, 1963.

R 285.532.5 Application and contract.

Rule 5. (1) No person shall use "Michigan seal of quality" in connection with the marketing of eggs unless there is in force an official written agreement between the applicant and the Michigan department of agriculture. The director shall issue a permit to make and imprint on tags, labels, and other devices the "Michigan seal of quality" emblem for eggs to manufacturers who sign an official agreement with the Michigan department of agriculture.

(2) All agreements and permits shall expire 1 year after the date of issuance. Request for renewal of such agreement or permit must be made annually prior to date of expiration and shall be in effect unless otherwise notified by the director.

R 285.532.6 Penalties.

Rule 6. Violations of any of the applicable laws and rules shall be subject to penalty by revocation of permit to use the "Michigan seal of quality" and to other penalties as described in the law:

History: 1954 ACS 33, p. 7, Eff. Feb. 14, 1963.

R 285.532.7 Eggs packaged under Michigan seal of quality.

Rule 7. (1) Official identification shall be done only under the supervision of competently trained inspectors or graders approved by the department or by graders or supervisors of grading supplied under cooperative agreement between the department and the United States department of agriculture.

(2) Each person packaging eggs for identification with Michigan seal of quality must have a satisfactory procurement and distribution program including requirements at the farm and retail store level as stated in U.S.D.A. grade certification under quality control programs effective August 1, 1963, as published in regulations governing the grading of shell eggs and U.S. standards, grades, and weight classes for shell eggs.

(3) All eggs identified as Michigan seal of quality shall be not less than U.S.D.A. grade AA quality and shall meet the requirements as set forth in section 10 of Act No. 244 of the Public Acts of 1963, being §289.330 of the Michigan Compiled Laws.

(4) Weight classes for Michigan seal of quality grade eggs shall be as indicated in the following table:

Size or Weight Class	Minimum Net Weight Per Dozen	Minimum Net Weight Per 30 Dozen	Minimum Weight for Individual Eggs at Rate Per Dozen
	Ounces	Pounds	Ounces
Extra Large.....	27	50½	26
Large.....	24	45	23
Medium.....	21	39½	20

(5) Sampling, break-out testing, and maintenance of records of break-out tests shall be done only by qualified personnel as described in subrule (1).

(6) The person at whose place of business the eggs are packaged and officially identified shall be responsible for the packaged product meeting the standards and requirements as set forth in these rules.

History: 1954 ACS 33, p. 7, Eff. Feb. 14, 1963; 1954 ACS 46, p. 44, Eff. May 14, 1966.

R 285.532.8 Package and labels.

Rule 8. All containers used in the distribution and marketing of Michigan seal of quality grade eggs shall meet the following specifications and standards and be labeled in accordance with the following:

(a) All containers, including inner packing materials, used as the primary container for packaging loose eggs shall be new, clean, and of a type recognized as a suitable container for eggs; except that good used 15 and 30 dozen size cases, including required inner packing materials, may be used provided such cases and inner packing materials are clean, undamaged, and all previous grade markings have been completely obliterated.

(b) Each consumer type container shall have printed on the principal panel of the container, or if container can be subdivided on the principal panel of each subdivision, in a clear, legible manner the full, correct, unabbreviated:

(i) Designation of quality and size in letters ¼ inch or more in height.

(ii) Name and address of producer, packer, or distributor in letters ⅛ inch or more in height.

(c) The number of eggs in a container shall be printed on the top, side, or end panel in a clear, legible manner in letters ¼ inch or more in height.

(d) Each container, other than consumer-type containers, shall have appearing in a conspicuous place in a clear, legible manner on a contrasting background:

(i) The word "eggs" in letters 2 inches or more in height.

(ii) The full, correct, and unabbreviated designation of size, quality, number of eggs contained, and name and address of the producer, packer, or distributor in letters ¼ inch or more in height.

(e) Each container, package, or subdivision thereof which may be opened shall contain on the principal panel, either by printing or sticking tape, in distinctly legible form a date, stated as the month and day or the number of the month and day, preceded by the letters "exp." or a statement such as "not to be sold after," or a number which is the day of year. The date shall not exceed 10 days from the date of Haugh unit measurement test or candling, excluding the day of testing, except that the expiration date shall start with the date of packing for those shipments received during the interim between the weekly Haugh unit test, provided such eggs are packed prior to the next weekly test. Upon expiration of the 10 days, the eggs shall be removed from the labeled packages or the Michigan seal of quality identification and expiration date shall be completely obliterated.

(f) Nothing in these rules shall prohibit the use of the AA grade declaration in conjunction with the Michigan seal of quality grade.

History: 1954 ACS 33, p. 8, Eff. Feb. 14, 1963; 1954 ACS 46, p. 45, Eff. May 14, 1986.

R 285.532.9 Facilities and practices.

Rule 9. Any person who produces or supplies eggs to be packaged under Michigan seal of quality grade and any person grading, packaging, holding, transporting, distributing, or offering for sale in any manner Michigan seal of quality grade eggs shall be subject to the following governing the conservation of egg quality:

(a) Coolers, holding, grading and packing rooms, display units, and any other facilities in which eggs are held, stored, or in any manner maintained shall:

(i) Be constructed, maintained, and operated in compliance with Michigan laws and regulations governing food establishments, food handling, and sanitation.

(ii) Not to be used for commodities, products, or any substance which emit odors which may affect the flavor or taste of eggs.

(iii) Be equipped with a tested thermometer.

(b) Cooler and holding rooms shall:

(i) Have refrigeration facilities capable of reducing within 24 hours and holding the maximum volume of eggs handled to 55 degrees Fahrenheit (internal egg temperature) if eggs are to be held not longer than 1 week.

(ii) Have refrigeration facilities sufficient to hold eggs at 40 degrees Fahrenheit (internal egg temperature) or below if eggs are to be held for periods longer than 1 week.

(iii) Have equipment and facilities for maintaining relative humidity in the room at not less than 70% nor more than 85%.

(iv) Be equipped with adequate, accurate equipment for measuring relative humidity.

(v) Be free from objectionable odors and from molds.

(vi) Be maintained in a sanitary condition.

History: 1954 ACS 33, p. 9, Eff. Feb. 14, 1963; 1954 ACS 46, p. 45, Eff. May 14, 1966.

R 285.532.10 Sampling and testing procedures.

Rule 10. Sampling and testing of samples of eggs to grade-check eggs officially identified as Michigan seal of quality grade shall be in conformance with the following provisions:

(a) The person responsible for packaging the product officially identified with Michigan seal of quality grade shall be responsible for conformity of the eggs to quality standards and other requirements of this rule until the expiration of date stated on container, if the eggs are maintained under approved conditions during the period which the eggs may be offered for sale. If eggs are not maintained under approved conditions by the person in possession of eggs at time grade and weight, or both, are checked, then the person in possession of the eggs shall be responsible for conformity of eggs to quality standards and other requirements of this rule.

(b) The person responsible for conformity of eggs to quality standards as provided for in these rules shall be responsible for the cost of all eggs broken out for grade-check purposes, if such grade-check is made in accordance with the provisions of these rules.

History: 1954 ACS 33, p. 10, Eff. Feb. 14, 1963; 1954 ACS 46, p. 46, Eff. May 14, 1966.

R 285.532.11 Invoices and invoicing sale of eggs.

Rule 11. All sales, other than retail sales to consumers, of eggs identified with "Michigan seal of quality" grade, shall be accompanied with an invoice which shall bear the following:

(a) Date of sale.

(b) Name and address of buyer and seller.

(c) Expiration dates of period eggs may be offered for sale.

(d) Number of dozens of eggs of each expiration date involved in the transaction by size, class and number indicated in "Michigan seal of quality" seal affixed to packaged product.

History: 1954 ACS 33, p. 10, Eff. Feb. 14, 1963.

R 285.532.12 Definitions.

Rule 12. As used in these rules:

(a) "Eggs" means eggs in the shell of a domestic chicken, but does not include eggs intended for incubation.

(b) "Eggs of current production" means shell eggs which have moved through usual marketing channels since the time they were laid, and have not been held in refrigerated storage in excess of 60 days.

(c) "Expiration date" means the date after which eggs bearing "Michigan seal of quality" grade may not be sold as "Michigan seal of quality" grade eggs.

REGULATION NO. 534. SEAL OF QUALITY

(By authority conferred on the commission of agriculture by Act No. 70 of the Public Acts of 1961, being §289.631 et seq. of the Michigan Compiled Laws)

R 285.534.1 Seal of quality.

Rule 1. (1) Official emblem: Emblem illustrated in subrule (2)(c), with or without user's number, shall be the official "Michigan seal of quality" emblem and when used in connection with a product shall:

(a) Be deemed to constitute a representation that the product has been officially graded and meets the requirements and quality standards as set forth under the provisions of Act No. 70 of the Public Acts of 1961 and any rules and instructions issued therewith.

(b) Bear the user's number when applied to a product.

(2) Emblem design: Design shall be the property of the department, circular in shape, and consist of:

(a) Center area containing:

(i) State map outline with projecting rays.

(ii) Wording "A fine quality Michigan product" positioned to left of map outline of lower peninsula.

(b) Surrounding border containing wording:

(i) "Michigan seal of quality" reading from left to right in upper half.

(ii) "Department of agriculture" reading from left to right in lower half.

(c) As illustrated:

(3) Emblem color: Color shall be 2-color combination of contrasting colors, preferably blue and maize (chrome or golden yellow) or a single color, preferably blue or red.

(a) When using 2-color combination (blue and maize):

(i) State map outline, center area copy, border area, and ray lines shall be of 1 color (blue).

(ii) Center area proper shall be of contrasting color (maize).

(iii) Border copy and state area shall be reversed out.

(iv) User's number shall be same color as state map outline or of a color contrasting with state area.

(b) When using a single color:

(i) Border boundaries, border and center area copy, state map outline, ray lines, and user's number shall be in color.

(ii) User's number may or may not be of same color as single color.

(iii) Border, center, and state areas shall be reversed out.

(c) Radiant ink shall be used when feasible.

(4) Emblem reproduction: Emblem shall be reproduced only, in actual or reduced size, by photomechanical method or method recognized as suitable for making a like reproduction from design(s) provided by the department.

(a) Emblem shall be reproduced only by such person who has on file with the department a signed official agreement for reproduction of emblem.

(b) Emblem shall not be incorporated with, become a portion of, or be superimposed upon, a private brand device, trademark, copyright design, signature cut of any person, or private or other public grading mark or device.

(c) No emblem shall be printed for use until printer's final proof has been approved by the director, and no emblem shall be used until finished copies or samples of such emblem have been approved by the director.

(5) Emblem size: Size of emblem for each manner of use to designate a product as being "Michigan seal of quality" shall be approved by the director.

(a) Approved size of emblem may be obtained by submitting to the director:

(i) Name and address of person using emblem.

(ii) Product with which emblem shall be used.

(iii) Manner in which emblem is to be used to identify product as "Michigan seal of quality."

(6) Emblem use: Emblem shall be used only for marketing of agricultural products grown, packed, and processed within this state which have been officially graded and meet "Michigan seal of quality" standards of quality established for use in marketing the product and shall bear the user's number when applied to such product. Reuse of emblem and any crate, carton, package, or other container or any other device bearing the emblem for any product intended for sale shall be prohibited without prior defacing of the emblem.

(7) Emblem user number: Emblem users will be assigned a number upon proper application to the department for use of emblem and approval of use by the director.

(a) User's number shall appear in the center portion of lower half of lower peninsula in:

(i) A legible manner other than writing.

(ii) Arabic numerals.

(iii) A color contrasting with that of the background area of the lower peninsula.

(8) Labels, tags, or other devices: Labels, tags, or other devices bearing the emblem which are attached to, affixed, or placed upon any crate, carton, package, or other container of products or upon the product itself by means of adhesion, shall meet the following specifications:

(a) Paper stock shall be strong enough to adapt to special gumming and porous enough to accept waterproofing and fine registration (when emblem will be subjected to various moistures).

(i) For labels and other similar devices, paper stock shall be at least equal to 60 pound, coated, litho, pressure sensitive stock.

(ii) For tags and other similar devices, paper stock shall be at least equal in quality to coated, rope fiber stock of .015 inch in thickness.

(b) Gumming shall be all-purpose, permanent, pressure sensitive, quick tack with ability to cohere to various surfaces, including rough paper and wood,

polyethylene, glass, and similar materials, under various conditions for a prolonged period of time and of a strength which will prevent separation of gum from its bonding surface without defacing the bonded material. When used to apply a material directly to surface of a product, whether surface is edible or disposable, gumming shall also be nontoxic.

(c) Waterproofing shall be used to prevent permeation by various moistures if emblem shall be subjected to moistures while attached to a product moving through normal marketing channels. Waterproofing shall be accomplished through over-varnishing with a nontoxic lacquer or equivalent material or equivalent waterproofing process.

(d) Radiant ink is preferred whenever feasible.

(e) Tags and other similar nonadhesive devices bearing the emblem shall be attached to, affixed or placed upon crates, cartons, packages, or other containers in a manner making unwarranted removal without defacement impractical.

(9) Penalties: Any unauthorized printing, use, or disposition of emblem or packaging material bearing the emblem shall be subject to penalty by cancellation of permit to manufacture or use the emblem or packaging material bearing the emblem, and to other penalties as prescribed in the law.

(10) Definitions. As used in this rule:

(a) "Agricultural product(s) grown, packed, and processed within this state" means a product(s) of agricultural origin which, itself or major components, attained final state through a period of growth generally associated with the development of the product, has been packed and/or processed within the state.

(b) "Department" means the Michigan department of agriculture.

(c) "Director" means the state director of agriculture.

(d) "Emblem" means the official "Michigan seal of quality" emblem.

(e) "Emblem user" means any person qualified to use the emblem through official written agreement with the department.

(f) "Growth" means an increase in cell size and/or number of cells of a living organism which results in an increase in volume and weight.

(g) "Person" means individuals, partnerships, trusts, associations, corporations, and any and all other business units, devices, and arrangements, or receiver, trustee or assignee of such business units.

(h) "Product(s)" means agricultural product(s) grown, packed, and processed within this state.

R 285.536.2 Bulk display markings.

Rule 2. All eggs sold to consumers from bulk lots must have displayed a plainly legible sign or placard conspicuously placed and posted in such a position as to clearly and accurately identify the eggs designated thereby. Such a placard shall be marked with the full, correct, unabbreviated designation of size followed by designation of grade as provided in Act No. 244 of the Public Acts of 1963. The minimum size of this placard shall be 8½ x 11 inches. This placard shall be white with the printing on it in dark blue or black ink in plain block letters not less than ½ inch in size.

History: 1954 ACS 37, p. 8, Eff. Feb. 14, 1964.

R 285.536.3 Cartons and other container markings.

Rule 3. Each container in which eggs are packaged for retail sales shall be marked with the following:

(a) The full, correct, unabbreviated designation of size, number of eggs contained, and designation of grade. This information shall appear on the principal panel of the container in a clear, legible manner on a contrasting background.

(b) The name and address of the producer, wholesaler, retailer, or agent by or for whom the eggs were graded or packed.

History: 1954 ACS 37, p. 8, Eff. Feb. 14, 1964.

R 285.536.4 Reused containers.

Rule 4. Eggs shall not be placed or packed in any used or secondhand container bearing any name, markings, or any designation of brand, quality, grade, or other matter unless all such markings which do not properly and accurately apply to the eggs placed or packed therein have been removed or obliterated.

History: 1954 ACS 37, p. 8, Eff. Feb. 14, 1964.

R 285.536.5 Misuse of marked containers.

Rule 5. Any container of eggs which bears a name, a trademark, or a trade name shall not be sold or used unless such a name, trademark, or trade name is obliterated or effaced, except where the seller or user is entitled to use such name, trademark, or trade name.

History: 1954 ACS 37, p. 8, Eff. Feb. 14, 1964.

R 285.536.6 False writings.

Rule 6. It is unlawful to render to any producer, first receiver, wholesaler, retailer, or consumer an invoice, statement, or bill showing the size, quality, representation of freshness, or any other description of eggs which is false, deceptive, or misleading in any particular.

History: 1954 ACS 37, p. 8, Eff. Feb. 14, 1964.

R 285.536.7 Denaturing or other disposition of eggs.

Rule 7. Approved denaturing or disposing of eggs as required in sections 2, 3, and 11 of Act No. 244 of the Public Acts of 1963, being §§289.322, 289.323, and 289.331 of the Michigan Compiled Laws, shall be accomplished by the addition of 1 of the following materials to such eggs which must be broken out of the shell:

(a) Fish meal
Alfalfa meal
Ground meat scraps
Tankage
Lamp black
Finely ground charcoal

Any of the above shall be added in quantity of not less than 5% of the total volume or weight of the material to be denatured and shall be mixed with such material.

(b) By the addition of natural coloring matters, such as alkanet, annatto, carotene, cochineal, green chlorophyl, saffron, turmeric, or any approved and certified contrasting food color in sufficient quantity to completely alter their appearance, to eggs after such eggs have been broken out of the shell.

(c) In lieu of denaturing such eggs, voluntary destruction or disposal may be accomplished by dumping into a disposal system.

History: 1954 ACS 37, p. 8, Eff. Feb. 14, 1964.

R 285.536.8 Disposition of eggs; exceptions.

Rule 8. The provisions of R 285.536.7 shall not apply to incubated eggs produced for research or pharmaceutical purposes when such eggs are removed from the premises where incubated upon the written approval of the director of agriculture.

History: 1954 ACS 37, p. 8, Eff. Feb. 14, 1964.

REGULATION NO. 537. CUCUMBERS FOR PICKLING

(By authority conferred on the commission of agriculture by section 2 of Act No. 91 of the Public Acts of 1915, being §285.32 of the Michigan Compiled Laws)

R 285.537.1 Application of rules.

Rule 1. (1) These rules are the basis for determining quality and size of cucumbers for pickling as they are received from or delivered by the grower to a brining plant, packing plant, processing plant or loading station.

(2) These rules do not apply to the sale of cucumbers for pickling when the sale is made by the grower direct to the consumer.

(3) These rules do not prohibit the purchase of, or contracting for pickling cucumbers on a field-run basis, by the hundred-weight. If the value of field-run cucumbers to the grower is established by sizing or grading, grades no. 1 through no. 4 shall apply.

(4) The grower shall receive compensation for all cucumbers for pickling used in any manner by the processor for or in the preparation of human food.

(5) All cucumbers for pickling shall be purchased according to the standards and grades prescribed by these rules.

History: 1954 ACS 44, p. 16, Eff. Dec. 1, 1965.

R 285.537.2 Quality standards.

Rule 2. Cucumbers for pickling shall consist of cucumbers which show characteristic color and which are fairly well formed, fresh and firm, but are not full grown or ripe; which are free from decay and from damage caused by dirt, freezing, sunburn, mosaic, or other disease, insects, mechanical, or other means.

History: 1954 ACS 44, p. 17, Eff. Dec. 1, 1965.

R 285.537.3 Grades.

Rule 3. Cucumbers shall be graded as follows:

(a) No. 1 grade cucumbers shall be not over 1 1/16 inches in diameter.

(b) No. 2 grade cucumbers shall be over 1 1/16 inches but not over 1 1/2 inches in diameter.

(c) No. 3 grade cucumbers shall be over 1 1/2 inches but not over 2 inches in diameter.

(d) No. 4 grade cucumbers shall not meet the requirements of grades 1, 2, and 3 but have an economic value and be fit for use in the preparation of human food products.

History: 1954 ACS 44, p. 17, Eff. Dec. 1, 1965.

R 285.537.4 Measurement of size.

Rule 4. The standard of measure for determining size shall be any gauge or machine or other device which furnishes an opening between 2 parallel sides through which will pass cucumbers of 1 1/16 inches, regardless of length, for the no. 1 grade; of 1 1/2 inches, regardless of length, for the no. 2 grade; and of 2 inches, regardless of length, for the no. 3 grade.

History: 1954 ACS 44, p. 17, Eff. Dec. 1, 1965.

R 285.537.5 Definitions.

Rule 5. As used in these rules:

(a) "Characteristic color" means that the color is typical of cucumbers for pickling. Cucumbers that show whitish or yellowish-green areas due to shading by the vines or other causes shall not be considered as lacking characteristic color, unless the appearance is seriously injured.

(b) "Damage" means any injury or defect which materially affects the pickling quality.

(c) "Diameter" means the minimum dimension at right angle to the longitudinal axis of the cucumber, exclusive of warts.

(d) "Fairly well formed" means that the cucumber is not materially curved, materially tapered more than normal at 1 or both ends, or otherwise materially misshapen for pickling purposes.

(e) "Fresh" means that the cucumber is bright, not wilted, or old.

(f) "Full grown" means that the cucumber has a dull appearance, is fairly smooth, and warts when present, are not prominent.

(g) "Person" means individual, partnership, trust, association, corporation, and any other business unit, or a receiver, trustee or assignee thereof.

History: 1954 ACS 44, p. 17, Eff. Dec. 1, 1965.

R 285.537.6 Effective date.

Rule 6. These rules shall take effect on December 1, 1965.

History: 1954 ACS 44, p. 17, Eff. Dec. 1, 1965.

REGULATION NO. 538. EGG BREAKING

(By authority of Act No. 344 of the Public Acts of 1917, as amended, Act No. 193 of the Public Acts of 1895, as amended, and Act No. 244 of the Public Acts of 1963, as amended, being §289.201 et seq., §289.81 et seq., and §289.321 et seq. of the Michigan Compiled Laws)

R 285.538.1 Egg breaking.

Rule 1. (1) A separate breaking room must be provided, constructed so that it can be easily cleaned, is well lighted, drained, and ventilated to remove objectionable odors. No eggs for human consumption shall be broken out of the shell except in such separate breaking room.

(2) Equipment and containers:

(a) All equipment coming in contact with broken-out eggs shall be of impervious, chip-resistant, noncorrosive, easily cleanable material. This shall include

breaking tables, trays, knives, cups, beaters, mixers, churns, buckets, strainers, and any other equipment employed in the breaking room.

(b) New or used containers shall be used provided they are free from leaks, excessive dents, rust spots, and seams which cannot be easily cleaned and sanitized. All cans and equipment listed above must be properly washed and sanitized in accordance with procedures set forth in R 285.533.

(c) Clean garbage containers with covers must be used for shells and other waste materials. Other approved means of disposing of shells and waste materials may be used.

(d) Adequate handwashing facilities shall be located in the breaking room.

(e) Shell egg containers coming into the egg breaking room shall be so handled that they do not pass directly over or come in contact with liquid eggs, liquid egg containers, or drip trays.

(3) All personnel must practice good personal hygiene, wear clean clothes, be free of communicable diseases, use effective hair restraints, and refrain from using tobacco in the breaking room.

(4) The following eggs may not be used or included in the broken out stock:
Incubated
Dirty
Smashed
Open leakers
With portion of shell and membrane missing
With diffused blood in yolk or albumen
Black rots
White rots
Mixed rots
Green whites
Crusted yolks
Stuck yolks
Sour or musty
Moldy
Containing foreign matter other than removable blood and meat spots.
With developed embryos at or beyond blood ring stage.
Any other eggs that are unfit for human consumption.

(5) The following eggs may be used or included in the broken out stock:
Of interior quality equal to or better than U.S. grade C quality
With adhering dirt or shell stains after properly cleaning
With blood and meat spots that can be removed
With cracked or checked shells as long as shell membranes are not broken.

(6) Refrigeration, freezing, and handling:

(a) Eggs to be broken for sale as liquid, frozen, or dried egg products shall be held at temperatures not to exceed 60 degrees Fahrenheit except during candling.

(b) The atmospheric temperature in the candling or breaking rooms, as measured 5 feet above the floor, shall not exceed 75 degrees Fahrenheit.

(c) Liquid eggs must be refrigerated at 40 degrees Fahrenheit or lower immediately after can is filled and maintained at 40 degrees Fahrenheit or lower until used.

(d) Liquid eggs to be frozen must be placed in a freezer at a minimum of minus 10 degrees Fahrenheit immediately after filling cans and must be frozen solid within 60 hours after breaking.

(7) Cleaning and sanitation:

(a) All breaking equipment coming in contact with the liquid eggs must be cleaned and effectively sanitized at the start of operations each day and at least twice more during each day's operations.

(b) All breaking equipment coming in contact with reject or dirty eggs or eggs with objectionable odors must be removed from service until cleaned and sanitized.

(c) All other equipment in breaking room must be kept clean at all times.

(d) Personnel shall wash their hands often and must wash them after contact with reject or dirty eggs.

(8) All liquid, frozen, and dried egg products for human consumption must be free from salmonella organisms and other pathogenic bacteria. They shall be free from rotten, putrid, blood, decomposed eggs, or any other material that is unfit for human food.

(9) All containers of liquid, frozen, or dried egg products must be identified and labeled as follows:

(a) Identification of the product, such as "frozen whole eggs," "liquid whole eggs," "frozen egg whites," "frozen egg yolks," "liquid egg whites," "liquid egg yolks," "dried whole eggs," "dried egg whites," or "dried egg yolks."

(b) Name and address of the processor or, if the distributor's name and address is used, the USDA plant number or the Michigan registration number of the processor shall be indicated on the label.

(c) The date processed, placed on the can at the time of packing the egg product.

(d) The net contents.

All such information shall appear on the principal label in a plain, conspicuous, legible manner, and be in a color that definitely contrasts with its background; provided, however, if bulk tanks are used for transporting liquid eggs or egg products, the labeling information as required in this subrule shall accompany each shipment.

History: 1954 ACS 43, p. 10, Eff. Aug. 14, 1965.

REGULATION NO. 539. POTATOES FOR SALE UNDER SEAL OF QUALITY

(By authority conferred on the commission of agriculture by sections 5 and 14 of Act No. 70 of the Public Acts of 1961, section 1 of Act No. 220 of the Public Acts of 1929, as amended, and sections 9 and 177 of Act No. 380 of the Public Acts of 1965, being §§289.635, 289.644, 290.151, 16.109, and 16.277 of the Michigan Compiled Laws)

R 285.539.1 Standards of quality, grading, and inspection.

Rule 1. (1) Only potatoes produced, packed, and processed within the state may be identified with "Michigan seal of quality."

(2) Each lot of potatoes identified as "Michigan seal of quality" shall be graded in accordance with the standards as set forth in this rule and shall be accompanied by a federal-state inspection certificate denoting grade.

(3) The "Michigan seal of quality" label, tag, or other device bearing the official emblem shall be obtained only at sources approved by the Michigan department of agriculture.

(4) The use of the "Michigan seal of quality" in marketing potatoes is available to any person, firm, or corporation who shall comply with this rule and any instructions issued therewith.

(5) No person, firm, or corporation shall use the "Michigan seal of quality" in connection with the grading and labeling of potatoes unless there is in force an

official written agreement between the applicant and the Michigan department of agriculture. The director shall issue a permit to make and imprint on tags, labels, and other devices the "Michigan seal of quality" emblem for potatoes to manufacturers who sign an official agreement with the Michigan department of agriculture. All agreements and permits shall expire 1 year after date of issuance. Request for renewal of such agreement or permit must be made annually prior to date of expiration and shall be in effect unless otherwise notified by the director.

(6) Violations of any of the applicable laws and regulations shall be subject to penalty by revocation of permit to use the "Michigan seal of quality" and to other penalties as described in the law.

(7) The grade for potatoes shall be "Michigan seal of quality" and the standards for such grade to which the seal can be affixed are as follows:

(a) Individual container of potatoes shall consist of potatoes of 1 variety approved by the director of agriculture and shall be:

(i) Fairly well matured and well shaped.

(ii) Clean unless specified as fairly clean.

(iii) Not frozen.

(iv) Free from freezing injury, blackheart, late blight, southern bacterial wilt, ring rot, soft rot, or wet breakdown.

(v) Free from damage caused by sunburn, greening, second growth, growth cracks, air cracks, hollow heart, internal discoloration, external discoloration, shriveling, sprouting, scab, dry rot, rhizoctonia, dried stems, insects, larvae, worms, other disease, or mechanical or other means.

(b) The size shall be specified in connection with the grade and classified as large or extra large in accordance with 1 of the following size classifications:

(i) For round or intermediate shape varieties such as Irish Cobbler, Katahdin, Sebago, Pontiac, Kennebec, Green Mountain, or other similar varieties:

Large—Shall consist of potatoes not less than 2¼ inches in diameter or more than 3¼ inches in diameter.

Extra large—Shall consist of potatoes not less than 2¼ inches in diameter or more than 3¾ inches in diameter.

(ii) For long varieties such as Russet Burbank, Early Gem, White Rose, or other similar varieties:

Large—Shall consist of potatoes not less than 6 ounces or more than 10 ounces.

Extra large—Shall consist of potatoes not less than 10 ounces or more than 14 ounces.
